many appeals

A large number of citizens attended the first sitting of the Court of Revision last night. The matter before the chair was the assessment on the sewers contructed last year. There were thirty-two appeals in all heard and disposed of and the court adjourned until next Tuesday night.

One peculiar feature of the session was that two or three residents claimed that they were not assessed enough. These appeals, of course were very easily and quickly adjusted and the appellants were sent away happy. The great majority of cases, however, were that they had been assessed too much. The amount of the assessment appealed against varied from a few inches to a few feet. These were very easily fixed.

Five residents on Water street put in a kick about being assessed for the Water street sewer, which was constructed last year. They claimed that they had a sewer up the lane from Water street to Dennistoun avenue, for which they paid. The court held, however, that the main sewer would have to be paid for just the same, and the assessment was confirmed.

Residents on King street had the same complaint and they received the same treatment.

The Court of Revision is composed of Wm. Langford, chairman; B. Morrow and A. E. Dixon.

Mrs W. A. Erskine left today for Winnipeg on a visit to friends.

Mr and Mrs. A. J. Gibson left today for Regina to make a new home for themselves.

LARDER LAKE ORE

From Blue Bell Shown at Cobalt

Cobalt, May 3.—J. G. Magee, the consulting engineer of the Blue Bell gold mines of Larder Lake, arrived here today with a bag of gold ore weighing about two hundred pounds, taken from the Blue Bell properties. The free gold can be plainly seen in every piece. Assays taken there show close to $8,000 to the ton. Mr. Magee says he put in six test shots at various places on the Blue Bell properties and found gold in every instance. Mr. Magee is on his way to Toronto to purchase boats and complete camping outfits in order to prepare for the stamp mill to be installed by the company at once. Mr. Magee will return to Larder Lake and take charge of and push the development of the Blue Bell properties.

Mr Magee is a mining engineer of known reputation and reliability. He believes the Larder Lake district will prove one of the greatest gold fields in the world and that the Blue Bell will make a great record as a producer.

Long Distance Telephone Rates

Are Much too High—Railway Commission to Hear Complaints

His Worship Mayor McWilliams has received the following telegram from Mr. W. D Lighthall, secretary of the Union of Canadian Municipalities, with headquarters at Montreal;

"The Dominion Railway Commission sat in Montreal on April 29th to approve of the tariff of charges of the Bell Telephone Co, and adjourned for two weeks. Please prepare objections to your rates and say whether they are stated in the Telephone Commission's report. Do you propose any other steps?"

The mayor will bring this matter up at the committee of the whole one Monday night. There are a few objections to be raised here. One is that the citizens should not be charged an additional $5 for up-to-date fixtures. The general rate is not too high, but to change from the old-fashioned photo to a modern photo costs $5 more. Then the long distance charges are altogether too high. In this respect Peterborough will be backed up by every municipality in the Dominion. It is likely the council will comply with the requests of the Municipal Union.

To-day's Market Was Poor One

Bad Weather Kept the Sellers and Buyers Away

The attendance on the market today was very slim, owing to the break in the weather. There was scarcely anything offered for sale on the outside market, but in the hall eggs and butter were fairly plentiful. The former sold at 14c to 15c per dozen, and butter changed hands at 25c to 27c per pound for good stock. Chickens sold at 65c to 85c per pair and were scarce.

There was a good demand for fresh fish and perch and suckers were disposed of at 15c and 20c per half dozen according to size. Potatoes sold at 85c per bag, but there were very few offered for sale.

PETERBOROUGH RAG AND METAL COMPANY

Skating Contest at Roller Rink

Miss Lexa Ritchie Won the Prize Last Evening

There was a large attendance at the Charlotte street roller rink last evening, both of spectators and skaters. The ladies' skating contest was the special feature last night and proved to be very interesting.

A large number entered and the judges had an exceedingly hard task to pick out the best one, as there were so many who were equally proficient in the art of roller skating. Finally they gave their decision in favor of Miss Lexa Ritchie who was presented with five dollars in gold amid much applause.

The ladies who so kindly acted as judges were Mrs. Barber, and Misses L. Whitcroft and Bessie Brightman.

Drooping—Tired—Weary

You Feel Depressed, Dragged Out, and Sort of "All Gone"—Shake Off That Tired Feeling, Get Well and Strong, Fortify Your Nerves, Nourish Your Blood.

FERROZONE

You are getting pale and thin. You're dragged down with a "don't care" feeling that makes life most unhappy. Your strength is fleeting away, and weakness is creeping in. Every day your chances for cure becomes smaller.

Trouble is you don't assimilate your food, consequently the body is poorly nourished. The blood is thin, lacks those red corpuscles that denote health.

You can only prevent a total collapse by building up all the powers of the body with Ferrozone, which will surely make you well. Ferrozone creates tremendous appetite, increases the power of digestion, and insures perfect assimilation. Everything you eat is at once converted into nourishment.

FERROZONE makes rich, pure blood, a surplus of energy, new life for the nerves and all over-strained organs. Robust health will glow on the cheeks, jovial spirits, increased weight, and a clear, active brain will evidence a few of the benefits that follow Ferrozone.

GAINED 15 POUNDS.
Mr. H. A. Thurston, of 228 Vermont St. E., Indianapolis, Restored by Ferrozone.
"A year ago I took the grippe. I was as weak as a child. I was no longer able to eat. My blood was thin. My cheeks were white and hollow. Doctors gave me all kinds of medicine, but none of them brought me strength. My friends said I was wasting away with some slow disease, and I bade them good-bye. Then I heard of the wonderful Ferrozone. After three days it gave me an appetite. I gained strength and became cheerful. Under Ferrozone I improved steadily. I am well to-day. I weigh fifteen pounds heavier than ever before, and feel like a new man.
(Signed) "H. A. THURSTON."

The effect of Ferrozone is instant, yet permanent. For upbuilding and invigorating the listless and depressed it has no equal. It's the concentrated nourishment in Ferrozone that makes it so beneficial. We guarantee it contains no opiates, no alcohol, nothing but the most strengthening qualities known in medicine. Won't you use Ferrozone; it will surely make you well.

BUILD UP WITH FERROZONE!
Ferrozone Makes the Weak Strong—the Sick Well.

CAUTION! Be on your guard against the substitutor who urges something "just as good." Get FERROZONE when you ask for it. Other tonics are not so good as FERROZONE, which is guaranteed to cure. Price 50c per box of 50 chocolate coated tablets. Sold by all reliable dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ontario.

Premiers Gazed on British Navy; Was Most Impressive Sight

Visit Portsmouth to Inspect Pick of Empire's Warships.

"Dreadnought" Was Object of Great Interest—Conclusion of Preference Debate — Chancellor's Statements Resented by Sir William Lyne—Laurier Opposes Dislocation of the Canadian Tariff.

London, May 4.—The concluding part of the precis of the debate at Thursday's conference session was issued yesterday. Sir William Lyne of Australia regretted Mr. Asquith's statement, because he did not regard it as quite fair to treat the short tariff offered by Australia, and which was a beginning only, as the result of the preference movement there. The people of Australia resented the idea that they, the kith of the Motherland, should be treated on the same footing as foreigners. There was a margin on the imports of foodstuffs on which the colonies could be assisted, with the result that an additional revenue would be obtained at the expense of the foreigner and not the consumer. He contended that free trade must not be accepted as an inherited dogma. He asked also why there should not be special consideration for Australian wines.

Imperial Defence Fund.

Dr. Smartt warmly supported Dr. Jameson and Mr. Deakin. He referred in favorable terms to Hon. J. H. Hofmeyer's proposal for a defence fund raised by means of duties on foreign goods entering any port in the Empire.

Sir Wilfrid Laurier opposed this principle, pointing out that its adoption would dislocate the Canadian tariff, which had costs months of labor to arrange.

Sir Joseph Ward also hesitated to accept it.

The conference meets again on Monday.

Balfour Favors Preference.

Mr. Arthur Balfour, speaking at Albert Hall yesterday, said he could not see anything to which any free trader could object in desiring to maintain the united Empire. The attitude of the present Government was one of pure folly. How long would it be possible for Canada to remain open for an arrangement with the Mother Country on favorable terms, when that Mother Country insisted upon returning an unfavorable answer to her suggestions. She would be forced to accept the offers of other countries, like Germany and Italy. However, he could not doubt for one moment that the policy of preference which he and his friends had advocated would ultimately be the policy adopted by this country. (Loud cheers.) They had been reinforced in the last few weeks with such emphasis as might even have impressed the deaf and blind. The spirit and actions of the Government were of a kind which must deplete the Empire and lessen its force and strength.

PREMIERS SEE DREADNOUGHT.

World's Greatest Battleship Duly Impresses Colonial Visitors.

Portsmouth, England, May 4.—The Colonial Premiers were all brought here yesterday as guests of the Admiralty, to get a glimpse of the Empire's navy. Ten battleships, including the Dreadnought, a score of cruisers and 37 torpedo boat destroyers, all belonging to the home fleet, assembled in these waters, were reviewed by the visiting statesmen, who were especially interested in the newest battleship. In describing the Dreadnought, the official program of the day's proceedings says:

"She has satisfied her creators and fulfilled all anticipations. When 80 per cent. of her guns were first fired together, with a total energy of 345,792 foot tons, some cups and saucers were broken. All else withstood the immediate concussion, and the difficult problem of preventing the blast of one gun from interfering with that of another was found to have been satisfactorily solved."

Fifty Years a Lawyer.

Ottawa, May 4.—Sir Elzear Taschereau, ex-Chief Justice of the Supreme Court of Canada, will to-day have been a member of the Bar for fifty years. Sir Elzear is enjoying excellent health. There will be no formal celebration of the event.

Bricklayers Will Strike.

London, Ont., May 4.—At a meeting held Thursday night in the rooms of the Trades and Labor Council, the bricklayers of the city determined to strike unless some agreement is arrived at immediately. Wages is the point at issue.

New Government Position.

Ottawa, May 4.—The organization of the Department of Mines and Geology is going forward. It is understood that A. P. Low has been offered the position of Deputy Minister of the new Department.

Elevator Men Go Out.

Fort William, May 4.—All elevator men struck at 1 o'clock. They want 25 cents per hour. The company offers 22 1-2 cents. There are 150 out, and the big fleet vessels will to tied up.

Cook's Cotton Root Compound.
The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

BLACKSOD BAY SCHEME.

Would Require Subsidy to Succeed Says One of Promoters.

London, May 4.—(C. A. P.)—Regarding the Blacksod Bay scheme Sir T. Troutbridge, one of the promoters, giving evidence in the House of Commons, stated that if the subsidy of £300,000 annually for ten years was given by the imperial and Canadian Government and the Collooney railway bill passed, he and his colleagues were prepared to raise the whole capital required (£5,000,000), to construct the railways, harbor works and the steamship and to carry out all the incidental works.

He had talked over the matter with Premier Laurier and Lord Strathcona, both of whom displayed great interest in the scheme. They could not, however, make any statement as to granting a subsidy until some definite proposal was laid before them.

E. L. Bentley, agent for Swan and Hunter of Newcastle said Mr. Fielding also had showed great interest in the project, and seemed to think it would be satisfactory if the service was one of 25 knot boats. In his opinion, five steamers would be required.

KILL COUNT FOR DESPERADO.

California Posse End the Life of Romantic Wanderer.

San Francisco, May 4.—The supposed desperado who was killed at Willows Monday night after a running fight with a posse of officers, has been identified as Count Otto Von Waldstein of Austria, son of a noble family of history, nephew of the cardinal, and to Prince Wariemburg, one of the richest men in Franz Joseph's empire.

Count Otto died fighting, believing he was being attacked by a band of robbers. The posse thought it had run down Smith, the murderer of John Marcovich of Oakland.

Count Otto Von Waldstein left Austria and family six years ago because of a love affair. He fought through the Boer war. He wandered to America, a poor man without a profession.

SILVERSLIP CREW RESCUED.

Shipwrecked Men Picked Up By the Westgate.

Plymouth, Eng., May 4.—The British steamer Westgate from Rosario, March 24, for the Tyne, arrived here yesterday and landed the survivors of the crew of the British tank steamer Silverslip, which was destroyed on May 1 by an explosion of benzine in her cargo while passing through the Bay of Biscay.

The Silverslip, Captain Hocken, which belongs to the Shell Transport and Trading Company of London, was on her way from Singapore. The engineer and four firemen were killed, and four others of the crew were seriously burned. The 48 survivors of the crew were rescued by the Westgate and brought to this port.

Robert Grassie, miller at Mount Albion, was drowned.

A TERRIFIC EXPLOSION

Heavy Loss of Life and Hundreds Injured in Canton.

Big Gun Powder Magazine Blows Up—Part of Massive City Wall Shaken Down — Twenty-One Bodies Found in the Ruins—Historical Pagoda Slightly Damaged—Fifteen Buildings Razed.

Hong Kong, May 4.—Great destruction of life and property was caused at Canton Thursday evening by the explosion of a gunpowder magazine. Twenty-one bodies have already been recovered from the ruins. Hundreds of persons were injured. Fifteen buildings were razed, and over a hundred others were wrecked.

A section, two hundred feet long, of the massive city wall, was thrown down. The historical many-storied pagoda escaped with slight injuries. The officials and staffs of the hospitals are doing their best to succor the sufferers. In the Shamien suburb, where foreigners live, a terrific shock, caused by the explosion, was felt, but the residents were unharmed.

Some idea of the force of the explosion may be gathered from the fact that the roofs of houses a mile distant were blown off.

A number of important Chinese and foreign mercantile establishments were demolished.

The bodies recovered from the ruins near the magazine were shockingly mutilated. Many corpses of men and women were without heads.

The officer in charge of the magazine was among those killed, and when the body was recovered a pipe was found clutched in his hands, which suggests the possible cause of the explosion.

The financial losses are enormous.

ANOTHER MINE FATALITY.

Three Men Killed and Six Injured This Time.

Johnstown, Pa., May 4.—Three men were killed and six others injured, three fatally, Thursday, in an accident in an ore mine at Riddlesburg, Bedford County. The men were all foreigners. A shifting crew placed a car on which the men had been unloading ore, on a trestle, while other cars were being placed.

When the engine backed to the main track it struck the car, which was derailed, and fell 60 feet into a creek below.

VOLCANO STILL ACTIVE.

Stromboli Is Throwing Out Red-Hot Stones.

Naples, May 4.—The volcano on Stromboli Island is still very active, and is throwing up large quantities of red-hot stones. Prolonged subterranean rumblings are frequently heard. The lava is now taking its former course to the sea down the north side of the mountain. Showers of scoriae began again Thursday, but the inhabitants show no alarm.

Tenor Cuts Tongue Out.

Milan, May 4.—Arcangelo Rossi, the tenor, who was with the Conried Opera Co. in San Francisco during the earthquake, and who, as the result of the fright he experienced, has not since been well, endeavored to commit suicide here Thursday.

Recently he lost his voice. This calamity weighed so deeply on his mind that he went crazy, and Thursday he cut out his tongue with a pair of scissors.

Empress of Britain Delayed.

St. John, N. B., May 4.—The Empress of Britain was 12 hours late leaving St. John. Instead of getting away between three and four yesterday afternoon, she did not sail until that time this morning. The delay was due to a freight wreck on the C. P. R., near Megantic, which blocked the line and prevented the arrival of the Montreal train, bringing upwards of 200 passengers for the steamer.

Shot by His Neighbor.

New York, May 4.—A despatch from Liberty, N. Y., says that Philip Sullivan, aged 44, manager of the Liberty House bowling alleys and billiard parlor, was shot and killed Thursday night by Michael Noeth. Sullivan was romping with his children on the lawn at his home when Noeth, who is a neighbor, shot him without warning. Noeth is under arrest. No cause is known for the tragedy.

Freight Handlers Go Back.

Quebec, May 4.—The strike of freight handlers at the Levis Station has been settled, the trainmaster of the G. T. R. at Island Pond visiting Levis Thursday and making arrangements whereby the men returned to work, and freight is being accepted and shipped as usual.

New Three-Cent Rate.

Ottawa, May 4.—The new three-cent passenger rates of the Grand Trunk Railway will go into effect on May 15. The C. P. R. has not yet filed its rates with the Railway Commission. The Canadian Northern and some of the smaller lines are opposing the reduction in rates.

Two Americans Suspected.

Guatemala City, Guatemala, May 4.—Among the persons arrested on suspicion of having been connected with the attempts on the life of President Estrada Cabrera, April 29, are two Americans named Cooke and Wilkinson, a railroad contractor.

Asquith Mistaken.

London, May 4.—(C. A. P.)—The Morning Post states that Asquith underestimated the imports of the colonies by £62,000,000. By the official returns the figures should be £127,868,726, not £65,750,600, as the chancellor stated.

The St Lawrence River is now open to Montreal, the ice bridge at Cape Rouge having moved away Wednesday.

SERIOUS RIOTS IN INDIA

Angry Hindoo Mob Does Great Damage.

Burned Two Bungalows—Looted Postoffice—Mission House Pillaged—Europeans Are Attacked—Police Gained Upper Hand—Troops Now In Control—Outbreak Attributed to Speeches of Well-Known Agitators.

Allahabad, British India, May 4.—Serious anti-European riots have occurred at Rawalpindi, Punjab.

A Hindu mob burned two bungalows, pillaged the mission church, looted the postoffice, burned a garage and all the motor cars in it, destroyed the plant of a power-house, and smashed the windows of the residences of many Europeans.

Armed police eventually obtained the upper hand and dispersed the rioters.

The town is now patroled by a squadron of 10th Hussars.

The outbreak is attributed to the incendiary influence of a number of well-known agitators, who have been making speeches throughout the Punjab, and who are also held responsible for the recent outbreak at Lahore.

Rawalpindi is a fortified town of the Punjab, capital of the Rawalpindi division and district. It is situated forty-seven miles from Attock, an important strategic position on the Indus, and has a population of about 90,000.

Rawalpindi is the administrative capital of the division and district of its own name between the Indus and Jhilam, on the railway from Lahore to Peshawar. There are an arsenal, a fort, a fine public park, several European churches, and the headquarters of the Punjab Northern State Railroad. Transit trade is carried on with Cashmere and Afghanistan. The Sikhs surrendered there, and in 1885 a great durbar or review was held.

APOLOGIZES TO MEXICO.

Guatemala Sorry For Having Cast Insinuations.

Mexico City, May 4.—Guatemala has apologized to the Mexican Government for insinuating that the Mexican legation at Guatemala City was harboring the men who are suspected of attempting to assassinate President Cabrera of Guatemala last Monday morning.

Minister of Foreign Affairs Marsical received this information late yesterday in a cable despatch from Minister Gamboa, now at Guatemala City. The incident is now closed to the satisfaction of the Mexican Government.

The question of extradition of Jose Lima, charged with complicity in the assassination of ex-President of Guatemala Manual Barrillas, while the latter was under the protection of the Mexican flag, is still pending.

The Team For Bisley.

Ottawa, May 4.—The Bisley team is as follows:

Commandant Col. Hon. J. M. Gibson, 13th Hamilton; Adjutant W. Duff Stuart, 6th D.C.O.R., Van., B.C. shooting members: Sergt. Graham, 48th Toronto; Sergt. A. A. Couhill, 90th Winnipeg; Sergt. F. H. Morris, 46th; Capt. C. U. Mitchell, Winnipeg; Maj. Rennie, 2nd Q.O.R., Toronto; Capt. W. H. Hart, McHaigh, 6th D.C.O.R., Van., B.C., Col.-Sergt. Moscrop, 6th Van., B.C., Sergt. H. Kerr, 48th Toronto; Sergt. W. Creegan, Royal Gar. Artillery, Quebec, Que.; Sergt. J. McVittie, 48th Highlanders, Toronto; Sergt. D. McKay, 5th Regt., C.A.; Victoria, B.C.; Sergt. S. C. Carr, 5th Regt., Victoria; Lieut. B. G. Convese, 7th Hussars, Quebec.

Replies are being waited to make up the full list from Sergt. Brayshaw, 5th Regiment, C.A.; Lieut. Cunningham, 6th, Van., B.C.; Major O. W. Wetmore, 74th, Clifton, N.B.; Sergt. W. A. Smith, The G.G.F.G., Ottawa; Lieut. Mulligan, 91st, Hamilton.

Waiting men are: Pte. A. B. Mitchell, 48th, Toronto, and Capt. W. L. Ross, 13th, Hamilton.

Snow In Western States.

Lincoln, Neb., May 4.—Snow, which in some places fell to a depth of four inches, covered the greater part of Nebraska yesterday, breaking all known records for May, not only in the precipitation of snow, but in the temperature, which registered 27 degrees early in the day. The snow was driven by a heavy wind in the eastern part of the State, and had all the features of a blizzard, with drifts

The Hospital

Thankful are They Who Escape The Surgeon's Knife

Thousands of surgical operations are performed every year in our great city hospitals upon women afflicted with serious female troubles. Sometimes the operations are successful—oftentimes they are not.

It is safe to say that certainly nine out of ten operations for female troubles might have been wholly avoided.

The most valuable tonic and re-builder of the female organism, the medicine with a record of thousands of cases literally snatched from the operating table, is

Lydia E. Pinkham's Vegetable Compound

Do not consent to an operation which may mean death until after you have given Lydia E. Pinkham's Vegetable Compound a fair trial. Note what it did for Mrs. Robert Glenn, whose letter follows:

DEAR MRS. PINKHAM:—Lydia E. Pinkham's Vegetable Compound is so well and widely known that it does not need any recommendation from me, but I am glad to add mine to the many which you have in its favor.

I suffered untold agonies from a serious female trouble for nearly three years, and the doctors told me I must have an operation; but I was unwilling to undergo this, and decided to try your Vegetable Compound.

I am so pleased that I did so, for it restored me to perfect health, saved me the pain of an operation and the immense bills attending the same. Please accept my hearty thanks and best wishes.

MRS. ROBERT GLENN, 434 Marie Street, Ottawa, Ont.

Thousands of women, residing in every part of Canada, bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Componnd. It cures female ills and creates radiant, buoyant female health. For your own sake try it.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

Lock Street Residents Must Pay For Privilege of Using Sewer

If $25.00 is Not Paid in Two Weeks Connections Will be Cut—More Sewers and Walks Granted by Board of Works—Arrange for Sidewalks and Crossings to Start at Once.

A lot of work was put through by the Board of Works last night in an hour and a half. There were only Chairman Duncan, Ald. McIntyre and the Mayor present, and the Mayor had to leave early, so no time was to be lost. Besides arranging for Foreman Thirnbeck to start on the short stretches of walk, and for the chairman to get a man to start on the crossings at once, the committee granted several more walks and sewers, and put through a number of other matters.

The city engineer reported on the Bell Telephone Co's application to erect poles on Babb's Lane and Homewood Avenue.

A motion by the Mayor and Ald. McIntyre granted the Bell Co. permission, provided the company can make satisfactory arrangements with the Power Co. on Homewood Avenue.

MARK STREET WALK

Messrs. R. M. Glover and Ald. Morgan appeared before the committee in reference to the walk on Mark street. Mr. Glover said that last year a position signed almost unanimously by the residents was presented to the council, asking for the walk outside the tree line. He said it would make a better looking road and would not be so hard to keep up.

Ald. Morgan said he had taken a measurement of the road at two or three points on the street, and found that the narrowest point between the trees would give forty-three and a roadway of thirty-three feet. If the walk was outside it would straighten the street right through. If the walk was put inside the street would have several jogs in it.

As there were two members of the committee who were absent the matter was left over until the next meeting. The engineer has the walk staked out for the walk to go inside, but this will not make much difference.

CHANGE STANDPIPE.

The city engineer reported that the best place for the standpipe at corner of Reid and McDonnel streets near James' store, would be near the culvert near Reid street, between Downie and Donegal streets.

On motion by the Mayor and Ald. McIntyre the city engineer was requested to report whether the watering contractor had any objection to the change and what it would cost to make the change.

STREET REPAIRS.

City engineer Hay reported on all the streets excavated by the Gas Company last year, and stated that during the winter there was very little shrinkage, and that they could be very well levelled now.

On motion of the Mayor and Ald. McIntyre the company will be furnished with a copy of the report and requested to put the streets in shape at once.

The engineer made a similar report on the streets in bad condition on account of the sewers being laid. He said that most of them were in satisfactory condition and others were being fixed up. He named several streets which should be fixed up yet.

On motion of the Mayor and Ald. McIntyre, the engineer was instructed to see that the various sewer contractors repair their roads.

SALARY INCREASE.

Chairman Duncan brought up the question of an increase in salary for Engineer Wainwright, of the fire department. He said the Fire, Water and Light Committee had granted him $35 increase, and the Board of Works should give a proportionate increase.

On motion of the Mayor and Ald. McIntyre Mr. Wainwright's salary was increased $20 a year. This brings his salary up to $600 per year, instead of $545.

A communication was received from the Board of Education asking for sidewalks to the King Edward school and for Aylmer street to be opened up from Romaine street to Lake street at once.

The city has already made a start to carry this out and it will be put through as soon as possible.

MUST PAY FOR SEWER.

There are a number of residents on Lock street who are connected with the Lock street outfall sewer. They are supposed to pay $25 for the privilege, but some of them refuse to pay and the city solicitor recommends that they be disconnected.

It was moved by the Mayor and Ald. McIntyre, that if those parties do not pay within two weeks (May 20th) their connections will be cut off.—Carried.

WORK TO START.

Moved by Ald. McIntyre and Mayor McWilliams, that Foreman Thirnbeck be instructed to proceed with the construction of the sidewalks of less length than 600 feet, except those adjoining the long stretches, which Street Commissioner Evans will build. He will commence in the centre ward and do Chambers Street and Brock street.

The chairman was authorized to appoint a man to construct crossings and he will start at once and the chairman and engineer will instruct him where to begin.

SIDEWALKS

Sidewalks on Aylmer street from Romaine to south boundary of lot No. 4, west side.

Sidewalk on John street, both sides, from King street to Bolivar.

Sidewalk on south side of Townsend street from Stewart to Rubidge.

Sidewalk on south side of Sherbrooke from Bethune to Rubidge.

Sidewalk on east side of College street from Murray to McDonnel.

Sidewalk on east side of Simcoe street from Water street to the Peterborough Cereal Co's mills.

Petition against a walk on the south side of King street from Bethune to Park, was signed by everyone, except Mr. Porter and Mrs. Thornton. This stops the walk being built.

Plank sidewalk on west side of Park street from Westcott to Romaine street.

Sidewalk on south side of Victoria Avenue from Downie street past Thos. Bigley's house.

SEWERS.

Pipe sewers on Sherbrooke street from Stewart to Rubidge.

Pipe sewer on London street from Downie street to Park street. Notice will have to be given of this sewer before it can be done.

The above sewers and sidewalks were granted on motion of the Mayor and Ald. McIntyre.

STOMACH TROUBLES ARE THE WORLD'S BIG WORRY

GET ON TO THE TRAIL OF NINETY-NINE OF EVERY HUNDRED OF OUR EARTHLY ILLS AND YOU CAN TRACE THEM BACK TO THE STOMACH.—YOU CAN BANISH STOMACH TROUBLES FOREVER WITH

Dr. VonStan's Pine-apple Tablets

Doesn't it stand to reason that nature herself has in herself a cure for our ills—and doesn't it stand to reason that nature rebels at many of the nauseous so called remedies, that pass as cures for stomach ailments?—Dr. Von Stan's Pine-apple Tablets are nature's cure in very deed, because they're purely vegetable and are extracted from one of the most luscious fruits that grows—and what a boon they have proved themselves to be, is best expressed in the hundreds of unsolicited testimonials that could be printed here—and which will be produced if you're a bit credulous.

How is your stomach affected?—Do you have sour stomach—distress after eating—weight on the stomach—wind on the stomach—Loss of appetite—dizziness—nausea—sick headache and other uncomfortable derangements?—the first tablet will give you relief and persistance will cure—and there's no case of stomach trouble so stubborn as to baffle Dr. Von Stan's Pine-apple Tablets.

Timber Limit Sold at $1,500,000

Ninety-three Square Mills in Killarney on Georgian Bay Disposed of.

The sale of a timber limit, in area over ninety-three square miles, was completed in Toronto today, the price being probably over $1,500,000.

The property is located near Killarney, is practically the last of the virgin pine limits available to Georgian Bay waters, and was sold by E. W. Sparrow, of Lansing, Mich., to Mr. W. J. Bell, Sudbury, who is understood to have some associates in the purchase.

Mr. O. E. Elsemore of Toronto, a veteran timber dealer in discussing the sale said: "This limit has been held several years at what every lumberman in Ontario thought, or said was too high a price. I am not at liberty to give the actual figures, but at the rate pine stumpage has been selling of late, I would place the value in the neighborhood of a million and a half dollars or more."

This limit was offered in 1902 for $350,000, but there was no purchaser.

Will Preach to the Rebekahs

Service Will be Held in I.O.O.F. Hall To-morrow Afternoon

Rev. Mr. Major will address the members of Golden Link Rebekah Lodge, No. 81, I.O.O.F., to-morrow afternoon at four o'clock, in the Oddfellows hall, corner of George and Hunter streets. Great interest is being shown in the service, which is the first of its kind in Peterborough. Golden Link Lodge of Lady Oddfellows, was organized Oct. 27, 1906, and has already made splendid progress, both numerically and otherwise. The ladies confer the degree in a very creditable manner, and at almost every meeting there are a number of candidates.

In addition to the ladies, all Oddfellows and any of the general public, either ladies or gentlemen, who care to attend the service, will be made welcome on Sunday afternoon. The hall is large, but it will be well to be on hand early to secure a seat.

The service is in commemoration of the eighty-eight anniversary of the founding of the Order on this side of the Atlantic, the first lodge being organized by Thomas Wildey and four others in Baltimore, Md., April 26th, 1819.

5 Cups of Tea 1¢.

Do you know that five cups of Red Rose Tea (40c. grade) only cost one cent?
You can actually make 200 cups from one pound.
It is easy to prove this. Buy a package and try it. *At your grocer's.*

RED ROSE TEA

Banks May Enter the Field With the Express Companies

A Montreal despatch says: "The regular quarterly meeting of the Canadian Bankers' Association took place today, in the Board Room of the Bank of Montreal, the president, Mr. E. S. Clouston, occupying the chair.

The chief question under discussion was the issuing of money orders by the several banks, and although it is understood that some of the members are not too enthusiastic over the matter, the majority, it is said, favor the continuance of the project and everything will be done to make the scheme as perfect as possible. The express companies, of course, are active competitors in the issuing of orders, and it is generally believed that the banks can run them, a little closer if certain suggestions made at the meeting can be carried out.

Those present at the meeting were Messrs. E. S. Clouston of the Bank of Montreal, in the chair; B. E. Walker, of the Commerce; D. Wilkie, of the Imperial; G. P. Schofield, of the Standard; H. Stikeman, of the British; T. MacDougall, of the Quebec; H. Prendergast, of the Hochelaga; W. B. Torrance, of the Royal; G. A. Balfour, of the Union; D. Coulson, of the Toronto; H. S. Strathy, of the Traders; H. J. Bethune, of the Dominion; E. F. Hebden, of the Merchants; George Burn of the Ottawa; E. L. Thorne, of the Union of Halifax; J. Elliott, of the Molsons; and J. MacKinnon of the Eastern Townships.

Another of the "Old Guard" Leaves the C.G.E. Company

Mr. R. H. Shepherd, for Eighteen Years With the Company, Presented With an Appreciative Address and Gold Chain—Foreman and Clerical Staff Honor a Worthy and Popular Associate.

A pleasant surprise awaited Mr. R. H. Shepherd, employment agent at the Canadian General Electric Co's offices, last night, just at the closing hour, when Mr. Shepherd was, on behalf of the foremen of the works, and the clerical staff, presented with an appreciative address, and a solid 14 karat gold watch chain, (purchased from Mr. A. Gibson's jewellery store.)

Mr. Shepherd has been with the Canadian General for over eighteen years, and was one of the seventy-eight employees who came to Peterborough from Sherbrooke some seventeen years ago. Out of that number only seven remain. Mr. Shepherd, who leaves next week for Montreal is, therefore, one of the "old guard." He will carry with him the very best wishes of all for a bright and prosperous future in his new field of labor. He has ably filled the positions of employment agent and premium clerk, and previous to that, held several other important posts. He has been an enthusiastic and energetic member of the C.G.E. Angling Club and other organizations, who will miss him very much.

The address last evening was read by Mr. A. W. Paterson, chief inspector, while the beautiful gold chain was handed to Mr. Shepherd by Mr. M. Mowry, foreman machinist.

The address was as follows;

To Mr. R. H. Shepherd;

After 18 years of service in the company's employ, we learn you have severed your connection with same, and are about to leave us.

We the foremen and clerical staff, desire to express our regrets.

No doubt you have viewed the incoming and outgoing of many, yet as one of the old guard of seven, your departure feels like breaking the ties that bind.

We wish you to accept our best sentiments for you and yours in your new position, and as a token of regard and esteem, and as a reminder of the good that is between us, we present you with this chain, and in your daily wanderings as you grasp it in your hands, think of your friends in Peterborough.

Farewell, and we trust to see you occasionally in our midst and if so, remember that the latch is on the door.

The following names are signed to the address.;

R. Cotterell, T. W. Wilson, W. A. Elliott, A. E. Wilson, P. Abbot, J. J. O'Brien, J. Ryan, W. H. Robinson, E. E. Lord, E. A. Roe, J. B. Cuncannon, J. Kyle, M. Breckenridge, E. R. Shirley, W. A. Brundrett, F. M. Summerville, H. L. McCaughey, H. W. Cook, E. J. Davis, T. J. Carson, J. D. Patterson, H. B. Paddock, R. S. Rose, D. Stone, W. A. Fitzgerald, C. B. Hughes, F. A. Shannon, R. E. Layfield, R. W. Carson, R. A. Sutcliffe, A. W. Patterson, J. G. M. Wilson, F. A. Taylor, G. Perrott, M. Mowry, J. F. Morrison, J. Trombley, L. B. Ramsden, G. J. Tovey, A. E. Frest, B. Watts, F. Derrick, J. E. Beckman, J. A. Perry, W. H. Cluxton, A. Metheral.

Mr. Shepherd, who was completely taken by surprise, having received no intimation that anything of the kind was in progress, made a suitable reply. He expressed his regrets at parting with so many friends and briefly outlined a few of the changes that had taken place since he entered the service of the Canadian Edison M'f'g Co. some eighteen years ago. He concluded by thanking all who had participated in the presentation and said he would never forget their kindness and many evidences of appreciation.

Mr. George Benton succeeds Mr. Shepherd at the works here as employment agent and premium clerk.

SUGGESTED BY THE WEATHER

Some Interesting Events Scheduled for the Near Future

President T. F. Matthews, of the Peterborough Curling Club has given notice that a bonspiel will be held at the Charlotte street rink, June 10th to the 17th. All the clubs in the district have been invited to send representatives and a braw time is anticipated. Hot coffee will be served at the rink.

Arrangements have been made for the initial tramp of the Peterborough Snowshoe Club on Tuesday night. The trampers will leave the club house at eight o'clock and the route will be two miles out the Lakefield road and return. Bring your furs.

A skating carnival will be held at the Brock street rink early in August. It is expected that there will be good ice by that time.

Chief Roszel states that the snow cleaning bylaw will remain in force until August 15th. Those who neglect to clear their walks of snow will be prosecuted.

The practice of the Peterborough Baseball Club, which was to have been held at Riverside Park this afternoon has been postponed. The players were unable to secure a supply of snow-shoes, as the lacrosse team have cornered the supply in order to have a workout this afternoon.

When the robins awoke this morning they found they had about as much chance of securing a breakfast as a stranger has of securing a drink at Lakefield. The six inches of snow that had fallen knocked all the song out of them, except that plaintiff melody, "Let Me Go Back."

The fighting editor of this great family journal this morning made an assault upon a man who wanted to have a spring poem inserted. The police magistrate considered the offence was pardonable under the circumstances.

Better put your lawn mower in cold storage or trade it off for a pair of skees.

The police have been provided with their winter caps and extra supplies of heavy garments are being held in readiness in case of another drop in the temperature.

No more with arms upon his breast
Pete Johnston rides his wheel with zest,
Along the street on foot he hikes
For snow does not go well with bikes.

You have No Reason for Not Using

Zutoo

Some people think that all headache cures are alike—that they all undermine the health, even if not perceived at the time of taking them.

Well, we'll admit that the drug cures do this, but that is no reason why you should not take Zutoo.

Zutoo is a harmless vegetable remedy. One ingredient is soda—just old-fashioned soda that our grandmothers used to take to settle the stomach, when they had sick headache. And there is nothing better.

The principal ingredient—the one that stops the headache, is a vegetable ingredient, imported for us from Japan. It wont hurt you any more than will the soda.

There is absolutely no reason why you should not use Zutoo.

If you suffer from headache there is every reason why you should.

Taken in time, two tablets will ward off a headache. Taken later, they will stop it in twenty minutes, and leave you feeling good every time.

If you are using a drug remedy, why not discard it?

Zutoo will cure just as quickly and will save you the penalty, that all must sometime pay, who take the drugs which these cures contain.

If you will give Zutoo one trial, you will never take any other headache remedy again.

10c. and 25c. at dealers or by mail.

It is as Harmless as Soda

Dressmakers' attention! Have you tried the Davis Vertical Feed sewing machine. It s the dressmaker's delight 3d

COMMITTEE OF WHOLE COUNCIL

Has Many Matters to Consider on Monday Night—Sign By-law Again

The regular meeting of the city council will be held on Monday night—the first Monday in May. But before the meeting, the committee of the whole will hold a session in the committee room. Some of the matters to be taken up there are;—The familiar sign bylaw; the recommendations of the property committee re the alterations to the old fire hall and the enlargement of the committee room; the special grant to the charity board's agent; district steam heating proposition, and the telephone rates.

It looks like a very busy session before the council gets started at all. The sign bylaw is very much like the isolation hospital—when there is nothing on to excite the passions of the aldermen, it is brought up. But it is to be hoped that the thing will be disposed of on Monday night forever.

Condensed milk is in demand in Toronto.

REMOVAL

On or before May 15th our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

Young Lady Held Captive By Two Young Men in a Rig

She Screamed for Help as They Drove Up Water Street Towards Lakefield—One Fellow Held the Girl While the Other Whipped the Horse—Girl Escaped and Walked Back.

Hysterical screams on the road at the north end of Water street brought all the residents of the neighborhood rushing into the street. It was about dusk at the time, but many of the people were out in time to see two young men with a young girl driving very rapidly towards Lakefield. The young fellows were driving a gray horse attached to a runabout, and they were plying the whip with great force, urging the animal to put forth every effort to get out of town and away from civilization.

The young lady appeared to be greatly frightened. She was struggling to get out of the rig, but one of the fellows held her in while the other drove the horse. All that was left for the girl to do was to scream and hope that some one would help her. The former she did most effectively, and as soon as the people along the roadside realized the situation, several of them started in pursuit. They followed the rig for some distance the other side of the Hilliard gravel pit, but they could not catch up with the fugitives. On they pushed, however, and after a while they were rewarded by meeting the girl walking back.

She was about a mile out of the city when joined by the pursuing throng, and she was exhausted. The best she could do was to walk very slowly. There were signs on her wrists, face, head and coat of a struggle, but other than being thoroughly frightened, she was not injured.

The young lady refused to give her name or the name of the two young men or why she got in the rig, or anything which would give any clue to who the fellows were. She merely said that she was asked to go for a drive with one of them, and that the other got in the rig later, and they started for Lakefield. As soon as she realized where the horse was headed for she became frightened and wanted to get out. Of course the fellows would not hear of it, and she did not know what else to do but to scream for help. One of the fellows sat on her lap and the other put his arms around her to prevent her jumping. These conditions existed until they were a long way out of the city, and then, as a last resort, she threatened to lay a complaint against the fellows. This proved effective and they let her out. She started back for the city, and the young men drove on towards Lakefield.

Did Constable Newhall Call Brakeman Davidson "a Liar?"

After the Latter Gave Evidence in the Appeal of C.P.R. vs. the City as to Blockading George St.—Brakeman Claims That He Was Grossly Insulted and Demands Apology—Has Written to Police Commissioners.

An interesting sequel has developed in connection with the appeal heard on Saturday last before Judge Weller in the case of the C.P.R. vs. the city wherein the appeal from Police Magistrate Dumble's decision was allowed.

It will be remembered that some time ago John Barnes, a freight conductor on the C.P.R. was found guilty in the police court on a charge laid by Constable Newhall, of blocking the C.P.R. crossing on George street for a longer period than five minutes. The company as stated entered an appeal and the decision of the Police Magistrate was reversed.

Among those who gave evidence for the C.P.R. on Saturday was Brakeman J. H. Davidson of Toronto Junction and others. Davidson alleges that after the hearing, when coming down the stairway in the Court House, he was accosted by Constable Newhall with the remark "You are a nice pack of liars."

As a result the brakeman has sent the following letter to Judge Weller, chairman of the Board of Police Commissioners, and it will likely be dealt with at the next meeting of the Board. The letter explains the circumstances in detail and is as follows:—

Toronto Jct., April 29, 1907.

His Honor Judge Weller,
Chairman Board of Police Com.,
Peterborough, Ont.

Dear Sir,—When coming down the stairway of the Court House building, in your city, on the evening of April 26th, 1907, after giving evidence in Division Court in the appeal case of Roszel vs. Barnes, re the blocking of George street crossing on March 21st, 1907, I was passed by Police Officer Newhall chief witness for the prosecution, who said to me 'You are a nice pack of liars." I was astonished at hearing such a remark from the mouth of a man clad in an officer's uniform, and said "What!" He then repeated his accusation, and I said "You are a nice officer to make such a statement." He then turned on me in a threatening manner and said, "Be careful what you are saying." I replied that I did not propose to be called a liar. He said "You are a pack liars, and you are a liar," I replied I would go back to the court room and have him prove his remarks, and also lay a complaint against him. He said I could go where I liked with my complaint. I met Chief of Police Roszel, who is a gentleman, and reported the affair to him. He said he thought it was a very improper remark for a police officer to make, and sir, I think you will agree with me when I endorse the Chief's statement. I claim I was grossly insulted by this officer when I was called a "liar" after having given my sworn testimony, which was corroborated by five other reputable witnesses. I feel that an apology is due me from this man, and I will look to the Board to obtain it for me. If you desire it I can furnish sworn affadavits, besides my own, to substantiate what I have stated in this letter.

Trusting to hear from your honorable body at an early date, I am,

Yours truly,
J. H. DAVIDSON,
159 Vine St.,
Toronto Jct.

Astronomical Society Lecture Was Most Instructive Event

Large Audience Greatly Enjoyed Prof. Chant's Address on the Sun—Some Interesting Features.

A large audience greeted Dr. Chant, Professor of Astronomy of Toronto University, at the Y.M.C.A. hall last night, when he gave a most interesting and instructive lecture on the sun. The meeting was under the auspices of the Peterborough branch of the Royal Astronomical Society, to whom the thanks the public are due for bringing Dr. Chant to this city. His lecture was a rare treat and was greatly enjoyed by those who were in attendance. It was the regular fortnightly meeting of the local section of the Society, and the large number present was a good indication of the interest that is being taken in astronomy in this city. The membership is growing rapidly and every one is an enthusiast.

The chair was occupied last evening by the president of the local branch, Rev. Dr. Marsh, who preceded the introduction of Professor Chant by a few remarks, in which he referred to the progress the Society was making in Peterborough, and the bright outlook for the future. In introducing the lecturer of the evening, he alluded to the high standing of Prof. Chant among the astronomers of the world. Both as Professor of Astronomy in Toronto University and as president of the Royal Astronomical Society of Canada he had done splendid work. He had worked hard for the success of the society, and his efforts had not been without reward. The members of the Peterborough section of the society were indebted to the council of the Royal Society of Canada for allowing Prof. Chant to come to Peterborough in order that the local enthusiasts might be encouraged and advised.

Prof. Chant prefaced his lecture on the sun by a few introductory remarks, in which he expressed his pleasure in coming to Peterborough, and hoped that his visit might be a little help to the local society. Speaking for the Toronto branch of the Royal Society, he said that they looked upon the Peterborough section as part of themselves and anything they could do to help the new section would be done with pleasure.

THE LECTURE.

Prof. Chant's lecture on the sun was illustrated by a large number of excellent lantern slides. The lantern was capably operated by Principal Fessenden, of the Collegiate Institute. The slides used were among the best of their kind in Canada, and in this itself those present were afforded a treat. Professor Chant dealt almost entirely with the surface of the sun, as viewed through and photographed by means of the big telescopes of the the world. The first views shown of the great orb of day showed clusters of the much talked of "sun spots." The lecturer furnished some interesting information regarding these, and also dealt in an instructive manner with the "mottles," or "rice grains," on the sun's surface. Viewed through a good telescope the surface of the sun bore somewhat of a resemblance to a piece of blotting paper, and as it was more highly magnified the "mottles" or "rice grains" became more prominent. Prof. Chant explained that the photosphere of the sun meant the visible surface, and that the chromosphere was the bright ring around the outside that could not be seen by the naked eye except during a total eclipse, when a bright circle could be discerned around the shadow. It is from the chromosphere that the solar prominences or protuberances or great solar fires, shoot off into space. These great tongues of flames appear to belch forth from the edge of the sun and shoot off into space many thousands of miles. The lantern slides showed one of these solar prominences, which extended over 280,000 miles from the edge of the sun.

Prof. Chant then explained the nature of experiments that had been conducted to ascertain what were the elements that composed the surface of the sun. In this connection the spectroheliograph was the chief instrument used for photographing the sun. Its construction was explained by the lecturer and the methods followed in photographing and making deductions. It had been found that there were about forty-six elements with which we are familiar in the composition of the sun.

In closing the speaker referred to the value of astronomy as regards the study of the sun. This body being the source of all life on the earth was certainly worth some attention. Then there was a practical object that might some day be attained. By making a study of the changes that take place in the sun and also taking careful note of the condition of the earth at the same time, and co-relating the results obtained, astronomers might be able to predict, perhaps for months in advance, the atmospherical changes, in brief the kind of weather that would be experienced on the earth. Prof. Chant did not state that this was certain to be achieved, but it was not improbable.

At the close Prof. Chant was tendered a hearty vote of thanks, moved by Sheriff Hall, and seconded by Mr. J. H. Burnham.

OBITUARY

HUGH GRAHAM.

One of the best known and most respected men in the Counties of North Victoria and Haliburton passed away in the person of Mr. Henry Graham of Kinmount, after an illness of over seven months.

Mr. Graham was born in Quebec, over 75 years ago, and moved with his parents to Smith township, where he grew up to manhood. He lived in Peterborough, Bobcaygeon and Fenelon Falls, moving with his family to Kinmount over thirty years ago. He was a merchant and with the exception of two years spent in Toronto about 1890 he kept a general store until a few years ago, when the Kinmount Creamery was started.

INFANT EXPIRES.

The many friends of Mr. and Mrs. Thos. Miller, 454 Park street, will sympathize with them in the loss they have sustained by the death of their infant daughter Lillian, aged one month.

The funeral took place this afternoon at 3 o'clock to the Little Lake cemetery.

HEAVY STORM ON RICE LAKE

Boats Had Hard Time and Only Brought up Half a Load

The three steamers, Water Lily, Rainbow, and Monarch reached the city this morning about eleven o'clock after a desperate trip. The captains reported that the storms on Rice Lake were heavy and so fierce this morning that it was impossible to see ahead, and consequently very little or no headway could be made. In addition to the snow the lake was very rough and all kinds of difficulties were encountered. Only half the usual number of passengers were on board, on account of the weather, and the only boat with freight on board, was the Monarch. She brought up 32 canoes made by Harold Bros., who have a factory at Gore's Landing. These canoes are for shipment out. The boats will leave a little earlier than usual tonight, on account of the weather.

OPEN EVENINGS

Peterborough Light and Power Company Will Oblige Its Patrons.

The Peterborough Light & Power Co. will in future keep their office open during the evenings of the 14th and 15th of each month from 8 p.m. until 11 p.m., in order that all may have an opportunity of paying their accounts during the discount period. The company urges all to pay their account before the 15th of the month as it is impossible to allow any discount after that date.

INSURANCE MEN HELD BANQUET

At McCallum's Restaurant—Several Able Addresses on Insurance Matters

The regular meeting of the Central Ontario Branch of the Dominion Life Underwriters' Association, was held last night in the Central Ontario Board Room. President Lindsay occupied the chair, and an interesting discussion on insurance matters, as viewed from the agent's standpoint, was indulged in. There was a good attendance of the members and the meeting proved very profitable, so much so that the insurance agents will gather together monthly in future.

After the business session an adjournment was made to McCallum's Restaurant, where an excellent banquet had been prepared. The menu furnished the insurance men with many good things, while the service was all that could be desired. The members of the Association are greatly pleased with the result of the evening's programme. After supper the following toast list was run off.—

The King—God Save the King.

Insurance Interests of Canada—Proposed by Mr. Widdows, was replied to by Mr. W. S. Milne of Toronto, editor of Money and Risks, and Secretary of the Dominion Life Insurance Underwriter's Association. His address was a masterly effort and was greatly appreciated by all present.

Song—Mr. King.

The Dominion and Provincial Governments—Proposed by Mr. Sauls of Toronto, and responded to by Mr. R. R. Hall, M. P.

Our Guests—Proposed by Mr. D. H. Moore and responded to by several guests.

The Peterborough Association—Proposed by Mr. R. H. Haycock, president of the Ottawa Association, and responded to by President Lindsay and some of the officers.

The Ladies—Proposed by Mr. Geo. E. Elliott, and responded to by Mr. Geo. B. Stevenson.

Housekeepers! See the Davis sewing machine at the J. M. Greene Music Co., George St Sole agents. 3d

Ministers Will Meet on Monday

The last regular meeting of the Peterborough Ministerial Association for the season will be held on Monday morning at 10 o'clock in the Y.M.C.A. hall. Rev. Dr. Crothers will read a paper on Rev. R. J. Campbell's new theology.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

SATURDAY MAY 4, 1907.

REVIEW'S POET ON THE WEATHER

Got an Inspiration When He Saw the Snow This Morning

The favorite poet of the Review has made arrangements for the publication today of his annual effusion on spring, but as his lines on the beautiful season were hardly in keeping with the weather, he unburdened his mind in the following way:

Oh, weather man, Oh weather man,
what are you trying to do,
A-hauling out such weather at,
this season of the year!
We've fancied for a month or more
the skies were getting blue,
But it filled our hearts with gladness
when the robins' notes we'd hear,

But vanished are the visions which
we fain would now behold,
Our thoughts are tinged with sadness
and our hearts are filled with woe,
For instead of balmy zephyrs
the air is icy cold
And heaped around upon the ground
is half a foot of snow,

A day or two quite recently
the weather promised fair,
And we hastened to our study
that the muses we might woo,
And we labored long and earnestly
a poem to prepare,
That would make its author famous,
in the widely-read Review,

Alas! for aspirations that
were soaring rather high
I looked me from the window
on the city streets below,
A wintry storm was raging
'neath a dull and cheerless sky,
And the earth was buried deeply
'neath another fall of snow,

D.M.

May 4th, 1907.

THE CITY AND VICINITY

PERSONAL WORKERS.

The class in Studies for Personal Workers meets at the Y.M.C.A. on Sunday morning at ten o'clock.

SONS OF ENGLAND.

The members of Lansdowne Lodge, No. 25, S. O. E., are requested to attend the regular meeting on Monday night next, as business of importance is to be discussed.

NO CATCH QUESTIONS.

It will be of interest to students who purpose writing on the higher grade departmental examination this summer to learn that special care will be taken by the examiners in setting the papers to avoid what is known as the "catch paper."

GRANTED LICENSES.

The License Commissioners of Haliburton district have granted the applications of the following:—J. A. Lucas, Haliburton; A. C. Jones, Minden; J. J. Mortimer, Minden; Wm. P. Robinson, Goodarham; and a six months' permit to J. W. Roberts.

AT COBOCONK.

Mr. T. E. Kyle and wife, entertainers, of Peterborough, have been secured by the Coboconk C.O.O.F. lodge for an entertainment on Tuesday night, May 7th.

STIRLING ODDFELLOWS.

Stirling Lodge No. 239, I.O.O.F., will attend divine service on Sunday May 5th, at three o'clock p.m., in the Presbyterian church. Rev. S. S. Burns of Lakefield will preach on the occasion.—News-Argus.

TAKE IT TO "MY VALET."

If you have a spring suit you would like to have cleaned, ready to put on when the weather permits "My Valet" will clean it properly, press it and send it home. Both phones. Wesley Bros., 204 Charlotte-st. dtf

NO EXCURSION.

Owing to the heavy fall of snow last night and this morning the excursion to Toronto to see the ball game was cancelled. All who purchased tickets will have their money refunded.

NOTHING DOING.

There was nothing doing in Police Court this morning. All was peace and quietness.

NOW COMPLETED.

The new Snowden house bar is now completed and will be opened on Monday morning.

AT SPRINGVILLE.

Rev. Dr. Sinclair will preach in the Springville Presbyterian church at both services to-morrow and also at Bethany. Rev. Dr. Marsh is preaching at Pontypool.

"AT THE GRAVE OF LAZARUS."

This will be the topic at the Saturday Bible Club tonight at eight o'clock. The discussions at the Club are of intense interest. All, who enjoy such an hour are invited.

POPULAR LECTURE.

Rev J. W. Pedley, of Toronto, will deliver his popular lecture on "Mrs. Wiggs of the Cabbage Patch" on Friday evening, May 10th, in the school room of St. Paul's church.

SNOW PLOWS.

Street Commissioner Evans had to turn out early this morning and chase after the snow plow contractors. The contracts expired a few days ago, and the men would not go out unless the street commissioner promised to reimburse them.

CHIMNEY ON FIRE.

The fire brigade were given a run last night shortly after ten o'clock to the corner of George and McDonnel streets, where a chimney in Mr. T. E. Pratt's grocery store was giving some trouble. A large crowd of people gathered but the blaze was soon extinguished and they quickly dispersed.

MEETINGS EVERY NIGHT.

Special meetings are being continued every night next week at 8 o'clock, except Saturday, in the Union hall, Simcoe street, above Brown's feed store. To-morrow at 7 p.m., service will be conducted by Mr. R. McClintock and W. P. Douglas. All are cordially welcome.

PARK-ST. SERVICES.

In Park street Baptist church tomorrow the pastor, Rev. A. H. Brace will preach at both services. in the morning his subject will be "Moral Reform" and in the evening "A Sealed Package." The Sacrament of the Lord's Supper will be administered at the close of the morning service.

"A MESSAGE TO YOU."

"A Message to You," will be given by Rev. J. G. Potter, B. A., at the evangelistic meeting for men at the Y.M.C.A. on Sunday at four o'clock. The Torrey-Alexander hymns will be used. Mr. Potter will sing a solo. A hearty invitation is extended to every men in the city to attend.

LAST DAY OF THE DEMON HORSE.

Today will be your last chance to see the "Demon Horse" and "Poor Jones," his troubles are not yet over. Both these moving pictures can be seen at Scott's Colloseum, 432 George street, afternoon 2 to 5, evening 7 to 10. Admission 5 cents. Next Monday, "The Race for the King's Plate." Change of programme twice a week—Monday and Thursday.

BOARD OF TRADE.

The annual meeting of the Bobcaygeon Board of Trade was held on Monday evening. Mr. W. C. Moore occupied the chair. The election of officers for the ensuing year, gave the following list,—W. C. Moore, president; Wm. Hickson, Vice-president; John Conway, secretary-treasurer; These gentlemen with the addition of Messrs. A. E. Bottum and C. E. Stewart, form the Executive.

BUILDING PERMITS.

Ald McIntyre says he was not guilty of any breach of the building permit bylaw. He says he was working on the Southern Hotel and the permit was taken out for that last year. Two permits of new houses at the corner of Aylmer and McDonnel streets, however, were issued today, making a total of four permits this year.

A GOOD HATCH.

Mrs. Jas. Switzer has demonstrated that careful attention will produce good results with an incubator. She set the machine to work with 120 eggs and last week 112 chicks came out. Every egg had a chick, but there were a few that appeared to be too thick in the shell for the chicks to break out. Had the shells been broken for them in time, there would probably have been within two or three of a grand slam in the incubation of chickens. They are a healthy looking bunch and are putting away food to beat the band. — Bobcaygeon Independent.

Sun Spots Were Not Responsible

For Last Night's Storm — Rev. Dr. Marsh's Views

"How does astronomical science account for last night's snow storm?" the Review asked Rev. Dr. Marsh of Springville today. By the way, it may be stated that the doctor is president of the Peterborough Branch of the Royal Astronomical Society, and has a good telescope set up at his home at Springville.

"I do not think the condition of the sun has anything to do with the snowfall" said Rev. Dr. Marsh. "If the sun were the cause of the disturbance, it would be general all over the world and not local in its nature as is the case. I examined the sun on Thursday, and there was nothing visible on its surface, except a minute speck. On looking at it today, as requested by you, I find that the speck has developed into a large spot, about 100,000 miles in length and 15,000 to 20,000 miles in width. In addition to this there is also on the eastern limb of the sun a very marked disturbance but this would not affect the earth as far as precipitation of moisture is concerned. While the surface of the solar body at present is considerably agitated, its condition is not abnormal. The large sun spot already referred to will likely cause certain magnetic storms but would have no effect as regards snow and rain storms, thunder and lightning, etc."

Tried to Wreck the Royal Train

On Which King Edward Was Travelling to France

Special to the Review.

Geneva, Switzerland, May 4.—It is asserted by the newspapers here that on a railway train, on which King Edward was travelling to France, there was in reality an attempt to wreck the train.

Just before entering the Simplon Tunnel the train was stopped as a precautionary measure and it was found that the grease box on one axle was missing.

The axle was at white heat. Had the train continued the axle must have fused, derailing the train. It was first given out that the overheating of an axle had compelled the removal of a car from the King's train. It was not stated that the bolt and pins securing the box had been deliberately removed. An enquiry has been started.

Quaker Oats Co. Wants More Help

Grain Traffic Improved and Mills Will Run Night and Day

It will be great news for the people of Peterborough generally, to know that the traffic situation in the North-West has been greatly relieved and that the Quaker Oats Company are now able to get their oats moved. For some time the company has only been running the mills on the short schedule, because it was impossible to get sufficient grain from their storehouses at Fort William, where it has been lying all winter. With the opening of navigation, however, the big grain boats have reached the Fort, and have been loaded with oats for the Quaker Oats Co. The first shipment is on its way to Owen Sound, and will be brought from the Georgian Bay port to Peterborough by rail.

This extra grain will enable the company to run their mills twenty four hours a day, and they are preparing to do so. It will mean the employment of thirty or forty more men and about fifty more girls.

For tailoring, dressmaking, carpet making, blind making and all heavy or light work, no sewing machine can compete with the Davis Vertical Feed 3d

Name Plates on Street Corners

Old Resident Complains to the Mayor About the Lack of Them

An old resident of the city wrote a private letter to the mayor drawing his attention to the fact that there were hundreds of street intersections where there were no name plates, and no way of ascertaining the names of the streets. He hoped the council would take immediate action to have this matter attended to for the benefit of strangers and visitors in the city, as well as residents.

This is a question which has often been brought to the notice of the council, but beyond enquiries being made as to the price of new sign boards, no action was taken. It is to be hoped that the present council will do something more.

The Davis Vertical Feed sewing machine sews the finest silk without puckering, as there are no teeth 3d

A STRAY OUTFIT

A horse and buggy strayed in to the premises of Mr. Jos. Green, on the Gravel Road, today. The owner may have the same by calling. The horse is a bay one attached to an open buggy. Mr. Green at once informed the Chief of Police, but no one has called as yet to enquire for the outfit.

FAVORABLY IMPRESSED

Mr. Bert E. McKeiver, of Nebraska City, Neb., is the guest of his aunt, Mrs. J. H. O'Shea, Commercial House. Mr. McKeiver is favorably impressed with Peterborough and says it is one of the most up-to-date cities in the Province. Mr. McKeiver thinks Peterborough is certainly an ideal place.

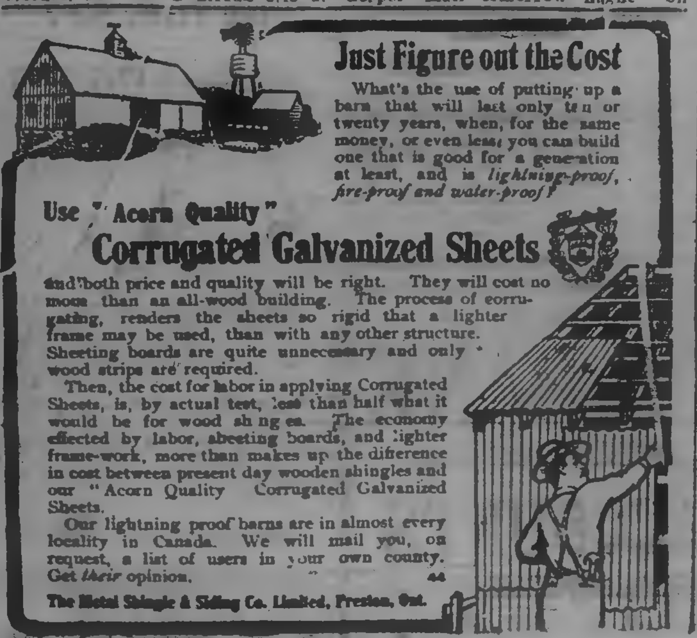
SALVATION ARMY BARRACKS.

Simcoe street, Adjutant and Mrs Wiggins in charge. Sunday meetings, 7 a.m., prayer meeting; 11 a.m., holiness meeting; 3 p.m., free and easy. 7 p.m. Salvation meeting.



Just Figure out the Cost

What's the use of putting up a barn that will last only ten or twenty years, when, for the same money, or even less, you can build one that is good for a generation at least, and is *lightning-proof, fire-proof and water-proof*

Use "Acorn Quality" **Corrugated Galvanized Sheets**

and both price and quality will be right. They will cost no more than an all-wood building. The process of corrugating, renders the sheets so rigid that a lighter frame may be used, than with any other structure. Sheeting boards are quite unnecessary and only wood strips are required.

Then, the cost for labor in applying Corrugated Sheets, is, by actual test, less than half what it would be for wood shingles. The economy effected by labor, sheeting boards, and lighter frame-work, more than makes up the difference in cost between present day wooden shingles and our "Acorn Quality Corrugated Galvanized Sheets.

Our lightning proof barns are in almost every locality in Canada. We will mail you, on request, a list of users in your own county. Get *their* opinion. 44

The Metal Shingle & Siding Co. Limited, Preston, Ont.

New Steel Bridge Over North River

Committee Decide That County Should Assume the Expense

On Friday last Warden McNulty, County Engineer Belcher and County Councillor Jos. Johnston, inspected the North River bridge in Belmont, and will recommend the County to assume the expense of building a new steel bridge and maintain it hereafter. The new structure will be erected some hundred yards below the present bridge thereby straightening the jog in the road at that point and avoiding the steep hill on the east side.

DEAFNESS CANNOT BE CURED

by local applications ,as they cannot reach the diseased portion of the ear. There is only one way to cure deafness ,and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Take Hall's Family Pills for constipation

Pays Tribute to St. Paul's Church

The choir of St. Paul's church, Peterborough, under the capable leadership of Mr. J. Crane, gave a delightful sacred concert in the Presbyterian church here on Friday evening says the Norwood Register. This was not the first occasion upon which this excellent musical organization has visited our village and many who were privileged to hear them on the occasion of their former visit anticipated a very pleasing entertainment and were not disappointed. Judging from the hearty applause which greeted each number all present thoroughly appreciated the excellent manner in which the selections were given. The choir is composed of about forty-five members and includes no less than four former residents of this village.

Good Demand for City Properties

Mr. George Ruth real estate dealer, reports that there is a strong demand for houses at moderate prices. He has effected quite a number of good sales of late. Since Mr. Ruth opened up an office on Water street three months ago, he has sold $35,000 worth of property in the city and county—not a bad record.

Got One Month in County Gaol

Penalty of Wm. Duncan for Assaulting George Cochrane

Before His Honor Judge Weller, yesterday afternoon, William Duncan, Sherbrooke Street, was sentenced to one month in gaol for having assaulted George Cochrane, agent for the Children's Aid Society, on April 13, while in pursuance of his duties.

Crown Attorney R. E. Wood conducted the prosecution and Mr. R. F. McWilliams appeared on behalf of the prisoner. Mr. E. L. Goodwill was present for the Children's Aid Society.

The trial of yesterday, was virtually a repetition of the evidence in the police court a few weeks ago, when Duncan was committed for trial. It will be remembered that on April 13th, Mr. Cochrane went to Duncan's house to take the latter's child away to the Shelter, and while there, was assaulted and the police had to be called.

The first witness called yesterday was Mr. Goodwill, secretary of the Children's Aid Society. He said that the boy, Willie Duncan, had been a ward of the society since 1903.

Mr. Geo. Cochrane, the complainant, next gave evidence, which was practically the same as that given in the police court at the preliminary hearing.

Messrs. J. Kelly and Wm. Henry, corroborated Mr. Cochrane's evidence,

P. C. Mebarry testified to having seen Duncan strike Cochrane.

The prisoner next gave evidence. When his wife died some years ago, his children were, he said, taken from him. He has since remarried. Owing to injuries he had received, the boy used to help him driving the junk waggon.

This concluded the evidence, and Mr. McWilliams began his plea for the prisoner, which was a strong one.

His Honor gave Duncan a sentence of one month in gaol, reserving judgment until Monday, in the disposal of the boy. During the trial His Honor, remarked that he was doubtful, whether, when a child had been returned to its parents by the Shelter, if the Society could take it without the usual proceedings, as when first taken.

JAS. REYNOLDS ON LONG WALK

Will Walk From Port Hope to Toronto on June 24th.

Toronto, May 3—James Reynolds, of Port Hope, "The Walking Barber," is in town today purchasing shoes for his next big walk on June 24. On June 24, Reynolds, who is 56 years of age, is to walk from the Queen's Hotel, Port Hope, to the King Edward Hotel, Toronto, and return, a distance of 134 miles in 38 hours.

There is a wager of $600 to $1,200 up on the walk.

"I'm in great shape,' said Reynolds, today. I walk from 10 to 15 miles a day now, and am confident I can win. This is the greatest walking event ever pulled off in Canada."

Reynolds is the man, who walked from Port Hope to Toronto, in 19 1-2 hours on July 4th last.

Open Meeting of Local Maccabees

Held Last Evening—Interesting Addresses Given on Work of the Order

A highly successful open meeting of the local tent, Knights of the Maccabees, was held last night in the Foresters' Hall, George street, and was attended by a fairly good number of the members of the Order and their friends.

The meeting was made more interesting by the presence of Mr C A. Yule, of Colborne, and Mr Townsend, of Smithville, who gave addresses.

Sir Knight Titterson occupied the chair. He regretted very much there was not a larger audience, but he remarked that the Maccabees were very hard to get out at anything. Sir Knight Titterson also expressed regret that two speakers, Assistant Supreme Commander Jos. Jenkins, of Port Huron and Provincial Commander S. W. Trussler of Camlachie, were unable to be present. He was glad to say they had Sir Knights Yule and Townsend present to speak to them.

Mr Yule was the first speaker. He said he had been asked to apologize by Messrs. Jos. Jenkins and S. W. Trussler, for their unavoidable absence. Mr. Jenkins was unable to be present on account of the Supreme Commander being away He was glad to see the Order on the right road to secure triennial convention, which they expected would come here. Mr. Yule also said that the work could not all be done by two or three. Every man must do his share in getting new members into the society. The Maccabees are now one of the strongest fraternal societies that exists. Since the rates have been changed the members have something to offer their friends and they need never be ashamed to ask them to become Maccabees. The speaker concluded his remarks by referring to Mr. Townsend, who, he said, was more able to speak on the work of the Order.

Mr. Townsend was the next speaker. He said that he was pleasantly surprised to be present, but was sorry that Messrs. Jenkins and Trussler were unable to attend. Mr Townsend prefaced his remarks by paying a high compliment to the beauty and progress of this city. He said the Maccabees had done good work in saving many poor people in sickness and misfortune. The proof that your are good Maccabees and have faith in your society is your presence at this meeting. He had learned with pleasure that several new members had been admitted into the Order in the last few weeks. He hoped they would continue in their good work. He would like to see a large Maccabee picnic held in some beauty spot in this city, during the coming summer. It is the duty of every member to do his or her share in bringing new members into the lodge. Do not leave it to a few to look after the association. As far as insurance is concerned, said the speaker, the society need not get any more members, but for the maintenance of this branch everyone must work. He advocated holding meetings every week instead of fortnightly to maintain interest. He also said to get the ladies interested and success would be sure to follow. The surplus funds of the Order were $6,000,000, which make this Order one of the best existing. Mr. Townsend concluded his address by hoping to see the big Maccabee picnic take place and wished the local branch continued success.

During the evenig several recitations and vocal solos were given by Miss Maud Titterson. Her numbers were much enjoyed and loudly applauded. Miss Janet Titterson acted as accompaniste.

Sir Knight Packard gave two well rendered selections on the guitar.

Short speeches were made by Sir Knights Mitchell, Morrison and Bell.

After the meeting the members adjourned to Hooper's palm gardens, where a banquet was held.

A WINDSOR LADY'S APPEAL

To All Women: I will send , free with full instructions my home treatment, which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the Womb, Painful or irregular periods, Uterine and Ovarian tumors or growths, also Hot Flashes, Nervousness or Melancholy, Pains in the Head, Back, or Bowels, Kidney and Bladder Troubles where caused by weakness peculiar to our sex. You can continue treatment at home at a cost of only about 12 cents a week. My book, "Woman's Own Medical Adviser," also sent free on request. Write today. Address Mrs. M. Summers, Box H. 62, Windsor, Ont.

Some Trouble Over School Site

Exciting Time Over the Matter at Caughnawaga

A Caughnawaga correspondent writes: Inspector Brown, Squire Brackenridge and Warden McNulty, undertook to arbitrate on the value of the school site on rainy Tuesday. The inspector being chairman of the supposed meeting, after viewing the site, brought the crowd to the school. The scene was exciting. The Squire opened the Great Book and expounded the law; the Warden and the Otonabee millionaire clashed, and the Warden was given to understand as soon as the coat came off that Otonabee was noted for more than rich men, poor schools and churches. At this juncture the five terrified pupils who had the misfortune of being at school that day, flew through the windows and the cracks in the wall while the teacher took his exit through the door. The Inspector, not being used to careless language etc., buttoned up his short coat and took a bee line for Norwood. He overtook the teacher on the road. The Squire was rather anxious to value the site, but the trustees objected (as it was rumored other sites were to be enlarged as well as No. 6). Tuesday's class were out for good. The following will explain matters: Read Bros. notified the trustees of No. 6 that the ground selected by the trustees for a school site had been used by Mr. Powell for a garden and claimed Mr. Comstock would do the same, and as the Act reads that a rural school must not be within 100 yards of any garden, orchard, dwelling house, pleasure grounds, without the consent of the owner thereof, they therefore refused to sell under any consideration. The trustees have called a special meeting of the supporters of No. 6, on Tuesday, May 7th, at 7 o'clock in the evening, to select a school site. A full house is expected.

LARDER LAKE

"One Good Investment is worth a Lifetime of Labor."

UNDERWRITERS' SYNDICATE.

"A Hundred Dollars invested in the Right Place at the Right Time will earn as much as one man steadily employed."

Telephone or Telegraph Orders at our expense. Telephone Main 2708.

We are willing to stake our reputation on the merits of LARDER LAKE.

Are you going to join us and make a fortune? This is the right place and now is the right time.

Read the proposition below and bear in mind that if you join us you will be associated with us on the ground floor at the bottom price and will share in the results therefrom in exactly the same proportion, according to your interest therein, as we will ourselves.

Consider what this proposition is—the return of your investment and still hold 733 shares, full paid and forever non-assessable, of the wonderful Blue Bell Gold Mine, out of each membership, which will have cost you nothing. There is no other investment that will compare with it. One or two memberships may make you a fortune—independent for life.

We believe the Blue Bell property will prove one of the richest gold properties ever known.

Bear in mind that the Blue Bell properties consist of 1,080 acres and are in the heart of the gold zone.

Fabulous prices are being offered for properties lying anywhere near Blue Bell.

The following report from our Consulting Engineer explains itself. Mr. Magee arrived in Toronto from Larder Lake on the 25th of April, and left Toronto for Larder Lake on the night of April 29, after purchasing boats, complete camping outfits and provisions. He will take charge of the Blue Bell properties and push the development of same. Stamp mills will be forwarded and installed without delay. Our syndicate memberships are meeting with favor and are being taken by investors more liberally than we expected.

Spoons Bay, Larder Lake, New Ontario, 22nd April, 1907.

Law & Co., Toronto, Ont.:

Gentlemen,—Acting on instructions from you, I proceeded to Heaslip by the T. & N. O. Railway, from there to Tomstown by stage, and from Tomstown to Larder Lake by stage also. I regret that owing to bad weather and snow our examination was somewhat delayed. However, we eventually were able to make an examination of the properties in which the Blue Bell Syndicate are interested, and I herewith enclose report of the result of our examination. Owing to some parts of the property being under snow, I have not made any remarks about anything we did not actually see, and have made a report as close to the actual facts as possible.

COPY OF REPORT OF EXAMINATION OF BLUE BELL LARDER LAKE SYNDICATE PROPERTIES.

Formation.—The principal formations are green schists, slates and diorite.

Lead No. 1.—Consists of a vein of quartz about six feet wide, with a strike east, northeast, west, southwest and a dip of 45 degrees to the southwest. At one point on this lead I put in a small blast, and after about one hour's work obtained over one hundred pounds of rock of which every lump of every size carried free visible gold in large quantities, which should assay not less than six or seven thousand dollars to the ton. At another point on the same lead I took some more samples and found the formation the same. This lead I did not consider a vein proper, but really a series of quartz veins running through a large porphyritic dyke at least twenty feet wide and extending right across the lots into the other Blue Bell properties.

Lead No. 2.—This is a vein of quartz about three feet wide running northeast and southwest. I traced this vein for about 130 yds., where it joined No. 1, in which we got the best samples of gold. I look upon this vein as only being one of three veins of a similar nature as factors of the main lead.

There is an ample supply of good timber on all the lots for all building and mining purposes for years to come, and as a bluff on which the lots are located runs right into Larder Lake abundance of pure water is assured.

From what I have seen from my examination of these properties and the results obtained from sampling, I have no hesitation whatever in saying (even in its present undeveloped state) the Blue Bell Mining Syndicate have some of the best located claims in the Larder Lake camp, and if active development work were to be rushed forward at once I predict the present properties will be producing gold as soon as machinery can be installed and practical mining operations begun.

J. G. MAGEE,
Consulting Engineer of Blue Bell Syndicate.
April 25th, 1907.

P.S.—Since my return from Larder Lake I have received a copy of the assay from No. 1 or main lead which shows gold values of seven thousand nine hundred and eighty dollars ($7,980) to the ton, which exceeds my estimate by nearly one thousand dollars ($1,000).

J. G. MAGEE.

EXAMPLE.

Showing Cost of and Estimated Results From One Membership

Cost of One Membership consisting of 1,000 shares.......... $100

All memberships will be pooled for six months, and will be held by the Trusts and Guarantee Company, Limited, who will act as Trustees for the Underwriters' Syndicate, during which period 267 shares out of each membership will be permitted to be sold at 50 cents per share, which will amount to $133.50

Law & Company's commission of 25 per cent., amounting to $33.50, for selling the 267 shares at 50 cents per share, deducted from the $133.50 leaves to the owner of the membership the full amount of his investment or cost of his membership.................... $100

Also, in addition to the return of $100 he will have 733 fully-paid and forever non-assessable shares of the Company, there having been sold 267 shares from his 1,000-share membership.

These 733 shares, which will be the result of each membership, will be worth at the advertised market price $366.50. We believe, however, that the dividends which will be paid upon the shares of the Blue Bell Gold Mines, Limited, within the coming summer will make the shares worth many times that amount.

Applications for membership will be received up to May 15th, 1907, unless the total number of memberships are sooner subscribed. Applications arriving too late to participate will be returned with the full amount of remittance.

Bankers, Manufacturers, Merchants and Business Men of all classes are subscribing liberally to these memberships.

The Trusts and Guarantee Company, Limited, of 14 King Street West, Toronto, will act as Trustees for the Underwriters' Syndicate. The distribution of all money and shares to the owners of memberships will be made at the time the membership pool is dissolved, which will be some time within six months from May 15th, 190..

The Trusts and Guarantee Company, Limited, will issue receipts to all applicants or holders of memberships, showing or indicating their respective interests.

APPLICATION FOR MEMBERSHIP.

Cut out, fill in and forward with remittance.

....1907

To the LARDER LAKE UNDERWRITERS' SYNDICATE,
Law & Co., 728-729-730-731-732 Traders Bank Building,
Toronto, Canada:

I hereby make application for.......................memberships in the Larder Lake Underwriters' Syndicate, and enclose herewith Draft, Postoffice or Express Order in favor of the Larder Lake Underwriters' Syndicate for.............................Dollars in payment of same, on the understanding that this money shall be deposited with The Trusts and Guarantee Company, Limited, Toronto, and be held by it until such time as Messrs. Law & Company, Toronto, shall deliver or cause to be delivered to the said Trust Company scrip representing.............. shares of the Blue Bell Gold Mines, Limited, issued in my name, fully paid up and non-assessable. Upon receipt of the shares of the said Blue Bell Gold Mines, Limited, by the Trusts and Guarantee Company, Limited, the said Trusts Company shall forthwith pay over to Messrs. Law & Company the moneys so deposited, and shall hold said shares subject to the pooling conditions contained in the Official Prospectus of the said Larder Lake Underwriters' Syndicate. The copy of the said Official Prospectus of the said Syndicate filed with the Trusts and Guarantee Company, Limited, shall be deemed to be the prospectus defining the terms and conditions of the pool. And I hereby irrevocably constitute and appoint the said Trusts and Guarantee Company, Limited, my attorney to execute any and all transfers of the said shares that may be necessary in order to properly carry out the intention of the pooling arrangement, I hereby ratifying and confirming any and all actions of my said attorney in the premises.

The Daily Review

SATURDAY MAY 4, 1907.

TIME FOR A CHANGE

The necessity which exists for the amendment of our election laws is strongly proved by the confirmation of Mr. Sifton in the occupancy of his seat for Brandon. Here we have a case where the petitioners, after two years and a half of litigation, were worn out by legal processes and withdrew from the suit. In November, 1904, the election was protested on the ground of corruption, and on April 24, 1907, the case was dismissed.

Another instance can be given in more detailed form. Mr. Borden was defeated in the Halifax election of November, 1904. The return of his opponent Mr. Roche, was protested, and to this day is unfinished. In his recent speech in behalf of electoral reform Mr. Borden gave the story of this celebrated suit, and the following is a condensation of Mr. Borden's statement.:

Dec. 13, 1904—Petition against Mr. Roche filed.

Dec. 31, 1904—Preliminary objections entered to the petition.

July 7, 1905—Chief Justice Weatherbe dimisses objections.

Nov. 28, 1905—Chief Justice Weatherbe's judgment dismissing objections sustained by Supreme Court.

Jan. 20, 1906—Order made by Mr. Justice Meagher, fixing Feb. 13 for examination of respondent.

Feb. 7 1906—Counsel for respondent appeals for dismissal of case on ground that the time for trial had not been properly extended.

Feb. 13, 1906—Counsel for respondent asks for adjournment of examination of respondent on ground that Court has not given decision on the application for the dismissal of the petition. Adjournment granted.

March 27, 1906—Another adjournment asked for and granted.

April 20, 1906—Judgment given by Court dismissing the application for the dismissal of the petition.

April 27, 1906—Respondent did not appear for the examination.

April 28, 1906—Respondent failed to appear for examination.

July 17, 1906—Case came on trial after one year and seven months of preliminary technicalities, when the respondent's counsel objected to the jurisdiction of the Court.

July 18, 1906—Judges dismiss petition on ground of want of jurisdiction.

Oct. 4, 1906—Supreme Court of Canada reverses decision of trial judges dismissing petition, and case ordered to proceed.

Nov. 15, 1906—Order issued by Court fixing Nov. 17 as day for examination of respondent.

Nov. 17, 1906—Respondent fails to appear and his counsel reports that he is ignorant of the gentleman's whereaobuts.

From that time to this the case has been at a standstill, because Parliament has been in session. Thus for two years and five months the litigation has been proceeding, and there does not seem to be any possibility of early conclusion. Meanwhile, the politician who is said to have been corruptly elected, occupies the seat, and votes as if he had been honestly returned.

PEN POINTS

How do you like our extended Canadian winters?

That Manitoba farmer who made a clock nineteen feet high will not have to look far for a high time.

Yesterday the water carts were out; today, the snow ploughs. Change is certainly the law of life.

The pronouncement that the peanut crop is short, will be satisfactory for one reason. It will give baseball fans a better opportunity to see the game.

It will be a very easy matter for Dr. Graham Bell to raise a bit of watered stock in connection with his airship line across the Atlantic.

The Lindsay Post says: "Town merchants report a little better trade, now that the warm weather has commenced." Query—When did it start?

Some citizens are blaming the present condition of the weather and the big snow storm of today on The Peterborough Astronomical Society. Can it be that this organization could so upset things?

When one recalls the disaster that befell the Ross Government, following the series of addresses by Mr. Gamey, one can appreciate the hysterics into which certain defenders of the Ottawa administration are thrown by the bare suggestion that Mr. Fowler of King's, N. B., address a series of political picnics this summer. The London Advertiser, as good as the best of Liberal journals, says: "In Fowler and Gamey, the country has a precious pair of political polecats," and the Hamilton Times supplements this by asking, "Why cast reflections on an animal that is at least true to nature?" What may we expect from Liberal editors generally, when the whole truth hinted at by Mr. Fowler is brought to light?—Ottawa Citizen.

MOVEMENT FOR MORAL REFORM

Baptist Committee is Taking Most Important Step

The Baptist Temperance and Moral Reform Committee, appointed at the last convention, held in Peterborough in October, numbers sixteen. The executive is composed of Dr. Sowerby, Dr. Keirstead, Rev. R. A. McEwen, B. D., Rev. J. B. Kennedy, M. A., and H. Moyle, Esq., They have just sent out a circular calling the attention of the churches to the importance of taking a more active part in supporting and advancing temperance and moral reform. The question is being warmly taken up and falling into line with the action by the convention, Rev. A. H. Brace of the Park Street Church has announced as his subject for Sunday morning's sermon, "Moral Reform."

Presented With Past Master's Jewel

Rt. W. Bro. Rush Honored by Members of Masonic Craft

At the regular communication of Peterborough Lodge A. F. & A. M. No 155, held last evening, Rt. W. Bro. H. Rush was made the recipient of a presentation.

On behalf of the Lodge, W. Bro. John Crane, in a few appropriate remarks, presented him with a past master's jewel.

Bro. Rush made a suitable reply thanking his brother Masons for their kindness in remembering him.

Mr and Mrs. Rush and Miss Rush leave next week for the Old Country, where they will spend some months.

Garden Hill Will Have Bank

The Bank of Toronto have leased premises at Garden Hill and will open an agency there next week. It will be under the direction of the Port Hope office and will be open two days in the week for the convenience of cattle and hog buyers, as well as cheese-shippers at Garden Hill

Will Summer at Burleigh Falls

Members of Theatrical Profession Will Holiday There

Mr. and Mrs. Clifford Val Trainor, nee Maud Darcy, who are well known professionally in the Eastern Vaudeville houses as Val Trainor and Myrtle Dale have closed all their engagements for the season, and will spend the summer with Mrs. Trainor's parents Mr. and Mrs. T. H. Darcy, at their house at Burleigh Falls. Mr. Darcy says that the number of applications for reservations at his well known summer resort are more numerous than ever and will tax the capacity of his new hotel which has been materially increased since last season, while all the cottages connected with the hotel are practically rented for the season to his regular American patrons.

5,000 New Freight Cars for the G.T.R.

Considerable additions are being just now being made to the rolling stock of the Grand Trunk, in the delivery of some five thousand freight cars of various kinds. These cars were only ordered last November, and delivery started a few days ago, which is regarded as pretty rapid work in these days of enormous orders for rolling stock far beyond the capacity of the shops to turn them out. The cars are of the most modern type, as is shown by the immense capacity of the steel coal cars, which have a carrying power of 100,000 pounds each. The cars are being rushed into active work as fast as they arrive, which is about 30 a day.

The order which is now being delivered consists of:

1,000 steel coal cars of 100,000 lbs. capacity.

1,250 box cars of 60,000 lbs. capacity

1,600 flat cars of 60,000 lbs. capacity.

250 furniture cars of 60,000 lbs. capacity

300 single deck stock cars of 60,000 lbs. capacity.

200 double deck stock cars of 100,000 capacity.

400 refrigerator cars of 60,000 lbs. capacity.

Roseneath Man Severely Injured

Mr. James Potts, when returning from Roseneath one day this week, got a bad shaking up. He was driving a spirited horse, which became frightened at the noise of a rig which came quickly behind. The animal bolted and Mr. Potts pulled quickly on the reins, thinking everything was secure. It happened that, although the harness was new, the bit-ring was not firmly fastend to the end of the bit, and pulled out, thus leaving the horse free to act as it pleased. Mr. Potts, realizing his inability to do anything jumped from the rig, but in so doing, became tangled in the robe and fell dislocating his shoulder and severely straining the muscles of the chest and forearm. The animal soon got loose from the rig, which was not damaged. Mr. Potts will be laid up for some time. —Campbellford Herald.

THEY SHOULD PAY A LICENSE

Real Estate Man Thinks Tax Should be $100 a Year

"I believe that all real estate agents should pay a license," remarked a well known dealer to-day. "It would make some of those who are at present following the business come to time. They are curb stone or street corner agents. They pay no rent, taxes, light, heat, advertising or office help and are ready to cut the regular commission in twain if they can only make a sale. They hang around and seek to rob the regular dealers of their business. I would like to see an annual license fee of $100, imposed on this class of so-called agents. When a man has an office, pays rent, taxes, etc., and does a regular business, the case is different. I would advocate that the latter representative should also pay a fee—say $25 a year. If a man attempted to sell dry goods, drugs or groceries on the street he would come under the transient traders or peddlars by-law and would have to pay a stiff fee. Now why should an alleged real real estate dealer, who has no office and seeks to undermine the legitimate business of those who have, not be forced to pay a heavy license. I think if you were in this business you would soon be convinced of the justice and fairness of my contention."

Anniversary Day at St. Andrew's

Rev. Prof. Kennedy of Toronto Will Preach To-morrow

Tomorrow St. Andrew's congregation celebrates the seventy-second anniversary of its history and the twenty-second year of the opening of the present edifice.

Rev Professor H. A. A. Kennedy, D.D., of Knox College, will preach at both services. Prof. Kennedy's appointment to Knox College was a most popular one, his work in one of the Scottish Universities being so well and favorably known.

The praise service for the day will be of a specially interesting nature.

MORNING

Quartette, "Beautiful Isle of Somewhere," by Fearis.

Solo "Hear us O Father," by Rosewig.—Mrs. Davidson.

Anthem, "O Be Joyful," by Dudley Buck.

EVENING

Quartette, "My God and Father While I Stray."

Solo, "O Lord Thou Has Searched Me Out," by Bennett.—Mr. Fred C. Freeland.

Duett, "My Faith Looks up to Thee."—Mr. and Mrs. Greenslade.

Anthem, "Saviour when Night Involves the Skies," by Shelley.

On Monday night at eight o'clock the annual reunion of congregation and friends will take place, when a programme of excellent music will be given by Mr. Fred C. Freeland. Mr. H. Morphet, Miss Clara Bellegham Miss Edwards and Mrs. Davidson Short addresses will be given by Rev Dr. Marsh and visiting clergymen.

Aemilius Jarvis was elected president of the Sovereign Bank of Canada, R. MacDonald resigning.

The government hopes shortly to announce the conclusion of negotiations for a supply of Niagara power,

The crowning glory of a "high ball," "fiz" or "rickey"—is

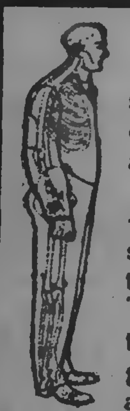
SIGN OF THE HORSE AT DOOR, 373 GEORGE ST



The Man Who Stoops.

The twenty-four bones of the spinal column are articulated—fit into each other with elastic discs of cartilage between each bone.

If a man has to stoop a great deal—the bones will wear on the inner side of the column—the discs of cartilage will also wear on the inner side. The spinal column will incline more toward the front than usual. This gives the stooping or round-shouldered appearance—so general in men who are accustomed to bending. By an artful fulness of the roll and lapel and plenty of cloth in the chest of the Semi-ready coat we give an erect appearance to the entire figure.

Semi-ready Tailoring

AT **Cressman's** ONLY

Y. W. C. A. Closing Exercises Were a Distinct Success

Gymnasium of the Y.M.C.A. Was Crowded With Spectators Last Evening—Drills, Marches, etc., Made Very Pretty Sight.

In the past history of Peterborough many events have been held that reflected credit upon those taking part therein, and gave pleasure to those who were spectators, but probably no function of a similar nature has ever been more pronounced in these two respects than the closing exercises of the Young Women's Christian Association, held at the Y.M.C.A. last night. They were a success in every respect, and the large number who were present, were simply delighted with the programme. And before passing on, special mention must be made of the attendance. It was the largest yet recorded at an event of this kind in Peterborough, and was an evidence of the interest that is taken in the work of the physical department of the Y. W. C. A. The gallery was crowded, the space around the wall on the gymnasium floor was filled with spectators, in short there were spectators in every spot where it was possible to see what was going on on the gymnasium floor.

Too much credit cannot be given Miss I. Coventry, the physical directress of the Y.W.C.A. on the success she has attained with the gymnasium classes. That her work has been marked with great success was simply evidenced last night. The different drills, exercises, calisthenics, and marches of the members of the classes was beyond criticism. Everything was done in perfect order, and the graceful movements and perfect time kept, were a revelation to the majority of those in attendance. The directorate of the Y.W.C.A. could do nothing better than secure Miss Coventry for next season.

Last night's programme included instrumental and vocal music in addition to the exercises of the junior and senior classes. The piano music for the different drills, marches, etc., was furnished by Miss M. Rannie, who made an ideal accompanist, and whose work added greatly to the success of the exercises. The musical part of the programme, consisted of a brilliantly executed piano solo by Miss W. Gumpricht, and a vocal and violin solo, "Caval Rusticana," by Miss O. Reesor and Miss Kathleen Wallis. It was a most enjoyable number and was received with enthusiasm. A recitation by Miss Hill was also a pleasing feature and an encore had to be responded to.

The programme opened with a dumb-bell drill by the senior class in regulation gymnasium costume. This was gone through in a most praiseworthy manner, and was followed by a "Sailor Drill" by the junior class. In this the children, whose ages ranged from ten to fourteen years were attired in natty sailor costumes and made a very pretty picture as they went through the very graceful motions evolved in the presentation of the drill. The same precision of movement, graceful bearing and pleasing effect was noticeable in the different events, that followed, the marching, calisthenics, lantern drill, club swinging and Japanese fan drill by the senior class and the wand exercises, fancy steps and dumb bell drill by the junior classes. The Japanese fan drill was an exceedingly pretty event and was enthusiastically applauded. The ladies taking part were attired in pretty Japanese costumes and carried large Japanese fans. One of the best events on the programme was the "Twenty Froggies," by one of the junior classes. The little people were attired in costumes of green and yellow and looked very much like frogs as they hopped around and went through the various movements. This drill was a most amusing feature, and in it the children showed the effects of the excellent training they had received. In fact, in all the events, the members of the classes showed that wonderful skill, which only comes from excellent instruction and conscientious training. Several of the events were made especially interesting by the vocal choruses in connection with them.

A pleasing feature of the evening was the presentation of a purse of money to Miss Coventry, a gift of the junior classes, and a bouquet of roses from the senior class. Miss Rannie, the accompanist, was presented with a beautiful bouquet of carnations by the junior classes.

The directors of the Y.W.C.A. are deeply grateful to Mr. Williamson for allowing them the use of the Y.M.C.A. gymnasium without charge. They are wondering how they would have been able to accommodate the crowd if they had not secured the Y.M.C.A. gymnasium.

Heavy Snowfall Was the Surprise of the Season

Five Inches of the Beautiful Covered the Ground This Morning—Interesting Facts About the Weather in May in Former Years.

Had you told the ordinary citizen last night, that there would be five inches of snow on the ground this morning, he would have told you that there was something wrong with your headworks. But the snow was there this morning all the same and a good share of it is here yet, although the sun's rays are getting in their work. The snow storm was the biggest surprise of the season, and citizens who were out with their snow shovels this morning could hardly realize that it was May 4th. Fully five inches of "the beautiful" fell and it drifted to a considerable extent as there was a strong wind blowing during the early hours of the morning. The snow commenced to fall about two o'clock and continued to come down until well on in the forenoon. Several sleighs and cutters were out this morning and those riding in them seemed to enjoy the novelty of having a sleigh ride in May. The snow caused the street railway company considerable inconvenience, although it was deep enough to necessitate bringing out the sweepers. The streets were cleared of snow early in the morning, the snow ploughs being brought into service in good time.

The snow will not likely cause any damage to the growing crops, in fact some farmers stated today that if the weather turned warm now and remained that way vegetable growth would be very rapid.

IN OTHER YEARS.

The Review is indebted to Mr. Dawson Kennedy for some notes from his diary for the period between 1875 and 1888, inclusive. A perusal of it will show that during those years snow frequently fell in the month of May. At the time the following diary was kept, Mr. Kennedy was a resident of Otonabee township. The record is as follows.—

1875—May 1st, hard frost last night. 3, Snow storm nearly all day yesterday. 4, Ground froze too hard to work this morning. 7, Very hard frost last night.

1876—May 4th, cold wet, and backward. No land fit to sow.

1877—May 4th, Land in splendid order for sowing, crop nearly all in. 8th, Sowing all done, never got the grain put in the land in better shape.

1878—Grain nearly all sown in April, this season. May 3rd, Very wet for the past week. 13th, Frost last night, ice 1-4 inch, flurries of snow all day.

1881—May 9th, Splendid spring so far, crops all sown, and all look well.

1882—May 4th, Splendid weather for work on the land, but frost nearly every night.

1883—May 4th, Driving rain all day yesterday with an east wind, land very wet now, cold today.

1884—May 4th, Fine weather every day now, land in splendid condition for the seed.

1885—May 4th, About three inches of snow last night, very cold today, no grain sown yet. 8th, Another snow storm last night, cold and wintry this morning, more like March than May. 9th, Still cold and backward, no sowing done yet. 10th, Snow flurries all day, cloudy and very cold this evening. 23rd, Beautiful weather for the last ten days, land getting into good shape.

1886—May 4th, Fine weather these days.

1887—May 4th, Fine growing weather now, considerable fall wheat is being ploughed up.

1888—May 1st, Snow nearly all the forenoon but not cold. 5th, Heavy rain last night, very cold today. 12th, Weather fine and warm for the last few days. 14th, Turned suddenly cold on the night of the 12th and has been so since. 15th, Very cold last night, snowed nearly all this forenoon.

Ald. McIntyre stated today that just twenty years ago, in May, 1887, he was organizing a cheese factory in Otonabee and on that day, about five inches of snow fell.

Are Out After Larger Wages

It appears that there is somewhat of a hitch in the arrangement between the local opera house and the members of the orchestra of that popular place of amusement. Since the opera house was opened the members of the orchestra have been paid $1 for each performance and there was no kick made until a day or so ago when the management of the opera house was notified that the orchestra would not play any more for $1 a performance. It appears that there is a rule in the constitution of the American Federation of Musicians, which does not allow orchestra players engaged in an opera house to play for $1 per night. The minimum as fixed by the union is considerably higher than this figure. Nearly all the local bandsmen and orchestra players are members of the local branch of the union, hence the action taken.

"The bandsmen at the roller rink get $1 per night," said a member of the former opera house orchestra today "and only have to play two hours per night. At the opera house we only get $1.00 for playing three hours, besides having to attend rehearsals. Further, the same skill is not required to play in a band as in an orchestra."

It is likely that an amicable arrangement will be made between the opera house management and the orchestra before the next show. The opera house people are not to blame regarding the matter, as they followed the agreement that had existed before they took charge.

Races on May 24th; at the Driving Park

Peterborough Turf Club Met in City Hotel—Three Races Arranged

For the first time in the history of the Peterborough Turf Club there will be a race meeting at the exhibition track on the 24th of May. In addition there will be a five mile Marathon road race. This was the decision of the turf club directors who met in the City hotel parlors last night. The club this year is very active and being encouraged by the success of the races last winter do not hesitate to hold another meeting. Then they realize that there are a great many people who do not care to go away every holiday and who would like to have a little fun at home.

The programme of races will include a named race, a two-thirty class and a free for all. $50 will be given in prizes and the meet will be conducted in a fair and proper manner. The races will start at two o'clock sharp and as little time as possible will be wasted between the heats.

The Marathon race will be one of the great features of the afternoon. Road racing has taken quite a hold among the young men in the city and it is fully expected that a large number will enter. Besides the runners from the city there will be one or more Indians, and the turf club promise a good fast race.

The club also decided to hold another race on July 1st, when a ten mile road race will be put on. This is in addition to the regular big meeting in August.

FOOTBALL

TO PLAY IN NORWOOD.

It is likely that a football match will be played in Norwood on Saturday afternoon next between a team representing the Central School, Peterborough, and the Norwood public school boys. Arrangements are now being made for the match.

CRICKET

NO MEETING.

There was no meeting of the Cricket Club last evening, owing to the poor attendance.

BASEBALL

NO CITY LEAGUE.

There was no meeting held this afternoon as was intended for the purpose of organizing a City League.

Better than Bleaching

Don't rot your white waists and linen, when yellow, by using powders or soaps full of strong soda. Dye them.

Maypole Soap

C. R. BANKS

Exclusive Sporting Goods Store, George Street, Near Charlotte.

It was found that there were not enough teams to compose a league. Charlotte Street Guide cannot get a team together this season, so the formation of a City League is an impossibility.

LACROSSE

EXECUTIVE MEETING.

The Executive of the Lacrosse Club met last night and discussed several matters in connection with the coming season.

BOWLING

The Peterborough bowling team composed of Messrs Boyd, McIlroy, Conners, Ferguson and Frost, defeated the Brunswicks in Toronto last night, their total score being 2,148.

The Peterborough scores were:

Boyd	138	156	161
McIlroy	110	158	153
Conners	107	172	125
Ferguson	138	131	152
Frost	141	147	159

Total 2,148.

THE NEW YORK STOCK MARKET

New York, May 4.—The opening stocks were generally heavy and lower, but the market was narrow and entirely professional. The weakness in London had some influence on sentiment and the bears made the most of it. Reading, which had shown such conspicuous strength in the last hour on Friday sold off in sympathy with the rest of the list. It rallied quickly however, on what appeared to be first class buying and reached the highest price at which it has been quoted for some time. The crowd that formerly was so successful in advancing this stock is again a conspicuous buyer, and higher prices are freely predicted. The leading copper producers are strong in the belief that there will be no material reduction in the prices of copper of the year. We consider the outlook for all the copper stocks unusually good at present and believe they should be bought whenever weak.

Fairbairn Lost the Quinn Case

Sometime ago the sheriff under a writ of execution seized the crops on the Quinn homestead near Lakefield, to pay a judgment claimed to be due by Mr. Archie Quinn. Mrs. Quinn, through her lawyers, Hall, Medd & Davidson, claimed she owned the property and that the seizure was wrong. The Court after hearing the parties and their witnesses and the counsel for both sides of the case a reserved judgment has been given dismissing Mr. Fairbairn's case with costs. Messrs. A. P. Poussette, K.C., and Mr. Geo. Edmison, K.C., acted for Mr. Fairbairn, while Mr. S. T. Medd appeared for Mrs. Quinn.

ON WHICH SIDE OF THE DESK ARE YOU?

The man before the desk works with his *hands* and is paid for his *labor*. The man behind the desk works with his *head* and is paid for his *knowledge*. It is merely a question of "knowing how."

For 15 years we have been enabling people to advance their positions and increase their earnings by teaching them to "know how." In this way, we can advance **YOU** to a better position. It costs you nothing to find out how we can help you. Simply write us telling the occupation you wish to rise in. No textbooks to buy; no requirements beyond the ability to read and write; you need not leave your present work; pay what you can afford. If you want a better position, **write today.**

THE MEDICINAL VALUE OF FRESH FRUIT JUICES

One of the Greatest Wonders of the Age.

Hundreds Have Been Made Well by Taking Advantage of an Ottawa Physician's Discovery.

Everyone knows how beneficial fruit is, when eaten regularly. Fruit is nature's laxative—the finest kidney regulator—and the ideal skin tonic. Unfortunately, the medicinal principle of fruit occurs only in minute quantities. In order to consume enough fruit to relieve Biliousness, one would also consume a large amount of woody fibre or pulp, which would upset the stomach and impair digestion.

An Ottawa physician discovered a way to get around these difficulties. He pressed the juice from apples, oranges, figs and prunes—and then forced one more atom of the bitter principle from the discarded orange peels, into the concentrated juices. This formed a new compound, having all the curative effects of fresh fruit—and in a highly intensified degree. Then valuable tonics and internal antiseptics were added and the whole pressed into tablets.

These are "Fruit-a-tives" the wonderful Liver Tablets you hear so much about. "Fruit-a-tives" cure the most obstinate cases of non-action of the bowels, biliousness, headaches, sleeplessness, nervousness, kidney trouble, rheumatism, sciatica and neuralgia. They are the greatest blood purifying medicine in the world, while their action on the skin, in clearing and beautifying the complexion, is nothing short of marvelous. Ask your druggist for "Fruit-a-tives" and see that you get them. 50c a box, 6 for $2.50. By mail, postpaid, from Fruit-a-tives Limited, Ottawa. 113

Trappers Enjoy Good Season; The Prices Have Been High

The biggest catch of muskrats this season must be conceded to Mr. A. Crowe of Hiawatha. He captured 650 all told, and in one night at Rice Lake, caught as many as 80 rats. This is a pretty good record.

Mr. Thomas Barrie, furrier, of this city, bought all Mr. Crowe's muskrat skins, paying him 35 cents apiece for them.

Merriam Bros. of Rice Lake, were also very successful, getting in all 1280 skins. They also disposed of them to Mr. Barrie, who has this spring bought 11,400 muskrat skins, 1567 mink skins, 850 coon skins, and 46 lynx skins. Mr. Barrie will use all these furs in his workshop here, and finds a ready demand for them.

He has bought more mink, muskrat, coon and lynx pelts than ever before, both from around here and distant points.

This has been the busiest season for trappers for some years, and the prices have never been better. Rice Lake has certainly yielded its share of muskrats.

Annual Meeting of Historical Society

Will be Held in Kingston in July Next.

The annual meeting of the Ontario Historical Society, of which Col. H. C. Rogers, of this city is president is to be held at Kingston in July and part of the programme of entertainment by the Frontenac Historical Society, consists of a pilgrimage to Adolphustown to visit the landing place of the first United Empire Loyalists. This meeting at Kingston should be very interesting and instructive.

Opening Offices for Engineers

On the Trent Canal at Campbellford and Trenton—Getting Information Together

Superintending Engineer Grant, of the Trent canal, and Engineer Spence left at two o'clock this afternoon for Campbellford, where they will instruct the engineer of the Campbellford section of the canal as to what information is necessary for the completion of the plans for the canal. Offices are being opened at both Campbellford and Trenton and engineering staffs are being organized. Mr. John B. Brophy will be in charge at Trenton, and Mr. H. P. Bell at Campbellford. These two sections of the canal are to be built first and it is the intention to start the engineers to work at once in gathering together the necessary information. The work of construction will be started on the Campbellford section the latter part of the summer.

Liberal Sum for Famine Fund

A collection was taken up in Bethany Tabernacle yesterday, on behalf of the China Famine Fund. The liberal sum of $40 was realized. As there are several who desire to give and were not present yesterday, any contributions to the fund may be left with Mr. A. J. Johnston, druggist, George Street. The money will be forwarded this week.

SEE WINDOW

Cressman's

Lift Lock at Kirkfield Will Be Opened on Victoria Day

Interesting Public Ceremony Will Mark the Event—Prominent Officials Will be Present.

The new lift lock at Kirkfield will be formally opened on May 24th and arrangements are being made for a ceremony that will be in keeping with such an important event. The big lock is practically completed and has been tested several times and found to work satisfactorily. Canoes, skiffs and other small craft of various kinds have been taken over, but as yet no large boats have gone through the lock. The lift is 52 feet and in nearly every respect the construction of the lock is similar to the one at Peterborough. It is said to be even better constructed, than the one here, the experience gained in the building of the Peterborough lock being used to good advantage. Workmen are now putting on the finishing touches and everything will be completed by May 24th.

It is likely that several prominent Government officials from Ottawa will be present as well as all the local officials in connection with the canal. The Government steamer "Empire" will convey the party from Peterborough to Kirkfield.

The opening of the lift lock at Kirkfield will mark an important epoct in the history of the Trent canal. It joins two important sections of the canal, and opens navigation between them, thereby greatly adding to the utility of this great inland waterway.

Work Was Commenced On the New Armouries

There is rejoicing among the military men of the city today. And a visit to Central Park finds an easy solution of the jubilation that prevails. Work has been commenced on on the new Peterborough armories, and from now on the structure will be rushed.

Mr. S. Simpson of Sarnia, who has the contract for all the masonry work, is in the city and started a gang of men at work this morning. The site has been staked out, and excavating will be commenced tomorrow morning. Mr. Simpson already has about a dozen men engaged on the work and will hire as many as he can secure. Several trees have to be cut down to make way for the building and these are being felled this afternoon. The new armories will be immense structure. The outside of the foundation walls measure 270 feet in length by 154 feet in width.

Mr. G. H. Proctor of Sarnia, who has the contract from the Government for the armories, is also in the city, but leaves tonight for home. Mr. Simpson is remaining here, and will personally superintend all the masonry work, which includes all the stone, cement and brick construction.

With work proceeding on both the Collegiate Institute and Armories, Central Park is indeed a busy spot, and there is no excuse for any laboring man in Peterborough being out of work.

The petition against the election of D. W. Bole, M. P., for Winnipeg, was dismissed on Saturday.

Destructive Blaze on Saturday; Large Building Badly Gutted

Disastrous Fire Destroys Large Warehouse in Toronto.

Knox Manufacturing Co.'s Premises Entirely Burned Out — Loss Estimated at $145,000—Much Damage Done to Adjoining Stores by Water—Butt End of Lighted Cigar Supposed to Have Been the Cause.

Toronto, May 6.—Loss in the sum of $145,000 will be entailed by fire which broke out at 5.30 o'clock Saturday evening in the second storey of the Knox Manufacturing Co. premises, 50 East Wellington street.

The fire kept all the downtown divisions of the department busy for more than an hour before it was got under control. Tons of water were poured into the building, which is a substantial four-storey brick structure. An opportunity for the use of the water tower was given and with a stream at each flat at the front and a like number in the rear the fire was literally drowned out.

Deluged.

While this undoubtedly was the only method of coping with the flames, it entailed a heavy loss to the stock of C. Kloepfer, carriage hardware, at Nos. 44 and 46.

These premises were deluged, there being nearly a foot of water on every floor and more in the basement. A veritable Niagara Falls poured out of the Knox building door, flooding the street.

The Knox Loss.

Mr. Knox placed his loss at $90,000 on stock, which was totally destroyed. On this there is $61,000 insurance.

The building was completely gutted, but the walls were intact. The damage to this is placed at $25,000. It is owned by the Countess of Carnarvon, whose Canadian agent is C. Czowski. This is said to be fully covered.

Cause a Mystery.

Little light could be had on the origin of the blaze. Mr. Knox said that there could be no truth in the statement that it began with an explosion. He said he believed it was caused by a cigar butt or match being thrown among the stock of tweeds in the cap department on the second floor.

Slight damage by smoke was done to the stocks of the William Graham Co., woollens, the Canada Bag Co. and F. C. Beal, leathers. This will not total above $5,000 and is amply covered.

The department was given a second call to the Knox Building at 11 o'clock Saturday night. It was found that several bales of tweeds on the second floor where the fire started were still smouldering.

At 8.15 Sunday evening the Bay street chemical was given a run to the premises to quell an incipient outbreak.

A Split in British Cabinet Latest Phase of the Situation

Devolution Bill Causes Dissension Among Liberal Ministers.

Asquith and Haldane Want Nothing to Have Semblance of Home Rule—Chancellor of Exchequer Will Resign If Pledges Are Violated—John Redmond and Party Fighting Hard for Full Government.

London, May 6.—With the negotiations, which have been prolonged, extending up to the last moment, and all those participating in them bound to secrecy, little is known as to the provisions of the Irish council bill, the main proposals of which Augustine Birrell, Chief Secretary for Ireland, promised to explain in the House of Commons May 7.

There has been a keen contest going on in the Cabinet between the home rulers, represented by Sir Henry Campbell-Bannerman and Mr. Birrell, and the anti-home rulers, led by Herbert H. Asquith, Chancellor of the Exchequer, and Richard Burdon Haldane, Secretary for War, with the former desirous of giving Ireland what John Redmond has described as at least a foundation for self-government, and Messrs. Asquith and Haldane demanding that the bill shall not bear any resemblance to home rule. Mr. Asquith has gone so far as to say that if the bill contains anything, in letter or in spirit, inconsistent or in violation of the privileges he has made against home rule, he will resign, and there is little doubt that he would be followed by Mr. Haldane, and probably other members of the Cabinet.

The Irish council bill, which will be introduced in the British House of Commons by Secretary for Ireland Birrell on Tuesday, has created a wide divergence of opinion between the Nationalists and the Government officials. It is under stood that the proposed council will not have any executive powers which is far from what the Nationalists desire, and they will endeavor to obtain further concessions by amendments.

Conference of Irish Leaders.

Faced with the impossibility of obtaining an Irish Parliament with an executive responsible to it, Mr. Redmond is carrying on the fight to get as large an installment of home rule as is possible, and now it is announced that if this scheme lays a foundation on which Ireland can build, the Nationalists will consider whether it is worth accepting. Mr. Redmond had a conference Saturday with his chief advisers, including John Dillon, Edward Blake, and T. P. O'Connor, when what the Government was prepared to offer and the attitude the Nationalists would adopt toward the measure were discussed. This will be followed by a convention at Dublin during the Whitsuntide recess, when the question will be gone over, and the Irish members of Parliament will be instructed as to the course they shall pursue. There is no doubt Mr. Redmond's advice will be closely followed. What the bill will contain, however, and whether it will be acceptable, those who have been taken into the confidence of the leaders will not say, they having been bound to secrecy.

The only expression of opinion obtainable was from a more conservative Irish member of the House of Commons, who said, "I think the bill will be found to be fairly favorable," indicating that while the Nationalists are far from satisfied, they realize that Mr. Birrell has gone as far as is possible without causing a disruption of the Government, and will accept the bill as a start towards self-government.

MONTEBETTI ARRESTED.

Taken for Perjury In Connection With the Blairmore Site.

Macleod, Alta., May 6.—There was a dramatic climax in the Blair land scandal Saturday, when Felix Montebetti was arrested for perjury in connection with the affidavit by which the Blairmore townsite was turned over to Malcolm Mackenzie, M. P.

The trial is expected to uncover all the rascality charges by which Government favorites were enabled to get a townsite from the original locator, worth $200,000.

This is the case aired in Parliament during the session just closed, where one Lyon filed on the site which was contested by Montebetti, who sold his claim to Mackenzie for $1,000 and hurriedly left for Italy. He returned unexpectedly and was at once arrested. He wired Mackenzie to defend the case. The case has very much excited the province, because of revelations that the Ottawa officials were helping in the scheme.

BUCKET SHOP MAN STOPS.

Settles Up With Everybody to Avoid Prosecution.

Winnipeg, May 6.—George W. Wood, president of the Canadian Stock & Grain Co., the man who is now under bonds awaiting trial on two charges of running a bucket-shop in Winnipeg, and one of the theft of $1,000 margin put up by J. Carrick of Fort William in a stock deal with the company, will not come before the higher court for trial.

After a long conference with the crown authorities on Saturday, Wood finally agreed to settle all outstanding claims against the company, and to order that no one who has dealt through his concern should lose any money. Wood will deposit with the Attorney-General for Manitoba as trustee $20,000, also to pay all the costs of the prosecution. This means that the career of George W. Wood, in the bucket-shop business in Western Canada, ends right now.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co. Toronto, Ont. (formerly Windsor)

IRISH FAIR OPENED.

Earl of Aberdeen Reads Message From the King.

Dublin, May 6.—The Irish National Exposition was opened on Saturday.

The address of welcome was read by the Marquis of Ormond.

In replying the Earl of Aberdeen, who was accompanied by the Countess of Aberdeen, read a message which King Edward sent from Paris as follows:

"I trust that the exposition which you are to open to-day will prove a success and demonstrate the international progress made by Ireland."

After a tour of the exhibition, the picturesque state procession was reformed and returned to the castle.

The exhibition is far from being completed.

There'll Be Trouble In Morocco.

Tangier, May 6.—It is evident that fresh trouble is brewing at Morocco City.

The inhabitants object to the dismissal of the governor, Abd-el-salam, and decline utterly to receive the new governor.

The Benghasi are preparing a warm reception for him.

The new governor left here Saturday for Morocco City, accompanied by his forty-eight wives. His escort which originally numbered 500 soldiers, has dwindled to 130 men through desertions.

Ice Cream As Food.

Hamilton, Ont., May 6.—The first case of Sunday selling under the new Lord's Day Act came before the magistrate in the police court Saturday, when James Zamboes, a Greek, was charged with selling ice cream last Sunday night. He did not deny serving a number of customers, but the magistrate said that as the court had held that ice cream was a food, he supposed Zamboes had as much right to sell it on Sunday as on any other day. The case was dismissed.

Dies From Exposure.

Brockville, May 6.—William Cook, a laborer employed at Wells Island, lost his life as the result of falling from his boat. He was accompanied by two other men, and were returning from Alexandria Bay, and when near the island lost his balance. He was in the water a considerable time and died from chill and exposure.

William McIntosh, a well known farmer of Lobo township, hanged himself in his barn.

MARVIN BOY FOUND.

Body Discovered in the Marshes—Foul Play Suspected.

Dover, Del., May 6.—Lying in a marshy piece of land, the body of little Horace Marvin, son of Dr. H. N. Marvin, whose mysterious disappearance from the Bay Meadow Farm, near Dover, had baffled solution since March 4, was found on Saturday about half a mile from the Marvin farm by Ollie Pleasanton, a farmer. Pleasanton, who lives on a farm adjoining the Marvin's came upon the child's body while out gunning.

The body lay face downward in a patch of meadow grass. There was not a mark upon the little boy's body indicating foul play. It was in a good state of preservation, suggesting that it was frozen.

Pleasanton, says he saw the body at a distance of 20 feet. Saturday several gunners passed over this land, but none saw the body, if it was there then. The spot where the body was found is midday between the Marvin home and the Delaware River.

The recovery of the body was reported to Governor Lea, in Wilmington, who directed state detectives to make a rigid investigation of all the circumstances.

Dr. Marvin is convinced that his son met with foul play.

There is much to make it appear that the boy wandered away and fell exhausted into the pool where his body was found. Drs. James Wilson, Wilbur B. Burton, William F. Hoey and Alfred Robyou, the latter a bacteriologist, are trying to determine the cause of death for the coroner, and have decided that the body did not drown.

The condition of the stomach indicates, according to the physicians, that the boy suffered privation for at least 40 hours previous to death.

HONOR FOR STRATHCONA.

King Edward May Confer Dukedom On High Commissioner.

Montreal, May 6.—The statement was going the rounds in political circles on Saturday to the effect that His Majesty King Edward VII. would, in the near future, confer a dukedom upon Canada's high commissioner, Lord Strathcona and Mount Royal, who will naturally resign the office of Canadian high commissioner, to be replaced by Sir Frederick Borden, Minister of Militia and Defence.

As Lord Strathcona's great wealth has enabled him to do the honors of the office with a more lavish hand than any possible successor could ever expect to attain, it is understood that the Canadian Government have decided to increase the salary attached to the position from $10,000 to $25,000. This, it is held, while not putting the high commissioner on the same footing as his predecessor, will at least enable him to discharge the social duties of the position in a manner that will not be humiliating to Canada, following the footsteps of so generous an official as Lord Strathcona had proved himself to be.

GENDARMES USE VIOLENCE.

Ursuline Convent Entered — Doors Battered In.

Nantes, France, May 6.—At daylight on Saturday fifty mounted gendarmes surrounded the Convent of the Ursulines here, and when the sisters refused to open the doors they were battered in. The sisters were found assembled at prayers in the chapel, but after the mother superior had read a protest against the action taken by the authorities, the officiating priest removed the holy sacrament and the sisters withdrew. In the meantime an excited crowd gathered outside the convent, shouting maledictions on the soldiers. A number of persons were arrested, including a lieutenant of the 25th Dragoons.

FIREMEN SAVES LIFE.

Rescues London Man Who Was Stunned By Explosion.

London, May 6.—James Angus, proprietor of a bowling alley here, owes his life to the heroism of Dan McDonald of the fire department.

Saturday night Angus went into the basement and let a match. There was a leak of gas somewhere and the explosion which followed stunned Angus, blew out part of the building and set the place on fire.

McDonald had to grope his way into the cellar, but finally found Angus, who is seriously burned, but will recover.

Vivian Austin's Arm Broken.

Port Arthur, May 6.—Vivian Austin, welterweight boxer of Canada, met with a bad accident Saturday. He was employed in the lumber camps. During the night a fire burned his tents, where the men were sleeping on the ground. A train backing along the track awakened Austin. In some manner he stumbled on the track and was struck by the train. His arm was broken and he was badly bruised.

Revolver Accidentally Discharged.

Brockville, May 6.—The eight-year-old daughter of Wm. Donnelly, who lives near Lake Titus, got hold of a revolver in some way and started to show it to her mother. The revolver went off, sending a bullet through the fleshy part of the left hand of the child. The revolver had been left lying on a shelf and was supposed to be empty.

C. P. R. Brakeman Killed.

Fort William, Ont., May 6.—Albert Thomas, C. P. R., freight brakeman, was killed yesterday morning at 3 o'clock at Jackfish Station, east of here. In the act of stepping on the pilot of an engine, he missed his footing and was run over by the locomotive. Deceased formerly resided in Ottawa, where a brother resides.

Burlington Flyer Wrecked.

Manhattan, Mont., May 6.—A westbound Burlington flyer was wrecked just east of Manhattan Saturday night by running into a handcar.

The locomotive, the baggage car and the smoking car landed in a ditch. Fireman Harry Gilmore was killed and more than 25 passengers injured, some seriously.

Dr. G. Tweedie, resident superintendent of the isolation hospital, Toronto, has resigned.

STILL AFTER CABRERA

Another Attempt to Assassinate President of Guatemala.

Dynamite Mine Again Discovered Near Soldiers' Quarters—Arrests Being Made—Extensive Plot—American Legation In Danger—Mexican Lighthouse Attacked—Extradition Refused.

Guatemala City, Guatemala, May 6.—Another mine, containing many pounds of dynamite, was discovered Saturday in this city, in front of the building occupied by the regiment called the Guard of Honor, and not far from the residence of President Cabrera. This location is not more than two doors from the American legation. Had this mine exploded the damage to property and the loss of lives undoubtedly would have been great.

Arrests are still being made in the matter of the recent attempt by the explosion of an underground mine, on the life of the president of the republic, and it is reported that the perpetrators are now known. The plot evidently was quite extensive, but the president declares he has the situation well in hand. Further developments are awaited with anxiety.

A meeting of the diplomatic representatives was held for the purposes of adopting measures for ensuring peace, and for the protection of foreign property.

News Received In Washington.

Washington, May 6.—Another attempt to assassinate President Cabrera at Guatemala, according to advices received by Minister Toledo, has been made. The news was received in a cablegram of which the following is a translation:

"Minister Toledo, Washington,—A great mine was discovered placed in front of the barracks of the Guard of Honor, 120 feet from the American legation, and 189 feet from the presidential mansion. This scandalous attempt at assassination has created great indignation among all classes of society. (Signed) Barries."

Signor Barries is Minister of Foreign Affairs of Guatemala. The Guard of Honor is the special guard of President Cabrera.

Attack Mexican Lighthouse.

Mexico City, May 6.—Telegrams received from Santa Cruz tend to confirm a report from Vera Cruz that the Guatemalans made an attack on the Mexican lighthouse at San Benito, on the west coast, about eighteen miles from the Guatemalan port of Ocos. At the State Department, and at the Guatemalan legation nothing is known of the reported attack.

May Sever Relations.

City of Mexico, May 6.—Guatemala has refused to comply with the request of the Mexican Government, that Jese Maria Lima and Colonel Onefro Boro, charged with complicity in the assassination of Gen. Manuel Lisandre Barillas, be extradited. The Cabinet is now in session, and it is said that the Ministers are debatng the advisability of immediately severing diplomatic relations with Guatemala.

THREE MEN ASPHYXIATED.

Found Dead In Bed With the Gas Jet Open.

Montreal, May 6.—When the inmates of a boarding house kept by Mrs. Smith, 342 St. James street, awoke yesterday morning, three of the boarders were found to be missing, and as they did not put in an appearance at the usual time, a search was made, and the bodies of the men were found in their beds, they having been killed by escaping gas, the gas pipe having been left open. The names of the men, all of whom were working men, are Brindle, McGown and McGillick.

IS GOING TO HEAVEN.

Sells His Stock and Awaits His Reward.

Great Falls, Mont., May 6.—Believing that the end of the world will come within ten days, and that he with a handful of followers will be translated to heaven, A. W. Staunton, a prominent stockman of this city, has disposed of all his property, valued at several thousand dollars, to the first bidder for $150 and taking up his home in a rented house, is calmly awaiting the end.

Staunton's followers, eight in number, disposed of their possessions in a similar manner and are with him.

TALK OF LYNCHING NEGRO.

Charged With Criminal Assault On 10-Year-Old Girl.

Calgary, Alta., May 6.—Thomas Rife, a big negro, was arrested here Saturday morning on the charge of criminal assault on a little German girl, ten year old. Rife is about 27 years old.

There was some talk of lynching, but the man who tried to work up the party said he could not find enough Americans in town to join.

Sheriff Hossie Dead.

Stratford, May 6.—After an illness of several weeks, Sheriff Hossie, one of the most prominent figures in public life in Stratford, died at seven o'clock Saturday evening. He was aged 71, and had been a member of the office, as bailiff, deputy sheriff, and sheriff for the past fifty-one years. He is survived by a widow, but no family.

Young Man Shot Himself.

Montreal, May 6.—The Albion Hotel was the scene of a tragedy yesterday, when David Parker, the young son of the proprietor, shot himself, whether accidentally, or by design, will have to be determined by the coroner's jury. Parker was a popular young felow, and as far as known, there was no reason for his taking his life.

The steamer Turbinia is to be put on the route between Toronto and Lewiston this season.

William Sutherland Dead.

Glencoe, Ont., May 6.—William Sutherland, treasurer of the Township of Ekfrid, and one of the pioneer newspaper men of Canada, passed away at his home in Ekfrid Township on Saturday night. Mr. Sutherland was born in Edinburgh, Scotland, on April 26, 1824. His father was a printer with the firm of Hunter & Blair, who had the monopoly of printing Bibles in Scotland. In 1842 he came, with his parents, to Canada, settling in Montreal. Later he came to London, where he founded the Canadian Free Press, which he conducted as a weekly Liberal newspaper for four years, also publishing for a short period a daily edition. In 1854 he disposed of the Free Press and moved to Ekfrid Township. In 1875 he bought The Glencoe Transcript, then recently established, and conducted it until October, 1881, when he sold it to his son Arthur, the present publisher.

Big Blaze In Kansas.

Kansas City, May 6.—Fire Saturday night destroyed the five-storey building of the Goldstandt Powell Hat Co., 823 Broadway, causing $200,000 damage.

The Marathon Mystery

A Story of Manhattan

By BURTON E. STEVENSON
Author of "The Holladay Case"

Copyright, 1904, by Henry Holt and Company

"Tremaine has secured Thompson's key, given him some money and sent him out to get drunk. But for Jimmy the Dude he would probably have stayed away—probably in the lockup—but Jimmy brings him home. Tremaine has to make the best of it, since there isn't time to get Thompson out of the way again. Anyway, he's so dead drunk that Tremaine anticipates no interference from him. He shuts him in the bedroom and sits down to wait for Miss Croydon.

"She arrives promptly, despite the rain, and we can imagine that the dialogue which followed was not of a milk and water kind; both of them are full of fire, and they made the sparks fly.

"Thompson is aroused by the voices or perhaps wakes naturally, comes into the outer room and interferes. He is still half drunk; perhaps he threatens Tremaine. At any rate, Tremaine picks up the iron pipe and knocks him down; then in a sudden black frenzy of anger, remembering Australia, seeing how Thompson will always stand in his way, he draws his revolver and shoots him through the heart. That done, he walks out, closes the door, goes to his room and at a favorable moment leaves the building."

He leaned back in his chair and applied a fresh match to his cigar.

"That," he concluded, "is my idea of the story. There's one person who can fill in the details. I'm going to apply to her as soon as I get back from Boston."

"You mean Miss Croydon?"

"Yes," he nodded; "and I think Tremaine is pretty near the end of his adventurous career."

"There's one thing," I remarked after a moment "that diamond I found on the floor here didn't come from Tremaine's pin. I tried it last night, and it didn't fit."

Godfrey smiled as he placed the clippings carefully in his pocketbook.

"I know it," he said. "I meant to tell you. It came from a ring belonging to Jimmy the Dude. I saw him tonight across the street. Simmonds had him in for another sweating—Simmonds isn't quite convinced yet that Jimmy's innocent—and I noticed a ring on his finger contained a cluster of little diamonds. One of them was gone, and when I questioned him he said he'd lost it somewhere the night Thompson was killed. He probably dropped it here as he was helping Thompson to bed."

"That's it, no doubt," I agreed. "But it breaks one thread of evidence."

"We don't need it!" declared Godfrey confidently, as he arose to go. "We've got a chain about Tremaine, Lester, that he can't break, and we'll compel Miss Croydon to forge the last rivet."

But in my dreams that night I saw him breaking the chains, trampling upon them, hurling them from him. I tried to hold them fast with all my puny strength, for I fancied that once free he would sweep over the earth like a pestilence. Then, suddenly, it was not Tremaine, but Cecily, I was holding. She turned to look at me with a countenance so terrible that it palsied me. Her eyes scorched me with a white heat, burnt me through and through. Then she raised her hand and struck me a heavy blow upon the head—again—again—till, blindly, in agony, I loosed my hold of her and fell.

CHAPTER XXIII.

THE cold light of the morning brought with it a profound skepticism. Godfrey's theory no longer seemed so convincing. In fact, it did not seem convincing at all. Many objections occurred to me. I saw that the whole elaborate structure was built upon quicksand. There was no proof that any of the clippings referred to Tremaine or Thompson. There was no proof that Thompson had gathered them with elaborate care and of set purpose. There was no proof—

Yes. There was one point susceptible of proof. By it the whole structure would stand or fall.

"Mr. Royce," I said to our junior, in the course of the morning, "I wonder if I could be spared this afternoon? I've some business of my own which I'd very much like to attend to."

"Why, certainly," he answered instantly. So when I left the office at noon, I took the elevated to the Grand Central station and bought a ticket to Ossining. Once there, I went direct to the gray old prison and stated my errand to Mr. Jones, the subwarden, whom I found in charge.

"I've come up from New York," I began, after giving him my card, "to see if you can identify this man," and I handed him the photograph of Thompson.

He looked at it long and searchingly, seemingly for a time in doubt, but at last he shook his head.

"No, I don't believe I can," he said. "There's something familiar about the face, but I can't place it."

"How long have you been connected with the prison, Mr. Jones?" I asked.

"I began thirty years ago as guard. But what made you think I could identify this fellow?"

"We've rather imagined," I answered, "that his real name was Johnson and that he served a term here for robbery, beginning in 1885."

He looked at the photograph again, with a sudden flush of excitement in his face.

"I believe you're right," he said. "Let's look at Johnson's photo."

He consulted the index, then turned to one of the wall cases.

"Here he is," he said, opening a compartment and pointing to a photograph. "It's the same man sure, only changed a lot. It would be easy to prove it. I suppose they took his Bertillon measurements at the morgue, and we've only to compare them with ours. They'd be the same, no matter how much he'd changed."

And he had changed, indeed! The Johnson of the prison photograph was, of course, smooth shaven; his face was alert, intelligent; there was no scar upon the temple, nor did the features show that subtle bloating of long continued dissipation. But it was the same—undoubtedly it was the same. There was no need to apply any finer tests.

To be continued.

Richard Mossey, a prominent East Zorra farmer, was found dead in a ditch.

ALMOST A RACE RIOT.

Italian Parade Ends In Mixup With Police.

Buffalo, N. Y., May 6.—The nearest thing to a race riot Buffalo has seen in years was precipitated yesterday when an Italian parade attempted to spread its ranks across Main street and stop street car traffic. A motorman insisted on running his car first through the procession, and immediately a riot began, which developed into a running fight that spread along three city blocks.

Reserves of police were rushed to the scene, and weilded clubs with vigor. Policemen who were surrounded, seized switch irons from trolley cars to use in their defence. After twenty minutes of vicious fighting, during which less than a score of policemen fought hand to hand with more than 100 armed Italians the Italians fled, leaving the worst wounded of their number with the police.

One sergeant of police was stabbed, but not seriously. The rioters retired with cut and bruised heads. Some citizens who rushed to aid the police nearly turned the fray into a race riot. The citizens were more badly hurt than the police.

SOCIALISTS PARADE.

Show Their Sympathy With Men Accused of Murder.

New York, May 6.—Two long lines of men and women—probably 20,000 of them marched through the streets of the upper and lower east side late Saturday, to demonstrate their sympathy for Moyer, Haywood and Pettibone of the Western Federation of Miners, whose trial on the charge of killing ex-Gov. Steunenberg of Idaho, will begin next Thursday at Boise.

Merging subsequently into a huge crowd at 40th streets and Lexington avenue, 2,000 or 3,000 of the paraders managed to crowd into the Grand Central Palace to wind up the demonstration in one of the biggest union labor and socialistic demonstrations seen in New York for a long time.

No disorderly demonstrations of any sort marked the progress of the marching lines. The first real enthusiasm came after the crowd had entered the hall, when a fife and drum corps started the thrilling strains of the "Marseillaise." The crowd cheered and scores waved small red flags.

C. P. R. IS CENSURED.

Should Notify Agents of Meeting of Trains.

Myrtle, May 6.—The coroner's jury investigating the C. P. R. accident at this place on March 25 and which resulted in the death of Fireman Charles Jones and Brakeman Harry Howe, were in session until two o'clock Saturday morning. The jury found that Charles Jones, fireman, and Harry Howe, brakeman, came to their death as a result of a head-on collision two and a half miles east of Myrtle, and that Conductor Frank Cook and Fireman Charles Jones, deceased, were guilty of negligence, and censured the C. P. R. for not notifying the local agents of the meeting of trains.

Crown Attorney Farwell says he is not prepared to say at present what action will be taken.

BOY DROWNS IN WELL.

Five-Year-Old Child Victim of Sad Fatality.

Bowmanville, May 6.—Mrs. Robert Finley dressed her five-year-old son, Charles, in his best clothes and allowed him to go out of doors.

He strayed into South Park, near by, and fell into an unprotected well. The parents, having missed him, the neighbors instituted diligent search, but no clue was discovered of his whereabouts until about three o'clock, when his hat was found near the well. A pole with a hook on the end was obtained and the body was soon found.

W. H. Hunter Appointed.

Toronto, May 6.—W. H. Hunter was on Saturday unanimously elected by the executive of the supreme court of the I. O. F. to the post of supreme counsellor.

Mr. Hunter has been for some time on the board of legal advisers to the order, is a barrister and a Toronto man. Since the death of Dr. Oronhyatekha, the supreme council has been altered, and as now constituted is as follows: Hon. Elliot G. Stevenson, supreme chief ranger; Victor Morin, B. A., LL.B., past supreme chief ranger; J. D. Clark, supreme vice-chief ranger; J. D. Clark, supreme chief ranger; R. Mathison, M. A., supreme secretary; H. A. Collins, supreme treasurer; S. Millman, M. D., M. R. C. S. E., supreme physician, and W. H. Hunter, supreme counsellor.

Seized Torrey's Property.

Montreal, May 6.—Although Rev. Dr. Torrey has made a most successful evangelistic campaign, his spare cash is now tied up at the Windsor Hotel, where the noted preacher has been occupying fine apartments since he arrived in this city.

Mr. Norman Murray was not satisfied with the evangelist's apology, and consequently his lawyer, Mr. Arthur Beauchene, put a seizure on Dr. Torrey's money and belongings. He says that if Torrey returns to the States he will have him extradited.

The reverend gentleman, he says, made a very tame apology, and most likely he will have to do the whole work over again.

Murder In New York.

New York, May 6.—Summoned into a yard in the rear of a stable where he was employed in the Bronx Saturday night, Vincenzo Criscio was killed by being shot through the heart.

Following the murder the police sent out a general alarm for Joseph Criscio, not a relative of the dead man, who is alleged to have done the shooting.

Killed by Locomotive.

Port Arthur, Ont., May 6.—Ben Daniels, in the employ of the C. P. R. at Schreiber, was killed. He was crushed by a locomotive and died en route to the hospital. This is the seventh death from accident in that small town in one week.

The St. Lawrence from Montreal to the ocean, is now clear of ice, and ocean navigation may be said to be open.

QUEBEC FRENCH ALWAYS.

So Speaks Gauthier, M.P.P., At Banquet In Montreal.

Montreal, May 4.—At the banquet given to Senator Desailles of St. Hyacinthe, J. Gauthier, M.P.P., dwelt on the province as she was yesterday, as she is to-day, and as she will be to-morrow.

She was French, she is French, and must remain French, he said. The French-Canadians have enemies outside their range who seek to diminish their influence, and they have enemies within their ranks who, by attacking the institutions which the French-Canadians revere, are weakening them.

Since the dark days of 1763 their enemies from the outside had tried in vain to drown them out. To preserve their position in the confederation, they must look forward. The population of this province was increasing merely by natural increase whereas immigration soon to reach half a million annually was pouring into other provinces.

It behooved the Government of Quebec to further colonization. To acquire Ungava for that purpose, as the St. Lawrence will soon be too limited to carry all the trade of Canada.

INDIANS FIGHT AT DANCE.

Results In One Death—Liquor and Woman the Cause.

London, Ont., May 4.—In a quarrel over a woman, during a dance on the Muncie Indian Reserve on Thursday night, Tom Noah drove a jackknife into the forehead of Abe Sox. The blade broke off in the wound. Sox died almost at once. Noah disappeared, but was arrested yesterday afternoon by High Constable Hughes of London. The man was hiding in the bush behind his father's house. On the train, he expressed great regret for his crime, which was done while he was under the influence of liquor. An inquest will be held next Wednesday. Noah will appear before a magistrate on Friday next.

There were about 25 Indians at the dance, which was being held in a one-storey log house, a mile east of Middlemiss. There was bad blood between the men, and earlier in the evening they had exchanged blows.

How the final clash came about is yet to be learned.

QUEBEC ELECTIONS.

Acting Premier Knows Nothing About Dates Yet.

Quebec, May 4.—Asked as to what truth there was in the report published in a Montreal paper Thursday that the Province of Quebec general elections would take place next fall, Hon. A. Turgeon, acting Premier, said yesterday that the matter had never been discussed previous to Premier Gouin's departure for Europe. Hon. Mr. Turgeon spoke as though the elections would hardly take place this year.

After Eloping Parson.

New York, May 4.—With a view to gathering evidence upon which to base a warrant for the arrest of the Rev. Jere Knode Cooke, who is alleged to have eloped from Hempstead, L. I., last Monday with 17-year-old Floretta Whaley, the district attorney of Nassau County yesterday assigned a county detective to work on the case. The first act of the detective was to visit Hempstead, where Mr. Cooke was pastor of St. George's Protestant Episcopal Church, to interview Mrs. Kaziah Whaley, grandmother of the missing girl. It is said that an attempt will be made to have Mrs. Whaley make a formal complaint, as Floretta is under 17 years of age.

"Ottawa" Caught In Ice.

Halifax, N.S., May 4.—The Allan Line steamer Sardinian, from London and Havre, arrived yesterday afternoon. The Sardinian sailed from Havre. April 20 for Montreal and got as far as Cape Ray, when she saw the Dominion Line steamer Ottawa, which sailed from Halifax for Montreal on Sunday caught fast in the closely-packed ice. The captain therefore decided to make for Halifax.

While the Sardinian was off Cape Ray, the Ontarian, also of the Allan Line, bound for Montreal, came up and changed her course, whether to come to Halifax or await a chance to get up the gulf is not known. The Sardinian brought 563 passengers.

Surrounded By Fire.

Bellingham, Wash., May 4.—The Town of Maple Falls, situated in the northwestern part of Whatcom County, is surrounded by forest fires and is burning. Before telephone and telegraph wires went down a frantic call for help was made. A special train with fire-fighting apparatus left here yesterday for the scene. Maple Falls has a population of 800.

G. T. P. Men on Strike.

Neepawa, Man., May 4.—Five hundred men working on the Grand Trunk Pacific here struck, most of them starting east by the C. P. R. Some 200 stopped at Minnedosa. Most of them were, apparently, foreigners.

The cause of the strike is not apparent, but it is said to be for higher wages, better shelter and better conditions generally.

Bigamist Gets Three Years.

Stratford, May 4.—Leslie Harris, arrested some time ago on a charge of bigamy, has been found guilty and sentenced to three years in the Kingston Penitentiary. Harris married Frances McDonald in Portage la Prairie on Feb. 14, 1901, and was again married to Jessie Harwood of Zorra in Stratford Feb. 6, 1907.

Baby Murdered.

Douglas, Man., May 4.—The body of a small child was found near the railway just outside the village yesterday, and circumstances would indicate that it had been thrown from a passing train and killed.

Remanded for Eight Days.

Welland, Ont., May 4.—Harman Bartle of Syracuse, arrested at Niagara Falls, on a charge of perjury, had a hearing here yesterday afternoon, and was remanded for eight days.

Fire underwriters will ask the government to tax business done in the province by outside insurance companies.

WON'T SAY IT AGAIN.

Roosevelt Refuses to Reiterate Declaration of 1904.

Washington, D. C., May 4.—The statement was authoritatively made yesterday that President Roosevelt at present has no intention of reiterating his declaration made on election night in November, 1904, that under no circumstances would he be a candidate for or accept another nomination. Reports of this character have been current lately and have been brought to the President's attention, but from what he has told those close to him, he has no such idea in his mind, feeling that there is no necessity for such a reiteration on his part.

Killed Three For $16.

Middletown, N. Y., May 4.—Chas. H. Rogers, who is charged with the murder of the two Olney brothers, and Alive Ingerick, who lived on the Olney farm, was brought here yesterday. Rogers was captured in Los Angeles after a chase which continued more than a year ago. He secured $16 from his victims. Rogers seemed to be in exceptionally good spirits upon his arrival.

Three Thousand Go Out.

New York, May 4.—A strike of longshoremen at the docks of the Bush Company and along the waterfront in Brooklyn, which has been in progress for several days, assumed serious proportions yesterday, when 3,000 men went on strike in Brooklyn alone. The strikers demand an increase in wages from 23c to 30c an hour for day work, and from 25c to 45c for night work.

Two Families Asphyxiated.

New York, May 4.—William Cross, 38 years old, his wife and their two sons, were found dead from inhaling illuminating gas in their home in Jersey City yesterday.

John McCracken, aged 72 years, and his son, William, 35 years old, were found dead in their apartments in West Forty-Eighth street. Gas was escaping from a stove in their rooms.

Seattle Welcomes Kuroki.

Seattle, Wash., May 4.—Gen. Kuroki and his staff, representatives of Japan to the Jamestown Exposition, arrived here Thursday after being delayed by a fog on Puget Sound. At daylight fireworks were set off, and a hundred Japanese girls sang the national anthem and the general's carriage was almost covered with flowers presented by school children.

Scared Wife, Shot Self.

New York, May 4.—Thinking that he had killed his wife, at whom he had fired a shot, inflicting a slight wound, John Wagner, rushed from his home in Ridgewood, L. I., yesterday and sent a bullet into his head. Mrs. Wagner was more frightened than hurt. Wagner was 50 years old, his wife 40.

Swift Jersey Justice.

Woodbury, N. J., May 4.—Swift justice was meted out yesterday to Edward Gibson, a negro, who on Monday night last attacked Miss Dorothy Paris, 19 years old. Gibson was sentenced to twelve years' imprisonment and to pay a fine of $3,000.

Lady Somerset's Farewell.

London, May 4.—Lady Henry Somerset, who is retiring from public life in order to devote herself to private charities, made her final appearance as a public speaker yesterday afternoon before a fashionable audience in the picture gallery of the Earl of Ellesmere's residence, Bridgewater House, giving an interesting lecture on Joan of Arc.

New Governor for Yukon.

Ottawa, May 4.—It is expected that an announcement will be made shortly of the appointment of Dr. Thompson, M. P., for the Yukon, as governor of the Yukon district in succession to Mr. W. W. B. McInnes, who resigned the office to contest the City of Vancouver for the British Columbia Legislature in the recent campaign.

Must Serve His Term.

Toronto, May 4.—At Osgoode Hall yesterday, Chief Justice Meredith declined to quash the conviction of Ross Howard of Hagersville, who was sentenced to 30 days in jail for abducting Euphemia Wilson, aged 14, of Lyndoch.

Ended With a Bullet.

Paris, May 4.—Charles J. Steadman of New York and Philadelphia, son of the late Rear-Admiral Charles Steadman, committed suicide by shooting Thursday night at the Hotel de l'Orient here.

Dublin Exhibition Opens.

Dublin, May 4.—The Irish International Exhibition, which opens here to-day, is an event of far-reaching interest to Ireland, as it is designed to revive the drooping interests of the country, and at the same time present a picture of Irish development and progress.

Elaborate arrangements are being made by the English railway and steamship companies to transport great numbers of visitors to the capital., and their officials say they are prepared to carry between 40,000 and 50,000 passengers daily during July and August. The opposition manifested by the Nationalists has somewhat abated, and the show promises to be a successful one.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

The congregation of Bond street Congregational church, Toronto, accepted the resignation of Rev. J. B. Silcox.

ACCIDENTS VS. FIRES

It is said that 20,000,000 accidents and illnesses occur each year, but only 80,000 fires.

A business man protects his property against the loss that rarely happens—fire. He can replace his property, but he can never replace his time or his damaged arm.

The most liberal accident and sickness policies are issued by

The General Accident Assurance Company of Canada

Our "Utopia" policy is the best and most unconditional Accident Policy on the market, and completely covers all loss of time from accident.

We issue a Sickness policy which covers every disease to which flesh is heir.

We are revolutionising the liability business by our "factory policy."

MONDAY MAY 6, 1907.

EIGHT PERMITS WERE ISSUED

For New Buildings Since the By law Come into Force

The city clerk has been doing quite a business in issuing building permits. Since the article appeared in the Review last week drawing attention of the contractors and builders to the fact that a permit was necessary, six new cards have been issued, making a total of eight. This is a slight improvement, although there are many more buildings for which permits should have been taken out some time ago.

As was pointed out a few days ago there is no one to enforce the bylaw and it is understood that this question will be raised to-night and probably some provision will be made so that the expense already gone to in this respect will not be wasted.

Will Rush Work on Trent Canal

The intention of the Government is to push the work of completing the Trent canal with all possible despatch. The work in the vicinity of Trenton naturally will be straightening and dredging of the river and the building of a lock in the vicinity of the Grand Trunk bridge, and so on up the river.

Lindsay Honors Chief Nevison

The citizens of Lindsay on Friday night last, presented Mr. S. Nevison late Chief of Police in that town, with an appreciative address and a gold watch. Deputy Reeve George Jordan read the address, and Judge Harding made the presentation. Ex-Chief Nevison is leaving to reside in Muskegon, Mich.

Succession duties, received by the Ontario government in April, amounted to $308,381.

REMOVAL

On or before May 15th our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

JOHN NUGENT

OBITUARY

A STRICKEN FAMILY.

It has been the sad experience of Mr. John C. Hogg, of Minden township, to suffer the loss by death of four members of his family during three weeks. Besides this, his son Ralph buried their little babe on the date of the first funeral from his father's home, also a little child Mrs. Hogg, in a poor state of health, attended the double funeral and was the next to be taken. On Sunday evening last, John, aged 18 years, passed away, followed by the death of his little brother Edward of six years, next morning. These were buried on Monday, and the neighbors being alarmed, have closed the school. The trouble appears to be a membraneous croup, which has resulted very fatally for Mr Hogg's family. Nearly all the members of the family at home have been ill with it, and at one time there was none to care for the sick but Mr. Hogg and his son, Richmond Two doctors have visited the house of suffering and the local Board of Health is cognizant of the facts Much sympathy is felt for Mr. Hogg in his very severe affliction.—Minden Echo.

COLLECT RUBBER FOR HOSPITAL

For Consumptives at Muskoka—Committee Being Organized

A committee of ladies and gentlemen is being formed for the purpose of raising funds for the Free Hospital for Consumptives at Muskoka. The plan decided upon is to collect all the old rubber which can be secured in the city and sell it. Rubber at the present time is very high in price and those who have any on hand are asked to keep it for a few days, when the committee will come after it.

Further particulars will be given in a few days.

PETERBOROUGH'S PROSPERITY

How it Effects Trade in High Grade Pianos

Some months ago we published, as evidence of Peterborough's prosperity, a list of recent purchasers of the celebrated Gerhard Heintzman piano, containing about forty names of our prominent citizens. As a further proof of the continued good time we publish herewith another list of customers, who have purchased, from the Gerhard Heintzman Co., since the list referred to appeared, through their local representative Mr. W. H. Isaac.;

Mrs. A. C. Tremeer.
A. F. Lane.
A. A. McIntyre.
W. E. Watson.
A. J. Warne.
Wm. Robertson.
Miss Bernice Hayward.
Mrs. J. Scott.
F. Arnsby.
R. Holt.
Wm. Gibbs.
S. Sharpe.
Miss Eva W. Bradd.
F. Brownscombe.
Mrs. Frank Galvin.
R. Gibbs.
Mrs. J. McGill.
W. H. Isaac.
H. R. Stewart.
Miss Mossie Henderson.
Pardee B. Wright.
L. L. Kennedy.
Miss M. A. Ferguson.
Miss M. Loomis.
Dr. Ford, Norwood.
Wm. Shea, Norwood.
Wilmot Herrington, Havelock.
A. E. Denike, Havelock.
James E. Black, Havelock.
Thos J. Lloyd, Havelock.

It speaks volumes for the city of Peterborough that our people are buying such high grade pianos and which, after all, is the essence of economy. 1d1w

Knee length, with lace trimmings. Special values at 25c and 35c

Children's Summer Underwear
Vests and Drawers; Black and White; all sizes. Special values at from 10c to 25c.

Harry Adams

Fatal Accident in Clay Pit; Italian Killed in Lakefield

Was Digging Near Dangerous Bank of Earth When it Fell on Top of Him—Unfortunate Man Lived Only Short Time After Being Extricated—Had Been in This Country Only Two Weeks.

A fatal accident occurred on Saturday afternoon at the clay pit of the Lakefield Portland Cement Company's works in the village.

Jeuseppee Isdioio, an Italian, who about a fortnight ago entered the employ of the company, met his death by a large bank of earth falling on top of him.

The cave-in happened about one o'clock in the afternoon and at five o'clock the unfortunate man expired.

Isdioio was filling a wheel-barrow with blue clay. He was working, it is said, near a bank of earth, which the foreman had cautioned him and others to keep away from as it was a dangerous spot. Apparently no heed was paid to the warning, for the bank, being undermined fell and the Italian was buried several feet deep beneath two tons of earth. As soon as the huge pile fell an alarm was given and men were set speedily to work to dig out the unfortunate employee. It was over an hour before he was extricated. The earth fell on his body and feet, his head escaping serious injury. Dr. Brown, of Lakefield give the man several hypo-dermic injections in the hope of prolonging his life, but the internal injuries received were so severe that the Italian passed away at five o'clock.

Dr Gray, coroner, was promptly informed of the death but, after inquiring fully into the facts surrounding the fatality, decided that an inquest was unnecessary. The coroner was notified by Dr. Brown and the officers of the company.

Isioio was about 38 years of age and had been in Canada only two weeks. He leaves no relatives in this country

The Lakefield Portland Cement Co. had the unfortunate man buried in the cemetery. Deceased was very popular among his fellow employees, and his death has cast a gloom over their ranks.

Engineer Kyle at Myrtle Inquest Makes Admission

He Disobeyed the Rules—In the Fog Thought Train He Met at Myrtle Was One He Had Orders to Meet—Station Agent Chased Train on Velocipede.

Myrtle, May 4.—At the coroner's inquest here regarding the two deaths in the C.P.R. collision on March 25 last, the jury seemed far from a verdict at one o'clock this morning. The men who met their fates in the accident were Charles Jones, a fireman, and Harry Howes, a brakeman. The collision took place about two miles east of Myrtle and the inquest was adjourned from time to time until Engineer Kyle of one of the leading trains, has recovered sufficiently to tell his story. Coroner Mellow, of Port Perry, thought the jury should surely be able to attach the blame somewhere. One witness was recalled after midnight, while much previous evidence was re-read.

THE ENGINEER'S STATEMENT.

Engineer Hugh Kyle, who was on the eastbound train, said he had received an order regarding the meeting of the westbound train, with which the collision took place. This order was to meet the other train at Myrtle, the order being received at Locust Hill. He admitted having passed the station where he was ordered to stop. His explanation was:—"I was going east, and coming through Myrtle I shut off steam. There were smoke and fog and steam, so that it was impossible for me to see the number of the engine on the siding. I thought surely this was the train I was to meet, since I had no order to meet two trains. My fireman, who was killed, said it was all right because the train we were to meet was on the siding. I got the signal from the brakeman or my conductor to proceed and away I went. I would not have left the Myrtle yards unless I got that signal."

"I thought we had met the right train at Myrtle," said Mr. Kyle. "I would have stopped if I had not received the conductor's signal."

CHASED TRAIN ON VELOCIPEDE

The station agent at Myrtle, Mr. Frank Harrison, stated he had had no order that the two trains in the collision were to pass at Myrtle, or else he would certainly have dealyed the eastbound train. He told a story of getting on a velocipede and trying to catch the train which had passed, but the attempt was a failure. "According to the rules the operators where trains meet should be notified of any such meeting," said Mr. Harrison.

The Myrtle night operator, Mr. William Finley said he had received no order that the trains in question were to pass there; neither had he received a call from the despatcher

75 P. C. Medical Graduates Are Unfit to Practice

Startling Charge at American Medical Association Concerning U. S. Conditions Goes Unanswered.

Chicago, May 6—"There are on an average 4,000 doctors graduated every year by the medical colleges of the country, and about three-fourths of these are utterly incompetent and should never be permitted to practice medicine. The average medical college is lacking in proper equipment, the instructors are wanting in the necessary ability for their task, and their examination methods are useless."

These startling statements were made at a meeting of the council on medical education of the American Medical Association, a council composed of members of the various State boards of medical examiners and delegates from the State medical societies. The statements were made without contradiction in a body representing leaders in the medical profession from all parts of the United States.

State ownership of medical institution was the only concrete remedy which was suggested for an evil which, it was admitted, had reached threatening proportions, and which struck at the health and lives of millions. The consensus of opinion, however, was that this remedy was not feasible.

PRIMARY EDUCATION A FARCE

"This evil of incompetent doctors turned out by inadequate schools," said Dr. Chester, Mayer, member of the State board of examiners of Kentucky "strike down to the roots of the educational system. Primary education is a farce. I have lectured and taught students for years knowing only too well that they, for the most part, did not understand what I was saying, because of the defects in their primary education. Yet these men will be coached for examinations and will pass them, while they are almost entirely ignorant of the subjects in which they are examined."

Statements even more ominous in their import were made by Dr. W. T. Means, chairman of the judicial council of the Association of American Medical Colleges. Dr. Mean's supported his statements with statistics revealing an extraordinary condition in the method by which men are authorized with power over life

"The average man qualified as a medical practitioner," said Dr. Means, "is deficient in knowledge of bacteriology, chemistry, physiology, anatomy. I doubt if he could make a laboratory test for typhoid fever. I have written to twenty-five State boards and I find that fifty-eight per cent. of the men who fail at their final examination pass on a second examination a few weeks after. In the few days intervening, where did they get their knowledge? They did not get it. They were simply crammed with the answers to these questions, which it was expected they would be asked, and they answered as parrots, not knowing what they were saying."

Dr. Means had a remedial measure to suggest. He proposed that instead of one examination at the end of the student's course, the State board should be authorized by law to hold a primal examination at the end of the second year of the curriculum. This proposition aroused considerable discussion, but no conclusion was reached.

Local Men Awarded Their Long Service Decorations

Section 75 of general orders for the Canadian Militia, just issued, contains information to the effect that the officers' long service decoration has been awarded to Col. Greenwood, officer formerly commanding the 3rd Dragoons, now in Africa, and also that the long service medal has been awarded to Orderly Room Sergeant R. A. W. Hay, of the 24th Field Battery.

Col. Greenwood, who is now in South Africa, came to the Dragoons from the 4th Hussars, with whom he had served for some time. He was made major on joining the Dragoons and later was made commanding officer of the corps.

Sergeant Hay has had a long military experience and has a thorough knowledge of soldiering. He has been connected with the 57th regiment, Peterborough Rangers; 14th Field Battery and the 24th Field Battery, of which corps he is prominently identified at present. Many friends in Peterborough especially the military men, will congratulate Col. Greenwood and Sergeant Hay upon the honor that has been done them.

Mr. Haggart has been instructed to sell by Public Auction on May 22nd, at 3 p.m., 20 fine lots, 50 x 114 feet, on Dickson and Rogers Streets, East City. They are well situated and close to the centre of the city. This will give people of moderate means a good opportunity to get home lots at low prices.

Karwartha Park Property Owners

Will Hold an Important Meeting at Y.M.C.A. This Evening

The property holders of Kawartha Park, on Sandy Bay, Clear Lake, will hold a meeting in the Y.M.C.A. hall this evening at eight o'clock at which a large attendance is looked for The matter of erecting cottages, boat house wharf, etc., at the park, as well as the advisability of having a mail service, will be discussed

Other improvements will also be considered.

To Organize Home Mission Society

Church News of Interest to St. Andrew's Congregation

A meeting for the purpose of organizing a home mission society will be held in St. Andrew's church tomorrow night. Heretofore the home mission work has been looked after to a large extent by the Christian Endeavor Society. It is felt, however that there is plenty of work for a home mission society and it is expected that there will be a large attendance to-morrow night. The meeting is called for eight o'clock.

To-night at eight o'clock, the annual reunion of the congregation and friends will be held when a program of excellent music will be given by Mr. F. C. Freeland, Mr. H. Morphet, Miss Clara Belleghem, Miss Edwards and Mrs. Davidson. Short addresses will be given by Rev. Dr. Marsh and visiting clergymen.

Prayer meeting will be held on Wednesday evening.

Jos. Yelland Was Injured in Wreck

Axle on Lakefield Train Broke and Three Cars Were Derailed

The Lakefield train had troubles of its own this morning, although they were not nearly as serious as they might have been. No. 37, which is the regular mixed freight and passenger, left this city at the usual time with several loaded cars ahead of the passenger car. The trip was made successfully, until the train had slowed down for Lakefield station. It was just passing the Cement Co.'s office, when the rear axel on the third car ahead of the passenger cars broke. This let the trucks loose and as they came in contact with the cars behind, there was a severe jar, and three freight cars left the track. The passenger cars were uninjured, although the jar was felt there. Mr. Jos. Yelland was a passenger on the train and he was thrown forward off the seat and injured his back. Other than that no one else was injured at all. The track was blocked for about twenty-five or thirty minutes, but everything is now cleared away, and the trains are running as usual. Mr. Yelland was brought to the city when the train returned and was attended by Dr. Bradd, who had him removed to his home in a cab His injuries are not very serious, and he will be around again in a few days.

Board of Health Short Session

Ceptic Tank in Ashburnham to be Examined—Inspector's Report on River Banks

A short session of the Board of health was held this morning. The Chairman got down early and called his associates together, and several matters were considered. The chairman also thought it was time to once more discuss the isolation hospital, as it is several weeks now since the necessity for the general health of the city was considered. The other members of the Board, however, thought otherwise, and it was left over for a future date.

Members present: Chairman Wm. Eyres, R. Neill, Geo. Schneider, Mayor McWilliams, Dr Bingham, Sanitary Inspector Ball, A. Parker.

Mayor McWilliams notified the Board that he had received a complaint about the condition of the market square, but upon investigation this morning, found that two men were working hard on it. This is good news to the citizens, and especially so to those around the market, as the condition of the square has been anything but satisfactory.

Reports from thirty-one samples of milk have been received, but the Board decided to hold back the publication of them until the reports on the second round have been received. A motion was put through to that effect.

The Sanitary Inspector was instructed to report on the number of places not connected with sewers, within the compulsory area, and as soon as this report is received, notices will be sent out.

Inspector Ball made a report on his inspection of the river below the waterworks intake pipe, and stated that there were several matters, which must be rectified. He thought that the Board of Health should severely condemn all vaults and pits in the city, and especially those along the river front.

Inspector Ball said that many of the cases he reported on, he hoped to have rectified before another week passed.

The Medical Health Officer and Sanitary Inspector were notified to examine the septic tank in Ashburnham, to ascertain whether or not proper use is being made of it.

Wanted Men to Go on Strike

But Dissatisfied Laborers Were Told They Might Quit

Contractors Sheehy and Langford this morning nipped in the bud what probably would have culminated in a strike of the men employed on the foundation work of the new Collegiate Institute. It appears that there were three men who were not satisfied with the wages being paid, and were endeavoring to incite the other men to quit work. They made a demand to the contractors for more money, but Messrs. Sheehy and Langford, knowing what was going on, told the trio that if they were not satisfied with the wages being paid they could quit. They quit. Their places were soon filled, and the work is proceeding as rapidly as ever.

Messrs. Sheehy and Langford are probably paying the highest wages in the city to their men and have a staff of excellent workmen.

FLOWERS SHOULD BE DISPLAYED

In Front of the Stores—By-law is Unfair in This Respect

To the Editor of the Review.

The bylaw relating to the displaying of goods by merchants in front of their places of business, will no doubt prove beneficial to the public as regards food products being exposed to dust and the ravages of dogs. Especially is this so in regard to fish, fruit, etc. There are, however, some whom this bylaw seems to hit pretty hard, and the florist is one of these. It is only a short period, about five or six weeks that the florist really needs to place plants outside his premises and that is at this season of the year, when the young seedling plants are boxed and ready for sale. They have been forced in an even temperature, hardened off, and to be compelled to keep them entirely indoors would cause them to turn yellow in a short time when they would be unsalable and useless. Some arrangement could yet be made to suit such cases as these.

Yours truly,
A CITIZEN.

IS THIS TRUE?

To the Editor of the Review.

Sir—Our coal dealers have announced that they have reduced the price of coal from $7.30 to $6.90 per ton. Knowing at this time of the year almost every one needs but a small supply and when such orders come in, they charge $8 per ton, having for an excuse that the order is a small one, so that generally speaking they have raised the price instead of reducing it, while representing to the contrary.

Yours, etc.,
FRANK.

Chas. Belleghem Kicked by Horse

Mr Chas Belleghem, son of Mr. John Belleghem of Bridgenorth, was the victim of a bad accident this morning. The boy drove to the city in company with his father, and at the Y.M.C.A. corner, when alighting from the buggy, he fell and the horse kicked him in the forehead, inflicting a severe wound.

"THE DAYLIGHT STORE"

NOTE THESE FACTS

We're pounding out a fact or two which we would like to impress upon your mind. Listen! Vanity exacts heavy tolls. "Made to order" has a ring pleasing to many Clothing buyers.

"My Tailor" is a phrase one pays handsomely for. The Suits or Top Coats the tailor is obliged to ask $25.00 and $28.00 for we duplicate at $18.00 and $20.00.

Peterboro' Man Buys Out Hotel

Has Acquired Possession of Dominion Hotel, Millbrook

There will be general regret not only in Millbrook and Cavan but, with the travelling public that Mr. B. D. Ross has sold out, as landlord of the Dominion Hotel to Mr. Simpson of Peterborough, says the Millbrook Reporter. Mr. and Mrs. Ross and Miss Ross in their six years' residence among us have made many warm friends who will regret exceedingly their departure. The Dominion Hotel under their management has been recognized far and near as one of the best in every service and the hope is that it shall maintain its enviable reputation. As a citizen, Mr. Ross has been progressive and ready to lend a hand to all forward movements, and as a man he has shown himself worthy of every confidence and trust. It will be a few days before the new management takes charge. We cou'd hope that Mr and Mrs. Ross might be induced to still remain residents of our village, but if not, we are sure that the best wishes of all will follow them and the sincerest hopes that as they retire from active business life they may have many happy days and years yet in store.

New Bar Was Opened To-day

The new bar of the Snowden House was opened this morning and the spacious quarters and handsome fittings are the subject of many favorable comments. The bar is situated in the west side of the basement and can be entered by either the hotel proper or from Charlotte street.

THE CITY AND VICINITY

EVENTS TO-NIGHT

COTTAGE MEETING.

Rev E. A. Langfeldt will conduct his weekly cottage meeting on Thursday, May 16, at the residence of Mr Edward Kemp, Douro, at 8.30 p.m.

DOG TAGS.

Up to this morning the city clerk had issued 657 dog tags. There are still from 200 to 300 dogs running around without tags.

HARRIERS' MEETING.

The Y.M.C.A. Harriers' Club will meet on Wednesday night for their regular run, leaving the building at eight o'clock. Quite a number of the men are taking part in these runs, and any new men wishing to join are cordially invited to be on hand Wednesday night.

FOR VAGRANCY.

John Oakley, a vagrant, without a home or work, and who just got out of gaol last week, was sent back again this morning. His was the only case in the police court today.

SPECIAL MEETINGS.

Special meetings will be held each night this week, except Saturday, at 8 o'clock, in Union Hall, Simcoe-st., conducted by R. McClintock, of Toronto, and W. P. Douglas, of city. All are welcome.

SAD INDEED!

One can't help sympathizing with the ladies. Just as the weatheer gets into decent shape, so that they can wear those long delayed spring bonnets, along comes another snow storm. It's really hard on our fur friends.

WHO'S GOING TO THE RACES.

The new programme for the first half of this week at Scott's Colloseum, 432 George street—see the great moving pictures, "The Race for the King's Plate," and "The Spanish Bull-fight." Admission 5c. Change of programme Thursday. Matinee, 2 to 5. Evening, 7 to 10.

EMERY WHEEL BURST.

On Monday last while Mr. Wm. Watson, of Lakefield, was engaged in sharpening a saw at an emery wheel in the Cavendish Lumber Co's filing room, the wheel burst, one of the pieces striking his left hand and inflicting a bad gash across the back, while another struck him forcibly on the chest.

DRUGGIST FINED.

Dr Towle, a Springbrook druggist has been fined $50 and costs in each of two cases where he was charged with and proven guilty of selling liquor illegally. Springbrook is in Rawdon township, where local option is in force. The temperance people found that the druggist was supplying liquor for other than strictly medicinal purposes.

A DREAM REALIZED.

The placard on the old shop moved up opposite the Farmer's Bank reading 5000 men wanted to work on the Trent Valley canal which has caused so much amusement, may not be so very previous after all, considering that work on the canal will soon be commenced according to announcement from headquarters.—Trenton Courier.

A BUSY INDUSTRY.

The Weston Shoe Company is steadily increasing the output of its business. The month just closed was the most successful in the history of the company since locating here. This is encouraging to the management, as well as to the citizens, who have the interests of the town to bear. — Campbellford Herald.

EGGS WERE EGGS.

At Aultsville, near Cornwall, eggs brought 50c. a dozen for a time. The local merchants were keen rivals in the egg market, and prices soared from 20c. up like a Santos Dumont balloon. Even at 50c. a dozen hard-fisted farmers held their baskets of eggs for still higher prices. To their chagrin the boom burst and the market became normal

GAS SERVICES.

The Peterborough Light & Power Co. is busy putting in new gas services. About 100 connections have already been made with private houses. The company is selling a large number of gas stoves. New gas mains will be laid on several streets as soon as the necessary pipes which have been ordered, arrive.

CONSERVATIVE ORGANIZER

Mr. J. S. Carstairs, B.A., a member of the teaching staff of the Harbord Collegiate Institute, has been appointed by Mr. R. L. Borden, organizer for the Conservative party in Federal elections in Ontario. The position is a new one. Mr. Carstairs was formerly a newspaper man.

FIRE APPLIANCES.

Mr. Cameron of Hugh Cameron & Son, selling agents for the Waterous Engine Co., of Brantford, was in the city on Saturday, and conferred with Ald Johnston, chairman of the Fire, Water and Light Committee, and several members of the Council, in connection with the new fire fighting apparatus, which the Committee contemplates purchasing.

EVANGELISTIC MEETING.

At the Y.M.C.A. evangelistic meeting yesterday Rev. J. G. Potter gave a strongly impressive address at the well attended gathering in the Association hall. His subject was "Prince, Prisoner and Premier" portraying the life of Joseph. Some telling lessons were drawn from his life. Mr. Potter also sang the appropriate Gospel song, which added much to the meeting.

BUILDING PERMITS.

McIntyre Bros. this morning posted up building permits on two new houses which they have started. This provides all the houses which Messrs. McIntyre are building with permits. Ald. McIntyre says that while he was not the first to get his permits out, he was the first to make application, having had his in the first of the week.

FISH TO BE PROTECTED.

Messrs. Rod Keller and Geo. Potts have been appointed fish and game overseers, in addition to the Government overseers, on the recommendation of the Campbellford Fish and Game Association, in order to protect the fish and game from Trent Bridge to Chisholm's Rapids on the Trent River. Posters are being distributed over that district offering a reward of $20 for information leading to a conviction for any breach of the fish and game laws.

GAVE HIM GOLD LOCKET.

At a meeting of Durham Oddfellows held last week a presentation was made to Noble Grand Chas. A Byam, who will leave shortly for New Liskeard, where he will enter the insurance business. Mr. White on behalf of Durham Lodge and Victoria Encampment, presented to him a gold locket bearing the triple links and a gold pin. An illuminated address was read by Mr. W. Greenaway. Mr. Byam made a suitable reply. A banquet followed. —Port Hope Times.

SHOT A WILD CAT.

Mr Albert Blakely, who resides about four miles south of Tweed, is one of the proudest hunters in this district at present. About noon on Wednesday his attention was drawn to a wild animal which the dogs were chasing and had treed. He went to the house and procured a rifle and brought the animal to the ground with the second shot. It was brought to Tweed and was viewed by a large number of people. Some claim that it is a wild cat while others say it is a lynx. If the latter it is a rather small species.

BE PREPARED.

In view of the alarming news that comes from Rome, that the earth may soon be destroyed by a comet, we call the attention of a few delinquent subscribers that they should be prepared for the worst by paying up their back accounts, and for a year in advance, so that they may be able to meet a calamity with a clear conscience, which they certainly cannot do so long as they owe the printer. Do not forget that the time for preparation is quite brief—besides we need the money to square up a few things ourselves.—Madoc Review.

A TRYING EXPERIMENT.

Robert Kerr, janitor of the Woodstock post office, burnt ashes one day recently. The result was a clinker as big as a wheelbarrow and Robert is disgusted. Another Woodstock citizen had an even more disastrous experience. He evidently used oxalic acid in his mixture, and demonstrated to a finish that it was "rich in carbon and oxygen, and willl certainly burn," as the scientists say. He touched a match to his compound, upon which it flared up so unexpectedly that his hands were blistered and his eye-brows burned off.

SALE WELL ATTENDED.

Another good sale was held at Bruce Lee's Livery on Saturday afternoon and was largely attended. Mr. J. H. Gardiner of this city, conducted the sale. Four good horses were sold at reasonable prices, besides two buggies, three sets of harness, horse blankets and a waggon. Altogether the sale was a very satisfactory one. They will be held regularly throughout the summer on Saturday afternoon. Next Saturday will be the largest and best one of the season. Private sales are being conducted at this livery every day.

CURLER HONORED.

Mr W. A. McIntyre, one of the leading skips of the Curling Club left on Thursday morning on his way to the silver mines of Cobalt. On Wednesday evening the Club presented him with an address expressing regret at his departure, and praising his sportsmanlike conduct as a curler, taking either defeat or victory in a manly, becoming manner, and ever careful to avoid offence to others. A handsome gold ring, bearing the Oddfellows' emblem, was presented to him. Mr. McIntyre briefly and neatly replied and shaking hands with each member said good-bye.—Bobcaygeon Independent.

A SUPPLY BOAT.

There is talk of a supply boat from Pigeon Lake, this season, fitted with a refrigerator for the carriage of meats, butter, milk, etc., one that will make regular calls to al the cottages on the lake and be ready to move camping parties. It would be very useful and is much needed. The cottage and camping business of the lake cannot be expected to develop without conveniences and facilities being provided. The business will not grow in the face of every possible obstacle. There are other places and parties will not put up with inconveniences more than once.—Bobcaygeon Independent.

LAID TO REST

The funeral of the late Mrs. H. A. Walker took place, says the Port Hope Guide, on Wednesday afternoon, from the residence of her son, Jas G. Walker, York road, and was very largely attended, showing the high esteem in which the deceased was held. The Rev. Mr. Anderson, pastor of the Methodist church, Welcome, conducted service at the residence and cemetery, and refrrred in the highest terms to the deceased lady. The following gentlemen, nephews of the late Mrs. Walker, acted as pall-bearers;—Messrs. Harry and Roland Denne, Peterborough Samuel and Walter Scullthorp, James and Wm. Walker.

PERSONAL

Mr Chas. Spirrway leaves today for Cobalt.

Mr. H. McMillan left this morning for Buffalo.

Mr. J. K. Kendall, of Ottawa, is in the city to-day.

Mr. J. Killingbeck has gone to Rochester to reside.

Mr. R. E. Wood was in Toronto today on buisness.

Mr. G. Maidens, of Sudbury, is registered at the National.

Mr. R. H. Campbell and wife, of Keene, were in the city today.

Mr. Gordon Fitzgerald, of Peterborough, was a guest at the home of Mr. Chas. McCarthy on Friday.—Norwood Register.

A Newburgh correspondent writes; Mrs. George Walker is attending the sick-bed of her mother, who is quite ill at Peterborough.

Dr. Coughlin, principal of the Deaf and Dumb Institute, is visiting similar institutions in the United States.—Belleville Intelligencer.

Dr. H. S. Bingham of Cannington, has disposed of his practice to Dr. Brown, late of Coboconk. Dr. Bingham has a son in British Columbia, and will likely join him there.

The many friends of Police Constable Chas. McGinty will regret to learn that he is not recovering from his recent serious illness. He was removed to the hospital today.

Mr A. D. Browne, of Chicago, business manager of the "British American," is in the city accompanied by his wife. They will visit relatives here for some time. He is a brother of Messrs. Robert and James Browne of this city.

Mr Thomas Brown, late of Sperling, Manitoba, who has been farming in that district for ten years, having disposed of his property there, is in the city on a visit to to his father, School Inspector J. Coyle Brown;

Mr. Tom Young, of Smith, was taken suddenly ill last evening and had to be removed to Nicholls hospital. Mr. D. Belleghem's private ambulance brought him to the hospital where he underwent an operation this morning. He is now as well as can be expected.

Mr. Danny Simmons, the popular Peterborough comedian, who is with the Adam Good Company, was playing in Oswego last week, but is now in Boston. He has had a most successful season and will return to Peterborough next month to spend a well earned rest.

His Lordship Bishop Scollard, of the Roman Catholic diocese of Sault Ste. Marie spent a few days of this week visiting his parents in Ennismore. The work in the diocese over which he has charge, in the newer portions of the province is prospering. New churches are being erected in different parts of Algoma and Nipissing, and the membership of all the parishes is increasing. The population, which is increasing rapidly, is made up to a large extent of families from Quebec, and they are making excellent settlers. Wednesday night His Lordship was the guest of Ven. Archdeacon Casey, town, and gave the benediction of the Blessed Sacrament that evening. Thursday morning he left for Toronto, on his way north.—Lindsay Post.

Mr. and Mrs. Baker of the Y.M.C.A. Staff Resign—Tribute From Directors

Y.M.C.A. officials and members learn with deep regret of the decision of Mr. R. Baker and his wife to resign their positions as janitor and janitrix respectively of the Y.M.C.A., which they have held for the past two years.

A special meeting of the Board of Directors was held on Saturday afternoon when the resignations were dealt with. A strong effort was made to get them to reconsider, but without effect the resignations being finally accepted to take effect on June 1st.

Mr. Baker expressed his gratitude to the Board and the officers and the members generally for the kind treatment he has received from all. His only reason for retiring was to take another position.

The Directors unanimously passed the following resolution expressing their regret at the decision of Mr. and Mrs Baker.

"Resolved, that we place on record our high appreciation of the faithful, and efficient services of Mr. and Mrs Richard Baker as janitor and janitrix during the past two years.

They have noted with pleasure the deep interest taken by Mr. Baker not only in his own work, but in the interest of the association and membership generally.

They deeply regret the retirement of Mr. Baker and his wife and wish them prosperity in the future."

Applications for their successors were referred to the Executive, of which Mr. Harding, the President, is chairman.

FOR OVER 60 YEARS

An old and well tried remedy. — Mrs Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

ST. JOHN'S CHURCH

The King's Daughters meet tonight at 7.30. The Girl's Auxiliary meets at eight o'clock.

The Woman's Auxiliary meets tomorrow afternoon at 2.30. The Girls' Guild meets at eight o'clock.

The Brotherhood of St. Andrew meets on Wednesday evening at eight o'clock.

The Mission Band will hold an entertainment on Friday evening at eight o'clock.

Thursday being Ascension Day, there will be a celebration of the Holy Communion, at ten o'clock in the morning. Evening service will be held at eight o'clock.

all saint's church

The Girl's Guild meets tonight at 7.30 and the Woman's Guild meets at eight o'clock. The senior chapter of the Brotherhood of St. Andrew, also meets at eight o'clock.

The Woman's Auxiliary meets at three o'clock tomorrow afternoon.

A cottage prayer meeting will be held on Wednesday evening at eight o'clock at the residence of Mr. J. D Mahoney.

Thursday being Ascension Day, there will be a celebration of the Holy Communion at 10.30 in the morning. In the evening service will be held at 7.45 and choir practice at 8.30.

The Boys' Brigade will meet on Friday at 7.30 o'clock.

ST. LUKE'S CHURCH

The following meetings will be held at St. Luke's during the week:

Tonight at eight o'clock the Men's Guild and Girls' Auxiliary will meet.

Tuesday at eight o'clock the meeting of the Brotherhood of St. Andrew will be held.

Thursday being Ascension Day, the Holy Communion will be administered at 10.30 a.m.

The W.A. meet on Thursday at 2.30

The Mission Band meeting is on Friday at 4.15.

Rev E. A. Langfeldt preached at both services yesterday for the first time after his recent illness. Large congregations were present. Prayers were said yesterday for blessings upon the fruit of the fields, it being Rogation Sunday. Instead of the second lesson, the Ascensiontide appeal for Canadian missions was read. Next Sunday a special collection will be taken up for the missions of the church in the North-west.

KNOX CHURCH

The Board of Managers of Knox church will hold a regular meeting this evening.

The regular monthly meeting of the Ladies' Aid Society will be held on Wednesday afternoon at 3.30 o'clock.

The weekly prayer meeting will be held on Wednesday night at eight o'clock

Rev. H. J. Keith the pastor, preached at both services yesterday. There were large congregations in attendance morning and evening.

ST. PETER'S CATHEDRAL

It was announced at the different masses yesterday that the special Easter collection amounted to $1300.

Thursday next is Ascension Day, and masses will be celebrated at six, eight, nine and ten o'clock in the morning.

St. Peter's T.A.S. attended Holy Communion at the Cathedral in a body yesterday morning at the 8 o'clock mass. The attendance was a record one and His Lordship Bishop O'Connor took occasion to refer to the edifying spectacle which had been presented by the different Catholic societies during the past four weeks in attending in a body to fulfil their religious duties.

CHARLOTTE ST. CHURCH

The Epworth League will meet this evening at eight o'clock. The semi-annual election of officers will take place.

The Ladies' Aid Society will meet tomorrow afternoon at 3.30 o'clock.

A meeting of the Quarterly Official Board will be held on Tuesday evening. It will be the last meeting for the present year.

The regular weekly prayer service will be held on Wednesday evening.

In the morning Mr. A. D. Browne of Chicago, sang in good voice, "Thine Forever, God of Love." Mr. Browne's vocalism was greatly appreciated. In the evening, Mr. Bruton, of Napanee, who spent Sunday in the city, contributed a solo, 'Will there be any Stars in my Crown,' with fine effect.

PARK ST. BAPTIST CHURCH

Representative congregations gathered at Park street Baptist church yesterday for the special subject of "Moral Reform" by the pastor, Rev A. H. Brace.

The service tonight will be in charge of the young people. Subject, "The Power of a Contented Life."

On Wednesday night public service will be held, with the pastor in charge

On Thursday the annual business meeting will be held.

On Friday afternoon at 4.20 the Busy Workers will meet.

The monthly meeting of the Mission Band was held yesterday, with Miss Mann in the chair. Two delegates were appointed for the Peterborough Association of Baptist churches to be held in Port Hope, June 19—21.

ST. PAUL'S CHURCH

The regular monthly meeting of the session will be held this evening.

The regular prayer meeting will be held on Wednesday night.

On Thursday afternoon at 4 o'clock the monthly meeting of the Faithful Workers Mission Band will be held.

On Friday afternoon at 3.30 o'clock, the regular meeting of the Women's Foreign Missionary Society will be held.

Rev. Dr. Torrance preached at both services yesterday. In the evening Miss Helen Davies sang a solo in good voice, while the male quartette, composed of Messrs. Crane Nelson, Gillespie and Bennett, contributed a vocal number that was much appreciated.

GEORGE STREET CHURCH

The Epworth League will meet this evening when officers will be elected for the coming term.

The class leaders of the church will hold a meeting tomorrow night.

The regular weekly prayer service will be held on Wednesday night.

Rev. Dr. Crothers delivered a special sermon to young men last evening which contained timely counsel and many sound, earnest points

The Sacrament of the Lord's Supper was dispensed yesterday. Thirty-six persons joined the church — twenty-four by letter and twelve by profession of faith. A baptismal service was conducted when five persons were baptized.

MURRAY STREET CHURCH

The Young People's Society meets tonight at eight o'clock.

The annual social gathering of the Willing Workers will be held tomorrow evening at eight o'clock.

Prayer meeting will be held on Wednesday evening at eight o'clock

The Ladies' Aid meets tomorrow afternoon at three o'clock, and the Ladies' Mission Circle meets at four o'clock.

MARK STREET CHURCH

The regular meeting of the Epworth League will be held tonight. Mrs. (Rev.) J. G. Lewis will take the topic, "Reading" and Miss A. Fowler will have charge of the meeting.

The Woman's Missionary Society will meet on Wednesday afternoon at three o'clock.

The regular weekly prayer meeting will be held on Wednesday night at eight o'clock, after which the adjourned meeting of the Sunday school for the election of officers will take place.

A cottage prayer meeting will be held on Friday evening next at eight o'clock at the residence of Mr. Whitred, Carlisle Ave.

Quarterly service was held yesterday. During the past three months some fourteen members have been received into church membership. At Salem as a result of the special services, some twenty persons have joined the church.

Agricultural Societies to be Assisted by Ontario Department

In Holding Field Crop Competitions—Main Objects of the Contest—Only Ten Societies Will Receive Grant This Year—Conditions of the Competition.

The Ontario Department of Agriculture proposes to assist ten Agricultural Societies in the holding of competitions in standing field crops during 1907, with the following main objects;

1. To stimulate a greater interest in the growing of first-class seed grain

2 To encourage the practice of growing seed for next year's crop separate from the main crop, using only the best obtainable seed, sowing it on the cleanest and best prepared land, allowing it to thoroughly ripen, and threshing and storing separately.

3 To obtain pure grain, i. e., free from other varieties, the presence of which can best be detected when the grain is growing.

4. To encourage the use of seed from heavy yielding strains.

5. To promote the sowing of seed from clean, vigorous crops of uniform stand, and with bright, stiff straw, in the case of the smaller cereals

6 To encourage careful and intelligent farming and the production of grain free from weed seeds.

7. To facilitate, through a competition for sweepstakes prizes, which may also be held in addition to the local competitions, the bringing together at the Seed Department, Provincial Winter Fair, Guelph, samples from the winning fields in the various competing societies throughout the province. This arrangement if carried out, while serving an important educational purpose, will also afford a clue as to where good, clean productive seed may be had.

1. Nature of Competition. —Competitions shall be limited to two crops, to be decided upon by the society. It is desired that the Society shall decide upon one or two crops for competition that are of most importance to the farmers of the district. Every field entered for competition must consist of not less than five acres.

The following crops are suggested for competition;— Spring Wheat, White Oats, Barley, Dent Corn, Flint Corn, Alsike Clover, Red Clover and Potatoes.

2 Competitors.— Competition shall be limited to members of the Society and the fields entered for competition must be not more than fifteen miles from the headquarters of the Society. Competitors shall be allowed to enter in the competition of only one society. Competitors shall be allowed to make only one entry in each class of crop competition. The annual membership fee in any society shall be sufficient for entry in this competition.

3. Prizes.—Where societies limit their competition to one kind of crop the prizes shall not be less than the following; 1st, $25; 2nd, $20; 3rd, $15; 4th, $10. In the event of there being not less than ten entries in any society in this competition, the Department will grant the sum of $70.00 to cover the above prizes.

Where Societies have competition in two kinds of crops, the prizes in each case shall not be less than the following;—1st, $20; 2nd, $15; 3rd, $10; 4th, $5. In the event of there not being less than ten entries in each competition the department will grant the sum of $100 to pay above prizes

4 As these special grants will be limited to ten agricultural societies it is important that the Board of Directors to whom this circular is sent, shall consider the matter at once. The grants will be limited to the ten societies first filing application with the Department and agreeing to the terms of this competition.

5. All entries must be forwarded by secretaries of societies to J. Lockie Wilson, Superintendent of Agricultural Societies, Parliament Buildings, Toronto, before the 15th day of June, 1907.

6 Judging.—All judging must be done by judges approved by the Superintendent of Agricultural Societies. Arrangements have been made whereby expert judges will be furnished by the Seed Division of the Dominion Department of Agriculture

Attractions Down by the Sea; The Paradise of Fishermen

The Many Delightful Retreats of Nova Scotia, New Brunswick and Newfoundland—The Climate is Bracing and Health Giving—An Ideal Holiday.

NOVA SCOTIA AND NEWFOUNDLAND.

Between Sydney and Yarmouth — the two extremities of Nova Scotia— there are spots which offer great attractions to the keen sportsman, whether his tastes incline to rod or gun, or to both. At the Tusket lakes near Yarmouth, in the country round Digby, and at different points in the Annapolis and Cornwallis Valleys, as well as around the famed Bras d'Or Lakes and tributary waters in Cape Breton and along the south shore of the province, the opportunities for sport are excellent, the favorite haunts, as a rule, not being difficult of access. In some localities moose and other large game are found. The fishing and shooting regions of the western part of Nova Scotia are reached from St. John, N. B., by the fast steamer Prince Rupert, which makes daily trips during the summer season between that city and Digby, there connecting with the Dominion Atlantic trains for Yarmouth to the south and Halifax to the east. From Halifax, there is regular communication by the Intercolonial Railway System with Cape Breton. This line also runs from St. John to Halifax, via Moncton and Amherst, connection being made at Truro for Sydney North Sydney, and other Cape Breton points.

It is a pleasant sail from North Sydney to Port Aux Basques in Newfoundland. The crossing occupies only six hours by the steamer Bruce. From Port Aux Basques, the centre of the island is traversed, to the capital, St. John's, through the most favored fishing and shooting regions, which are thus made easily accessible

Few countries present to the lovers of sport, the attractions that Newfoundland possesses. The interior is a vast deer park. The countless lakes and ponds abound with trout of the finest description, and are the breeding places of innumerable wildfowl. Almost every stream holds salmon.

Herds of caribou traverse the island in their periodical migrations and the bulls yield the grandest trophies. September and October are the months for stalking, and the assistance of guides is requisite. There are black bear and wolf in the interior; and the beaver and otter inhabit the lonely lakes and lakelets. Hares are in abundance and the willow grouse, the rock ptarmigan, the curlew, the plover and the snipe are found in proper season all over the island. On the great "barrens," or in the marshy grounds and around the shores and islands are innumerable seafowl.

The climate in summer, tempered by the balmy sea breezes, is bracing and health-giving.

LAKE MEGANTIC AND MOOSEHEAD LAKE.

It is not necessary to undertake a long journey to reach this attractive region. The Canadian Pacific Railway's "Short Line" from Montreal to the Maritime Provinces, renders it easy of access, and the traveller who makes Montreal his initial point for this trip will find solid comfort all the way, and only a short run by rail before the Mecca of his pilgrimage is gained.

Lake Megantic is the largest body of water in the Canadian territory, adjacent to Maine, being twelve miles in length by from one to four miles broad. Its shores are rugged and exceedingly picturesque and deeply indented with inlets and bays, the coast line measuring some forty odd miles. Its principal feeders are the Lower Spider and Arnold Rivers, also the Annance, Victoria and Sandy Rivers, and numerous lesser streams, and its outlet is the Chaudiere River, which leaves the lake at the bay of the same name, within 100 yards or so of the Canadian Pacific Railway station at Megantic, and empties into the St. Lawrence near Quebec. There are several hotels in the village, and experienced guides can be secured there at moderate charges. The best localities for moose, caribou and deer are Annance Bog, near the mouth of the Annance River—which flows in at the head of the lake—and up the stream from its outlet for a couple of miles, the shores and bog being favorite feeding grounds. Other good bogs and points for game will be known to the guides and reached under their directions.

Fishing in Megantic is uncertain, as is always the case on such large waters, but on a good day, heavy strings will be taken. On Chaudiere Bay, Moose Bay, the Victoria and Annance Rivers, and all the streams and inlets, the brook-trout fishing is good, and there is no difficulty in filling the creel.

A short run by rail from Megantic, over the Boundary Mountains, which divide the province of Quebec from the State of Maine, enables travellers by the "Short Line" to reach one of Maine's most lovely sections, and also one of the best for sport—a particularly promising point for grouse and red deer being Lowelltown station. Shortly after crossing the international boundary the headwaters of the Moose River are reached, the line following the stream and its chain of lakes closely until the shore of Moosehead Lake is reached, and finally the town of Greenville.

Guides, necessaries for a camping party, and information concerning the best points for sport, can be obtained at Greenville. Spencer, Indian, Squaw, Wilson and Roach ponds, Brassau Lake, and all the little streams which feed Moosehead, are noted for trout, and the guides can pilot you to many others. Those preferring to make their headquarters at Greenville will find accommodations at the hotels; plenty of boats and ample means of enjoyment. There are steamers on the lake which may be hired.

NEW BRUNSWICK.

No part of America where game and fish are found is more easily reached than New Brunswick. With less than twenty-four hours of easy railroad ride from Montreal or Boston, the traveller may alight in the centre of the hunting and fishing region, and in some instances he may get off so near his camp as to make the rest of his way on foot if he so desire. At all times during his stay he is within easy reach of mail and telegraph and, while apart from the busy world, he may yet be in touch with it, so far as occasion may require, or his inclination prompt him.

From McAdam Junction, near the Maine boundary, the whole Province lies open for a choice of routes by the stranger in search of sport. Should he desire an outing partly for the pleasures of a summer retreat, free from the heat and the crowds of the fashionable resorts, in the United States, he may make his headquarters at St. John, St. Andrew's, St. Stephen or Fredericton, at all of which he may have plenty of society and enjoy all the comforts of life, with the luxuries as well, if he be so inclined.

St Andrew's is held in high repute as a summer resort, with its hotel the Algonquin, equal to that of any watering place on the coast and its scenery, which fears no rival among seaside resorts. There is fishing in both salt and fresh water For the former, Passamaquoddy Bay and the Bay of Fundy give unlimited scope, which, for trout land-locked salmon and togue (the local name of C. namaycush, the Great Lake Charr,) there are many lakes and streams within easy driving distance. Among them are Chamcook, Limeburner, Bartlott, Stein's, Snowshoe, Welch, Cram, Turner, McCullough and Creasy Lakes, as well as the Digdeguash and other streams. Once in St. Andrew's the visitor will find no lack of places in which to fish. As to hunting, the woods in every direction contain deer and small game in great variety. The St. Croix at St. Stephen yields the first salmon taken with the fly in New Brunswick each year. There is also particularly good woodcock shooting between St. Andrew's and St. Stephen, during the fall flight.

Between the boundary and St. John, along the line of railway, are a number of lakes and streams including Skiff Lake, Harvey, South Oromocto, Long, and Victoria Lakes These are chiefly trout waters, but if the visitor seeks salmon there is but the need of a little longer journey to reach the tributaries of the St. John.

The pleasant city of Fredericton is a very good centre from which to work the game and fish resources of Central New Brunswick. At Fredericton, the Nashwaak enters the St John after a course of some fifty miles. At one time this was a famous salmon stream and the English officers then quartered there used to drive out to the Seven Mile Pool, catch half a dozen salmon, and get back to breakfast at the barracks. Wherever you find a deep pool, you are sure to have trout running from two pounds upwards. The best time to catch them is toward sundown, and a very light-red fly is the most killing. There is a pool at the Big Elm, and another at the mouth of the Tay, each of which may be confidently recommended. The Nashwaak is, however, no stream for a beginner, as the trout are shy.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Conference on Church Union

Eloquent Address Delivered by Rev. Dr. Symonds

An interesting conference on church union was held in the Quebec Methodist church Wednesday evening, when a large congregation was present, says the Quebec Chronicle. Eloquent and impressive addresses were made by the Rev. Herbert Symonds, Vicar of Christ Church Cathedral, Montreal, and Dr. Harper, of this city. The meeting was presided over by Lieut.-Col. Turnbull, who briefly introduced the speakers and with him on the platform were, in addition, were the Rev. George H. Williams, pastor of the Methodist church, the Rev. A. T. Love, pastor of St. Andrew's church, and the Rev. Wylie C. Clark, pastor of Chalmer's Church.

Rev Dr. Symonds, in opening his address, spoke of the great happiness it gave him to address a meeting of Christians, most of whom were of other than his denomination, on the great question of church unity. For many years he had been interested in the question, and he had lived long enough to see it make immense progress. He believed the day was not far distant when there would be a general unity of all, at least, who could come under the designation of Reformed Christianity. He spoke of the work already done, and said the people were now beginning to look at it from a practical point of view and ask if it were not possible to get closer together. Church union was preeminently a religious question, with the practical result of a higher morality. Dr. Symonds said he wished to speak upon the subject not under the heading of church, which meant so many different things to different people, but under the title of the Universal Society. All were one in Christ and the Christian Society was a universal society which knew no limitation of race, rank or divisions. He alluded to the way in which the social aspect of religion had been developed in the Bible. The unit of society was not the individual. The family was the unit of society. The next great unit was the nation. Coming to the New Testament all was changed. Christ dealt with man as man. He preached the kingdom of heaven, a universal society. It was almost lost sight of in the present day that Christ always spoke of the kingdom of heaven, a common society. The great units were the family, the nation and the unlimited circle on the human race. The little circle of the family was not lost in the nation, for no nation could be strong without its families and the nation was embraced in the universal society of man.

Dr Symonds then came on to discuss the constitution of the universal society. Here was touched the matter for the debate. Christ did not give any constitution, any creed, any form of government for the universal society. He planted the seed for the growth of a great society, the fatherhood of God and the brotherhood of man. He left the forms of details of belief, of worship, of constitution to develop themselves as the needs grew up. The human race had many differences and would never be got to worship all in one way. But there was never a time when the human race could not be got to acknowledge the fatherhood of God and the brotherhood of man. The mistake of the reformers was to go to the new Testament for a cut and dried constitution. Men of the greatest learning and sincerity of mind had produced out of the Bible systems for the Presbyterians, the Congregational and the Anglican churches. Their assumption was wrong. The theory of the middle ages was that all people should be members of one church—even of one empire—but it failed. The theory still holds to-day, however. Not as regards our empire, but as to membership in one universal society.

A real, true, burning, living spirit of unity, said Dr. Symonds, must build for itself a body. A glorious task was before them, one that should enlist laity as well as clergy. The prospect was full of hope, and especially in Canada, where more has been done in the direction of church unity than in any other part of the empire. Dr. Symonds instanced the uniting of the different branches of the Methodist and of the Presbyterian bodies, and said there was a call to Canadians in the voices about them asking for a closer union. Canadians were being called as surely as ever God's people of old were called. And one of these calls which made the subject an imperative one was the multitudes of people streaming into the Northwest. The task before Canadians was to bind these people into one. They would have to be bound together by religion. In an eloquent peroration Dr. Symonds alluded in impressive phrase to the dying prayer of Christ, "That they may be one."

STEWART'S HALL, OTONABEE

Rev E. A. Langfeldt conducted the Church of England service at Stewart's on Sunday when large congregation was present almost every available seat being occupied. Mr. Langfeldt announced that his assistant Mr. Perry, B.A., would commence weekly services on Sunday May 19, at 7.30, and asked the people to give Mr. Perry the same hearty co-operation and support which they had given to him. Mr. Perry will live in the Otonabee parish The services at St. Mark's church will be held on Sunday mornings at 10.30, commencing Sunday, May 19

The Daily Review

MONDAY, MAY 6, 1907.

CONCEITED FOLK

The conceited man is not popular. His airs of superiority offend our sense of what is fit and proper. We therefore take especial delight in "taking him down.' If we can 'take the conceit out of him,' we pride ourselves on having done society a real service. To this end we quote for his benefit, certain well-worn illustrations, such as the paper kite which soars in the air because of its lightness; the heavily laden vessels, of which we see the less the more richly and heavily they are freighted; and the wheat which bends downwards when well filled, while the empty heads wave high in the field.

Let us look into the subject a little more closely. Of what use is a man who has had all the conceit taken out of him? Is it not possible that what we term conceit, may often be a struggle to win recognition for abilities the possession of which one sorely doubts. Let us be very sure that the man who has lost confidence in his ability to do and to perform is dead as far as this world goes. There is no reason why the self-consciousness of real genius should be offensive. But for a man of really profound genius to affect to be unaware of his endowments is the most repulsive kind of egotism.

It is important that we recognize genuine merit. Some people are always looking for flaws. They have the spirit of cynicism, or depreciation. They become knockers. They chill enthusiasm. They call eloquence bombast. They tell charity that it is looking for advertising. They pronounce devotion cant. Patriotism is refined selfishness. Such a spirit is not of heaven or of earth, but hell.

Is it not just as important that we should admire what is admirable, as that we should despise what is worthless? To shy, sensitive natures, especially, praise is a vital necessity. They need to be encouraged and caressed, just as truly as others need to be lashed and spurred. Sincere commendation is to them a tonic which embraces them for further good work.

WHO IS AT FAULT?

A minister in a St. Catharines church, startled his congregation recently by reminding them that they had been sleeping while he was preaching at his very best. But, it may be asked, was it their fault, or worse still, the fault of the sexton? Might it not have been a case of wholesale poisoning by carbonic acid gas?

Preachers, wardens, sextons, et al., may have often much to answer for, regarding the ventilation of churches, and the London Free Press in discussing this view of the case, opens out a new line of thought. It says,—

"In many cases through the winter, the windows are scarcely open from Sunday to Sunday. The atmosphere left over from numerous services becomes at last, insupportable. The congregation drop off to sleep one by one, into what seems like a pleasant slumber. It may be in such case, but the stupor produced by bad air.'

"The ill-ventilation of churches and other places of public assemblage in winter time, may be due to the overpowering sense of economy in fuel, or the saving of labor in reheating. Quite as often, no doubt, it should be laid at the door of ignorance, or thoughtlessness, about the same thing.

"Whichever of these causes such criminality may be owing, it should be corrected, along with other spring duties. Before perorating to a sleeping congregation, in a way to spoil their Sunday dinners, the preacher might take thought of the responsible caretakers, whether some proper duty had been left undone, and how far he might himself be blameworthy, as one with whom hygiene should be a part of necessary education.

"There is an old line of verses, the burden of which is "Pewer Are, Mr. Sextant.' These might be searched up and copies printed for use where congregations are caught napping. In houses where the air is deficient in oxygeon, let the preaching or singing be ever so bright and exhilarating, there is excuse for nodding.'

PEN POINTS

The merry month of May has been changed to the wintry month with the frosty smile and the chilly countenance.

* * *

People who write things which they would like to see published in a newspaper, should bear in mind that what they write as their personal opinion should be fathered by them and when they write stuff that is not fit for them to attach their names to it should never be printed. Remember the rule of all decent newspapers and you will never have occasion to put on the shoe. This is the rule which we give in all kindness. Never ask a newspaper to do anything you are ashamed to do yourself.

* * *

Not every boy can be a rich man or a great man, but every boy can be a gentleman. A boy with gentlemanly manners, who is trusted and honest and does his best every day, will gain the attention and confidence of men, and will be given paying and responsible positions as soon as he is old enough to fill them. Boys like to have fun and a good time. It is right they should. They will never boys but once, but to have fun is not altogether what they are made for. Boys are of value chiefly to make men, good for something in the world. Character, like a house, must have the right kind of a foundation. The foundation stones of a good character are reverence to God respect and obedience to parents, deference for old people.

Some Observations on the Weather

First Big May Snow Storm Since 1875 Was on Saturday

Speaking of Saturday's snow storm the Tononto Star says:—The Hyperborean visitor who stole upon us through a crack in the ice yesternight was a most unwelcome one. The little tiny buds and leaflets are all chapped and frost-bitten, and the early robins and blackbirds are suffering from colds in the head. The enterprising sparrows, some of whom had already started to raise their broods, were obliged to sit two on a nest to keep the babies warm, and the era of open cars and peek-a-boo shirt waists has received a serious setback.

THE EFFECTS OF IT.

The exceptionally cold weather of April, which has already seriously affected the usual crop of engagements, which depend as much upon the long and balmy evenings of early spring, when the "young man's fancy lightly turns to thoughts of love," for their culmination, and this further jar, just when the critical period may be said to have arrived, is likely to decrease the output very materially. It will, of course, also indirectly affect the issue of marriage licenses, the fees of ministers, and the orange blossom and wedding cake industries.

From all appearances, those who wish to enjoy summer weather, had better consider migrating to the Artic regions, for in Dawson City yesterday it was 66, and steadily getting warmer, with sunnyskies.

ALL OVER THE COUNTRY.

The whole central portion of the American continent has been suffering from the same chill which we are experiencing here. It appears that an area of moisture has come up with great rapidity from the Gulf of Mexico, and so soon as it struck the colder atmosphere of the great lakes it has been precipitated in the shape of snow and sleet. The northern portion of New York State has received the worst treatment, but no district appears to have been unduly discriminated against in the matter of cold feet.

OBSERVATORY RECORDS.

The records of the Observatory show that the only year during the last 52 years which will compare with the present so far as May snowfall is concerned, was 1875, when 3 inches fell on May Day. Although there were light snowfalls in other years, the maximum never exceeded .5 of an inch. Last night's fall was 1.5 inches, but as it was preceded by a certain amount of rain, the result was a very juicy mixture, which lay on everything like refrigerated pancake batter, and made the walking this morning exceedingly coarse.

The indications, however, are that matters from this on are likely to improve, as the weather people prognosticate warmer weather to-morow.

BAD FOR THE WEST.

"The most serious feature for the Dominion as a whole," said an observatory official this morning, "is the condition of affairs in the North-west. There has been no growing weather at all there yet; in fact, the ice is still on the rivers and the frost in the ground, and the summer's crop is already seriously jeopardized. You see, unless they get going there early in the spring there is almost a certainty of the grain being nipped in the fall. So far as Ontario is concerned, the same danger does not exist."

PILES CURED IN 6 to 14 DAYS

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles, in 6 to 14 days, or money refunded. 50c.

St Andrew's church, Toronto, King street west, is to have the largest organ in Canada.

The Supreme Court at Regina dismissed the appeal of the C. P. R. against convictions for setting fire to the prairies.

Old Peterborough Couple Celebrated Golden Wedding

Mr. and Mrs. John Ford, of Milwaukee, Have Been Fifty Years Married—He is a Son of the Late Joseph Ford, One of the Early Settlers Here.

Many of our older citizens will be interested in the account of the celebration by Mr. and Mrs. John Ford, family and friends, of their golden wedding. The event was observed at Milwaukee, Wis., where the family have resided for many years. Mr. Ford is a brother of Dr. S. P. Ford, of Norwood, and one of the sons of the late Joseph Ford, one of the earliest settlers. Other sons are Rev. W. Ford, Rev. James Ford, Mr. George Ford, and of daughters now Mrs. Arthur Rutherford. From the columns of the Milwaukee Wisconsin, we take the following:—

"Mr. and Mrs. John Ford, who celebrated their golden wedding anniversary Wednesday evening at Grand Avenue M.E. church, where a reception was given for them following a supper for members of the family, were presented with a purse containing $50 in gold. The presentation speech was made by Rev. G. A. Scott, pastor of the church, with which Mr. and Mrs. Ford have been connected for seventeen years. Others who made addresses of felicitation were A. W. Kellogg, Rev. Edwin Hyde, H. O. Parks, A. J. W. Pierce, Mrs. Todd, Mrs. Hayes and Miss Armstrong.

The children of Mr. and Mrs. John Ford were present at the supper, the number including Mrs. Harriet Baldwin, Mrs. Elizabeth Rutherford, Mr. and Mrs. Robert Moncrip, Mr. and Mrs. L. F. Fish, Mr. and Mrs. Samual P. Ford, Mr. and Mrs. Frederick Ford and Mrs. Robert P. Ranking of Abbotsford, Wis.

Monday evening the members of the Milwaukee W.T.T.U. will give a reception for Mr. and Mrs. Ford at the residence of Mrs. H. J. Broegeman.

Mr. and Mrs. Ford were maried in Markham, Ontario, Can., April 25, 1857, and came to Milwaukee in 1874."

The Milwaukee Free Press says:—

"Women of the First Milwaukee W.C.T.U. observed the golden wedding anniversary of Mr. and Mrs. John Ford Monday night at the home of Mr and Mrs. Henry Broegman, 212 Eighteenth street. Mrs. Ford has been treasurer of the union for many years, and the celebration was in her honor. A purse of $25 was presented to the couple entering upon their second half-century of married life. A programme was given including the reading of an original poem by Mrs. H. M. Holton, recitations by Miss Mabel Stillman and music by Miss Gwendoline Caldwell. A congratulatory address was given by Mrs. William Millard."

Before going to the States Mr. Ford taught school in Peterborough and at several places in this vicinity. The family returned to Canada for two years, but afterwards moved to Milwaukee where they have permanently resided. Friends in Peterborough will heartily join in wishing the aged couple many years of continued life and prosperity.

St. Andrew's Congregation Observes Anniversary Day

Rev. Prof. H. A. A. Kennedy, of Knox College, Preached Two Able Sermons—Large Congregations Present—The Sin of Selfishness.

ST. ANDREW'S CHURCH

Yesterday the congregation of St. Andrew's church celebrated its seventy-second anniversary of its history and the twenty-second year of the opening of the present edifice. The special preacher for the occasion was Rev. Prof. H. A. A. Kennedy, D. D., of Knox College, who preached two eloquent and appealing sermons. Large congregations were present both morning and evening, and special music by the choir added much to the attractiveness of the services.

EVENING SERVICE.

At the evening service the reverend gentleman took as his text the 34th verse of Psalm 78: "When he slew them, then they sought him, and they returned and enquired early after God." The sermon was a strong appeal to the unsaved to turn to Christ and salvation before their lives had been wasted by indulgence in sin. It was an almost unspeakable pity that men did not turn to God in many cases until driven to seek some help greater than mortals could give when overtaken by misfortune or calamity, or when approaching the close of life.

The text he had chosen, said Prof. Kennedy, was a part of the story of God's wrath against the incredulous and disobedient. The Israelites believed not in God and trusted not in his salvation, for although many wondrous things He done, they still sinned and would not hearken unto His voice. But to quote the words of the text, "when he slew them, they turned to him." It was a sad thing said Prof. Kennedy that in many cases men did not turn to God, until some great calamity had overtaken them and they realized that human help was not enough to save. This being so, however, it was far better that it should be this way than the opposite. It was better that trouble and misfortune should drive them to salvation, rather than make them cynical, make them believe that all things were working together against them and fiercely embitter them against the world. At times in the present age, trouble and disappointment lead some people to think that life is a huge sham, that everything is working against them, and that it is no use keeping up the struggle.

Was it natural to think, asked the speaker, that this world of thinking minds and feeling hearts was bent on the destruction of the purpose for which it had been created? In many cases it took calamity and misfortune to bring men to God. Men who had laughed at religion and who depended upon human assistance in life's battles, were driven to seek strength from on high, when disaster came upon them. There was something more than earthly in this turning to God in the hour of distress. We put too much trust in human power, but God was the only refuge left, when we were tired of these things of earth, that were only transitory and we thought were real. We try to satisfy the soul with earthly things just as long as we could but at last the eternal within us, cried out to the eternal without us, we came imploring mercy to the God who made us. Selfishness, said the speaker, ruled the human heart too much. As long as everything went along smoothly we neglected God, but in the hour of distress we turned to him and asked for help. Men were squandering their energy in sinful and selfish living and then turning to God in the last moments. "He wants you" said Prof. Kennedy, "before sin has done its miserable work. If you do not turn till late the record of sin stands there against you, written full to the margin, but God offers a full pardon, he has compassion for Jesus' sake. But with a record of sin behind you, it is much harder to resist the advances of the tempter, and it is much easier to fall from grace than if you had come to God while yet the soul was undefiled."

SELFISHNESS.

Continuing, the reverend gentleman pointed out that selfishness was again evident in many lives, when they at last resolved to come to God. They came because a life of sin offered them nothing more, and when they needed more than human assistance. This was selfishness. God should be cared for, for what He was Himself and not through any selfish motive.

APPEALED TO THE YOUNG.

In closing Prof. Kennedy appealed especially to young men and women to yield themselves to Christ early in life. "You see before you," he said, "the path of life stretching a long distance and along it you see gains to be made, pleasures to be enjoyed, possessions to be obtained, but your own Creator is not included in the prospect, God is left out of your forecast. The only pricely, changeless thing is neglected. Yet somewhere, before reaching the end of the journey you hope to let God in and to enter eternal salvation at the close. Let God in sooner, let him be with you from the start, to cheer the way and to guide you to the haven of rest."

The music was especially interesting at both services. The solos and anthems were splendidly rendered, and were greatly enjoyed. The musical programme was as follows:—

MORNING

Quartette, "Beautiful Isle of Somewhere," by Fearis.

Solo "Hear us O Father," by Rosewig.—Mrs. Davidson.

Anthem, "O Be Joyful," by Dudley Buck.

EVENING

Quartette, "My God and Father While I Stray."

Solo, "O Lord Thou Has Searched Me Out," by Bennett.—Mr. Fred C. Freeland.

Duett, "My Faith Looks up to Thee."—Mr. and Mrs. Greenslade.

Anthem, "Saviour when Night Involves the Skies," by Shelley.

It is stated that while 4,000 locations have been staked, not a single patent has been issued in the Larder Lake district.

Steam Heating System Again

Committee of the Whole Will Open the Question Monday Night

The Dominion District Steam Heating Co. have sent a request to the Mayor to have the Council again take up their proposition. The Company would like to know whether the council wishes to consider the steam heating as a municipal enterprise any longer, or whether they will grant a franchise to another company.

It will be remembered the great cry which some opponents to the system made last year when this matter was being considered, and how some members of the council were abused unjustly. At the same time, however, a big majority of the aldermen were in favor of the Council's action so far as it had gone. At the present time, however, the council has the street lighting proposition on hand, and it is not likely they will desire to undertake another big proposition. The question is, would it be advisable to allow another company to rip up the main city streets whenever they please and cause the engineering department a lot more work and worry.

Many Places are Now Very Dry

No Liquor is Now Sold in 286 Municipalities

Wednesday, May 1. — Eighty-three bar rooms closed their doors in Ontario, and a three year's drought settled upon forty-four municipalities. This is a small proportion of what May days have brought forth from year to year, for statistics show that as a result of campaigning there are 286 "dry" municipalities in the province.

As a result of the local option contest in January, license privileges were cut off in the following places: Ailsa Craig, Arran, Asphodel, Bruce, Chinguacousy, Cramahe, North Dumfries, Dymond, Fullerton, South Garfield, Goulbourn, Gwillimbury, Harley, Hensall Hantley, Huron, Innisfil, Jocelyn, Manvers, Marlboro, March, Mersea, Midland, Mono, Nepean, West Nissouri, South Norwich, Onondaga, Orillia, Port Carling, Proton, Portland, Richmond, Saugeen, South Sherbrooke, St. Joseph, Stanley.

GOLDEN LINK REBEKAH LODGE

Attended Service at St. Luke's Church—Rev. Wm. Major Preached

The first annual service of the Golden Link Rebekah Lodge, No. 8, I. O.O.F., was held yesterday afternoon in the Oddfellows' Hall. A large number of Oddfellows, as well as many of the Rebekah Lodge were present. Rev. Wm. Major conducted the service and preached an eloquent sermon. The local lodge was only organized last fall, but it has already grown to a large membership.

Rev. Wm. Major based his remarks on the words found in the 45th verse of the 24th chapter of Genesis: "And it came to pass, before He had done speaking, Rebekah came out ....with her pitcher upon her shoulder." In the speaker's opening remarks, he said it was the first time he had had the privilege of addressing the Daughters of Rebekah. Continuing, he referred to the three constitutents of Oddfellowship, that is, Friendship, Truth and Love. These three principles with which Oddfellowship are actuated are also needed in families, and then why should not women use them as well as Oddfellows?"

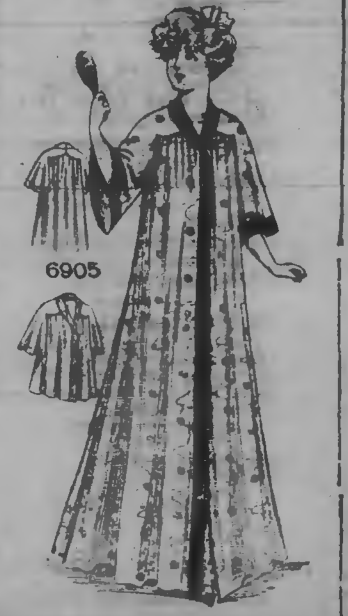
It was in 1819 women were first allowed the privileges of Oddfellowship. The speaker then briefly told its history from then up to 1890 when the first Rebekah Lodge was organized in Ontario. The Society met with much opposition at first, but it is now on a fine basis. There are 60 lodges in the Province with a total of 3,500 members. It has not met with the same success in Ontario as in the United States. The men are not co-operative with their sisters in the work. Whilst fraternity is one of their objects they do not help their sister lodge. The Rebekah lodges are doing good work in an unostentatious way by visiting and relieving the sick. The goodness and fidelity of womanhood enable them to do these acts of self-sacrifice better than a man. It is the privilege of the Daughters of Rebekah to follow the example of the Rebekah of the text. There are hundreds, said the speaker, thirsting after kindness and it is their privilege to help them. There were qualities in Rebekah's character to be avoided. Her partiality to her children and favoritism in the family were qualities not to be copied. Partiality blinds the eye to what is best and is to be avoided. Rebekah lacked womanly sensibility and tenderness, but she had good qualities worthy to be copied by the women of this lodge. Her life was stamped upon a religious basis. She was courteous and considered the feelings of others. She was modest and obliging. There is much the Rebekah Lodge might learn from this woman which would help them in their work. Rev. Mr. Major concluded his remarks by wishing Rebekah Lodge every success in the future. He told them not to be discouraged. They would have many difficulties, as every good work has, but success is bound to come. He would like to see the lodge a veritable beehive, doing all good works, in a regular and systematic manner.

The meeting was closed by the singing of a hymn and the benediction offered by Mr. Major.

Lively Runaway on George St.

A white mare attached to a runabout, belonging to Bruce Lee and Co., created considerable excitement on George Street yesterday afternoon about half past four. Two young men were in the rig driving down George Street. At McDonnel Street a collie dog ran out and bit the horse. This frightened the animal and it started at a mad gallop down the street. At Brock Street, another little dog ran out and made more noise. The equine then tore down the street at an awful pace. Several people on George Street witnessed the runaway. The gentlemen in the rig never let go. Each one held tightly onto a rein. The horse never slackened till it reach Little Lake cemetery. It was badly cut about the hind legs and was completely done out. The rig was not damaged. Considerable damage was averted by the fact that the drivers did not drop the reins. Mr. Lee had a veterinary attending the horse this morning, who says that it will be two weeks before it will be all right again.

LATEST DEAN PATTERNS



6905.—A MOST GRACEFUL KIMONO

The kimono is perhaps more relied upon for negligee wear than any other style of loose garment and its styles are as numerous as can be imagined. Here is a kimono made with its yoke and sleeves in one giving a long graceful shoulder line and a true Japanese style. Its front and back are gathered full to the yoke so that a pretty sweep is assured. The kimono may be finished in wrapper or dressing sack length and may be developed in any lawn, washable silk or Japanese stuff. For the medium size 8 1-2 yards of 27 inch material are needed for this wrapper and 3 1-4 yards for the dressing sack.

6905.—Sizes 32, 36, 40 and 44 inches bust measure.

The price of this pattern is 10c.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

Semi-ready

"Blunoz"—a Canadian Serge made on the Semi-ready standard

BLUNOZ CANADIAN Semi-ready

"Blunoz" is our exclusively controlled serge.

We had an idea that Canadians would wear a Canadian-made serge, if it was made good enough. We didn't want to appeal to their loyalty—what we wanted was a serge that would appeal to their pocket-books and their common sense.

We have it in "Blunoz" serge.

Our cloth experts hunted up a Canadian manufacturer who was honestly trying to make good serge, and instilled into him our ideas of what a serge should be. He is making "Blunoz" serge for us now. We control the output of his factory and the secret that makes "Blunoz" wear well and never fade.

The only place you can get this excellent "Blunoz" serge is in the Semi-ready Wardrobes—in single and double-breasted sack suits.

Big Traffic on G.T.R. From Midland to Belleville

Three Double Headers Passed Through Peterborough Yesterday—Grain and Lumber Being Brought Down.

Since the opening of navigation on the Great Lakes, there has been a big increase in freight traffic on the Grand Trunk between Midland and Belleville. The company is having difficulty in providing rolling stock to meet the demand and everything is on the jump, to use the expression of a local railwayman.

An evidence of the amount of freight being carried is furnished by the fact that every day one or more double headers pass through Peterborough going from Belleville to the northern terminus or from Midland to the southern division. Yesterday no less than five double headers passed through Peterborough, three going south and two north.

Grain and lumber are being carried principally. Since the opening of navigation on Lake Superior, the boats are bringing down the wheat from the west, and the G.T.R. cars are being loaded with it at Midland. The major portion of the lumber come from Victoria Harbor and Waubashene.

It is expected that the heavy traffic will keep up for some time as there is a large amount of grain and lumber to be brought down.

STATIONARY ENGINEERS

Must Take Out a Government Certificate Before They Can Operate an Engine

The Legislature of Ontario, at its recent session, passed an act respecting stationary engineers, in which engineers and employers are alike interested. Briefly stated, its provisions are that, after the first day of July, 1908, no engineer will be allowed to operate or have charge of a stationary steam plant of 50-horse power or upwards, who does not hold a government certificate. There are three classes of engineers to whom certificates will be granted without the applicant having to undergo an examination, first, those who on the 20th of April, 1907, (the date on which the Act was passed) held certificates from an association of stationary engineers in Ontario, or a marine or locomotive engineer's certificate; second, engineers, who, on the above date, were in charge of a plant of 25-horse power or over in Ontario; third, engineers who had at any time previous to the passing of this Act, not less than two years experience in the operation of such a plant in the Province. Those who cannot qualify as above will have to pass the examinations which will hereafter be prescribed by the Board of Examiners.

Those interested may obtain a copy of the Act, and application forms for certificates, by addressing the Secretary, Department of Agriculture, Toronto.

CONTRACT FOR BRIDGES

Contracts for the construction of steel and concrete bridges have been awarded by the Provincial Government. The places at which these will be erected and the names of the firms whose tenders were accepted are as follows,—Over the Gull River, at Minden, Haliburton County, Jenks & Dresser, of Sarnia; at Hovey's Rapids, Muskoka District, R. M. Roy, Hamilton; bridge at Gooderham, in East Victoria, contractors, Dickson Bros., Campbellford; bridges at Larchwood and Thessalon, Algoma District, contractors, Ontario Bridge Company, Toronto.

Mr. Thos. Young, of Smith township was taken to Nicholls hospital today to be operated on for appendicitis. He was stricken with the disease very suddenly.

Line of March For Regiment

The Rangers Will Have March-out To-morrow Night

Weather permitting, the 57th Regiment will hold the first marchout of the season tomorrow night. Only a short march has been arranged, as it is desired to have a good share of the evening for drill purposes. With both bands in line, the regiment will leave the drill hall at eight o'clock and the route of parade is as follows; George street to Charlotte, Charlotte to Water, Water to Hunter, to George, and along George to Central Park. It is expected that there will be a big turnout of the men as it is desirable to make a good showing on the first marchout.

Tweed Horses Were Killed by Lightning

The Tweed News says,—The excessive heat of Monday evening, which was a fair sample of a summer's night, was followed Tuesday morning by quite a violent electric storm and a very heavy rain. About 9 a. m. there was one very sharp flash of lightning which struck the barn owned by W. Brown, who was on his way from the house to the barn when the flash came and on entering the stable found the two horses dead and some boards near them shattered by the lightning. The foretops of the two animals were somewhat singed. Another horse alongside of them was uninjured. Fortunately the barn was not burned. Mr. Brown's loss is quite a severe one, especially at this season of the year.

MINISTERIAL ASSOCIATION

Is Not in Any Sense Favorable so Called Christian Science

The Peterborough Ministerial Association held its regular monthly session in the Y.M.C.A. parlors this morning when the president, Rev. Canon Davidson, occupied the chair. The following members were present: Revs. A. H. Brace, L. McKinnon, Dr. Crothers, J. G. Potter, Dr. Torrance, H. J. Keith, J. R. Webb and J. G. Lewis.

The question of a general exchange of pulpits in the interest of the Sunday school work, created considerable interest. It was finally decided that Sunday, May 29th, be selected for the exchange. Final arrangements will be made by the secretary, who will publish them in the local press in due time.

CHRISTIAN SCIENCE.

The following resolution was unanimously carried:—

Moved by Rev. J. R. Webb, and seconded by Rev. Dr. Torrance, that it is resolved that we, the Ministerial Association of Peterborough, note with regret published statements made by Mr. Todd to his followers regarding the attitude of this association to the teachings of Mrs. Eddy. We cannot see that Mr. Todd, while enjoying the courtesy of this association, heard any word upon which to base the remarks that we were in any sense favorable to so-called Christian Science.

Rev. Dr. Crothers read a very carefully prepared paper on Rev. R. J. Campbell's "New Theology." He reviewed the book showing up the points of most marked divergence from the orthodox and accepted scripture teachings, such as the incarnation, inspiration of the Scriptures, the atonement and human freedom. While for the time these views are unsettling and will turn some from the faith, yet in the long run they will lead to a closer search for the truth and a firmer grasp of the things that endure.

The hospital and home visitation for the month of May is as follows: Rev. Dr. Crothers, J. R. Webb, J. G. Lewis and H. J. Keith.

Many Pet Cats Were Poisoned

Sanitary Inspector Ball Says More Cats Died This Spring Than Dogs

Sanitary Inspector Ball this morning remarked on the great fuss which has been made about the dogs that were poisoned this spring. No notice has been taken he said, as to the scores of cats which have met untimely death. There have been more "poor pussys" gone to their happy hunting ground, where they can fight on house tops forever without disturbance by selfish humanity, than dogs. He wondered how it was that the old maids in the city had never been heard of. The only reason that has been heard so far, is that there are no old maids in Peterborough, they are all woman suffragists.

Fast Driving on Smith St. Bridge

Steps Should be Taken to See That it is Stopped

To the Editor of the Review.

Sir,—Permit me to make a suggestion to our civic rulers in reference to the Smith street bridge. Seeing that it is such a very expensive item in the city's expenses either to repair or build a new one besides the great inconvenience in having it closed up so often for repairs, would it not be well to do what they can to prolong its life. They have notices upon the bridge forbidding any one to drive over it at a faster rate than a walk, but unless followed up with a fine or two, they are not worth the paint it took to make them, for there is hardly ever a day in which the notice is not violated. Now, if a special constable were sent there to watch and arrest any offenders, he certainly would not have to wait very long before his mission would be quite a success and have a very beneficial effect, and if continued it would be a source of profit to the city. Everybody knows, or ought to be made know, that the jarring caused by fast driving upon an old structure of that nature must have a very injurious effect.

I remain,

Yours truly,

EXPEDIENCY.

Man Dragged Through Mud

But He Held Onto Lines and Prevented Runaway

An Otonabee farmer's horse made a desperate attempt to run away in front of the Munro House on Saturday night. The animal took fright on Water street, near the post office and, dashing around the corner in the direction of the Munro House, upset the buggy, and though the man who was in it out on the road. With great pluck he held onto the lines and was dragged about thirty feet, through the mud, before the horse was brought to a stop. The buggy was pulled along on its side, and the top was broken off and it was otherwise damaged. The man, however, escaped without serious injury and was able to proceed to his home, although the buggy was sadly in need of repairs.

THE NEW YORK STOCK MARKET

(Furnished by J. R. Heintz & Co.)

New York, May 6.—Opening prices today were generally a fractional lower than Saturday's closing, due mainly to lower quotations from London. C. P. R., however, was strong over there and advanced here nearly two points in the first hour and then lost it later.

Reading was run up to 115 3-8 by pool manipulation, but when sensational crop damage reports from the wheat country commenced to pour in, and wheat advanced 3 cents a bushel, the stock market turned weak and lost round. Del. and Hudson ran off 7 points, while Union Pacific lost 3 and the others from 1 to 2. The closing was dull and heavy with but little rally from the low prices of the day.

	Opening	Closing

Good Joke on Dr. Coughlin

Speaking of house-cleaning, a pretty good joke comes from a large Government institution not a thousand miles from this beautiful city, says the Belleville Intelligencer. It seems that the "head push," though genially jolly and very popular, has a horror of anything which has even the appearance of being soiled. Recently he has had small placards printed bearing the legend, "Dirty, clear up." These he has conspicuously posted everywhere, where cleaning was needed. The staff scrubbed and sweated, but, the more they cleaned, the more that placard appeared to bob up in unexpected places. Finally, one afternoon, loud sounds of mirth were heard coming from the office of the "head push." After a short absence from his den he had returned, and there on his desk, staring him in the face, was one of his own placards. Being a gentleman and a sensible man, he of course, took the joke in excellent part.

The foregoing evidently refers to Dr. Coughlin, the genial head of the Deaf and Dumb Institute.

Boy Drowned in an Old Well

Bowmanville, May 5—A sad accident happened here today when Chas. Finley, the six-year-old son of R. Finley, the engineer at the rubber factory, was found drowned in a well. The little fellow went out to play about 11 o'clock and not returning search was made for him, but it was not until about 1.30 that his hat was seen floating on top of the water in an old well at South Park, which is just across the street from the boy's home. He had evidently been in the water for some time.

It is supposed that he lifted a board off the top and was throwing something in when he overbalanced himself and fell in.

TO ORGANIZE ROLLER TEAM

Meeting Will be Held at Charlotte Street Rink To-night

A meeting for the purpose of organizing a roller hockey team, will be held at the Charlotte street rink tonight, after the skating is over at ten o'clock. It is requested that everyone interested in the matter, should attend, as the proposition to be considered has many strong features, and will without doubt be carried to a successful issue.

Ottawa, Montreal and Toronto, have roller polo or hockey teams, and are anxious that a team be organized in Peterborough, in order that a league may be formed to embrace the four cities mentioned above. The Ottawa team are anxious to have Peterborough play there on May 24th and are confident that a big crowd would turn out to witness the game.

With the material on hand, Peterborough should be able to bring out a strong team and make the Ottawa, Toronto and Montreal players travel a few.

Let there be a big attendance on hand tonight.

LACROSSE

ORILLIA'S PROSPECTS.

Last week's Orillia Packet says,—The final grouping for the C. L. A. districts took place in Toronto. The teams in the intermediate series in this district are: Orillia, Beaverton, Peterborough, Newmarket, Young Torontos, Toronto North Ends. The schedule will be drawn up at Beaverton next week. As most of the Orillia players have signed with other teams, there will not be an intermediate twelve here this season. Orillia, however, will have a good junior team, and the other clubs in the district are, Bracebridge, Gravenhurst, and Beaverton. Mr. Ed. Hinds is convenor for the district, and will call a meeting here next week to draw up the schedule.

The Peterborough Shamrocks, juniors will practice tonight at Riverside Park. A big turnout of the players is requested.

LAWN BOWLING

PORT HOPE ORGANIZES.

A meeting of the Bowling club was held in the Y.M.C.A. parlors Friday evening, and was fairly well attended says the Port Hope Guide. The chief business was the selection of suitable grounds, and after some discussion it was decided to accept Mr. Barrett's offer for a plot in the east end of the field north of his terrace. A committee was appointed to make all the necessary arrangements and have the work of levelling proceeded with at once.

The following officers were elected:
President.—H. V. Rosevear.
Vice-President.—R. Gillies.
Sec.-Treas.—W. E. Beamish.
The membership was fixed at $3.

The Council of Cobourg have granted the Bowling club of that town a plot 60 by 120 feet in the north-east part of Victoria park. The club has a membership of sixty-eight, and expects to reach eighty.

RUNNING

THE GENEROUS TORONTONIANS.

When Longboat, the Indian, won the Marathon race there were loud exclamations of joy in Toronto, and it was announced that, to show their pride in him, the good people of the Queen City would subscribe $1,000 towards a fund to be used in the poor Indian's education, the City Council subscribing another $500. Many days have elapsed since the race was run, and a crowd of people howled selves hoarse when the great runner returned to Toronto, but so far only $30 of that $1000 has been subscribed, $25 of it by one man. Which shows that, in Toronto, they preach more than they practice.

CRICKET

MEETING CALLED.

A meeting of the Cricket Club will be held at the Y.M.C.A. hall on Wednesday evening at eight o'clock. A full attendance of all members is urgently requested as this will be the last meeting before the regular practices of the club will start.

FOOTBALL

QUAKERS WILL PRACTICE.

The Quaker Football Team will practice tonight at the Exhibition grounds. Riverside Park is not available for practice purpose, but the Exhibition grounds are in good shape and a large turnout is requested.

Battery to Have New Drill Field

Will do Preliminary Training at Central Park

Through the kindness of Col. Miller, the 24th Field Battery, have been granted the use of the 57th regiment's armoury and parade grounds for drill purposes. The grounds in connection with the Ashburnham drill hall are not large enough for the kind of drill that the Battery has to put in and they will be able to do much more effective work at the armoury and grounds on Central park.

Sergeant Major Fee is still confined to the house with illness, but he expects to be out again in the near future. Drills will be commenced just as soon as the sergt.-major is able to take command.

PERSONAL

Mr. John Boyd of Belleville, is in the city.

Mr. A. E. Armstrong of Ottawa, is in the city.

Mr. J. J. Kenny of Orillia, is a guest at the Oriental.

Mr. Frank Thompson, of Ottawa, was in the city on Sunday.

Mr. F. Dolan, the well-known contractor of Belleville, is in the city.

Mr. K. B. Miller, of Chicago, is in the city for a few days on business.

Mr. F. D. Mackay of Toronto, will be in the city this evening.

Mrs. S. Kemp, Antrim Street, has returned, after visiting relatives in St. Thomas, Ontario.

Mr. W. Huston, late of Madill's Drug Store, has accepted a position with the Nugent Drug Company.

A lockout effecting 200,000 men is threatened in Berlin building trades for the first of May.

Denounces Quest For North Pole

Dr. Grenfell Has no Use for Such Expeditions

Polar expeditions were denounced by Dr. Wilfred T. Grenfell speaking recently in New York, as the cause of vice and crime, which are fast exterminating the race of northern people. The doctor is known the world over for his missionary work among the natives of the Labrador coast.

"There won't be an Eskimo living in a few years, unless Arctic expeditions cease," says Dr. Grenfell, "It is not the 'white man's burden.' It is the Eskimo's burden. Exploring parties commit awful sins against the northern natives. The Eskimo race is doomed. The white man is killing them with liquor and vices. Eskimos who went to Buffalo and Chicago to the fairs of the white man returned to Hebron with disease.

"Look at the pictures in the stereopticon views shown at explorers' lectures and you will see Eskimos, so-called, that are almost white. That is one of the white man's sins.

"There is no necessity for polar explorations. I am satisfied there is nothing at the pole except an open sea, which freezes over. There is no land there. One might as well go out in the broad Atlantic from Coney Island on a cake of ice to prove something as to drift across the north pole.

"The Eskimos are dying like flies as a result of vices which the white man has taught them."

"Do you refer to any particular explorer in your statement of conditions?" he was asked.

"I do not. While the explorer himself may not commit crimes against home and decency, the men under him do."

HOW YOU GET CONSUMPTION.

Most "lungers" allowed their power of resistance to fall very low. Favorable conditions were provided for the development of the baccilli. Consumption was the result.

But in a healthy body Consumption can't take root. The most potent health-maker is Ferrozone. Take it regularly and you needn't fear tuberculosis.

FERROZONE

Supplies exactly what the man verging on Consumption needs. It forms rich, nutritious blood, strengthens the nerves, puts vim and endurance into every organ of the body.

For the tired, weak—anyone in poor health—Ferrozone is worth its weight in gold. Avoid substitutes!

Price 50c per box or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Many Villages Are Wiped Out; Awful Havoc Has Been Wrought

Tornado Sweeps Texas and Destroys Much Property.

Two Lives Reported Lost—Many Persons Injured—Great Damage to Crops—Fences and Barns Blown Away—Live Stock Killed—Antioch Almost Destroyed—Many Escaped By Using Storm Cellars.

Fort Worth, Texas, May 7.—A storm of wind and rain, which was general throughout a considerable area of north Texas, yesterday, and which at some places assumed the proportion of a tornado, according to meagre reports received here, resulted in the loss of at least two lives, the injury of many persons and great damage to property and crops.

Several villages were wiped out, but because of the prostration of both telephone and telegraph wires, details are almost impossible to obtain.

At Deport, 20 miles from Paris, the storm damaged the residence quarter. The Baptist parsonage was blown to pieces, and several other residences were damaged. No one was hurt. Crops where damaged and many fences and barns were blown away.

It is reported that at Halesboro, the wife and child of Andrew Bell were hurt. A terrific wind passed over Sulphur Springs.

West of Sulphur Springs, the wind assumed the proportions of a tornado, creating great property damage.

Antioch, seven miles north of Sulphur Springs, was almost destroyed. This is the tornado belt and most of the homes are provided with storm cellars. To this is due the escape of a number of those in the path of the storm.

The home of William Lemmons was destroyed, entailing a loss of $10,000. Three barns on the place were also destroyed and many head of live stock killed.

A tenant, Brazil, with his wife and seven children, saw the storm coming and ran for the cellar. Brazil was crushed by flying debris and Mrs. Barzil and two of the children were fearfully injured.

He Declares That There is No Chance of Preference

President of Board of Trade Says It Is Impossible.

Lloyd George Also Disapproves of Subsidies to Shipping—Old Country Is the Colonies' Best Customer—England Cannot Tax Necessaries of Life—Suggests Appointment of Imperial Drummers.

London, May 7.—(C. A. P.)—At the opening of yesterday's meeting of the Imperial Conference, Premier Jameson expressed the hope that there would be a more sympathetic answer on behalf of the Home Government from President Lloyd George of the Board of Trade, than had been received from Sir Herbert Asquith. He asked to be allowed to move a resolution expressing the opinion that the Government should take into consideration the possibility of granting a preference to all portions of the Empire on the present dutiable articles in the British tariff.

Sir Wilfrid Laurier thought consideration of the proposed resolution should be postponed until the main resolution had been considered.

The president of the Board of Trade said, regarding Premier Jameson's resolution, that the Government could not change their position in reference to the tariff of the United Kingdom. Having referred to Great Britain's position in the world of commerce, he said that in Premier Deakin's resolution the Government were asked to do "what no protectionist country in the world would do, namely, tax the necessaries of either life, or livelihood which we could not produce ourselves, and which the colonies could not supply us with sufficiently for a number of years."

After acknowledging the value of the preference given by the colonies he said the question: "What is Great Britain prepared to do in return?" had its first answer in the statement that Great Britain is the colonies' best customer.

Practical Proposals.

Proceeding to consider proposals of a practical character, President Lloyd George spoke approvingly of Premier Ward's suggestion of an improved and cheapened cable communication, and also proposed the appointment of commercial attaches in the colonies to assist British trade, being the appointment of what he might term Imperial commercial travelers to investigate the trade conditions and requirements of the colonies and to report to the British Board of Trade whence the information would be disseminated confidentially. These travelers would also visit the great industrial centres of this country and ascertain for what produce from the colonies there was a real demand.

As to the third suggestion, the improvement of transport and passenger communications, the policy of merchant shipping subsidies would not benefit shipping. He could not consider any suggestion for a system of subsidies. Once the Government realised that the Empire produced almost everything needed for its inhabitants the problem was how to bring those products to the markets at rates which did not unduly handicap the colonies in competition with foreign countries. The Government had had no concrete scheme submitted.

Can Be Solved.

The problem was complex and difficult, but not beyond the resources of British statesmanship. He did not purpose to submit a definite plan. It would be better that a scheme or schemes be elaborated slowly, and in detail. After thinking out all ramifications on the subject, and when such schemes had been prepared and presented with the full responsibility of the respective Governments behind them, then each Government could examine them and confer further.

In conclusion President Lloyd George replied to Premier Deakin's charge of lack of official sympathy. He denied that the fiscal system was responsible for such distress as existed in Britain.

Cook's Cotton Root Compound.

NO ONE WANTS SOCIALISTS.

Driven From One Place to Another They Decide On England.

Malmos, Sweden, May 7.—The Russian Socialists desirous of holding a congress here are being kept on the move in the Scandinavian peninsula. After having been ordered out of Denmark, 120 delegates arrived here Sunday night and were joined by sixty others, who came by way of Stockholm. The police, however, refused to permit the Socialists to remain here, and prohibited the holding of any conference whatever at Malmos. The Russians thereupon requested permission from the Danish authorities to go to Esbjerg, and there embark for England, where they hope to be able to hold a congress.

BOMBS TO BREAK JAIL.

Thirteen Political Prisoners In Russia Liberated.

St. Petersburg, May 7.—A plot which resulted in the liberation of 13 political prisoners was daringly executed at Alexandrovik Sunday during the Easter services at the prison, where high mass was being celebrated in the prison chapel.

A band of revolutionists entered the building, killed the chief inspector and exploded two bombs.

Under cover of the confusion which followed 13 political prisoners, including several important terrorists, escaped.

"Le Soliel" Must Explain.

Montreal, May 7.—When the Asselin libel suit was called in the criminal court yesterday morning, it developed a new sensation by Judge Bosse ordering that Mr. Delancourt, editor of Le Soliel of this city, appear before him this morning to explain why he recently published editorials in Le Soliel commenting upon the plea filed by Asselin before the court had rendered any decision thereon.

Canadians Honored.

Montreal, May 7.—A cablegram states that Premier Gouin has been made an officer of the Legion of Honor, and Judge Lancelot, his traveling companion, an officer of public instruction by the French Government.

Eighteen Were Killed.

Johannesburg, Transvaal, May 7.—An explosion occurred yesterday at the Modder-Fontein Gold Mine, three whites and fifteen natives being killed.

PORT HOPE AND G. T. R.

Commission Enquires Into Complaint Made Against the Company.

Port Hope, Ont., May 7.—Grand Trunk agrandizement was exposed and Port Hope's grievances thereunder fully ventilated before a special session of the railway commission, held here yesterday. Early in the winter the G.T.R., unknown to the Town of Port Hope, made application to the railway commission at Ottawa for permission to fill in by earthen embankments the most of the railway's viaduct, which spans the southern end of the valley, thus segregating the town from the lake and ruining the town industrially and otherwise. The railway commission however, instructed the railway that before the order was given the Town of Port Hope must be consulted, and this was the first intimation the town received of the application.

An indignation mass meeting of the citizens was immediately held, and strong resolutions of protest were passed by the various boards of the town to the railway commission, coupled with a request that the board should meet at Port Hope to hear and determine the question. As a result of these appeals, word was received that the case would be heard in Port Hope.

The commissioners arrived in their special car yesterday morning, as did also the G.T.R. party in their official car.

The commissioners were first escorted over the ground by the mayor and town solicitor, after which the case was taken up in the council chamber, which was crowded to the doors with interested citizens.

At the conclusion of the evidence, the chairman announced that judgment would be reserved pending a report from the commission's engineer, Mr. Mountain, who would make a report to them before a decision was announced.

IAN MACLAREN DEAD.

Succumbed to Blood Poisoning While on Lecturing Tour.

Burlington, Iowa, May 7.—Dr. John Watson (Ian Maclaren), died at 11.15 a. m. yesterday at Mount Pleasant, Iowa. The cause was blood poisoning from tonsilitis. He was taken ill at Mount Pleasant, April 26.

The Rev. John Watson, as Ian Maclaren, gained world-wide distinction as the author of "The Bonnie Brier Bush," the first of a series of sketches of Scottish character, that placed him in the front rank among latter-day authors. The book came out in 1894 and was followed by "Days of Auld Lang Syne," almost equally popular. Other volumes were, "A Doctor of the Old School," and "Carnegie," the latter of which was subject to considerable criticism. He was also the author of several religious and devotional books and theological studies, "The Mind of the Master," being one of the best known of these.

He was born at Manningtree, Essex, Nov. 3, 1850. Educated at Stirling Grammar School; Edinburgh University (M. A.); New College, Edinburgh. He was licensed by the Free Church of Scotland in 1874. Appointed assistant to Dr. Wilson, Barclay Church, Edinburgh, later minister of several Scottish churches, he finally held pulpit of Sefton Park Presbyterian Church, Liverpool, 1880-1905. He was Lyman Beecher lecturer at Yale University in 1896.

NO PRISONERS TO TRY.

"Maiden" Assize At Toronto—London Election Case Goes Over.

Toronto, May 7.—There was not a single prisoner to be tried at the assizes, which opened yesterday, before Mr. Justice Magee, and the panel of over 60 petit jurors was dismissed.

Two prisoners will be disposed of at the sessions next week.

"It's an unusual thing and may happen oftener," said the judge, in commenting on the circumstance.

The London election case stands over. Judgment was reserved on the motion argued at Osgoode Hall yesterday morning to change the venue to London.

The tack combine case also stands. E. A. DuVernet for the Attorney-General, was granted an adjournment till a week from Tuesday, as judgment had not yet been given in the prosecution of the plumbers' supply dealers by Chief Justice Mulock.

Accuses N. B. Legislator.

St. John, N. B., May 7.—Speaking at an Evangelical Alliance meeting yesterday Rev. Thomas Marshall, president of the New Brunswick Temperance Federation, made a violent attack on Premier Pugsley and the local Legislature, accusing them of being in league with the liquor people. The liquor sellers of St. John, he said, had more weight with the Government than the church of God. He believed the Legislature was simply playing with the temperance federation. Although promising to give it his support, Mr. Marshall called on every loyal citizen to vote for the temperance candidate at the next election.

Chauffeurs In Police Court.

Ottawa, May 7.—Seven auto drivers were before the police magistrate for exceeding a speed of ten miles an hour. Six were fined and one remanded to settle a question of distance. This is the result of a campaign by the police for the safety of the public.

Fernie Miners At Work.

Fernie, May 7.—Mackenzie King has just stated that the agreement embodying a new wage schedule for the mine workers has been signed by the miners and officials, and everything is now closed. The men are back to work and the strike is over.

Newspapers Win.

Lebanon, Ky., May 7.—When the cases against The Louisville Herald, Evening Post and Louisville Times, for publishing the evidence in the Thaw trial, came up at Lebanon, the court instructed the jury to find a verdict for the papers.

Owing to the new postal law, all the New York papers, which were being sent by express to Montreal were stopped at the frontier.

NATIVE RISING IN INDIA

Government Has Decided to Take Drastic Measures.

Political Agitations Originate In Colleges—University Has Been Warned—Outbreak Anti-Christian and Anti-European—Riot At Amritsar—Missions Were Attacked—Fear May Lead to Something Worse.

Simla, British India, May 7.—The schools and colleges of Bengal, which are affiliated with the University of Calcutta, have become such hot-beds of political agitation, that the Government has resolved to take drastic action. A circular has been sent to the university, college and school authorities, prohibiting the participation of professors, teachers or pupils of the higher educational establishments in political movements, and notifying the university that unless it fulfils its duty in controlling the affiliated colleges all the Government scholarship endowments will be withdrawn.

The Hindu outbreak at Rawalpindi appears to have been anti-Christian, as well as anti-European. The mission buildings were the special object of the fury of the rioters. An attempt was made on the American mission church, the mob burned the Young Men's Christian Association hall, looted and damaged the houses of the missionaries and violently assaulted native Christians in the streets. A riotous outbreak, under the leadership of Hindu students, has occurred at Amritsar, about thirty miles from Lahore.

All the local newspapers print detailed accounts of serious rioting at various places in Eastern Bengal, especially in the Mymeusingh district. The papers comment gravely on the situation, saying the disturbances may be the prelude to worse events, owing to the intense feeling between the Hindu and Mohammedan portions of the population. The former allege that the latter have desecrated their temples, while the Mohammedans assert that the Hindu boycott of British goods has caused a rise in prices.

636 FACTORY ACCIDENTS.

Twenty-Seven Resulted Fatally — Reports of Inspectors.

Toronto, May 7.—According to the nineteenth annual report of the provincial factory inspectors, which has just been issued, there were 636 accidents in the factories of Ontario in 1906, of which 27 resulted fatally. The majority of the accidents occurred in Toronto and Hamilton.

One of the women inspectors, Miss Annie Brown, states that she found child labor abused in a number of the concerns she visited. In mica factories especially there had apparently been no effort made to ascertain the age of the children employed. Where it was apparent that the little workers were under 14 years of age, they were sent home.

It is noted in the report that factories in general are cleaner than they used to be, but attention is called to the need for better ventilation in most of these places.

Miss Carlyle, in her report, says that one of the most difficult things to enforce is the regulation compelling factory girls to do up their hair in such a way as to best avoid accident from the machinery. They prefer, she states, to be scalped rather than put up their locks in what they consider an unbecoming style.

TROOPS CUT TO PIECES.

Turkish Soldiers Annihilated by Yemen Rebels.

London, May 7.—It was announced yesterday afternoon in a special despatch from Constantinople that several battalians of Turkish troops have practically been annihilated during a battle with rebels in the Province of Yemen, Turkish Armenia. The commander-in-chief of the Turkish forces is urgently calling for reinforcements.

Man Found Poisoned.

St. John, May 7.—James E. Hickey, who, with a companion was arrested in a drunken condition by the police Sunday night and lodged in jail, was found dead yesterday morning in his cell. An empty bottle, which had contained prussic acid, was found nearby. This, the police say, was not on his person when he was arrested. There is some suspicion that his companion knows more about the affair than he lets on. The matter is being investigated.

Three May Have Perished.

Quebec, Que., May 7.—About 11 a.m. on Saturday Captain J. B. Masson left Montmagny wharf with Mr. Eugene Thibault and Mr. Ernest Bouchard in a boat to cross to Grosse Isle. The weather was not very bad when they sailed, but a severe snow squall came up with a strong east wind after their departure. The empty boat was found at Crain Isle yesterday morning, and the general belief is the three have perished.

Killed In a Runaway.

Wallaceburg, May 7.—John Tulloch, a Sombra Township farmer, living near Becher Postoffice, about six miles from here, was fatally injured in a runaway on Saturday last.

BITTER STRIKE AT 'FRISCO.

Car Lines Tied Up—Telephone Girls and Iron Workers Out.

San Francisco, May 7.—San Francisco is again in the throes of a bitter strike. For the third time since the disastrous fire a year ago, San Francisco is walking because of the declaration of a strike on all the street car lines in the city by the car men's union. Added to this tie-up is the strike of the telephone girls and of 8,000 iron workers. Without transportation facilities and with a crippled and inadequate telephone service, business is greatly handicapped.

The car men have organized an extensive picket detail at each car barn. The pickets are changed every four hours, and, according to President Cornelius, have been instructed to permit no violence. Large crowds surrounded the car barns at Turk and Filimore street, where 100 strike-breakers are lodged. Beyond hooting and jeering no overt act was attempted. Heavy shutters and iron screens were placed at the windows of all the barns and car houses. At the car barn at Hays and Central avenue, where is situated the company's principal commissary department, intense activity prevailed to prepare for the housing and feeding of a large number of strike breakers.

Notices have been posted in all the car barns that all employes will be expected to report for duty on Tuesday morning or consider themselves discharged.

The situation so far has been peaceful, and there are no indications of impending trouble. At the same time every preparation is being made by the state and civic authorities to prevent any breach of the peace.

After an exciting meeting lasting four hours the electrical workers' union of lineman No. 151 Sunday failed to reach an agreement on a proposition to strike in sympathy with the telephone girls. A compromise was effected whereby definite action was postponed until the executive committee shall have conferred with the officials of the telephone company, when the company will be informed that unless the union of the girls is recognized the linemen and electricians will walk out. The company is giving a little better service than it was able to do during the first days of the strike, and the assertion is made that it will be able to hold its position until the striking operators return to their posts.

TWO BURN TO DEATH.

Couple, of Dissolute Habits, Perish After Night's Carousal.

Palermo, May 7.—Two persons were burned to death near here during Saturday night, the victims being James Clark (white) and Fannie Jones (colored), who had been living together.

There had been a carousal. Thomas Jones, who had been a visitor, says he heard the woman cry out the house was on fire. He crawled out and then apparently sank into a drunken stupor. There is no suspicion of foul play.

It is stated that the shack, the negress and the furniture had been sold to Clark by the man who had been previously living with her for $100.

ACCIDENTLY SHOT.

Lad Killed While At Target Practice With Friend.

Creemore, Ont., May 7.—Frank Honsberber, 17 years of age, and son of George Honsberger of Banda, was accidentally shot through the heart at noon yesterday, while practising at target shooting with a young Englishman, an employe of his father. It is not known exactly how the accident occurred, as the Englishman was too much overcome to give a clear account of it. But it is presumed that Honsberger, who was acting as marker, accidentally stepped in front of the target, or that the gun was prematurely discharged.

THREE CHILDREN BURNED.

Mother Left Them Alone After Building Big Fire.

Sault Ste. Marie, May 7.—A special from Blind River says that three children were burned to death in a house there yesterday while the mother was away. The oldest was five years, the youngest six months. The mother, a widow named Dominique, went to a neighbor's after building a big fire in the stove, leaving the children in the house. In a short time the place was discovered on fire by neighbors, but they were unable to rescue the little ones.

"In the Wars"

When "in the wars," when you slice your finger, chop your hand; when the children come in with cut or bruise; when the housewife burns her hand on the stove door or with the smoothing iron; when unsightly pimples break out and when scratched become ugly and painful; when you get a cut or scratch from barbed wire and fear blood poison—then is the time when Zam-Buk proves its merit. It takes the soreness out of injuries, stops bleeding, prevents blood poison, soothes and heals. Made from purely herbal essences.

Mr. Alf Henry Orth, of Shipley, Ont., says:—"Zam-Buk is without doubt the best healing balm in Canada. I had a rusty wire nail run under my thumb-nail, which caused a very bad wound indeed. The pain was very acute, and the nail being rusty I feared serious consequences. I knew how good Zam-Buk is, and so melted a little and let it run into the wound under the thumb-nail. In quick time it gave me relief, and after that I went on with my work just as usual. In a short time the injury was quite cured, and the soreness went away almost immediately Zam-Buk was applied."

Zam-Buk is obtainable from all druggists at 50c per box. For cuts, burns, bruises, and all skin injuries and diseases, freckles, pimples, eczema, itch, rashes, blood poison, postules, ulcers, etc. is unequalled. Cures piles. 6 boxes for $2.50 from Zam-Buk Co., Toronto. Send, 1c. stamp for trial box.

Zam-Buk

"RUB IT IN"

The Marathon Mystery

A Story of Manhattan

By BURTON E. STEVENSON

Author of "The Holladay Case"

Copyright, 1904, by Henry Holt and Company

"I remember him now," said Jones, looking from one photograph to the other, "very well. He was a quiet, well behaved chap; had been captain of a little tramp steamer, I believe. He had a perfect mania for cutting pieces out of newspapers and pasting them in a scrapbook. He spent all his leisure time that way. Oh, yes; I remember, too, he tried to escape, but his pal went back on him and left him layin' out yonder by the wall. His pal was a bad one, he was; he got away and I've often wondered what become of him. Here he is."

He swung open another compartment, and I found myself staring at Tremaine!

Not until I was quite near New York did I recover sufficiently from the effects of this discovery to heed the cry of the train boy as he went through the coaches with the evening papers.

"All about th' Edgemere murder!" he was crying, and the name caught my ear.

"Edgemere," I repeated to myself. "Edgemere. I've heard that name somewhere."

Then in a flash I remembered, and in a moment more the whole story of the tragedy of the night before—the murder of Graham and the theft of Mrs. Delroy's necklace—lay before me. With what intensity of interest I read it can be easily imagined. I was shaken, nervous, horror stricken. That there was some connection between this second tragedy and the one in suit fourteen I did not doubt, and I read and reread the details with the greatest care, in the effort to find where that connection lay.

But it was impossible to see how Tremaine could be implicated in the Edgemere mystery even in the least degree—his alibi was perfect. On the other hand, the evidence against young Drysdale seemed complete in every link. Certainly none of the papers doubted his guilt, and they handled his past career and his family history with a minuteness and freedom which must have been most trying to his friends. Coroner Heffelbower came in for the lion's share of praise—every one agreed that he had conducted the case with rare skill and acumen. Of course the Record had his photograph, as well as those of his wife and six children, and as I looked at his round face I fancied him strutting back and forth in his saloon, inflated with pride and listening approvingly to the constant ringing of the cash register. It's an ill wind—but certainly there was no denying that he had handled the case adroitly.

Drysdale, it appeared, had been lodged in the jail at Babylon and steadfastly refused to make any statement or to explain his absence from the house. No reporters had been admitted to Edgemere, though that fact did not prevent two or three of them from writing minute descriptions of the condition of affairs there and publishing interviews with the members of the family. Marvelous accounts were given of the exquisite beauty and immense value of the missing necklace, and the Record published a drawing of it "from a description by Tiffany."

We pulled into the station, and I took a car down to my rooms, turning this latest enigma over and over in my mind, looking at it from every angle, trying in vain to discover some fact that would implicate Tremaine. At my door I paused a moment. Then I crossed the hall and knocked at Tremaine's door. Perhaps Cecily had forgiven me, and in an evening's talk I ought surely to be able to find out something more.

But it was not Cecily. It was Tremaine himself who opened to me.

"Oh, Mr. Lester," he cried, with hand outstretched, "how are you? I wanted to see you. I've been listening for your step. You must join us here this evening."

"I shall be glad to," I said, returning his clasp, all my suspicions melting away, reduced to absurdity at sight of him. "But why so particularly this evening?"

"Because we've planned a little celebration. Cecily is going away"—

"Going away?"

"Yes—back to St. Pierre to get my house in order. But I'll tell you at dinner. It's to be served here in an hour. You will come?"

"Certainly I will," I assured him and hastened over to my room to dress.

He was awaiting me when I knocked an hour later. A table had been set with three places.

"Come in," he said. "Dinner will be here directly. I thought it safer to have the celebration here because—well"—and he nodded significantly toward the inner room.

"Cecily?" I questioned.

"Yes. She takes it to heart more than you'd believe, but she'll get over it in a day or two."

"When does she leave?"

"In the morning early, by the fruit boat. And, by the way, I want you to go down with me to see her off. She'll appreciate it."

"Why, certainly—but isn't it rather sudden?"

"In a way, yes. You see, I've arranged for a committee from New York to go down to Martinique and look over the ground, and I want to take them before they have a chance to cool off. I've got to get my house there in order and engage some servants, for that will be our headquarters, and if Cecily doesn't leave by the boat tomorrow she can't go for ten days. Ten days from now I'm going to have the committee ready to sail, and when I get them to Martinique I'm going to give them a sample of creole hospitality. I wish you could come," he added warmly. "I'd like to have you."

"There's nothing I'd like better," I said, suddenly conscious of how I had slandered him in my thoughts, "but I fear it isn't possible just now."

"Well, some day I shall have you there, and I warn you I shan't let you go in a hurry. Come in," he added; in response to a knock at the door.

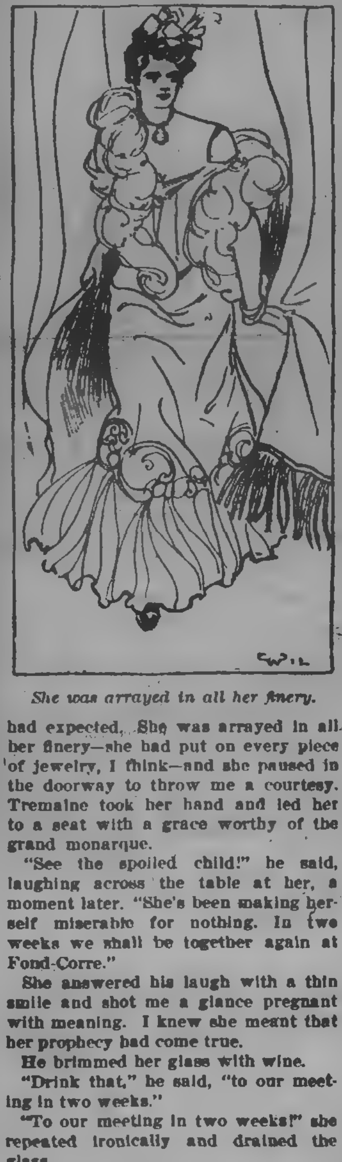
Two waiters entered, and in a moment the dinner was served.

"That will do," said Tremaine, pressing a coin into the hand of each of them. "We'll attend to ourselves. Send up in an hour for the dishes. I thought that was best," he added as he closed the door after them. "We can talk freely now."

He stepped to the inner door.

"Cecily!" he called.

She appeared in a moment, with eyelids a little puffed and red, but on the whole in much better spirits than I had expected. She was arrayed in all her finery—she had put on every piece of jewelry, I think—and she paused in the doorway to throw me a courtesy. Tremaine took her hand and led her to a seat with a grace worthy of the grand monarque.



She was arrayed in all her finery.

"See the spoiled child!" he said, laughing across the table at her, a moment later. "She's been making herself miserable for nothing. In two weeks we shall be together again at Fond-Corre."

She answered his laugh with a thin smile and shot me a glance pregnant with meaning. I knew she meant that her prophecy had come true.

He brimmed her glass with wine.

"Drink that," he said, "to our meeting in two weeks."

"To our meeting in two weeks!" she repeated ironically and drained the glass.

But in a few moments the mood passed and she became quite gay. Not till then did it occur to me that Tremaine had made no reference to the tragedy at Edgemere. Then I caught myself just in time, for I remembered suddenly that I was not supposed to know he had been there.

"So you have been successful?" I asked finally.

"Yes, I believe so. I've succeeded in interesting some capitalists. Richard Delroy—perhaps you know him?"

"No; only by reputation."

"He has helped me greatly."

"You got through, then, sooner than you expected?"

"Yes; I thought it would take a week at least. Mr. Delroy had arranged that the conference should take place at his country house near Babylon. We finished the details yesterday, and," he added after the faintest hesitation, "an extremely unfortunate event occurred there last night which made any further stay impossible—I dare say you saw an account of it in the evening papers?"

"Oh, yes; that murder and robbery. The evidence seems to point very strongly toward a young fellow named Drysdale."

"Very strongly," he agreed, nodding with just the right degree of concern, "although I'm hoping that he may be able to prove himself not guilty. An amiable young fellow—somewhat impulsive and headstrong—but let us not talk about it. It's too unpleasant. This evening we must be gay."

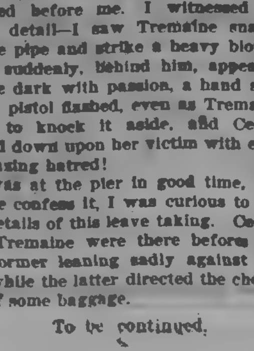
There is no need for me to detail what we did talk about, since it in no way concerns this story, but I had never seen Tremaine to better advantage. He was the unexceptionable gentleman, the man of the world, who had traveled far and tasted many things, a brilliant and witty talker—a personality, in a word, on the whole so fascinating and impressive that long before the evening was over I had dismissed as ridiculous my vague suspicions of an hour before. The story that Godfrey had built up was, I reflected, wholly hypothetical, flimsy with the flimsiness which always attaches to circumstantial evidence. I knew how a jury, looking at Tremaine, would laugh at it. No lawyer would risk his reputation with such a case, no magistrate would allow it to proceed before him. Why, for all I knew, Tremaine could prove an alibi for the tragedy in suit fourteen as complete as that which Delroy had offered for him in the Edgemere mystery. Godfrey and I had been forging a chain of sand, imagining it steel! As for that prison photograph, I had been deceived by a chance resemblance.

"The boat starts from pier 57, North river, at the foot of West Twenty-seventh street, at 8 o'clock," were Tremaine's last words to me. "We shall look for you there."

Is there any virtue in dreams, I wonder? That night, while I slept, the tragedy in suit fourteen was reenacted before me. I witnessed its every detail—I saw Tremaine snatch up the pipe and strike a heavy blow—then, suddenly, behind him, appeared a face dark with passion, a hand shot out, a pistol flashed, even as Tremaine tried to knock it aside, and Cecily looked down upon her victim with eyes of blazing hatred!

I was at the pier in good time, for, let me confess it, I was curious to see the details of this leave taking. Cecily and Tremaine were there before me, the former leaning sadly against the rail while the latter directed the checking of some baggage.

To be continued.



RHEUMATISM

Price 25c.

I will refund your money if it fails.

Munyon's Rheumatism Cure seldom fails to relieve pains in legs, arms, back, stiff or swollen joints in a few hours. Positively cures in a few days. It does not put the disease to sleep, but drives it from the system. —MUNYON.

Horses Have the Runaway Fever

A Team Belonging to Mr. Gibbs, and a Gray Unknown, Did Stunts Yesterday

These are the days of runaways. Local equines seem to be feeling their oats or some other influence is at work that is making them act foolish. There have been about a dozen runaways during the past ten days, in fact the horses appear to think they are as badly out of fashion as a lady with a hoop skirt unless they make an occasional break for liberty.

In order to keep in style a team belonging to R. Gibbs, liveryman, made a dash for freedom yesterday afternoon. They were standing attached to a cab in front of Mr. Gibbs' house on Brock street, when they took fright at a passing farmer's waggon and started to run. They tore across the street and finished up with a sudden stop by running into a shed at the east side of Dr. McCullough's house. They ran head on into the wall at the rear of the shed and broke the pole of the vehicle and left some of the skin of their noses on the boards.

But the runaway fever was in the air and a gray horse that was tied at the corner of George and Brock streets, broke loose at the sight of the other team running away and started to run west along Brock street. A man from the livery stable, who was going after the team, steered the gray animal into the same lane that the team had followed and there runaway No. 2 also ended up.

Two children who were playing on the street had a narrow escape from being run down by the gray horse. They just got out of the way in time to escape being run over.

FRASERVILLE NOTES

Fraserville, May 1.—Mr. Byers has sold his property in this place to Mr. Alcorn, of Baltimore, Ont., and has moved to near Millbrook.

Rev. Mr. Wetherell preached an excellent sermon last Sunday, from the words contained in John 3, 8. Afterwards the Sacrament of the Lord's Supper was dispensed.

We extend sympathy to the relatives of the late Mrs. Latimer. She passed away on Sunday night at a good old age.

Born.—To Mr. and Mrs. Arthur Wood, a son, on May 1st, 1907.

Congratulations to Harry Clark and bride of Springville. There is room for more housekeepers in this section. Who will be the next?

Mr. Thos. Ruth is attending a sick horse at his home. The animal has distemper.

ELLEN TERRY MARRIES.

Famous English Actress Weds For the Third Time.

New York, May 7.—Announcement was made yesterday that Ellen Terry, the English actress, is again a bride. She was married to James Carew, her leading man, in Pittsburg, on March 22. Mr. Carew made the announcement. The ceremony was performed by a justice of the peace.

For reasons that have not been disclosed, announcement of the marriage was deferred until the famous English actress was on the sea bound for her native land. She sailed on Saturday, and Mr. Carew, who was obliged to remain in America to look after urgent business, decided, with her consent, of course, to make the fact known forthwith. In years Mr. Carew is much the junior of his bride. He is 35 years old, while she is 59. She has already been married twice. Nevertheless it is understood by all their friends that it was purly a love match, the beginning of which was soon after their first meeting.

Mr. Carew, who is a native of Indiana, is well known on the stage.

WEST YORK VACANCY.

Conservatives Will Nominate Their Candidate On Saturday.

Toronto, May 7.—The Conservatives of West York hold a convention at Weston on Saturday to nominate a candidate for the vacancy in the Legislature caused by the death of the late Hon. J. W. St. John.

The list of candidates has been practically reduced to three—Dr. Godfrey of Mimico, W. A. Beard, mayor of Toronto Junction, and John Fisher, mayor of North Toronto. Mr. Baird has announced himself as willing to retire in favor of Mayor Fisher, who is the oldest prominent Conservative worker in the riding, providing all other opposition is withdrawn. Otherwise he will stand.

The leading Liberals of the riding state that there will be no contest if Mayor Fisher is the candidate selected.

Cook Likely Candidate.

Ottawa, May 7.—There are six aspirants for the position of high sheriff rendered vacant by the death of Sheriff Sweetland. The most likely candidate is ex-Mayor Fred Cook of Ottawa, though Mr. C. Berkeley Powell, ex-M.P.P., is considered in some quarters a likely man. There will be a contest between the city and the county. Edward Kidd, V.S., and R. H. McElroy, M.P.P., are the best-known county candidates.

Two Hour Shock Recorded.

London, May 7.—Prof. John Milne, seismologist, from the Isle of Wight, and Prof. Belar, an authority on seismic disturbances, at Laibach, Austria, report to The Daily Mail records of an earthquake shock of two hours' duration on Saturday morning. The distance is given as being six and eight thousand miles from the points of record.

THE MARKETS.

Liverpool Wheat Futures Closed Lower—Chicago Higher—Live Stock Markets—The Latest Quotations.

Monday Evening, May 6.

Liverpool wheat futures closed to-day ⅝d lower than Saturday, and corn futures ¼d lower.

At Chicago May wheat closed 1⅛c higher than Saturday; May corn ⅜c higher and May oats ¼c lower.

Winnipeg Options.

Official prices, creamery, common to extra, 21c to 27c; held, common to firsts, 20c to 25c; state dairy, common to fancy, 20c to 26c; renovated, common to extra, 18c to 25½c; western factory, common to firsts, 19c to 22c; western imitation, creamery, extras, 25c; firsts, 22c to 23c.

Cheese, steady; receipts, 652. State, full cream, small colored and white, September fancy, 15c; do., Oct. best, 14c to 14¼c; good to prime, 13c to 13½c; do. winter made, average best, 12½c; do., large Sept. fancy, 15c; do., October best, 14c to 14¼c; do., good to prime, 12⅝c to 13¼c; inferiors, 11½c to 12½c; skims, 1½c to 10⅜c.

Eggs—Firm; receipts, 25,569. State, Pennsylvania and nearby fancy selected white, 21c; do., choice, 20c; brown and mixed, extra, 19½c to 20c; firsts to extra firsts, 18c to 18½c; western, regular packing, firsts, 18c (official price 17½c to 18c); seconds, 17c to 17½c; Kentucky and Tennessee, 15½c to 17½c.

CATTLE MARKETS.

Cables Steady—Hogs Are Lower at Buffalo.

LONDON, May 6.—Liverpool and London cables are firmer at 11½c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9c per lb.

Toronto Junction Live Stock.

TORONTO JUNCTION, May 6.—Receipts of live stock at the Union Stock Yards were 70 car loads, composed of 1544 cattle, 15 sheep and 52 calves.

Exporters.

Prices ranged from $5 to $5.40, the bulk selling around $5.15 to $5.25. Export bulls sold at $4 to $4.30 for best quality, and $3.65 to $3.85 for light.

Butchers.

The best quality of butchers' cattle sold at $4.90 to $5.25; medium, $4.75 to $4.90; light, mixed, and common, $4.40 to $4.65; cows, $3.50 to $4.65 per cwt.

Milch Cows.

A few milch cows sold at a wide range, $35 to $70, but only one brought the latter price.

Sheep and Lambs.

Export ewes are worth from $6 to $6.50; rams, $5 to $5.50; yearling lambs, $7 to $8 per cwt.; spring lambs, $4 to $8 each.

Veal Calves.

Prices unchanged at $3 to $8.50 per cwt.

Hogs.

H. P. Kennedy reports $6.50 per cwt. for selects, and $6.25 for lights.

Gunn Bros., Limited, report $6.50 for selects and $6.25 for lights.

Montreal Live Stock.

MONTREAL, May 6.—(Special.)—At the Montreal Stock Yards' west end market the receipts of live stock for the week ending May 4 were 2380 cattle, 141 sheep, 8746 hogs and 2309 calves, while the offerings for local consumption to-day were 1050 cattle, 25 sheep and lambs, 2128 hogs, and 882 calves. There was no important change in the condition of the market for cattle, prices being well maintained, as supplies were not in excess of requirements and the average quality of the stock was generally good. A feature of the trade was the improved demand from exporters, owing to the fact that cable advices from Liverpool on Saturday were stronger and noted a further advance in prices of ½c per lb., as compared with a week ago. In consequence local shippers showed more disposition to operate and they paid 5¼c to 5½c per lb. for a few good to choice loads. Another feature of the market was the demand from Quebec butchers for bulls and they bought three loads at prices ranging from 4¼c to 4½c per lb. In addition to the above there was a large attendance of local buyers and as they all wanted some beef an active trade was done. Choice stock sold at 5½c to 5⅝c, good at 5c to 5¼c, fair at 4½c to 4⅝c, and lower grades at 3¼c to 4¼c per lb. Altho cable advices on Saturday from some of the leading foreign markets on Canadian bacon were stronger and noted an advance in prices of 1s to 2s per cwt., as compared with a week ago, yet this fact has no influence on the local hog situation, as supplies were fairly large, but there was a good demand from local dealers and packers and an active trade was done, with sales of selected lots at $7 to $7.15 per cwt., weighed off the cars. Receipts of sheep and lambs are increasing some, but not sufficient to affect prices any, as they were well maintained under a good demand for all offerings. Sheep sold at 5½c to 6c, and lambs at 6½c to 7c per lb., while spring lambs brought $4 to $8 each. The demand for calves was brisk and an active trade resulted at prices ranging from $2 to $6 each, as to size and quality.

East Buffalo Cattle Market.

EAST BUFFALO, May 6.—Cattle—Receipts, 4700 head; slow and barely steady; prime steers, $5.65 to $6; shipping, $5.25 to $5.60; butchers', $4.65 to $5.35; heifers, $4 to $5.25; cows, $3.50 to $4.60; bulls, $3.50 to $5; stockers and feeders, $3.75 to $4.65; stock heifers, $3 to $3.75; fresh cows and springers, steady to $2 higher; $20 to $57.

Veals—Receipts, 2000 head; active and steady, $5 to $6.75.

Sheep—Receipts, 20,000; steady; sheep, $4.25 to $6.25; yearlings, $6 to $6.85; lambs, $5.50 to $8.75.

British Squadron Sails.

Norfolk, Va., May 7.—The British cruiser squadron passed out of the Virginia Capes Sunday. The squadron, which consists of the Argyll, Good Hope, Roxburgh, and Hampshire, will visit Bermuda, Halifax and Quebec before returning to England. They signalled departing greetings to their American hosts before weighing anchor.

Broken Axle Causes Wreck.

Peterboro, May 7.—Owing to a broken axle three cars of a mixed train left the track at Lakefield yesterday. Several passengers in the rear coach were badly shaken up.

Mr. Joseph Yelland, contractor of Peterboro, was thrown violently against a seat and had his back severely injured.

Child Labor Bill Passed.

Albany, N. Y., May 7.—Governor Hughes has approved the Page Child Labor Bill, desired by the child labor committees and the Consumers' League and embodying recommendations made in his own first message to the Legislature.

It provides that no minor under 16 years of age shall be employed or permitted to work in any factory in this state before 8 a.m. or after 5 p.m., or more than eight hours in any one day.

The act will not take effect until Jan. 1, 1908.

Where Does Town Belong?

Lloydminster, May 7.—This town is half in Alberta and half in Saskatchewan. There are those who favor an alliance with Alberta, others prefer the sister province. All agree that the town should join either one province or the other. A vote of the citizens will be taken on this question and a deputation will be sent to Ottawa.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

The Supreme Court at Regina dismissed the appeal of the C. P. R. against convictions for setting fire to the prairies.

ACCIDENTS VS. FIRES

It is said that 20,000,000 accidents and illnesses occur each year, but only 80,000 fires.

A business man protects his property against the loss that rarely happens---fire. He can replace his property, but he can never replace his time or his damaged arm.

The most liberal accident and sickness policies are issued by

The General Accident Assurance Company of Canada

Our "Utopia" policy is the best and most unconditional Accident Policy on the market, and completely covers all loss of time from accident.

We issue a Sickness policy which covers every disease to which flesh is heir.

We are revolutionising the liability business by our "factory policy."

What Has Become Of Local Branch

Has the Fish and Game Protective Association Gone Out of Business?

What has happened the Peterborough branch of the Ontario Fish and Game Protective Association?

This is the question which many citizens are asking, especially the members of the C. G. E. Angling Club, and other persons interested in the preservation of the fish. The local branch started out with a flourish, about a year ago, but apparently it pulled up suddenly for nothing has been heard about it for some time. The C.G.E. Angling Club discussed the matter at their meeting last night and regret was expressed that the local branch of the Fish and Game Association, was not doing more to carry out the object for which it was organized. The Angling Club being a private organization is not in a position to prosecute offenders, but they are willing to furnish all the help they can to bring those who break the law to justice and to protect the fish in every way possible.

REAL ESTATE IS BOOMING

C. Blewett Made a Turn Over of $18,000 in Ten Days

Mr Jas. Bushnell, who is associated with Mr. C. Blewett, real estate agent, yesterday sold his farm of 300 acres in Emily Township to Mr. Wetherup of Lindsay, for about $10,000 During the past ten days, Mr. Blewett has turned over five houses two lots and a 300 acre farm, totalling $18,000.

Dr. G. Tweedie, resident superintendent of the isolation hospital, Toronto, has resigned.

REMOVAL

On or before May 15th our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

JOHN NUGENT

Rink Company Elects Officers

The directors of the Peterborough Hockey Rink Co. held a meeting last night and elected the following officers for the year,—

President—A. H. Stratton.
Vice-President—W. H. Hill.
Managing Director—T. H. G. Denne.
Secretary-Treasurer—M. J. Hutchinson.

OBITUARY

MRS J. LATIMER.

Mrs Joseph Latimer, of South Monaghan, passed away on Sunday last, at the residence of her son, James Latimer, aged 76 years. She had been a sufferer from dropsy for some time past. Her husband predeceased her about 34 years ago. The relatives who are left to mourn her loss are her two sons, James and Richard Latimer, and her daughter, Mrs John Jones, of Fenelon Falls.

The late Mrs. Latimer was a sister of Mrs. Wm. McBain, King-st., and Mrs. George Moncrief, living with her son-in-law, Mr. Robt Morrison, John street. Mr. William Clarke, Aylmer street, is a brother.

The remains were interred in Fraserville cemetery.

MRS. WM. KERR.

An old and very highly esteemed resident of East City passed away last night after a long illness, suffering from pneumonia, in the person of Mrs. Wm. Kerr. The deceased was 84 years of age. She was born at Newcastle, England. Her maiden name was Ann Hayden. In company with her parents she came to Canada in 1835 and settled in Cobourg. In 1847 she was married to her late husband, Wm. Kerr. resided in Coldsprings until about 18 years ago, when they removed to this city. Her husband predeceased her five years ago. The late Mrs. Kerr was a faithful member of the Presbyterian church and attended St. Andrew's.

Four sons and two daughters are left to mourn her loss. The sons are Messrs. John Kerr, East City; Jas. and Wm., Cobourg, and Edward, of Toronto. The daughters are Mrs R. Carter, Otonabee, and Miss Annie, at home. One sister, Mrs. Wm. Hamilton, Bethune street, city, survives her.

The funeral will take place on Thursday afternoon at three o'clock, from the residence of her son, 434 Mark street, to the Little Lake cemetery for interment.

Fire Drill Has Been Postponed

Next Tuesday Night Engine and Fire Alarm Will be Tested

The new fire engine will not be tested tonight as was expected, as the new fire hall will not be ready for occupancy for another week The affair was postponed for one week. Next Tuesday night, the whole brigade will turn out and the engine will be tried at the corner of Aylmer and Brock streets. After the test the brigade will take up their quarters in the new fire hall, where the engine will be stored. On that night, also, it is expected that the fire alarm system will be completed and an alarm will be sent in from every box. An invitation is extended to every citizen to be present to witness the drill and to see the fire engine work.

M. B. Stirling was arrested yesterday at Winnipeg, charged with being implicated in a series of recent very daring burglaries. He is related to several well known families in Toronto.

Knee length, with lace trimmings. Special values at **25** **35c**

Children's Summer Underwear
Vests and Drawers ; Black and White ; all sizes. Special values at from **10c** to **25c**.

Harry Adams

Retail Merchants Won the Day ; Sign By-law Has Been Amended

Signs May Extend Over Street for Eighteen Inches—Fruit and Other Merchandise May be Exhibited in Front of the Stores for a Distance of 12 Inches.

The sign bylaw is settled. The merchants won the day in every respect. They can put up signs overhanging the street to the extent of 18 inches over the sidewalks. They can display fruits, meats, dry goods or any other merchandise on the streets to a distance of 12 inches over the sidewalk. They also won the box bylaw a couple of weeks ago.

The long drawn-out and hard fought question has at last been wound up, with the result that the merchants have more rights today than they have had for 25 years, so far as the law is concerned. The sign bylaw was passed in 1879, although not strictly enforced, and when Mayor McWilliams undertook to enforce it this year, he stirred up a hornet's nest. The merchants were up in arms at once, and the sign by-law has been sung at the aldermen day and night for the past two or three months.

There was a large deputation of merchants and others interested in the sign bylaw present, and on motion of Ald. Elliott and Morrow, they were given an opportunity to address the aldermen.

Mr. R. Fair said that all the merchants wanted was to amend their request of the other evening, and would ask that signs be allowed to extend over the streets for a distance of 24 inches.

Mr. Mancuso said the fruit dealers and florists would ask that they be allowed to put their fruit on the streets in front of their windows, either on a shelf or on tables, as the council demanded, for the display of their goods.

Mr O'Brien said it would be impossible to handle fruit in the city if they could not display it. If fruit is kept inside it will rot in a short time

Mr Routley, president of the Retail Merchants' Association, said that he was heartily in accord with all that had been said. The merchants were the best class of people in the city They pay more taxes and endeavor to live up to the law. He could not see why the council should keep picking at them as they have try to treat the people and the City Council in the best manner.

DISPLAY OF GOODS.

Moved by Ald. Morgan, seconded by Ald. Tovey, that merchants be allowed to expose their goods 12 inches over the sidewalks if kept 24 inches above the pavement.

Ald. Johnston thought that if the bylaws are to be amended that the provision be that all goods be table height (30 inches) above the pavement. He would also like to give them 16 inches.

Ald Morrow said that if the bylaw had been in force for 25 years, that it be left alone and not enforced any more than it has been.

Moved by Ald. Elliott in amendment, that permission be given for 24 inches above the walks. Ald. McIntyre seconded it.

Ald Elliott withdrew his motion and Ald Morgan's motion was put, and it carried.

OVERHANGING SIGNS.

Ald Elliott said that he wished to move that overhanging signs be permitted to the extent of 24 inches to extend over the sidewalks, and that all new signs be put up under the supervision of the city engineer.

Moved by Ald Morrow and Ald. Bradburn, that any existing signs be not interfered with, but any new sign put up must not extend over 18 inches over the sidewalk, and must not be more than 24 inches high.

Ald. Elliott then withdrew his motion, and Ald Morrow's motion carried

Ald. Stevenson and Mayor McWilliams spoke very strongly against any change in the bylaw. They considered the merchants were no more entitled to occupy the walk than any one else. They also pointed out that the main streets would soon look like York street in Toronto Their arguments, however, made no difference in the vote.

Ald. Leary Resigns as Member of Fire, Water and Light Committee

Council Sends Protest to Railway Commission Protesting Against Charges of Bell Telephone Co. for Long Distance Service—Regular Council Meeting

A short session of the City Council was held last night beginning at ten minutes to eleven and adjourning at half-past eleven. The Committee of the Whole took up so much time that it was decided to only take up the communications, receive the report of the Committee of the Whole, and pass the poll tax bylaw, although one or two other matters were also dealt with. The rest of the business will stand over until next Monday night.

A communication was received from Mr. J. J. Turner asking that the Government be asked to concrete the top of the Wolfe street wharf, and that the Council provide a sidewalk from the wharf to George street. He also drew attention to the necessity for a new bridge at Smith street. The present bridge will only last for a short time and he suggested that a new bridge be ordered and delivered on the ground, so that when the bridge is of no use the new bridge can be placed in position with as little delay as possible.—Referred to the Board of Works

Several other communications were received and referred to the different committees.

ALD. LEARY RESIGNS.

Ald R. H. Leary sent in his resignation from the Fire, Water and Light Committee.

Ald Elliott and Ald. Wilson moved that Ald. Leary be asked to reconsider his resignation. The motion carried unanimously.

Ald Leary said he was practically forced to put in his resignation, and any further consideration would make no difference.

Ald Wilson suggested that Ald. Leary endeavor to get someone else to exchange with him.

The letter was in the meantime received

TELEPHONE RATES.

The Mayor brought up the matter of the Railway Commission sitting in Montreal to consider the rate for the telephone company. He had received a telegram from Mr. Lighthall, secretary of the Union Dominion Municipalities. If there are any objections here they had better get them prepared now, and the Council pass a motion embodying them.

Ald Leary said the only objection he had was that of the long distance rates. He thought if the Company received in the day time what they get at night they would be well paid.

Moved by Ald. Morgan, seconded by Ald. Leary, that this Council advise the Board of Railway Commissioners that it should not approve of the telephone rates of the Bell Telephone Company in force in the city of Peterborough, because the Company, while professing to give telephones at $25 a year, charges $5 a year extra for putting in a modern telephone, on the plea that it is a long distance equipment, and because the rates charged by the company for long distance service are expensive, and that a copy of the resolution be sent to Mr Lighthall.

Corporation Teamsters Will Not Work at the Wages Offered

Went on Strike and the City's Work is Tied Up—Council Refused to Pay $3.75 a Day Unless the Teams Drew a Yard and Three Quarters of Gravel, Equal to Three Tons or More.

There were no teamsters at the city's gravel pit or on the corporation work this morning. The whole outfit went on strike for higher wages. This was the outcome of the Council meeting last night, when the teamsters asked for $3.75 a day, and to only draw a yard and a half of gravel.

Ald. Duncan, in the Committee of the Whole, brought up the question of wages for the teamsters on corporation work. He stated that they had refused the city's offer of $3.75 and draw a yard and three-quarters of gravel per load, instead of $3.50 and draw a yard and a half. At the same time the Chairman of the Board of Works advocated that the old price and conditions remain, viz., $3.50 per day and draw a yard and a half. He said the teamsters would be satisfied.

Ald. Leary strongly opposed the stand of the Chairman of the Board of Works. Ald. Leary has several teams working around the city. He knows what horses, harness, waggons and feed cost, and he said that at $3.50, the teamsters got a bare living. Then to draw a yard and three quarters of gravel would ruin a good strong waggon within two years. $3.75 was little enough to pay and the loads only be a yard and a half.

Ald McIntyre supported Ald. Leary. He said he knew what had to be paid by contractors and what he had paid himself, and $3.75 per day was just enough.

Ald. Duncan argued that if the city paid $3.75 per day, then everyone in the city would have to pay that much or more, and he did not think the council should set wages for to govern the whole city.

Moved by Ald. Duncan, seconded by Ald. Wilson that the wages of teamsters for this season be $3.50, if the teamsters draw a yard and a half of gravel.

In amendment Ald. McIntyre moved that the teamsters be paid $3.75 a day, and that the load be a yard and a half of gravel. Ald. Morgan seconded it.

Ald. Elliott suggested that a sliding scale be adopted, and that when drawing gravel they be paid $3.75 and that it be $3.50, when doing other teaming.

The amendment was lost, and the motion was carried, making the wages $3.50 per day.

When the report was read to the Council, the teamsters, who were present, in large numbers, began to get busy among themselves. It could be plainly seen that trouble was brewing. In fact that was known early in the evening. Those men did not go to the Council Chamber and wait from eight o'clock until nearly eleven o'clock for nothing.

When that clause of the report was read, Ald. Leary said that he had been requested by Mr. McWilliams, one of the teamsters, to state that they would not accept $3.50. The alderman said that he was certainly heartily in sympathy with them. $3.75 per day, was not a cent more than the teamsters earned. Twenty-five cents was not very much to the city and it was a great deal to them. The very men who would not turn their hand, except for big money are the men who sit on the teamsters and keep their wages down.

This did not affect the Council. Ald. Morgan stood with Ald. Leary, and would not second the adoption of the report.

The report was adopted on a vote of 7 to 5, and the teamsters retired with the statement that there would not be a man in the pit in the morning. They said that a yard and three quarters of gravel weighs three tons and if a farmer took three tons of hay off the market in one load he would be arrested.

Another man said: "The only trouble we have over wages is on corporation work. To get a living wage from the city is as hard as picking herring's teeth out of a cat's mouth.

Several men in a chorus — "There will be no teamsters in the pit in the morning.' All the others put up their hands agreeing with the statement.

The city is certainly in a hole. There is a great deal of teaming to be done. It must be done and delay cannot be permitted. The teamsters have all kinds of work ahead of them and will have all summer from the looks of things. Therefore, the city will simply have to pay the wages.

Mr. Haggart has been instructed to sell by Public Auction on May 22nd, at 3 p.m., 20 fine lots, 50 x 114 feet, on Dickson and Rogers Streets, East City. They are well situated and close to the centre of the city. This will give people of moderate means a good opportunity to get home lots at low prices.

Disappearance of a Mute Pupil

On Saturday one of the boy students the Deaf and Dumb Institute, Belleville, did an act that was liable to cause him to be punished. This morning when the official went after the lad he was nowhere to be found, and up to the present time his whereabouts are unknown. Today certain officials were about the city looking for the boy and the police were also notified of the absence. The boy in question is about 10 years of age, and no doubt realizing that he would be punished, made himself scarce. He will no doubt, turn up all right.

The boy's name is Earl Archie Smith. He is dressed in a dark suit, and anyone seeing him will do a kindly act by telephoning the Institution.—Belleville Intelligencer.

BRINTON CARPET CO'S. MACHINES

Several New Looms Coming From the Old Country to Make Axminster Carpet

The Brinton Carpet Co. are having a large number of new machines for the manufacture of Axminster Carpets, shipped from England to the Peterborough factory. The company is doing a larger business than was ever hoped for. They have enough orders in now to keep them running until the end of the year under present conditions. The new looms, however, will relieve the situation somewhat. This factory is the only one in Canada making the Axminister carpets. Two experts from the Old Country arrived this morning to erect the new machines, which are now on their way.

AMUSEMENTS

AS TOLD IN THE HILLS

Miss Katherine M. Challoner, who is starring in the new melo-drama "As Told in the Hills" is one of the best rifle shots in the country, having refused several offers from prominent rifle manufacturers to tour the country, attending tournaments where she would come in competition with the best experts, advertising their line of rifles. In one act of the play she has to free her father, who has been captured and bound, by shooting the rope which secures his wrists. This requires a steady nerve and a quick eye for both the girl and the captive, but the incident has never been marked with an accident. The play is one of the few high class productions of the season that will be seen here, with the original metropolitan cast, at the Grand Opera House, matinee and night, Saturday, May 11th.

MUNICIPAL OWNERSHIP

In Guelph Pays Well—Electric Light Plant Leaves Balance of $15,148.

Guelph, May 6.—At tonight's meeting of the City Council a bylaw was introduced for a system of garbage collection, and a report was presented by the Board of Light and Heat Commissioners, showing the net gain on operating account for the three months past to have been $9,659.82, a gain for the same period over 1906 of $2,135.33. For the nine months the net gain was $25,008.10 and after deducting a fixed liability for interest and sinking fund on debentures, a balance to the good is left of $15,143. The gain for the nine months over 1906 is $4,976.85. A big extension to provide light and heat to St. Patrick's Ward is now contemplated.

KNOX CHURCH

Board of Managers Held Regular Meeting Last Night.

The Board of Managers of Knox Church held a regular meeting last night. Mr. G. H. Savigny was in the chair. A number of accounts were passed and certain improvements to the church were discussed, but nothing definite decided.

The young men of the church will hold a meeting next week to organize for numerous sports.

GIVEN LEAVE TO APPEAL CASE

Peterborough Cold Storage Case to Come up Again in Two Weeks.

The Osgoode Hall notes published in today's Toronto papers contains the following,—

Re Peterborough Cold Storage Co. D. O'Connell, Peterborough, for four former directors of the company, moved for leave to appeal to the Court of Appeal from the order on appeal by the Chancellor of April 27, 1907. R. E. Wood, Peterborough, for the liquidator, contra. Leave given to appeal and time for putting in security extended for two weeks. The bond for security to be $5,000, and the bond for costs $400.

Three Skulls Were Dug Up To-day

This morning shortly after eleven o'clock, Mr. William Bullied, who is engaged on the work of excavation at the new armories at Central Park unearthed three skulls and several other bones. One skull is perfectly whole, but the other two were broken. They were lying all together, about four feet from the surface of the earth. These are the first discoveries that have been made since the work of excavation commenced for the armories.

It is likely that several more will be found as the work proceeds. Years ago the Roman Catholic cemetery was where the armories are to be situated. The bones will all be carefully gathered up and interred in St. Peter's cemetery.

New Auto Car Has Arrived

Dr. Frederick, today received his Model 'N' Ford Car, which was sold to him some time ago by Mr. F. R. J. MacPherson. The car is a four cylinder one, and equipped with a gasoline motor of 18 horse power. The new runabout presents a handsome appearance and will travel, if necessary, forty miles an hour, but the doctor does not intend to go quite that fast. Dr. Frederick's car was made by the Ford Motor Co., of Walkerville, Ont.

Having followed the history of Astrology from its beginning in Chaldea, to the subjugation of that country by the Assyrian's Emperor, Tiglath Adar, in the year 1301 B.C., we will now leave it, hoping in a future article to follow it down to Egypt, back to Phocicia, and then to Greece and Western Europe, through the middle ages, down to the time when it received its death blow from the band of the eccentric Dean Swift.

BRAINS ARE VALUABLE WHEN USED

Men who used their brains last November and accepted my offers of Blocks of 8 lots each on terms of $10 cash and $5.00 per month, have paid $40 and their blocks are worth now $200 more than they bought at. I have reserved 9 blocks for factory sites, sold 15 and have 11 still for sale. Building operations are going on as rapidly as possible, and the wise buyers are preparing to plant their garden, and will be living in their own houses before July. Prices will advance June 1st. Buy now or wait for the advance. I assist you to build.

The Daily Review
TUESDAY, MAY 7, 1907.

W. J. Koster Has Ancient Document

Proceedings of the County Council Fifty Six Years Ago

Mr. W. J. Koster, 348 Stewart-st. has in his possession a copy of the bylaw and proceedings of the municipal council of the county of Peterborough of the January session, in 1851.

The minutes were printed in the office of the Peterborough Despatch and Thomas Short, Esq., was warden of the county. The reeves and deputy reeves comprising the county council fifty-six years ago were,

Asphodel and Belmont, R. Birdsall.
Dummer, F. Crow.
Douro, S. Strickland.
Emily, W. Cottingham.
Eldon, I. Ferguson.
Mariposa, A. Campbell and W. Ramsay.
Monaghan, T. Fortye.
Otonabee, T. Short and W. Armstrong.
Ops, W. McDonnell.
Smith, Ennismore and Harvey, J. Milburn
Verulam and Fenelon, J. W. Dunsford.
Town of Peterborough, R. Thomson

The county clerk in 1851 was W. Sheridan, the county treasurer, F. Ferguson; J. Reid was the county engineer and the county auditors were J. Foley and R. Reid. The minutes are well printed and are still in a good state of preservation. The county of Peterborough in those days composed several townships that now form part of Victoria County.

WILL BE CHARGED

Mr. H. McIlmoyle, the market clerk, stated today, that after to-morrow he was going to charge the Massey-Harris Co. for having their buggies and plows on the Market Square. A number of boys pull them all around and they are a regular nuisance.

THE CITY AND VICINITY

EVENTS TO-NIGHT

School Board in regular meeting.

57th Regiment—First march-out of the season.

Charlotte street church—Quarterly Official Board meeting.

George street church—Meeting of class leaders.

Y.M.C.A. Hall—Annual meeting of Nicholls Oval Tennis Club.

St. Andrew's Hall—Meeting to organize Women's Home Missionary Society.

Murray street Baptist church—Annual social gathering of Willing Workers.

Finance Committee at five o'clock.

Fire, Water and Light Committee at eight o'clock.

TENNIS CLUB.

The annual meeting of the Nicholls Oval Tennis Club will be held ~~in the Y.M.C.A.~~ this evening at 8 o'clock sharp. The election of officers will take place and other important business will be dealt with.

POLICE COMMISSIONERS.

The police commissioners will meet at four o'clock this afternoon when the matter of Constable Newhall and Brakeman Davidson of the C.P.R. will be taken up.

TAKE IT TO "MY VALET."

If you have a spring suit you would like to have cleaned, ready to put on when the weather permits "My Valet" will clean it properly, press it and send it home. Both phones. Wesley Bros., 204 Charlotte-st. dtf

NEW OFFICER.

Mr. Wm. H. Hunter, of Toronto, has been appointed to the office of Supreme Counsellor of the Independent Order of Foresters, rendered vacant by the promotion of E. G. Stevenson to be Supreme Chief Ranger.

THE KING'S PLATE.

Those who are desirous of seeing this great moving picture along with the Spanish bull fight, should call at Scott's Colosseum, 432 George street. Matinees, 2 to 5. Evening 7 to 10. New programme on Thursday.

FINANCE COMMITTEE.

The finance committee met at five o'clock to arrange for the issue of debentures.

WATER COMMISSIONERS.

The water commissioners held their regular meeting yesterday afternoon.

FOUND.

A pair of gold rim eye glasses is awaiting an owner at the police station.

GERMAN CLASS.

The German Conversation Class will meet on Saturday evening at St. Luke's rectory, at eight oclock

FIRE, WATER & LIGHT.

The fire, water and light committee will meet this evening for a short time to consider the purchase of new apparatus for the hall.

MARKS BROS.

Thomas Marks' Company will appear in Peterborough next week filling a week's engagement at the Grand Opera House.

BOARD OF WORKS.

The regular weekly session of the Board of Works will be held tomorrow night. The teamsters' strike will likely furnish some warm stuff for debate.

EIGHTY HOGS SOLD.

About eighty hogs were weighed at the market scales today. They were sold [illegible] Matthews Co. by Messrs. Thornton, and Howden.

MURRAY STREET YOUNG PEOPLE

The Young People's Union of Murray street Baptist church met last night. Mr. Hooker, the president, presided, and there was a good attendance. Mr. Lang read an able and admirably prepared paper on "Contentment."

NEW MEMBERS.

The local Barbers' Union met last night when four new members were initiated. The union is now in better shape than ever before and the membership is growing steadily. There are now very few non-union barbers in the city.

HOME MISSIONS

All ladies of St. Andrew's church interested in the home missionary work will meet tonight in the Sunday school hall at eight o'clock. Mrs. Robt. Hall, who attended the annual meeting of the Women's Home Missionary Society in Toronto, has an important message. All are invited.

FOREIGN WORK.

Every active member of the Y.M.C.A., and all other men interested, are urged to be present at the meeting on Thursday evening, May 9th at eight o'clock in the Y.M.C.A. when Rev. H. J. Keith will speak on "The Y.M.C.A. Work in Calcutta." Mr. Keith spent the last two years in India as Y.M.C.A. Bible Study Secretary, and he has a most interesting story to tell.

PERFORMING BEAR.

A large crowd of people gathered on the market square this morning to see a cinnamon Russian bear. Two Russians had charge of the animal and they went around gathering up the nickels. The bear furnished amusement for the crowd by its clever trick of dancing to music provided by one of its owners who sang. Bruin would also sit on a kitchen chair and created considerable fun by wrestling with its companions.

PETERBOROUGH TURF CLUB

The Peterborough Turf Club met last night and completed the arrangements for the race meet here on May 24th. The programme, as previously announced, will provide three horse races and a five mile road race. Good prizes are being offered and everything looks bright for a successful meet. The local horsemen are working out their speedy steeds and they are going to give the people their money's worth.

COOKED MEATS
SAVE KITCHEN BOTHER

—they're wholesome and economical. During house-cleaning time Cooked Meats fill the bill without a cross word. Try Kennedy's Roast Beef, Cooked Hams, Potted Veal, Jellied Hock, etc., nicely sliced and ready for the table.

Kennedy's Beef, of course, recommends itself; we cut only the best home-dressed cattle.

Let us supply your table with KENNEDY'S PURE BLENDS OF CEYLON TEAS AND COFFEES.

PERSONAL

Mr. J. D. Keenleyside, of London is in the city.

Mr. J. D. Craig and wife of Ottawa are registered at the oriental.

Mr. Hugh Darke, of Peterborough is visiting Mr. and Mrs. Darke, Margaret street, Port Hope.

Mr. William Johnson, of Belleville district inspector of weights and measures, is in the city.

Mr. A. B. Snellman, proprietor of the Clarendon House, Hastings, was in the city yesterday.

Messrs. H. C. Shaver and J. E. Robson, of Winnipeg, Man., are registered at the Snowden House.

Mr. Adam Dawson, who has been seriously ill, is improving, and will be around in a few days.

Miss Alice Bibby, of St. Thomas, is visiting with her aunt, Mrs. Joseph Maher, 380 Stewart Street.

Mr. and Mrs. D. Hughes Charles have removed to the residence on Water street, formerly occupied by Mr. R. M. Dennistoun.

Mr. F. H. R. Pitcher left this morning for Montreal, where he will take the Allan Line Steamer Sardinian to London, Eng.

Miss Clara Pretty of Picton, has taken a position as operator, with the G. N. W. Telegraph Company, in Peterborough.

Mr. G. P. Preen, manager of the Brinton Carpet Co. of Canada, left today to spend a few days with friends in New York.

Mr. Thos. Carlow left via the C. P. R. this morning for Boston, where he will take the West Star Line steamer to Queenston, Ireland.

Mr. H. B. Maynard, of Port Hope a graduate of the School of Practical Science, Toronto, passed through the city last night on his way to Banff, B.C., where he will spend the summer.

Mrs. Giles Stone has been ill with la grippe since Thursday. During the last few days she has been troubled with her heart. Miss Madeleine Stone has been suffering with la grippe, which has developed into a slight attack of pneumonia.

Mr. and Mrs. Geo. E. Whiten, Kenora, announce the engagement of their daughter, Alice M., to Mr. Herson E. Armstrong, manager of the Traders' Bank, Kenora. The marriage will take place early in June.—Kenora Miner and News.

Mr. C. F. MacGill of Pittsfield, Mass., is in the city renewing old acquaintances. Mr. MacGill was formerly superintendent of the C. G. E. Company in this city. He was kept busy shaking hands today. His many friends are pleased to see him looking so well.

Mrs. Geo. E. Whiten entertained a number of friends Friday afternoon at a "thimble" tea. The invited guests were Mrs. Fife and Miss Fife, Mrs. G. Corneille and Mrs. F. Corneille, Brandon; Mrs. Farrel, Mrs. A. Fife, Mrs. Wilson, Mrs. Reddick, Mrs. Robt. Gunne and Mrs. A. Adams.—Kenora Miner and News.

Mrs. Walter Rogers, of St. Paul's church and Mrs. (Rev.) J. G. Potter of St. Andrew's, left this morning for Brantford to attend the annual convention of the Women's Foreign Missionary Society of the Presbyterian church of Canada, which is being held there today, Wednesday and Thursday. The convention was held in Peterborough two years ago and last year it met in Winnipeg.

Dr. D. M. Somerville and Mrs. Somerville, formerly Miss Agar, of this city, were in Peterborough yesterday, the guests of Mr. and Mrs. J. D. Tully. Mrs. Somerville was for some years organist of Murray-st. Baptist church, and has many friends in the city. Dr. Somerville was in Dr. Morrison's dental offices during his residence in Peterborough. They left this morning for their home in Chicago, where Dr. Somerville is now practicing his profession.

Mrs. Laurance Hill Grahame has arrived in town from San Juan, Porto Rico, and is at present en pension in College street, near her daughter's, who are pupils at the Bishop Strachan School. On Thursday Mrs. Grahame will go to Popular Plains road, where she will be the guest of Mrs. George G. Bennett for a fortnight. Mr. Grahame will come north later on and will join his family at their island in Stony Lake in July for a couple of months.—Toronto News.

THE DISTRICT COMMITTEE

Of Methodist Church Will Meet Here on May 22nd

The annual review meeting of the district committee of the Methodist church will be held in Mark Street Church on Wednesday, May 22nd. Rev. Dr. Crothers is Chairman of the committee and at the meeting, the work done on the different circuits during the year is reviewed. The committee always meets a short time before the meeting of the Conference. Among the business to come up is the election of a new chairman, as the present occupant of that position, Rev. Dr. Crothers, is transferred to another Conference.

WOMENS' NEGLECT

SUFFERING THE SURE PENALTY

Health Thus Lost is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

Miss Clara Beaubien

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness or other female weakness.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Clara Beaubien, of Beauport, Quebec, writes:

Dear Mrs. Pinkham:

"For several years I have suffered with a female weakness which proved a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I tried many medicines, but did not get permanent relief until I took Lydia E. Pinkham's Vegetable Compound. In two months I was much better and stronger, and in four months I was well; no more disagreeable discharge, no more pain. So I have every reason to praise the Vegetable Compound, and I consider it without equal for the ills of women."

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address, Lynn, Mass.

Epworth League of George St.

Officers Were Elected Last Evening for Coming Year

At the regular meeting of the Epworth League of George street church held last evening, there was a good attendance. Rev. Dr. Crothers presided.

Great interest was centred in the election of officers, which resulted as follows. Mr. Garnet Galley is the retiring president;

- Pres., Mr. B. Cain.
- 1st Vice Pres., Miss N. Shearer.
- 2nd Vice Pres., Miss P. Hardill.
- 3rd Vice Pres., Miss E. Chasty.
- 4th Vice Pres., Mr. A. Gray.
- Rec Sec., Miss T. Chasty.
- Cor Sec., Mr. S. Ivey.
- Treas., Mr. S. Young.
- Pianiste, Miss E. Chasty.

The new officers will assume their positions at the first meeting in June

Charlotte Street Epworth League

Semi-annual Election of Officers Took Place Last Night

The semi-annual meeting of the Charlotte street Epworth League was held last evening and was largely attended. Rev. H. M. Manning occupied the chair and opened the meeting. The missionary returns for the year were made last evening. The league contributed $102 to the missionary cause.

The election of officers resulted as follows.

- Pres., Mr. G. F. Horsely.
- 1st Vice Pres., Mr. Armstrong.
- 2nd Vice Pres., Miss B. Sanderson.
- 3rd Vice Pres., Miss F. Manning.
- 4th Vice Pres., Miss S. Lee.
- Secretary, Mr. J. Sanderson.
- Cor Sec., Miss Alma Frowde.
- Treas., Mr. Anderson.
- Pianiste, Mrs. A. L. Tremeer.

Wm. Hamilton Co. Creditors to Meet

To Consider Offer of $192,000 From R. R. Hall for Plant, Business, Etc.

A meeting of the creditors of the Wm. Hamilton Manufacturing Company, will be held in the offices of the Toronto Trusts & Loan Company, Toronto, on Friday next, May 10th. An offer for the plant, business, and all the contracts, etc., belonging to the company, of $192,000, has been made by Mr. R. R. Hall, M.P. and it is for the purpose of considering this offer that the meeting is called.

SAYS CLAY AND WATER IS THE ELIXIR OF LIFE

Texan Claims Secret That Will Lenghen His Days to 300 Years.

Claremont, Texas, May 7.—At the age of ninety-two H. H. Bourne of this place, believes he has discovered the secret elixir of life. He is confident, he says, that with proper application of his system there is no good excuse for a person dying under 500 years of age. Mr. Bourne says that he will live to be 300 years old.

He has just returned from a business trip to Mexico, where he made a muleback ride of 200 miles through the mountains. Every muscle in his body is supple and strong. His mind is as clear as a man of twenty. He is one of the most wonderful men living to-day. There are many people here who can testify to his powers of endurance and exhibitons of strength. He is a champion bronco buster of this section, despite his ninety-two years. There is not an outlaw horse in Kerr county, that he cannot ride.

For many years a student in mineralogy, Mr. Bourne has been applying his knowledge to experiment with the human system.

Congregation of St. Andrew's

Annual Re-union Held Last Evening—Enjoyable Programme

The congregational reunion in connection with the 72nd anniversary of St. Andrew's church, was held last evening and proved to be a very enjoyable affair. A large congregation was present and an interesting programme of music and speeches was given. The pastor, Rev. Mr. Potter, presided, and the meeting was opened with the singing of a hymn and prayer. An anthem by the choir with solo by Mr. F. C. Freeland, was then sung most effectively.

Rev. Mr. Potter in his opening remarks said he had tried to secure Rev. A. A. McDonald, of Toronto, to speak to them on his work among young men, but he was unable to come. However, they had Rev. Dr. Marsh, who would give an address. Mr. Potter in speaking of the 72nd anniversary said there were few present who could look back to the first start of the church. St. Andrew's church had grown steadily. The total number of communicants was now 525. "As we go forth into another year," said the speaker "we ought to be instilled with thoughts of the good which those godly men who have gone before, and they ought to help us to do great things for the church. They labored under difficulties and surely the congregation now cannot help but to continue the good work which they have started.

Miss May Edwards' sweet soprano voice was next heard to good advantage in a well rendered solo.

Rev. Mr. Potter next introduced Rev. Dr. Marsh, of Springville, with a few appropriate remarks.

Rev. Dr. Marsh on rising to speak was heartily greeted. His address was listened to with the closest attention and it was made more interesting by the doctor's clever relating of many amusing stories which kept his audience in laughter all the time. In commencing his address he referred to the great pleasure it gave him to be present. He said that he meant it when he said it gave him pleasure for he had come under rather distressing circumstances. He felt honored to have the privilege of addressing a congregation like St. Andrew's which was celebrating its 72nd anniversary. It was a glorious privilege to take up a burden which someone else had laid down, and that was the privilege of the congregation here assembled. The reverend doctor then referred to work. "We are all better for doing some work," said the speaker. There was no work so high and noble as church work. No one can carry out the object for which he was created unless they are workers "Work with a determination," said Dr. Marsh. "If the little congregation that gathered in this church seventy-two years ago had been told of the present beautiful edifice they would have thought it impossible that their little church would ever have grown to its present size, but through work it has. The church is on the threshhold of a period of great progress. The reverend gentleman urged those present to work together, to help their pastor and work with him. He concluded his remarks by wishing St. Andrew's many more years of success.

Mr. H. Morphet was then heard in a well rendered vocal solo. Mrs. W. R. F. Davidson also contributed a vocal solo in excellent voice.

Rev. Mr. Keith, pastor of Knox church, then added a few words of congratulation to St. Andrew's congregation. He was pleased and felt honored to be present. He wished them continued success and hoped he would be able to invite a representative of St. Andrew's down to Knox church at their anniversary some time in the distant future.

Mr. F. C. Freeland and Miss Clara Belleghem both contributed well rendered solos.

Mr. Potter then thanked Dr. Marsh, Rev. Mr. Keith and all those who contributed to the musical program for their kindness in doing so.

The meeting closed with the singing of the doxology and the benediction.

WEDDING BELLS

IRWIN—NICHOLS

A quiet wedding took place on Saturday last at the home of Mr. Thomas Nichols, in Harvey township, when his daughter, Miss Alvina Estelle, was married to Mr. William James Irwin. Rev. H. D. Raymond, of All Saints' church, Toronto, officiated. The bride was assisted by her sister, Miss Mary Nichols, and Miss Dora Irwin, while Mr. John C. Purser attended the groom. After the ceremony the guests present partook of a choice wedding breakfast. The happy couple drove to Peterborough, where they took the train for Toronto, Buffalo and other points on a wedding trip.

An Architect to Prepare Plans For Remodelling the City Hall

Will go Over the Whole Building—Ventilation at Present is Very Poor—Offices and Committee Rooms are Cramped—Building Permit By-law to be Enforced.

It was half past eight o'clock before the mayor called the committee of the whole council to order last night and it was a quarter to eleven o'clock before they adjourned to go into council. All those hours were spent in discussing the improvements to the city hall, which was finally left over for another meeting; the sign bylaw, the building permit bylaw, and a couple of little matters, which were soon disposed of. Undoubtedly the sign bylaw took up most of the time and a report of it will be found elsewhere

Those present were Mayor McWilliams, Ald. Johnston, Wilson, Leary, McIntyre, Tovey, Elliott, Duncan, Phelan, Stevenson, Bradburn, Morgan and Morrow.

The first question taken up was the property committee's recommendations for the remodelling of the old fire hall for the accommodation of the various city officials not already furnished with offices in the city building.

Ald. McIntyre, chairman of the property committee, stated that he had asked two different men about tearing down the stables and hose tower. One would take it down, clean up the place and fill in the cellar and pay nothing. The other offered to do the work, build two doors into the cellar and give the city $25. This was considered a very good proposition by several men who were in a position to know.

Ald. McIntyre also pointed out that the city treasurer suggested that the stairway should be removed to the west side of the fire hall and that an archway be cut between his office and the tax collector's office.

It was moved by Ald. Morrow and Ald. Wilson that the plans be allowed to stand over until the next meeting and that the city engineer be asked to prepare a plan embodying the city treasurer's idea and also that he furnish the council with an estimate of the cost.—Carried.

ENLARGE COMMITTEE ROOM

The property committee's recommendation to enlarge the committee room by taking out the partition between the wash room, was brought up.

Ald. Bradburn said that before any more changes were made it would be better to get an architect down to look the building over and prepare plans in a business-like way. At the present time there is no ventilation in any of the civic offices and there is no accommodation for the officials and their help.

Ald. Morrow said he would add to his motion that an architect be employed to go over the building.

The mayor said he did not know where they could get an architect.

Ald. Elliott asked Ald. Bradburn to name his architect.

Ald. Wilson and Ald. Leary suggested that the mayor, the property committee and the officials who have to occupy the offices be a committee to look over the plans.

RELIEF OFFICER.

Moved by Ald. Tovey, seconded by Ald. Morrow, that the Relief Officer of the Charity Board be given a bonus of $50 in consideration of the extra work he has had to do this year.

Moved by Ald. Bradburn and Ald. Tovey that the treasurer be authorized to issue a cheque of $100 to the National Sanitarium for Consumptives at Muskoka.—Carried.

BUILDING PERMIT BYLAW.

The mayor said that it was stated that the building permit bylaw was not being enforced and wanted to know what was to be done with it.

Ald. Stevenson said that if the people who undertake business operations in the city have not sufficient interest in the city to take a permit, when it costs them nothing, then they should be made to pay the $50 as provided in the bylaw.

Moved by Ald. Stevenson and Ald. McIntyre, that all who do not take out a permit within ten days, for work started, be prosecuted.

One of the aldermen stated that he was glad to see that the chairman of the property committee had stuck up permits on his different contracts before he made any move to have the bylaw enforced.

Ald. McIntyre, in reply, said that the Review had jumped on him too soon, as he had applied for his permits before the article referred to came out, although he had not filled out his applications and did not get his permits until the day following the appearance of the article.

C. G. E. Fishermen Honored Late Secretary-Treasurer

Presentation and Address to Mr. R. H. Shepherd Last Night—Anglers Recall the Many Happy Days Spent Together.

The members of the C.G.E. Angling Club to the number of about twenty-five gathered at the T.A.S. rooms last evening for the purpose of doing honor to their secretary-treasurer, Mr. R. H. Shepherd, who is leaving the city shortly and is thus severing the connection that has existed between himself and his brother fishermen. Mr. Shepherd was made the recipient of a handsome gold locket suitably engraved, accompanied by a complimentary address in which was expressed the regret of the club at losing their popular secretary-treasurer, but wishing him success in his new field of labor. Commodore J. G. M. Wilson presided and after the minutes of the last meeting had been read and confirmed he called upon Rear Admiral R. M. Roy to read the following address to Mr. Shepherd, while at the appropriate time Captain John Brown made the presentation.

C.G.E. Angling Club, affiliated with the Ontario Fish and Game Protective Association,

To Mr. R. H. Shepherd.

Mr. Fisherman.—You are about to break ties that no doubt cause you a great deal of sorrow and regret and we on our part feel this as keenly as you do.

Since the days of old when you went to the brook in bare feet and with bent pin, you have been a good sportsman, always living up to the "unwritten law" of good fellowship and friendship

With such a comrade we do not like to say farewell, but as you have decided, in the interests of your health, to leave Peterborough, we wish you God speed and all prosperity, the greatest of which is the renewal of good health.

If perchance you are in Peterborough there will always be another plate at our camp table and a spare blanket in our tent. Again wishing you God speed,

Signed.

Rear Admiral R. M. Roy, Hon Member Jos. Panter, Commodore J. G. M. Wilson, Captain John Brown, Official Liar Ald. Geo. Tovey, Bard R. E. Layfield, Chef John Trombley, Cabin Boy P. L. Allison, Scullion Leo Dineen, Fishermen A. W. Patterson, F A Shannon, J J McCabe, T H Glover, J B Duncannon, F A Taylor, D Carlisle, H Latimer, Walter Greenwood, T J Carson, Percy Bysshe Percy White, Fred Howson, Peterborough, May 6, 1907.

Mr. Shepherd made a neat response in which he thanked his brother fishermen for their kindness and for the handsome gift. He had always tried to do his best to help along the Angling Club and would always remember with pleasure the many happy days they had spent together. He was sorry to leave Peterborough and would not have made up his mind to leave had not the condition of his health made a change of work imperative. The gift of the anglers he would always cherish and it would serve as a reminder of the happy days of their fishing trips.

Rear Admiral Roy made a few remarks in which he referred to the good fellowship that existed in the Angling Club. They were the best bunch of fellows he had ever known and when he was asked to take them out in his boat he always felt complimented.

Mr. A. W. Paterson added his quota of praise to Mr. Shepherd and his regret at his departure. He alluded to the fact that Mr. Shepherd was the third secretary-treasurer of the Club to leave and he proposed that Mr. Shepherd, along with the two former ones, Messrs. Scott and Dawson, be made honorary members of the Club. The proposition was seconded and declared carried, with enthusiasm.

Mr. J. J. McCabe was appointed secretary-treasurer, to replace Mr. Shepherd, and Mr. D. Carlisle was elected guide to fill Mr. McCabe's place.

Mr. John Brown and several others also spoke, expressing regret at Mr. Shepherd's departure.

The address to Mr. Shepherd was bound in a handsome folder, which contained two excellent photographic views of the Angling Club on two of its outings.

City Engineers Report on the Cost of Romaine Street Sewer

Sewer Proper Cost $1778 57—Cleaning Cost to Date $120—New Connections Cost $101.25—Total Length of Sewer 1632 ft. at $1.09 per Foot.

As requested by a resolution of the Council which was moved by Ald. Phelan at the last meeting, the city engineer made the following report on the Romaine street sewer, including the cost, difficulties encountered and the cost of cleaning:—

To His Worship the Mayor and City Council:

Gentlemen,—As instructed I beg to report herewith on the cost of constructing Romaine and Aylmer-sts. sewer from Lock-st to the King Edward school.

MAIN SEWER.

Wages including foreman	$1197.92
1632 ft. 9 pipe at 20 9-10c	299.29
64 3 feet junction at $1.07	68.48
4 3 feet junction at 86 6-10c	3.46
19 1-2 bbls. cement at $1.90	37.05
6,200 bricks at $7.25	44.95
5 manhole tops at $10	50.00
Lumber, tools, etc	77.42
	$1778.57

Total length 9 inch sewer 1632 ft., $1.09 per foot.

9 connections, wages	$ 68.41
6 inch pipe and cement	33.11
	$101.25

Work on the sewer began Oct. 22, 1906 and was completed Jan. 9, 1907.

Great difficulties were encountered from beginning to the end of the work, with water, sand and stormy weather. It was found impossible to keep the water down enough to lay pipe and make joints without more or less sand and slime getting into them, although every precaution was taken to avoid it. Water was found at a level for 20 inches above the grade line of sewer and required constant pumping during working hours and each morning on commencing work it required from 2 to 4 hours to reduce the water to working level, before actual operations could begin. The wet and uncertain bottom required a much greater quantity of cement to ensure a close joint than would be required under ordinary conditions. Reports have been circulated that the joints were not made close, which were manifestly untrue as is indicated by the small quantity of water running through the sections now cleaned of sand, while the water outside is standing at a level of from 20 to 24 inches higher. The sewer consists of 5 sections of from 275 to 350 feet each. There is a total fall of 4 feet in the whole length. At a point on Romaine street, about the centre of the fourth section, a belt of clay running north and south, was met which holds back the water west of it, at a higher level. This area embraces the fifth section, including the ground on which the school stands and accounts for the higher level of water at the west end than at the east, and for the difficulty of keeping water out of the basement of the school. On April 5th, Mr. W. H. White began to remove the sand from the sewer. This work is necessarily very slow as only one man can work below and one or two men on top at a time. Each section has to be thoroughly cleaned and plugged before the next is started. Three sections are now done and the fourth almost done. The fifth and last which is the longest will probably be the most difficult to clean on account of the connection from the school having been put in by men employed by the School Board after the sewer was completed.

The total cost of cleaning to date is $120.

With regard to injury to hose which was in constant use during construction and afterwards in cleaning every precaution was taken to prevent injury and it is in as good condition as could be expected.

T. A. S. HAY,
City Engineer.

Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

"Fruit-a-tives" are the one certain cure for Constipation

because their action is upon the liver, "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a-box—$2.50 for 6 boxes. At all dealers'.

Young Men Must Pay the Poll Tax

New By-law Passed Which Will Enable the Tax Collector to Gather in the Silver

The young men of Peterborough can no longer get off without paying poll tax. The system in force in the past has been very incomplete and the result has been that very few dollars were added to the city's coffers, where there should have been at least one thousand dollars. A by-law was passed by the Council last night adopting a new system. The assessors in making their rounds will leave a poll tax slip at the place of residence of each man who comes under the poll tax bylaw, and the tax collector will get after the dollar.

It has been felt by the aldermen for a long time that the young men should help pay the maintenance of the city's streets, but just how to get after them was another matter. The new bylaw, while not perfect, will assist a great deal to overcome the difficulty, and it is expected that several hundred dollars more will be added to the treasury.

The bylaw as passed is as follows:—

The Corporation of the City of Peterborough by the Council thereof enacts:—

Every male inhabitant of the city of Peterborough of the age of 21 years and upwards, and under sixty years of age (and not otherwise exempted by law from performing statute labor), who has not been assessed upon the assessment roll of the city of Peterborough shall be taxed one dollar per year, to be levied and collected by the tax collector.

The said amount shall become due and shall be payable to the said collector, at his office in the said city of Peterborough within two days after demand thereof by the said collector.

The assessors in making their assessment shall serve on each person liable for such poll tax a demand for the payment of same in the form supplied by the tax collector and shall enter the name of each person so assessed in the assessment roll, together with the date of the service of such demand.

The clerk shall furnish the collector with the names of those assessed for poll tax in each year.

Wood's Phosphodine,

The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

St. Catharines for the Soldiers

Officers May Decide To-night to Run the Annual Excursion to the Garden City

At the mess tonight, after the march out, the officers of the 57th Regiment will likely decide definitely where they will go on their trip this summer. It appears now as if it would be between Brockville and St. Catharines. The latter city would certainly prove a very attractive place for the soldiers. It is the Garden City of Canada, and it is justly entitled to its name. It is a very pretty little city, and has many side trips which no other city can boast. It is only a short distance from Niagara Falls with electric cars running every hour. Electric cars run to Port Dalhousie every twenty minutes and to Fonthill, the home of the greatest nurseries in the Dominion, and the home of the best peaches and other fruits. A beautiful drive of a few miles, takes one to the beautiful Decew Falls and the plant of the Cataract Power Co., which supplies Hamilton with electric energy. Another pretty drive is to old Niagara, where the annual camp was held for so many years. St. Catharines has many natural attractions as well. It has excellent hotels and mineral baths and there is no doubt the boys would have a great time if they were the guests of the 19th Regiment.

An Explanation Of Astrology

How This Most Interesting Study Had its Origin

The word Astrology is derived from the Greek word, Astron, a star, and llogos, a discourse. At first the word had much the same meaning as Astronomy has at the present time.

As from the investigations and experiments of Alchemy, the searching for the philosopher stone, and elixir of life, spring the science of Chemistry, so when Astronomy has been divested of the myths and superstitions that had clouded it during the middle ages, it stood out in al. the beauty and grandeur of which it is now possessed. Astrology had its origin on the plains of Chaldea Between the Euphrates and the Tigris. the Mighty Nimrod established the first empire of the world ,and about 100 years later, or in the year 2234 B.C. the first observations of the sidereal heavens were made and recorded. These observations were obtained by Callisthene and transmitted to Aristotle, when he visited that country, with Alexander the Great. However, the earliest of these records, now extant, reaches no further back than the year 720 B.C., or about the time of the captivity of the Kingdom of Israel. Chaldea may be considered an ideal natural point for observation, lying, as it does, in the same latitude as Georgia and the Carolinas, a vast plain, with the Arabian desert adjoining on the West, possessing a dry atmosphere, a cloudless sky, and a well defined horizon line. The surface of the country being almost featureless, the attention of its people would naturally be directed to the stars which in those regions shine with a lustre, which we can have little conception of in our own Northern land (The first star gazers of Chaldea beheld with wonder and admiration. "how the floor of heaven was studded o'er with patins of bright gold." Then they began to trace out the paths of the celestial objects through the sky, to note the eclipses of the sun and moon, to arrange the stars in groups or constellations, to mark the approximation and divergence of the planets; all of which was the work of pure natural Astrology.

When the twelve signs of the Zodiac were formed, it is thought in the year 2100 B.C., there then seems little more that was real to be discovered. They began to invent new theories and to connect by analogy the disposition and temperament of the individual with some planet or star. The twelve signs of the Zodiac were designated twelve houses, corresponding to the twelve months of the year, and as if the horoscope was cast and the planet was in the sign for the month in which a person was born, then they were born under that planet. Those of a gay, sprightly disposition, were born under the planet Mercury, warmest because nearest the sun. Any who were fair and loveable were placed under the influence of Venus. Mars gave a fiery, war-like impulse to those who claimed him as their lucky or unlucky star, whichever we choose to regard it. Those favored by Jupiter were of a strong, commanding will and character, while Saturn had the effect of making one grave, morose, dull and sad. When the Astrologers had thus made it clear that they were men of superior knowledge and foresight ,they presently ventured to foretell the course of future events in the political life of the State, as well as the future destiny of the individual, and hence became important personages at the Courts of Kings and Emperors. Being crafty men of affairs they generally made their prediction in such a form that it was almost certain of fulfillment as when the Lydian Monarch Croesus, about going to war with Persia, consulted the Oracle, he was informed that if he went into conflict with Cyrus a great empire would fall.

The evil also being the most common in the lives of men ,was the thing mostly predicted, on the assumption that the one who made the best guess was surely the best prophet. As an example of star-lore applied to the affairs of life, we might take the Assyrian inscription at Nineveh; "If Jupiter be seen in the month Thammuz there will be corpses. If Venus comes opposite the star of the fish ,there will be devastation. If the star of the Great Lion—Rigelus—is gloomy, the heart of the people will not rejoice. If the moon is seen on the first day of the month, Assyria will prosper."

Having followed the history of Astrology from its beginning in Chaldea, to the subjugation of that country by the Assyrian's Emperor, Tiglath Adar, in the year 1301 B.C., we will now leave it, hoping in a future article to follow it down to Egypt, back to Phoenicia, and then to Greece and Western Europe, through the middle ages, down to the time when it received its death blow from the hand of the eccentric Dean Swift.

Norwood Votes for Improvements

Debenture By-law to Raise $10,000 Carried by 53 Majority

Special to the Review.

Norwood, May 7.—The vote on the bylaw to raise the sum of $10,000 by means of twenty year debentures, was carried by the property holders yesterday by 53 majority. Of the $10,000, which it is proposed to raise $7,000 will be expended on cement sidewalks for the village, and $3,000 for the erection of an addition and improvements to the town hall. There is great rejoicing among the citizens at the large majority given the bylaw.

The result of the vote was:

	For	Against
Polling Sub-division No. 1	43	24
Polling Sub-division No. 2	51	17
	—	—
	94	41

Majority for bylaw, 53.

Comparison of Market Prices

Can anyone tell us the reason why things are dearer on the Belleville market than they are in Peterborough? asks the Belleville Intelligencer. Are they? Well, compare the Peterborough prices, as taken from the Review of Saturday last, with the prices paid on the local market on the same day. The Review says:

"The attendance on the market today was very slim, owing to the break in the weather. There was scarcely anything offered for sale on the outside market, but in the hall, eggs and butter were fairly plentiful. The former sold at 14c to 15c per dozen and butter changed hands at 25c to 27c per pound for good stock Chickens sold at 65c to 85c per pair and were scarce. Potatoes sold at 85c per bag, but there were very few offered for sale.'

In Belleville on Saturday last eggs sold at 18c to 19c per dozen, 20c being asked; butter sold from 28c to 30c., some conscienceless people asking 34c.; chickens were $1.00 to $1.50 per pair, and potatoes $1.00 per bag.

Many Trouble of Richard Family

Judgment in Their Case Reserved for Another Week

Judgment in the case of Wm. Richards, who was charged last Tuesday with being disorderly in Mrs. Kerr's house, Hunter st., is again reserved for one week. Mr. and Mrs. Richards were to have moved out within a week. Mrs. Richards, who was present this morning, stated that Mrs. Kerr would allow them to stay if they lived quietly. She informed His Worship that she did not like having to appear so many times. Indeed, she said that she was having lots of trouble. She asked a policeman to telephone to Springville to tell her two sons to come to the city as they could help her out of some other trouble.

BAD BOYS.

A lady also came to the police court and swore out an information against some boys who are continually annoying her by throwing stones at her door. They will likely appear tomorrow morning.

Only Six of the Old Guard Now

Mr. R. H. Shepherd Honored by C.G.E. Old Boys

In the departure of Mr. R. H. Shepherd from Peterborough, another of the "old guard,' of the O. G. E. is gone. Of the seventy-eight who came to Peterborough when the Edison works were moved here from Sherbrooke, only six now remain. Early last evening, the seven old boys met at the Young Conservative Club rooms, when Mr. Shepherd was presented with a beautiful pipe enclosed in a handsome case, along with the following address:

Mr. R. H. Shepherd,—As you are about to leave Peterborough, we the old boys from Sherbrooke, wish to add our respects to those already expressed to you.: You have in your long service of eighteen years for the several companies, behaved yourself, so that you merited the promotions from time to time given you and also the esteem in which you are held by all ranks of the service.

We say farewell with the deepest regret, and wish you good health and prosperity in this world's goods.

Signed.

W. H. G. Armstrong, Geo. Tovey, Frank Derrick, Wm. Jones, A. W. Paterson and R. E. Layfield.

Peterborough, May 6, 1907.

Mr Shepherd made a suitable response, after which the seven had an interesting chat over the events of other days, particularly the experiences gone through, when the C.G.E. shops were established in Peterborough.

Can Restaurants Sell on Sunday? Judgment Reserved in Test Case

Toronto, May 66.—The case of Mrs. N. Devlin, of Lake Shore Road, who was convicted under the Lord's Day Act of selling candies on Sunday, was argued on appeal before Judge, Morson on Saturday. The appeal was for the purpose of testing the scope of the Act, and to establish to what extent restaurant keepers can legitimately supply their clients on Sunday.

Inspector Archibald, who assisted Mr. Johnston, argued that it was a breach of the law to sell persons who did not consume their purchase on the premises.

His Honor asked if it was intended to argue that if a customer bought a lunch from Mr. Devlin and, instead of eating it on the premises, had it put in a bag so that he could take it into High Park for the purpose of eating it there, it would be profaning the Sabbath.

Mr. Johnston, who appeared for the city, did not seem anxious to commit himself. He merely contended that Devlin conducted two distinct businesses, that of selling candies, and that of supplying meals.

His Honor, however, was persistent, and asked if he went in and bought some chocolates and consumed them in the house whether it would be an offence or not.

Mr. Johnston replied that the illustration was not the case, but on being forced admitted that such an instance would not be a violation of the Act.

"Then the distinction you draw," said the judge, "is that if the things bought are eaten on the premises the place is a restaurant, but if taken out it is a shop."

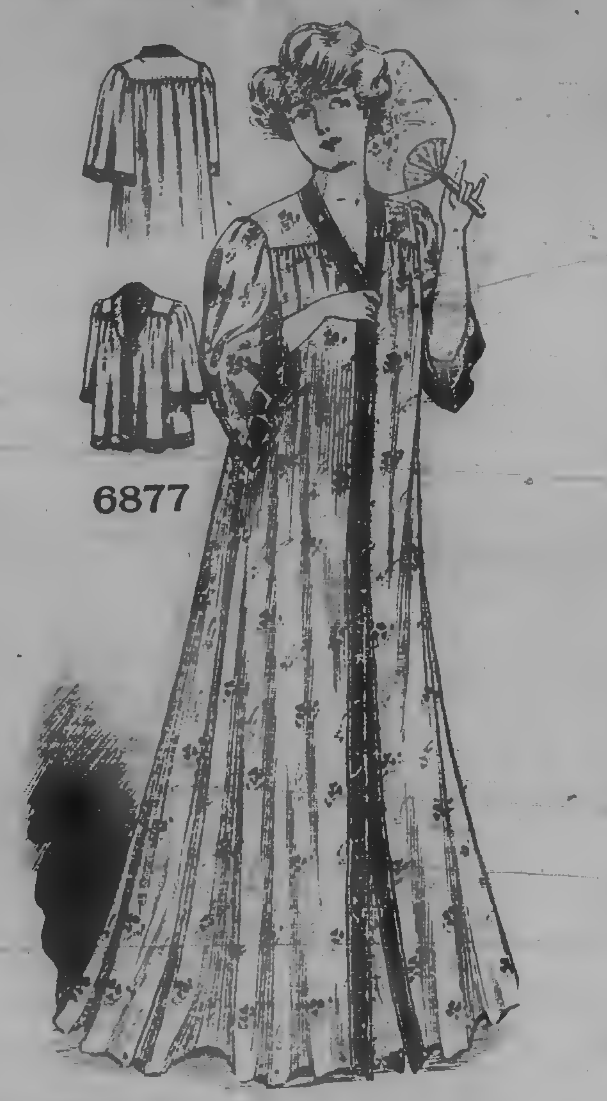
"Yes," hesitatingly, from Mr. Johnston.

"A fine distinction," remarked Judge Morson.

Mr. James Haverson, K.C., represented Mr. Devlin, and quoted from a decision of Judge Morgan in a similar case. He argued that it was perfectly legitimate for a restaurant keeper to sell candies on Sunday.

His Honor, however, decided to reserve judgment.

The Latest Dean Pattern



An Attractive Kimono for Home Making

The kimono has quite replaced the wrapper for comfort and expediency in donning and one which is pleasing and practical is shown. The body portions are gathered full to the yoke which fit it trimly over the shoulders. The pattern provides for the full length garment and the dressing sack only requiring to be cut off as indicated. The fronts fall free without closing unless desired so that the garment may be slipped on without delay. The Japanese fabrics are best suited for such development, but any washing stuff or soft silk might serve. For, the medium size 5 3-8 yards 44 inches wide are needed for the wrapper, and but two yards for the dressing sack.

6877.—Sizes 32, 36, 40 and 44 inches bust measure.

The price of this pattern is 10 cents.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

BELLEVILLE LADY CAPTURES PRIZES

At the Toronto Horse Show, Mrs. Charles Wilmot, of Belleville, has taken several other prizes besides those already mentioned In Class 57, single ponies in harness, mare or gelding, not over 14.1 and over 13.1, 1st, $25, 2nd $15, 3rd $10. Mrs. Wilmot took first with her little beauty. Black Silk. In Class 63, best saddle pony, mare or gelding, 14.1 and under, ridden by boy of 16 and under, Mrs. Wilmot was given fourth place in a field of eleven entries.

In class 26, mare or gelding, over 14.2, not over 15.2; first $60; second $30, third $15, Mrs Wilmot's Love Letter was entered, but was not shown.

Mrs. Wilmot's Black Silk also took first prize in class 62, pony with best boy or girl rider.

SPECIAL POWER COMMITTEE MET

Mr. T. E. Bradburn Arranging a Meeting With Hon. Adam Beck

Mr T. E. Bradburn, M.P.P., is in Toronto today, arranging with Hon Adam Beck, chairman of the Hydro-Electric Power Commission, for an interview with the special power committee of the Peterborough City Council. The committee expects to go to Toronto in a few days. The question to be taken up is that of the purchase of the Peterborough Light & Power Co's plant. The special committee is composed of Mayor McWilliams ,Ald. Stevenson, and Ald. Bradburn. The committee met yesterday afternoon and decided to see what the Hydro-Electric Commission could do for the city along the line mentioned above.

The congregation of Bond street Congregational church, Toronto, accepted the resignation of Rev. J. B. Silcox.

Newsy Notes of Busy Havelock

Special to the Review.

Havelock, May 7. — Messrs. James Beatty and Geo. Dart of the Havelock Brotherhood of Railroad Trainmen, are attending a convention of that order in Georgetown.

Messrs. J. and Geo. Waymark have purchased a machine for making cement bricks, which they have working at present, on the corner of Orange and Ottawa streets.

Mr. Easterbrook of Tweed, has moved his family to Havelock and is now residing in the house lately occupied by Mr. C. Davidson.

Mr. and Mrs. A. Deremo of Consecon, have returned to their home after a visit to Mrs. McIntyre of town.

The Maple Sugar Social held in the basement of the Methodist church on Friday last was largely attended and all report an enjoyable evening.

Rev. R. B. Denike of Campbellford, will conduct services in the Presbyterian Church here, during the absence of Rev. A. E. Camp, B. A., who is visiting in Sault Ste. Marie.

Miss N. Griffith has been engaged as clerk by Pearce & Son, of town.

Miss K. Chambers of Blairton, is visiting friends in town.

BUILDING TRADE BRISK.

Building contractors in town, say that there will be more dwellings erected in Havelock this year than last. This will mean a good deal, as there was a large number of houses constructed last year. The operations have begun already for one on George street east, two on King street, one on Alexandra street, and one on Mathison street.

Mr. and Mrs. W. J. Hawes of Peterborough, returned to their home last week.

The Havelock Trout Club are offering ten dollars reward for information leading to the conviction of any person found fishing in Deleporine Creek, which is situated about four miles north of here, and runs into Rice Lake. This property has been leased by the Havelock Trout Club.

SCHOOL REPORT.

The following is school report for week ending April 26th, 1907.—

Continuation Class—Elmo Petterson, 100; Clarence Holdcroft, 100; Nellie Plunkett, 100; Philip O'Brien, 100; Annie Scott, 99; Ray Philips, 99.

Sr. IV. Class—Mary Frost, 89; Gladys Brewster, 88; G. Barlow, 87; Mabel Pacy, 87; Pearl Brown, 83; Nellie Chapman, 80; Clayton Bohn, 72; Robert Plunkett, 60.

Everyone is looking forward to "The King of Tramps,' which comes to the opera house, Friday, May 10.

Several from Marmora came to town on Friday last, to help cheer their friends in the football match.

Miss May McNicholl is visiting friends in Madoc.

A vestry meeting will be held in St. John's church on Monday night May 6th.

Mrs. W. J. Boyd, spent Thursday last in Norwood.

Mr. Q. Barlow spent Monday with friends in Peterborough.

Messrs. Dr. Wilson and H. Wilson of Norwood, spent Friday last in town.

Mr. O'Strander, who has opened up a photograph studio in Campbellford spent Sunday at his home here.

Mr. Galbraith has moved his family and household effects to Belleville, where he has obtained a lucrative position in a general store.

Miss Claudia Richards is visiting friends in Ivanhoe.

The school children in town, had a holiday on Friday of last week. Arbor Day. Although it was a holiday in one sense it was not in another. The girls of the school, washed the windows, scrubbed the floors and desks, while the boys cleaned up the yard and planted a flower bed all along the front of the school yard in such a manner that when the flowers come up, they will form the words 'Havelock Public School.'

A meeting of the girls was held in the principal's room, when it was decided that they should buy a basket ball and have the yard on the right hand side fixed up for the game.

Mr. P. McWilliams was in town on Sunday.

Miss P. Chiles of Peterborough, is visiting friends in town.

Church Parade of Sons of England

Will be Held at Early Date—Arrangements Being Made

At the regular meeting of Lansdowne Lodge, No. 25, Sons of England, held last night, a committee was appointed to make arrangements for the annual church parade. The committee will report at the next regular meeting of the lodge on May 20.

COPY OF REPORT OF COMMITTEES

Will be Given to the Aldermen Before the Council Meets

In future each alderman will be furnished with a copy of the report of each committee, some time before the report is presented to the council. This matter was introduced by Ald. Bradburn, who said, in speaking to the question, that many committee reports were sprung upon the council and read and adopted ,and no one has any time to consider any of the clauses. The result is the frequent mixups the council finds itself in. If the aldermen had an opportunity to read the report over carefully before they got to the council meeting they would be prepared with any objections and the clauses would be put through right.

The same system has been in force this year that was last, but there is this difference—last year's committees were very much larger and some of them had half the council on, while this year only four men are on a committee and frequently they are not all there.

Ald. Bradburn recommended that the city purchase a copying machine so that the work could be done easily and quickly by the city clerk. The special power committee which is going to Toronto soon, was authorized to ascertain the price of such a machine and the work will be started at once.

LITTTLE GIRL HAD A CLOSE CALL

Her Clothing Caught Fire and She Was Badly Burned

While playing around a bon-fire shortly after seven o'clock last evening Luella, the eleven-year-old daughter of Mr. Cornelius Quinlan, Oxford street, East City, was severely burned about the body. Her legs and arms suffered the most. The little girl was standing beside the fire and was fanning the flames with her handkerchief. She accidentally dropped her handkerchief, which was soon ignited. She tried to extinguish the blazing kerchief by wrapping it in her dress, which also. unfortunately ignited. In the excitement of seeing her clothes in flames, the girl ran hurriedly to her home, which was not far distant. By doing so she was soon a mass of flames. Her father saw her and did his utmost to divest the child of her burning garments. In his attempts to help his child Mr. Quinlan's hands were badly scorched. Dr. McNulty was at once summoned and was not long in getting there. He found the child to be seriously burned. The Dan Spence ambulance was given a hurried call, and the daughter was removed to St. Joseph's hospital, where her sufferings were somewhat lessened. She is now doing nicely and will recover.

Word comes from Wabiggoon, Ont. that the dead body of a trapper named H. McDonald was found in his cabin near the Vermilion River by an Indian last Tuesday. It is believed he died from exposure and starvation

PETERBOROUGH BRANCH. VINCENT EASTWOOD, Manager

Havelock Has Strong Hopes of Being Made Divisional Point

Railroad Tow to the East is Counting on Securing the New Grain Line—Report Says That Road Will Not Touch Peterborough.

Special to the Review.

Havelock, May 7th.—It is altogether likely that Havelock will be made a divisional point on the Georgian Bay grain route from Victoria Harbor, and in view of this it is reported on good authority that the C. P. R. are about to close a deal for a large tract of land to the south of the present property here.

It is altogether unlikely that this new line will touch Peterborough at all on account of the high grade to be contended with in running the railroad through or near that city. When surveyed last fall, it was found that the easiest grade could be got by running the grain route near Lakefield, across to Warsaw, and then gradually in towards the main line from Toronto to Havelock, joining it about a mile above Havelock. Even if it did not join the present line near Havelock, this town is most likely to be made the divisional point, as it is just about 103 miles from Victoria Harbor to Havelock. It is also very unlikely that the C. P. R. would move the round house, sidings and other fixtures from Havelock, as it would cause considerable expense. Anyway there is no town along the line where a suitable place could be had for sidings as it will need a large piece of land for sidings, when trains are running in from both routes. It is also reported that an addition will be made to the round house and chutes this year.

If Havelock is made a divisional point it will be the means of a large increase in the population, necessitating about ninety men and their families to settle in Havelock. This will also mean that there will have to be more houses built. With all these things helping, Havelock is bound to become a large and important town in the course of a few years.

Eight Thousand Iron Workers Go on Strike in San Francisco

Street Car Men, Telephone Girls and Others Quit Work in the Earthquake City—Busines is Scriouslys Handicapped.

San Francisco, May 8.—San Francisco is again in the throes of a bitter strike. For the third time since the disastrous fire a year ago, San Francisco is walking, because of the declaration of a strike on all the street car lines in the city by the car men's union. Added to this tie-up is the strike of the telephone girls and of 8,000 iron workers. Without transportation facilities, and with a crippled and inadequate telephone service, business is greatly handicapped.

A committee from the Civic League of San Francisco yesterday called on Henry T. Scott, president of the Pacific States Telephone and Telegraph Company, President Calhoun of the United Railways, and President Cornelius of the Car Men's Union, and requested them in the interests of the city and of the public to submit the differences to arbitration. The committee met with no success. The car men have organized an extensive picket detail at each car barn. The pickets are changed every four hours, and, according to President Cornelius, have been instructed to permit no violence. Large crowds surrounded the car barns at Turk and Filmore streets, where one hundred strike-breakers are lodged. Beyond hooting and jeering no overt act was attempted. Heavy shutters and iron screens were placed at the windows of all the barns and car houses.

After an exciting meeting lasting four hours the electrical workers union of linemen No. 151 yesterday failed to reach an agreement on a proposition to strike in sympathy with the telephone girls. A compromise was effected whereby definite action was postponed until the executive committee shall have conferred with the officials of the telephone company, when the company will be informed that unless the union of the girls is recognized, the linemen and electricians will walk out. The company is giving a little better service than it was able to do during the first days of the strike.

Roller Hockey or Polo To be Introduced Here

The preliminary steps towards the organisation of a roller hockey team in Peterborough, were taken at a meeting in the Charlotte street rink last night. About twenty were in attendance and Mr. S. J. Sheridan occupied the chair. The question of introducing roller hockey in Peterborough was thoroughly discussed and there was unanimity of opinion regarding the feasibility of at least trying the game. Roller hockey has made a great hit in Ottawa, Montreal and Toronto, and the teams in these places are desirous of forming a league and taking in Peterborough. It is felt that the league would turn out satisfactorily in every way, as there is no doubt but that the games would be sufficiently well patronized to meet expenses.

In order to get the game started in Peterborough it was decided to have a match between two picked teams on Friday evening between 10 and 11 o'clock. Mr. Harvey Staunton was assigned to pick one team and Mr. Frank Clancy the other. They will endeavor to select two strong teams and an interesting match is assured. The rink management are furnishing the players with their skates free of charge for the first practice and the rink will also be given free. The game will be played seven men a side, and with ordinary hockey sticks. For a puck, a hard rubber ball, covered with leather, will be used. This has been found to be the most satisfactory in Ottawa and other cities where the game is booming.

Mr Sheridan is going to Ottawa this week and while there will secure all information regarding the kind of skates being used for hockey purposes there, the rules governing the game, and other knowledge that will be helpful in getting the sport started here.

If roller hockey takes sufficiently well here, Peterborough no doubt, will place a team in the four-city league, which it is proposed to form, and at any rate, exhibition games will be arranged with teams at Ottawa, Toronto and Montreal. Ottawa already has three teams and nearly all of the famous hockeyists of that city are playing the game.

THE RING

Los Angeles, May 8.—Betting odds on the 20-round fight next Wednesday night between Jack O'Brien, and Tommy Burns, has shifted from even to 10 to 8 on O'Brien.

It is expected by the time the fight is on the odds will be 10 to 7. Interest in the fight is increasing, and the sale of seats at the pavilion of the Pacific Athletic Club is proceeding at an unprecedented rate.

The auditorium has been enlarged and will now seat 6,500 people. Notwithstanding that the management has guaranteed the big purse of $30,000 for the fighters, it is thought there will be a handsome profit for the promoters. The seats range in price from $5 to $30.

The Lacrosse Men are Getting Busy

Splendid Practice at Riverside Park Last Night

About a dozen juniors and four or five seniors turned out to the lacrosse practice at Riverside Park last night. Considering that it was the first practice of the season, splendid form was shown and the workout was an eminently satisfactory one. The players went about their work in snappy style, and travelled at a lively clip for about an hour. The senior men out were, McGrath, Mein, Dillon, Dumble and Boyle, while the juniors included nearly all of last year's team. The sward was a little soft for a workout, but it did not seem to bother the players much. The field is drying up rapidly, however, and will be in first-class shape for practice in a few days.

At this distance the Peterborough juniors look good for annexing junior honors. With one or two exceptions this team will be the same as last year, and with the experience gained last season, the boys should pretty nearly able to beat the best of them.

The seniors will likely practice on Thursday night, although the players are not anxious to turn out until the weather is a little warmer.

Will Play for Handsome Cup

Manager Ferris of the Arctic Baseball Club, Toronto, and Manager Johnston of the local Club, have secured a handsome silver cup, valued at $50 to be awarded to the winner of the series of games between these two teams on May 24th, and 25th. The trophy will be ordered at once, and no doubt will add greatly to the interest in the games between the crack Toronto team and the local nine. Two games are being played on Victoria Day, and one on the Saturday following, May 25th, and the cup will go to the team that takes two games.

The Arctics did not care to come to Peterborough unless a cup or trophy of some kind was offered for competition, and so Managers Johnston and Ferris got their heads together and succeeded in having a $50 cup donated. The Arctics will bring down a strong team, and three great games should be the result of their clashing with the local ball tossers.

FOOTBALL MATCH AT HAVELOCK

Home Team Plays Tie Game With Marmora

Special to the Review.

Havelock, May 7.—The first football game of the season took place here on Friday evening at 6 p.m., when a hustling aggregation from Marmora, confronted the dauntless Havelock bunch, resulting in a tie. The number of goals on each side was 1. The Marmora team have exceptionally good players, but are not as heavy as those on the Havelock eleven. The Havelock team put up a good game, considering that they had only two nights' practice before the game came off. There was a dispute about both the goals scored, on account of offsides, but the discussion ended in the referee giving the above decision. A return game will likely be played some time this week, when the local footballers intend to put it over their Marmora friends.

The following are the names of those representing the Havelock team:

Goal, R. Graham.
Full Backs, H. Andrews, Charles Robeson.
Half Backs, Wm. McMullen, K. McKay, Wm. Watson.
Centre forward, A. Neil.
Left Wing, P. Lancaster, H. Mathison.
Right Wing, Wm. McBurney, Geo. Mathison.

Old Landmark Was Torn Down

Peterboro' Cereal Co. Erecting Drive Sheds in the Rear of Their Mills

Work was started this week at the Peterborough Cereal Co. on the erection of the drive sheds, of which notice was made in these columns some time ago. These sheds will occupy the space at the rear of the mills and will be for the accommodation of farmers bringing in grain or taking away products. They will prove a great convenience to the large country trade of this company, and will also add materially to the shed accommodation of the city.

The old building which stood for so many years on the ground where the elevator now stands and which was moved back near the transformer building is being torn down. This building was very strongly put together. It was erected when lumber was very cheap and it was lined inside and outside with the best pine lumber. In some places ther were three thicknesses of lumber with plaster inside of that. Mr. Heldrum, manager of the company, says that he will get nearly enough material out of this old building to put up all the sheds.

Kawartha Park Cottagers Met

An Association Formed—Many Improvements to the Resort

The property owners of Kawartha Park, Sandy Bay, Clear Lake, held a meeting in the Y.M.C.A. hall last evening and decided to form an association. Messrs. R. E. Harding, G. H. Williamson, W. F. Nelson, C. S. Brown, F. H. Dobbin, H. W. Stock, E. A. Peck and Wm. Pringle were present. Mr. R. B. Rogers occupied the chair. It was decided to form an association to be known as the Kawartha Park Association. The following officers were elected:—

President.—Mr. R. B. Rogers.
Sec.-Treas.—Miss Winnifrid Dobbin.
Committee.—Messrs. W. F. Nelson, G. H. Williamson, and H. W. Stock.

A committee was also appointed to interview Mr. R. R. Hall, M.P., in reference to having a wharf built at the park, and to consider the advisability of having a special mail bag left at the park.

Another committee was appointed to arrange for a proper boat service.

An interview will be had with the Dickson Co. in reference to the right to have a road across their property above Sandy Point. The matter of doing statute labor was considered and just what work will be done will be decided upon later.

Arrangements are also being made for a central ice house and a central boat house.

Another meeting of the association will be held shortly.

The St. Lawrence, from Montreal to the ocean, is now clear of ice, and ocean navigation may be said to be open.

OPENING OF THE BASEBALL SEASON
C. R. BANKS
FOR BASEBALL GOODS
Exclusive Sporting Goods Store, George Street, Near Charlotte.

THE NEW YORK STOCK MARKET

Chicago, May 7.—J. C. Ratty, of Toronto wires; Ontario winter wheat very bad. Practically a total failure. Leading men in the grain trade concur in the estimate that 75 per cent. will be plowed up. Undoubtedly the worst wheat failure we have had in twenty years.

New York, May 7.—After a rather irregular opening this morning stocks declined again, losses reaching 6 points in Delaware and Hudson, 3 in Smelting, and 2 in St. Pau and Union Pacific. The announcement of a decline in spot copper in the London market caused a reactionary tendency in Amal. Copper and further talk of financing by Delaware and Hudson and Union Pacific brought out some heavy selling orders in those issues. Crop news was a little more favorable this morning and wheat held yesterday's gain with difficulty. At the lower levels, however, there was pretty fair support and the bears did not succeed in dislodging much long stock. The feeling was that the reaction had gone about far enough and the market became intensely dull after noon.

There was quite a sharp rally in the last half hour and the closing was firm.

(Furnished by J. R. Heintz & Co.)

Summer School Of Languages

What promises to be a most profitable and timely undertaking is the Summer School of Language to be held in the city of Kingston from July 15th to August 16th.

Professor MacGillivray, Ph.D., (Leipzig) of Queen's, has associated with himself, Prof. Will Lofft and Proffesor J. M. Sands, B.E.S.L. and will conduct classes in the study of German and French.

The classes, which will be held in the Arts building of Queen's are designed for teachers and all others who desire to improve the opportunity of reading with masters. Professor MacGillivray, Queen's, Kingston promises to give all information.

Handsome Picture of Famous Fight

A handsome picture of General Custer's last fight with the United States Indians, is on view in the window of Mr. A. U. R. Mitchell, Hunter street. The original painting was presented to the Seventh Regiment, United States Cavalry by the Ankeuse-Busch Co., St. Louis. The picture in Mr. Mitchell's window is handsomely framed and is attracting a great deal of attention.

CROP REPORTS FROM ALL OVER

On the Whole the Conditions are Generally Favorable

Liverpool, May 7. — Broomhall's weekly crop summary says; United Kingdom—Warmer, dry weather is wanted

France—The weather has improved and the outlook for the crops is good.

Germany.—The weather has shown some improvement during the past week Supplies continue scarce.

Hungary.—An official report issued makes the outlook for winter wheat very unfavorable. Spring crops show small growth with much of the area still untilled.

Roumania.—An official report confirms twenty five per cent. of the winter wheat area having been replowed. The weather is now fine and warm, but the crops need rain.

Bulgaria.—In the North, reports make mention of moderate damage, while in the South it is estimated there has been between 20 to 40 per cent. damage as a result of winter killing.

Russia.—Some damage to winter wheat is reported in the Southwest. Elsewhere the outlook is favorable.

Italy and Greece.—The crop outlook is very fair.

Spain.— Crop conditions continue favorable.

North Africa, Belgium and Holland—There are moderate complaints heard regarding the outlook for the crop.

Chicago,—Snow, the crop expert is out with an estimate of 75 as condition of winter wheat, against 91 last year and 92 two years ago.

Angling Club To Have Cottage

Wil Erect a Summer Home Down the River

The C.G.E. Angling Club has decided to build a cottage down the Otonabee where they can make their headquarters during their outings in quest of the finny tribe, during the summer. The matter was disussed at length at the meeting of the Club last night and there was a unanimous expression of opinion that the building of a modest home down the river would be one of the best things that ever happened the club. It was pointed out that cottage could be built at small expense as the work on the building could be done by the members of the club and the principal expenditure would be the cost of the lumber and other material required.

No decision was reached as to the location of the cottage, but it was considered that a site some where near where the Otonabee joins Rice Lake would be the most advantageous. The following were appointed a committee to take the matter in hand: Messrs. R. E. Layfield, John Brown, Geo. Tovey, R. M. Roy, D. Carlisle, J. J. McCabe and A. W. Paterson.

The committee will take a trip down the river in the near future to select a site and will then proceed to buy the necessary land, if this will have to be done, and to make all arrangements for proceeding to erect the cottage.

Soldiers Must Attend Parades

Two Members of Brantford Corps Fined $5 Each

At the police court this morning members of the Dufferin Rifles were charged with not attending parades. Both men had been absent from several parades, though the order had been published in the newspapers, says the Brantford Expositor. The law reads that any officer or man, who, without lawful excuse, refuses or neglects to attend a parade is liable to a fine, if an officer, of $10, and if a man, $5, and each separate non-attendance to be a separate offence The adjutant (Captain Genet) urged that if men were sick or unable to attend drill they could always obtain leave of absence by applying to their company commander, so that no hardship exists. The police magistrate pointed out that the officers might have charged them with non-attendance at each parade they had neglected to attend in which case he would have had to impose a fine of $5 for each night. As the charge was for only one parade, he imposed a fine on each man of $5.

NOTICE TO CREDITORS AND NEXT OF KIN

In the Matter of the Estate of the Late Anne Jane Telford.

NOTICE is hereby given pursuant to Chapter 129 of the Revised Statutes of Ontario, 1897 that all Creditors and others having claims against the Estate of the said Ann Jane Telford, who died on or about the first Day of December, 1906, are required, on or before the 1st Day of June, 1907, to send by post prepaid, or deliver to the undersigned Solicitor for the Administrator of the said Estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and statements of their accounts, and the nature of the securities if, any, held by them.

And further that the persons claiming to be next of kin according to the Statutes for the Distribution of Intestates' Estates of the said late Ann Jane Telford, formerly Ann Jane Lytle, at the time of her death of the Township of Smith, in the County of Peterborough, Province of Ontario, but previously of the City of Peterborough, in the said Province, living at the time of her death or claiming to be the legal representatives of such of said next of kin as have since died, are to send their claims with the proof thereof to the said solicitor on or before the said first day of June next.

And notice is hereby further given that after such last mentioned date, the said administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and that the said Administrator will not be liable for the said assets or any part thereof, to any person or persons of whose claims notice shall not have been received by him, at the time of such distribution.

Dated the 30th day of April, 1907.

Class Leaders Revised the Roll

Membership of George St. Church Has Greatly Increased

At a meeting of class readers in George street church last evening the roll of membership was carefully examined. After filling up a loss of 42 caused by death, removal and other causes, there is an increase of 25

The present membership stands at 476, which is very encouraging.

Famous Orchestra May be Disrupted

Trouble Among Musicians Who Appeared in Peterborough

Those who heard the Pittsburg Orchestra when it appeared at the Grand Opera House last winter, will be interested in the following despatch;

Pittburg, May 7. — Pittsburg's $40,000 a year orchestra is threatened with disruption and the event might indirectly affect all other large orchestras of the country. George H. Wilson, who has been the manager for ten years, is out, and no successor has been found, all offers having been declined. Luigip Von Kunitz and Henry Bramsen, the 'cellists, have resigned, or refused to sign contracts for another year, and it is announced that Conductor Emil Paur will sail for Europe to engage other soloists. Members of the local Musicians' Union say that the whole matter will be laid before the international League of Musicians at its annual meeting in Cleveland with a request that the Contract Labor law be invoked.

It is believed that there is an influence at work to destroy the orchestra. It is pointed out that Mr. Paur has been unable to secure the concert master of the lately disbanded Cincinnati Orchestra to take the place of Von Kunitz and that he has met with similar refusals in New York, Philadelphia and Chicago

Half the members of last season's orchestra are said to be withholding their signatures to contracts.

Willing Workers Held Fine Concert

Most Enjoyable Time Spent at Baptist Church Last Evening

A most successful and very enjoyable entertainment was given last evening in the Murray street church lecture hall under the auspices of the Willing Workers. There was a large attendance. Miss L. Webber, the president of the Society, to whose untiring efforts the success of the concert was largely due, deserves great credit. The proceeds, which amounted to about $60, go towards missionary purposes.

The pastor, Rev. J. R. Webb, occupied the chair and, after a few appropriate remarks, introduced the following programme;

Piano solo, Miss F. Loutley.

Dialogue, "The Census Taker," by Miss A. Hardwicke and Mr. W Garbutt

Vocal solo, Mr. Toncelblow.

Instrumental duet, Misses Elcome.

Recitation, Miss Greta LeBar.

Violin solo, Miss Hope Miller.

Recitation, Mrs. Hunt.

Solo, Mr. E. M. Booker.

Piano duet, Misses Walker and Quinn.

Vocal duet, Mr. Troncelblow and Miss C. Kidd.

Recitation, Miss G. LeBar.

Dialogue, Misses Hazel Kidd, M. Montgomery, and Messrs. Percy Blade, Jas. Ellis and Earl Cross.

The Mandolin Club also gave several selections.

Refreshments were then served and a pleasant evening brought to a close by the singing of the National Anthem.

GROUNDS WILL BE BEAUTIFUL

Trees Will be Planted at New King Edward School

Arrangements are under way for the beautifying of the grounds in connection with the new King Edward school in the south ward. Trees will be planted, the grounds levelled and everything done to make the surroundings in keeping with the new building. At the meeting of the Board of Education last night $100 was appropriated to be used for planting trees and otherwise improving the grounds. This is only a nest-egg and it is likely that considerable more money will be spent in this way.

Mr Robinson also drew attention to the fact that the steps at the main entrance to the new school are not in keeping with the rest of the building and the special committee in charge of the new school were instructed to see what could be done about having them changed. It is likely that a change will be made as the members of the board are not at all satisfied with the steps that are there now.

IN CRITICAL CONDITION

Little Girl, Who Was so Badly Burned, Not Likely to Recover.

The little daughter of Mr. Cornelius Quinlan, Oxford street, who was so badly burned on Monday night by her clothing igniting, when she was rescuing her handkerchief from a bonfire is in a critical condition at St. Joseph's hospital.

Everything possible is being done but the attending physician and hospital authorities both reported today, that there seemed very little

Teamsters are Worth $3.75 a Day

Fair Play Writes in Opposition to Stand Taken by the City Council

To the Editor of the Review.

What is the reason the name of our fair city should be sullied by the refusal of our city officials to pay our teamsters a fair living wage

Our teamsters are certainly a credit to us. They have all good horses and outfits, purchased at a large expense: they are all industrious, sober citizens, most of them heads of small families, and why should we begrudge them enough to live on

The very members of the council who voted against them are all men who will not work unless they receive large pay, and why they should deny the teamsters living wages I don't understand.

When our street commissioner asked for an increase in his salary, he received it, and no one questioned the action. It is plainly seen that the commissioner and chairman of Board of Works do not approve of working cheap, as shown by the chairman, at a meeting of the council on April 29th, when he stated that he wanted $45—out of the $50 grant given to the little park at the corner of Charlotte and Park streets—for extra hauling a few loads of street scrapings there. It makes us wonder if there are two treasurers in connection with our city affairs. I have been informed that the commissioner stated he could fill all the teamsters places at $3.50 per day. If so, why did he run around all day yesterday trying to hire teams and offering them $3.75 per day.

We are now living in the twentieth century, and why, in the name of common sense, does not our commissioner treat our teamsters as white people. When addressing them (I am told) it is in a tone such as is sometimes used to lower animals. If such is the case, there is only one place for him and that is the Pacific Coast among the Chinese and Siwash.

Yours, etc.,
FAIR PLAY.

More Dogs Have Been Poisoned

Apparently the dog poisoner has not yet finished his cowardly work and is still on the war-path for all the canines that he comes across. A probable solution of how so many dogs fall victims to poison, is that some man, who rides a wheel, strews the deadly stuff on the streets as he wheels along.

Master "Bud" Miller, Aylmer-st. is mourning the loss of a valuable collie. It was poisoned Tuesday morning and expired a short while after.

The dog poisoner must have been travelling Aylmer street lately, as Mr Arthur Metheral came very nearly losing his English collie yesterday. It also had been poisoned but was noticed in time and it will most likely recover.

Mr Al. Spencely, Bethune street, also lost a valuable black hound yesterday. Mr. Spencely is at present out of the city and will be grieved to hear of the death of his dog, which he prized very highly.

Plan Might Wreck Empire; An Interesting Discussion

Winston Churchill Sees Political Objections to Preference.

Premiers Unanimously Adopt Resolutions of 1902—Sir Wilfrid Laurier Seeks Removal of Cattle Embargo—Declares Imperial Free Trade to Be Impracticable—Canada Desires to Keep Trade With the Empire.

London, May 8.—(C. A. P.)—A lengthy official precis of yesterday's proceedings at the imperial conference states that Winston Churchill, continuing the preference discussion, drew attention to considerations of a political and parliamentary character. He said that enormous parliamentary difficulties would be involved in the adoption of a system of preference. Colonial affairs always suffered from being brought into the arena of party politics, and the system of preference would involve them in its very midst. Many of those who might favor preference as an evidence of good will and good feeling would recoil from the schedule of taxation it would involve, as severe parliamentary criticism would be directed against these taxes and every year there would be an annual casting up of accounts. One could scarcely conceive any process better calculated to manufacture what did not now exist in the anti-colonial party. It was possible that under the system of preference the House of Commons would be asked to refuse a vote of preferential duties until some particular colony met its views upon a native policy or some other matter.

One Obstacle.

It was now open to the Home Government, but it would be hardly possible to secure recognition in this attitude if members are called upon to vote money to their constituents, while if ever a day came when the elections demanded in overwhelming majority the removal of the food tax, which could not be removed without consultations and agreements with Governments and Parliaments all over the globe, a shock and wrench would be administered to the structure of the empire, such as it had never before sustained.

Political objections to preference were insuperable and even at the conference it had been the apple of discord.

Sir Wilfrid Laurier observed that Canada stood by the resolutions in 1902, and free trade within the empire had been suggested, but this was impossible because the United Kingdom was not prepared to limit free trade to the empire. The Colonies were not prepared to accept free trade even within its boundaries. In Canada that policy was impracticable, as it is necessary for her to have customs duties as a main source of revenue. Canada had given British preference deliberately and had no cause to regret it, and Mr. Asquith had not given Canada all the credit to which he (Laurier) thought she was entitled. In making a comparison which showed no great advantage to British goods.

The Influence of U.S.

He dwelt on the effect of the proximity of a nation like the United States, and said it was not a matter for surprise that their trade with that country had increased, but so far as they could they had done everything to keep trade within the empire. They had built canals and railways from east to west, they had taken care to assist the principle of mutual trade so far as legislation could do it. He proceeded to move that the resolutions of 1902 be continued.

The Cattle Embargo.

Sir Wilfrid Laurier said there was one matter to which he must refer and that was the exclusion of Canadian live cattle from this country. They thought there was no justification on the ground of the sanitary condition of their cattle, and they resisted the measure as an injustice. In the interests of good relations in the Empire, he thought it necessary to invite the Home Government to consider the question seriously.

Mr. Asquith observed that as a private member of Parliament he had urged the Canadian view in question. He would undertake that the matter should be considered by the Board of Agriculture with the seriousness which it merited.

Mr. Birrell's Irish Bill Before the British Commons

Irish Bill Will Establish Administrative Council.

Mr. Birrell Introduces Measure in the House of Commons—Does Not Authorize Taxation—Council to Be Elected For Three Years — Lord Lieutenant to Have Power of Veto—Religious Disability Removed.

London, May 8.—The Irish Bill, designed to meet the demands for Irish Home Rule, was introduced in the House of Commons yesterday by the Chief Secretary for Ireland, Mr. Birrell, in the presence of an audience which crowded every corner of the Chamber. The bill provides "for the establishment and functions of an administrative council" for Ireland, with headquarters at Dublin. The Irish Secretary and those in his confidence kept their secret well, with the result that the political curiosity was keen to learn the precise details of the scheme, which is likely to create a prolonged controversy.

Object of the Bill.

At the outset Mr. Birrell explained that the object of the bill was to associate the sentiment of the Irish people as a whole with the administration, the statutes and the regulations which directed the conduct of purely Irish affairs. It did not contain any trace of new legislative power. It would not authorize the laying of a single tax or rate. The departments coming under the control of the proposed Irish Council would be the local Government Board, the Department of Agriculture, the congested districts board, the commissioners for public works and national education, the inspectors of the reformatory and industrial schools and the Registrar-General. The Supreme Court judicature, the Royal Irish Constabulary, the Dublin Metropolitan police, the land commission and the prisons board would remain under the control of the Imperial authorities. A representative administrative council, consisting of 82 elected and 22 nominated members, would be established. The latter would be nominated for the first year by the King and thereafter by the Lord-Lieutenant of Ireland.

Modified Form.

Prior to the appearance of the measure it was popularly termed a "Devolution Bill," but to-day its advocates refer to it as the "Irish Council Bill," owing to its creation of a Council to take over a number of the administrative features of Irish rule. But to Ireland and the general public the bill is the "Irish Bill," with Home Rule presented in such new and modified form as to enlist the support of elements hitherto hostile.

The elected members would be elected on a local government board franchise.

The Under-Secretary for the Lord-Lieutenant of Ireland would be an ex-officio member of the Council, which would have complete control of the powers vested in the departments to be handed over to its care.

The exercise of the powers vested in the departments will be controlled by resolutions of the Council and the supremacy of the Imperial Parliament will be safeguarded by the power given to the Lord-Lieutenant of Ireland to reserve his consent to any resolution of the Council. A new education department for primary and secondary education is to be established, and will be placed under the control of the Irish Council. The Council would be elected for three years.

Departments Created.

For financial purposes eight departments would be created. A certain annual sum to be fixed by Parliament every five years would be charged to the consolidated fund, and paid into a separate Irish fund. A special Irish fund to amount to a little over $20,000,000 yearly would be created.

The religious disability feature would be removed from the office of Lord-Lieutenant of Ireland.

The Council would have the power to appoint and remove officers from the eight departments above mentioned.

In conclusion, the Irish Secretary said that if the new Council proved a success, it might pave the way for Home Rule.

Balfour Condemns.

Mr. Balfour, the Opposition leader, characterized the bill as grossly unfair, as the Irish members of Parliament were still able to interfere in English and Scotch affairs, while the House of Commons would be unable to say a word in the analogous business about to be transferred to the new council.

The measure would not legitimately relieve the aspirations of the Irish, and would only cause confusion in the administration and entail real grievances on Scotland and England.

IMPORTANT CASE ADJOURNED.

Question of Provincial Rights Before the Supreme Court.

Ottawa, May 8.—From a constitutional standpoint probably the most important case to be heard by the supreme court is that of the C.P.R. v. the Ottawa Insurance Company. It involves the question of provincial rights and the hearing was adjourned until June 3.

The argument is whether the company, incorporated under a provincial act, can make contracts within the province to insure property situated without the province.

The issue was of such far-reaching consequences that re-argument was ordered so that federal and provincial interests might be heard on the constitutional question involved.

There was an array of counsel for the Dominion, E. Newcombe, K.C., Deputy Minister Justice; for Ontario, W. Nesbit, K.C.; for Quebec, H. Gervais, K.C., M.P.; for New Brunswick, Hon. Wm. Pugsley, K.C., Attorney-General and Premier; for the C.P.R. (appellant), G. F. Shepley, K.C., and Mr. Maybee; for the Ottawa Fire Insurance Company (respondent), Messrs. Ewart, K.C., and Burritt.

Mr. Gervais said that on account of the absence of Premier Gouin in Great Britain he was unable to have a proper case prepared, and asked for an adjournment until October. If some of the contentions were sustained the provinces might as well go out of business.

It was finally decided that the case should be heard on June 3, all the other provinces represented agreeing.

The case arises through the C.P.R. being insured against indemnity for claims for fire damages due to sparks from engine. A claim was instituted by parties in the State of Maine for timber destroyed by fire. The Ottawa Insurance Co. disputed the railway company's claims. The railway company was defeated in the lower courts and appealed to the supreme court.

FOY TO GO TO ENGLAND.

Will Represent Ontario At Imperial Educational Conference.

Toronto, May 8.—While there has been no definite announcement it is understood that Hon. J. J. Foy, Attorney-General for Ontario, will be sent to represent this province at the imperial conference of education, which will take place in London this summer.

Representatives will be present from all the dependencies of the empire, and among the matters to be dealt with are a number which are of especial interest to the Colonies.

It is proposed to endeavor to secure a uniform standard of qualifications for teachers throughout the empire, and an effort may be made to have text books as nearly alike as possible.

Special attention will be given to institutions for educating the deaf, dumb and blind, and university matters will also have a prominent bearing at the conference.

Mr. Foy, it is said, will go to the conference armed with a complete outline of the educational plans of the Ontario Government, and if he picks up any ideas at the conference which are deemed worthy of adoption, the Government may enlarge their present scheme of improvement.

MAN KILLED IN CAR RIOT.

Serious Clash With Strikers In San Francisco—Many Injured.

San Francisco, Cal., May 8.—The strike of the 1,700 motormen and conductors of the United Railways developed yesterday into a riot, in which more than a score of persons were seriously hurt, some of them fatally.

At 2.30 o'clock the company made its first attempt to resume operations by sending out seven passenger cars, manned by about forty strike-breakers. The men wore uniforms of car inspectors, and each carried a 38-caliber revolver. The start was made from the company's barn at Turk and Filmore streets, where a crowd of from 3,000 to 5,000 men and boys had gathered.

Rev. John S. Clarke Dead.

Niagara-on-the-Lake, May 8.—Rev. John S. Clarke died here yesterday afternoon, after a few days' illness.

Mr. Clarke was born in Ireland in February, 1834, and, coming to Canada when 16 years old, settled in Toronto, where he entered the employ of the late James Austin Banker. At the age of 20 he entered the Methodist ministry. Among the principal places where Mr. Clarke served as pastor are: London, Barrie, Grimsby, Oshawa, Thorold, Whitby. He was superannuated some 12 years ago.

Lepers Leave Canada.

Victoria, B. C., May 8.—Yesterday morning the entire colony of six Chinese lepers, which hitherto has been located on D'Arcy Island, in the gulf, was shipped to China by special steamer, chartered by the Dominion Government.

This step is the outcome of an arrangement arrived at between Canada and China, and in future all leperous Chinese caught within the Dominion will be returned to China at the expense of the Government of the Celestial Kingdom.

Killed His Father.

Binghamton, N. Y., May 8.—The jury in the case of Aubrey Decker of Deposit, charged with manslaughter, in killing his father, B. Frank Decker, yesterday reported a verdict of guilty of manslaughter in the second degree. Justice Lyon will sentence the prisoner some time during the week.

Negro Lynched.

Dearing, Ga., May 8.—Charlie Harris, a negro farm hand, who Monday shot and seriously wounded Hayden Pearson, a prominent farmer, was lynched that night by a mob of about forty unmasked men. Members of Harris' family then were whipped and ordered to leave the country.

Slays Wife, Babe and Self.

Washington, D. C., May 8.—Wm. O. Rice of this city yesterday shot and killed his wife, mortally wounded their baby, and then committed suicide by shooting.

Dr. R. A. Falconer, the new president of Toronto University, will be banquetted by the Halifax Canadian Club.

SHOOTS FAMILY OF SIX

Insane Man in San Francisco Commits Terrible Crime.

Used Double-Barreled Shot Gun With Deadly Effect—Fancied There Was Plot to Kill Him For His Money—Visited Each Room Bent on Murder—Young Girl Has Miraculous Escape.

San Francisco, May 8.—Walter Charley Davis, a carpenter, in a fit of insanity yesterday, shot and killed a family of six persons, with whom he resided in Pierres street, in this city.

Orson R. Bush, aged 57, his wife and their young son.

W. S. Bard, carpenter.

M. E. Zinton, surveyor, recently from New York.

One lodger escaped. She was a girl of 17 years. Davis pointed his gun at her and was preparing to shoot when he said she resembled his daughter, so he spared her life.

Davis and his victims all resided with the Bush family. Davis' home was in Farmersville, this state, where he has a wife and six children. He has been working here as a carpenter since the fire.

The shooting was done with a double-barreled shotgun. Davis, who slept in the same room with young Bush and Bard, arose shortly after five o'clock, and after arming himself with the gun, shot his two roommates. Then he visited each room in turn, killing the occupants.

Davis fancied that the people in the house had formed a plot to kill him and take his money.

RECKLESS BOY'S TRAGEDY

Tries Robbery, Shoots at Policeman, Then In Fright, Suicides.

Philadelphia, May 8.—Foiled in his attempt to hold-up, with the aid of a companion, two trolley conductors in West Philadelphia yesterday, and fearing that he had killed a policeman in his effort to escape, Harold S. Jones, aged 16 years, shot and killed himself on the street, as he was about to be captured. A companion, G. H. Geddis, aged 18 years, was arrested at his home.

Jones belonged to a good family, his father being a prosperous business man. The boy had some differences with his father Monday, and he was told to "shift" for himself. As the boy was leaving the house his weeping mother asked him what he was going to do, and he replied: "I don't know, and I don't care."

Jones sought out Geddis, and they were not heard of again until they turned up in West Philadelphia and tried to hold up the two conductors, who were on their way home from their night's work. Jones drew a revolver and ordered the conductors to hold up their hands, but instead of complying they showed fight, and Jones and his companion fled. Policemen saw the occurrence and gave chase. After running a block, Jones turned and shot at one of the pursuing policemen. The bullet went wide of the mark, but the policeman, in order to deceive the fleeing youth, dropped to the sidewalk as if he had been shot.

Jones saw him fall and stopped. He did not approach the policeman, but backed up against the side of a house and sent a bullet into his own heart.

BRIDAL TRAGEDY.

Young Wife Shot and Stabbed on the Night of the Wedding.

South Franklin, Mass., May 8.—The police have been unable to locate John Danelio who is alleged to have shot his bride of a night, Frances Danelio, at their newly-prepared home Sunday night.

The couple were married Sunday and received friends in their new home until nearly midnight, when they retired, Mr. Danelio, the groom's father, who occupied a room upstairs, being the only other occupant of the house with them. Early Monday he was aroused by hearing revolver shots downstairs, and, hurrying down to the couple's rooms, found the young woman lying on the bed with three bullet wounds and three stab wounds in her body.

The husband had disappeared.

Serious Tie-Up Feared.

New York, May 8.—A serious tie-up of trans-Atlantic shipping now appears imminent, as a result of the strike of longshoremen at this port. Practically every one of the companies which operate big passenger and mail steamers between New York and European ports are affected.

These conditions are particularly annoying to the companies operating the big steamers just at this time, as the spring travel to Europe is just getting under full headway. The Kaiser Wilhelm Der Grosse, which is due to sail at 10 a. m., had a full list of passengers and sailed an hour late.

Representatives of the trans-Atlantic steamship line affected by the strike of longshoremen met in conference last night, and later one of the number declared that the companies had agreed to stand together in a refusal of the demands made.

The only disorder reported occurred yesterday when 150 strikers scattered 40 non-union men who were on their way to the White Star Line pier.

The strikers now number about 10,000 men.

Tillsonburg's Bylaw.

Tillsonburg, May 8.—The bylaw granting a loan of $15,000 and exemption from taxation for 20 years, to William Berry, for the establishment of a linen factory in Tillsonburg, was carried by 348 to 6.

Britain Helps Jamaica.

London, May 8.—It is stated that the British Government has decided to make a grant of $750,000 gratis to Jamaica, and to guarantee the island a loan of $5,000,000 to assist in its rehabitation.

A number of guests quarantined in the Imperial Hotel, Brantford, ask the city to pay their board bills.

THE MARKETS.

Liverpool Wheat Futures Close Higher, Chicago Lower—Live Stock—Latest Quotations.

Tuesday Evening, May 7.

Liverpool wheat futures closed to-day ⅝d to 1⅛ higher than yesterday, and corn futures ½d higher.

At Chicago May wheat closed ⅝c lower than yesterday, May corn ⅝c lower, and May oats ½c lower.

Winnipeg Options.

Following were the closing quotations to day on Winnipeg futures: Wheat—May 82⅝c bid, July 85c bid, Oct. 85⅝c bid. Oats—May 38c bid, July 38⅝c bid.

Leading Wheat Markets.

Liverpool Grain and Produce.

LIVERPOOL, May 7.—Wheat, spot, steady; No. 2 red western winter, 6s 3½d; No. 1 California, 6s 5½d; futures, steady; May, 6s 7½d; July, 6s 6¾d; Sept., 6s 7⅜d. Corn, spot, steady; American mixed new, 4s 7½d; American mixed, old, 5s ⅜d; futures quiet: July, 4s 7¼d; Sept., 4s 7¼d. Lard, prime western in tierces, steady; 44s 9d; American refined in pails, firm, 45s 9d.

New York Dairy Market.

NEW YORK, May 7.—Butter, firm, unchanged; receipts, 7308. Cheese, steady, unchanged; receipts, 4378. Eggs, firm, unchanged; receipts, 27,552.

CATTLE MARKETS.

Cables Unchanged—American Cattle Prices Are Steady.

LONDON, May 7.—Liverpool and London cables are firmer at 11½c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9c per lb.

Toronto Live Stock.

TORONTO, May 7.—Receipts of live stock at the city market, as reported by the railways, were 75 car loads, composed of 1172 cattle, 646 hogs, 278 sheep and lambs, and 484 calves, with 9 horses.

Exporters.

No straight loads of shipping cattle were reported, but a few odd lots were reported as having been sold at $5.15 to $5.30. Bulls are worth from $3.75 to $4.50 per cwt.

Butchers.

Prime picked lots of butchers' cattle sold at $5.10 to $5.20, and one lot of 4 extra choice was reported by Corbett & Henderson at $5.40, but they were good enough for export purposes and better than many that are being shipped daily. Loads and lots of good sold at $4.75 to $5; medium, $4.50 to $4.75; cows ranged all the way from $2.75 to $4.60.

Feeders and Stockers.

Harry Murby reports the market steady at last week's prices, with few offering—not enough to supply the demand.

Milch Cows.

There was a strong market for good to choice quality cows, of which there was not enough to supply the demand, as there were several farmers who could not get a supply. Prices ranged all the way from $34 to $60, and one of extra quality was reported as having brought $75.

Veal Calves.

Wesley Dunn, who reported having bought 420 calves, paid prices ranging from $3 to $6 per cwt, or an average of $6.50.

Sheep and Lambs.

Receipts light, prices strong as follows: Export ewes, $6 to $6.50; rams, $5 to $5.50 per cwt.; good yearling lambs, $7.50 to $8.25; common yearlings, $5.50 to $6.50; spring lambs, $4 to $8 each.

Hogs.

Receipts light, prices 10c per cwt. higher. Mr. Harris reported selects at $6.50 and lights and fats at $6.25 per cwt.

East Buffalo Cattle Market.

EAST BUFFALO, May 7.—Cattle, receipts, 100 head; active and steady to strong; prime steers, $5.65 to $6. Veals, receipts, 50 head; active and 25c higher; $5 to $7. Hogs, receipts, 2100 head; active and a shade higher; heavy, $6.60 to $6.80; mixed, yorkers and pigs, $6.80 to $6.85; roughs, $5.90 to $6. Sheep and lambs, receipts, 5200 head; sheep, steady; lambs, slow and 10c lower; lambs, $3.50 to $7.75.

New York Live Stock.

NEW YORK, May 7.—Beeves, receipts, 2213; no trading; feeling weak; exports to-day, 990 cattle, 510 sheep and 3650 quarters of beef; to-morrow, 6600 quarters of beef. Calves, receipts, none, and nothing doing; feeling nominally steady. Sheep and lambs, receipts, 4180; market full steady; spring lambs sold at $5.85 per head. Hogs, receipts, 1966; none for sale; feeling nominally weak to 10c lower.

Chicago Live Stock.

CHICAGO, May 7.—Cattle—Receipts, about 3500; market steady; common to prime steers, $4 to $6.40; cows, $3.55 to $5; heifers, $3 to $5.50; calves, $2.75 to $5.75; stockers and feeders, $3 to $3.52.

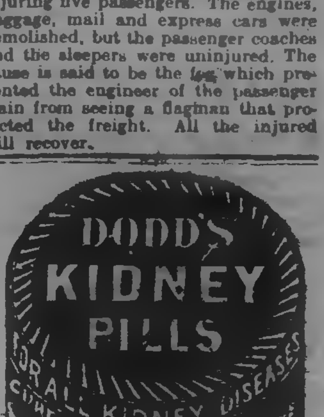
Hogs—Receipts, 15,000; market light, strong, others steady; choice to prime, heavy, $6.42½ to $6.45; medium to good, heavy, $6.40 to $6.42½; butcher weights, $6.42½ to $6.47½; good to prime, mixed, $6.40 to $6.42; packing, $6.20 to $6.40; pigs, $5.50 to $6.40; bulk of sales, $6.42½ to $6.47½.

Sheep and Lambs—Receipts, about 12,000; market steady; sheep, $4.25 to $6.10; yearlings, $6 to $6.85; lambs, $5.50 to $8.75.

FATAL TRAIN WRECK.

Four Trainmen Killed and Eight People Injured.

Wheeling, W. Va., May 8.—In a dense fog early yesterday the New York-Chicago Express, No. 7, on the Baltimore and Ohio, crashed into an east-bound freight as it was taking a siding at Rosbys Rocks, near here, killing four of the railroad men, seriously injuring three others and slightly injuring five passengers. The engines, baggage, mail and express cars were demolished, but the passenger coaches and the sleepers were uninjured. The cause is said to be the fog which prevented the engineer of the passenger train from seeing a flagman that protected the freight. All the injured will recover.



Maypole Soap—a Dye

—that gives twenty-three colours—rich, self-glowing, dull tones or glossy, pronounced shades. For 10c. (15c. for black) we will send you our book on Home-Dyeing with full-size cake (state colour.) Maypole Soap is equally good for silk, cotton, wool, plush, etc. Nothing so satisfactory for dyeing draperies, cream-cloths, fans, dresses, etc. All shades', 10c. Black, 15c. Use it this Spring and save money. Write to-day.

The Marathon Mystery

A Story of Manhattan

By BURTON E. STEVENSON

Author of "The Belladay Case"

Copyright, 1904, by Henry Holt and Company

I went directly to her.

"So here you are," I said, "ready to go back to that St. Pierre you love so much. Aren't you glad?"

"Oh, very glad," she answered, with a single listless glance at me. "I shall never come back to this horrible place."

"And Tremaine will join you in two weeks," I added.

This time she looked at me—a lightning flash—a glance that brought back vividly my dream.

"Will he?" she asked between her teeth.

"Why," I questioned, in affected surprise, "don't you think he will?"

She drew in her breath with a quick gasp.

"What does it matter? I'm only a fille-de-couleur. I shall laugh and forget, like all the others," and, indeed, a strange unnatural excitement had come into her face.

I saw her eyes devouring Tremaine as he approached.

"Everything is arranged," he said cheerily, shaking hands with me. "Here are the checks, Cecily. Now take us down to your stateroom and do the honors."

"As you please, doudoux," she answered quietly, and led the way.

It was a very pleasant cabin, one of the best on board, and I saw that some of her personal belongings were already scattered about it. Against the hot water pipe in one corner was hanging Fe Fe's cage. A curtain had been tied about it to protect its tender occupant from the cold.

"I see you're taking Fe Fe with you," I remarked.

"To be sure she is," said Tremaine. "She knows the snake would starve to death if she left it with me. But we must drink to a good voyage."

He rose and touched the electric button. Cecily followed him with eyes gleaming like two coals of fire. Looking at her, I felt a vague uneasiness—did she have concealed in the bosom of her gown that same revolver—was she only waiting a favorable moment?

"The first toast is yours, Mr. Lester," said Tremaine, as he filled the glasses.

"To Cecily!" I cried. "Her health, long life and happiness!"

"Thank you, che," she said simply, and very gravely, and we drank it.

Just then a bell sounded loudly from the deck and a voice shouting commands.

"Come, we must be going," said Tremaine, rising hastily. "That's the shore bell."

I passed out first, and for an instant held my breath, expecting I know not what—a dull report—a scream. But in a moment they came out together. Tremaine and I made a rush for the gang plank, while Cecily again took up her station against the rail. We waved to her and waved again, shouting goodbye as the last rope was cast loose and the steamer began to move away from the dock.

She waved back at us and kissed her hands, looking very beautiful.

Then suddenly her face changed. She swayed and caught at the rail for support.

"She's going to faint, pardieu!" said Tremaine.

But she did not faint. Instead she made a funnel of her hands and shouted a last message back at us.

Tremaine nodded as though he understood and waved his hand.

"Did you catch what she said?" he asked.

"No, not a word of it. That tug over there whistled just then."

"I caught the word 'lit.' She probably wants to know how many she'll have to get ready, but no matter," and he turned to me with an expressive little shrug.

"Why? Isn't the committee really going to Martinique?"

"Oh, a couple of engineers are going to look over the ground and report."

"And you?"

"I shall stay here." He waved his handkerchief again at the receding boat, then passed it across his forehead. "That takes a big load off my mind, Mr. Lester, I tell you, to get her safely off and be alive to tell the tale. I rather expected her to stick a knife into me last night. I made a great mistake in bringing her with me."

"But I thought you said"—

"Oh, they do laugh and forget in time, but just at first they naturally feel bad. Now, before the voyage is over I dare say Cecily will have another doudoux—some handsome creole returning home, perhaps. She's a magnificent woman, just the same," he added.

"That she is," I agreed, and threw a last look down the river.

The boat was almost hidden by the morning mist. In a moment more it had quite disappeared, bearing Cecily to death, a fortnight later, in the shadow of Pelee. And I doubt if I shall ever know another woman like her.

CHAPTER XXIV.

WHEN I opened the office door, twenty minutes later, I was surprised to find Godfrey just within, in close conference with Mr. Royce.

"Here he is!" he cried. "No, no; don't take off your coat; don't even take off your hat! Come along; it's a mighty close thing now," and he caught me by the arm.

"It's all right, Lester," said our junior, seeing my astonished countenance. "Mr. Godfrey will explain on the way out."

That was enough; I needed no second bidding and ran after Godfrey to the elevator. At the curb a cab was waiting and we jumped into it.

"James slip," called Godfrey, and in an instant we were off.

The driver seemed to realize the need of haste, for we bumped over the paving stones at a prodigious rate, threading the dirty streets and finally pulling up with a whirl in the shadow of Brooklyn bridge.

"Come on!" cried Godfrey, and we crossed the ferry house at a jump, slammed our tickets into the chopper and sprang aboard the boat just as it was casting loose.

"That was a close shave," said Godfrey, sinking into the nearest seat and taking off his hat.

I sat down beside him and mopped away the perspiration. I had need of all my breath for a moment, but at last I managed to blurt out a question.

To be continued.

Tramp of Armed Men Resounded

57th Regiment Had First March-out of Season Last Night

Stepping along lively to the music of the brass and bugle bands and carrying themselves with fine military bearing, the 57th Regiment, Peterborough Rangers, had their first marchout of the season last night. Hundreds thronged the streets to see the red-coats go past and many were the comments heard regarding the splendid manner in which the men marched, and the military swing that was in evidence as they swept along. Col. Miller was in command and the start was made from the drill hall about eight o'clock. Both bands were out in good strength and alternately supplied the music during the march. The route of parade was George street to Charlotte, Charlotte to Water, Water to Hunter, Hunter to George and then along George back to the armory. The total strength of the regiment last night was 280 which made the turnout the largest of the season and of course, it was highly gratifying to the officers. One or two of the companies were a little weak, but it is expected that they will make a better showing before the next marchout. The crowd that turned out to see the parade of the soldiers was an immense one. The streets were thronged and at several points the red-coats had difficulty in having a clear passage.

Upon the return to Central Park a half hour was spent in company drill before dismissing. It is not likely that there will be another march out for 2 weeks. Next Tuesday night will be spent in drilling on the parade grounds.

ORDERS READ.

The following orders were read last night.

Headquarters, Peterboro'
May 7th, 1907.

Orders by Lieut-Col. J. W. Miller Commanding 57th Regiment, Peterborough Rangers.

No 1.—Detail of duty for week ending May 14, 1907;—Captain for the weeks, Capt. McWilliams; next for duty, Capt. MacLean; subaltern for the week, Lieut. Wallace; next for duty, Lieut. Gemmell.

The following has been taken on the strength of the Regiment, April 30th, 1907, G Co., Pte. G. E. Godden.

No. 3.—The Commanding Officer has been pleased to make the following promotion; H Co., to be sergeant, Corp. F. Richardson, vice Sergt K. Lech, left limits.

FOR OVER 60 YEARS

An old and well tried remedy. — Mrs Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

It Will Greatly Benefit Canada

Cheaper Post is a Wise Reform —What it Will Mean

The London Daily Mail says,—The announcement that Mr. Buxton, the Postmaster-General, intends to reduce the rate for newspapers, magazines and trade journals to Canada from May 1 onwards, has given great satisfaction in commercial circles, and there is enthusiastic recognition of the advantages which the new rule will confer on the community in Canada.

Publishing and distributing agencies have been preparing for a large addition to their Canadian work. The Daily Mail has decided in view of the new arrangement, to increase at once, its great trade connexion with Canada. The essentials of the change are summed up in the following table,—

Present rate—2 oz., 1-2d.; 1 lb. 4d.
New rate,—2 oz., 1-2 d.; 1 lb., 1d.

Mr. Smart, manager of the news department of Messrs. W. H. Smith and Son, could not say too much in favor of Mr. Buxton's reform. "What it means," he said, "is that Canada in the future, instead of reading American papers, will read English papers. Hitherto tens of thousands of people have been content with American news and views, because English journals were prohibitive in price on account of the postage.

"The new charges will help commerce in this country, too. There are, at a moderate estimate, three million readers in Canada. They will now read English advertisements in their papers, instead of American advertisements. That means that English goods, will find a wide, new market.

"To show that we believe in the practical effect of the change, let me say that I have now a staff, working hard to perfect arrangements for the enormously increased export of English journals, which will follow. We believe that we will send to Canada under the new regulations a thousand papers, where we now send one. Within a week I shall be able to send 50,000 papers daily."

Other large firms bore out the views of Messrs. Smith and Son. Messrs. Wyman were confident that the change would greatly benefit this country and Canada. "It will," said Mr Macintosh, the managing director, undoubtedly increase very largely the sale of English periodicals there. It is an excellent change.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Vice-President Fitzhugh of the G. T. R., says London's proposals for new tracks will be taken up immediately.

HINTS ON HOME BUILDING.

The man who is thinking of building a home (and who is not, in these prosperous times) must have prominently in mind, economy, durability and appearance.

The wise builder will select materials that are good and inexpensive, as well as handsome in appearance. Take the roof, for instance. It should be proof against lightning, fire and water, and should also possess a handsome appearance.

Wood shingles have had their day. As now manufactured, they soon rot and crack, thus making it necessary to reshingle.

"Safe Lock" Galvanized Steel Shingles solve the problem in every way. They lock at the top, bottom and both sides, so that they are absolutely proof against every element. Being heavily galvanized, they cannot rust and are practically indestructible. Moreover, the smooth surface of the shingle will not permit dust or dirt to lodge on the roof, and defile the rain water.

The Metal Shingle & Siding Co., Limited, of Preston, Ont., offer to send you, free, their literature containing names of those who have used "Safe Lock" Shingles in your own locality. 47

Many Improvements Made to Time Table

New Ideas Embodied by G. T. R. Which Will be Appreciated

The ordinary railway time table is generally a source of considerable trouble to the travelling public when they are arranging for a trip to any given point, and though the officials of the passenger department have given this subject a considerable amount of thought and labor, new ideas suggest themselves from time to time and improvements are made for the benefit of the traveller. The Grand Trunk Railway System is probably one of the most difficult lines on this continent to study, owing to the many ramifications of their branch lines radiating from the main trunk line and the innumerable number of junction points at which connections are made. The company, however, have just issued their complete time table dated April 30th, in which are embodied many new ideas that will be appreciated by the public generally. The idea has been to show the time table in such a way that anyone may see at a glance the route of their train and equipment that will be at their disposal. In the past the through car service has been shown under the local time table which necessitated a repetition throughout the folder that created a needless amount of study. This has been obviated by the elimination of all this superfluous data and all the equipment and condensed time of their trains are shown on six pages, so that any person, at a glance, can find the time of any particular train and the exact through car service that is offered on each train.

Another acceptable feature, and one that will be of great help to the travelling public, is a series of tables showing the condensed time of trains, these tables being surmounted by a map showing the route of any particular train, that is shown in this condensed time table.

Connections via foreign lines, east and west, are also given, together with tourist sleeping car service on the Grand Trunk, as well as service from Chicago to points on the Pacific coast and the south eastern parts of the United States. Other pages are devoted to rail connections from junction points along the main line, steam connections and stage connections. One page of the folder is devoted to the cab tariff in the cities of Montreal, Toronto, Hamilton, London, Ottawa and Chicago as well as information as to transfer of passengers and baggage at terminal points. There is also a portion of the folder devoted to information as to baggage, which will be of interest to the travelling public.

The folder is an advance on previous railroad time tables in Canada and will be gladly received by those who only occasionally travel or by those who are continually moving from place to place.

Want Restriction Removed.

Ottawa, May 8.—It was expected that the request of a deputation from Keewatin, which was here Monday would be dealt with at the Cabinet meeting yesterday, but the matter of the request was not considered.

The deputation wanted the district of Keewatin exempted from the effect of the proclamation of the Government prohibiting the sale of liquor within 20 miles of the construction of the Transcontinental Railway in the new district.

London Election Trial.

Toronto, May 8.—The London election charges will be tried here.

That is the decision which Mr. Justice Britton handed out yesterday. E. F. B. Johnston, K.C., on behalf of John O'Gorman and others moved to have the venue changed to London.

His Lordship admitted the reasonableness of the defence's application to have the venue changed to London on the ground of economy, but decided that as the alleged offences were said to have taken place in Toronto and as there was no suggestion that a fair trial could not be obtained here, it was impossible to change the venue on the grounds laid down in the application.

Perish From Starvation.

Cape Town, May 8.—Finding it useless to resist the German troops, 15,000 Herero tribesmen, according to information received here yesterday from Central South Africa, decided some time ago to move northeastward, with the object of establishing a settlement in the Lake Ngamir region, but only 4,000 of the natives reached their destination after terrible sufferings, the remaining 11,000 having perished from starvation.

William Creepin, sentenced at Napanee to six years for criminal assault, was taken to Kingston, yesterday.

ROBBERS HOLD UP TRAIN.

Were Scared Off However and Did Not Get Anything.

Butte, Mont., May 8.—The North Coast Limited, the crack train on the Northern Pacific Railway, was held up at Welch's Spur, about 15 miles east of here, and the engineer killed.

The object of the robbers, it is presumed, was to secure the contents of the through safe, carrying consignments of currency from Seattle, Portland and Spokane to eastern points.

General Manager Horn of the Northern Pacific Railroad gave out the following statement about the attempt to rob the North Coast Limited, near Butte, Mont., yesterday:

"No. 22, eastbound North Coast Limited, Engineer Frank Clow and Conductor Culver, was held up on the east side of Butte Mountain, about 16 miles east of Butte, Montana, by two or more men, who shot and killed the engineer and shot the fireman through the arm. They did some more shooting, but evidently became alarmed and left. Sheriff Webb of Billings was on the train and started on the trail of the hold-up men. Bloodhounds from the Deer Lodge penitentiary have been put on their trail also, and we expect to get the men. Engineer Clow had been running that train for eight years. The robbers did not get any money. While this road has had several hold-ups in that vicinity in the past ten years, we have captured the robbers in every instance, and they are all doing time in the penitentiary, and in all that time our money loss has not been to exceed $3,000."

TO AMEND THE LORDS.

Qualification by Service—House to Be Partly Elective.

London, May 8.—The discussion in the House of Lords Monday night was devoted to Lord Newton's bill proposing the reconstitution of the House on a partly elective basis. He seeks to remove the excessive preponderance of hereditary peers by stipulating qualification through service to the State or previous election, and he provides for a certain number of elected peers and for the nomination by the Crown of life peers, these not to exceed one hundred in number.

Th House, as well as the galleries, were thronged, showing the interest aroused by the Conservative proposal to anticipate Government action and the possibility of the debate provoking a statement of the intentions of the Government. This, however, did not come to pass, the Earl of Crewe, Lord President of the Council, speaking on behalf of the Government, declining to have anything to do with Lord Newton's proposal. He gave no hint of the Government's plans, although his cryptic utterances on the subject conveyed the idea that the Government contemplated a somewhat drastic measure. After this announcement the debate was adjourned.

CUSTOMS OFFICERS GLAD.

Increase of Salaries From Ten to Fifteen Per Cent.

Ottawa, May 8.—When pay checks are sent out to the customs officers throughout Canada this month they will be agreeably surprised to find that there has been a general increase of from 10 to 15 per cent. in the salary schedules of the department, aggregating an annual increase of about $200,000 to the various customs officials and employes. The increases will date from April 1, and this month's pay checks will include the increase due for the previous month. Owing to the fact that the estimates for the current year were not put through Parliament until April 2, Hon. Mr. Paterson was unable to give the increased salaries when the April pay checks were sent out. It has also been decided that hereafter the Department of Customs will pay the cost of guaranteed insurance policies required from all the customs officials; hitherto the premiums on these policies have been deducted from the salaries.

BLACKSOD A CRAZY SCHEME.

Holyhead Mentioned as Likely Port For Fast Route.

London, May 8.—One of the principal promoters of the short-cut to Canada via Blacksod Bay has declared that, unless the scheme is very well subsidized, he will withdraw.

A prominent Canadian in London, who is much interested in establishing a fast service between England and Canada remarks that, of all the crazy projects he had heard of, the Blacksod Bay scheme was the craziest.

The Canadian Associated Press believes that Holyhead is receiving the attention of some people interested in the fast service to Canada. It has been said that when the proposed service of 24-knot steamers is established they will touch at French ports, as do now the German-American line boats.

ABSOLUTE SECURITY.

At Druggists Everywhere.

Boy Electrocuted.

Belleville, May 8.—A sad accident occurred shortly before nine o'clock yesterday morning at the corner of Geddes and Ridley streets here, when a young lad named Robert Cecil Thompson, son of Charles Thompson, plumber, was electrocuted by taking hold of a live electric wire. He sustained a shock of 2,000 volts and died instantly.

When found the boy had the wire in his hands, and some companions had to use a board to knock the wire from his grasp.

Farmers Sued On Notes.

Glencoe, May 8.—Before Judge Elliott of Glencoe yesterday, ten farmers of the Township of Ekfrid were sued by the Standard Bank, which claims to hold notes made by these farmers for the amount of $20 each in favor of the Farmers' Manufacturing and Supply Co. of Durham.

The defendants claim that the notes were obtained by fraud. One claim was non-suited, and in the others judgment was reserved.

Newfoundland Right.

St. John's, Nfld., May 8.—The Supreme Court of Newfoundland yesterday gave a majority decision upholding the Colonial Government in its contentions respecting the so-called Bay of Islands herring fisheries' case, in which the right of Newfoundland fishermen to be employed by American vessel owners within the three-mile limit was involved.

Lost His Barns and His Home

Mr. Wm. Northey of South Burleigh Visited by Fire

A fire broke out around the chimney of the farm house of Mr. William Northey, of South Burleigh, near Mt. Julian, on Tuesday night. Despite the efforts made to quench it, the fire spread rapidly, eating its way over the entire structure and burning the sheds adjoining.

The wind was blowing strongly in the direction of the large barns in the farm yard which took fire and were all destroyed.

Fortunately there was time to remove all the horses and cattle, but the contents of the barns in fodder and implements, were entirely destroyed. The loss is not covered by insurance, and is a very serious one for Mr. Northey, especially at the time when operations for the season were well started.

Building Permits Being Issued

Twnety-one permits have been issued to date and every day several more are being taken out. If the law is put in force after the ten days have expired it will soon be that everyone interested in building will apply for their permit. Yesterday the permits were issued for the Collegiate Institute and the armories.

Several Received Rebekah Degree

Golden Link Rebekah Lodge, No. 81, held a field night last night when nine candidates were initiated. Among those who received the Rebekah degree, were several from Havelock.

At the close refreshments were served and a very pleasant social time was spent.

REMOVAL

On or before May 15th our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

JOHN NUGENT

OBITUARY

MRS. THOS. SULLIVAN.

A highly respected resident of Douro township, passed away yesterday, in the person of Mrs. Thos. Sullivan. Deceased was 49 years of age, and had been ill for about three months with cancer, and although everything was done for her, her life could not be prolonged. Her maiden name was Kate Guerin, and she is survived by her husband and eight children, five sons and two daughters. The sons are, James, Dennis, Martin, William and Tommy, and the daughters are Mary, Johanna and Maggie, all residing at home at the present time. Eight brothers and one sister, also survive. The sister is Mrs. Stratton, of Rochester, N. Y., and three of the brothers, Messrs. Frank, Morris and Michael Geurin, reside in Peterborough. Mrs. Stratton of Rochester, was present at the death of her sister, having been with her for several weeks. The late Mrs. Sullivan was highly respected by a large number of friends, and acquaintances, and her death will be learned of with deep regret.

The funeral will take place tomorrow morning from the family home in the sixth concession of Douro, to St. Joseph's church and thence to the Douro cemetery.

CATHERINE EGAN.

The death occurred this morning at seven o'clock of Miss Catherine Egan at 97 Gilmour street, after a lengthy illness of five month's duration. She was suffering with paralysis. The deceased was sixty-seven years of age. She was born in Otonabee and was the daughter of the late Thomas Egan. She moved to this city two years ago, and had resided with her sister, Mrs. Wm. Redmond ever since. She was widely known and highly respected by all who knew her. One brother, Mr. John Egan of New York, and one sister, Mrs. Wm. Redmond, are left to mourn her loss.

The funeral will take place on Friday morning at nine o'clock, from 97 Gilmour street, to St. Peter's cathedral, and thence to the Roman Catholic cemetery for interment.

Buys Hotel in New Liskeard

Mr. J. A. Lawless is Now Proprietor of the Canada House

Mr. J. A. Lawless, of the National Hotel, who has been out of the city for a few days, has, it is said, brought out the Canada House at New Liskeard, Ont., for over $30,000.

The Toronto News of last evening contains the following reference to Mr. Lawless:—

It is reported in New Liskeard that Mr. J. A. Lawless, of the National Hotel, Peterborough, has bought the Canada House in New Liskeard for over $30,000.

P. C. Newhall Did Not Appear

Before Commission and Meeting Was Adjourned Until This Afternoon

The Police Commissioners met yesterday afternoon for the purpose of investigating the charge against Constable Newhall, which was laid by Brakeman Davidson, of the C.P.R. The constable did not appear before the commission, and the hearing was adjourned until this afternoon. It appears that he did not receive the notice to attend in time.

Mr. Hubert McBain Returns From His Trip to British Colombia

Had Thoroughly Enjoyable Time—Met Many Peterborough Old Boys Who Are Doing Well—Interested in Real Estate and Made Some Money—West is Prosperous.

The many friends of Mr. Hubert McBain will be pleased to see him back in the city again this week. He has been in British Columbia for the past two and a half months on a trip for pleasure and for business also. He spent most of his time in Vancouver, Victoria and Seattle, Wash., and says he thoroughly enjoyed every day he was there. His health was greatly benefitted and he is feeling better now than he has for a long time.

In Vancouver everything is hustling. Real estate is advancing every week. Business is booming, while the population is increasing in leaps and bounds. While there he purchased considerable real estate and for for the most part turned it over within a week or ten days at a good profit. Before he left he had made enough to pay him well for his trip out. He also left several lots unsold in North Vancouver, which is a residential section across the inlet. This will, in a few years, be very valuable, if the city continues to grow as it has in the past. Vancouver, says Mr. McBain, is one of the finest cities he was ever in. It is naturally beautiful, the people are all hustlers, there is lots of money and business, while the climate is deal. All through March the people went about in their summer garments. The first two weeks in April were wet, but when he left a week ago it was like July. Vancouver is so different from the country this side of the Rockies, where everything is still frozen up. There is no ploughing in the prairie provinces and in Kenora and other places the Scotchmen are still curling on good ice. The weather does not begin to moderate until North Bay is reached. The season is very backward and all the people in the west are complaining. The west is, however, growing in population. The people are simply pouring in from every direction as fast as the railroads can carry them.

While in the Pacific province Mr. McBain met many old Peterborough boys. They are so numerous out there that one feels quite at home and hardly a day passes but some of the old guard turns up. Among those who are meeting with success that he came in contact with, are; Mr. C. B. McAllister, of Revelstoke; Mr. Matthews, formerly school teacher in Ashburnham; S. G. Falkner, who was connected with the insurance business here, is now in the British Columbia Trusts Co., and is doing exceedingly well; Mr. Bathgate who was formerly in Macdonald's drug store; Mr. Chas. Whiten, who is now travelling for a jewellry firm, and Mr. Robt. Kerr, another traveller, who recently went west.

The capital of British Columbia is a wonderful city. It is only twenty years old and has a population of 60,000 people, and there is every prospect of it increasing to 100,000 within a few years. In speaking of investing in real estate Mr. McBain said that if a person could not arrange for them to go out personally, for them to purchase as large a block as possible, and forget all about it for a few years, and then it will be worth a lot of money. It is an expensive city to live in but wages are high in every walk of life and everyone can get work.

Victoria is a very beautiful city and a very wealthy city. There is not much business activity there, as the people seem to take life easier and enjoy themselves. While in that city Mr. McBain met Mr. Robt. Buller, an old Peterborough boy. He is the manager of the C.P.R.'s new agency on both trains and boats and is doing remarkably well.

Teamsters' Strike is Still on; Hopes of Settlement To-night

Street Commissioner Evans Says Contractors do Not Pay More Than $3.50 Per Day—Teamsters Asked to Meet the Board of Works—No Gravel Drawn To-day.

The teamsters' strike on the corporation work is still on. The council refuses to give $3.75 per day and the men will not go back to work for less. This is how it appears from the outside.

Mr. Harry Evans was seen this morning and he did not have much to say about it. He admitted that the men were still out. But, he added, they are the heaviest losers. Already they have lost more money than they will make in a month by the extra 25 cents a day, and if the strike goes on for a week, they will not be able to make it up this season. No contractor in the city is paying $3.75 per day, and the teamsters know it. They want the city to set the price so that they can demand it from others. A teamster frequently takes a contract for taking out a cellar and by working hard and long hours, he will make $3.75 or $4.00 per day. But he does not get it any other way. Personally, the commissioner would not say, whether $3.50 per day, was enough or not. He did say that he had asked several of the teamsters to meet the Board of Works tonight, and he had no fear but that the matter would be settled.

It is understood on the street, that several teamsters have signified their willingness to go back to work at the same price, but they did not like to butt in, while the strike was on. As soon as an understanding is reached, it is likely that lots of teams will be available. The different contractors in the city are not running after the teamsters at all, and they find that they are losing money by being idle.

One man pointed out that the teamsters should never have quit. They should have kept on working and waited for an opportunity to get into other work, and leave the city's employ. The city would in a short time be without teams, and they would have to put up the price.

"The intention of the aldermen was not to keep the teamsters out of their just wages. As soon as the contractors pay more money the city will. But the city does not want to establish higher wages, and thus force contractors to do the same," said one of the aldermen.

No matter what the outcome is, and the majority of people would be glad to see the teamsters get all the money they are worth, still the strike is injurious to the teamsters. The sooner it is settled, the better for all concerned.

The teamsters are handicapped, as they have no union in the city. They have no official head, with whom the Street Commissioner could confer. The strike is merely an understanding between the individuals, and it cannot last long, even if the city refuses to deal with the men.

Charlotte Street Methodists Will Erect a New Church

A new church for the Charlotte street congregation is likely to be a reality in the near future. The present edifice has been outgrown and a committee has been appointed to take the preliminary steps in connection with the erection of a new church.

The matter was discussed at the meeting of the Quarterly Official Board last night, when the committee was appointed to take charge of the scheme and see what can be done.

The present church is filled at every service, in fact it is oftentimes congested and at the rate the congregation has grown during the past few years, it is only a matter of time before a new building will have to be put up.

The committee will set to work at once to make the initial preparations. Plans will be prepared and estimates secured of the cost of a new church to meet the requirements of the congregation.

School Book Commissioner Hands Back the Remuneration

A step for which few precendents will be found, says the Mail and Empire, has been taken by Mr. T. W. Crothers, barrister, of St. Thomas, who filled the position of chairman of the commission which investigated the school book situation on behalf of the Provincial Government. As remuneration for his labors $2,000 was appropriated by the Legislature. This he has seen fit to reject, and merely asks the province to reimburse him for actual expenditures.

He explains his position in the following letter, which he addressed to Mr. C. H. Sproule, Assistant Provincial Treasurer;—

"Dear Sir,—I have your letter of the 26th inst., enclosing cheque for, $2,000 re Text Book Commission, and I thank the Government for proposing to pay me that sum.

"When Mr. Whitney asked me to assist in the investigation remuneration was not mentioned. I acceded to his request in the hope that we might render some service to the province, and not with any view to financial gain.

"The honor of the appointment, the pleasure I had in the enquiry, and the assurance that, we did accomplish something, are more than ample compensation for the time and labor expended. I therefore return you the cheque, and if you will be good enough to send me one for $192, the amount of my actual disbursements, I shall be perfectly content.

"Yours truly,
(Signed) "T. W. CROTHERS."

The death of the Rev. Alex Grant M.A., who had been Minister of Knox church, St. Mary's, for many years, came as a shock to the community, and was the subject of sympathetic references in all the churches.

Barnardo Girls Arrive in City

Party of 93 Were Received at Hazel Brae To-day

A party of 93 girls under the direction of Mr. Owen, superintendent of the Barnardo Homes in Canada, arrived in the city this morning by the C. P. R., shortly after five o'clock.

The girls, who come from all parts of the Old Country, range in years from six to sixteen and are a healthy, happy looking lot. They came over on the Steamship Dominion of the Dominion Line, and landed at Quebec. The passage was rather a rough one. Nearly all the girls have already found good homes in the province and a large number will leave for the west on Friday.

On the same boat on which the girls crossed, were 160 boys, who passed through the city this morning to Toronto.

Miss Pearse of "Hazel Brae," reports that another large company of girls will arrive in Peterborough in about six weeks. This will be the last part brought out this year, making three in all.

Early Closing in Keene Village

Stores Will be Open Only Three Nights in the Week

Keene, May 8th.—Mr. John Donnelly was in the village Thursday.

Mr. Malcolm McIntyre, of Peterborough was in Keene Friday.

Mr. J. R. McIntyre is erecting a house on Mill street for Mr. James Dickson, jr.

Friday, May 4th, was celebrated as Arbor Day by the citizens.

Mr. John Lang is excavating this cellar, preparatory to raising his house.

Beginning Wednesday, May 15th, all stores in Keene will close at six p.m., Mondays, Wednesdays and Fridays.

Mr. John Hewie, Westwood, was in the village Saturday.

Mr. James Edwards, jr., is suffering from a severe attack of brain fever.

Mr. William Campbell, jr., returned Saturday from a week's visit in Toronto.

Mr. Thomas Graham, Westwood, was in the village Saturday.

Messrs. John Dinsdale and Sons, are erecting a fine solid brick house for Mr. William Moore on the property he purchased from Miss McCrae.

His Services are Appreciated

Rev. Dr. Symonds Gets Increase of $1,000 in Stipend

The Montreal Star says: Announcement was made at the annual vestry meeting of Christ Church Cathedral last night, that the salary of the vicar, Rev. Dr. Symonds, will be increased by an additional $1,000 per annum.

The warden's report stated that the annual income of the cathedral is nearly $28,000, and that the balance on hand, after payment of all outstanding debt is $850. It had been the best year in the history of the cathedral. The work of renovating the interior of the cathedral will be proceeded with, and the wardens were authorized, in addition, to spend $3,500 on the exterior of the church. The wardens were re-elected and votes of thanks for their services were passed.

New Roadmaster in Peterborough

Mr. Wm. Bibby Was Here Last Night

Mr. Wm. Bibby, the new General Roadmaster of the Northern Division of the Grand Trunk, was in Peterborough last night, and was the guest of his brother, Mr. N. Bibby. This is the new roadmaster's first visit to Peterborough, since assuming his new position, and he was heartily congratulated on his promotion.

The leper colony at Victoria, all Chinese, were loaded on a tramp steamer last night, and deported to China.

You may forget the tenderness of the steak—the crispness of the toast—but you will ne'er forget the satisfying deliciousness of your breakfast cup of Chase & Sanborn's SEAL BRAND COFFEE.

WILL INCREASE CAPITAL STOCK

Colonial Weaving Co. Preparing to Erect New Building

The shareholders of the Colonial Weaving Co., will hold a special meeting on Saturday, May 18th, for the purpose of considering and passing a bylaw to increase the capital stock of the company from $60,000 to $110,000. The new issue of stock will be seven per cent. preferred.

It is the intention to underwrite only $25,000 of the increased amount at present. The company intend to erect a new and larger building and to purchase additional looms, as they cannot at present fill all the orders received owing to lack of sufficient machinery and factory room. It is anticipated that the city council will grant the company a free site for their new building and give them a fixed assessment for a term of years.

Forty Men Left for South River

Mr. George Strain left this morning by the G.T.R. for South River with a gang of forty men, who will be employed by the Turner Lumber Co. for the season on their drives of logs.

Conferences of Methodist Church

Annual conferences of the Methodist Church will be held this year as follows,—

Bay of Quinte, Bowmanville Methodist Church, June 5.

Toronto, Elm Street Methodist Church, June 13-18.

Hamilton, Trinity Methodist Church Berlin, May 29-30.

Montreal, Grace Methodist Church, Gananoque, May 31 June 4.

London, North Street Church, Goderich, May 30.

Alberta, Central Methodist Church, Calgary, May 21-28.

Saskatchewan, Methodist Church, Regina, June 6.

Manitoba, Albert Carman Memorial Methodist Church, Carman, Manitoba, June 14.

BEING OVERDONE

The Canadian Premier is too Frenchy in His Speeches.

To the Editor of the Review.

Sir.—The cablegrams give Sir Sir Wilfrid Laurier's speeches as French to the backbone. His latest is that "Canada preserves us, France inspires us, and England respects us." Who is "us?" It begins to look as if there was only one kind of Canada, and a French one at that. This "French" business is being overdone.

Yours, etc.,
BRITISH-CANADIAN.

RECORD MILLINERY SELLING

—AT—

ATTRACTIVE PRICES

As the flower-coaxing Spring days multiply our popular Millinery Department blossoms more profusely than ever with its markedly superior and clever interpretations of the New York, London and Paris models. The dainty summery styles are represented and indicated in every shape. The pretty crowns and brims of the various Mohair and Straw Braids, Chips and Leghorns. The colorings are beautiful, ever so much more so than last season. The popular burnt shades, also Black and White. But the one very important point is the VALUES, and that they are the best here is clearly proven by the following lines. Those contemplating MILLINERY purchases should not fail to consider these attractive offerings:

$7.50 Trimmed Hat, characteristic styles; all the leading shapes in the newest shades, beautifully trimmed with Roses and othes popular flower foliages & Ribbons. Choice. $7.50

$5.00 Trimmed Hats, distinct styles and various blocked shapes, chip and rough Straws, trimmed with flowers, wings, ribbons, malines and foliages, all popular colors. Special $5.00

$3.50 New Sailor and Knockabouts. New shapes and styles, neatly trimmed with Ribbons, Flowers, Quills, Ornaments, etc. Colors to suit all. On sale. $3.50

The Daily Review

WEDNESDAY, MAY 8, 1907.

Woman's Home Missionary Society

The Elizabeth Bell Auxiliary Will be Re-organized

Last night a number of ladies, interested in the work of the Woman's Home Missionary Society, gathered in St. Andrew's Sunday school hall for the purpose of re-organizing the Elizabeth Bell Auxiliary, which has for the past year been carried on by the Young People's Society.

Those present enjoyed the report of the annual meeting of the General Society, held at Toronto, in March, which was given by Mrs. Robert Hall of this city. The report called attention to the importance of the work in the West, among the foreigners, and in the hospitals. Cases of intense interests were alluded to and all present were charged with a sense of new responsibility and privilege.

At the conclusion of the presentation of the report, it was moved and seconded and was heartily carried that the thanks of the meeting be tendered Mrs. Hall for her excellent report. The meeting then adjourned to be convened at the close of the W. F. M. S. meeting on Tuesday, 21st.

Rev. J. G. Potter presided, and expressed his deep interest in the work that already had been accomplished and hoped for larger things being done in future.

BATTERY NOTES

A. E. Hutchison has been appointed Quartermaster-Sergeant of the 24th Field Battery.

Sergeant-Major Fee, who has been ill is recovering.

Drill will be started in a few days in preparation for the camp at Petawawa.

THE CITY AND VICINITY

EVENTS TO-NIGHT

Y.M.C.A. Hall—Meeting of the Peterborough Cricket Club.

Meeting of the 57th Regiment officers, at eight o'clock.

Target practice of No. 4 and 5, Companies, at the drill shed.

LAST CHANCE.

Today is the last chance you will have of seeing the great Spanish bull fight; also, race for the King's plate. These moving pictures can be seen at Scott's Colloseum, 432 George street. Admission 5 cents. Matinees, 2 to 6. Evening, 7 to 10. Look out for the date of the great Thaw-White trial.

NICHOLS OVAL TENNIS CLUB

Annual Meeting Held Last Evening—Large Attendance of Members

The annual meeting of the Nicholl's Oval Tennis Club, was held in the Y.M.C.A. last evening and was largely attended by the members.

The president, Dr. J. E. Middleton, reviewed the work of the last season and reports of the meetings held and the financial condition of the club, were read by the secretary-treasurer, Miss Winnifred Dobbin.

The constitution of the club, which had been prepared by a committee, was read and adopted, with some amendments. Several new members were balloted for, and admitted, the membership list, being limited to 40.

The following officers were elected for the ensuing year,—

President—Mr. Charles Sisson.

Vice-President—Mr. Howard Waram.

Secretary-treasurer — Miss Birdie Thompson.

Executive Committee — Miss Winnifred Dobbin, Miss Grace Coolidge, Mr. D. B. MacRae, and Mr. Ray Best.

The reports of the finances were very satisfactory, there being a balance in the bank, to the credit of the club. It is likely that the grounds will be ready by the end of next week, and the first of the tennis teas will be held shortly.

Bowling Club Meets To-night

The adjourned annual meeting of the Peterborough Bowling Club will be held this evening in the Dominion Bank chambers at 8 o'clock. Officers for the coming year will be elected and a large attendance of members is requested.

Harriers to Hold Weekly Run To-night

The Harriers will hold their regular weekly run this evening, starting from the Y.M.C.A. at 8 o'clock. The run will be about three miles, and the following are requested to turn out:—Elliott, Brace, B. Lang, N. Darling, Emmerson, McRae, Dingman, R. Best, E. Best, M. Wilson, P. Wallace, Redgrave, E. Brace, R. Fitzgerald, M. Yelland, Finch, Brown, Rose, Barber, Jas. Collins.

CRICKET

CRICKET CLUB MEETING.

There will be a meeting of the Cricket Club tonight at eight o'clock in the Y.M.C.A. when it is hoped there will be a large attendance of all those interested in the game. The last meeting was called off on account of the small number present. It is hoped that will not be the case tonight. Important buisness will come up and it is urgent that all cricket enthusiasts turn out. The game will be revived in this city and unless every officer and member does his share to make it a success there will be no cricket this summer. Let there be a good turnout at tonight's meeting.

GOLF

SOME IMPROVEMENTS.

Several improvements have been made to the grounds of the Peterborough Golf and Country Club. A new outbuilding has been erected for storing the utensils, etc., while a new shower bath has been installed for the convenience of the gentlemen. Several other changes which will be appreciated have also been carried out.

BASEBALL

VICTORIA DAY GAMES

Manager Johnson, of the Peterborough Baseball Club, went to Toronto this morning to complete arrangements for the games with the Arctics on May 24th and 25th. The game on the morning of Victoria Day will be played at Riverside Park, the one in the afternoon at the exhibition grounds, and the Saturday afternoon game at Riverside.

The Peterborough Baseball Team will practice at Riverside Park tomorrow night. A full attendance of players is requested.

Many More Skulls Unearthed To-day

Several more skulls were unearthed today at the excavation for the new armories. The men have excavated to the depth of four feet and a half.

More skulls and bones are being found where the armories are being dug than where the Collegiate Institute is. The skulls are most of them in a good state of preservation. They are not broken up, but have retained their original shape.

Mr Wm. Bibbey, roadmaster of the G.T.R. was in the city last evening, and was the guest of Mr. Jos. Mayler over night.

His Lordship Bishop O'Connor will go to Campbellford on Sunday to administer the rite of confirmation to a large number of candidates.

The engagement is announced of Miss Emily W. H. Magraw and Mr. Robert Helderman. The marriage will take place Wednesday, June 5th.

Rev. Father O'Sullivan, of Kirkfield, was presented with an address and a well filled purse of gold by his congregation before leaving for the old country.

A Kirkfield correspondent writes; Messrs Spence, Malone and Sherwood, engineers of the Trent canal office staff, Peterborough, spent a few days in our village last week.

Mr. James Barlow and wife, Mr. W. Y Fair and wife, Mr. Wm. J. Renton and Mr. N. C. Stibbs, all of Havelock, were in the city yesterday.

Rev. S. C. Moore, B.A., B.D., of the Main Street Methodist Church, Picton, has received and accepted a unanimous invitation to the pastorate of the First Methodist church at Trenton, Ont.

Mr L. Mulkern, of Toronto, travelling freight agent of the G.T.R. and Mr. M. H. Brown, of Toronto general freight agent of the C.P.R., were in the city yesterday, and spent the day with Mr. W. S. Dodd local agent of the company.

Miss Coventry, physical directress of the Y.W.C.A., left today for Kingston to attend the closing exercises of the Y.W.C.A. gymnasium classes in that city. Miss Hamilton, of the Kingston Y.W.C.A. will return with her to Peterborough and spend a few days here.

Invitations have been issued for the marriage of Miss Agnes L. Campbell, daughter of Capt. and Mrs. P. M. Campbell, Collingwood, to Mr. Harold M. Dyment, son of Mr. Simon Dyment, of Barrie. The wedding will take place at the Presbyterian church, Collingwood, on Thursday, May 16th.

Lindsay Post; Mr. Percy McLean, travelleer for Geo. Matthews & Co. Peterborough, was in town today... Mr. Forsyth, of Peterborough, organist of the Cambridge street Methodist church, intends removing with his family, to town in the near future...Mr. R. C. Balfour, of Peterborough, agent for the International Correspondence School, visited his parents in town over Sunday.

Mrs D. C. Cameron was the hostess at a delightful tea yesterday afternoon, given in honor of her guest, Mrs. Ackland, of Toronto. In the dining room, the lovely tea-table, centred with fragrant American beauties, was presided over by Mrs. Richards and Mrs. Minty, assisted by the charming daughter of the house. Among the guests were noticed Mrs. Lee, Mrs. Ross, Lady Schultz, Mrs. Cantlie, Miss Mrchie, Mrs. Morse, Mrs. W. Bain, Mrs. Caldwell, Mrs. Guthrie, Mrs. W. F. Alloway, Mrs. Moffat, Mrs. Girdlestone, Mrs. Dennison, Mrs. A. Bain, Mrs. Max Dennistoun, Mrs. Hough, Mrs. Hugh Sutherland, Mrs. Carruthers, Mrs. McMillan, Mrs. Killam, Mrs. Wm. Robinson, Mrs. Phillips and a few others.—Winnipeg Free Press.

Fire, Water and Light Committee To Buy Hook and Ladder Truck

From Hugh Cameron & Son, of Toronto, at a Cost of $1600—New Hose Waggon—New Electric Door Opening Device and Other New Features.

The Fire, Water and Light Committee has decided to purchase a new hook and ladder truck with ladders and other equipment from Hugh Cameron & Son, of Toronto, who handle the Seagrave wagon, of Walkerville. The price is $1,600. A hose wagon will also be purchased from one of the local wagon makers, and one or two other small items will be added to complete the equipment. The chairman of the committee will also make arrangements for lettering over the front of the fire hall, and it is fully expected that everything will be in good shape for the opening on Tuesday night next.

Those present were Chairman Johnston, Ald. Duncan, Ald. Morgan and Mayor McWilliams.

Mr. Doan, local manager of the Bell Telephone Co.; Mr. Linten and Mr. Andrews were present in connection with telephones for Mr. Pakenham and Chief Rutherford's residence. Mr. Doan suggested that the Chief's telephone be on the same line as the telephone at the fire hall, so that they both ring at the same time, although he would not recommend putting to private 'phones on the same line.

It was decided just to put in bells at the chief's house and Mr. Pakenham's house at present, and, if it is found advisable to put in phones later the committee will do so.

DOOR OPENERS.

Chairman Johnston spoke of an electric attachment for opening the doors at the same time the gong sounds. He said that it would cost about $100. The attachment is a very simple one. It consists of a latch at the top of each door, two springs on the door and a latch to hold them open. It was proposed to purchase the door openers and have Mr. Pakenham install it.

Moved by Ald. Duncan, seconded by Ald Morgan, that a mechanical bell be installed in Mr. Pakenham's residence.—Carried.

HOOK AND LADDER.

Hugh Cameron & Son, of Toronto, agents for the Seagrave hook and ladder trucks, which are made in Walkerville, put in a tender for the new hook and ladder truck and ladders. The best price they could quote for all the ladders was $1,050. A new hose wagon made in the city will bring the total up to about $1,285.

Moved by Ald. Duncan and the Mayor, that the tender of Hugh Cameron & Son be accepted.—Carried.

The new hook and ladder truck will contain a 54 foot extension ladder, a 28 foot trussed wall ladder, a 20 foot trussed wall ladder, a 12 foot trussed roof ladder with rigid hooks, a 14 ft. trussed roof ladder, with fold-hooks, 2 fire axes, 4 lanterns, 2 crowbars, 4 improvised pike poles, 1 harpoon pole. This waggon is guaranteed for five years.

Board of Education Had Busy Session Last Night

McGregor and Reid Get Contract for Heating New Collegiate Institute—Many Reports Presented—Delegation From Y.W.C.A. Regarding Domestic Science.

The Board of Education held a regular meeting last night at which a large amount of business was transacted. Reports were received from the chairmen of several committees and with one or two exceptions they were adopted without discussion. Among other business transacted, was the awarding of the contract for the heating of new Collegiate Institute, McGregor and Reid getting the work, their price being $4,800. There were several tenderers.

The board is to be commended on the businesslike manner in which everything is conducted at the meetings. No time is wasted, and the business is transacted in a manner that might well be followed by other public bodies. Those present were Messrs. Fair, chairman; Dumble, Robinson, Crane, Ackerman, Hayes, Hill, Pringle, Burnham and Secretary Morrow.

COMMUNICATIONS.

The reading of communications was first taken up.

Mr. W. Stock wrote, stating that he was erecting a modern bake shop on Sherbrooke Street, and it was necessary to have a sewer on that thoroughfare, between Stewart and Rubidge Streets, in order that the shop might be drained in a sanitary manner. All the property owners on that part of the street, had signed a petition asking for the sewer, except the Board of Education, which owns the South Ward Public School. Mr. Stock asked the Board to sign the petition. It was decided to grant the request.

Miss Florence E. Kerr of Ottawa, wrote asking for a position on the local Public School staff should a vacancy occur. Referred to the Committee on Appointments.

Mr. Richard Baker wrote, asking for the appointment as janitor of the new King Edward School. Referred to Committee on Appointments.

Notice was received from the City Clerk, that there was a charge against the Board in connection with the new sewer on Barnardo ave. of $17. Received.

A communication was received from Mr. Murdock, Murdock & Company, asking for permission to establish orchestral classes in the schools of Peterborough. Referred to Supervision Committee.

Communications were also received from Adam Hall, F. R. J. MacPherson, and Hutchison and Sturgeon, in connection with their tenders for the heating of the new Collegiate Institute.

ATTENDANCE.

The report of the attendance for March of the Public Schools, was received as follows.—

	On Roll.	Ave.	P.C.
Central School	401	347	86.6
South Central	521	469	90.0
East Ward	203	166	81.5
North Ward	173	155	90.0
West Ward	194	181	93.2
George Street	152	140	92.2
	1644	1458	88.7
Kindergartens	101	76	75.8
	1745	1534	87.9

Report for April,—

	On Roll.	Ave.	P.C.
Central School	409	354	86.6
South Central	498	442	88.8
East Ward	204	183	89.6

	1648	1442	87.5
Kindergartens	127	91	71.3
	1775	1533	86.4

MONIES RECEIVED.

Text book fees	$ 233.63
City Treasurer Account, municipal grant	3500.00
City Treasurer account, King Edward School	2000.00
George Gregory, rent to May 18th	8.00
C. Fessenden, fees	385.00

C. I. BUILDING COMMITTEE.

The following report was received from the Collegiate Institute Building Committee,—"To the Chairman and members of the Board of Education,—

Gentlemen,—Your Building Committee beg leave to report and recommend that the tender of Messrs. McGregor & Reid for the heating of the Collegiate Institute building at $4,800 be accepted, they to use the Triumph Boiler, and the Dominion Radiator Company's goods, they to furnish bonds for the satisfactory performance of the contract, and that the chairman and secretary be authorized to sign the contract on behalf of the Board, and that as soon as the contract and bonds are signed their cheque be returned to them their tender to cover temporary heating.

All of which is respectfully submitted,

W. H. HILL,
Acting Chairman.

ACCOUNTS RECEIVED.

The following accounts were received and referred to the Finance Committee,—

Thos. Williams	$11.00
Supply teachers, March and April	6.00

Pet. Light & Power Co.	5.00
Pet. Light & Power Co.	3.00
Times Printing Co.	10.20
Mail & Empire	2.60
J. J. McBain & Son	2.50
W. Might	2.50
Review Printing Co.	17.96

In reference to the tax bill on part of Lot 2, Plan 33, being No. 18, Cedar Street, we would recommend, that the Secretary be appointed to write the City Council, asking to have the taxes for 1906 remitted, as this property is owned by the Board.

L. M. HAYES,
Chairman.

A deputation from the Y. W. C. A. consisting of Mesdames H. Denne, A. W. Cressman, W. H. Hill, and Miss Mayneord, waited on the Board in connection with the introduction of the teaching of Domestic Science in the Public Schools. The ladies pointed out the excellent equipment for teaching Domestic Science in connection with the Association, and asked that the Board enter into negotiations with them regarding the instruction of classes from the Public Schools in connection with this subject at the Y.W.C.A. The ladies were courteously received and after some discussion, the matter was referred to the Supervision Committee, for their consideration.

Mr. Robinson urged that a janitor for the King Edward school should be appointed at once, as it would not do to leave the building without someone in charge. On motion of Messrs. Robinson and Burnham, the Committee on Appointments was instructed to proceed along the lines suggested by Mr. Robinson, and were given power to act.

Mr. Hill, Chairman of the Committee on Appointments, was instructed to proceed with the necessary advertising to secure a principal and two assistant teachers for the King Edward School.

Mr. Pringle brought up the question of advertising for tenders for text-books and supplies for 1907-1908 and the Supervision Committee was instructed to advertise for tenders in this connection.

Several other minor matters were discussed.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

Medical Inspection of the Schools is Now Proposed

Matter is Discussed by the Board of Education—Supervision Committee is Dealing With the Question.

Should there be a medical health inspection of the public schools of Peterborough? This question now occupies the minds of the members of the Board of Education, and it is not improbable that something may be done along the line of securing information as to the health of the pupils in the schools, as it is felt that the present system will stand considerable improvement.

The matter was brought up at the board last night, when Mr. Pringle, chairman of the Supervision Committee, presented the following report:—

"Your committee begs leave to report in reference to the matter of testing the eyesight of the pupils in our public schools, and recommend that the previous action of your Board in connection therewith be hereby rescinded. That owing to its importance the whole question be referred back again to the Supervision Committee to carefully investigate and report to this Board as to the best means of dealing with the matter at the beginning of the fall term."

Mr. Pringle supplemented the report with a few remarks, in which he stated that he believed that a medical inspection of the schools would be a good thing. The health of the pupils was a very important matter, and at the present time there was no way of finding out whether pupils were suffering from infectious diseases and whether their health was such that they should attend school. He considered that a medical officer whose duty it was to look after the health of the school children, would find plenty to do and could render great service to the community. Parents could be warned if their children were not in good health, if their eyes or teeth were becoming defective and they could then call in the family physician.

Mr. Hill concurred with Mr. Pringle, and quoted from several articles dealing with medical inspection of the public schools in New York City. There the Medical inspection of the schools revealed the fact that a large percentage of the scholars were suffering from disease of one kind or another, and their parents being apprised of it, were able to have them cured, and a big improvement had been made in this way. Mr. Hill was heartily in favor of doing something that would supply information concerning the health of the school children.

Belleville Cheese Sold at 12$\frac{5}{16}$ Picton's Highest Bid Was 12$\frac{1}{4}$

Brockville, Ont., May 4.—The annual general meeting of the Brockville cheese board took place today and despite the prevailing stormy weather, there was a fair attendance of members, all of whom showed an enthusiastic interest in the affairs of the association.

The sale of cheese was then proceeded, the offerings being 1,102 boxes white and 990 colored.

The market was brisk from the drop of the hat, though the general opinion seemed to be that the prices were forced and not in keeping with prevailing conditions. From 11 cents the bids were rapidly advanced until 11 3-4c was reached, when Laing secured 100 white and 170 colored. No further sales were made until the price was again advanced by Webster to 11 7-8 cents, at which he took 40 white and 35 colored. After that nothing less than 11 7-8c. was offered and sales on the board were made to buyers, as follows,—Derbyshire, 70 white, 195 colored; Webster, 75 white, 250 colored; Murphy, 55 white. The total sales including the lots secured by Laing at 11 3-4c. amounted to 915 boxes.

On the curb, the remaining lots were disposed of. Many who held out for more money were successful in getting 12 cents, while having the preference, though no distinction was made on the board. It is estimated that 3,500 boxes changed hands on a basis of these prices, with 11 7-8 cents ruling.

For the corresponding week last year the sales were 4,350 boxes, and the prices ranged from 10 1-2 to 10 7-8 cents. These prices are in marked contrast to those offered on the same date of 1904, when cheese sold at from 6 1-2 to 7 cents per lb.

Belleville, Ont., May 4.—Offerings of cheese this date were 1,176 boxes white, balance April make; 553 boxes sold at 12 5-16c. and 623 at 12 1-4c. Market active.

Crysler, May 4.—Brisk bidding was the feature of the cheese board today. Bids started at 11 1-2c. and quickly advanced to 12 cents, at which price every lot sold, except one, which went at 11 15-16c.

Cornwall, Ont., May 4.—At the Cornwall cheese board today 606 boxes of cheese were boarded, 443 white and 163 colored. Six buyers were present, and for nearly two hours they bid in vain on Montreal inspection, while the factorymen held out for factory inspection. Finally all were sold at 11 7-8 cents, Montreal inspection. A bid of 11 5-8 cents for factory inspection found no takers. Several of the buyers agreed to bid both Montreal and factory inspection next Saturday. Quite a number of factories of the Cornwall board prefer Montreal inspection, but they are standing with the others in hopes of enlarging the board.

Vankleek Hill, May 4.—The Vankleek Hill cheese board held its first meeting this afternoon. There were only five factories that had cheese to sell, 153 boxes in all. All sold on the board at 11 7-8 cents.

Picton, Ont., May 4.—At our cheese board to-day 14 factories boarded 880 colored, 56 boxes white; total, 936; highest bid 12 1-4; 846 sold. Buyers, Seedsmith and Thompson.

Use Septic Tank in Ashburnham

Medical Health Officer's Report Was Sensational—Board of Health Recovered

An emergency meeting of the Board of Health was held this morning for the purpose of hearing the Medical Health Officer's report on the sedimentation tank in Ashburnham. It will be remembered that at the last meeting of the Board it was stated that the tank was not being used. The Medical Health Officer and Sanitary Inspector were instructed to examine the tank and ascertain the reason why it was not in use.

The officials, accompanied by the city engineer, visited the vault and found that the report was true and the tank was not in use. The reason for this was explained by the city engineer as being on account of the recent arbitration between the contractor and the city. This matter was only settled a week or so ago, but he said the tank could be put into use at a moment's notice.

The Medical Health Officer, however, did not approve of the sedimentation tank, and he predicted that it would be very detrimental to the public health. As far as the purpose of the tank was concerned he was fully convinced that it would work perfectly. For a minute the Board of Health was scared when they heard the doctor's sensational report. But the plans of Mr. Chipman were shown by the city engineer, the object of the tank was explained, and the Board was assured that the sewer system and septic tank in Ashburnham had been approved by the Provincial Board of Health.

It was moved and seconded that the sedimentation tank in Ashburnham be put in use today, and that in three months' time the Sanitary Inspector report on its condition.—Carried.

It was moved and seconded that the Sanitary Inspector look into the condition of the Ashburnham raceway and have it rectified.—Carried.

It was moved and seconded that the Sanitary Inspector be furnished by the city with free transportation on the street railway.—Carried.

Those present were:—Chairman Eyres, Mr. R. Neill, Mr. A. Parker, Dr. Burnham, City Engineer May, Dr. Bingham, Sanitary Inspector Ball and Mayor McWilliams.

Big Auto Bus Had First Run

The big auto bus was out for its first spin of the season yesterday afternoon. Mr. Ernest Hanna, the chauffeur, was in charge.

The bus has been overhauled and is now in first class shape for the summer runs.

A party of local gentlemen —18 in number—have hired the conveyance and will take a run to Buckhorn on Sunday next.

ASSAULT CASE WAS DISMISSED

Magistrate Considered That Martin Connors Had Provocation

At the police court this morning, before His Worship, Magistrate Dumble, Martin Connors, of the City Hotel, was charged with assaulting Charles May, yesterday. Mr. Connors pleaded not guilty, and His Worship, after hearing the evidence dismissed the case. He said that if May called Mr. Connors abusive names he must be prepared to take his medicine. Although he did not approve of Mr. Connors striking May, Mr. Dumble said that he would not fine him. May committed equally as bad an offense as Mr. Connors.

The complainant, Charles May, first gave evidence. He said that he was in the City Hotel yesterday. He and Connors had an argument over some work that he had done. Mr. Connors had deducted part of his wages to pay a bill at a hardware store. They had some words over the matter and Mr. Connors struck Mr. May.

Mr. Crowley stated that he was in the sitting room yesterday afternoon when he heard a racket going on in the bar. May and Connors were having a rather heated argument. May called Connors a liar and some other names that were not very nice. Connors then slapped him in the face. Mr. Crowley remarked that he would not have put up with what Mr. Connors did. He considered May got just what he deserved.

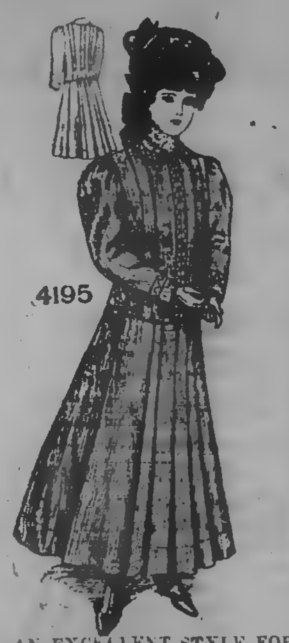
Gerald Martin also testified to having heard May call Connors a liar and other names. He did not see the fight.

Mr. Wm. Edwards, another painter, engaged at the hotel gave evidence. He had not seen the fight, nor had he heard any bad names.

Mr. Connors stated that he was getting some painting done, and May came and asked for the job. He let him have it, but some mornings he would not come to work till ten o'clock. He was told to go and other painters were got to do the work. Mr. Connors said that he paid May $10. May came in yesterday, and started calling him names. He wanted to know if he (Connors) was going to do the other painters out of their money the same as he had done him (May). At this, Mr. Connors said that he struck May.

His Worship after considering the evidence, dismissed the case.

LATEST DEAN PATTERNS



4195

4195.—AN EXCELLENT STYLE FOR LINEN OR CLOTH.

The semi-fitted coats worn by girls and women this year are not only becoming, but practical for home making. Here is a suit in panamas showing applied box-pleats on the coat and the skirt laid in pleats. The trig little vest which closes the coat in front is attractive and not elaborate, giving an opportunity for using some pretty trimming. The pleats need not be used on the coat unless desired, but they are wonderfully becoming. The skirt is in seven gores and laid in pleats after the newest mode. A cloth, worsted, linen or silk might serve as material, 7 1-8 yards of 50 inch material being needed in the medium size.

4195.—Sizes, 14, 15, 16, 17 years.

The price of this pattern is 10c. Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail.

LICENSES IN THE WEST

The new liquor license act of the Province of Saskatchewan changes entirely the administration of that department. Instead of having the province divided into districts, the new law provides for one board of three salaried commissioners for the province who shall cease to hold office on December 31st of each year. There will be seven license inspectors under a chief.

In cities and towns hotels must have at least twenty-five rooms and in villages not less than fifteen rooms, and each house shall have two sitting rooms separate from the bar.

For fire protection proper fastenings and ropes shall be kept in each room.

Signs printed in large letters containing directions to the location of fire escapes, which signs shall be placed and at all times kept in conspicuous places in halls and corridors.

A plan of all floors showing the location of stairs and fire escapes, such plans at all times kept exhibited on the walls of each bedroom.

Fire extinguishers to the number and of the quality or kind approved of by the inspector to be kept at all times in accessable places in the hall or corridor of each flat.

Where an electric light is installed lights shall be kept burning all night in each hall and corridor.

In cities the license fee is $400; in towns $300, in villages and rural localities $250. For each wholesale license:—In cities, $400; in places other than cities, $300.

PEN POINTS

Who has discovered the first dandelion?

All signs fail in this sort of weather—even the sign by-law.

"Shall we go gathering flowers in May?" No, better go searching for icicles.

The leather workers and teamsters are both on strike. They might organize baseball clubs.

Cheer up There is yet hope. The new fire station will be opened one of these days.

Those chaps, who have been taking fencing lessons at the Y.M.C.A. gymnasium, have, it is noticed, not helped to dig the post holes on the adjoining lot, which is being enclosed by a high board structure.

The Lindsay Post thinks the council of that town is waxing talkative because the aldermen sat for four hours the other night. That's nothing Peterborough civic daddies would regard a four-hour session as a comparatively short one.

The Toronto Star asks, "Where's enthusiasm over Longboat?" It seems to have evaporated, leaving only $30 in the educational fund. Poor Tom is having an experience similar to the great Daniel Webster, who said, "The people will praise you one day and cry down with you the next."

Premier Whitney has bought a fine house on George street, Toronto, and will move into it shortly. This indicates that in the Premier's judgment he is likely to be a resident of Toronto for some time, and so Premier of the Province. And in so concluding he is not far astray.

The latest newspapers to appear in the small towns and rural districts are much smaller in size and aim to set up all the matter on their own premises, thereby avoiding the expense of carrying more space than is necessary, and filling it with indifferent matter set up in outside offices. This is a sensible move.

The Statesman says; "Pick out the man you believe to be the most useful, public spirited man in Bowmanville. Then pick out the many you believe to be the most unprogressive useless man in Bowmanville. Then answer this question; "Don't you hear a great deal more abuse of the useful man than you hear of the useless man!"

We have for long considered Lindsay a very tony, aristocratic, cultured, intellectual, moral town, but if a despatch recently sent to the press be true, it must be the centre of a "ratty" community. Said despatch states that about 5,000 muskrats have been caught in the vicinity—with rats still plentiful. They must be good rats for their skins sell for 30c to 36c each.—Bowmanville Statesman.

Peterborough daily papers are forever launching startling sensations. Thursday's Examiner endeavored to throw two rays of hope around this diseased world by announcing in flare headlines another "great medicinal discovery made by a Peterborough man. Mr. S. R. Mitchell (men of that name are invariably clever) has discovered a sure cure for catarrh—superior to anything on the market. Isn't it a remarkable coincidence that remedies should be discovered by Peterborough men for both catarrh and consumption, two of the most insidious and difficult disease to cure, known to the medical profession.—Bowmanville Statesman.

Is it not strange that in a place like Toronto, the legal men are unable to draw an agreement that can be understood. The agreement between the City and the Street Railway Company was submitted to two courts, and they decided that what the city said they had agreed to, was the correct interpretation. Then it was taken to the Privy Council in England and the legal Nabobs over there decided that what the Railway Company said the agreement meant was the correct version. Is it not time for a new legal school that will learn to put documents into plain common sense English, and discharge that unintelligible jargon that can be interpreted in half a dozen different ways, and not one of them standing to reason for an instant. Toronto should get the gentleman who runs the city furnace to try his hand on the next agreement.—Bobcaygeon Independent.

HOME FOR CONSUMPTIVES

Will be Built at Ottawa at Minimum Cost of $20,000

Ottawa, May 6.—The selection of a site on which to build a home for consumptives in advanced stages was approved by the Council. It will be located near the Isolation Hospital and overlooking the Rideau River.

The Ottawa Anti-Tuberculosis Association has engaged to build and equip the house, at a minimum cost of $20,000, upon the site to be provided by the corporation. It will be maintained by a board composed of an equal number of representatives from the Council and the Association.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 62, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child, the chances are, it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

To-morrow Will be Ascension Day

Special Services in Roman Catholic and Anglican Churches

Tomorrow will be Ascension Day, the day on which is commemorated our Saviour's Ascension into Heaven after His Resurrection. The day is also called Holy Thursday.

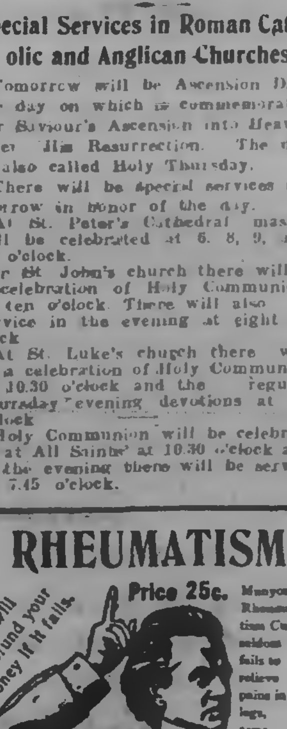
There will be special services tomorrow in honor of the day.

At St. Peter's Cathedral masses will be celebrated at 6, 8, 9, and 10 o'clock.

In St. John's church there will be a celebration of Holy Communion at ten o'clock. There will also be service in the evening at eight o'clock.

At St. Luke's church there will be a celebration of Holy Communion at 10.30 o'clock and the regular Thursday evening devotions at 8 o'clock.

Holy Communion will be celebrated at All Saints' at 10.30 o'clock and in the evening there will be service at 7.45 o'clock.



I will refund your money if it fails.

RHEUMATISM

Price 25c.

Munyon's Rheumatism Cure seldom fails to relieve pains in legs, arms, back, stiff or swollen joints in a few hours. Positively cures in a few days. It does not put the disease to sleep, but drives it from the system. —MUNYON.

Are Securing Work Elsewhere

Striking Harnessmakers Can get Jobs in Other Places

There is no change in the strike situation at Ackerman's. Several of the men who are out have secured other employment in the city and claim that they are making as much money as when employed at their trade. Two or three of the strikers have secured positions in harness establishments in other cities and have left Peterborough. The management of the factory are steadfast in the stand they have taken and it is not likely that any of the strikers will go back to work there again.

Picton Will Have $30,000 Collegiate

A Picton despatch says:—This week work began on the $30,000 Collegiate Institute, W. A. Newlands, Kingston, the architect, has been in town getting the work started, and it is expected the lower foundation work will be completed by the end of the week. The laying of the corner-stone, it is anticipated, will be a very formal event and there is a strong possibility that the Minister of Education will take part in the ceremony. It has been suggested that this event might be postponed for the same day as the opening of the new Carnegie library as a stronger inducement for a visit from Dr. Pyne.

Chandos Council Holds Meeting

Considerable Business Transacted and Accounts Passed

Chandos Council met at Hales' School House on Saturday, April 27, 1907.

Members all present, Reeve Wm Hales in the chair. Minutes of last meeting read and signed.

Couns. Tanner and Wilson moved that Phillip Eldy be and is hereby appointed member of the Board of Health instead of D. S. Campbell, who refused to act.—Carried.

Couns. Wilson and Jones moved that the treasurer be instructed to pay to the treasurer of Wollaston the sum of $9.50, amount in full of Chandos' portion for covering boundary bridge.—Carried.

Couns Tanner and Wilson moved that Coun. Jones and Coun. Gooley be a committee to meet at Potash Bridge on Monday April 29th, at 10 o'clock, to see what repairs are needed and let a job if necessary.—Carried.

Couns Tanner and Jones moved that this council accept from Sam Whitmore $15 for arrears of taxes against lot 10, con. 2, giving him a clear receipt to 1907.—Carried.

Couns. Jones and Wilson moved, that petition of Geo. Winters and others be received and that Coun. Gooley and Coun. Tanner be a committee to go over side line between lots 25 and 26 across cons. 9 and 10, to see if it is advisable to open or not; also to meet at Purdy's store at 10 o'clock on April 30th, with power to buy right away from D. Doxsee.—Carried.

Couns. Wilson and Tanner moved that Edw. Phillips be appointed road overseer, instead of Walter Wease.—Carried.

Couns. Gooley and Wilson moved that the clerk order one road scraper for Albert Mace.—Carried.

Couns. Wilson and Jones moved that John Young be allowed to do his statute labor on his own road.—Carried.

Couns. Gooley and Wilson moved that Fred Hobbin do his statute labor on Michael Cleary's div. until he gets his own road made to the main road.—Carried.

By-law No. 101 settling the height of lawful fences, also by-law No. 102, allowing certain animals to run at large passed their first reading.

Couns. Tanner and Gooley moved that by-laws No. 101 and 102 be read the second time in committee of the whole.—Carried.

Couns Tanner and Wilson moved that the words sheep and pigs be struck from by-law No. 102 and the word steers be put in their place and that they be read a third time and passed.—Carried.

Couns. Jones and Wilson moved that Robt. Dingman be allowed to work out the balance of his taxes on his road div., Coun. Wilson to oversee.—Carried.

Couns. Jones and Gooley moved that the clerk return list of lands liable to be sold for taxes in 1907 to County Clerk as revised.—Carried.

Couns. Wilson and Tanner moved that the following orders be paid:—

Geo. Robinson, $4, filling washout.

John Hales, $40 salary as assessor.

James Trotter, $40, salary as assessor.

A. Andrews, $35, part salary as clerk.

John Trotter, $3, expressing money to Peterborough.

Wm. James, $17, Mrs. Tumbleton's board.

Dr. Driscoll, $8.50, quarter salary M.H.O.

Wm. James, $5, balance Dingman's taxes.

Sec.-treas, S.S. No. 2, $3, rent school house election and Council.

Total $155.50.

On motion Council adjourned to meet at Caldwell's school house on Saturday, May 18, 1907, at 10 o'clock, in Court of Revision.

DR. TORREY'S CASE SETTLED

The Evangelist's Effects and Funds Released—Small Sum Paid

Montreal, May 6.—The legal proceedings instituted by Norman Murray against Dr. R. A. Torrey, the evangelist for slander, have been discontinued and the seizure placed on Saturday on Dr. Torrey's personal effects at the Windsor Hotel as well as on a voluntary subscription received by Mr. J. C. Holden, treasurer of the Torrey Campaign fund, for the purpose of remunerating the evangelist, has been raised. The litigation was settled outside of court yesterday, through Mr. R. C. Smith, K.C. Dr. Torrey left this city this morning, as he had planned. Although Norman Murray demanded $1,000 by his action, litigation was settled for a a small sum. The settlement was made without the knowledge of Dr. Torrey. The matter was placed in Mr. Smith's hands by several prominent business men, who were interested in Dr. Torrey's campaign. The incident has caused a great deal of comment here.

SHOOTING STARTS THIS EVENING

Miniature Targets Set up at the Drill Shed—Rifle Committee Met

At a meeting of the Rifle Committee of the 57th Regiment last night, arrangements were made for the carrying out of the shooting practice, in which it is necessary for members of the regiment to make 50 per cent. at 25 and 50 yards in order to draw efficiency pay. The shooting will be done in the drill hall, where miniature targets will be erected. Morris tubes will be used in the rifles. The first practice will take place to-morrow night and will continue as per order until all the men in the regiment are qualified to draw efficiency pay. The following is the schedule arranged for the practices:—

Companies Nos. 1 and 3.—Saturday afternoon and evening.

Companies No. 6 and 8.—Monday evening.

Companies No. 4 and 5—Wednesday evening.

Companies No. 7 and 2 — Friday evening.

Captains will detail two sections of their company to practice on the nights specified until all have qualified. The orderly officers for the week will be in charge of shooting.

As pointed out in the Review a few days ago, it is now necessary for members of regiments not having range accommodation to make a score of fifty per cent at 25 and 50 yards at a gallery shooting range. The ordinary rifles, fitted with the Morris tube, is used for shooting at the miniature targets. The man must make the fifty per cent score in order to qualify for efficiency pay.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A PRETTY MATRON OWES HEALTH TO PE-RU-NA.

MRS. ANNA N. KAISER,

Had Suffered Severely From Pelvic Catarrh—Cannot Praise Peruna Too Highly—Read Her Letter.

MRS. ANNA N. KAISER, Two Rivers, Wis., was a sufferer from pelvic catarrh to such an extent that she could scarcely do her own work. In describing her symptoms, she wrote:

"I have such terrible backaches and pains below my shoulder blades, way down my back and across my hips, and at times pains in the pelvic organs, so that I am not able to lie down or sleep. I also have pains through my left side and am afraid I may be getting heart trouble."

After taking Peruna and following Dr. Hartman's instructions for several weeks, Mrs. Kaiser reported as follows:

"I feel much stronger and do not get nervous as I used to. The pain is entirely gone, except when I work a little too hard. The medicine has done me wonderful good. I am taking Peruna and Manalin. My bowels are also in good condition."

Reports Her Cure.

After continuing the treatment a short time longer, Mrs. Kaiser reports her cure, as follows:

"I must drop you a line to let you know that I am well now and cured with your medicine. I must thank you for the advice you gave me.

"The medicine is something wonderful. I cannot praise it enough for the good it has done for me and I hope many others will be freed from their suffering.

"I have advised others who are suffering as I did to consult you and many are taking my advice. If ever I need medicine again, I know that Peruna will help me."

Dr. Hartman's Advice.

To every woman suffering from the symptoms above indicated, Dr. Hartman extends an earnest invitation to write to him for medical advice.

Cobourg Man Abused Ward Of Children's Aid Society

Local Officials Notified Crown Attorney Kerr and the Fellow Has Been Sent Up for Trial—A Sad Case.

A sad case of ill-treatment of a little girl has recently come to the notice of the local Children's Aid Society, and steps have been taken to have just punishment meted out to the guilty party, or parties.

Some time ago the Society took charge of a little girl, the daughter of a woman who had been left a widow with several small children, and at the request of the mother, had her placed with the widow's brother-in-law, who resides near Cobourg. The little girl was only six years old, and it was thought that she would be well cared for at the brother-in-law's home. But such was not the case. Information was received by the Society that the child was being badly treated, and an investigation revealed the truth of the report. The little one was taken to Peterborough, and it was found that she had been shamefully abused, her body being marked in several places from blows she had received. Crown Attorney Kerr, of Cobourg, was apprised of the case and made an investigation. It was found that the circumstances of the case were such as to warrant action being taken against the fellow, and word was received in Peterborough today that he had been committed for trial on the charge of cruelty towards the child.

The mother of the little girl formerly resided in Peterborough, and was left in somewhat destitute circumstances on the death of her husband, having several small children and very little means of support.

How Peterborough Citizens May Assist a Good Cause

An Excellent Plan to Raise Funds for Muskoka Free Hospital for Consumptives—Read the Following Article and Then Act.

Never have so many poor suffering ones applied for admission to the Muskoka Free Hospital for Consumptives, as during the changeably severity of this winter and early spring, and it is pitiful to think of the number who have been refused admission owing to lack of room. This institution for helping the victims of tuberculosis, and preventing its spread, should appeal to the Christian public in a very practical way. Everyone is benefitted by this effort to secure the comfort and cure of the patient at the least possible risk to the community. The wealthy man is in a position to send his son or daughter to a commodious sun parlor in the Adirondacks or some other equally popular health resort but the man of moderate means, and the very poor, must battle with this dread disease in the crowded rooms of small houses, the invalid, through necessity or ingorance, often sharing his bed with some other member of the family thus not only lessening his own chances of recovery, but becoming too often the medium for conveying the deadly seeds of disease to others. Here is where the practical and Christ-like work of the Sanatorium comes in, providing the *best environment for checking* the progress of disease, supplying proper care and nourishment and minimizing the danger of contagion. The number of patients in residence last week in the Muskoka Free Hospital was 77, and of this number 35 are absolutely free patients, 24 pay from $1.50 to $3.50 a week; 9 pay $4; 1 pays $5 and 8 $6. The cost of maintenance of each patient is over $9 per week, so it is easy to see how large the shortage must be each week.

In many places branches of the National Sanitarium Association have been organized for the purpose of arousing an intelligent and practical interest in this Sanatorium work. The Belleville branch of the N. S. A., sent as its last contribution $110 and no doubt through its influence the corporation of Belleville sent $25. The county of Grey contributes $300 annually. It is hoped that a branch of this Association will shortly be organized in Peterborough, but in the meantime money is urgently needed. An extension to the hospital, costing nearly $15,000 is already commenced and the funds must be provided. The value of Sanatorium treatment of consumption is becoming so impressed on the minds of patients that applications for admission are increasing at a rapid rate, and more room had to be provided, so the trustees have taken the courageous step of this extension, trusting to the generosity of the Christian public. Earnestly desiring that the people of Peterborough might help along this very necessary extension fund a few ladies met together yesterday to talk over some means of raising money for this purpose, and decided to make an effort to collect worn out rubber articles—the ordinary rubber shoe, rubber boot, rubber bag, etc. A prominent citizen, conversant with the rubber business, has kindly offered to find a market for all that can be collected. We appeal to the citizens to help us in this undertaking by looking through closets and attics for any of the above articles. As a house to house canvass is manifestly impossible, the store just vacated by the Dominion Bank, next to the Metropolitan Grocery has, through the kindness of Mr. Richard Hall, been secured as a central place to receive contributions and will be open from three o'clock p.m. to six p.m. on the afternoons of Tuesday and Wednesday next week, May 14th and 15th, when some member of the acting committee will be on hand to receive parcels. If anyone should find it inconvenient or impossible to deliver the parcel, the committee will gladly send for it, if the address is given to any of the ladies, whose names are mentioned below. If any householdeer has already disposed of his or her worn our rubbers, and would like to help with a money donation, however small, the same will be thankfully received by any of the following ladies; Mrs. Boucher, Mrs Hughes Charles, Mrs. Dean, Miss Lundy, Miss Morrow, Miss Bella Morrow or Mrs. James Kendry.

ELIZABETH KENDRY,
Secretary of Acting Committee.

INCREASE IN MEMBERSHIP

Charlotte St. Church Progresses—Quarterly Official Board Met

Special interest lent itself to the meeting of the Quarterly Official Board of Charlotte Street Church last night, as it was the last session before the holding of the district meeting on May 22nd, when the work of the different circuits for the year is reviewed. Rev. Mr. Manning, the pastor, presided, and a large amount of business was transacted. Particularly gratifying was the statement made by the pastor that there had been an increase of thirty-three in the membership of the church, during the past year, the number at present being 441. Steady progress has marked all branches of the church, in short, the congregation was never before in such a prosperous condition.

The following stewards were elected for the coming year,—Messrs. Jas. Stevenson, R. Neill, J. C. Elliott, D. D. C. Dawe, Alba Wilson, Dr. M. A. Morrison, and Dr. Neal. Dr. Morrison was re-elected recording-steward.

Mr. Jos. Batten was re-elected representative to the district meeting to be held in Mark Street Church on May 22nd.

Mr. A. B. Cunningham offered to donate to the church, an individual communion service, and the generous offer was accepted by the board, who are deeply grateful to Mr. Cunningham for his serviceable gift.

The following were appointed local preachers,—Messrs. H. D. Kennedy, Jos. Patten, Jas. Sutherland, and I. Richardson.

Class Leaders were appointed as follows,—Messrs. Jos. Patten, Hawley, Geo. Tovey, and A. E. Prest.

Several other matters of interest to the congregation were also dealt with.

Peterboro' Man Resigns Office

J. F. Junkin of Manufacturers Life Going into Private Business

Toronto, May 8.—Mr. J. F. Junkin, a former resident of Peterborough, who has been for twelve years, Managing Director of the Manufacturers Life, is resigning that position, with the intention of opening a financial office for the purpose of dealing in bonds, debentures and other securities.

Under Mr. Junkin's management the Manufacturers Life has made tremendous strides. During the 12 years its business in force has increased from a little over $9,000,000 to almost $50,000,000; its assets from slightly over $800,000 to $8,700,000, and its income from about $25,000 to over $2,000,000 a year.

Mr Junkin has for several years believed that he would have greater personal scope in business for himself, and has finally decided to take the step of opening an independent financial office.

It is not yet decided who Mr. Junkin's successor will be in the Manufacturers Life.

Port Hope Brewing and Malting Co.

Loose Their Appeal in Cavanagh Case and Have to Pay Costs

Osgoode Hall notes published today, contain the following judgment,—

Port Hope Brewing and Malting Co. vs. Cavanagh—A. B. Morine for plaintiffs, appealed from order of Riddell, J., dated 26th April, 1907, dismissing plaintiffs' appeal from order of Master in Chambers, refusing to set aside notice of abandonment of appeal, served by former solicitor for plaintiffs, the taxation of costs and all subsequent proceedings. R. E. Wood, Peterborough, for defendants, opposed appeal. Appeal dismissed. Costs in cause to defendants. The substantive motion for leave to appeal from judgment of MacMahon, J., notwithstanding service of notice of abandonment of same granted, and case directed to be restored to Divisional Court list. Costs of this motion, costs in appeal to defendants.

THE NEW YORK STOCK MARKET

New York, May 8.—Under the influence of higher prices from London this morning the market opened higher all around and maintained the gain, during the first two hours, a slight break in wheat and better crop reports having a beneficial effect also. More liquidation in New York Central, however, caused that issue to sell off nearly 3 points, and turned the general list weak. The market was entirely professional, however, and dealings on a small scale. There seemed to be a disposition to await the government crop report on Friday before taking a position either way on stocks.

There was quite a good rally in the last hour and the close was firm.

Game Societies Doing Good Work

Warden G. W. Fitzgerald Presents His Annual Report

The report of the Board of Game Commissioners for the Province of Ontario for 1906, has just been issued. It contains the following of local interest.;

Peterborough, January 23, 1907.
E. Tinsley, Esq.,
Chief Game Warden, Toronto.

Sir.—I herewith beg leave to make my annual report concerning the game and fur-bearing animals in my district.

Partridge were more plentiful the year than usual.

Wild ducks were not any more numerous than last year.

Muskrats were very plentiful. There were some infractions which were summarily dealt with.

Beaver are becoming more plentiful. I hear there is a colony within twelve miles of the city of Peterborough in the East Riding; also several in Township of Harvey, in the West Riding.

Deer were as numerous as in other years. There were some infractions of the law in the north of Hastings county, but it is a hard place to get a conviction. There should be a deputy appointed in that part of the county.

Moose are on the increase in my district. I understand there is a herd yarding in North Renfrew, about eighteen in the herd.

The Game Protective Societies in the different places are doing good work through their members.

I am, Sir,
Your obedient servant,
G. W. FITZGERALD,
Game Warden.

Prizes Donated to Collegiate Cadets

Generosity of Several Prominent Citizens is Appreciated

Through the generosity of several prominent citizens the following prizes have been donated to the Collegiate Institute Cadets;—

1 For the best company—$5, donated by Mr. V. Eastwood, manager of the Royal Bank.

2 For the best half company—$5, donated by Mr. T. F. Matthews.

3 For the best section—$3, donated by Lieut. E. Bigg, hardware merchant.

4. For the second section—$2, donated by Lieut. W. R. G. Higgins, hardware merchant.

The prizes will be awarded after the inspection of the corps in June, and it is expected that the competition will be very keen.

There are three companies in the Cadets and they will all strive hard to secure the company prize of $5.00. The other premiums will be competed for just as keenly.

Needless to say, the Cadets and the Collegiate staff deeply appreciate the generosity of the donors, and wish to thank them most heartily for their interest and assistance.

Band Presented Fine Appearance

The members of the 57th Regiment band, under leadership of Mr R Gliddon, headed the marchout of the Regiment last night, and the members presented a fine appearance. The band was 36 strong and played some excellent airs. The music was much appreciated. The band will, in a few weeks, be giving regular conserts in the parks.

Warmly Greeted by Many Friends

Mr. A. Parker, of Parry Sound, Was Visiting Here

Many friends in Peterborough, were pleased to meet Mr. A. Parker of Parry Sound, who was a guest at the Munro House on day this week. Mr. Parker informed his friends that he came all the way to Peterborough to purchase a pair of boots, as he says the dealers in this city have them all beaten when it comes to producing good footwear. On informing a local dealer that he had come all the way from Parry Sound to Peterborough, to purchase a pair of boots, the shoeman gave him a box of blacking, gratis, with the pair of shoes he had bought.

To correct a wrong impression that has got abroad, it may be stated that Mr. Parker has no intention of going to work as a river driver, when he returns to Parry Sound, although he had his boots "corked"

PERSONAL

Mr. F. Kupferschmidt, of Montreal, representing the firm of Revillon Bros., Paris, France, is in the city, the guest of Mr. K. G. Lech.

Mr. J. Harris McClellan, superintendent of the Trent Canal, returned today from Gamebridge, where he had been for a couple of days.

Mr. Herbert Faint left today for Winnipeg. He will be accompanied to Winnipeg, by his sister, Mrs. M. G. Walker, who has been visiting friends in Peterborough and Toronto.

A BUSY REEVE

Reeve Begg is right on the job at the town park these days, and is having the street scrapings and ashes placed to good advantage. It's a shame that so many good loads were given away when they were so badly needed to make the town's property presentable. — Lindsay Post

To the heroism of Foreman Dan McDonald of the Central Fire Brigade, London, James Angus, traveler for R. C. Struthers & Co., owes his life. Angus was unconscious in a burning building when McDonald despite warnings, rushed in and saved him.

Policeman Newhall Before the Board of Police Commissioners

The Board of Police Commissioners met yesterday afternoon and heard Policeman Newhall's statement in reference to his conversation with Brakeman Davidson and the other two witnesses at the trial before His Honor Judge Weller, which was an appeal from Magistrate Dumble's decision. Brakeman Davidson stated in a letter to the Commissioners that Newhall had called them a pack of liars and called him a liar. This took place immediately after the trial.

Newhall denied most of the statements in the letter but admitted that he called the men referred to a pack of liars. He told Mayor McWilliams just after the conversation with the witnesses what had taken place and his statements then were different to those that he made yesterday, although in substance they were the same. He admitted to the mayor that he had practically called Davidson and his associates, liars.

The commissioners instructed the policeman to write a letter of apology to the Commission and Mayor McWilliams was requested to assist in the drawing up of the letter. That letter must be signed by Newhall and must be satisfactory to the commissioners. If that is done a copy will be forwarded to Mr. Davidson. If he accepts it the matter will drop.

New Cottages at Chemong Park

Several New Summer Homes in Course of Erection

Two new cottages are now in course of erection at Chemong Park and four more will be built at an early date. Mr Popham, of White Plains, N.J., and Commodore McCombe, of New York city are having attractive summer homes put up. Plans have been drawn for new cottages which will be constructed by Mrs. Andrews, A. A. Hollingshead, Dr. B. R. Poole and C. S. McClelland.

Dr. Carmichael recently purchased the summer home of Rev. Dr. Speer, at Chemong Park.

NERVOUS?
Perhaps Sleepless, too!
You'll be a total wreck pretty soon, life will no longer be a pleasure. Just think of the days and nights of misery you must spend if not cured!
Won't you use Ferrozone? It's a nerve strengthener that really does cure. It acts through the blood. First, Ferrozone brings appetite—you eat plenty. This fills the blood with nourishment for the inner nerve cells.
FERROZONE
Instils strength into every part of the system. You get well—keep well—nervousness forever departs—because you have used Ferrozone. Avoid substitutes.
Price 50c per box, or six boxes for $2.50, at all dealers or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A. 138

Would Injure British Trade; Important Matter Discussed

Lloyd George Opposes Restrictions in Shipping Regulations.

Premiers Vote on Navigation Laws—Imperial Coasting Trade — Feared Policy of Reprisals Might Result From Restriction — All Avenues Should Be Kept Open—Several Resolutions Passed—Fiscal Rights.

London, May 9.—(C. A. P.)—The Imperial Conference is sitting twice daily in order to finish by the end of the week.

Yesterday Premier Deakin brought forward a resolution drawing attention to the navigation laws in the Empire to the advisability of refusing the privileges of the Imperial coasting trade to countries where corresponding trade was confined to ships of their own nationality, and requesting the Home Government to take the necessary steps for the revision of any commercial treaties which would prevent preferential treatment being accorded to British goods carried in British ships.

Premier Ward stated that action had been taken with New Zealand on the lines of the resolution. New Zealand felt keenly the restrictions placed upon her trade with Honolulu by the United States.

Mr. Lloyd George said that the transactions involved in the proposition involved a great complication of difficulties. Traders within the Empire would find a restriction to their choice of transport, and would raise the cost of carriage. A positive advantage would be given to foreign trade and goods from foreign countries would have a choice either of British or foreign ships.

Australia's Duty.

The benefit to British shipping was uncertain, because the bulk of foreign shipping engaged in inter-imperial trade was either Norwegian or German, neither of which countries had excluded us from their coast or inter-imperial trade. The only countries excluded under the resolution was Russia and the United States. Of the Empire's trade from the United Kingdom ports in 1906, Russia had one-third per cent. and America nil. If the principle was extended further there might be a danger of our shipping being exposed to reprisals. It was to Britain's advantage to keep open every trade possible to British shipping. Foreign ships excluded would not be destroyed, but would compete more keenly than ever in the foreign trade still open to them. This foreign trade largely exceeded colonial trade in magnitude.

Home Government Dissents.

Having given figures to illustrate this point, Mr. Lloyd George referred to the proposed merchant shipping legislation in Australia, and said Australia ought to give this country equality in treatment before discussing the preference.

Premier Deakin pointed out that these proposals were those of a commission, not the Government, which still had to decide upon a policy, and also that conditions were intended to raise the standard of shipping in conformity with Australian opinion.

Premier Laurier, in reply to Mr. Lloyd George, said the Conference was discussing a policy for the Empire, and although the United Kingdom might not have a serious interest in the matter, and might not desire to altar the existing state of things with the colonies, with interests in the Pacific which were adversely affected in a very direct and serious manner, the United States had extended their coasting trade to embrace Honolulu and the Philippines, and though Canada had offered to reciprocate in connection with the coastwise trade, the United States would not listen to the proposal. He pointed out that the resolution simply asked for attention to the matter.

Mr. Lloyd George said he could not accept the resolution as it stood, but was willing to accept it with the omission of the words dealing with the trade between the Mother Country and the colonies, so that the resolution would only cover an enquiry into the position of the matter respecting inter-colonial trade.

King's Good Wishes.

London, May (C. A. P.)—The King gave a dinner to the Colonial Premiers, Ministers and High Commissioners at Buckingham Palace. Several members of the royal family and a number of Cabinet Ministers and distinguished persons were present.

The King gave a hearty welcome and wished prosperity and happiness to the distinguished statesmen from his dominions overseas, and trusted they would carry away with them an agreeable impression of the mother country. He wished them godspeed on their voyage home.

French Ship Was Wrecked; Nearly all on Board Rescued

Transport Poitou Runs Ashore on Coast of Uruguay.

Three Hundred Passengers on Board—Many Were Panic Stricken and Jumped Into Water—Some Swam Ashore — Reported All on Board Have Been Saved—Vessel and Cargo Will Be Total Loss.

Montevideo, Uruguay, May 9.—The French transports Maritimes steamer Poitou from Marseilles April 6 for this port, has been wrecked off San Jose Ignacio, on the coast of Uruguay. She is understood to have had 300 passengers on board, and according to the latest reports which have been received here nearly 200 of these have been rescued and are on their way here.

The vessel and her cargo probably will be a total loss. The casualty list has been placed at 160, but this has not been corroborated. A number of steamers have left here for the scene of the wreck, and the Government is doing everything possible to succor the shipwrecked persons.

San Jose Ignacio, or Punta Piedras Point, is a small rocky promontory surrounded by reefs, 21 miles west of Cape St. Mari, on the southeastern coast of Uruguay and about 150 miles from Montevideo. The vessel was driven on the rocks Tuesday. She lies thirty yards from shore near a town called Rincon de Herrero. A heavy gale has been blowing for several days and it still continues. This renders the work of rescue very difficult.

Tugs from the locality were unable to approach the Poitou and had to run to the nearest harbors for shelter. Despite the heavy sea, however, about 200 of those on board reached the shore in one way or another.

Panic occurred on board the vessel when she grounded and a number of the terror-stricken people jumped overboard. According to one report, a number of women were forced to remain below the hatches. Some of those who jumped managed to swim ashore, but many were drowned.

It is known that customs officers at Rincon de Herrero saved fifty passengers. The dwellers on the coast are doing all possible to help the distressed to get ashore, and are taking the best care of those that reached the land. Those still on board the vessel can be seen from the shore making despairing signals. The Uruguayan authorities have sent a number of doctors to the scene of the wreck.

Word Received In France.

Marseilles, May 9.—According to despatches received here from the agents of the company that owned the French steamer Poitou, wrecked on the coast of Uruguay, all the passengers and crew are safe. There were 160 passengers on board the Poitou, mostly Spanish emigrants.

DEAFNESS CANNOT BE CURED
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness, caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
F. J. CHENEY & Co., Toledo, O.
Sold by druggists, 75c.
Take Hall's Family Pills for constipation.

Arrested For Stealing.

London, Ont., May 9.—Frederick Maudesly, a young man who has been sought by the city police for nearly a year, was arrested on a charge of having stolen $31 from a man named Joseph Ward, on May 22, 1906, in the yard of a King street hotel.

Farmer Killed by Train.

Lucan, Ont., May 9.—Allan McGinnes, a farm laborer living with John Seale, McGillivray Township, was killed Tuesday night by express No. 7 on the main line of the Grand Trunk Railway, two miles west of here.

To Relieve Mr. Fisher.

Ottawa, May 9.—During Hon. Mr. Fisher's absence in Europe, Hon. Mr. Lemieux will be acting Minister of Agriculture, and Hon. Mr. Aylesworth will be acting Minister of Public Works.

JAPAN AND UNITED STATES.

Franco-Japanese Entente Not Aimed Against Americans.

Paris, May 9.—M. Kurino, the Japanese Minister here, in an interview yesterday is quoted as making the important statement that the series of treaties between Great Britain, France, Russia and Japan, guaranteeing the territorial status quo in the Far East implied an engagement to prevent other countries from acquiring territory there.

Minister Kurino denied that the Franco-Japanese entente was in any way aimed at the United States, adding: "Japan, in spite of the San Francisco incident, has always been most sympathetic to the United States, because she was the first to treat the Japanese people on a footing of equality. If Japan could obtain advantages from an understanding with the United States, it is entirely probable that the Government at Tokio would not hesitate to negotiate with Washington."

Continuing, M. Kurino said that as Germany had no possessions in the Far East, Kiaochow being simply leased Chinese ground, a treaty with her similar to the one between Japan and France would be useless.

NEWFOUNDLAND WINS.

Decision In the Herring Case Regarded as a Great Victory.

St. John's, Nfld., May 9.—The Supreme Court of Newfoundland, in upholding the Colonial Government in its contentions respecting the so-called Bay of Islands' herring fisheries case, in which the right of Newfoundland fishermen to be employed by American vessel-owners within the three-mile limit was involved, has also decided that the treaty of 1818 and the modus vivendi of 1906 between the United States and Great Britain, had no bearing on the issue.

The Newfoundland Government regards the decision as a great victory, but its final effect on the American frozen herring industry will not be determined until the points involved are passed upon by the highest court of Great Britain.

TOM JONES SUICIDES.

Shot Himself With Revolver On Account of Sinister Rumors.

Palermo, May 9.—Crazed by the story that had got abroad, that he was connected with the burning of the shack where "Black Fannie" and the man Clark were cremated last Saturday night, Thomas Dunn, known as Young Tom Jones, shot himself in the mouth with a revolver yesterday morning and died instantly.

Dunn committed suicide in an outhouse on the farm of John Dorland, where he was employed.

Although public opinion was strong against the young man, no evidence could be had. As his death removes the only witness at the scene of the tragedy, there will be no inquest.

CRUISER FOR THE INDIES.

British Admiralty Won't Be Caught Napping Again.

London, May 9.—In view of the recent rioting at Castries, Island of St. Lucia, and the fact that a British warship was not available for relief purposes at the time of the earthquake at Kingston, Jamaica, the British Government has decided to station a second cruiser in the West Indies.

The Scylla, a third-class cruiser, having a speed of 20 knots, and carrying a crew of 273 officers and men, has been selected.

Hon. Geo. Ross Married.

Toronto, May 9.—The marriage of the Hon. G. W. Ross to Miss Mildred Peel took place very quietly yesterday afternoon at Mr. Ross' residence, Elmsley place, only the immediate relations being present. Rev. Dr. Milligan officiated. The bride entered on the arm of her brother-in-law, Mr. Belden, who gave her away. She was dressed in a French gown of cream lace over cream taffeta, with short train, and carried a shower bouquet of bridal roses. After the ceremony the wedding breakfast was served, and later Mr. and Mrs. Ross left for their honeymoon, the bride traveling in a plum-colored tailored suit with hat to match.

Negro Officer Shot.

Beaumont, Tex., May 9.—As the result of two attempts at assassination from ambush at Orange Tuesday night one man was killed and two seriously wounded. The dead man is Major Boykin, a negro officer, who was fired on by unknown persons as he was leaving a negro saloon. He was shot five times, all the bullets entering his body and producing instant death. It is thought the shooting was done by negroes and several arrests have been made.

Jealousy Ends In Murder.

Independence, Mo., May 9.—Clyde St. Clair, aged 22, son of George St. Clair, a prominent citizen, was shot and killed on the public square early yesterday by Van Tappen, aged 23 years, his intimate friend. The two young men had attended a party together at the home of a young woman with whom both were in love and were returning home when they engaged in a quarrel over her, which resulted in the tragedy.

Drayman Seriously Injured.

Lindsay, May 9.—John Kearns, a local drayman, met with a serious accident yesterday. He was driving around the corner of Lindsay and Queen streets, near the C. P. R. Depot, when his horses became frightened and ran away. Mr. Kearns was thrown out of the wagon on to the pavement, falling on his head. At present he is in Ross Memorial Hospital, in a very critical condition.

Thaw Home Mortgaged.

Pittsburg, May 9.—"Lyndhurst," the pretentious home of Mrs. William Thaw, in the east end section of this city, has been mortgaged for $100,000, according to The Pittsburg Leader. The mortgage was secured some time ago and extraordinary efforts were made to keep the mortgage secret.

Frank Ibonsberger of Creemore, was shot and killed on his father's farm, while target shooting.

FIRE AT HAILEYBURY

Block of Seven Business Houses Entirely Wiped Out.

Loss Involved Is Forty Thousand Dollars—Second Serious Blaze Within Few Weeks—Very Little Insurance Carried—Blaze Originated in Baker's Shop and Raged Several Hours —Buildings Were Flimsy.

Cobalt, May 9.—Yesterday morning in the block of buildings opposite the Vendome Hotel, seven business houses in Haileybury were burned out. The fire started about two o'clock, and raged till four, when, mainly through the efforts of the Haileybury fire brigade, which worked effectively, the flames were stayed.

The fire originated in a baker's shop on Browning street and very quickly spread as the buildings were of wood and flimsy.

The principal buildings destroyed were Trimby's bakehouse, where the fire started; D. John's assayers' office; A. J. Carson's grocery store; A. P. Budd's drugstore; a plumbing shop, a Chinese restaurant, and a laundry; O'Gorman's general store, P. Whelan's barber shop and several other smaller buildings.

It was only last fall that Haileybury was almost completely devastated by fire.

Mr. O'Gorman had no insurance at all on his stock, but a considerable amount of it was saved. It is stated that there was a small insurance on Budd's drugstore, and almost all their goods were saved. The loss will amount to about $40,000.

DEATH ENDS AUTO RACE.

Woman Were Speeding 55 Miles An Hour Against Train.

Asbury Park, May 9.—While racing with a Jersey Central Railroad train between Point Pleasant and Asbury Park yesterday, a racing automobile in which Mrs. G. W. Boyce and Miss A. Milda Mass of Point Pleasant, were riding, was overturned and Miss Mass was instantly killed. Mrs. Boyce was rendered unconscious.

The train had just left Point Pleasant, bound for Asbury Park, when the automobile going at a terrific pace, came along the road way which parallels the railroad track, and attempted to pass the train. Passengers on the train witnessed the attempt and crowded to the platforms and windows, cheering the two women as their machine steadily forged by the train. Just as the automobile was abreast of the locomotive, and when both were going at the rate of 55 miles an hour, Mrs. Boyce lost control of the automobile. The machine swerved from the roadway, went over an embankment into a swamp and overturned, crushing Miss Mass.

DNIEPER OVERFLOWS.

100 Villages Are Flooded—Prisoners Escape With Difficulty.

Krementchug, Russia, May 9.—The high water on the Dnieper has inundated no less than 108 villages.

Dwellings, stores of grain and cattle have been swept away by the flood. The people of this town are in flight. The prison has been inundated and it was with difficulty that the prisoners were removed to Poltava.

At Alexandroveck the tracks of the Southern Railroad are submerged for a distance of many miles.

Flour Prices Advance.

Winnipeg, May 9.—The price of flour has advanced. Announcement was made by the Ogilvie Milling Co. yesterday morning that Royal Household flour had gone up 20 cents a barrel, making it now $2.40 a sack.

The Glenora patent has advanced 10 cents, and it is now $2.10, instead of $2 a sack.

The other mills in the city have advanced their grades in a like manner. There has been no change in the price of flour since last September. The millers claim that they have been forced to boost the price owing to the soaring of wheat prices. They look for further advances in the price within the very near future.

Powell For Sheriff.

Ottawa, May 9.—The executive of the Conservative Association on a vote have agreed to recommend C. Berkeley Powell, ex-M.P.P., for sheriff of Carleton County, instead of ex-Mayor Fred Cooke. This has caused considerable surprise in the capital.

The majority state frankly that one of the reasons which weighed with them was the fact that Mr. Powell is possessed with considerable means.

Burns Is the Champion.

Los Angeles, Cal., May 9.—Jack O'Brien and Tommy Burns met last night for a purse of $30,000 and the heavyweight championship. During the first round Referee Eyton called off all bets without giving a reason. O'Brien is said to have been injured. Burns won the fight, getting the decision after the twentieth round.

More Snow At the Soo.

Sault Ste. Marie, Ont., May 9.—All reports of late snow were broken yesterday when this end of the peninsula was visited by a fall of snow, which continued several hours. Navigation is affected by ice coming down from Lake Superior. The river is filled at times from shore to shore and the canal is packed.

Bond Is Confident.

London, May 9.—(C. A. P.)—Premier Bond states that the assurances he has received from Sire, Grey and Churchill lead him to believe that the fisheries question will be settled before he leaves London in a manner entirely satisfactory to Newfoundland.

Engineer Badly Scalded.

St. Stephen, N. B., May 9.—Allan Bartlett, a driver of a C. P. R. shunting engine, was frightfully scalded yesterday as a result of a collision of two locomotives.

J. L. Murray, a pioneer lumberman of Muskegon, Mich., and formerly of Stratford, is dead.

Liverpool Grain and Produce.

LIVERPOOL, May 8.—Wheat, spot steady; No. 2 red western, winter, 6s 3½d; No. 1 California, 6s 5¼d; futures, quiet; May, 6s 7½d; July, 6s 6¼d; Sept., 6s 7⅜d. Corn, spot, American mixed, new, quiet, 4s 7¼d; American mixed, old, steady, 5s ¼d; futures, quiet; July, 4s 7d; Sept., 4s 7d. Beef, extra India mess, strong, 90s. Pork, prime mess western, steady, 82s 6d. Bacon, Cumberland cut, steady, 49s 6d. Shoulders, square, steady, 39s 6d. Cheese, Canadian, finest white, quiet, 63s; Canadian finest colored, quiet, 65s.

New York Dairy Market.

NEW YORK, May 8.—Butter, firm; receipts 6214. Street prices extra creamery, 27½c. Official prices creamery, common to extra, 21c to 27c; state dairy, common to fancy, 20c to 26½c.

Cheese—Receipts, 652; old cheese, unchanged; new, in moderate supply and desirable grades of small colored steadily held at 12½c, rarely a shade higher. Small white sells slowly and 12c, about top, while large cheese is not saleable above 11½c to 11¾c.

Eggs, firm, unchanged; receipts, 27,071.

CATTLE MARKETS.

Cables Steady—Buffalo and Chicago Prices About Unchanged.

LONDON, May 8.—Liverpool and London cables are steady at 11½c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9c per lb.

Montreal Live Stock.

MONTREAL, May 8.—(Special)—Receipts of live stock were 250 cattle, 75 milch cows, 1800 calves, 100 sheep and lambs and 800 hogs. The butchers were present in large numbers and the prices of cattle had an upward tendency, but there were no choice beeves on the market. A few of the best beeves sold at 5½c per lb. Pretty good cattle 4½c to 5c and the common stock at 3c to 4c. Milch cows sold at from $20 to $50 each. Calves sold in large lots at from $1.50 to $2.25 per head, while a few of the best sold up to $6 each. Sheep sold at 5c to 6c per lb.; lambs, at $3 to $6 each. Good lots of fat hogs sold at 7c to 7½c per lb.

East Buffalo Cattle Market.

EAST BUFFALO, May 8.—Cattle, steady; prime steers, $5.65 to $6.

Veals—Receipts, 500 head; active and 25c higher; $5 to $7.25; a few, $7.50.

Hogs—Receipts, 4300 head; fairly active on light; slow on heavy; heavy, $6.60 to $6.75; mixed, $6.75 to $6.80; yorkers, $6.80 to $6.85; pigs, $6.80 to $6.90; roughs, $5.90 to $6.10.

Sheep and Lambs—Receipts, 9000 head; steady; sheep, active; lambs, slow; wethers, $6 to $6.15.

New York Live Stock.

NEW YORK, May 8.—Beeves—Receipts, 2447; steers, slow, to 10c lower. Fat bulls, easy, others, steady; medium and fat cows, 10c off. Steers, sold at $4.60 to $6.15 per cwt.; bulls, $3.50 to $4.70; one car choice western bulls, at $5; cows, $2.20 to $4.80.

Calves—Receipts, 3808. Veals, steady to 25c higher. Common to prime veals sold at $5 to $7.50 per cwt.; one lot of choice do., at $7.75; culls, at $4 to $4.50.

Sheep and Lambs—Receipts, 7917. Sheep, steady; lambs, shade lower. Clipped sheep sold at $4 to $6 per cwt.; clipped lambs, at $7 to $7.75; no choice here; Indiana spring lambs, at $5 per head.

Hogs—Receipts, 8660. Market steady. Pennsylvania and state hogs, $7 per cwt., including choice light weights.

Chicago Live Stock.

CHICAGO, May 8.—Cattle—Receipts, 18,000; market strong to 10c higher; common to prime steers, $4 to $6.50; cows, $3.25 to $5; heifers, $3 to $5.50; bulls, $3.40 to $4.60; calves, $2.75 to $5.75; stockers and feeders $3 to $5.25.

Hogs—Receipts, 24,000; steady to 5c lower; choice to prime heavy, $6.45 to $6.50; medium to good, heavy, $6.40 to $6.42½; butchers' weights, $6.45 to $6.50; good to prime mixed, $6.40 to $6.42½; packing, $6.20 to $6.40; pigs, $5.50 to $6.45; bulk of sales, $6.40 to $6.45.

Sheep—Receipts, 13,000, firm; sheep, $4.25 to $6.15; yearlings, $6 to $6.65; lambs, $5.50 to $8.75.

Cut Off Seven Licenses.

Ottawa, May 9.—The license commissioners for Russell County have decided to cut off seven licenses, making 29 instead of 36 licensed places at the present time.

G. W. Woolds has escaped prosecution in Winnipeg for keeping a bucket shop, by leaving the country.

The Marathon Mystery

A Story of Manhattan

By BURTON E. STEVENSON
Author of "The Halladay Case"

Copyright, 1904, by Henry Holt and Company

"What's it all about?"

"Well," began Godfrey, putting on his hat again and looking at me with a quizzical smile, "in the first place the eminent and widely known firm of Graham & Royce has been engaged to defend one John Tolbert Drysdale, now under arrest charged with murder and robbery. You are on your way to Babylon, Long Island, to look over the ground, have a talk with your client and get the case ready."

"So!" I nodded. "Yes, I read of the case in last night's papers. But Mr. Drysdale has never, I think, been a client of ours. How did he happen to choose us?"

"He didn't; I chose you. I wanted him to have the best in the market."

"Thanks," I said, coloring a little. "But how did the office come to take the case? We're always rather shy of criminal cases, you know."

"Yes, I know you are. But I chinned your junior a bit."

"That explains it!" I said, laughing. "Of course we'll do our best for him."

"You'll acquit him," said Godfrey, with conviction. "I was at Boston yesterday, or I'd have gone down to Babylon at once and taken you with me."

"Then I shouldn't have got to say goodby to Cecily."

"To whom?"

"To Cecily—Tremaine's sweetheart, you know. He shipped her back to Martinique this morning."

"Oh, did he?" and my companion's eyes narrowed suddenly. "Why was that?"

I related briefly the incidents of the preceding evening and of the morning.

"Godfrey," I added impulsively, "if you knew Tremaine personally I think you'd realize what a poor case we've got against him. Why, it's no case at all! Theorizing's all very well, but what a jury wants is evidence—plain, straight out, direct evidence—and we haven't enough of that to build a cobweb. I thought I'd found some yesterday afternoon, but it was all the effect of self induced hypnosis," and I told him of my visit to Sing Sing.

He listened with intent face.

"I'm not so sure it was hypnosis," he said, when I had finished. "At least, I'll have a look at those photographs myself before I accept that theory. In fact, I rather think it's Tremaine who has hypnotised you, not I."

"I don't believe he's guilty," I repeated.

"Then who is?"

"Cecily!" I said bluntly. "I believe she's the one who killed Thompson, anyway."

"Where's your evidence?"

"I haven't any," I said helplessly; "only a kind of intuition."

"Well, I've the same kind of intuition it was Tremaine."

"But we haven't any evidence against him, either; not a shred of real, direct, convincing evidence."

"Perhaps not," he agreed, "but we're going to get it—enough to convict him and some to spare."

"Convict him of what?"

"Of two murders and one robbery."

"Then you believe he's implicated in this Edgemere affair?"

"I'm sure of it."

"But there isn't a shred of evidence against him," I protested again, coming back to my old objection. Really Godfrey was allowing his prejudices to carry him too far.

"Not a shred, apparently," he assented readily.

"Well, then, how"—

"Here's the landing," he interrupted. "We can talk it over on the train."

We left the boat and hastened across to the station. The train was waiting the word to start and was in motion a moment after we stepped aboard. There were not many passengers, for the morning travel is toward the city, not from it, and we had no difficulty in finding a seat where we could talk without fear of being overheard.

"Now," began Godfrey, "as you say, there isn't a shred of evidence, apparently, against Tremaine. How about your client?"

"Against Drysdale," I answered, "the evidence seems to be unusually complete."

"You might have used a stronger phrase. It's not only complete; it's consummately perfect. Not a link is missing. He was on the spot; his revolver is found near by with blood on it; a button from his coat is in the dead man's hand; when he returns to the house he is visibly disturbed; at the moment of his arrest he was preparing to escape; he refuses to explain where he was at the time the crime was committed; he's involved in steel speculation and presumably needs ready money."

"Well?"

"Well," said Godfrey earnestly, "that very perfection is its greatest weakness. It's too perfect. Any one of those things might have happened; perhaps any two of them; but that they should all have happened outrages the law of probabilities. That every link of the chain is complete means that it has been artificially produced, like a stage storm, where the lightning flashes at just the right instant. The fellow who arranged it wanted to be too sure. He overleaped himself."

"That may all be true," I said slowly, after a moment, "but it would be worse than folly to use that argument with a jury. To say that a man isn't guilty because the evidence against him appears to be conclusive"—

"We're not going to use it to a jury. We're using it between ourselves, in an effort to find a working hypothesis. And here's another argument which would carry no weight with a jury, yet which with me, personally, is conclusive: I know Jack Drysdale. I've known him for a long time, and I know that it's utterly impossible that he should have committed such a crime. He's not a very original fellow, not at all a genius. He's never done anything, perhaps, which either of us would think really worth doing; but he's kind and honest and gentle and honorable. I repeat that a crime like this is as far beyond his horizon as it is beyond yours, farther, I'm sure, than it is beyond mine, and yet I don't believe you'd think me guilty, no matter what the evidence against me seemed to be."

"I shouldn't," I said, "but if Drysdale isn't guilty who is?"

"If Drysdale isn't, there's only one other person who can be—that's Tremaine. As I'm sure Drysdale's not guilty, I'm correspondingly sure that Tremaine is."

"But then," I objected, "you've just said that there's no evidence against him."

"I said apparently there wasn't."

"And Delroy says he didn't leave the house."

"Delroy must be mistaken—must be, mind you! And while there isn't any direct evidence, there's some pretty good indirect. We know that Tremaine is a criminal, and, therefore, capable of this crime. We suspect that he needs money, and the necklace would place him out of need for a long time to come. We know that he was within reach of the spot where the murder was committed, if he could get away from Delroy for an hour or so. In other words, we have a motive and the physical possibility of guilt. I may add that I think we shall find he had some reason to injure Drysdale—I'm sure we shall, in fact."

"But the button—the pistol—Drysdale's unexplained absence?"

"Those points can only be cleared up by a personal investigation of the premises. That's why we're going to Edgemere."

"Godfrey," I said, "there seems to me to be one great objection to your theory that Tremaine killed Thompson. If Miss Croydon saw him do it, would she consent to associate with him? Wouldn't her very knowledge of his crime give her a greater hold on him than he has on her sister?"

He paused to turn this over.

"Yes," he admitted at last; "it would; but a woman might not think of that."

"A desperate woman would think of everything," I said, "and if your theory is right, both she and her sister must be very desperate."

He nodded without answering, and sat staring before him, his brows knitted in perplexity.

To be continued.

Trades and Labor Council Support Harnessmakers

In Their Present Strike—Resolution of Sympathy Passed—Committee Will Report as to Teamsters' Trouble—Delegate Appointed to Hamilton Convention.

A meeting of the Trades & Labor Council was held last evening in the Labor Hall, with President Alexander in the chair.

Mr Henry Carveth was elected by acclamation to the position of financial secretary.

The strike of the city teamsters was the first business of importance to be considered, and a committee was appointed to investigate the matter, gather information and report Friday evening.

A CONVENTION.

A communication was read from the Labor Educational Association of Ontario, asking the Trades and Labor Council to send representatives to the fifth annual convention to be held in Hamilton on Friday, May 24th. Mr. T. J. Begley was appointed to represent the local Labor Council at the Convention.

HARNESS MAKERS STRIKE.

A representative from the Harness Makers Union was present and addressed the Council in reference to the strike in th B.F. Ackerman harness works. The situation was discussed at considerable length and the following resolution was unanimously adopted,

"We, the members of the Trades & Labor Council of Peterborough, representing the labor sentiment of this city, desire to extend the sympathy and co-operation of organized labor to the local Harness Makers' Union in their fight against sweat shop methods, as exist in the above named industry.

"We desire also to condemn the unfair and uncharitable spirit manifested by the representative of this industry in his interviews with the men, as well as his treatment of the International representative, whose mission it was to bring about a satisfactory solution of the trouble.

"We feel that the treatment accorded the men in the ridiculous wage rate paid, is an outrage, when the enormous profits realized by this industry are considered, and altogether at variance with the definition of justice and equality.

"We further condemn the practice of giving bonuses and exemptions to industries locating in the city, without the interests of the toilers being considered and safeguarded."

Control of Northern Waters; Lakefield Enters Protest

Objects to Peterborough Having Sanitary Supervision Over Them and Asks Other Municipalities to Join the Village in its Attitude—Considerable Amount of Property Changes Hands.

Lakefield, May 8.—The Board of Trade met in the town hall Monday evening and was largely attended, with the president E. A. Tanner, in the chair. A number of important matters were brought before the meeting, among which was a resolution to urge the different municipalities along the route of the waters above Peterborough to combine and have the legislation giving Peterborough the sanitary control of the northern waters, repealed, also, relating to the train service on the Grand Trunk Railway, and several other matters.

PUBLIC SCHOOL BOARD

A regular meeting of the Public School Board was held in the town hall, on Friday evening of last week

The members present were Trustee Dr J. R. Fraser, in the chair; and Trustees John Hall, R. Q Dench and J. W. Ridpath.

The minutes of the last regular meeting were read and confirmed.

The principal's report for month of April was read and on motion received

The average attendance for the month was 200, the total number on the roll being 263.

Moved by Trustee Hull, seconded by Trustee Dench, that the following accounts be handed to the finance committee, and, if found correct, paid.—Carried;

W J Webster, work...	$ 5.30

Moved by Trustee Hull, seconded by Trustee Ridpath, that we recommend the purchase of the Modern Cyclopaedia in eight volumes for use in the public school for the sum of $19.00 to be paid on delivery and that this motion is authority to the treasurer to pay for the same.—Carried

GENERAL NOTES.

Rev S. S. Pickup, of Toronto occupied the pulpit of the Presbyterian church last Sunday, morning and evening, during the absence of the pastor, Rev. S. S. Burns.

Rev S. S. Burns was in Stirling last Sunday delivering a sermon in the Presbyterian church, to the Oddfellows.

Mr F. M. de la Fosse is ill with la grippe, having been confined to his home for over a week. We hope soon to see him around again.

Mrs McBrien, who has been visiting her parents, Mr. and Mrs. Isaac Watson, returned to her home in Peterborough on Tuesday.

Messrs. Gerald and Thomas Fitzgerald were in Port Hope last week attending the funeral of their sister, Mrs. Walker.

Miss Cole, of R. Graham & Sons, millinery staff, was in Toronto last week attending the millinery openings.

Mr A. Reid, of Peterborough, has been engaged by Mr. T. Z. Webster as baker.

Mr George Parcels, of Dummer, was in the village on Sunday.

Mr Walter Carveth, of Dummer, spent Sunday in the village.

Mr O. A. Langley and Master Jack are spending a week at Oakville.

The band intend giving a concert in the town hall on Friday evening May 17th.

The Royal Black Preceptory meets in the Orange Hall on Friday evening, May 10th.

The council will meet in the town hall on Monday evening, May 13th

A number of cutters were out on Saturday, taking the last sleigh ride of the season.

CHANGING HANDS.

Property has been changing hands very freely lately at good prices. Among the recent sales are the following,

Mr. William Smith sold his residence to Mr. Condon, of Douro.

Mr S. J. Charlton sold his residence to Dr. J. N. Johnston.

Mr A. J. Kidd sold his residence to Mr S. J. Charlton.

CARS DERAILED

Three cars were derailed on the G.T.R on Monday morning, caused by a broken axle, taking the trucks from under two cars and tearing up the track for about twenty yards. The auxiliary was summoned from Lindsay and with their gang of men succeeded in getting the track clear about four oclock on Tuesday morning.

A DEMONSTRATION.

Mrs O. Cooper will be in R. Graham & Sons store from Friday, May 17th to Tuesday, May 21st, demonstrating the good qualities of Pure Gold Jellies, Quick Puddings and Salad Dressings. She will be pleased to meet all the ladies of the district, so that they may taste and try her delicious jellies, puddings, etc.

China's Starving Thousands Are Living on Bark and Dried Leaves

Impossible to Keep the Dead and Dying From the Door Steps—Smallpox and Diphtheria Add to the Horror of Famine—The Great Need of Relief.

The members of the Bethany Tabernacle have sent away $50 to the China Inland Mission, to assist in relieving the awful distress and famine in China.

It is expected that an additional sum will be forwarded in a few days. The call is urgent and Mr A. J. Johnston, druggist, George street, who is treasurer of the fund, will be pleased to receive any subscriptions

The following, soul-stirring reference, on "The Terrible Famine in China," is taken from a letter from Miss M. E. Waterman of the China Inland Mission, dated Tsing-Kiang-pu, Kiangsu, under date of March 18th, 1907,—

I have now been here nearly three weeks. It was a sad coming back in more ways than one. I was met with the news of two deaths when I got here—one, our oldest Deacon, and the other, the oldest Christian woman. I miss the deacon very much, he was always such a help.

Although it was the New Year season when I reached here, it did not seem the least like a holiday time, the famine and its effects are so far-reaching, that all this district is suffering. The city is full of poor people from all parts of the country. The things we see are too dreadful to tell. I have seen famine twice before, but nothing like this. Our few country Christians, who have to depend entirely upon what their land produces are living on one or two meals a day, which consist chiefly of dried potato leaves and vines.

There is a good deal being done at Antong and other places, north of here, with money sent for relief. Many thousands have been sent to work carrying mud from outside, and filling up swampy places inside the cities. Those thus employed—men, woman and children—are given 10 cash a load for mud, and the flour which has been supplied for the relief is sold at a very cheap rate. Mr. Burgess and Mr. Mungeam, of our Mission are at Antong managing this work.

We have not the large number at Tsing-kiang-pu, but those we have are mostly sick and diseased, who are unable to do anything. The dead and dying on our streets are many; we cannot keep them away from our front door step. A man died here last week, and we had to pay to have his body carried away and buried. We cannot walk any distance, as the people catch hold of us, and almost tear our clothes off begging for help. We dare not give them a cash on the street, or we would be mobbed, but we are helping some secretly. It is all so dreadful. Smallpox and diphtheria are everywhere in evidence, and this condition of things must go on till the end of June, before the wheat is ready to cut. It is awful to see the things people are trying to live on—bark, dried leaves, and refuse of all kinds. It seems sometimes almost more than I can bear to go out and see these things, and even with money, it is difficult to help, as there are so many. I had to go out early this morning to a place some distance away, and all along the street where the sun was shining on one side, was lined with poor, starving, sick, lame, blind and diseased people. Oh, they are so many! Instant help is needed.

Convention of Trades Councils

Will be Held in Hamilton on May 24th

The following is the official call to the various Trades and Labor Councils and Trades Unions to the fifth annual convention of the Labor Educational Association of Canada to be held in Hamilton, on Friday, May 24. Mr. T. J. Begley will be the delegate from the Peterborough Trades and Labor Council:

To the various Trades and Labor Councils and local Trades Unions throughout Ontario, Greeting:

Brethren,—You are hereby cordially invited to send representatives to the fifth annual convention of the Labor Educational Association of Ontario, which will convene in Labor Hall, John street, south, Hamilton, on Friday May 24th, 1907. This has been a most prosperous year in the history of our Association. Our official paper, The Industrial Banner, despite a long continued illness on the part of our editor, has gained over 1400 subscribers inside of nine months. Your executive has also signed an agreement with the Toronto District Labor Council to push an edition of the paper in that city, commencing after the convention. We have also arranged to start the publication of the Hamilton edition at the same time, and will also enlarge and improve the London edition. The time has come when the Association should make a determined effort to plant local editions in other places. Our independent Labor Party has been formed, but it is a party without a press, as with the exception of the Banner, no labor paper exists in the province. This of itself will show the urgent necessity for a big representation in Hamilton on May 24th. If the Labor Party is to become a force it must have literature behind it, to advance its principles and educate the people. Your executive will also submit at this convention a scheme to issue a Labor Educational Quarterly for free distribution. While the circulation of the Banner is rapidly increasing, it is imperative that we place live trade union literature in the hands of people who have no connection or sympathy with organized labor. They will not come to us, so we must go to them. The idea is to make advertising cover the whole cost, it will entail no expense of any Trades Council or Local Union, the aim of the Association being to have it distributed free to every dwelling, in every city and town in Ontario, where the local organizations desire to co-operate with us. This matter has been carefully figured out and can be easily accomplished This is one of the most important matters that has ever come before a Labor Convention and it is practical. It is a move, which, if successfully inaugurated, will be of immense significance to organized labor. Our association has not accomplished all it outlined to do at the London Convention last year. Our late President, A. E. Starrm of Woodstock, in the discharge of his duties as organizer for the Piano and Organ Works Union, found it necessary to be absent in the States for nearly five months, during the period that illness incapacitated our editor, with the result that for a time our work lay in abeyance. After the assumption of office by the new president and the re-organization of your executive committee in January last, a great deal of continuous effort on the part of its members has had most marked results. The executive will meet the convention this year in a position it has never occupied before. The reports will show it was never so favorably situated for effective work. Coming as this convention does on a public holiday, with cheap fare, and only lasting one day, we feel we have a right to expect that you will use your best effort to be represented. We have great matters to lay before you. It is necessary that we have a big attendance. The work we have accomplished in the last few months is proof positive that the association is becoming a mighty power for good. Therefore, we must earnestly urge upon you the necessity of being represented at Hamilton. Make a sacrifice in this instance, if necessary. It is worth it.

Fraternally submitted.
CHAS. W. WALDREN, President,
Brantford, Ont.
CHAS. G. BIRD,
Hamilton, Ont.

N.B.—Trades Councils are entitled to three delegates and Local Trades Unions to one delegate each.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

CHARGES OF BRUTALITY.

Serious Allegations Against Officers of British Ship.

San Diego, Cal., May 9.—It was reported late Tuesday night that two sailors who have escaped from the British steamer Maoriking, which arrived here Tuesday from Shanghai, make sensational charges of brutality against the captain and officers of the ship. Rumors are in circulation to the effect that 15 Chinese were killed during the riot on board and their bodies cast into the sea.

International complications are likely to result and it is believed that the most serious part of the charges remains yet to be told.

35 Injured In Strike Riot.

New York, May 9.—Not since the Brooklyn car riots has there been such street fighting on the other side of the river as happened last night, when nearly 600 Italians and police joined battle in the Italian quarter in Williamsburg. Three patrolmen were severely injured and when their comrades had broken up the riot, 35 rioters had been sent to the Williamsburg Hospital and 12 more locked up in a police station. Under cover of darkness an attempt was made by the steamship companies to bring in non-union men and the rioting followed.

Concessions to Newspapers.

Ottawa, May 9.—Postmaster-General Lemieux promised to give the press delegation stamped wrappers at the price of stamps, and it is likely that a flat rate will be given later on outside zones. At present it is one-half cent, and one-quarter cent; it is probable that in the future it will be made a flat rate of one-quarter cent, but legislation will be required for this.

Volcano Active In Sicily.

Messina, Sicily, May 9.—The Stromboli volcano has been intermittently active since April 28. Cinders and stones, accompanied by loud explosions, have been frequently thrown out of the crater. The vegetation in the vicinity of the mountain has been destroyed. The people continue to leave the island.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

ACCIDENTS VS. FIRES

It is said that 20,000,000 accidents and illnesses occur each year, but only 80,000 fires.

A business man protects his property against the loss that rarely happens---fire. He can replace his property, but he can never replace his time or his damaged arm.

The most liberal accident and sickness policies are issued by

The General Accident Assurance Company of Canada

Our "Utopia" policy is the best and most unconditional Accident Policy on the market, and completely covers all loss of time from accident.

We issue a Sickness policy which covers every disease to which flesh is heir.

We are revolutionising the liability business by our "factory policy."

WANTS PUBLIC CEREMONY HELD

When Corner Stone of Armouries and New Schools are Laid

A prominent citizen remarked to the Review today that it was very strange that the citizens of Peterborough had allowed two large public buildings to be started without any public ceremony, whatever. He referred to the Collegiate Institute and the Armories. The Normal School will also be started without ceremony, unless some action is taken at once. He thought that as the buildings have now been started, that some public spirited men should get together and arrange for a public corner stone laying. This would create a lot of interest among the citizens, and would help to make the work interesting.

Contract Sub-Let For Brick Work

Mr. J. J. Hartley Will do the Job on North Ward School

Baptie Bros., of Lakefield, who were awarded the contract some time ago for the six-room addition to the North Ward school have sublet the contract for the brick work to Mr. J. J. Hartley.

Mr Hartley has just completed the erection of three detached houses on Albert street, and will put up two more dwellings on his lot on Walnut street.

BIRTH

PERRY—In Peterborough, on Wednesday, May 8, 1907, to Mr and Mrs. J. G. Perry, Bolivar street, a son.

COWIE.—In Peterborough, on Wednesday May 8th, 1907, to Mr. and Mrs James Cowie, a daughter.

BRACE.—On Sunday, May 5th, at Richmond Hill, the wife of Rev. A. P. Brace, of a son.

REMOVAL

On or about May 15th our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

JOHN NUGENT

OBITUARY

JANE GILES

The death occurred yesterday afternoon of Jane Giles at the residence of her son, Mr. Josephus Giles, lot 18, con. 12, North Monaghan. The deceased had been ill for some time. She was 86 years of age and was born in Ireland.

The funeral will take place from the residence of her son tomorrow afternoon at 2.30 o'clock to the Little Lake cemetery.

THOMAS ELLIOTT

Thomas Elliott, an old and highly respected resident of Peterborough died suddenly in Norwood on Wednesday morning at the residence of his daughter, Mrs. Wm. Taylor. Heart failure was the cause of his death Mr. Robt. Elliott, of Peterborough is a son. The surviving daughters are Mrs. Wm. Taylor and Mrs. J. R. McKelvie, of Norwood; Mrs. Wm. Hubble, of Michigan. (Man., and Mrs. Ed. Lewis, of Alton Ill.

MRS. JOHN LOWERY.

An old resident of the county passed away at midnight last night in the person of Mrs. John Lowery, who was 79 years of age. She has been gradually failing for some time and when the end came she peacefully entered upon her long sleep. Mrs. Lowery was born in Springville, and about thirty years ago moved to Warsaw where she resided until last fall, when she moved into the city, and has lived with her daughter Mrs. John A. Fairbairn, at 763 Water-st. She was well known in the county where she spent all her life and she was highly respected. She was an active member for many years of the English church and when old age forced her to retire she was greatly missed. The funeral will leave her late residence on Water street at 11 o'clock to-morrow morning after a short service by Rev. Canon Davidson, and proceed to Warsaw cemetery for interment.

Deceased is survived by three daughters, Mrs. Geo. Clemens, Dummer; Mrs. Alex. Calder and Mrs. Fairbairn, of Peterborough and four sons, Thos. of Deer Lake; Henry of Montreal, and Samuel and John, of Peterborough.

Little Girl Died From Her Burns

Luella Quinlan Passed Away in St. Joseph's Hospital Last Evening

Particulary sad are the circumstances surrounding the death of little Luella Quinlan, which occurred last evening at five o'clock in St. Joseph's Hospital. It will be remembered that the girl on Monday evening last, while rescuing her handkerchief from a bon-fire, had her clothes catch fire and she was seriously burned. She was removed to the hospital, where the best of medical care and attention was given her, but her injuries were of too serious a character, and she passed away yesterday evening. She was only five years of age, and was the youngest daughter of Mr. and Mrs. Cornelius Quinlan, East City. The news of her death came as a great shock to her playmates, and the family have the sympathy of a wide circle of friends in their bereavement.

Besides her parents, one sister, Mary, and three brothers, John, Edwin and Leonard, are left to mourn her loss.

The funeral took place this afternoon at 3 o'clock, from the family residence, Oxford street, to the Roman Catholic cemetery, for interment.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E .W. GROVE'S signature is on each box. 25c.

St. Catharines, Sons of England will erect a flag-pole in the city square and give a flag to the municipality.

Teamsters' Strike Unsettled; Board of Works Offered $3.60

Large Deputation Waited Upon the Committee Last Night—Refused to Accept Less Than $3.75—Strike Will Continue--City's Work Can Stand for a While.

The teamster's strike is not settled yet and it looks like a case of freeze out. Both sides appear obstinate, the Board of Works will not pay $3.75 and the men will not take any less, although the Board offered to compromise and pay $3.60, which is a straight 40 cents an hour.

At the Board of Works meeting about fifteen teamsters were present upon invitation. It was thought that the trouble could be overcome and that everyone would be satisfied. For the teamsters, Mr. Wm. McWilliams, and Mr. G. F. Brisbin were spokesmen. The former positively refused to listen to anything but $3.75 a day, and of course, the others stood by him.

The aldermen argued the matter with them for a long time, without any effect, and finally the offer of a compromise was made.

Ald. McIntyre said the feed and shoeing of horses was at least $1.00 per day, and to keep the rig and harness in condition and to replace the harness and outfit, would cost 75 cents a day. This only left $1.75 for the man, which was the same as the men on the streets got.

Ald. Johnston said he got figures from a man who draws stone the year round, and his feed and keep of horses, and for repairs cost only $1.40 per day.

The mayor said he did not think it was right for the city to establish a precedent. If the majority of the teamsters could get employment at $3.75 per day, then the city would have to pay more. But as long as contractors paid only $3.50, the city should not pay more. Continuing, the mayor said that rather than allow the trouble to continue he would suggest that the city pay $3.60, or and even 40 cents an hour. This splits the difference between the city and the teamsters.

On motion the teamsters were allowed to express their views.

Mr. McWilliams, on behalf of the teamsters said that he would have to figure on a depreciation of 10 cents a day on waggons and harness and horses did not last very long. An outfit would cost on an average $550.00.

Here Mr. McWilliams made a long speech in an effort to get the teamsters to look at the matter in the same light the aldermen did, and closed by offering $3.60 a day.

It might be stated that Ald. McIntyre stood pat for $3.75 per day and he was all alone.

The teamsters adjourned to the street, where they considered the matter and then sent Mr. Brisbin back to tell the committee that they would not accept any less than what they had asked. He said he was very sorry they could not agree, as personally he wanted to get back to work, and he did not think any of the men were financially able to stand much of strain. A lot of them could get work taking out cellars and other one or two day jobs, but he would prefer to work for the city.

The aldermen took the stand that they could not pay any more. Contractors were not paying any more, the Government did not pay more, and if the city raised it to $3.75 per day then everyone would have to. However, Mr. Brisbin was asked to make another effort with the men to accept $3.60 a day and to report to the council. But no report was made and the strike goes on.

Street Commissioner Evans is, however, confident that the city's work will only be delayed a few days at most, and then he will get all the teams he wants.

Street Railway Co. Going Into Freight Carrying in the City

The Peterborough Radial Railway Co. have applied to the city council for permission to build a spur from the end of the Central Milling Co.'s siding to the company's tracks on George street. The agreement with the city permits the company to carry freight late at night, and it is the intention of the management to start drawing freight cars up George street after everyone else has gone home. The council was inclined to doubt the company's right to construct the extension of the C.P.R siding and the city solicitor was instructed to advise the aldermen

It is not at all desirable for any more sidings or railway crossings on George street. It was only a short time ago that a request from the T. Kinnear Co. was refused.

Clause three of the agreement between the railway company and the city reads, in part, as follows;

"For the purpose of a street railway for carrying passengers, freight, express and baggage including the right to place the necessary poles, wires, ties, rails, turnouts and other appliances thereon, for the purposes aforesaid." The words "and other appliances" might give the company the right to build the extension.

Many Gasoline Launches Will be on the Otonabee

There are Now Nine Tied Up at Rye's Boathouse—Mr. G. P. Preen Has Purchased a New One.

The boating season for canoes, skiffs and small craft generally, opened on the Otonabee this afternoon. Mr. H. B Rye rented the first boat from his boathouse today, to a couple of young men who took a paddle down the river. However, Mr. Rye does not expect that boating will be much in vogue until the 24th. From appearances the season is going to be the best on record, as in addition to Mr. Rye's own boats he has on hand a large number of canoes and skiffs, belonging to private parties. They will be kept at the boathouse for their owners during the summer.

The river this year, too, promises to be fairly alive with gasoline launches. There are now nine at Mr. Rye's boathouse and he is making arrangements for housing several more during the season. A number of new ones have bene added to the fleet and there are more coming. Among the latest additions is a twenty foot gasoline launch belonging to Mr. G. P. Preen, manager of the Brinton Carpet Company. Mr. Preen's boat is a new one and was purchased a short time ago, from a Toronto firm. Two young men employed at the Quaker Oats Company, have also purchased a launch and it is now at the boat house. Judging from present indications a large number are going to answer "the call of the river,' this summer.

Construction Co's. Teamsters Struck for $3.75 Per Day

It never rains but it pours. Strikes and runaways have been as numerous as fights at a Donnybrook fair during the past few days and to keep up the procession the teamsters employed by the Dominion Engineering and Construction Company at the new transformer building of the C.G.E., went on strike yesterday, but the affair was soon settled and nothing serious resulted. The teamsters asked for $3.75 per day and quit work until their demands was granted. When the management found that no gravel was being delivered at the new building they investigated to find out what the trouble was and ascertained that the teamsters were not going to work until they would get $3.75 per day. They had been receiving $3.50. After a little consideration their request for $3.75 was granted and they started to work again. Everything is running smoothly again.

Will Appoint Constables For the Various Parks

Nicholls Park Commissioners Held Meeting—Will Erect House for Caretaker of Jackson Park—Other Business Transacted.

It has been decided to appoint a constable for each park in the city.

This was the decision reached at a meeting of the Nicholls Park Trust Commission held yesterday afternoon in the office of Messrs. Hall & Hayes. There were present Messrs. Richard Hall, E. H. D. Hall and Mr. John Crane. Mr. R. Hall was elected chairman and Mr. Crane, secretary.

TENNIS CLUBS.

It was decided that all Tennis Clubs desiring to use the Nicholls Oval must first get permission from the commission.

As to the portion of the Oval which the various clubs will use, the organizations must arrange the matter among themselves.

It was decided to erect a house for the caretaker of Jackson Park, who will also be appointed constable of the park. An appointment will be made at an early date and Jackson Park will be thrown open to the public.

A constable will also be appointed for the other parks under the commission.

NO MEETINGS.

It was decided that no meetings, religious or otherwise, should be held in the parks on Sunday.

It is likely that a first class band stand will be erected in Inverlea Park, and an effort will be made to have concerts given in this park occasionally, as well as in the other parks.

Presented With Solid Gold Ring

Mr. R. H. Shepherd Honored by Lansdowne Lodge, S. O. E.

The members of Lansdowne Lodge, S.O.E. honored an old and valued member, Mr. R. H. Shepherd, who is leaving the city shortly. Mr. Shepherd was a very active worker in the Sons of England Lodge and he will be greatly missed by the members. As a token of the esteem in which he was held he was presented with a gold ring accompanied by the following address:—

To R. H. Shepherd, Esq.:

Dear Sir and Bro.,—It is with regret that we learn of your intended departure from our midst, as in your departure we shall be losing a faithful and conscientious worker.

Nevertheless, we hope that the change will be for your benefit, and hope that you may have perfect health and success in your new occupation. We would ask you to accept of this ring as a slight token of the esteem in which you are held by the members of Lansdowne Lodge, No. 25, S.O.E.B.S., of which you have been an active worker for so many years.

Signed on behalf of Lansdowne Lodge.

F. C. KITNEY,
WILLIAM TAYLOR,
E. W. ELCOMBE.
Committee.

Farewell to R. H. Shepherd

Friends Presented Him With Ring and Address at Montreal House

The Montreal House was the scene of a very jolly party last night. It was a farewell supper to Mr. R. H. Shepherd of the C.G.E. A number of his friends gathered around the festive board and enjoyed a fine spread, which was prepared by Mine Host Larocque. After supper Mr. John Brown presented Mr. Shepherd with a handsome gold ring, beautifully engraved and Mr. McLaren read an address on behalf of those present. Mr. Robt. Hay was in the chair and admirably filled the position of toast master.

Douro Picnic on June 6th

Annual Outing of Father Kielty's Congregation

The annual picnic of the Roman Catholic congregation of Douro will be held on Thursday, June 6. Arrangements are already under way and the assurance is given that this year's picnics will be the best ever held. Father Kielty is, of course, the moving spirit in making the arrangements. Peterborough is always welll represented at the Douro picnic and, with fine weather, this year will be no exception to the rule.

St. John's Choir Was Entertained

By the Girls Guild Last Evening—Pleasant Time Spent

St. John's church choir were pleasantly entertained last evening in the school room by the Girl's Guild. A large number of the choir partook of the kind hospitality of the young ladies. Supper was served to the choir, after which the time was spent by a unique programme of questions and answers on twentieth century matters.

The choir appreciates very much the kindness of the young ladies, and is also encouraged by the fact that the congregation also appreciates its efforts to make the services attractive.

Misses Pratt, and Layfield of the Girl's Guild, deserve credit for the excellent manner in which the arrangements were carried out.

Runaways are Still in Order

Exciting Time on Hunter Street To-day—Expensive Coat Ruined

Runaways are common occurrences these days, but probably the most exciting took place this morning about eleven o'clock. Mr. William Crough of Ennismore, in company with Mr. Elphin Stone, came into the city. They drove a team of bay horses and had their heavy waggon, as they were going to take a stove back with them. Mr. Stone was driving out of the American Hotel yard when the team started off at a mad gallop on Hunter street, going east. Mr. Stone cannot account for their becoming frightened. The pace at which the spirited team ran created great excitement, and brought many persons out all along the road to see the runaway. At the corner of Water Street on Hunter, the worst damage was done. One of the Dominion Express Co.'s waggons was coming along and collided with the heavy farm waggon. The express waggon was overturned, and Mr. Stone was thrown about fifteen feet in the air, and still hung on to the lines, but fortunately alighted in the waggon again. The express waggon by the force of the clash was swung around and the boards in the crossing were turned into kindling wood. The runaway did not end here, but the excited animals continued their mad dash over into Ashburnham. They ran clean out Hunter street, until in front of Mr. A. J. Tovey's drug store, they fell exhausted. Mr. Stone never dropped the reins, but stayed with them all the time. He deserves great credit for the grit he displayed. He is just out from England for about two weeks, and he will not forget his experience of today for some time.

The team soon quieted down and were driven back to Mr. Murty's store, where the stove was put into the waggon, and they left for Ennismore. No damage was done to Mr. Crough's outfit.

The Dominion Express waggon was not damaged. The parcels were all thrown onto the road, and one was completely ruined. The box contained an expensive silk coat and was to go to Toronto. The express horse sunk the cork of its shoe right through the box, and about six thicknesses of the coat. There are so many holes in the garment, that it is now of little use, and the express company will have to make good the damage done.

GOOD WORD FOR THE LADIES

Mr. Charles Writes Approvingly of Their Efforts in a Good Cause.

To the Editor of the Review.

Sir.—I am very glad indeed that the ladies of Peterborough, who have always been noted for their many ways of doing good, have made up their minds to do something for the Muskoka Free Hospital for Consumptives, which is in much need of funds to carry on its good work

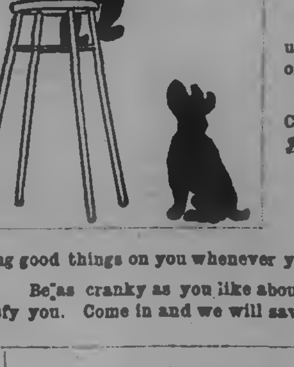
The plan adopted by the ladies to raise money appears to me to be one which will not prove a burden to anyone and yet, if all the boys and girls in our city will do their duty and collect all the old rubbers around their homes, the sum total realized from the sale of these old rubbers will be so large that it will surprise everyone. I wish the ladies every success in their work.

Yours truly,
D. HUGHES CHARLES.
Peterborough, May 8, 1907.

NEW OFFICER FOR THE FORCE

Police Commissioners Discussed the Matter But Made no Appointment

At the meeting of the Police Commissioners yesterday afternoon the question of appointing another policeman came up. Several applications have been received but none have yet been accepted. George McGarry is engaged temporarily, but the Board decided that before any more officers are appointed they will have to pass their physical examination. Mr. John B. McDonald, a brother of the late Alfred McDonald, is an applicant and this morning he passed his examination. He will be given a trial on the force before the appointment is made. Mr. McDonald is six feet tall and weighs 185 pounds. He was for sixteen years railway policeman in Chicago for the Chicago, Burlington and Quincy R.R., and has been in this city since his brother's death last year.



"THE DAYLIGHT STORE"

NOTE THESE FACTS

We're pounding out a fact or two which we would like to impress upon your mind. Listen! Vanity exacts heavy tolls. "Made to order" has a ring pleasing to many Clothing buyers.

"My Tailor" is a phrase one pays handsomely for. The Suits or Top Coats the tailor is obliged to ask $25,00 and $28.00 for we duplicate at $18.00 and $20.00.

DROP YOUR PREJUDICES THIS SEASON. SEE AND SAVE.

Spring Suits, Spring Toppers and Spring Toggery. We're ready to spring good things on you whenever you give us a chance.

Be as cranky as you like about extreme styles, perfect fit, excellent fabrics and tailoring. We will satisfy you. Come in and we will save you money and please you.

Tribute Paid to Rev. Dr. O'Brien

Has Made Peterboro' the Stronghold of Temperance

The crossing of the Atlantic by Rev. Dr. O'Brien, of Peterborough, for the purpose of taking a few necessary weeks of recreation, says the Catholic Register, recalls to us all he has done in a special direction for the people amongst whom he labors. He has made Peterborough the particular stronghold of temperance for Ontario. For some years word of this new field, now blooming with results has found its way outside. The men of Peterborough and its women are all under the beneficient influence of this energetic priest, who by strong word and example acts as the preacher of temperance. A short time ago Dr. O'Brien returned from the Convention Temperance Associations of America, bringing with him the banner won by his society as the one which during the year had brought the greatest number of members into its ranks. The good work will goes on. Father O'Brien is of all things virile, and this, supported by his priestly sympathy, does the work. Eternal vigilance is the price he pays for those whom he saves or protects, and many are the stories told of the midnight visits on rescue work and the short hours of repose for Peterborough's apostle of temperance. Dr. O'Brien is a "Peterborough boy" and the only son of his mother, who, yet living amongst the people to whom her priestly son ministers, has the happiness of seeing the beneficient results of his labors. Scarcely yet in his prime, it may be hoped that Dr. O'Brien has yet many years to serve his reverend Bishop and the people of the diocese.

Question of Trip Not Yet Decided

At a meeting of the officers of the 57th Regiment held last night to discuss the objective point of the annual outing of the corps, no decision was reached. Another meeting will be held next Tuesday night to decide whether the trip will be to Brockville or St. Catharines on July 1st.

THE CITY AND VICINITY

EVENTS TO-NIGHT

City Hall.—Meeting of the Property committee.

Y.M.C.A. Hall.—Address by Rev. H. J. Keith on foreign missions.

Park street Baptist church.—Annual congregational meeting.

BIBLE STUDY.

All active members and all men interested in this work are urged to be present.

RETURNING TO THE CITY.

Mr. J. W. Browett, the specialist, who is lecturing to opticians, for the past four weeks, will return home from Toronto, next Wednesday.

AN INTERESTING STORY.

Is that to be told by Rev. H. J. Keith to the Women's Foreign Missionary meeting at the Y.M.C.A. tonight at eight o'clock. He will speak on Calcutta, where he has spent the past ten years.

PROPERTY COMMITTEE.

The property committee meets this evening to take up the garbage system bylaw.

NEW WATER MAIN.

A new water main is being laid on Margaret avenue, between Charlotte and King streets.

NEW HOUSES.

Mr. Wm. Langford, jr. is erecting three brick houses on Thomas street, near King. Good progress is being made with the dwellings.

ASCENSION DAY.

Today is Ascension Day. Special services were held this morning in St. Peters Cathedral and in the Anglican Churches of the city.

TAKE IT TO "MY VALET."

If you have a spring suit you would like to have cleaned, ready to put on when the weather permits "My Valet" will clean it properly, press it and send it home. Both phones. Wesley Bros. 204 Charlotte-st.

HOUSE OF REFUGE.

There are now eighteen inmates in the County House of Refuge at Lakefield—twelve men and six women. This is the largest number yet.

CAR OFF THE TRACK.

An Auburn car, No. 16, ran off the track near Mr. Leplante's residence on Crescent street, this morning. Another car was pressed into service and car No. 16, was soon on the track.

SEE PAGE THREE

The report of the Trades and Labor Council meeting and other local news will be found on page three of today's Review.

STOLE A BROOM.

Unless the party who took the patent oil broom and the two ordinary brooms from the C. P. R. city ticket office cellar, returns them at once, there will be trouble.

WILL SOON FINISH

The Canada Machine Telephone Co., Toronto, hopes to complete the installation of their plant in Bradford by the middle of this month, and have the service in operation by June. It will also shortly begin construction work in Lindsay.—Telephone Age.

NEW TELEPHONE DIRECTORY.

The Bell Telephone Company is distributing its new telephone directory for Eastern Ontario to subscribers in Peterborough. Since the last directory was published a few months ago, there has been an increase of 81 subscribers in Peterborough, making a total of about 850 patrons in this city.

THE MAN WITH NINE LIVES

Vest Scott's Colleman, and see this remarkable moving picture, along with Mr. and Mrs. Smothers. Both very funny. Prof. Smithers has a deal of trouble with his Academy girls. Now programme to-day. Admission 5 cents. Look out for the date of the Thaw Trial.

MR. AND MRS. TODD ACCEPT.

The members of First Church of Christ, Scientist, held a meeting after the service last evening. Mr. Turnbull, the new president, occupied the chair. After hearing the secretary's report from Concord, N. H. Mr. and Mrs. Todd decided to accept the positions as readers.

MYRTLE LAUNCHED.

The Myrtle was launched this morning and will be in commission with the dredge Trent in connection with the turning basin at the Quaker Oats Company, just above the Hunter street bridge. The Myrtle has been painted and her machinery overhauled. She is in first class shape for the season's work.

EIGHTEEN DAYS.

A visitor in the city last night remarked that he had just come from Quebec City. He was there Tuesday when a steamer from Ireland, loaded with immigrants, arrived in port. The boat was behind time, being 18 days on the way over. The voyage was very rough and for several days they were mixed up in icebergs.

WHEEL CAME OFF.

The teamster who is drawing dirt from the cellar of Creasman's new store had the misfortune this afternoon of having his waggon break down on Hunter street. One of the wheels came off and down went the waggon. A number of men were soon procured and the wheel was put on again.

FIRE ALARM TESTED.

The fire, water and light committee, with the mayor and city clerk and one or two other members of the council drove to the different fire alarm boxes this afternoon and tested them.

PAINFUL ACCIDENT.

Mr. Thos. George, of Alnwick, met with a severe accident on Friday last while unloading pigs at the Hastings station. His team started up unexpectedly while he was on the waggon and threw him out in such a manner that he sustained a very severe fracture of his leg.

GOOD RECORDS.

Mr. Dan Whetung has made a record in catching 608 muskrats in 26 days this spring. At 35 cents a pelt, which is about an average price, Dan has made the neat sum of $212 for his month's work. Alf. Crowe of the Hiawatha Indians, has reached the 600 mark, and may possibly beat Dan. If he does Dan will be perfectly satisfied, as this spring's catch has been good enough for Dan.—Lindsay Post.

GOING ABROAD.

Mr. G. P. McHugh, son of Senator George McHugh will leave town this evening for Montreal, where he will board the Turbiner, Virginian, of the Allan Line for Liverpool. Parnell will inspect the Dublin Fair, after which he will take in the principal sights of Ireland, England and Scotland, and possibly France and Italy. He will be absent for five or six months.—Lindsay Post.

HARD ON SMOKERS.

Commencing May 12th, Port Hope drug stores will close all day Sunday, having been stirred to this action by a notice served by Chief Bond that it was unlawful for them to sell cigars, tobacco, candy or anything except drugs on Sunday, and were liable to punishment if they continued to do so. In Lindsay the drug stores have not been open Sundays for years, and anyway they do not sell cigars, cigarettes or tobacco. There is some talk of a petition being sent to Council praying that, as one person has had the monopoly of Sunday sales of these goods for some years, that the time has come when this law ought either be observed or the other tobacconists be given a chance to serve and hold their regular customers. Their plea is a reasonable one, because Sunday's trade in smokers' sundries, equals two or three week days.

VICTORY FOR C. P. R.

By a recent decision of the Judicial Committee of the Imperial Privy Council, the Canadian Pacific Railway has won a great victory in the Canadian-Northwest. When the company got its charter in 1881, there was provision in it, that the 25,000,000 acres of land granted by the Crown as a subsidy would not be subject to taxation by the municipalities until twenty years after the grant. The municipalities held that the time for taxation had arrived twenty years after the signing of the contract with the government. The railway company on the other hand, maintained that the time was not up until twenty years after the patents had been issued. To test the case, two or three of the municipalities imposed the taxes and the company refused to pay. The Court sustained the company's contention.

Plan now Open

Lindsay Drayman Fatally Injured

A Lindsay despatch says; John Kearns, a drayman, met with a serious accident yesterday. While driving near the C.P.R. depot his horses became frihtened, and he was thrown out on his head on the pavement. At present he is in the Ross Memorial Hospital, suffering from concussion of the brain, and is in a critical condition. Slight hopes are entertained for his recovery.

BIG DEAL IN TIMBER LIMITS

A deal in lumber properties has just been closed which is the largest single purchase in the history of the lumber trade in Canada, says the Mail and Empire. Immense properties are involved and the purchase price, it is said, is in the neighborhood of two million dollars. The sale, which was recorded yesterday, marks the passing away of one of the pioneer lumber companies of the country, and greatly increases the prestige and power of the purchasing company.

The vendor is the Cook Bros. Lumber Company; the purchaser, Mr. John Waldie, of the Victoria Harbor Lumber Company. The properties transferred are all those belonging to the former company on Georgian Bay, including timber limits and lumber mills. The timber berths are numbers 147, 157, 149, 150, Scarfe Township and an Indian Reserve on Georgian Bay. The Crown Lands Department was unable to state the price paid, but it is understood that it was very little short of two million dollars.

By this transaction Cook Bros. practically retire from the lumber business, and the Victoria Lumber Company, becomes the second largest company in Canada, and the third largest on the Continent of North America.

PERSONAL

Mr. H. G. Buck, of Norwood, is in the city.

Mr. L. F. Clary, of Hastings, was in the city today.

Dr. S. P. Ford, of Norwood, was in the city today.

Mrs. A. E. Dixon, George street, will not receive again this season.

Mrs. Tisdale, 415 George street, will receive tomorrow, Friday, afternoon, from 4 to 7 o'clock.

Mrs. F. Boomer and Mr. Bert Boomer, of Ottawa, are visiting friends in the city.

Mr. J. R. Nelson, of Toronto, general superintendent of the C.P.R., was in the city yesterday.

Mrs. J. J. Howden, of Peterborough is visiting her friend, Mrs O W. Routley, in Parkdale. —Toronto Star.

Miss Eileen Fair returned last evening from Toronto, where she has been visiting friends for a few days.

Mr. L. Smeaton of Peterborough, spent Sunday and Monday in town, the guest of the Misses Brumwell, Regent Street.—Lindsay Post.

Mr. R. H. Shepherd, late of the C.G.E. works, left on the midnight last night for Montreal where he has taken a good position.

Miss Laura Hartley, 234 Antrim street who has been in Jersey City N.J., for the last eight months, visiting her sister, Mrs. Ernest Ainley, has returned home.

Mr. Ernest Ainley, Mrs. Ainley and Master Ernest, of Jersey City, New Jersey, is visiting at the home of Mrs. Ainley's parents, Mr. and Mrs. J. J. Hartley, 234 Antrim-st.

Mr. and Mrs. H. Rush and daughter left today for Montreal, from which port they will sail on the steamship Virginian on an extended visit to Great Britain and Ireland.

Mr. Louis Yootes, George street, is spending a few days with friends at Toronto, Hamilton, London, Buffalo and Kingston. He will return to Peterborough on Saturday.

His Lordship Bishop O'Connor of Peterborough and Venerable Archdeacon Casey of Lindsay, were the guests of Rev. Father O'Sullivan, Walton Street, yesterday. — Port Hope Guide.

Mr. Wm. J. Crossen, of Cobourg, Mrs. G. N. Burnham of Brampton, and Mrs. C. C. James, of Toronto, are in the city attending the funeral of the late Mrs. Wm. Kerr, East city, which took place this afternoon to Little Lake cemetery.

Mr. J. B. McColl, M. P. for East Northumberland, Cobourg, was in town today on business. Mr. McColl tells us that the agreement between the G.T.R. and the Cobourg Council in reference to the car ferry was signed last night, and they expected to see the much-talked-of boat early in July.—Port Hope Guide.

Serious Riots in New York City

Thirty-five of the Disturbers Were Injured—Two Dangerously

Special to the Review.

New York, May 9.—A riot occurred between striking Longshoremen and strike breakers last night, in which many were injured on both sides. The police charged the rioters and carried away twelve well battered prisoners and 35 injured. Two or three of the latter are in a critical condition.

One policeman was dangerously and ten others seriously injured.

AMUSEMENTS

TOM MARKS BACK AGAIN

Tom Marks will be with us, May 13th, after an absence of six years. He has been touring the States during that time where he has made a reputation for himself, second to none in the repertoire field. He is said to be supported by a strong company of actors and vaudeville artists, including the Musical Archers, Miss Millie Desmonda, the Four Voiced Song Bird, Godare and Rowe, singers and acrobats, Chris. C. Allen, singing and dancing comedian, George Steer, illustrated songs and latest moving pictures. Tom will be sure of a rousing welcome in Peterborough, after his long absence. The opening play will be "The Rose of Killarney," with Tom Marks as Teddy O'Mally, a "Broth of a boy." Prices during the engagement will be 10c., 20c., and 30c. (300 seats free if reserved before 5 p. m., Monday, the 13th.)

BUY

BLUE BELL

LARDER LAKE

NOW 10c PER SHARE.

BEFORE THE BIG ADVANCE.

AFTER MAY 15TH 50c PER SHARE.

SPECIAL REGARDING LARDER LAKE.

We are ready to stake our reputation and standing, both present and future, also our money, on the present conditions of Larder Lake as to its being a wonderful Gold Field in every sense of the word. We are very cautious as to what we recommend for investment. We have many propositions presented to us that do not come up to our requirements.

We have gone to a great deal of expense in ascertaining the true merits and real condition of the Blue Bell properties at Larder Lake. In order to satisfy ourselves beyond question we despatched three different crews of men to make examinations. They were supplied with dynamite to blow out the ore at various localities of the Blue Bell properties and ship direct to us. Neither of the crews knew or were aware of the others being in the field. We have received ore and reports from each crew. We have received hundreds of pounds of ore and can say we are astonished at the results.

There is not a single piece, from the size of a hickory nut to the largest piece, weighing two pounds, that does not contain free visible Gold that will assay anywhere from Two Hundred Dollars ($200.00) to Twenty Thousand Dollars ($20,000.00) to the ton; these are facts which we can verify if required.

Men with large quantities of materials are now on the gronnd, establishing camps for the Blue Bell Company. There will be no time lost in installing Stamp Mills. We cannot here take space to tell all the pains and expenses we have gone to in order to satisfy ourselves as to the real merits of the Blue Bell properties in order that we would not mislead the investing public in misplacing their investments.

We are satisfied beyond question as to the Blue Bell properties and can recommend without reservation investments therein. We believe that the memberships consisting of 1,000 shares, which can be purchased to-day for One Hundred Dollars ($100.00), will be worth in one year Two Thousand Dollars ($2,000.00) each.

We strongly urge the immediate purchase of these memberships; we are willing to stake our reputation and standing on this proposition; we are placing our own funds in it, and have no fear of the ultimate results.

The rate at which these memberships are being taken exceeds our most sanguine expectations. We appreciate the confidence the investing public place in our recommendations. We pledge loyalty to every client and the near future will demonstrate that their confidence has not been misplaced.

To all our clients and friends we desire to impress upon them this fact: Larder Lake will undoubtedly be one of the greatest, if not the greatest, Gold Districts in the world. We have taken every precaution and have made thorough and systematic investigations and can say that the Blue Bell is the opportunity of a lifetime.

BUY NOW before the big advance. On or about May the fifteenth Blue Bell shares will be advanced to 50 cents per share. They can be purchased now in our Syndicate Pool in 1,000-share lots at 10 cents per share, requiring an investment of $100.00. On or about May 15th (this month) the market value of 1,000 shares of Blue Bell will be $500.00. This is a profit of 400 per cent. We are of the firm belief that within one year 1,000 shares of Blue Bell will be worth $2,000.00. Blue Bell consists of 28 40-acre gold claims (one 40-acre claim having been recently purchased near the Reddick property), 1,120 acres in all. Fully paid for. No indebtedness. Blue Bell shares have no personal liability and are forever non-assessable. Men are now on the Blue Bell properties establishing camps and preparing for the stamp mills. Blue Bell will be sending out gold this summer. Now is the time to buy—before the advance—at bottom prices.

New Electric Fire Alarm is Complete and Ready for Use

Final Test Made Yesterday Afternoon—Boxes all Work Satisfactorily—Instructions How to Send in an Alarm—Where the Boxes Are Located.

The new electric fire alarm system is now in perfect running order. The general public is especially requested to use the alarm in case of fire. There are twenty-five boxes spread over the five wards and the system adopted by the Council in numbering and placing these boxes makes it very easy to locate a fire the minute the alarm sounds.

The new system which has just been completed is part of the fire-fighting equipment which the people voted for a year ago last January. It was manufactured and installed by the Northern Electric Co., of Montreal. The work was in charge of Messrs. Murdock and Linton, of that city, who have been in the city for the past 10 days. They put up the boxes, connected them with the wires, installed the big gong in the fire hall, the new hammer on the town bell, and the small bells in the homes of the volunteer firemen, the chief and the foreman of the new hall on Aylmer street. The outside wiring was all done by the Bell Telephone Co., on whose poles the line is strung. That company had a large gang of linemen under Foreman W. J. Brown at work for the past two months. Both companies have completed their contracts and they do not hesitate to say that the utmost care has been taken in the installation so that the system will work with the greatest satisfaction in every particular.

All day yesterday Messrs. Doan, Murdock and Linton, accompanied by Ald. W. J. Johnston part of the time gave each box in the city a final test and each box was found to work perfectly. At different times a number of citizens interested in the alarm system gathered at the various boxes and received an object lesson in its manipulation. On Tuesday night next the alarm will again be tested by the fire brigade who will hold their first drill.

A SIMPLE SYSTEM.

The electric fire alarm system manufactured by the Northern Electric Co., and installed in this city is a very simple one and is a modern one. It is therefore a practical one and should answer every purpose for which it is intended.

HOW TO WORK IT.

In case of a fire you run to the nearest alarm box. They are all located on a telephone pole within easy reach of everyone except a small child. The boxes are all white and easily seen, even at night. Alongside the box is a small box in which is hung the key. The face of this box is glass and all you have to do is to break the glass with a stone, a stick or by hitting it with your elbow, take the key out, unlock the door on the big box and then pull down the lever found on the inside.

THE ALARM SOUNDS.

This is all that is necessary. As the lever is pulled down the alarm starts to work and instantaneously the big bell in the market hall clock rings, the big gong in the fire hall sounds, the small tappers in the firemen's homes sound, and the gong at the waterworks pump house sounds. Thus the entire fire brigade, the waterworks system, the fire horses and reels are set in motion and the general public is warned.

IN USING TELEPHONE.

If you cannot reach an alarm box or if you prefer to use the telephone, call up No. 24, the fire hall, tell the man who answers where the fire is and he will sound the alarm from the fire hall, the same as if it had come in from the proper box. In case central tells you that No. 24 is busy, say there is a fire and the connection will be broken and you will be connected. Fire calls have precedence over every thing else. The Bell Telephone Co. has absolutely nothing to do with the fire alarm. They will not know where the fire is as all calls will be sent through in the usual way.

After using the fire alarm box do not try to take the key out to hang it up again or to take it away with you. It becomes locked in the door and cannot be released until the foreman of the fire hall or some other authorized person arrives with another key to unlock it from the inside.

TO LOCATE A FIRE.

The public may locate a fire very easily. The system adopted for this is also very simple. All fire alarm boxes in Ward One are numbered from 12 to 18; in Ward Two from 21 to 27; in Ward Three from 31 to 38; in Ward Four from 41 to 48; in Ward Five from 52 to 59.

In case of an alarm being sent in from box No. 12 the bell will ring one then a pause and ring two. That indicates that the fire is in Ward One and near box No. 12, which is located at the corner of Lock and McGill streets. Alarms from the other boxes will ring in a similar manner.

If an alarm comes from box No. 21, the bell will ring two with a pause then ring one, indicating that the fire is in Ward Two, and near box No. 21, which is at the corner of George and King streets.

In this way the public can tell at once the ward and very close to where the fire is by the number of box.

WHERE BOXES ARE.

Cut this out and paste it in your hat. The boxes are numbered and located as follows:—

WARD ONE.	
Lock and McGill	12
Westcott and Aylmer	14
Perry and George	15
Perry and Bethune	16
Park and Townsend	17
George at C.P.R.	18
WARD TWO	
George and King	21
Simcoe and Queen	22
George and Hunter	23
Hunter and Quaker	24
Water and McDonnel	25
WARD THREE	
Park and Sherbrooke	31
Charlotte and Stewart	33
Park and Hunter	35
McDonnel and Reid	38
WARD FOUR.	
Park and London	41
George and Dublin	42
Edinburgh and Stewart	43
George and Smith	45
Water and Hilliard	48
WARD FIVE.	
Burnham and James	52
Rogers and Sophia	53
Hunter and Mark	54
Concession and Hazlitt	57
Auburn	59

Rev. T. Albert Moore, of Toronto, Secretary of the Dominion Lord's Day Alliance, in a sermon delivered in Erskine church, Ottawa, stated, that the Sunday observance Act, which came into force in March had given a day of rest to 50,000 men in Canada, who previously had been employed on Sunday.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* The Wood Medicine Co. *(formerly Windsor)* Toronto, Ont.

Young Man Had His Hand Cut

Accident at the Cordage Company's Works Yesterday

Ernest Jamieson, a young man, employed at the works of the Canadian Cordage Company, met with a painful accident yesterday. In operating one of the machines in the spinning room he had a nasty gash put in the palm of his right hand. Three stitches were required to close the cut which bled profusely until medical assistance arrived. The injured man will be unable to work for several days.

PRICE OF POWER

The Hydro-Electric Commission Not Responsible for Rate.

(Belleville Intelligencer.)

Mr. T. Vanwickle, of Toronto, writes to the Mail and Empire,—

I see by the public press that the City of Toronto, is now proposing to make a contract with the Hydro-Electric Power Commission for a supply of power at a price not to exceed $18.50 per horse power per annum, delivered to the switchboard board, but not including distribution charges.

Will you allow me to point out however, that it takes two to make a contract, and that the Hydro-Electric Power Commission have no power to bind themselves by such a contract. The only contract they have power to enter into is to supply the city with electric power at a price, based on the cost of supplying it. They may estimate that they can supply it at $18.50 at the main switchboard, but the Act very clearly sets forth that they are not allowed to assume the liability of making this estimate good. The position then, is that the city has no power under their by-law to enter into any contract at a price exceeding $18.50 per horse-power per annum, at the main switch-board and the Hydro-Electric Power Commission has no power to guarantee a supply at this price, consequently no contract is possible.

Editor's Note.—This information is valuable indeed, to municipalities and especially in view of the fact that we have information that the Commission has greatly increased their figures of cost, first given to a certain town, near Toronto.

IMPRISONED NINE DAYS.

Miner Rescued by Divers When Weak and Exhausted.

Victoria, B. C., May 9.—The steamer Manuka, from Australia, has brought news of the rescue of an Italian miner, Varischetti, from an Australian mine by divers under circumstances similar to the rescue of Hicks at Bakersfield, California, a few months ago.

He was nine days imprisoned in the mine, which flooded during a heavy rain, cutting off his retreat. Pressure of water gathered a reservoir of air, where the Italian took refuge, and he cruised there for nine days in a living tomb, while divers tried heroically to rescue him by wading in the flooded mine.

Hughes and Hearn divers of the Bonnie Vale Mine, made many trips, supplying the Italian with light and food and writing material, with which he sent a pathetic message to the outside world.

After nine days his rescue was accomplished by Hughes, whose gallantry has been applauded throughout Australia.

The miner was almost dead — too weak to stand and unable to get from the cage without assistance.

SLASHED WITH RAZORS.

Two Italian Women Hacked to Pieces —Husband Arrested.

New York, May 9.—Mrs. Maria Vito, a comely Italian matron of 24 years, and her mother, Mrs. Maria Brignoli, aged 55, were literally slashed to pieces with razors in their East Side home yesterday. Giovanni Vito, the husband of the younger woman, is under arrest, charged with the crime.

It is alleged that he killed the women after a quarrel which followed their refusal to give him money. Vito, however, stoutly maintains that the women were killed by two men who broke into the house, and with whom he himself had a fierce struggle. In support of his story he exhibited to the police a cut on one of his hands, which, he declares, was inflicted by one of the men. His story is substantiated by his three-year-old daughter.

PROMINENT MEN FIGHT DUEL.

Quarrel Was Over Sweetheart—Both Mortally Wounded.

San Antoine, Texas, May 9.—A special from Pueblo, Mexico, says: Lauro Jandero, millionaire, owner of several haccands, and Joz Maria Beltram, municipal director of Tistanui, both aspirants for the hand of the daughter of a prominent planter of this district, fought a duel with pistols in the street, in which both were mortally wounded.

The men had quarreled repeatedly and when they met yesterday, following an encounter of the night before, Beltram opened fire. Jandero returned the fire and both men fell, badly wounded. From their recumbent positions they continued firing until each had received wounds which physicians say are mortal.

FIVE INJURED IN WRECK.

Mixed Train Thrown Off Track By Broken-Rail.

Winnipeg, Nov. 19.—At 8.50 yesterday morning mixed train No. 154 had two coaches derailed two miles east of Pettipiece on the C.P.R., caused by a broken rail. The following passengers received cuts and bruises: W. F. Ellis, Hamiota; Mrs. W. F. Ellis Hamiota; Geo. L. Stone, Rapid City; Allen M. Stewart of Winnipeg, and Mrs. Rosby of Hamiota, also received some scratches and were badly shaken up.

Passenger Train Derailed.

Ottawa, May 9.—An eastbound C.P.R. passenger train was delayed two hours at the station at Hull last night through taking the wrong switch. It collided with several carloads of lumber, smashing two slightly, and damaging the front of the engine. A new one was sent over from Ottawa, and the train left for the east at 7.10. No one was hurt, and the damage is slight.

The passenger train, just leaving the station, was going quite slowly at the time.

Fatal Leap From Train.

Ashcroft, B. C., May 9.—Paul Mannarino, a prisoner from Nelson on his way to the penitentiary, in charge of Constable Webster jumped through a car window on a train yesterday afternoon. The train was running at the rate of forty miles an hour.

Mannarino landed head first on the rocks, 30 or 40 feet below, where he was picked up insensible and died a few minutes later.

Charged With Perjury.

St. Louis, May 9.—H. Clay Pierce, chairman of the board of directors of the Waters-Pierce Oil Co., surrendered himself yesterday on the indictment returned against him in Texas, charging perjury in an affidavit to reinstate the company in Texas; from which it had been ousted.

Tug Sunk In Collision.

New York, May 9.—While leaving her dock in the North River yesterday afternoon, the Morgan Line steamer Momus ran into and sank the tug Anna J. Kip. The tug's cook was drowned. The other members of the crew were rescued.

Civil Servant Suicides.

Ottawa, May 9.—William H. Butland, electrician in the employ of the Government and living at Janeville, a suburb of the capital, hanged himself in a fit of despondency yesterday morning.

Train Derailed.

St. Paul, Minn., May 9.—The Winnipeg Limited, on the Great Northern Railroad, for St. Paul, was wrecked yesterday near Robinsdale. Spreading rails caused the accident. No one was injured.

Ottawa Gets Good Rake-Off.

Ottawa, May 9.—The City of Ottawa will get $33,600 for its share of revenue from liquor licenses this year. Ninety-six licenses have been issued at $700 each.

Montreal Council yesterday instructed counsel to prosecute those who shipped poisoned salmon to the city.

THE ROYAL BANK

PAYS SPECIAL ATTENTION TO

SAVINGS ACCOUNTS

Home Savings Banks for small savings supplied on application.

PETERBOROUGH BRANCH. VINCENT EASTWOOD, Manager

Less Crowding in The Vestibule

People at the Post Office Will Enter by One Door and Leave by Another Door

An improvement has been effected at the post office whereby all those entering from Hunter street will have to go in at the door furthest east while those coming out of the building will emerge by the western door. This door has been made to open out instead of in as formerly. By persons using one door on the Hunter street side for ingress and another for egress there will be less confusion and fewer collisions in the vestibules, especially on crowded days. The upper portion in the western door has been fitted with glass. The improvements were made yesterday.

No Change in the Time Table

C.P.R. Trains Will Run During the Summer the Same as During the Winter

The new summer time table for the C.P.R. has been issued and came into force on May 5th. There is no change whatever in the Peterborough trains. There is no provision either for the new local train from Havelock to Toronto, which the people of Springville were so confident of getting. That train was to have started May 1st and pass through the city about noon for Toronto. But it is all off now.

Prisoners' Dock Crowded To-day

No Less Than Six Drunks Faced the Magistrate

There was a large docket at the police court this morning. There were six drunks but all were quickly disposed of. His Worship remarked as he gazed upon the rather crowded prisoners box, "What is the matter? Is whiskey flowing around?"

Jas. Anderson and Jas. Shaw, two Old Country pals were found drunk and were disorderly. Andersen is a dyer. He pleaded guilty. Shaw said; "If I wasnt guilty, I wouldnt be here." He had a long story to tell. He hadnt touched liquor for eight years. His Worship allowed them to go. He wished to give them a chance and they promised to do better.

Richard McBride, the well known phrenologist of Rice Lake was the next to answer the roll. "Dick" said he had come up to go and see his brother in Lakefield, who was sick. He had the large sum of 25c. on him. He was arrested this morning about 4 o'clock by P. C. Newhall. McBride went up into the Grand Central block last night and lying down against the door of a lady's room, went to sleep. This morning when the lady opened the door "Dick" fell in. The lady was greatly startled and at once phoned for the police. Richard was awfully sorry, but denied falling in the door. His Worship discharged him and he left the court room after many thanks.

Fred Turner, an Englishman, was charged with being drunk in a public place. The magistrate, desiring to give him a chance in this country, allowed him to go.

Wm. Doyle who was suffering with the d. t.'s was given fifteen days on the hill to sober up.

A dog owner was fined $2 and costs for not having a dog tag.

PILES CURED IN 6 to 14 DAYS

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles, in 6 to 14 days, or money refunded. 50c.

The Daily Review

THURSDAY, MAY 9, 1907.

COSTLY POLAR EXPEDITIONS

A lurid light is shed on the mania for polar adventure in recent times, from an interview which Dr. Wilfred T. Grenfell, who is well known in Peterborough, has had with a New York Rreporter. Few men are better qualified than this missionary doctor at Labrador, to give an opinion on the point. He declares that more harm is done to the natives of the polar regions than any good to science or industry by these excursions into the Arctic wastes. They bring the liquor habit and vice only to the Eskimo population.

The work of seeking the North Pole, he says, is not the white man's burden, but the burden of that unhappy people, who are merely corrupted by vicious associations, and that to such a degree that as a race they are being fast exterminated. "I am satisfied there is nothing at the pole except an open sea, there is no land there," he says. Further, he declares the Eskimos are "dying like flies" as a result of vices taught them by white men

This is a terrible indictment. But it offers a partial explanation of the rage which exists in some men to visit those barren, inhospitable regions for years at a stretch. Are they burning for science alone? Have some of them not been filled to repletion with "discovery" and the so-called hardships of such voyages? What is the lure which brings them there again and again?

How does this affect Canada? Well, it may be asked, on what practical pretext is the Canadian steamer "Arctic" spending years in the northern ice fields, at such enormous and luxurious outlays of public money?

The winter of 1904 spent in Hudson Bay had a sinister aspect which should have made the Government of Canada wary about new and more extended adventures to the northward. In the Parliamentary inquiry of 1906 there were hints of dealings with Eskimos upon which the committee very promptly set the seal of silence. "We dont want to hear about that," said the chairman of committee.

The orgies, and weekly dances, and present givings on board the "Arctic" are sufficiently matters of record, however, to give emphasis to the earnest protest of Dr. Grenfell.

As to the need of the present mission of the "Arctic" steamer in high northern latitudes, are the people of Canada to be fooled by reports coming therefrom of islands being "taken" and landmarks set up? What need for such "annexations," since all the land and water have been for centuries under British-Canadian rule? Would it not be utterly ridiculous for the Dutch to fit out an expedition to "take Holland," furnishing rum by the hogshead, "fine old crusted port," and tons of tobacco, together with hats and ribbons as presents to the native women for the purpose?

The antics of this steamer 'Arctic' are a travesty upon northern adventure. Regarding the Hudson Bay and Strait, their seasons of navigability, fauna, flora and fisheries, very little can be added to the exhaustive report prepared by Dr C. [illegible] for the Winnipeg Board of Trade in 1884. If the Laurier Government want information about that now familiar country, says the London Free Press, they should get a copy of it.

Nature's cure for stomach, liver and kidney troubles is
Sanitaris
THE MONARCH OF MINERAL WATERS

[illegible] ROUNTREE, Agent for Peterborough [illegible]

PEN POINTS

Target practice has been started by the different companies of the 57th Regiment in the drill shed. Please do not dismantle the old structure until the new one is completed.

If the once famous White Caps Society were now only in existence, what a rich field for the discovery of skulls and cross bones, emblems of the order, they would find in the Central Park excavation.

It is a healthy sign when church memberships are added to yearly. It speaks well for the moral tone, devoted spirit, and desire for the higher things of life, on the part of those residing in the community.

Peterborough is forging ahead, educationally and religiously — three new schools already erected, or in course of erection, and the building of three new churches about to be undertaken.

Owing to the testing of the fire alarm system, the big bell in the market tower, has during the past few days, been tolled many times. This however, has nothing to do with "As Told in the Hills' at the Grand Opera House on Saturday night.

The members of the 57th Regiment attracted a good deal of attention and favorable comment on their first march-out of the season. The Rangers certainly presented a splendid appearance, and as a corps the citizens are justly proud of them.

"But in the main we agree with the member for East Kent, that Mr. Whitney has given The Province, a careful, wise, and bold Government, and has proved himself fully deserving of the confidence Ontario reposed in him two years ago."—Toronto News. Premier Whitney will heave a long luxurious sigh of relief when he reads this. Governments which do not strive earnestly to be good and to please the News will assuredly and infallibly go to destruction.—Brockville Times.

"Canadian cheese is far ahead of the New Zealand product, and generally Canadian enterprise excels that of New Zealand,' said Lt.-Col. A. L. Jarvis, who has just returned from New Zealand, where he represented the Canadian Government at the exhibition at Christchurch. He gives New Zealand credit for manufacturing butter of as high a standard as the Canadian output, and was struck with the system of storing it at the Government cold storage depots. The New Zealand people, he remarked are frightfully jealous, and most conservative in every way. Immigration to any extent, they have not got nor do they seek it.

The little thirteen year old son of the Prince of Wales, has begun his training as a naval cadet at the Isle of Wight, and the papers tell that he is now one of 400 youngsters who bunk together, work together and feed together and fight together, with a shilling a week for pocket money. This is just about what his father and grandfather did before him. Simplicity and common sense has always marked the training and education of the British royal family boys and girls for many years now. It is a good example for British subjects throughout the empire.

Mark Street Sunday School

Officers Elected Last Night for the Coming Year

The annual meeting of the Sunday school committee of the Mark street Methodist church was held last evening. There was a good attendance of the members. Rev. J. U. Lewis was in the chair. Reports were read and all showed the school to be in a satisfactory condition. The average attendance for the year had been good and there is a substantial balance in the treasury.

The election of officers for the year resulted as follows:—

Supt.—Mr. J. C. Miller.
Asst. Supt.—Mr. M. Carton.
Sec.-Treas.—Mr. A. J. Throop.
Asst. Sec.-Treas.—Mr. Wesley Dartnell.
Librarian.—Mr. S. Matchett.
Asst. Librarian.—Mr. R. Record.
Pianiste.—Miss M. Spear.

ACCIDENTS IN FACTORIES

Report of Provincial Inspectors of Their Work for 1906.

The annual report of the inspectors of factories for 1906 gives an aggregate of 636 accidents for the year, of which 27 were fatal. The individual reports of the inspectors of the different districts show that on the whole there was a tendency towards a better observance of the Factories' Act. In respect to sanitation and the question of child labor there is, in some of the districts, need for improvement. The necessity of safeguards for machinery, even where skilled mechanics are employed, is urged as the best way of lessening the number of accidents.

Does it Pay to Own Your Home in Peterborough?

Should be a Business Transaction—Going Deeply Into Debt Proves Unsatisfactory—Purchasers Should be Guided by Capacity of Income—Some Timely Suggestions on Important Subject.

Does it pay to own a home in Peterborough? Is a home a luxury? Can a man live at smaller expense in a rented house than in one he owns, both being of the same class?

These are questions to be carefully considered by every rent payer, and especially by every man who contemplates building. Buying a home should be made a business transaction from every point of view especially for the man of small or moderate means. If sentiment or the desire to have a fine home are allowed to warp the judgment or lead to the assumption of obligation out of proportion to the income of the buyers the result is likely to be unsatisfactory.

It is an incontrovertible fact that property which is a good investment for the owner in Peterborough, would be an equally good investment for the renter. The renter pays the taxes, the insurance, the repairs, and a reasonable rate of interest on the money invested in the property, all of which are summed up in the monthly rental. He would have to pay no more were the property his own, and the owner's net profit he could just count as saved

Viewed in this light, owning a home is profitable, aside from the great satisfaction it affords, and the security is better than any life insurance policy. Yet there are those who own homes and who declare that it is more economical to pay rent, that a home is a luxury a poor man cannot afford.

GO TOO DEEPLY IN DEBT.

It will doubtless be found that at least ninety per cent of those who have found owning their homes unsatisfactory, have either assumed too great a debt in making purchase, or have bought homes which they could not keep up properly without a greater expenditure than they can afford. These home owners are paying an unnecessary price for the satisfaction of home owning, and are making it a burden.

Take the man who has $1,000 or less and is not making more than $100 a month. Should he buy a home costing $3,000, he must assume the burden of interest on $2,000, which would amount to $120, or perhaps more. He would probably have to pay as much as $30 a month on the principal, besides which the taxes, insurance and repairs, would amount to perhaps another $125 a year, making a total of $565 a year which he would have to pay, a sum out of proportion to his income. He would soon doubtless feel that he was better off financially when he was paying rent at $30 per month.

Then, by the time the place was paid for he would find that instead of having $3,000 invested in it, an additional $1,000 had been put into the property in the shape of interest, taxes, insurance and repairs, making the total cost to him at least $4,000.

Unless the lot had increased considerably in value, he might be unable to dispose of the property for this amount, and the interest he could get on the $4,000 if it were free, would amount to as much as rent would cost in the same class of building, leaving him his taxes and insurance to charge up against the satisfaction of owning a home. This sort of a home-buyer is sure to find owning a home a failure, and to preach the doctrine that it is cheaper to pay rent.

SMALLER PURCHASE BETTER

On the other hand, suppose the buyer had made a more conservative purchase, and avoided going so deeply in debt. He could have secured a good lot where property would advance more rapidly in value, for perhaps $250. On this he could have built a comfortable and cosy cottage for say $1,250, leaving unpaid only $500, or just enough to give him an incentive to save. This would have made no burden of interest, the taxes, insurance and the repairs would be much less than on the higher priced property, heating and lighting would be considerably reduced, and he would soon have the satisfaction of owning a home that was unencumbered.

With this accomplished he would feel justified in disposing of his property at perhaps a fair profit, owing to the increase in value, and buying a more expensive home. He might reasonably sell for $1,750, one-third of which he could invest in a lot, putting the rest into a house and, perhaps assuming a debt of $500. In two years or thereabouts he could likewise have this property clear without having been inconvenienced, and could probably dispose of it for $250, advance, over what it cost, provided he had selected the right neighborhood.

If the man then aspired to owning a $3,000 home, he would be in a position to do so, without assuming the heavy burden of interest, and when he had the home paid for it would represent an investment of little more than the original cost, besides the effort of acquiring it would not entail a burden, nor take at any one time an undue proportion of his income. Most of what he had put in the different properties he would otherwise have paid out in rent, having nothing in the end to show for it, while the ownership stimulated a pride and gave a deep satisfaction, and supplied a constant incentive for saving.

BUYING WITHOUT MONEY.

But there is a larger class which has not the $1,000 with which to begin. They have been renters all their lives, or are new beginners in the struggle for a competence, either having not had an opportunity to save, or feeling the lack of responsibility characteristic of the renter, and have spent their incomes, as fast as received. Is this class to continue to rent and to make an effort to get enough ahead to buy a home, or would it be wiser to buy, even if only $200 or $300 were available and assume the task of paying out?

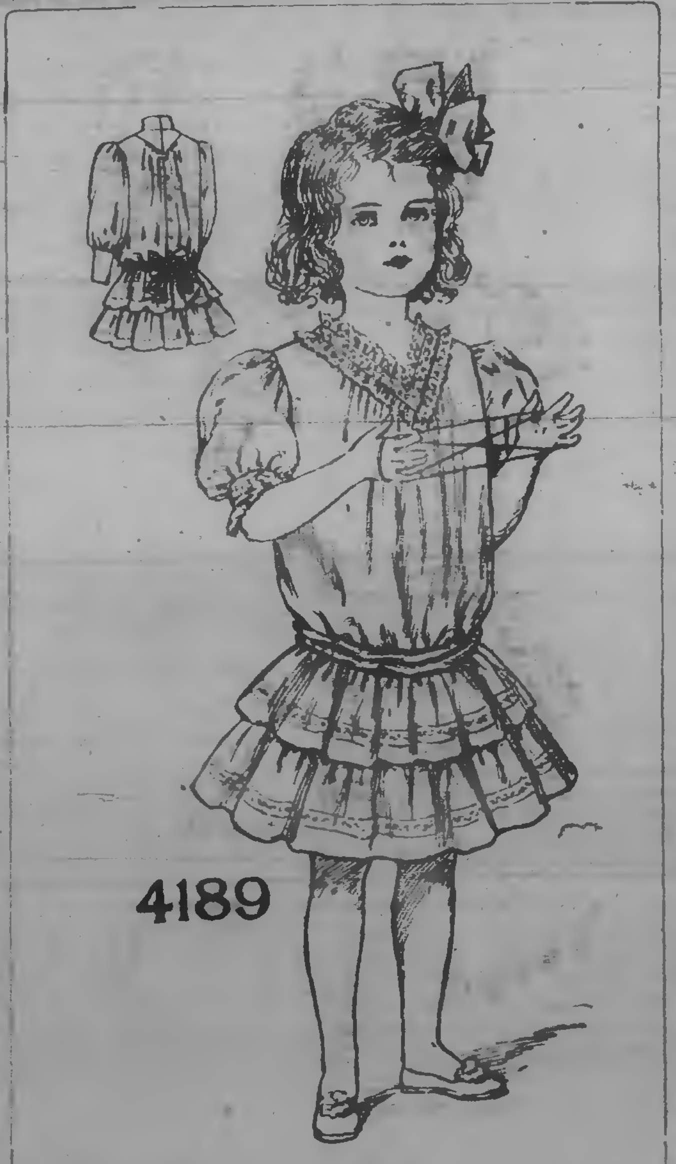
Obviously the same principle will apply to the man who has no money as to the man who has less than enough to pay all for his home. The renter who has never saved needs a necessity to stimulate him to practice economy. Let him buy the smallest possible home, in which he can be comfortable and provide ample room, make it as cosy as possible and avoid the idea that it is better or more respectable to live in a $3,000 house that someone else owns than in a $1,000 house that he owns himself. False pride, above all things, should not be allowed to enter into home buying. By the time the spendthrift renter has paid for a small home, on which he assumed a small burden of interest, he will have acquired the habit of saving, and he is then qualified to undertake a little larger task. It is the renter who never had a dollar in the bank and who suddenly decides to buy a $3,000 or $5,000 home, going into debt for the whole amount, who makes home buying a failure.

THE KIND THAT SUCCEEDS.

There are real estate dealers in town who have been selling cheap lots to railroad and street car men, mechanics, and so forth, who have built small houses upon them. The builders rarely made as high as $100 a month, many of them having salaries of $50 to $75. It is safe to say that there is seldom a case where these people are sold up, on account of inability to meet payments. In the south and west ends of the city are to be seen many lots having small houses on them built by local mechanics.

There is bound to be some sacrifice in paying for a home, as everything worth while, entails sacrifice. But if nothing else could be said in its favor, leaving sentiment and satisfaction out of the question, this satisfaction is about the only thing that will counteract the natural profligate spirit of expenditure, characteristic of the average renter, who feels no responsibility, and has no definite purpose for which to save.

An argument that is used in favor of buying higher priced property than one's income would justify, is that the increase in value would soon enable the purchaser to sell at an advance, which would reap him a large profit. This course has been followed in Peterborough to a large extent, but it is not one that can be recommended. The risk is increasingly greater every year, and any one of a dozen causes may force the purchasers to the wall, while he is waiting for a chance to realize on his investment, while at the same time he is pinching himself by meeting heavier payments than he can afford. At the same time, there is no doubt that the man who buys in a sufficiently small way to avoid embarassment, is fully justified in leaving the ranks of the renters in Peterborough, notwithstanding the high price of property and building.



A Pretty Use for Embroidered Flouncing

Very dainty and attractive frocks for small maidens are made of the embroidered flouncing and a suggestion for such is given. The waist portion is made of the plain French nainsook with its pointed neck and short puff sleeves, edged with a narrow embroidery and frilled lace. The skirt consists of two flounces of the embroidery, gathered at the top and joined to the waist. The dress is built on French lines and is very charming in its long waisted style. It is suitable to pink or blue chambray or pongee, with deep hems for finishing, the flounces and the neck completed with a collar. For the medium size 3 yards of 30 inch material are needed.

4189.—Seven sizes, three to nine years.

The price of this pattern is ten cents.

Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail.

HIGH WATER STOPS WORK

On Romaine St. Sewer—Board of Works Met Last Night

Outside the teamsters strike the Board of Works had not very much on last night. It was decided that for the time being work on the Romaine street sewer be discontinued. This was done on the recommendation of the City Engineer and Foreman White, on account of the very high water.

Those present were Chairman Duncan Ald. Johnston, Wilson, McIntyre, Mayor McWilliams, City Engineer Hay and Street Commissioner Evans

A letter from Mr John Kearney of 21 Bethune street complained that Contractor Sheehy had cut off his private drain when the sewer was put in. The matter was left with the city engineer to look into.

A letter was received in connection with a man falling into a sewer connection being made at 302 Aylmer street. The sewer was left in good condition, said the city engineer's letter. Planks were laid across the trench and a red light was placed upon it.

The committee decided to take no action

ROMAINE STREET SEWER

City Engineer Hay and Foreman White were present to explain to the council what the trouble was with the Romaine street sewer. The water has risen so high in the manholes that it is impossible to get down to work. In one man-hole the water is four feet, ten inches high and the pressure outside is very great. The city engineer suggested that work be suspended until a drier season.

It was moved by Ald. Johnston and the mayor that all work be suspended on Romaine street sewer until a drier season.—Carried.

Mr. Harper, of Charlotte street, complained that the walk in front of his property blocked the water. The engineer was instructed to write Mr. Harper and tell him to remove the mud away from his place and the water will be all right.

In speaking of numbering houses Ald. Wilson said that he thought it was time the city furnished the citizens with new numbers for their houses, which would be presentable. He also thought that the city should furnish new name boards for street corners. It should be of a permanent nature, even though it does cost more.

The mayor did not think it would be advisable this year to take up the matter, as there was so very little money to spend. A large amount would have to be spent on the streets. But if at the end of the summer there was any left, it would be all right to look into it.

Moved by Ald. Wilson and Ald. Johnston that the committee take the matter up in August or September.

Indians Take to The Running Game

Hiawatha and Chemong Braves are Already in Training

It is said that Longboats great victory at Boston has inspired his fellow redskins at the Hiawatha and Chemong reserves to take to the long distance running game, and a score or so of young braves are said to be in training already. The Hiawatha band will be represented in the five-mile race at the exhibition grounds on Victoria Day and it would not be surprising to see a couple of swarthy runners from Chemong, also face the starters pistol. Fred Simpson, who ran third in the Examiner race last fall, will be on hand and will be worth watching. He expects to be in good shape and should prove dangerous at five miles Simpson is considered a good one by many and it is thought that he would be a whirlwind if he had proper handling.

There will be a big field of entries in the Victoria Day race. A number of local boys are already in training and will be in fine shape by the 24th.

Harriers Had Splendid Run

Three Miles Travelled at Lively Clip Last Night

The weekly run of the Y.M.C.A. Harriers last night was the best yet held. About a dozen were out, and, leaving the Association building at eight o'clock the runners went away on a three-mile spin. The whole distance was travelled at a lively clip but, despite this, the boys finished strong, and the majority of them had considerable spurt left in them for the home stretch.

The next run will be held Wednesday evening of next week, when three or four miles will be covered. A paper chase will likely be held early in June. Increasing interest is being taken in the runs and it his expected that there will be a larger number out next Wednesday night than there has been this season. Those who run last night were Messrs. R. Best, Elliott, E. Best, Wallace, MacRae, Yelland, Fitzgerald, Sherwood, Jarman, Richardson and Brown.

Bowlers Receive Handsome Prizes

Winners Presented With Their Trophies Last Evening

At the meeting of the Lawn Bowling Club last night the prizes won by the different members last year were presented by the Hon. President, Dr. R. P. Boucher. The successful ones were as follows;—

Silver cup, donated by C. E. Frost, for the winners of the rink competition—Won by Skip J. McIntyre's rink, composed as follows;—J. McIntyre, skip; R. Sturgeon, vice; R. Davidson, second, and R. Westcott, lead.

Pair of bowls, donated by Dr. R. P. Boucher, Scotch doubles, won by W. S. Robinson.

Pair of bowls, donated by Dr. Greer, Scotch doubles, won by Mr. R. Cottenell.

Pair of bowls, donated by Mr. John Crane, for singles competition, won by Mr. J. E. A. Fitzgerald.

In making the presentation, Dr. Boucher congratulated the winners upon their success ,and referred to the pleasure it gave him to hand over the handsome prizes. Short speeches were made by the recipients, expressing their thanks and alluding to the pleasure it had given them to take part in the great game of bowling. They had been benefited in many ways.

The cup won by Mr. McIntyre's rink is an exceedingly handsome and valuable one. The bowls are also splendid ones, and are engraved with the names of the winners, as is also the cup.

Lawn Bowling Club Held Adjourned Annual Meeting

New Officers Were Elected Last Night—Secretary-treasurer's Report Was Most Encouraging Although There is a Small Deficit.

The postponed annual meeting of the Peterborough Lawn Bowling Club was held last night in the Dominion Bank Chambers ,when the report of the secretary-treasurer was received, officers elected and arrangements made for the coming season. In the absence of the president, Mr. D. H. Moore, the vice-president, Dr. Greer, was in the chair, and there was a large number of the members in attendance. The report of Secretary-Treasurer Giroux showed the club to be in good financial standing, considering the unusual ,circumstances of the past year. There is a deficit of $160, but the expenditure last season was unusually heavy, and there is no doubt but that the club will finish up the season of 1907 with a small surplus on hand. The lawn will be in condition for bowling about May 24th, and the season promises to be an unusually active one, as great enthusiasm prevails among the members of the club.

SECRETARY'S REPORT.

The report of the secretary-treasurer, Mr. G. H. Giroux, was as follows.—

Gentlemen,—I beg leave to lay before you the financial statement of the Peterborough Lawn Bowling Club from April 1st., 1906, to April 30th, 1907 It will be observed that the membership has slightly fallen off from that of the previous year. The membership for 1905 was 84, while that of last year had fallen to 50.

I cannot say that this falling away of members is in any way due to the lack of interest which has been manifest in the game, as shown by the large numbers that throng the bowling lawn, both afternoons and evenings during the whole of the summer. I think it is probably accounted for in a large measure to a lack of interest by the members as a whole in not prosecuting a more lively canvass for a larger membership. I feel quite confident that in a city the size of Peterborough (a great sporting city, I may say) that at least 100 members could be found to participate in the great game of bowls—one of the grandest to be found in the calendar of out-of-door sports. I wish to draw your attention to the deficit, amounting to $160, as shown by the statement in your hands. It must be remembered that this shortage is not entirely due to the expenditure incurred during the past year. The club was being carried on a note for about $100 by the Ontario Bank for expenditures incurred during the previous year. This amount had to be met out of the monies received during 1906 ,so that the actual deficit for the season of 1906 was $60.00.

In conclusion, let me say it behooves the members of the Peterborough Lawn Bowling Club to "get a move on," if they wish to make the club a success, numerically and financially.

G. H. GIROUX,
Fin.-Sec.

The report was adopted on motion.

OFFICERS ELECTED.

The election of officers resulted as follows:—

Hon. Pres.—Dr. R. P. Boucher.

Patrons and Patronesses—Hon. J. R. and Mrs. Stratton, Mr. and Mrs. Jas. Kendry, Mr. and Mrs. R. R. Hall, M.P.; Mr. and Mrs. John Crane, Mr. T. E. Bradburn, M.P.P.

President—Dr. Greer.

Vice-Pres.—Mr. J. E. Fitzgerald.

Sec.-Treasurer—Mr. Alex. Weddell

Executive and Committee of Management.—Messrs. D H Moore, R. M. Waddell, A. H. Stratton, D. Belleghem, G. H. Giroux, Aitchison, Dr. Marshall.

Membership Committee—Messrs. C. E. Frost, W. E. Talbot, Cotterel, Wm. O'Brien, Pratt, Runnels, D. H Moore, L. Potvin, Green, W. S. Robinson, John Crane and J. E. Oles.

Schedule Committee—Messrs. Alex. Weddell, G. H. Giroux and Runnels.

OTHER BUSINESS.

It was decided to have a code of by-laws drawn up to govern the club. The matter was left with the executive committe. The executive will also see about having lockers installed in the club house.

The membership fee for the present year was fixed at $4.00, after there had been considerable discussion on the point. It was suggested that it should be raised to $5, but this did not meet with favor.

On motion it was decided that all players must wear shoes with rubber soles, or wear rubbbers over their shoes when on the green. It has been found that much damage was done to the sward by the sharp heels of the players shoes.

Hearty votes of thanks were tendered the retiring officers for their faithful and efficient services, to Mr. John Crane, for the use of the handsome bank chambers, and to the donators of the prizes last season. In moving this vote of thanks, Mr. R M Waddell referred to the splendid work that had been done by Mr. D. H. Moore, president and secretary-treasurer, respectively.

Another meeting will be held on May 22nd ,when the skips for the season will be appointed. The membership committee will work hard in the meantime, and expect to run up the membership of the club to a larger figure than ever before.

There was some talk as to whether junior members would be allowed in the club, and after discussing the matter it was referrred to the executive commmittee to be dealt with.

The members of the club are looking forward to a very successful season. The enthusiasm is greater than ever before.

Schedule Has Been Drawn Up

Intermediate Lacrosse Games for the Season Arranged

The schedule of games for the district of the C.L.A. intermediate series in which Peterborough is grouped, was drawn up at Beaverton yesterday afternoon. Peterborough gets home games with Beaverton on Dominion Day and with the Young Torontos on Toronto's Civic Holiday, August 5th. Peterborough's first game is at Toronto on June 15th ,and their first home game is on June 22nd when Orillia plays here.

The schedule is as follows;—

June 8, Young Torontos at Newmarket,
June 15, Peterborough at Toronto.
June 21, Newmarket at Beaverton.
June 22, Orillia at Peterborough.
July 1, Beaverton at Peterborough
July 1, Young Torontos at Orillia.
July 10, Peterborough at Beaverton
July 13, Newmarket at Peterborough
July 13, Orillia at Toronto.
July 17, Young Torontos at Beaverton.
July 18, Orillia at Newmarket.
Jul. 25, Peterborough at Orillia.
July 27, Newmarket at Toronto.
August 1, Beaverton at Newmarket.
August 1, Peterborough at Orillia
August 5, Young Torontos at Peterborough.
August 8, Orillia at Beaverton.
August 10, Peterborough at Newmarket.
August 15, Newmarket at Orillia.
August 17, Beaverton at Toronto.

CRICKET

AN ENTHUSIASTIC MEETING.

The Peterborough Cricket Club held an enthusiastic meeting last evening in the Y.M.C.A. A large number of the members were present and the affairs of the club were interestingly discussed. Dr. Burnham occupied the chair. It was decided to get the material for playing the game, and practices will commence at once. There was also a splendid turnout of the junior members last night, and they are taking a great interest in the game. The executive of the junior club was appointed. They are H. Lees, C. Dean, H Hill, V. Fessenden and H. Matthews (capatin.)

The first practice will be held on Saturday afternoon at 2.30 at the Nicholls Oval and all the members are asked to turn out.

PERSONAL

Mrs (Rev.) E. A. Langfeldt is in Toronto Junction visiting Mr and Mrs. E. R. Rogers.

FOOTBALL

As Hastings has entered group No 4 of the Midland League, the following is the rearranged schedule;

May 18 — Campbellford at Hastings
May 24 — Warkworth at Campbellford.
May 28 —Hastings at Warkworth.
June 1 —Campbellford at Warkworth.
June 5 — Warkworth at Hastings
June 8 — Hastings at Campbellford.

The schedule for the semi-final and final rounds is;

June 15 —Winners of Group No. 3 at winners of No. 1.
June 15 — Winners of No. 2 at No. 4.
June 22 — Winners of No. 1 at No. 3.
June 22 — Winners of No. 4 at No. 2
June 25. —Winners of Nos. 1 and 3 at winners of Nos. 2 and 4.
June 29. —Winners of Nos. 2 and 4 at winners of Nos. 1 and 3.

QUAKERS PRACTICE.

A full turnout of the Quaker football team is requested at the exhibition grounds at 6.30 o'clock tonight. An invitation has been received from Norwood to play an exhibition game there on Saturday; and it will be decided tonight whether an eleven will be sent. The team will go if enough players can be secured.

BASEBALL

RAPID TOOL CO.S TEAM.

A meeting of the employees of the Rapid Tool Co. will be held at the National Hotel this evening to organize a baseball team for the season. There are a number of good players among the men and a strong aggregation should be formed.

TRENT VALLEY TEAM.

A meeting of the Night Owls and Excelsiors will be held at the Windsor Hotel this evening to organize a Trent Valley League team. A full attendance is requested.

PRACTICE TONIGHT

The Peterborough Baseball team will practice at Riverside Park tonight at 6.30 o'clock. Every player is requested to turn out as there is not much time to get in shape before May 24th. Two teams will be picked and a good workout is anticipated.

POOR PROSPECTS.

Representatives from Roseneath and Campbellford meet at the Clarendon House, Hastings on Friday to draw up a schedule for this season. Hastings' representatives were present, but as nothing definite had been done this year they could not promise anything in the line of a team at once. Messrs Murphy and Roberts, of Roseneath, reported their town ready to get down to business ,as also did Messrs. Wood, McEvoy and Beatty for Campbelelford, and as Hastings had not been properly canvassed for a team, it was decided to get the organization started and notify the two other clubs ,so that another meeting could be called at an early date, and a schedule drawn up. Havelock sent no representative, and Norwood was in the same boat, so it was supposed that they were out of baseball for the season. — Hastings Star.

GOLF

The Golf Club is booming this year The grounds are in excellent condition and the members are very enthusiastic. Every day a large number go over the links ,and they are improving in their play very rapidly. Prof. Willie Bell is doing good work with the amateurs and his presence on the links has been the means of bringing in many new members.

Battery to Start Drill Next Week

Sergent Major Fee is Able to be Out Again

The 24th Field Battery will have its first drill early next week. Sergt. Major Fee, who has been confined to the house with illness, is able to be out again, and in a few days will be able to take charge of the battery and get the drill started. The men are anxious to get down to work and seem to be unusually enthusiastic. As already announced, the battery will hold its drills at Central Park, and will likely meet twice a week.

WEDDING BELLS

WRIGHT—PREECE.

A quiet wedding took place this afternoon at three o'clock at St. John's rectory, when Miss Florence E. Preece, late of Kidderminster, Eng., was united in marriage to Mr. Alf. Wright of this city, who is employed at the Brinton Carpet Works. The ceremony was performed by Rev. Canon Davidson. The couple were unattended. Mr. and Mrs. Wright will reside on Westcott Street.

Foot Crushed by Falling Timber

Accident to Workman at New Transformer Building of C. G. E.

George Moore ,employed by the Dominion Construction Company, on the transformer building of the C. G.E., met with a serious accident this afternoon and had to be taken to the Nicholls hospital in the Dan Spence ambulance. The fellow had one of his feet badly crushed by a stick of timber falling from the top of the structure and landing on his foot. It was badly crushed. Dr. Young was summoned and the ambulance was sent for and arrived in good time. Moore was taken to the hospital, where his injuries are being looked after.

EXPLOITING HIS RACE

There is Altogether too Much of It by Sir Wilfrid Laurier.

To the Editor of the Review.

Sir.—The English newspapers predict a great reception for Sir Wilfrid Laurier in Paris on account of his acknowledgment that Canada "took her inspiration from "the French." When is this business to stop. If being a Canadian isn't good enough for Quebecers let them go somewhere else. Why should they have special privileges any more than anybody else. There will be trouble in Canada over this persistent exploiting of race, yet.

Yours, etc.,
PLAIN CANADIAN.
Peterborough, May 8, 1907.

PRAISEWORTHY WORK

Ladies Commended for Helping to Support the Muskoka Sanitarium,

To the Editor of the Review.

Sir,—The good ladies of Peterborough who, on many occasions, have given their support to a good cause have once more decided to aid the finances of the Free Hospital for Consumptives. Their plan of campaign is unique in that it does not put any one to any expense to give the required donations. At house-cleaning time many things are found among them old rubbers, which we are glad to get rid of. The institution is worthy to be aided, and the many sufferers from the white plague deserve our hearty support. May there be such a hunting for rubbers in Peterborough that the receiving room on Simcoe street, may be literally to small to contain the donations.

Yours truly,
SYMPATHIZER .
Peterborough, May 8, 1907.

Specialist Will be at Peterborough May 15th to 30th

"After a most successful visit in his capacity as teacher of opticians, the Specialist, J. W. BROWETT, will return from Toronto on Wednesday next to his home office at our store. Hundreds of persons took the opportunity of his visit to have their eyes examined for glasses, and now we bespeak a BUSY TWO WEEKS IN PETERBOROUGH. Mr. Browett's work is so thoroughly satisfactory and is getting to be known in this city where he has made his home and headquarters. We are booking appointments for May 15th to 30th.

Many Contractors are in the City

Examining Plans for Rice Lake —Trenton Section of Canal

Mr. F. D. Brown of the firm of Aylmer & Brown, contractors, for the Gamebridge section of the Trent Canal, is in the city today. Mr. Alex. Sangster of St. Catharines, and Mr. H. C. Larkin, son of the late Mr. Larkin, contractor, of St. Catharines are also in the city. The firm of Larkin & Sangster, had the contract for the Kirkfield section of the Canal. The visiting contractors are here, it is understood to examine the plans for the completion of the Rice Lake-Trenton section of the waterway, and it is reported will put in tenders for the work.

The Plans Are Now Completed

For Holland River Section of the Trent Canal

The plans for the Holland River section of the Trent Canal have been completed and it is understood that tenders for contracts will be advertised for in the near future. The plans were all prepared at the office of the superintending engineer of the canal, and are most complete in every detail. The Holland River section of the canal stretches from Newmarket to Lake Simcoe, and when finished will add greatly to the utility of the canal.

The plans are also completed for the new dam which is to be built at Buckhorn., and tenders will be called for in a few days.

PLEASANTLY ENTERTAINED

Mrs. G. F. Carruthers entertained at the tea-hour on Saturday in honor of Mrs. Stanley Adams and Mr Gilbert Shorter. Recitations by Mr. Shorter and little Miss Beryl Adams, and also some songs by Mrs. Fred Kennedy were very much enjoyed Those who had the pleasure of meeting these clever artists were; Lady Schultz, Mrs. Ackland, Mrs. Balfour Shaw, Mrs. J. A. Machray, Mrs Code, Mrs. F. Sharpe, Mrs. E. F. Sharpe, Mrs Sanford Evans, Mrs Fred Kennedy, Mrs. Langford, Miss Scobie, Mrs. Gillespie, Miss Brock, Mr. and Mrs. Hotchkiss Osborn, Mrs McRaye, Mr. Over ,and a few others.—Winnipeg Free Press.

Overcome by Gasoline Fumes; Death Almost Resulted

Young Man Named Scott, Formerly of Peterborough, Victim of Strange Accident at Lindsay.

Information was received in the city at noon of a shocking accident which took place in Lindsay this morning and in which a young man who formerly resided in Peterborough had a narrow escape from death A young man named Scott, a son of Mr. Wm. Scott, baggageman on the G.T.R. train between Peterborough and Belleville, was almost suffocated by gasoline fumes and was just rescued in the nick of time He is employed at one of the industrial establishments at Lindsay and this morning was told to go into a large tank to dip out a few quarts of gasoline that still remained in the bottom. He was only in the tank a few minutes when he was overcome by the fumes of the gasoline and dropped unconscious. Another workman, seeing the danger that Scott was in, jumped into the tank and succeeded in getting the unfortunate young man out just as he, himself, was also overcome by the fumes. He had considerable difficulty in crawling out. Scott was pretty far gone when rescued and a doctor who was called, had considerable difficulty in reviving him. He came to at last, however, and no serious results are anticipated, although it is hard to say what the outcome would have been if he had been left in the gasoline tank a few minutes longer.

Mr. Scott formerly resided in Peterborough and is well known here. His father is a popular railroad man and now resides in Lindsay, moving there from Peterborough a few years ago. The young man who met with the accident is about twenty years of age.

The petition against the election of D. W. Bole, M. P., for Winnipeg, was dismissed on Saturday.

FACTS—JUST PLAIN, POINTED FACTS

YOU BENEFIT AND SO DO WE

Taking your measure and making up your Suit or Overcoat to your own intended order, is as much in our line as selling you a fashionable "20th Century" ready-to-wear outfit.

River Navigation is Somewhat Quiet

The steamer Rainbow came up the river on Wednesday, with a scow load of logs, and returned yesterday with a cargo of furniture. River navigation is somewhat quiet as yet but it is expected that the different boats will bring up a large number of passengers to market tomorrow.

Kingston Man Offered Position

As Secretary of the West End Y.M.C.A., Toronto

A Kingston despatch says:—Alfred Stokes, general secretary of the Y. M.C.A. here, has been asked to accept a similar position with the West End Association, Toronto. He has the invitation under consideration. The directors here while regretting his probable acceptance, will not stand in his way of advancement. Under his management of the institution here has made rapid progress. Mr Stokes is an Englishman, and came here from Toronto.

Transit Will Soon be Ready for Use

Rev. Dr. Marsh Setting up a Valuable Instrument

Rev. Dr .Marsh is making arrangements for setting up his astronomical transit at his home at Springville. The cement pier upon which the instrument will be mounted has been placed in position. This required considerable work, as the pier goes down six feet into the earth. The astronomical transit is used for securing the time from the skies, and the accuracy of the instrument owned by Dr. Marsh is shown by the fact that during the five years he had it set up at Hamilton it only varied .4 of a second from the time recorded by the government instrument at Washington. In future anyone wishing to secure the exact time may do so by getting into communication with Dr. Marsh.

The maintenance of roads by statute labor was described as unjust, unfair, and incompetent by Mr. A. W. Campbell, Deputy Minister of Public Works, at Milton yesterday.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious, Operations.—Many Women Suffering from Like Conditions Will Be Interested.

Margret Merkley
Mrs. R. Glenn

When a physician tells a woman, suffering from female trouble, that an operation is necessary it, of course, frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation she felt that her death knell had sounded.

Our hospitals are full of women who are there for just such operations!

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Mrs. Robert Glenn of 434 Marie St., Ottawa, Ont., writes:

Dear Mrs. Pinkham:—

"Lydia E. Pinkham's Vegetable Compound is so well and widely known that it does not need my recommendation, but I am pleased to add it to the many which you have in its favor. I have suffered untold agonies from a serious female trouble for nearly three years, and the doctors told me that I must undergo an operation, but as I was unwilling to do this, I tried your Vegetable Compound, and I am only too pleased that I did so, for it restored me to perfect health, saving me the pain of an operation and the immense bills attending the same. Pray accept my hearty thanks and best wishes."

Miss Margaret Merkley of 275 3d Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"Loss of strength, extreme nervousness, severe shooting pains through the pelvic organs, cramps, bearing-down pains, and an irritable disposition compelled me to seek medical advice. The doctor, after making an examination, said that I had a serious female trouble and ulceration, and advised an operation as my only hope. To this I strongly objected and I decided as a last resort to try Lydia E. Pinkham's Vegetable Compound.

"To my surprise the ulceration healed, all the bad symptoms disappeared, and I am once more strong, vigorous and well; and I cannot express my thanks for what it has done for me."

Serious feminine troubles are steadily on the increase among women—and before submitting to an operation every woman should try Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham, at Lynn, Mass., for advice.

For thirty years Lydia E. Pinkham's Vegetable Compound has been curing the worst forms of female complaints, all functional troubles, inflammation, ulceration, falling and displacement, weakness, irregularities, indigestion and nervous prostration. Any woman who could read the many grateful letters on file in Mrs. Pinkham's office would be convinced of the efficiency of her advice and Lydia E. Pinkham's Vegetable Compound.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

Australian Premier Wants to Have Foreign Imports Taxed

Premier Deakin's Resolution Not Favored by Conference.

Sir Wilfrid Laurier Spoke Against One Per Cent. Duty—Speeches Have Given New Interest to Preference Question—Lloyd George Proposes An Amendment—Scheme Would Not Be Fair to Canada.

London, May 10.—(C. A. P.)—As the conference of Premiers draws to a close one thing emerges from the obscurity which the semi-privacy has cast over its proceedings and that is the great influence which Laurier has wielded over its deliberations. An instance occurred yesterday in the proceedings where it is to be observed that Deakin first and then Lloyd-George succumbed to his pressure on the question of the tax on foreign imports for the purposes of the improvement of Imperial trade communications which the persistent Australian Premier unexpectedly brought forward. But apart from this, the whole trend of the debates on other phases of the preference clearly indicates that between the ardent Deakin and the fiery Jameson on one side and the immovable representative of the Home Government on the other Laurier acted as a buffer, preventing any possibility of an unforunate collision.

Cause of Discord.

Winston Churchill on Tuesday gave a hint at differences which have not appeared in the sub-edited daily reports, when he said that the preference question had been the apple of discord in the conference. Perhaps when the full report of the proceedings is published the proper importance will be given all round to Laurier's statesmanlike clearsightedness in recognizing that nothing could be done with the Government in the direction of reciprocity and, acting with due suavity, in accordance with that recognition. His interposition between the heads of eager preferentialists and the free trade wall behind which the present British Government rests will possibly be of untold benefit to future relationships.

Reciprocity the Issue.

Another point may be made clear. Not only the conference itself, but the public speeches of Deakin, Laurier and the other Premiers have given immense impetus to the movement towards reciprocity here. Three months ago the movement, according to the Liberal press, was not only "dead, but damned." To-day it is admitted that the colonial preference is the main issue in party politics.

Deakin's Resolution.

Yesterday the precis is a lengthy one. Deakin opened by proposing a resolution recommending that an order to provide funds for developing trade and commerce and means of communication and transport within the Empire, a duty of one per cent. upon all foreign imports should be levied, or an equivalent contribution made by each of its Legislatures, and that after consultation between their representatives in conference a common fund should be devoted to co-operative projects approved by Legislatures affected with the general purposes of fostering the industrial forces of the Empire so as to promote its growth and unity.

Division Unfair.

Lloyd-George said there would be more to be said for the scheme if the fund was to be applied to Imperial defence. He felt it difficult to regard the resolution as a business-like proposition. On import figures for 1905 the duty would involve an approximate contribution from the United Kingdom of £4,500,000, while the contribution from Australia would be only £100,000, from New Zealand £200,00, from Canada £400,000, Newfoundland £50,000, Cape Colony, £40,000, and Natal £25,000. Thus the United Kingdom would pay £7 1-2 for every £1 paid by all the self-governing colonies together.

The scheme was unfair between the colonies themselves, as Canada would be paying four times as much as Australia, although her population was 5.7 millions to Australia's 4,000,000. He also maintained that it would be unsatisfactory to raise a fund and then to consider on what it should be spent.

Laurier's Objections.

Laurier said it was not desirable to pass such a resolution. He believed that for any practical scheme for improving cable communication, navigation, which would tend to produce unity in the various colonies, would be prepared to vote money and that these should be dealt with on their merits.

Laurier objected to Deakin's scheme, pointing out that it would be an absolute departure from the doctrine of constitutional government to provide money in advance without voting it for a particular purpose. He was not altogether in favor of Lloyd-George's amendment, and wished the question to stand over.

To Be Considered Again.

Deakin thereupon agreed that the objects he had in view might properly form a matter for a subsidiary conference. Neither resolution was put to a vote.

Resolutions favoring universal penny postage and alternative cable routes were passed.

On the question of naturalization a resolution was agreed to proposing an enquiry with a view to attaining as far as practicable uniformity and ascertaining how far and under what conditions naturalisation in one part of the empire should be effective in other parts at a subsidiary conference to be held, if necessary. The opinion expressed by several of the colonial delegates is that naturalization, under the imperial statute, of persons of non-European descent should not affect their status under the laws of any self-governing colonies.

As regards profit on silver coinage, Asquith stated that there was no objection to any self-governing colony having a subsidiary silver coinage. The treasury further would undertake to bear the cost of returning worn gold coins from the colonies.

An Australian resolution, expressing the desirability of strengthening British interests in the Pacific, in view of the probable completion of the Panama Canal, was discussed. The conference adjourned until Tuesday.

UNIONISTS TO FIGHT IT.

Will Hold Mass Meeting Opposing Irish Council Bill.

London, May 10.—The Unionists have arranged for a great meeting of protest against the Irish Bill, to be held in Queen's Hall June 13. A. J. Balfour will preside, and he will be supported by all the leaders of his party.

At Dublin the fate of Mr. Birrell's Irish Bill is regarded here as depending entirely on the attitude taken by the proposed Nationalist convention, and while there is nobody able to predict, there is no doubt that the Nationalists, rank and file, are deeply disappointed in the proposed measure, and it will require all John E. Redmond's influence to obtain from the conference a resolution in its favor.

It is reported that some of Mr. Redmond's followers threatened to resign if the bill was accepted. But the revolt was, to a great extent, smoothed over on condition that efforts would be made to secure a modification of the measure and it is believed that with the exception of Timothy Healy, who expressed great regret at being obliged to oppose a bill introduced by a friendly ministry, and William O'Brien, Nationalist member for Cork, whose attitude is doubtful, the party as a whole will accept the bill.

WANTS WHITNEY TO ACT.

The Lord's Day Alliance Wants Test Cases Made.

Toronto, May 10.—Rev. Dr. J. G. Shearer, general secretary of the Lord's Day Alliance, and Rev. T. Albert Moore, assistant secretary for Western Canada, waited on Premier Whitney yesterday afternoon for the purpose of bringing to his attention a number of violations of the Sabbath, which they think should be made test cases.

Mr. Whitney, while in sympathy with a perfectly restful Sunday, could not promises that the Government would authorize any action, outside of the jurisdiction of the Government.

It is probable, however, that a number of suits will be brought against Sabbath-breakers in the near future, and whether they are successful or not, the Alliance is determined to fight to the bitter end every attempt to violate Sunday.

SCOT IMMIGRANTS COMPLAIN.

Say They Were Brought Out Under False Representation.

Ottawa, May 10.—Scottish immigrants who arrived in the city yesterday are furious at what they declare to be a misrepresentation on the part of the Canadian immigration officials in Scotland. They say that men were advertised for to work on railway construction in Canada at $2 a day, but when they arrived they found that the G. T. P. were only paying $1.50 a day. They claim that they can make more than that in Scotland and refused to work on the railway. Meanwhile they are looking for temporary work until they discover the best place to make for.

Ross Howard Pardoned.

Ottawa, May 10.—Ross Howard, who was sentenced on April 22 by a county magistrate in Simcoe County to 30 days' imprisonment for the abduction of his 15-year-old sweetheart, Euphemia Wilson, was yesterday pardoned by the Governor-General, and his immediate release from jail ordered.

Immediately on Chief Justice Meredith's refusal to discharge the youth on the habeas corpus last Friday, his counsel, A. R. Hassard, applied to the Hon. A. B. Aylesworth, Minister of Justice, for a pardon.

Steamer Baltic Floated.

New York, May 10.—The White Star steamship Baltic, which ran her nose into a mud bank in the Swash Channel, an hour after she had left her pier Wednesday for Liverpool, was floated at 4.45 yesterday afternoon. Included in the list are Andrew and Mrs. Carnegie, H. H. Rogers and Mrs. Rogers, and the Countess of Yarmouth, sister of Harry K. Thaw.

Fatal Rear End Collision.

Cincinnati, O., May 10.—One man was killed, another fatally and two others seriously injured, in a rear-end collision yesterday at Jones station, near Hamilton An engine was following a passenger train on the Cincinnati, Hamilton & Dayton Railroad, and heavy smoke prevented the engineer seeing the train, into the rear of which the engine crashed.

Gold Near Larder Lake.

Sault Ste. Marie, Ont., May 10.—Murdock McLeod, a well-known mining man discovered two nuggets of gold, each weighing 25 pounds, near the Larder Lake district. He also reports old finds in the hills north of the Soo, near Lake Superior. Great interest is taken in these reports.

Badly Burned By Acid.

Tweed, May 10.—George Hercombe, an employe of the Ontario Powder Works here, was dangerously hurt while rolling a drum of acid into the store house at the works. The drum bursted, and the acid went over his body, burning him badly. His recovery is doubtful.

Deaf Mute Killed By Car.

Montreal, May 10.—Albert Blanche, a deaf mute employe of the postoffice department, had his head ground off yesterday by a street car at the corner of St. Denis and Beaudry streets. He was conversing by signs with a deaf companion, and did not see the car approaching.

Foul Play Suspected.

Brantford, May 10.—The lifeless body of Benjamin Jackson of North Park street was found at an early hour yesterday morning on Terrace Hill street. Suspicions of foul play are entertained, and an inquest will be held.

Killed By Emery Wheel.

Brantford, May 10.—William Hopkins, an employe of the Goold, Shapley Muir Company, was killed yesterday morning by the bursting of an emery wheel on which he was working.

It is reported at Tangier that the powerful Rahma tribe have seized Morocco City.

HAYWOOD TRIAL OPENS

Sec.-Treas. of Mining Federation Faces Murder Charge.

Three Other Defendants—Big Issues Are Involved—If Conviction Follows In First Case Other Prosecutions For Murder Are Sure to Follow—Judge Wood Presides At Trial—Orchard Important Witness.

Boise, Idaho, May 10.—Wm. D. Haywood, secretary and treasurer of the Western Federation of Miners, yesterday was placed on trial for complicity in the murder, at Caldwell, Idaho, on Dec. 30, 1905, of former Governor Frank Steunenberg. Haywood is one of four defendants charged with the murder.

The others are Charles H. Moyer, president of the Federation; Geo. A. Pettibone, a former member of the Executive Committee; and Harry Orchard, who is expected to be the most important witness for the State against Haywood, Moyer, and Pettibone. He is said to have made a confession, and it has been the task of the prosecution to endeavor to corroborate this confession wherever possible.

The fact that Haywood's case is the first called for trial is regarded as indicating that the prosecuting attorneys believe their strongest evidence is against him. The outcome of his case will determine the action to be taken with regard to Moyer and Pettibone. Should there be a conviction of Haywood then Moyer and Pettibone would be called for trial, while an acquittal of Haywood undoubtedly would mean an abandonment of the case against the other accused men. Orchard will not be tried until all of the other cases are disposed of. It is said that the evidence against him is so strong that he cannot hope for other than a conviction of murder in the first degree. Orchard, it is said, has been promised no degree of clemency whatsoever. Having admitted his active part in the heinous crime, Orchard unquestionably will be executed.

Caldwell, where the murder was committed, is the county seat of Canyon County. A change of venue to Boise, the capital City of Idaho, and county seat of Ada County, was granted on the motion of the defence.

The tribunal for which the cases were set is known as the District Court of the Third Judicial District. The presiding judge is Judge Fremont Wood, a native of Maine. Judge Wood is regarded as a careful, deliberate man, and the prosecution and defence in the present trial believe that he will see equal justice is done. Orchard is confined in the Idaho State penitentiary, several miles out of this city. He is kept under careful guard.

Counsel for state and prisoner entered upon the examination of talesmen and kept steadily at the task for five hours. No talesmen were accepted as jurors, but substantial progress was made, and the indications are that a jury may be obtained by the end of next week.

MUST FACE MURDER CHARGE.

Pedlar Palmer Committed for Trial For Capital Offence.

London, May 10.—A verdict of murder was returned in the Croydon Police Court yesterday against Pedlar Palmer, the English pugilist, who, it is alleged, killed a man named Robert Cheat on April 24, by beating him while they were returning from the races in a railroad car.

When Palmer heard the decision he shrieked loudly and fainted in the dock. His wife and sister, who were in the court, also created a scene. They had to be carried, screaming, from the room.

The prisoner was formally committed for trial at the Central Criminal Court.

Ocean Passage at Premium.

Montreal, May 10.—Passenger business of this port will reach record proportions during this season. The big passenger carrying offices tell stories of ships already filled to capacity for ten weeks. In some instances the capacity for second and third-class passengers has been reserved as far ahead as August.

BASEBALL YESTERDAY.

THE ROYAL BANK
PAYS SPECIAL ATTENTION TO
SAVINGS ACCOUNTS
Home Savings Banks for small savings supplied on application.
PETERBOROUGH BRANCH. VINCENT EASTWOOD, Manage

WAS TOO ACCOMMODATING.

No Benefit Will Be Derived From Subsidy to Big Line.

London, May 9.—(C. A. P.)—The News wishes Lloyd-George had been less accommodating to the Premiers. Referring to the question of subsidies, he says the Canadian Pacific subsidy is a working model, which deserves to be studied. "We are subsidizing a great line, which competes with other lines, and the net result will be, if it enables this line to crush others out, that rates will not be cheaper or the consumer benefited."

That reasoning applies in double force to a highly speculative line via Vancouver and Australia.

Australia Released.

London, May 9.—(C. A. P.)—The Chronicle states Tweedmouth yesterday gave Premier Deakin permission to break the agreement by which Australia contributes £200,000 annually to the cost of a naval squadron. The matter will probably come before the Commonwealth Parliament in June.

Immigrant Suicides.

Baldur, Man., May 9.—C. Ellis, a Scotch immigrant, who has been working on farms around here, hanged himself yesterday.

Both Sides Wrong.

Toronto, May 10.—Judgment in a human interest case was given by Mr. Justice Riddell yesterday, in the suit brought by Robert E. Bowins, an Ontario County farmer, against the Home Bank of Canada, to recover possession of notes given to the bank to save his brother-in-law, who had forged the plaintiff's name to a note for $200. Judge Riddell decided in favor of plaintiff, but made no award as to costs as both parties were "guilty of a great moral wrong."

Many Britishers Desert.

Hamilton, Bermuda, May 10.—The British cruiser squadron, commanded by Rear-Admiral Neville, which arrived at Bermuda Wednesday from Hampton roads, reports that wholesale desertions from the British ships occurred while they were in American waters. It is estimated that over 300 men, including many chief petty officers, deserted. For the apprehension of a chief yeoman of signals a reward of $500 is offered.

Employers and Workers Agree.

London, May 10.—The trouble between the union bricklayers and the employers is at an end. At a meeting of the arbitration committee of Local Union No. 5 and the contracting bricklayers, held Wednesday night, a three-year agreement was reached. The men are to be paid 43 cents an hour the first year, and 45 cents an hour the second and third year.

A Tragic Death.

Des Moines, Ia., May 10.—"I am 65, but sound as a dollar and good for at least 85." With these words on his lips, James Hadfield, a witness in a civil action yesterday, fell dead in a local courtroom from heart disease.

Morocco City Captured.

Tangier, May 10.—Rumors of serious trouble at Morocco City have come in here from native sources.

It is declared the powerful Rahma tribe have seized the town and given all foreign residents orders to leave within a fortnight.

Burned to Death.

Rochester, May 10.—Edward Reubens, single, aged 30, was burned to death yesterday at Manchester in the Lehigh yards. In pulling the headlight from an engine he spilled the oil on his clothes, which caught fire.

One Killed, Sixty Hurt.

Chicago, May 10.—Mrs. Mary Miller was killed and sixty other persons were injured yesterday in a wreck on the Chicago, Burlington and Quincy Railroad at a crossing of that line in the southwestern part of the city.

Still Friendly.

Berlin, May 10.—Rumors that there has arisen a misunderstanding between Emperor William and Prince Von Buelow, the imperial chancellor, were yesterday met with a strongly worded official denial.

Shot Five Times.

Palm Beach, Fla., May 10.—George G. Newcomb was shot five times and almost instantly killed in a saloon by Thomas W. Troy, who is a lumber dealer in South America.

Killed In Street Car Accident.

Lexington, Ky., May 10.—One man was killed and about twenty other persons injured in a collision between a street car and a Chesapeake & Ohio flyer here yesterday.

The Marathon Mystery

A Story of Manhattan

By BURTON E. STEVENSON
Author of "The Holladay Case"

Copyright, 1904, by Henry Holt and Company

There was one conclusive objection I might have urged, had I known of it—but I was not yet possessed of the story of the house party. If Tremaine was the husband of Mrs. Delroy, how could he propose marriage to her sister? That was a rock, as yet unseen by us, which loomed ahead—which we could not avoid—upon which our theory must inevitably be dashed to pieces.

The train flashed past two or three big hotels, then the brakes were applied.

"Here's Babylon," said Godfrey, rousing himself from the profound reverie into which my question had thrown him. We'll look in upon the prisoner first and cheer him up a bit."

The jail was only a short distance from the station, and a five minutes' walk brought us to it.

"We're here in behalf of Mr. Drysdale," Godfrey explained to the jailer. "This is Mr. Lester of Graham & Royce of New York, who have been retained to defend him. I suppose we may see him?"

"I'll take in your cards," he said, after looking us over. "If Mr. Drysdale wants to see you, it's all right, but you'll be the first ones."

He disappeared into an inner room; we heard the rattling of keys and the clanging of an iron door. He was back again in a moment.

"Step this way, gentlemen," he said.

Drysdale was sitting on the bunk in his little cell. He came forward with hand outstretched as soon as he saw Godfrey.

"This is mighty kind of you, Jim," he said.

"I'll have to lock you in, gentlemen," broke in the jailer. "How soon must I come for you?"

"Say twenty minutes," answered Godfrey, looking at his watch. Then he turned back to us as the jailer's steps died away down the corridor. "Jack," he said, "this is Mr. Lester of Graham & Royce, who've been retained to look after your case."

"My case? Who retained them?"

"I did. I scarcely supposed you were going to let yourself be convicted without lifting a finger."

Drysdale smiled bitterly.

"They won't convict me. Just the same, I'm glad to see you, Mr. Lester," and he held out his hand. "I shall, of course, need some legal advice."

"I'm glad you admit that much!" retorted Godfrey, with sarcasm. "I understand that you haven't condescended as yet to prove an alibi?"

"No," answered the prisoner quietly. "The fact is, I can't prove an alibi."

"You can't?" and Godfrey's face paled a little.

"No; when I left the house that night I went down to the pier and had a little talk with Graham; then I—I wandered around the grounds until the storm came up, when I went back to the house and up to my room. Nobody saw me. I spoke to nobody after I left Graham until I returned to the house. There's only my own word for it. What was the use of telling the police a story like that?"

"No use at all," agreed Godfrey hastily. "I'm glad you didn't tell it. But what on earth possessed you to behave in such a crazy fashion?"

"That," answered Drysdale, still more quietly, "is one question which I must absolutely refuse to answer."

CHAPTER XXV.

We sat looking at him a moment in silence. It was evident that he was suffering some exquisite mental anguish, though I suspected, somehow, that it was not because of his imprisonment. There was something deeper than that; something that touched him more closely.

"Oh, come, Jack," protested Godfrey, at last, "this is no time to put on the high and mighty. You don't seem to realize what an exceedingly serious position you're in."

"I know one thing, Godfrey," returned Drysdale, with a forced smile, "and that is that I didn't kill Graham nor steal the necklace. So I know they can't convict me."

"I wouldn't be too sure of it. Things like that happen occasionally. How did Graham get hold of that button off your raincoat?"

"I'm sure I don't know."

"You wore the coat that evening?"

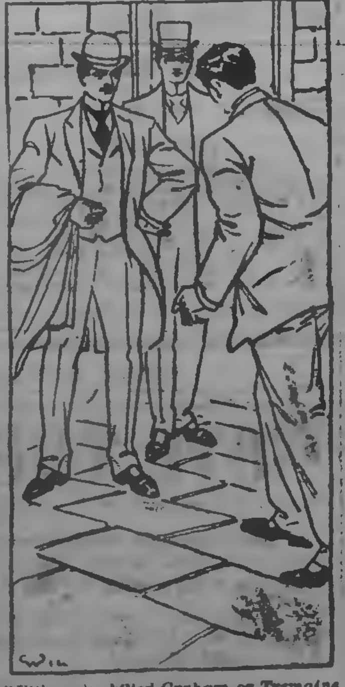
"Yes."

"And the button was on it?"

"Yes. I'd have missed it if it hadn't been. Besides, I buttoned the coat up when I started back to the house."

Godfrey's face flushed, and his eyes began to glisten.

"You're sure, then, that it was on the coat when you returned to the house?"



"Either you killed Graham or Tremaine did."

"Why, yes," answered Drysdale, looking at him in some astonishment, "reasonably sure."

Godfrey fell a moment silent; then he shook his head impatiently.

"There's another thing," he said. "How did your pistol get out there in that boat?"

"That's another puzzler."

"Now, see here, Jack," continued Godfrey seriously, "there's one thing certain, either you killed Graham or Tremaine did."

"Tremaine?" repeated the prisoner, with tightening lips.

"Yes. Do you know of any evidence against him?"

Drysdale paused a moment, his brows knitted.

"No," he answered positively at last. "I don't see how Tremaine could possibly have done it."

"Why not?"

"Because he didn't leave the house, so Delroy says. I know he was there when I went out, and when I came back I saw him sitting by his lighted window, writing apparently."

"Ah!" Then after a moment; "Did you keep that journal you promised to keep?"

"Yes. You'll find it in my room. That is"—

He stopped suddenly and colored.

"Well? Out with it."

"I just happened to think that perhaps that fool of a coroner's got it. See here, Jim, if you find it I want you to promise me one thing—that you won't read it—not yet—it won't help you a bit."

"I'm not so sure of that," retorted Godfrey grimly. "Why don't you want me to read it?"

"The fact is," Drysdale answered, coloring still more, "that after I got started I—I forgot I was writing it for you"—

"I see," said Godfrey dryly as the other paused. "I'll promise you this, Jack—I won't read it unless I find that I can't clear you any other way."

Drysdale heaved a sigh of relief.

"That's all I want," he said. "Afterward perhaps I won't mind, but just now"—

His voice trailed off, his lips trembled.

"And you've nothing more to tell us?"

"Not a thing."

"Very well; we'll go out and have a look about the place. We'll come in again this afternoon. We're going to clear you," he added confidently.

We heard the jailer's footsteps approaching along the corridor.

"I don't doubt it," said Drysdale, with a puzzling listlessness. "It's very good of you both to take all this trouble."

The jailer opened the door, and we passed out.

"Do you know when the inquest will be?" Godfrey asked as we stepped through together into the outer room.

"Yes, sir; t'morrer mornin'. They'd have had it today, but Coroner Heffelbower hopes t' find th' necklace by t'morrer."

"Oh, so they haven't found it, then?"

"No, sir; they searched Drysdale's room, but it wasn't there. Now they're tryin' t' figger out where he hid it."

"Well," observed Godfrey, "they'll have to figure a long time, because he didn't hide it anywhere."

"Mebbe not, sir," retorted the jailer, with a skeptical smile. "But appearances are dead agin him. Why, even his girl thinks he did it."

"How do you know that?" demanded Godfrey quickly.

"When Heffelbower was bringin' him out o' th' house, they met her in th' hall an' she asked Drysdale what he wanted t' do it fer, why he couldn't 'a' waited awhile. That's purty good evidence, I think."

Godfrey had listened with a face hard as steel. He turned away without answering, and as we went down the street together I saw that this new development puzzled and worried him sorely. That Miss Croydon should think Drysdale guilty, even for an instant, was inconceivable!

We made our way to the nearest hotel and engaged a trap and while it was getting ready ordered a light lunch. Godfrey ate in thoughtful silence; as for me, I confess that I saw little ground for that conviction he had expressed so confidently, that we could prove our client's innocence. I was forced to admit that to look at Drysdale no one would believe him capable of such a crime. But, then, for that matter, to look at Tremaine, who would believe him capable of it? Put the two men before a jury and Tremaine would come off victor every time. It becomes instinctive in time for a lawyer to try to look at his cases with an average jury's eyes—he must see them as those twelve men in the box will see them—and applying that method now it was very evident to me that the chance of clearing our client was very slim indeed.

The trap came around to the door, and in a moment we were off along the sandy road. At last we swung down before the door at Edgemere. A man ran out to hold our horse. We asked for Mr. Delroy, and a servant who had been stationed in the vestibule took in our cards. He returned immediately and conducted us to the library. Delroy came forward to meet us, our cards in his hands, a curious look of doubt and perplexity upon his countenance.

"My dear Godfrey," he began, "I didn't like to refuse to see you, and yet I've declined to talk to reporters"—

"You're not talking to one now, Mr. Delroy," broke in my companion. "I've come down purely in Drysdale's behalf. Of course I'll write up the story if I succeed in getting him off, but I'll not use anything I learn here in that way."

"Oh, that's all right then," and Delroy breathed a sigh of relief. "Glad to see you. And you, too, Mr. Lester."

"Mr. Lester is Drysdale's counsel," explained my companion. "Between us we're going to see that he's cleared of this ridiculous charge."

"Yes, I hope you will. Sit down, won't you? Ridiculous, that's the word for it, and yet," he added, passing his hand before his eyes in a dazed way, "there are so many points of evidence which seem unexplainable that I've grown giddy thinking about them. It's such a terrible thing my wife is quite prostrated, even a little delirious at times; her sister is almost ill; we've all been terribly upset."

To be continued.

A wrecking train on the C.P.R. at Portage la Prairie ran into an open switch and in jumping, Engineer Daniel McDonald, of Winnipeg, struck a handcar and died an hour later.

THE MARKETS.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock Markets—The Latest Quotations.

Thursday Evening, May 9.

Liverpool wheat futures closed to-day ½d to ⅝d higher than yesterday, and corn futures ⅝d higher.

At Chicago: May wheat closed ⅛c higher than yesterday. May corn ⅜c higher and May oats ⅝c higher.

Winnipeg Options.

Following were the closing quotations to-day on Winnipeg futures: Wheat—May 83¼c bid, July 85⅝c bid, Oct. 86⅝c bid. Oats—May 38c bid, July 38⅞c bid.

Leading Wheat Markets.

Liverpool Grain and Produce.

LIVERPOOL, May 9.—Wheat, spot, steady; No. 2 red western winter, 6s 3½d; No. 1 California, 6s 5½d; futures, firm; May, 6s 8¼d; July, 6s 6⅜d; Sept., 6s 8⅝d. Corn, spot, steady; American mixed, new, 4s 7¼d; American, mixed, old, 5s 5½d; futures, steady; July, 4s 7⅝d; Sept., 4s 7⅝d.

Bacon, Cumberland cut, firm, 50s; short rib, firm; 58s 6d. Shoulders, square, firm, 40s 6d. Cheese, Canadian, quiet; finest white, new, 58s; old, 64s; finest colored, new, 60s; old, 66s. Linseed oil closed at 25s 3d.

New York Dairy Market.

NEW YORK, May 9.—Butter, steady, unchanged; receipts, 7710. Cheese, unchanged; receipts, 2197. Eggs, steady; receipts, 27,271.

CATTLE MARKETS.

Cables Steady—No Change in American Prices.

LONDON, May 9.—Liverpool and London cables are steady at 11½c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9c per lb.

Toronto Live Stock.

TORONTO, May 9.—Receipts of live stock at the city market were 106 car loads, as reported by the railways, consisting of 1631 cattle, 1851 hogs, 168 sheep and lambs, with 518 calves and one horse.

Exporters.

Several loads of export cattle were on sale, which sold from $5.15 to $5.50 per cwt., the bulk going from $5.20 to $5.35. Export bulls sold at $4 to $4.50 per cwt.

Butchers.

Picked butchers' sold from $5 to $5.30; loads of good, $4.60 to $4.90; good cows, $4.25 to $4.60; medium cows, $3.75 to $4; rough cows, $3 to $3.25; bulls, 1100 to 1700 lbs., $4 to $4.50.

Feeders and Stockers.

The demand for fat cattle was so good that steers with a little flesh on them, that ought to have been sold as feeders, were taken for butchers', which caused few cattle to be taken as feeders.

Harry Murby, whose business is largely in stockers and feeders, reports a slim trade as regards numbers, he only having handled 150 during the week. Mr. Murby reports best steers, 1000 to 1100 lbs., at $4.25 to $4.75; best steers, 900 to 1000 lbs., $4 to $4.40; best steers, 800 to 900 lbs., $3.90 to $4.25; best steers, 500 to 700 lbs., $3 to $3.50; common stockers slow sale and not wanted.

Milch Cows.

Several buyers from eastern points, as well as several farmers, who were all wanting good cows, caused the market to be strong. All cows approaching good quality were readily picked up. Prices ranged from $36 to $70 each. The latter figure was for an extra choice cow. The bulk would sell from $40 to $55 and a few at $60 each.

Veal Calves.

The bulk of the calves were of common to medium quality, good to choice veals being scarce. Prices ranged from $3 to $5.00 and $6 per cwt., and an odd new milk-fed calf of good quality brought $7 per cwt.

Sheep and Lambs.

The run of sheep and lambs was light, and prices were firm all round. All offered were readily taken at higher prices. Export ewes sold at $6 to $6.65 per cwt.; rams, $5.50 to $6; yearlings, $7.50 to $8.50 per cwt.; common yearlings, $6 to $6.50 per cwt.; spring lambs, $5 to $8 each for bulk of offerings, but $9 and even $10 was paid for two or three of the right kind. Farmers! Keep your lambs until fit to sell and get a good price for them. The trade demands better quality than is being offered.

Hogs.

Prices unchanged. Mr. Harris got over 1800, and quotes selects at $6.30 and lights and fats at $6.25 per cwt.

East Buffalo Cattle Market.

EAST BUFFALO, May 9.—Cattle, receipts, 100 head; slow and steady; prices unchanged. Veals, receipts, 200 head; active and 25c higher; $5 to $7.50. Hogs, receipts, 2500 head; heavy, fairly active and steady; light, slow and a shade lower; mixed, $6.75; yorkers, $6.75 to $6.85; pigs, $6.85; roughs, $5.90 to $6.10.

Sheep and lambs, receipts, 6000 head; sheep, active; lambs, fairly active; yearlings, $6.75 to $7; wethers, $6 to $6.25.

New York Live Stock.

NEW YORK, May 9.—Beeves, receipts, 1131; no trading in live cattle; feeling dull. Calves, no fresh receipts; none for sale; feeling steady. Sheep and lambs, receipts, 3282; sheep, nominally steady; lambs, a trifle easier; spring lambs, steady; prime clipped lambs, $7.90; fair state spring lambs, $5 per head; unshorn yearlings, $7 per 100 pounds. Hogs, receipts, 1326; none for sale alive; nominally weak.

Chicago Live Stock.

CHICAGO, May 9.—Cattle, receipts about 6500; market steady; common to prime steers, $4 to $6.50; cows, $3.25 to $5; heifers, $3 to $5.50; bulls, $3.40 to $4.60; calves, $2.75 to $6; stockers and feeders, $3 to $5.25.

Hogs, receipts, about 21,000; market steady; choice to prime, heavy, $6.42½ to $6.45; medium to good heavy, $6.40 to $6.42½; butchers' weights, $6.42½ to $6.50; good to prime mixed, $6.30 to $6.52½; packing, $6.20 to $6.40; pigs, $5.30 to $6.40; bulk of sales, $6.40 to $6.45.

Sheep, receipts, 12,000; market, steady; sheep, $4.25 to $6.10; yearlings, $5.75 to $6.80; lambs, $5.50 to $8.75.

Miss Clemow Suicides.

Ottawa, May 10.—Aileen Clemow, granddaughter of the late Senator Clemow, committed suicide here yesterday. She was found in a room with a revolver by her side and a bullet hole through her head. Miss Clemow had been ill for some time, and arrangements were being made to take her to a sanitarium to-day. She was 26 years of age, and was well known in social circles in Ottawa.

Candidates In Hants.

Halifax, N. S., May 10.—Hants County Liberals yesterday nominated Sheriff James O'Brien of Windsor for the Provincial Legislature. The Conservatives have nominated E. A. O'Brien, merchant, of Noel, who in June last was defeated by 120.

Halton county will probably adopt a by-law to macadamize at a probable cost of about $150,000, all the main roads of the district.

PUBLIC WORKS DEPT. SUBMITS.

Stonemasons' Union Wins Out—Will Dress Stone "On the Job."

Ottawa, May 10.—A conflict between the Department of Public Works and the International Union of Bricklayers and Stonemasons, over a clause in the contract for the extension of the House of Commons, has just been terminated by the Government acceding to the request of the labor organization.

The contract provided that the cut stone should not be dressed on the premises, the reason being that the grounds would be disfigured by the rubble and the noise of the operations and be a serious annoyance to the Legislators.

This stipulation was in direct contravention of a rule of the International Union of Bricklayers and Stonemasons, which provides that stone must be cut and shoddies dressed "on the job."

After considerable discussion Hon. Rodolphe Lemieux and the acting Minister of Public Works finally came to the conclusion that the contract would have to be amended. In pursuance of this the stonecutters and dressers are permitted to perform their work on the Hill.

ALL SAVED BUT THIRTEEN.

Seven Passengers Drowned and Six Are Missing.

Montevideo, Uruguay, May 10.—An official report from the Government authorities on the spot says that all the passengers, mostly Spanish emigrants, of the French steamer Poitou, wrecked off San Jose Ignacio, have been rescued, with the exception of thirteen. Seven of these are known to have been drowned, and six are classed as missing.

Eloping Parson In London?

London, May 10.—In connection with the eloping couple, Rev. J. Node Cooke, and Miss Whaley from Hempstead, L. I., it was stated yesterday by a well-known dentist that the eloping couple were in London early this week. It was said that the runaway preacher had a friend of the cloth in this city, and that on coming to London he threw himself upon his mercy. The local minister rejected the couple and informed them that if he did not leave the city immediately the police would be notified. The couple are thought to have been seen on the streets by several persons.

A woman wearing a green short silk dress and a tall handsome man with grey hair and good features, were seen at a local theatre on Monday. They left the city on an evening train for the east.

Laurier Gets Preference.

London, May 10.—(C. A. P.)—Laurier's chauffeur was charged with driving a car containing the Premier at an excessive speed in Regent's Park and was fined twenty shillings. The magistrate elicited that Laurier is leaving England soon and then said it was improbable the same thing would happen again, and it was clearly a case for preference and that the chauffeur need not pay the fine. The speed was stated to be 19 miles an hour.

Stead and the Irish Bill.

Montreal, May 10.—W. T. Stead addressed the Canadian Club last night.

Talking with reference to the new Irich Council bill, he said: The trouble with Ireland was that it was ruled by the House of Lords, while England was ruled by the Commons. If the English were treated like the Irish they would burn the House of Lords from over their heads.

Boston Train Wrecked.

Winn., Maine, May 10.—A message from Lincoln states that the express train, which left Boston at 8 o'clock yesterday morning for St. John and Halifax, was wrecked late yesterday at a point on the Maine Central Railroad, two miles from Lincoln.

The fireman, engineer and postal clerk were badly injured, but that no person was killed.

Flames From the Sea.

L'Orient, France, May 10.—Several trawlers came in here Wednesday reporting the observance of an extraordinary phenomenon at sea, which would appear to have been a submarine volcanic eruption.

The men on board the trawlers noticed bright flames and intense smoke rising from the sea.

According J. W. Speer, colonization agent, the Government will likely compel the Doukhobors to take out naturalization papers, while those who refuse to comply will not be given homesteads.

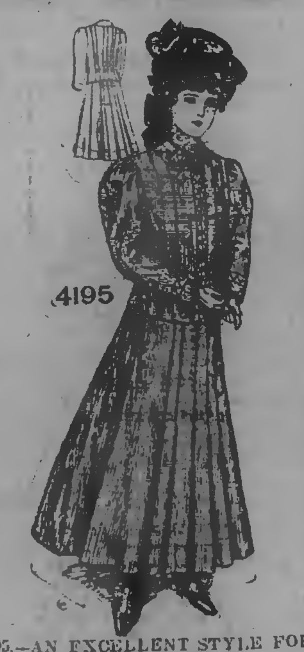
LATEST DEAN PATTERNS



4195.—AN EXCELLENT STYLE FOR LINEN OR CLOTH.

The semi-fitted coats worn by girls and women this year are not only becoming, but practical for home making. Here is a suit in panamas showing applied box-pleats on the coat and the skirt laid in pleats. The trig little vest which closes the coat in front is attractive and not elaborate, giving an opportunity for using some pretty trimming. The pleats need not be used on the coat unless desired, but they are wonderfully becoming. The skirt is in seven gores and laid in pleats after the newest mode. A cloth, worsted, linen or silk might serve as material, 7 1-8 yards of 50 inch material being needed in the medium size.

4195.—Sizes, 14, 15, 16, 17 years.

The price of this pattern is 10c. Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail.

Little Girl Badly Burned.

Kingston, May 10.—Frederick Jackson burned his hands while pulling off the burning clothes from little Lillian Butlin, daughter of William Butlin, Dufferin street, who had set fire to herself while playing with matches in the yard. The child, four years of age, was badly burned about the face.

What May Be.

Montreal, May 10.—Robert Bickerdike, M. P., says that Lord Strathcona and Mount Royal will probably be the next Governor-General of Canada.

He also figures on Laurier for Canada's High Commissioner, and Aylesworth to become Premier.

To Claim His Fortune.

Maniwaki, Que., May 10.—Christopher Thompson, for two years a resident of Maniwaki, has left for Ireland, to claim a sum of money said to have been left him by a brother who recently died. The amount is reported to be about $20,000.

Body Hidden by Snow.

Bristol, N. B., May 10.—After lying months underneath snow many feet deep, Henry Lawson, one of the oldest settlers in this county, was found yesterday by workmen in a field a short distance from his home.

All day Friday the fishing tug George D. Morrison, with her crew of eight, tossed about in heavy seas on Lake Huron with her rudder broken away.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co. Toronto Ont. (formerly Windsor)

ACCIDENTS VS. FIRES

It is said that 20,000,000 accidents and illnesses occur each year, but only 80,000 fires.

A business man protects his property against the loss that rarely happens---fire. He can replace his property, but he can never replace his time or his damaged arm.

The most liberal accident and sickness policies are issued by

The General Accident Assurance Company of Canada

Our "Utopia" policy is the best and most unconditional Accident Policy on the market, and completely covers all loss of time from accident.

We issue a Sickness policy which covers every disease to which flesh is heir.

We are revolutionising the liability business by our "factory policy."

Barnardo Girl Had Experience

Left for Hamilton to Meet Mrs. Smith and the Latter Failed to Connect

Ada Church, a little girl under the charge of Hazel Brae, the Barnardo Home for girls here, had an experience of their own this week. A Mrs. Smith, a farmer's wife living in Southcote, near Hamilton, wrote to the Barnardo Home for a little girl to adopt. Ada Church was selected and Mrs Smith notified that she would leave here on Saturday, morning. The girl was sent as agreed and Mrs. Smith was to meet her. She arrived in the Ambitious City in the afternoon on the Grand Trunk. Mrs. Smith expected her on the C.P.R. and went there to meet her. When she did not arrive Mrs. Smith went home.

The little girl had no place to go and Mrs. Jackson, matron at the Grand Trunk station in Hamilton, took charge of her. The Hamilton Spectator got hold of the story and through its columns Mrs. Smith found her little girl and went for her on Monday. Ada is now safe and sound in her foster home.

"As Told in the Hills"
Grand Opera House
Saturday Matinee and Night
Plan now Open

Thinks Peterboro' is a Lively City

The Kingston News says:—Frank McCue has returned from Peterborough, where he was purchasing bar fixtures for the Windsor Hotel. The bar will be moved about the main entrance. It will take in the front room occupied by the barber shop and the back room. The bar will be luxurious in its equipment and will be up to date in every particular. Mr. McCue thinks Peterborough is a busy city.

REMOVAL

On or about May 15th our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

JOHN NUGENT

WEDDING BELLS

McCLURE—McFADDEN.

Havelock, May 9.—The marriage of Miss Eva Jane, youngest daughter of Mr. and Mrs. Robert McFadden of Norwood, to Mr. Johnston McClure, of Havelock, took place at the home of the bride's parents at three oclock p.m. on May 1st, the ceremony being performed by Rev. Mr. Johnston at Westwood. The bride was charmingly attired in a gown of cream poplin, trimmed with chiffon lace and ribbon and her travelling costume was of grey venetian. The young couple left on the evening train for Toronto, Buffalo and St. Catharines.

Measles Keep Pupils at Home

The prevalence of measles in the city is interfering to some extent with the attendance at the public schools. A large number of children are suffering from the above disease and as a result are not able to attend school. Measles have been prevalent for several weeks, but the type of the disease is not malignant and there have been no serious results.

WARM WEATHER AFTER SUNDAY

Don't take 'em off until after Sunday, and be careful then for a few days. Sunday is the 12th of May and just six weeks after Easter, when the moon changes. All the old weather prophets predicted at Easter that the weather would be cold for six weeks, and it has been. It is to be hoped that their prophecy for warm weather next week will be correct.

Colored Visitors in Peterborough

Members of Sunny South Company Here This Morning

The appearance of a number of colored ladies and gentlemen on the street this morning created considerable curiosity. Some thought that the new comers were going to become permanent residents of the city and would add to its already cosmopolitan character ,but investigation proved that such was not the case. The dusky visitors were members of the J. C. Blackwell Sunny South Company ,an operatic troupe who played at Lakefield last night and will hold forth at Stirling tonight. They were delayed in Peterborough on account of train connections.

The company intend returning to Peterborough in about two weeks to open an engagement here.

CITY CLERGYMEN DINED TOGETHER

Pleasant Luncheon Enjoyed by Members of Ministerial Association

The members of the Peterborough Ministerial Association enjoyed luncheon together this afternoon at one o'clock at Hooper's Palm Gardens. Rev. Canon Davidson presided and a pleasant social time was spent.

The clergy have held their last regular meeting for the season and the gathering around the festive board was an agreeable wind up of the monthly sessions of the Ministerial Association.

At a meeting of the London Presbytery an overture to the General Assembly was adopted, urging action in the matter of the menace of Mormon settlements in Canada.

A Man is a Fool to Work With His Team for $3.50 a Day

For the City, Said a Local Man Who Owns About 30 Horses—No Teamster Should Get Less Than $4.00 a Day—He Cannot Afford to Take Less.

The teamsters' strike, while affecting only a few men in the city is creating a great deal of discussion. For the most part it is favorable to the teamsters, although no direct effort has been made to feel the pulse of the public generally.

One of the largest horse owners in the city last night, in discussing the strike with a Review representative, made the flat statement that he would not put on a team on the corporation work for a cent less than $4.00 a day and he would look for $4.50. When asked how he figured it out he said;

"A man at the meanest kind of work is worth $1.50 a day to work nine hours a day. It costs $1.00 a day to feed a team and that only leaves fifty cents a day for each horse, allowing nothing for wear and tear of the rig and harness, nothing with which to replace the team, and not a copper for the hours the man has to put in, caring for his horses, or for barn rent, taxes etc. The teams working on the road run from $300 to $500, a wagon costs $70 or $75, and harness $50. By the time a man puts up his barn and gets his equipment he has an investment of nearly $2,000.

"In my opinion," continued the horse owner, "the aldermen have made one big mistake. In the first place they have not figured anything for the use of a team except their bare keep. If a horse could not earn more than that, I would shoot it. I figure here, that if my horses do not average me $3.00 a day now and $4 in the summer, I would get rid of them quick. A man is a fool to invest a couple of thousand dollars in a teamsters outfit if he is not going to make some money out of it. He can earn $1.50 to $2.00 a day himself as a laborer and be free of the care of his horses and have his money in his pocket.

"No doubt the aldermen and probably a lot of people in the city will not agree with me. They do not have to. But I know something about the horse business and my horses cannot work for their bare keep."

Garbage System Advanced a Step by Property Committee

Sub-Committees Appointed to Work Out Details of the Revenue Derived, the Cost of the System, and the General Provisions of the City By-law.

Considerable progress was made by the Property Committee last night with the garbage system. The first thing decided upon was the general principal, and then sub-committees were appointed to work out the details and to report at the meeting next week.

Those present were Chairman McIntyre, Ald. Morgan, Elliott, Stevenson, Mayor McWilliams and Sanitary Inspector Ball.

After a lengthy discussion the committee decided to recommend to the Council that the following service be given:—

To all ordinary householders, once a week

To all business premises, twice a week

To houses in outlying districts, once every two weeks

The committee has also drafted a scale of charges per month for the services, and appointed Chairman Ald. McIntyre and Ald. Elliott a sub-committee to work out the details to ascertain the revenue to be derived from the scale suggested.

At the same time Ald. McIntyre was chosen to work out the details of the cost of the proposed system and, if the rates now drafted prove sufficient to cover the expense, they will be recommended to the Council. The rates that it is proposed to adopt take the service given to the ordinary householder as a basis, and the other charges are in proportion, with special allowances or increases charged for roomers, offices, boarding houses and large factories.

If the rates now drafted by the committee prove enough to meet the expense the public will get the service at less than half the cost they are paying as individuals at the present time, and the service will be much more satisfactory and regular.

It is also likely that the committee will recommend that tenders be called for for supplying the necessary waggons, teams, men, and for carrying on the work for one year. There has been some talk of making it a municipal enterprise, and this may also be considered in the Council.

Ald. Stevenson and the Mayor will prepare the conditions of the service and of the agreement with the contractor, and the various sub-committees will report next week, when it is expected that the matter will be gotten into such shape as to be ready for the Committee of the Whole.

A long discussion took place when Ald. Elliott suggested that, instead of the public paying so much a month for the work by a special levy, that the whole cost be paid out of the Council's general fund. No decision was arrived at and both propositions will be submitted to the Council. It was agreed that such a system of meeting the expense would be simpler and fairly equitable. But some members thought it better to begin with a system of a special charge being made when the corporation was doing work for an individual. It was further pointed out that there will have to be an increase of one mill in the tax rate next year, owing to the increased demand from the Board of Education on account of the new school buildings, and a further increase of probably three-quarters of a mill for the garbage system would likely meet with public approval.

Some discussion also took place as to the manner of disposing of night soil, but as the committee had spent three hours on the details of the garbage system, they did not attempt to settle the matter. The Brantford bylaw dealing with the question was read and was considered very satisfactory.

Y.M.C.A. Work in India Subject Of Lecture by Rev. H. J. Keith

Special Attention Paid to the Association at Calcutta Where J. N. Farquhar is Stationed—Great Interest Being Taken in the Foreign Work This Year.

A very encouraging start was made in the interests of the Foreign Work of the Y.M.C.A. last night, when a goodly number of members of the association, listened to Rev. H. J. Keith's address on Y. M. C. A. work in India, with special reference to Calcutta.

For the past four years, the Associations of Ontario and Quebec, have supported Mr. J. N. Farquhar, M. A., as their representative in Calcutta. In this the Peterborough Association has had its share, though not as large as its membership would warrant.

This year a forward movement in foreign work has begun in the provinces, and a number of places are now undertaking to each support a representative of their own.

The Foreign Work Committee met last week in Toronto and allotted the sums expected from the different associations. This year Peterborough Y.M.C.A. members are asked to contribute $200.00. $15.00 of this amount has already been subscribed, and $28.00 more was pledged for 1907, by those in attendance at the meeting. The committee confidently expect a general response on that part of the members in this practical work, which calls for an exhibition of unselfish missionary spirit on the part of men.

Mr Williamson, General Secretary, presided at the meeting last evening and in introducing Rev. Mr. Keith voiced a very hearty welcome for him to the city and Y.M.C.A., on behalf of the young men.

Mr Keith's address was deeply interesting. He spent two years in India, and Calcutta, and gave the information at first hand as to the needs, and the work being done for the Indian young men by the Y.M.C.A.

He said India was a great country, in extent as well as in promise. The young man problem in India, was an inspiring problem, and the work was encompassed with many difficulties and discouragements.

The people of India classed together all white men as Christians, and all the evils the white's had brought, retarded the progress of Christianity.

The Indian young man does not believe in labor, and looks on education as a means of getting a government position, rather than a character builder. There was a great feeling of unrest, due to agitators of different classes. Here the speaker, referred to the present disturbance at Lahore as an illustration.

Mr. Keith then dealt with what the Y.M.C.A. had done and was doing for India's young men.

The Y.M.C.A. had been a great success there, and Farquhar, he considered to be one of the greatest men in India. The City of Calcutta had four buildings for the different classes of young men, including one for students and one for Europeans.

The College Department was the key to successful work in the country.

Thus the Y.M.C.A. holds the key to India today. The Y. M. C. A. is strongly backed by the Church.

In closing, Mr. Keith referred to his own experiences in dealing with young men there, and regretted that he had to leave India.

At the close of the address a number of photos were shown, presenting different features of the country, and the association work.

Mr. W. D. Morrow, leader of the Association Volunteer League, the organization having charge of the Foreign Work in the local association, spoke briefly, reviewing what had been done and what the privileges and obligations of the members were.

Mr. E. Dingman was elected secretary and Mr. J. H. Connal, treasurer of the Foreign Work. These succeed Mr. William Shea, who held both offices for several years, and who has recently gone to Alberta.

The chairman tendered the thanks of the meeting to Mr. Keith for his interesting and inspiring address.

Policeman Did Public Service

When He Prosecuted C. P. R.—George St. is no Longer Blocked

To the Editor of the Review.

Sir,—I have noticed in the Review a charge made by Brakeman Davidson, of the C.P.R., to the effect that P.C. Newhall had called him "a liar," at the conclusion of the appeal case heard recently before Judge Weller. The brakeman in that case has even gone so far as to demand an apology from the officer, and in his anxiety to give publicity to the affair, rushes into print.

In the first place I consider such a procedure manifestly unfair, as all grievances against police officers should be first ventilated before Police Commissioners.

I also notice in last night's issue that it was stated that the constable had admitted to the Board that he had called Davidson and the other men who were with him at the time "a pack of liars."

Now, sir, I am in a position to state positively that Constable Newhall made no such admission before the Police Commissioners. I cannot understand why such a one-sided statement should be published in your paper. We all know that Constable Newhall is a fair, careful and zealous officer, and, since laying a charge against the C.P.R. conductor for blocking George street with his train, it is noticed that this nuisance, which previously existed to a most unwarranted extent, has almost disappeared. There is now no blocking of George street, and the prosecution evidently had the effect of bringing the company to time ,even although it did secure a victory on appeal.

I, along with many other business men of the city, consider that Constable Newhall did a distinct public service in laying the charge that he did, by which much good to that section of the city has resulted, and the minor issue arising out of the prosecution, has, to my mind, little or nothing to do with the present trouble.

Yours, etc.,
ONE WHO KNOWS
Peterborough, May 10, 1907.

Formal Laying of Corner Stone

Of New Collegiate Institute Should be Accorded Mr. James Stevenson

To the Editor of the Review.

Sir,—I heartily approve of the idea of having a formal laying of the corner stone of the new collegiate institute in Central Park. The erection of this modern and much needed building is certainly worthy of some public demonstration. It would be a good idea to have the oldest school trustee in Peterborough perform the interesting ceremony and I would suggest that the honor should be tendered Mr. James Stevenson, ex-M.P. He has always been a warm and true friend to the best educational interests of the city and was a member of the School Board for a period of over half a century.

By all means let Mr. Stevenson lay the corner stone. It would be a crowning achievement and acknowledgement of the many years of useful and efficient public service that he has rendered Peterborough.

Yours, etc.,
IDEX.
Peterborough May 10th. 1907.

HE DID HIS DUTY

Why Is Police Officer Now Hauled Over the Coals?

To the Editor of the Review.

Sir.—Why has Mr. Newhall been hauled over the coals by a conductor for prosecuting the C. P. Railway? I say he did his duty. He is a good officer.

Yours truly,
CITIZEN.
Peterborough, May 10.

INSURANCE MAN IS INSPECTING

The Yards and Surroundings of Business Premises

Mr. Payne, of Toronto, inspector of the Underwriters' Association, is in the city and is inspecting the yards and surroundings of the business establishments in the city. He will report on their condition to the Association. Mr. Payne will make a most thorough examination of all premises, with respect to their moral hazard and general conditions from the standpoint of liability to fire.

Immigrants Are Pouring in

Another Train of Newcomers Passed Through To day

An immigrant train of about six cars passed through Peterborough on the C.P.R. about 7.30 o'clock this morning. There were over 400 new comers on board, the majority of them bound for points in Ontario. More immigrants have passed through Peterborough this spring than every before and, as a rule, they have been of a very desirable class.

Sermons on the Life Hereafter

Commencing on the coming Sunday, Rev. Dr. Marsh, of Springville, will preach a series of meditative sermons on "The future life; if a man dies, shall he live again." The subject will be treated largely from a scientific standpoint, and will no doubt prove very interesting. The first sermon of the season will be preached Sunday morning.

Will Soon Open for the Season

Proprietor Moving to Jubilee Point Hotel

Mr. J. J. Gilman, proprietor of the hotel at Jubilee Point, leaves tomorrow to take charge of the hostelry. He is having his furniture and other fixtures moved down by the steamer Water Lily. Jubilee Point will be open to the public in a few days and an active season is anticipated

Another Chinese Restaurant Here

A second Chinese restaurant is being opened in Peterborough. A celestial from Toronto has leased the premises at the corner of King and George streets, formerly occupied by Mr. B. Lastar and is now putting them into shape. He arrived in the city yesterday and today purchased the necessary fixtures from local dealers .The new restaurant will be opened in a few days and the proprietor states that it will be high class in every respect.

Rev. Canon Cody Leaves for West

Rev. Canon Cody, D. D., LL. D., rector of St. Paul's, Toronto, has left town for a visit to Winnipeg and the West. On Sunday next he preaches three times in the prairie capital. In the morning he occupies the pulpit of St. Luke's church, of which Rev. T. W. Savary, formerly of Wycliffe, is rector; in the afternoon he addresses the men's meeting at St. Matthew's church, where another old Wycliffe boy, the Rev. R. B. McElheran, is also rector, and in the evening he is due at the fashionable and high Anglican Church of All Saints', Broadway, at which the Rev. F. C. C. Heathcote, formerly of St. Clement's, Toronto, is now rector. Canon Cody, in the course of his busy day's work, will certainly find himself among friends. — Mail and Empire.

Quaker Oats Men Visit the City

Mr. Robert Stuart and Mr. J. H. Douglas Here on Business

Mr. Robert Stuart, treasurer, and Mr. Jas. H. Douglas, vice-president, of the Quaker Oats Company, Chicago, are in the city on business. Messrs. Stuart and Douglas have been to New York and Montreal, and are returning home. They had a conference this afternoon with Mr. W. H. Denham, manager of the Quaker Oats Company, and Mr. J. H. Larmonth, manager of the Peterborough Radial Railway Company, and the Peterborough Light & Power Co.

Scotch Clerks for the Dominion Bank

"Everyone is talking of Canada. The Dominion is in the limelight in the Home Land."

Such was the observation of Mr. Clarence A. Bogart, general manager of the Dominion Bank, who returned this morning from his trip to Scotland, says the Toronto News.

While gone, Mr. Bogart engaged a considerable number of Scottish youths for service as bank clerks, owing to the extensive development of his bank, and the call for an increased staff. These Scottish bank clerks, he states, will come over immediately to positions now awaiting them.

The banks generally, have great faith in the Scotchman.

New Appointments At St. Andrew's

Mrs. McClelland is Organist and Mr. Freeland, Bass Soloist

Mrs. Charles S. McClelland has been appointed organist of St. Andrew's church, and Mr. Fred. C. Freeland, bass soloist. The appointments were suggested by the Session on Wednesday night and ratified by the Board of Managers at a meeting held last night. Mrs. McClelland and Mr. Freeland are well qualified for their respective positions, and they will add considerable strength to the excellent choir of St. Andrew's church.

THE CITY AND VICINITY

EVENTS TO-NIGHT

All Saint's Church — Mission Band entertainment.

St. Paul's Church—Rev. J. W. Pedley, Toronto, lectures on 'Mrs. Wiggs of the Cabbage Patch.'

Charlotte Street Roller Rink. — Gentlemen's skating contest and roller hockey match.

NO POLICE COURT.

There was nothing doing in police court this morning. All was peace and quietness at the mill of justice.

CONFIRMATION.

His Lordship, the Bishop of Toronto, will hold confirmation in St. Thomas' Church, Millbrook, on Sunday evening, May 19th.

GAS DIVIDEND.

The Port Hope Gas Company has declared a dividend of 4 1-2 per cent. Last year the dividend was 3 per cent.

ROLLER HOCKEY.

Ottawa already has about a hundred roller hockey players. The game is becoming popular. —Ottawa Citizen.

TAKE IT TO "MY VALET."

If you have a spring suit you would like to have cleaned, ready to put on when the weather permits "My Valet" will clean it properly, press it and send it home. Both phones. Wesley Bros., 204 Charlotte-st. dtf

FELLOWSHIP CLUB.

The postponed monthly meeting of the Strangers' Fellowship Club will be held in the Y.M.C.A. on Saturday evening at 6 o'clock. All members are asked to be present.

HOTEL NOT SOLD.

Mr. Rose informs us that the sale of his hotel business is off, the Peterborough purchaser, not being able to finance the deal. Needless to say, everyone here will be pleased.—Millbrook Reporter.

COOKED MEATS

SAVE KITCHEN BOTHER

—they're wholesome and economical. During house-cleaning time Cooked Meats fill the bill without a cross word. Try Kennedy's Roast Beef, Cooked Hams, Potted Veal, Jellied Hock, etc., nicely sliced and ready for the table.

Kennedy's Beef, of course, recommends itself; we cut only the best home-dressed cattle.

VILLAGE WANTS LIGHT.

A public meeting of the ratepayers of the village is called for Monday night next in the Council Chamber, Millbrook, to discuss the electric lighting of the village.

ANOTHER BRANCH.

The Bank of Toronto, has opened a sub-branch at Campbellcroft, which will be open for business on two days in each week. The days will be Tuesdays and Thursdays.

COLD MONTH.

The month of April, just passed, has been one of the coldest on record. It was 3.4 degrees below the average, while March was 5.1 above the average.

DENIES REPORT.

Dr. Coughlin, of Hastings, in a letter to the Star says that the statement made by the Havelock Standard, a few weeks ago, that he had sold out his medical practice, is absolutely without foundation.

MANY WATER SERVICES.

Supt. Henderson, of the waterworks, reports that more applications have been received for water connections this year than ever. The services are put in as rapidly as possible, but the men cannot keep up with the work.

F.B.C.A. DRILL.

All members of the 24th F.B.C.A. are requested to turn out on Monday night next at the East City drill sheds for recruiting and inspection of clothing. By order, T W H. Young, O. C. 24th F.B.C.A.

SERGT. FEE OUT.

The many friends of Sergt. Fee, of 24th F.B.C.A. will be pleased to here that he is able to be out after his recent illness. He will be instructor for the 24th Field Battery again this year.

THOSE AWFUL GIRLS.

"Don't fail to see this week's bill at Scott's Colleseum, 432 George street Smithson Academy for young ladies, and the man with nine lives, two "laughing hits," in moving pictures. Admission 5 cents. Matinees 2 to 5. Evening 7 to 10. Keep your eye on the date for the Thaw trial.

ST. PAUL'S CHURCH.

Do not forget the lecture in St. Paul's school room tonight by Rev. J. W. Pedley, of Toronto, on "Mrs. Wiggs of the Cabbage Patch." In addition to this favorite lecture, which is in itself a great drawing card, there will be a first class musical programme. Everyone is invited to be present.

REPORT IS DENIED.

Street Commissioner Evans called at the Review office to-day, and stated that there was no truth in the item in yesterday's paper that the teamsters at the new transformer building of the C.G.E. were receiving $3.75 per day, or that there had been a strike. He says that they are not getting more than $3.50.

KNIGHTS OF COLUMBUS.

The will be a big gathering of the Knights of Columbus in Peterborough on May 24th. Visitors are expected from Lindsay, Belleville and other Councils. Several persons will be made members of the Order, and a most interesting session is being looked forward to.

DOG'S LEG BROKEN.

Yesterday morning a small coach dog was run over by a wheel near the post office. Its front leg was broken and it was unable to navigate very far. It managed to make its way to the rear of Best's stove store, where it lay all day and evening. If the owner wants the animal he could get it there or ascertain its whereabouts.

NO LICENSE GRANTED.

The License Commissioners of East Peterborough refused to grant a license to Mr. Jerry Heffernan of Westwood, at their meeting here last week. The Government has declared itself as being against issuing any liquor licenses in municipalities in which local option by-laws have been quashed by technicalities.—Havelock Standard.

PASSED EXAMS.

The results of the examinations of the School of Practical Science, Toronto, contains the names of several Peterborough boys, among them being those of M. G. Cameron and R. H. Hall, who did creditably in first year work.

S. A. OUTING.

The Salvation Army will hold their annual excursion down the river to Idyl Wyld on Victoria Day. The steamer, Water Lily, has been chartered for the trip and a big programme of races and other events is being prepared to take place at the grounds. The band will be on hand and will render music. A big time is in store for all who attend.

Worthy Members Were Honored

Mark Street Ladies Gave Gold Rings to Mrs. Lewis and Mrs. Calvert

The Ladies' Aid Society of Mark street Methodist church held a meeting yesterday afternoon at the residence of Mrs. Calvert, Munro ave. Mrs. Calveert proved to be a delightful hostess.

A pleasing programme was carried out. Mrs. McCarthy contributed a well played instrumental selection, Miss Greta LeBar gave a recitation in fine style and Miss Marion Cheverill favored with a song. Mrs Calvert and Mrs. Speer contributed a duett. Mrs. J. Fowler read the following verses, and beautiful rings were presented to Mrs. (Rev) J. G Lewis and Mrs. Calvert, the presentation of the rings being made by Mrs. Chas. Chrowe and Mrs. Hooper;

The Ladies' Aid of Mark street have a meeting here today,
To discuss important questions, and devise the wisest way
To solve the weighty matters which they soon will undertake,
If they accomplish what they think they will, they'll need to keep awake.

But our motto it is "Onward" and victory is our cry
And that will surely follow if we do our best we try;
But trials are before us, and we're going to lose two sisters.
And very soon I think we shall not have any Misters.

For our pastor will be leaving and a faithful member he,
Always interested in progress and enjoyed his cup of tea
Like the rest of our good members, but I'll not say any more,
They seem to look so happy, and I might be shown the door.

The next item on our programme is a speech from our dear hostess.
Mrs. Calvert will come forward and I'm sure that she can post us
On the way of entertaining for I'm certain that we all
Done justice to refreshments for our appetites are not small.

Mrs. Calvert please come forward, applaud her, make her come.
There that will do, don't look so scared, I hope you're not struck dumb.
We thank you for your kindnesses at this and other times,
If poetic mood would strike me, I'd applaud your worth in rhymes.

Mrs. Lewis also will come forth we'll have a word with you.
You were smiling at Mrs. Calvert and that will never do;
Just stand up here and listen now to what I've got to say
For this speech is to both you ladies, so you mustn't go away.

When we think of your departure it gives us heartfelt pain.
But we might as well be happy, if you cannot here remain.
We would ask you to remember, where e'er your lot is cast.
The Ladies' Aid of Mark street and the good times that are past.

As a token of best wishes and to show our love sincere,
For the kindnesses you've shown us while you've been with us here
We would ask you to accept this ring as a token of esteem
'Tis tinge with kindly feelings though it may quite small seem.

So while we've mingled feelings of pleasure and of pain,
We shall have to take it kindly, for our loss is other's gain.
Now Mrs. Speer, you stop your crying, we'll have none of that work here
The rest of you all quit it too, it makes you look too queer.

Now hostess, dear, we'll excuse that speech, and also Mrs. Lewis'
We know you're sorry to leave us, and have kindly wishes to us,
We hope the church will prosper well, wherever you may go,
And of your health and happiness we'll all be glad to know.

Now ladies come together and get in one big ring,
And all join hands together and Auld Lang Syne we'll sing
For I believe that old tried friends should never be forgot,
Then sing it heartily and I think that we'll Forget-Them-Not.

PERSONAL

Mr. J. D. McNiven, of Ottawa, is in the city.

Mr. Sam Ellis of Fenelon Falls, is in the city.

Mr. E. W. Cox was in Lakefield yesterday

Mr J. H. McClellan is at Young's Point today.

Mrs. J. H. Larmonth will not receive this week.

Mr. J. Irwin, G.T.R. trainmaster, of Lindsay, is in the city.

Mrs (Dr.) Neal is spending a few days at the Springville Manse.

Mr C. S. Wallis, who has been spending seeveral weeks in the city has returned to Edmonton.

Miss Tully of Peterborough, was visiting friends in town this week.—Millbrook Reporter.

Mr. J. G. Fitzgerald, of Ottawa, auditor for the Singer Sewing Machine Co., is in the city.

Miss Lena Waters left yesterday for her home at Trent Bridge to visit for a short time.

Mr. Geo. Bunting of Toronto, travelling freight agent for the Allan Line, is in the city on business.

Mr. Geo. B. Wyllie of Buffalo, travelling passenger agent for the Illinois Central Railway, was in the city today.

Mr A. Reid, of Peterborough, has secured a position in T. Z. Webster's baking establishment, Lakefield.

Messrs. M. H. Pierce and D. J. McDonnell, of Peterborough, paid our town a business visit today.—Lindsay Post.

Mr. A. A. Hollingshead, manager of the Bank of Ottawa, has been called to Newmarket owing to the serious illness of his mother.

H. Corby, ex-M.P., of Belleville, will, with his family, leave for England shortly. He will take with him his own auto and chauffeur.

Messrs. H. Argue and Dr. Snelgrove, attended the Life Insurance Underwriters' banquet, in Peterborough, on Friday last. — Millbrook Reporter.

Rev. R. E. Knowles is coming back to Galt from North Carolina. The excessive heat, down there, it is said, is too much for his delicate health.

Miss Eva Deane, graduate of the Nurses' Training School of the General Hospital, who has been at Grand Rapids for some time, has been visiting her sister, Mrs. Graham, Earl street. She left today for her home in Peterborough before going back to Grand Rapids.—Kingston News.

The Havelock Standard says:—The Peterborough papers on Wednesday last give great praise to the pupils of Mr. Alfred and Miss Helen Davis, who were heard at a recital in the Y.M.C.A. hall on Tuesday night, and among whom we note Miss Lottie Chiles, formerly of town. Miss Chiles gave two numbers, both piano solos, a "Polish Dance" from Scharwenka, and "Ricordati" from Gottschalk.

Mr. Douglas Johnston, of Peterborough, was home for a short visit this week. Campbellford Herald.

Mr J. L. Hoover left here on Monday morning for Peterborough, and returned in the afternoon, having secured a good position in that city. Mr. Hoover left again Monday night for his new home, whither the family will soon follow him. —Campbellford Herald.

FROST IN SASKATCHEWAN

Maple Creek, Sask., May 9.—There was a big snow storm last night, about three inches of a fall. It was very cold this morning and to-night, freezing hard.

Returns From Inspecting Tour

Mr. Geo. H. Howson, inspector of weights and measures, has just returned from a 75 mile tour of the county. He has been inspecting the weights and measures of country store keepers. He found the scales in these establishments generally correct. He also inspected cheese factory scales.

Fishery Inspector Watt Had Hot Chase the Other Night

Captured a Punt and a New Net Six Feet Deep and Nearly One Hundred Feet Long—Two Men Forced to Take to the Fields—Inspector is Doing Good Work Watching the River.

Fishery Inspector Watt had an exciting chase the other evening down around the locks. He was out on his usual rounds looking for infractions of the fishery laws, and while at the locks he ran across some of "the boys." He made a bluff at going home, and when some distance away, he turned, cut through the cemetery and into his canoe. He paddled slowly along the shore until he reached the bridge, and in the shadow attempted to cross the river. He had only got about half way when he saw two fellows in a punt. They saw him about the same time, and both boats were started for a lively race. Mr. Watt paddled hard and overtook the fugitives, but before he could prevent it, his canoe struck the punt broadside. This gave the fishermen an advantage, as the inspector was thrown back several strokes. The punt was shot around the pier, and Mr. Watt, hoping to head them off, went around the other way. The punt, however, was headed for the shore where a big bramble tree was growing. The men reached land all right and started off over the fields, but before they could free themselves of the tree, the brambles left several scars.

This ended the chase for a time. The inspector figured that the two men had a net and they would come back. He paddled off into the darkness and around the creeks for a couple of hours. But he had scared the pair so badly that they did not return. Mr. Watt then hunted for the net and found it. It was a good one, nearly new, six feet deep, and from 75 to 100 feet long. He took possession of it and the punt. The men, he suspects, although he could not distinguish them in the dark, and as he had to paddle hard all the time he could not get his lantern out.

This is by no means the first outfit the inspector has captured this year. He has been keeping a keen look-out for the law breakers, and if he catches one of them, punishment will be as severe as the law provides. He is offering a reward of $10 to any person who will furnish him with information which will convict any party fishing illegally, buying fish or selling fish.

The Fish and Game Protective Association and the Angling Clubs are very inactive this year. They give the inspector no assistance, whatever, and often he feels so discouraged in his work, that he could give it up as a bad job. Surely there are a few citizens sufficiently interested in the fish to assist the inspector in his work. If the fish are captured now, the sport of the summer will be ruined, and the fishermen will be the losers.

C. G. E. Company Performs Greatest Electrical Feat

In Bringing the Installation Plans at Niagara to a Successful Issue—Financial News of London, Eng., Pays Glowing Tribute to the Achievement of Local Industry.

In a leading article in a recent number of The Financial News, of London, England, the project of supplying electrical energy from Victoria Falls on the Zambesi River, to the whole of Rhodesia and to the Rand is said to have as its prototype the power development at Niagara. Speaking of the feat before the engineers in South Africa, this journal says: "They will undoubtedly derive much assistance in studying the experiments carried out, and rerecently crowned with success in harnessing the Niagara Falls. The arrival of electrical energy in Toronto from the Niagara Falls, marks a new era in the industrial history of the Province of Ontario, and Canadians are justly proud of the fact that this vast undertaking has been entirely carried out by Canadian enterprise. The electrical plant at the powerhouses of the Electrical Development Company, which distributes power to Toronto, has been constructed by the Canadian General Electric Company, and the Canada Foundry Company. It is claimed that in bringing its installation plans to a successful issue the Canadian General Electric Company, has performed a feat unequalled in the history of electrical undertakings in Canada, and that it has executed the biggest contract in electro-hydraulic machinery that has ever been given out. In the work of converting the tremendous force of water into electric current, the company has had to contend with unprecedented conditions, which have necessitated not only the manufacture of plant such as had not been used before, but the invention of new types of machinery

Costly Masonic Temple for Regina

Corner Stone of Building to Cost $50,000 Laid—Dr. Shaw Was Present

A Regina despatch says:—With full Masonic honors and ceremonies the corner-stone of the new Masonic temple was laid. A large number of the leading members of the grand lodge of Saskatchewan were present from all parts of the province, over one hundred and fifty Masons taking part in the proceedings. The actual ceremony of laying the corner-stone was performed by Grand Master H. P. Campkin, of Indian Head. Grand Secretary Dr. J. M. Shaw, of Regina, formerly of Keene, Ont., was also present.

The new building, which is to cost between $40,000 and $50,000, is being erected on Eleventh avenue, in the business section of the city, and will be one of the most notable structures included in this year's building programme.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The valuable painting by Reynolds and Gainsborough, stolen from Chas. Wertheimer, of London, with the exception of two oil paintings and two miniatures, have been unearthed by the police. They were in the possession of a Swiss waiter living near Clapham.

HAVELOCK NEWS THAT INTERESTS

Havelock and Norwood Baseball Teams to Meet—Personal and Other Notes

Special to the Review.

Havelock, May 9th. — The annual session of the Teachers' Association of the County of Peterborough, will be held in Norwood on May 22nd and 23rd. On Thursday, May 23rd, Miss Kelly, teacher in the primary department of the Havelock School, will give a lesson in phonics. On the same day, Mr. George Priddle, principal of the local school, will give an address on "Uniform Promotions."

The Belmont and Metheun Council held a meeting in the town hall, Havelock, on 27th ult. Reeve Johnston, and Councillors Russell, Anderson, Wilde and McConnell being present.

Although Havelock has not yet formed a baseball club this year, they have consented to send a team to Norwood to play that town on the occasion of the big celebration at that place on the 24th of May. Havelock put it over Norwood, on the same occasion last year, and are confident that they can do it again.

Messrs. Andrew and Arthur Mathison have placed a movable saw mill in a vacant field at the north-west of the town, and have started cutting up several hundred logs, which they drew to that spot during the winter.

Mr. A. Henshall received a car of pea coal this week, and has men engaged unloading it.

Thursday, May 8th, being Ascension day, services were held in St. John's church in the morning and evening.

Mrs. B. Middleton has returned from visiting friends at Sharbot Lake.

Mr John Carey, of Toronto, formerly of town, has returned to his home, after a week's visit with Mr. Wm. Dorricott.

Messrs. Chas. Armstrong and J. W. Bryans, spent Wednesday in Dummer.

Mrs. McDonald of Peterborough, is the guest of Mrs. Wm. Dineen.

The young people of the Methodist church will put on a play in the town hall on May 22nd, entitled "The last loaf."

Miss Maye McNicholl has returned from visiting friends in Madoc.

Misses McWilliams, O'Brien and Holcombe spent Wednesday with friends in Marmora.

The Court of Revision, for the village of Havelock, will be held on Monday, June 3rd.

The meeting of the town council was postponed from the 6th to the 13th, for want of a quorum.

Between the third and fourth acts of the "King of Tramps," in the opera house, Friday, a flash-light photo of the audience will be taken.

Mr. B. Williams spent Sunday last with friends in Ivanhoe.

Miss Myrtle and Mr. H. Buchanan, are visiting friends in London and Sarnia.

Mr. A. Murray of Carleton Place, has accepted a position as clerk in A. E. Barrett's store.

Mr. and Mrs. M. Clarke have returned form a holiday trip to Toronto, London and Niagara Falls.

Mr. and Mrs. J. Camoney have returned from a visit with friends in Stirling.

Mrs. G. Barton and son, of Norwood are guests of Mr. John A. Sexsmith of Preneveau.

Mr. F. Hobbs has moved onto the farm adjoining and south of Mr. S. Wilson.

The Court of Revision on the assessment roll of Belmont and Methuen will be held on Saturday, May 25th, in the Havelock town hall.

FOR OVER 60 YEARS

An old and well tried remedy. — Mrs Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

Late Season is Hard on Farmers

Letter in Canadian Dairyman From East Peterboro' Man

Mr. F. Birdsall, writing to the Canadian Dairyman says:—

In East Peterborough, at least in the front townships, I think that the supply of feed will carry the stock through until they can go out to pasture, although it will be a close shave. As I am writing it is raining and the thermometer is going down, so that it is probable that it may develop into a snow storm.

Clover has suffered severely. I believe that at least two-thirds of it has been killed, and the cold weather is not helping what remains. Fall wheat has not suffered as much as I thought a few days ago, but it will be very patchy. I hardly think that much fall wheat will be ploughed up, as a great many of our farmers seed down with fall wheat, and are loath to plough it up if there is any chance of a catch of grass seed. The land has been working nicely up to the present. Last year we had our young cattle out on pasture before the end of April, this year under the best conditions it will be a few days before they can be put in the fields. I think that beef cattle will be scarce as most people are husbanding their feed owing to the cold weather, as they do not know when it will end. East Peterborough is a dairying county and the farmers raise a great many hogs of the best type. Oats are grown to a considerable extent, and a considerable acreage of fancy peas. Quite a quantity of fodder corn is grown for supplementary green feed, and a few farmers have silos.

Active Steps Will be Taken to Erect a New Church Home

Building Committee Appointed by Park Street Baptists—Gratifying Reports Presented at Annual Congregational Meeting Last Night.

The annual meeting of the Park street Baptist church was held last evening in the church. There was a large attendance of the members. The pastor, Rev. A. H. Brace, was in the chair.

Reports were read and showed everything to be in a very satisfactory condition. It was decided to take immediate steps in the erection of the new church. The meeting was opened with singing a hymn and prayer, after which the clerk, Mr. Geo. Sloan, read the minutes of the quarterly meetings of the year, which were adopted.

Increase of membership by baptism 15, by letter 2 and by experience 2, making a total of 19. The dismissal by letter was 3, leaving the net increase 16.

FINANCES

The next report was that of the treasurer, Mr. W. C. Barrie. The total receipts were $1165.58 and the total expenditures $1164.13, leaving a balance of $1.45 on hand.

REV. A. H. BRACE
Pastor of Park Street Church

The report of the building fund treasurer was read by Mr. William Kemp. The receipts were $680.51, and expenditures were $70.16, leaving a balance in the treasury of $610.35.

The report of the Sunday School was read by Mr. Chas. Barrie. The number on roll is 125. The average attendance was 91. The average attendance of teachers and officers was 16.

B.Y.P.U. REPORT.

The B.Y.P.U. report was read by Miss E. Gillespie. 40 meetings had been held during the year, with an average attendance of 25. During the year 17 new members have been added to the roll. The meetings were most interesting and profitable and were all conducted by the young people. On April 22nd, Rev. J. R. Webb addressed the Society. Altogether a very successful year has been just closed.

LADIES' AID.

The report of the Ladies' Aid Society was read by Mrs. Wright. The society has decided to change its year from October to April 30th. Thirteen meetings have been held with an average attendance of 9. There are 17 members on roll. On December 14th a sale was held at Mrs. W. Pilling's and was a great success. The receipts for the year were $53.37 and expenditures were $10.87, leaving a balance of $42.40.

WOMAN'S MISSION CIRCLE

Mrs. Jos. Johnson presented the report of the Woman's Mission Circle. There are twenty members on roll with an average attendance of nine. Deep interest is taken in the work of both home and foreign missions. The circle donated $5.29 to missions.

ELECTION OF OFFICERS

The election of officers resulted as follows;

Deacons, Messrs A. Inkpen, T. G. Gillespie, W. Kemp, F. Hunt, A. H. Haddow and R. Buntin.

Treasurer Building Committee, Mr. Wm. Kemp.

Clerk, Mr. Geo. Sloan.

Treasurer, Mr. W. C. Barrie.

Organist, Mrs. R. Wright.

The finance committee of last year was reappointed.

This is the fourth year of Rev. A. H. Brace's pastorate. During that time 97 persons have been baptized and over 100 persons have been received into the church.

Considerable discussion took place on the proposed new church and plans to raise money for its erection.

It was unanimously decided to take immediate steps towards the erection of the new church. A building committee was appointed as follows; Messrs. Gillespie, convener; Sloan, Jewett, Barrie, Hayward, Johnson, Goheen, Kempt, Inkpen, Buntin, Aikens, Coons, Hicks, Tranter and the pastor.

DELEGATES APPOINTED.

Rev. A. H. Brace and Deacons Gillespie and Kempt and Mrs Mowry and Mrs. Johnson, were appointed delegates to the Baptist convention to be held at Port Hope in June.

It was also decided last night to hold prayer meetings on Sunday mornings at 10.30; also occasional after meetings on Sunday evening.

The annual roll call and social of the church will be held on the evening of Thursday, May 30.

The meeting was closed with the doxology and the benediction.

Rebellion in India is the Latest Alarm Being Sprung

Very Ominous News From Lahore in the Punjab.

Bands of Rustics Are Arming—Revolt Seems Likely — Troops Being Brought In and Defences Strengthened—Leader of Seditious Element Arrested Yesterday—Alleged Unjust Race Prejudice the Cause.

Lahore, British India, May 10.—Everything seems to point to the imminence of a native outbreak here, and the authorities are talking all the steps possible to suppress it by force of arms. The political unrest is hourly assuming graver proportions. Bands of stalwart rustics armed with bludgeons, who have been enlisted by the leaders of the sedition, are crowding into the native city, and troops of all arms and bodies of police, mounted and dismounted, are being drafted into the City of Lahore from all parts of the province. The fortifications of Lahore have been subject to a special inspection, and the artillerymen have been reinforced.

The Lieutenant-Governor of the Punjab, Sir Dinzel Ibbetson, is taking active measures to circumvent any possible outbreak. He has issued a proclamation prohibiting meetings of every kind and solemnly warning the public not to attend any assemblages under pain of severe punishment. In addition the Lieutenant-Governor has struck at the root of the revolutionary movement by causing the arrest yesterday afternoon of a prominent lawyer, Lajpatrai, who practiced in the chief court of the Punjab, and who was the leader, financier and organizer of most of the seditious demonstrations and revolutionary riots in the Punjab. Immediately after being taken into custody Lajpatrai was deported to another province. His arrest caused a profound sensation among the Hindus, who hitherto had believed that the authorities would not dare to take such drastic action. Another revolutionary leader, for whose arrest a warrant has been issued, received an intimation of the action taken by the authorities, escaped from Lahore and is now hiding.

Riots In Bengal.

Calcutta, May 10.—Serious rioting has broken out in East Bengal. A band of two thousand Davits looted the bazaar at Dewanganj, burned down some adjacent villages, and set fire to the town of Tarakanda, ten miles from Nasirabad, capital of Mymunsingh district.

Many of the rioters were arrested.

Shipping of Green Cheese is Condemned by Mr J. A. Ruddick

Dairy and Cold Storage Commissioner Says it is the Worst Thing Makers Can do—It is a Suicidal Policy—Report That Cheese Men Are Shipping Green Cheese This Year.

To the Editor of the Review.

Sir.—I am informed by some of the dairy instructors in Ontario that many of the cheese factories are shipping their cheese in a very green condition. In fact, one instructor writes that he has seen Monday's cheese boxed and shipped on Tuesday. It is difficult to understand how intelligent men can be induced to act so foolishly in the face of the positive warnings which they have received from time to time during the past year, as to the injurious effect of such a practice on the cheese trade of Canada. If we continue to ship green cheese to Great Britain at a time of the year when they are most likely to go into direct consumption, there can only be one result, and that will be to check the consumption of cheese enormously, with a consequent decrease in the demand which is bound to have the effect of reducing the price before the season is over. It would seem to require scarcely a second thought to convince any person that it is a most suicidal policy to allow the cheesee to be shipped when they are not in a condition fit for food, and when their presence on the market will have the effect of stopping the consumption of cheese, and encouraging the consumers to look for some other article of food. It is useless to throw all the blame on the buyers, and to let it go at that. The buyers know the danger of this sort of thing well enough, and the fact that they are offering to buy the cheese is proof that they will not act in the interests of the producer when it serves their purpose to do differently. The factory manager or salesman cannot escape his responsibility for the protection of his own business, or the business of his patrons. It is quite evident that the only way to deal with this question is for the salesman to refuse to sell the cheese until they are fit for market. I appreciate the difficulty of individual action in a matter of this kind, owing to the strenuous competition among factories, but there is nothing to prevent the salesmen on the different cheese boards from agreeing as a body not to allow cheese to leave their factory until they have attained a reasonable age, say at least ten days or two weeks. Some of the cheese boards have already done so and I venture to say that the factories represented will reap a handsome reward before the season is over, because the district which resolutely refuses to allow the cheese to go forward until they are in a proper condition will add very materially to its reputation on that account. I know of no surer way of forcing the market down than by selling green cheese. Those who are following the sales on the cheese boards closely, will have noticed that certain districts are receiving a handsome premium over others simply because they have sufficient foresight and good business judgment to recognize that it pays them to protect the reputation of their cheese in every possible way. When the patrons of cheese factories come to fully realize how vitally they are interested in the actual condition of the cheese as it reaches the consumers in Great Britain they will make it warm for any factory manager or salesman, who allows absolutely green cheese to be shipped from the factory. What is the use of the Governments spending money for the purpose of instruction if cheese are to be shipped before anyone can determine anything about their quality? The instructors might just as well remain at home, under such circumstances. Any of the improvements which have been made in recent years and which have done so much to help the cheese industry, will be almost wholly nullified if this sort of thing goes on.

With the knowledge that I have as to the effect of this practice on the British market, I conceive it to be my duty to protest as vigorously as possible against a continuance of this practice and point out the inevitable results if it is continued.

J. A. RUDDICK.
Dairy and Cold Storage Commissioner.
Ottawa, May 7, 1907.

The Daily Review

FRIDAY, MAY 10, 1907.

A WORTHY CAUSE

The efforts of a number of ladies of Peterborough to assist in the maintenance and support of the Muskoka Free Hospital for Consumptives, are worthy of commendation.

The institution is sadly in need of funds. It ministers to all classes and has never refused admission to anyone, no matter how poor. The patients are well cared for, but the hospital is overcrowded, and not one-half of those desiring entrance, can be accommodated at present.

An extension is now being erected at an outlay of $15,000 and it is believed that the necessary funds will come from the public. The necessity of fighting the dread white plague is being forced upon the attention of all large communities and the results have demonstrated that sanitarium treatment is the most beneficial and effective.

The work has enlisted the sympathy and co-operation of many leading Canadians, and Peterborough citizens now have an excellent opportunity to assist in a good cause.

All old rubbers and rubber goods are asked for. These should be gathered up by Tuesday and Wednesday of next week and sent to the store formerly occupied by Richard Hall & Son, on Simcoe street, where a committee of ladies will receive the parcels. Several persons have written letters to the press warmly commending and endorsing the plan of the ladies and the sale of all the discarded rubber goods will, it is said, result in the realization of a substantial sum for the Muskoka Sanitarium. It is hoped that as a beginning has been made the movement will grow, and that a branch of the National Sanitarium Association may be organized here, in the near future, for the purpose of arousing an intelligent and practical interest in the work. The city council recently granted $100 to the Sanitarium and thus showed its endorsation and readiness in assisting to overcome this fell destroyer of mankind—tuberculosis.

CORNER STONE LAYING

The suggestion is offered by a citizen, in connection with the new public buildings now being erected in Peterborough, that there should be formal laying of corner stones. This is always an interesting ceremony with respect to the construction of any public building and should not be overlooked in reference to the armouries the Collegiate Institute and the Normal school. Such a function is always more or less an historical event in the life of any community, and as we have waited so long for these structures to get under way, their inception should be signalized by some demonstration. A corner stone laying is, as already stated, an interesting occasion and arouses public spirit and pride.

The Review is assured by the contractors of the new Collegiate Institute that the foundation will be ready and the ceremony could take place two weeks from to-day—Victoria Day—which would be a most auspicious occasion. The armouries and the new Normal school will not be ready to have corner stones laid for some time yet, but the collegiate institute structure will be sufficiently advanced. It is especially appropriate that such an event should be observed on Victoria Day—a day rich in precious memories. The proceedings would draw large numbers of people and form a pleasing and impressive feature in the attractions offered the public in order to induce our citizens to spend the day at home. It is not necessary to go outside the city limits to ask some one to officiate at the function. It has been suggested that the honor of laying the corner stone of the new collegiate institute should be accorded Mr. Jas. Stevenson, ex-M.P. Mr. Stevenson is one of the oldest and most highly respected citizens of Peterborough. He has served the public in many capacities and was for 55 years a member of the Board of Education—a record we believe that no other trustee in the province enjoys. He possesses the esteem vince enjoys. He possesses the esteem and confidence of all classes of the community and it would be a fitting and graceful tribute to him and his long public service to ask him to formally lay the corner stone of the new collegiate institute on Victoria Day. The Review heartily endorses the suggestion made by several citizens and trusts that it will meet with general approval. The local members of Parliament, the city clergy, the mayor and aldermen and the members of the Public and Separate Schools Boards should be asked to join in the ceremony and to assist in making the occasion a most memorable and impressive one.

PEN POINTS

How do you like this winter weather? [illegible]

If this kind of temperature keeps up a move to change all summer resorts into winter ones would prove popular.

Ellen Terry, Hon. Geo. W. Ross and other notables, have made this cold dreary season the Merry Month of May all right.

Gather up your old rubbers and make them do service in a worthy cause. The sale of them will help the Muskoka Free Hospital for Consumptives, financially.

Ottawa Citizen: By building workingmen's houses for its army of employees, the International Harvester Co., Hamilton, Ont., hopes to solve the rent problem, improve the condition of the men and give permanency to the force engaged in the manufacture of harvesters. It is an enlightened policy, even if it should not be acceptable to landlords, who would like to exact high or higher rentals.

Ald. Wilson has brought up the matter in the Board of Works of the city furnishing new numbers for the houses—numbers that will be presentable, not of odd sizes and varied assortment, as is now the case. In view of the early inauguration of street mail delivery in Peterborough, this is a most important question and should be given serious attention by the council.

When Mr. T. W. Crothers, of St. Thomas, school book commissioner, sent back that cheque of $2,000 to the Ontario Government, declining to accept any remuneration for public services rendered, he demonstrated that there are still some men who are prepared to give a large amount of attention, time and talent to the state without being animated by a spirit of selfishness or personal gain. All honor to Mr. Crothers. Would that there were more like him.

The Torrens system of land transfer, by which the state guarantees the validity of all titles issued, is in operation in Manitoba, and to all appearances, is giving satisfaction. It is also in operation to a limited extent in Ontario, and it is strange its adoption has not been more general. In four of the states of the union, Massachusetts, Illinois, California and Minnesota, the Torrens system is in operation, and a bill for its adoption is now before the Legislature of New York State. There are doubtless difficulties in making the change in old settled parts, but if the states named above can operate it satisfactorily there is seemingly no reason why a province like Ontario should not give it a more general trial.

The Acton Free Press, a rather rabid Grit weekly publication that freely imbibes of the political knowledge from the teaching of the bigger organs, makes the rather interesting statement that the session of the Ontario Legislature that has just closed, was in length of session and amount of business transacted, a normal one. The Free Press is apparently oblivious to the fact that there was placed on the statute books during the past session, more legislation than was ever enacted during the many years that the late Liberal Government held power. Then, too, most of the legislation placed on the books was of a vitally important nature, and tends to the betterment of conditions in the province. Can the Free Press point out one instance where the late Ross Government passed legislation that was so protectionary to the people's interests as were the power or mining laws recently enacted by the Whitney regime? The Ross Government was the guardians of the corporations' rights, while the Whitney Government is unswerving in its fidelity to the public interests. — Woodstock Express.

The "merrie month of May" is dear to the fisherman, for it marks the opening of the season when he can engage in his favorite recreation. In accord with its policy of catering to the requirements of sportsmen, the May issue of the Rod and Gun and Motor Sports in Canada, published by W. J. Taylor, at Woodstock, Ont., which appears in a fine, appropriate cover, contains stories dealing with fishing in five of the Provinces of Canada—New Brunswick, Nova Scotia, Quebec, Ontario and British Columbia. In addition there are papers of general interest to fishermen, chief amongst them being one on "A Few Hints on Flies for Lakes and Streams," by Walter Greaves—hints which the amateur fisherman will welcome, and from which even the experienced may learn. Fishing, however, is not all, for the lover of outdoor life in any of its forms can always find something to interest and delight them in this magazine. The controversy about dogs in deer hunting is maintained and this month the dog advocates are given a chance of presenting their case. A capital descriptive account of the Automobile, Motor Boat and Sportsmen's Show at Montreal is given, and hunting, mountaineering, boating, trap shooting and kindred subjects are all covered in a manner which testifies to the increasing interest in these matters throughout Canada.

ECZEMA AGAIN OVERCOME

ZAM-BUK CURES A CASE WHICH FOR TWO YEARS HAD DEFIED EVERY REMEDY TRIED

A Farmer's Grateful Testimony

No case of eczema, skin disease, or ulceration, should be despaired of until Zam-Buk has been applied. The case of Mrs. Francis Reenoit, of St Annes, Man., is a powerful illustration of Zam-Buk's efficacy. He says: "I suffered from eczema for two years and tried a great number of remedies. None of them, however, seemed to do me any good. The ailment was mostly in my legs and both these were actually raw from the knees down. A small sample box of Zam-Buk was given me and even so small a quantity as that did me a little good. I then obtained a proper supply, and by the time I had used a few boxes I was completely cured."

Zam-Buk differs from ordinary salves and embrocations in containing no animal oil or fat. It is compounded from rich, healing, herbal essences, and is an ideal, natural combination of power and purity. It is highly antiseptic, and instantly kills bacilli and disease germs, which settling on to the wounds and skin diseases, set up festering, blood poison, etc. For cuts, burns, bruises, ulcers, abscesses, pimples, boils, skin eruptions scalp sores, spreading sores, children's skin troubles, chafing sores, etc., Zam-Buk is unequalled. It also cures piles. All druggists and stores at 50c. a box, or from Zam-Buk Co., Toronto, for price. 6 boxes for $2.50.

Hastings Will Buy an Engine

Village Council Discusses Fire Protection

At the meeting of the Hastings council on Friday evening last, Mr. R B Cameron, sales agent for the Waterous Company of Brantford, was heard regarding fire appliances, says the Star. Mr. Cameron gave considerable information regarding the matter of steam fire engines, and particularly one second hand engine which he claimed is as good as new, having just been completely overhauled, which he would sell the town for $2,000, "less than half of what a new steamer would cost" as no modern steamer can be bought for less than $5,000, and appliances such as hose, etc., to be added to this expenditure.

After considerable discussion of the matter, Mr. Cameron was instructed to draw up specifications as to what his people would guarantee the engine would do, and as to length of guarantee, and submit them to the council.

Although by the Municipal Act of 1906 the council can spend $5,000 for fire appliances without submitting a bylaw, it is likely a meeting will be called by the reeve to discuss the matter.

The Wheat Crop Will be Smaller

Than Usual in the West—Conditions are Backward

An enthusiastic meeting of the employees of the Rapid Tool Co., for the purpose of organizing a baseball club, was held last evening at the National Hotel. Mr. G. L. Hay was in the chair. Officers were elected and the prospects for the team were interestingly discussed.

The officers elected were:

Hon Pres., Mr. W. G. Ferguson.
Hon Vice Pres., Mr. G. L. Hay.
Pres., Mr. E. B. Fowler.
Vice Pres., Mr. T. E. Bell.
Sec Treas., Mr. Sid. Gibbs.
Manager, Mr. H. Rowland.
Captain Louis Fraser.
Executive Committee, Messrs. S. Gibbs, Wm Clancy and George McDonald.

The Club decided to enter a team in the City League, if one is formed, and their prospects look bright for a very successful season, as there are several good ball players in the Rapid Tool works.

Messrs. Louis Fraser and Geo McDonald, were appointed representatives to a City League meeting.

The National Association for the study and prevention of tuberculosis, elected Dr. Frank Billings, of Chicago, President, at Washington.

USES

"Royal Crown" Witch-Hazel Toilet Soap

(Individual Size)

At the Chateau Frontenac—at Place Viger Hotel, Montreal—at Banff—Royal Alexandra, Winnipeg—on their Pullmans and ocean liners—guests and passengers are provided with "Royal Crown" Witch-Hazel.

It's a medicated soap, and a toilet soap. Two soaps in one for the price of one 10c. a cake. 3 large cakes for 25c.

Insist on having "Royal Crown" Witch-Hazel Toilet Soap.

PERCENTAGE OF GOLD IS HIGH

Star of the East Ore is Turning Out Well.

Mr R. J. Munro returned last evening from the Star of the East mine in Frontenac, where he spent a couple of days. Mr. Munro is a director of the company and naturally was much interested in the operations being carried on in connection with the mine.

About fifteen men are now employed, and under the direction of a skilled superintendent, are engaged in milling the ore that was taken out during the winter. About ten tons per day are being run through the milling machinery machinery and it is turning out exceedingly well. The percentage of gold is very satisfactory, and Mr. Munro is greatly pleased with the way everything is being conducted. There is a large amount of ore to be milled, and it will keep the machinery busy for several weeks.

PRIZES ARE ON EXHIBITION

In Warne Bros. Window for the Marathon Road Race

Prizes for the Marathon Road Race run under the auspices of the Peterborough Turf Club, are now on exhibition in Warne Bros' Jewellery store window. They consist of a good watch, a gold ring and a gold locket. Several local runners have put in their entries for this race, and there is every indication that it will be a big race. The boys will be started from the corner of Hunter and George, and run to the race track and finish the race there in front of the grand stand.

VICTORIA DAY IN NORWOOD

Arrangements for the celebration of Victoria Day in Norwood, which have been under way for some time are completed. The committees are well pleased with the encouragement received from the citizens, and are looking forward to having a very enjoyable day.

The programme will consist of baseball matches, and football matches. In the morning the High School Football team, and Hastings will play. At 1.30 p.m., there will be a baseball match between Havelock and Norwood teams. Following this, Keene and Norwood Football teams will play their first match in the Midland Football Association series for this season.

Four Dogs Were Given Poison

Three Died and One Has Recovered—Dog Lovers Should Offer a Reward

It would hardly seem right if an issue of the paper came out without a story about somebody's pet dog being poisoned. There has been a record number of canines going to the bone yard this spring and the last has by no means made its exit. Yesterday reports have been received of four dogs getting a dose. Three died and one is still living and will get better. It appears that all four got the drug, or whatever it is that is killing them off, in about the same place as they were all down street. The dog that is recovering is Mr. Bert McCollum's great dane pup, which he recently purchased. It was fortunate that the dog went to the livery barn as soon as it felt sick and Dr. Johnston was called immediately.

The time for saying that the dog poisoner is a mean man has passed. There may be half a dozen on the job. What should be done is that owners of dogs should get together and quietly start a campaign against the criminal or criminals. By a systematic hunt it would be comparatively easy to catch at least one of the poisoners. In a western town the dog fanciers offered a reward of $100 for information which would convict the guilty party. It was just three days later when two parties called to collect the reward. They found the poisoner. It was a woman and her name was made public. That was the worst punishment which could be meted out. Since then not a dog has been poisoned in that town.

Rev. Alex McFayden, for forty years a minister in the Baptist church, died at London, Ont., yesterday, aged 76.

Official Referee Of Dairy Products

Will be Stationed at Montreal During the Season

I am authorized by the Honorable the Minister of Agriculture, to announce that an officer of the Dairy Division will be stationed at Montreal to act as official referee of butter and cheese, after May 15th next, in compliance with the urgent requests received from dairymen in various districts.

In view of the representations which have been made by salesmen, the referee will act only on request of both buyer and seller. While it is recognized that the delay which may ensue before the salesman can be communicated with, will result in any defect in the quality of the cheese or butter, becoming more pronounced, and that it may interfere with the prompt exportation of the lot in question, the right of the seller to be consulted before any reference is made cannot be denied.

Any salesman who desires to avoid the risk of increased loss, consequent on the delay of final inspection, may do so by giving the referee a standing order, in writing, authorizing the examination of his cheese or butter at any time on request of buyer alone. Such authorization must come direct from the salesman himself. Verbal notices will not be accepted. Any authorization of this kind may bee cancelled by the salesman giving due notice to that effect.

In giving certificates on the quality of butter or cheese, the referee will be guided by the classification and standards adopted two years ago. In this classification 'First Grade is equivalent to 'Finest,' a term used for many years to denote first class quality; and "Under Finest" is divided into second and third grades, with clear definitions for each grade. The advantage to the seller of having the grades clearly defined and of having three grades instead of two, must be obvious to all.

The referee will furnish both buyer and seller with a report on the quality of all butter and cheese officially examined.

Copies of the circular, giving the standards or definitions for the three grades of butter and cheese, were distributed in 1905, but further copies will be sent to any person who makes application for them.

The standards are printed on the back of the referee's reports.

J. A. RUDDICK,
Dairy and Cold Storage Commissioner.
Ottawa, April 22, 1907.

Rapid Tool Co. Will Have Baseball Team

Organization Meeting Was Held Last Evening—Officers Elected

Clarence W. Smyth, a traveller for a firm at Winnipeg, was in the city yesterday on his way to pay a visit to relatives at Montreal and Quebec.

Mr. Smyth was asked about the crop prospects in that district, and stated that many farmers had completed seeding. This, however, was in the high grounds, but in the low grounds nothing had been done as yet.

"There is some fear that the wheat crop will be somewhat smaller than last year," said Mr Smyth, "but the supply of oats and barley will be very large."

The latest reports from Winnipeg go to show that there is great concern over the seeding throughout the west. This is due to the fact that on Sunday last there was quite a fall of snow in different parts of Manitoba, and there was also freezing weather.

In speaking of the immigration to the west Mr. Smyth said that Winnipeg was flooded with new foreigners every day. The new comers were eagerly sought after by the farmers. Winnipeg, he said, was going ahead at a rapid rate. People from all parts of Canada, and a great many from across the line had gone there to live this spring.

MR. DOWNEY ENGAGED IN CEMENT BUSINESS

Is Interested in Promotion of a Great Industry in California.

Mr. J. P. Downey, M.P.P., of Guelph, who since the prorogation of the Legislature has been studying the cement business at Durham, leaves on Thursday this week for California, in company with a number of prominent Canadian capitalists, who are interested in the formation of a five million dollar company for the production of cement at Salina, near San Francisco. It is estimated that there is a market for at least fifty million barrels of the output alone in the rebuilding of San Francisco. It is understood that Mr. Downey has an excellent engagement which will keep him on the Pacific Coast for the next three months.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Presentation to Corps Cadet

Last evening the Corps Cadets of the local Salvation Army Corps, met at the home of Mrs. T. Lang, the Corps Cadet Guardian, for the purpose of saying good-bye to one of the Cadets, C. C. Teddy Gray, who has been a faithful member of the Army leaves tomorrow for Toronto to spend his life and talent for God in the Army work. He was presented with a Bible by C. C. Slighte, as a token of their high esteem of him. A short address was read by C. C. Ethel Card, after which C. C. Gray expressed his surprise and gratitude. He said he never expected anything like it to happen, but he knew that he could get all he needed from the Book.

At the close all present sang, "God be with you till we meet again."

You Prejudge Effect.

"Made to order" clothing may fit your form after a fashion when it has been altered out of shape.

Custom tailoring makes you "guess" at the effect of a color or pattern in the piece—a process which may prove disastrous when the suit's made up and you have to pay for it.

Semi-ready is tried on at the basting stage—you can tell at a glance the effect.

Semi-ready conserves the characteristics of your individuality—you prejudge not only the effect of color, pattern, style, etc., you can see the fit—note any alterations required.

As the suit is tailored with the inner parts basted only and the seams left with outlets your form can be fitted to perfection.

Your money back for any cause

LACROSSE

LAST NIGHT'S PRACTICE.

There was a mixture of Seniors and Juniors at the lacrosse practice at Riverside Park last night. The men worked out for over an hour and showed good form. The grounds are drying up nicely and when the roller has been used a few times will be in fine shape.

BASEBALL

Several members of the Peterborough Baseball Club, practised at Riverside Park last night. Only a few members of the team were able to turn out, but it is expected that at the next practice there will be more on hand.

IMPORTANT MEETING.

A meeting of the Peterborough Baseball club is called for Monday night at eight o'clock, at the Windsor hotel. Important business is to come up and it is urgent that there be a full attendance of officers and members.

The Peterborough Baseball Team will practice at Riverside Park tomorrow afternoon. "Yobbie" Flaherty will work out with the locals.

Great Rejoicing Throughout Spain

Queen Victoria Gives Birth to a Son—People are Happy

A special despatch to Messrs. J. R. Heintz & Co., from Madrid states that Queen Victoria of Spain, gave birth to a son this morning. He will be the future King of Spain.

There is great rejoicing among the people at the birth of a successor to King Alfonso.

DEPARTURE REGRETTED

At the ministerial luncheon today several speeches were made, all the speakers referring regretfully to the departure of Rev. Dr. Crothers, and Rev. J. G. Lewis, from the city in June next. Mr. Lewis has been secretary of the association for three years.

Dearer bread is feared by the citizens of Winnipeg, where the large mills have followed the example of the independent millers and advanced the price of flour twenty cents a barrel for No. 1, and five cents for No. 2.

Dairymen Enthused Over the Prospects for Big Exhibition

May Hold Show in Toronto Next January Without Government Grant—Committee to Meet as Soon as Seeding is Over.

Several dairymen who are interested in the effort that is being made to raise $2,000 to ensure the holding of a national dairy show in Toronto next January, held a meeting in Toronto last week. The reports presented showed that the prospects for raising that amount of money are encouraging, and that it is possible that as much as $3,000 may be raised.

Although the Ontario Government declined to make a grant to the show this year, it is believed that if it is decided to hold the show without a Government grant, Hon. Mr. Monteith, Minister of Agriculture, will be willing to co-operate to the extent at least of introducing several educational features, such as butter making competitions and scoring contests. Were the department to make an exhibit of the Holstein cow that has made such a splendid record at the Guelph College, it was thought that it would prove a popular feature. The view was expressed that the Department of Agriculture probably will be willing later to assist the show still more liberally, as soon as it was decided whether or not the Ottawa Fair is to be continued after next year.

COMMITTEE WILL MEET.

Mr. J. Paget, Canboro, the chairman of this committee which will have full charge of the show, should it be decided to hold it, purposes calling a meeting of the full committee as soon as seeding is over. Whether or not the show will be held next January, will be settled definitely at this meeting. The committee is composed of the following representatives from the associations named:

Western Ontario Dairymen's Association—The president, John M. Quaker, Owen Sound; J. N. Paget, Canboro; T. Ballantyne, jr., and E. A. Dempsey, Stratford.

Eastern Ontario Dairymen's Association—The president, John R. Dargavel, M.L.A., Elgin, Ont., the secretary, R. G. Murphy, Brockville, Ont.; G. A. Gillespie, Peterborough, Ont.; Henry Glendenning, Manilla, Ont.; Alex. Hume, Menie, Ont.

Canadian Holstein-Friesian Association—The president, A. C. Hallman, Breslau; the secretary, G. W. Clemons, St George, Ont.; B. Mallory, Belleville; Jas. Rettie, Norwich.

Canadian Ayrshire Breeders' Association—W. W. Ballantyne, Stratford; Wm. Stewart, jr., Menie, Ont.; John McKee, Norwich; N. Dyment, Clappison.

Canadian Jersey Cattle Club—L. J. C. Bull, Brampton; D. Duncan, Don; F. W. Hodson, Toronto; E. Wicks, Bedford Park.—Canadian Dairymen.

Making Good Use of Skim Milk; Is Important to Every Farmer

From Three to Five Pounds of Milk a Day to Pigs is the Most Profitable—Many Farmers are Wasteful and Extravagant—Experiments at Government Farm.

Now that creameries are opening up in nearly every section, dairymen who produce milk for the manufacture of butter will have their usual supply of skim milk to dispose of. This is a valuable by-product, when fed to the best advantage. Not only is it of value for feeding purposes, but it is valuable also as a fertilizer. Its value in this regard exceeds that of cream. Here, however, its value is derived indirectly by feeding to stock and utilizing the manure.

As regards the feeding of skim milk, in order to secure the best results from its use, experiments along this line have been conducted at the various experiment stations. At the Central Experimental Farm at Ottawa, considerable work has been done in this connection. In commenting on this work, Mr. J. H. Grisdale says,—

"Skim milk is often fed by our farmers too lavishly. They have a considerable quantity of it, and have few pigs, and therefore, the pigs receive all they will drink—sometimes more. I have seen farms where there was skim milk standing in the troughs all day. That is not only extravagance, but wilful waste. If we are to make the best use of our dairy products as we should, there is no better way to use them than for bacon or pork production. But if we are going to use them at a profit, we must use them economically.

"A series of experiments was conducted at the Experimental Farm some years ago, to determine the amount of skim milk that was most profitable to feed young pigs. To some were fed as high as 30 pounds a day—all that they could possibly drink, and they received hardly anything else, and to others were fed as low as two pounds a day. We kept account of the amount of milk that each lot was fed. We valued the skim milk, according to the results, it had when fed along with the meal, and the results were as follows,—Where we fed 30 pounds a day of the skim milk—all that they would consume, in addition to a small amount of meal—the milk was worth about eight cents a hundred pounds. Another lot received 25 pounds a day, and we found that the skim milk was worth 10 cents a 100 pounds. Other lots got about 20 pounds a day. Where we fed 20 pounds a day, the skim milk was worth 12 cents a 100 pounds. When we fed 15 pounds to 18 pounds, it was worth 15 cents. When we fed ten to twelve pounds, we got a little over 20 cents. When we fed eight pounds, we got 25 cents. When we fed from four to six pounds it was worth over 30 cents a 100 pounds. When we fed three to five pounds, it was worth a little over 40 cents. Now you see the wonderful increase in value that the skim milk underwent when fed in small quantities.

"Skim milk is valuable, not only as a feed, but it acts as an aid to digestion, or helps to digest other feeds, and makes them more valuable. Where we feed meal alone it costs us $4.50 for a hundred pounds of bacon; where we fed skim milk with it at the rate of from three to five pounds a day, valued at the rate of 50 cents a hundred pounds, it cost us only $3.50, and where fed in addition a small quantity of roots, it made the cost even less. The farmer who feeds his pigs all the skim milk, they can possibly drink, is extravagant and wasteful."

NEW FENCE IS BADLY NEEDED

Around the City's Powder Magazine—Aldermen Will Investigate

The chairman of the Property Committee stated at the meeting last night, that his attention had been drawn to the fact that the fence around the city's powder magazine in North Monaghan, was broken down. A neighbor to the property asked that the city join with him in having the fence replaced.

As a result, Ald. McIntyre, chairman, and Ald. Morgan were requested to take a canoe and paddle down the river to the powder pit, and see what work is necessary. The aldermen will take advantage of the first warm moonlight night, and carry out their instructions.

Startling Story Proved a Myth

Dennis Daley Had Sensational Yarn To-day

Dennis Daley, a well-known character, who is at present working for Mr. Twomey, an Ennismore farmer, was on hand this morning with a story that would have been serious had it been true. Dennis was telling a number of his friends around the city, that he and his employer, Mr. Twomey had driven into the city last night, had lost their way in the vicinity of the electric works, and had driven into the Otonabee river, near the end of the street car line. According to the story that was going the rounds the horse and Mr. Twomey were drowned, but Dennis saved his life by clinging to a log.

Investigation proved that there was no truth in the yarn, and that Daley must have had a pipe dream.

To-day's Victim of the Poisoner

Mr. C. E. Frost's Valuable Fox Terrier Died

Through the instrumentality of the dog poisoner another valuable canine has been sent out of this vale of tears. Mr. C. E. Frost's pretty little fox terrier, "Piffo," died about one o'clock today from poisoning. He was alright about twelve o'clock and apparently must have picked the poison up off the street shortly afterwards. The dog was a most intelligent animal and was highly prized by his owner who, needless to say, is indignant at the fate of his pet.

If the party or parties who are poisoning the dogs are apprehended they will likely have jolts handed out to them in many quarters as the indignation of dog owners is beyond bounds.

Specialist Will be at Peterborough May 15th to 30th

After a most successful visit in his capacity as teacher of opticians, the Specialist, J. W. BROWETT, will return from Toronto on Wednesday next to his home office at our store. Hundreds of persons took the opportunity of his visit to have their eyes examined for glasses, and now we bespeak a BUSY TWO WEEKS IN PETERBOROUGH. Mr. Browett's work is so thoroughly satisfactory and is getting to be known in this city where he has made his home and headquarters. We are booking appointments for May 15th to 30th.

McDERMID & JURY'S DRUG STORE, PETERBOROUGH.

THE NEW YORK STOCK MARKET

New York, May 10.—The stock market opened firm and was fairly well held until early in the afternoon when professional selling was again in force, because of the crop report and the list sagged. Irregularity was expected and will probably continue for a time.

The Government crop report showed the condition of winter wheat on May 1st, as 82.9 as compared with 91 a year ago. The acreage shows a considerable reduction over last year.

OBITUARY

TWEED ORGANIZES

At a meeting in the town hall on Friday evening last senior and junior lacrosse teams were organized for the season of 1907, says the Tweed News. The following officers were elected; Hon. Pres., Dr. Robertson, Pres, Dr. Bowlby; Vice President, E. R. Huycke. For the senior team, Mr. Morey was elected manager, J. P. Marrin, secretary-treasurer, and C. Leal, Giroux and Lee Huycke, committee. For the juniors F. Cowain is manager, J. Quinn, secretary treasurer, and J. Waller, R. Logan and W. Grier, committee. Both teams will practice on Monday, Wednesday and Friday evenings. A fine of 15c. for seniors and 10c. for juniors, will be imposed for not attending practice.

INFANT EXPIRES.

The death occurred this morning of Harold Eldon Harper, only son of Mr. and Mrs. N. Harper of 411 Sherbrooke street. The deceased was only three months old. The parents have the sympathy of a large number of friends in their sad bereavement.

The funeral will take place tomorrow afternoon at two o'clock, from the family residence, 411 Sherbrooke Street, to the Little Lake Cemetery for interment.

NEW CONSUMERS

103 New Patrons of Gas Secured in Two Weeks Time

The Peterborough Light & Power Co. report that during the past two weeks they have received applications from no less than 103 citizens, who are desirous of having the gas placed in their homes.

The work of installing the new connections is proceeding as rapidly as possible. Several new mains will be laid in the city, as soon as the necessary pipes arrive.

How Laborer at Y.M.C.A. Helped Himself to Castor Oil

The new fence in front of the Y.M.C.A. lot on George street has been completed, and work will be started at once to put the grounds into shape for training quarters. Nearly all the work on the fence, which is a high board one, was done by the young men belonging to the Association, and it is highly creditable to them. Mr. Dingman and Mr. Baker, of the Y.M.C.A. staff, lent valuable assistance and were instrumental in having the work carried out.

A good story is going the rounds in connection with the employment of a laborer to dig the post holes. The fellow apparently found the work rather arduous, and at the finish of each hole repaired to a near by hostelry to have something for his thirst. Mr. B. Yelland, who was in the vicinity at the time, noticed that the man had a liking for the bottle, and after the fellow had been working for some time without securing any liquid refreshment, motioned him to come over where he (Mr. Yelland) was standing. The laborer did not respond to the invitation until Mr. Yelland showed him the neck of a bottle protruding from the inside pocket of his coat. This was all that was needed. The fellow responded with alacrity and did not stop until he had taken a good long drink out of the glassware. Then he made a wry face, then he expectorated with vigor. The bottle contained castor oil. Nothing further need be said.

Work Started on New Sewers

Mr. Martin Neary, one of the foremen on the city's sewer work, has a large gang of men working on Division street this week. He has nearly completed that work, and is meeting with practically no difficulty. Foreman William White expected to start with another big gang on Sherbrooke street today. This is the only work the city can do until the teamster's strike is settled. The roadwork and the sidewalks have to stand.

FACTS—JUST PLAIN, POINTED FACTS

Memorial Service in Knox Church

Commemorating the Centennary of Robert Morrison, Chinese Missionary

A memorial service will be held tomorrow morning at Knox Church, commemorating the commencement of missionary labors in China by Robert Morrison, the first British missionary in China, just one hundred years ago. This centenary is being observed throughout Canada, as well as in China. A special collection will be taken on behalf of the Macao mission of the Canadian Presbyterian Church. Macao was also the scene of Mr. Robert Morrison's first labors, and is in the heart of the district, from which come most of the Chinese who are in Canada.

The subject for the evening service will be "A Lost Man Found."

In the afternoon a meeting will be held for young men at three p.m. Sheriff Hall will give a short address.

Under the auspices of the Ladies' Aid of Knox Church, Rev. Mr. Keith, will give an illustrated lecture on India, on the evening of June 4th. Mr. Keith has a large number of excellent slides made from photographs taken by himself. These illustrate the manners, customs and religion of the people of India, and the lecture promises to be most interesting. The price of admission will be announced later.

Church Parade of the Regiment

Will be Held Towards End of the Month

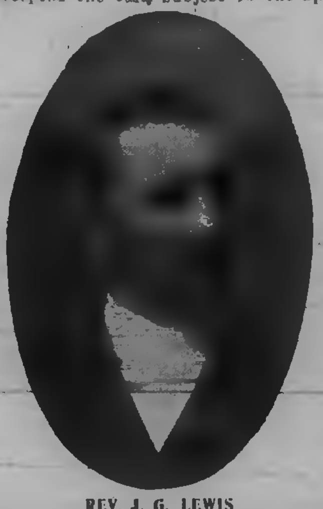
The annual church parade of the 57th Regiment will be held within the next couple of weeks, probably on Sunday, May 26th. Arrangements for this event are now being made and an announcement will be made shortly, as to the date, etc. It has not yet been decided what church the regiment will parade to. This matter has been left in the hands of the chaplain, Rev. Canon Davidson.

Mons. F. X. Mercier, the renowned tenor and artiste in grand concert here, May 21st.

HAS RECEIVED CALL TO PICTON

Rev. J. G. Lewis of Mark St. Church Extended an Invitation.

Rev. J. G. Lewis, B. A., pastor of Mark Street Methodist Church, for the past four years, has received an invitation from the Quarterly Official Board of Main Street Methodist Church, Picton, to become pastor of that church at the close of the conference year in June. Mr. Lewis has accepted the call, subject to the approval of the Stationing Committee of the Bay of Quinte Conference Mr. Lewis will succeed Rev. F. C. Moore, in Picton, who has been called to Trenton. Main Street Church, Picton, has a large, prosperous congregation and a membership of nearly 450.



REV. J. G. LEWIS
Who Has Been Invited to Main St. Church Picton

Mr. Lewis' many friends in Peterborough, will wish him every success and happiness in his new field of labor in Prince Edward County.

Rev. Dr. Symonds Made Chaplain

Of Prince of Wales Canadian Dragoons—Paymaster Bonnycastle Retires

Ottawa, May 10.—Today's military orders contain the appointment of Rev. Dr. Symonds to rank of chaplain and honorary captain, and also announces the retirement of Paymaster Bonnycastle, of Campbellford. The orders are as follows:—

Third (the Prince of Wales) Canadian Dragoons—Chaplain and Honorary Captain, the Rev. H. Symonds is granted the honorary rank of major: to be provisional lieutenant, Hugh Oliver Dennis.

Fortieth (Northumberland) Regiment—Provisional Lieut. E. D. Reeson and Paymaster and Honorary Major R. H. Bonnycastle are retired.

SATURDAY MARKET WAS FAIRLY GOOD

Large Supply of Butter and Eggs—Good Prices Prevailed

The attendance on the market this morning was very good. There were not so many persons on the outside market as upstairs in the building. On the square, little pigs of which there were a large number squealed plaintively. They sold at $6.00 to $6.50 per pair. In the hall there was a good supply of butter and eggs, and they brought good prices. Eggs went 15c. and 16c., per dozen, and butter brought 27c and 28c. There was not a great number of fowl, but what there was brought high prices. Chickens went at 50c and 65c apiece. There were a few turkeys at $1.50 and $2.00. There was the usual big supply of fresh fish, which were disposed of at 20c per half dozen. Potatoes, a lot of which were sold for seed, went at 70c to 85c per bag.

MAJORITY ARE QUALIFYING

Good Scores Being Made in Rifle Shooting at Drill Hall

The majority of the members of the 57th regiment are making good scores in the rifle practice now being conducted at the drill hall. Out of the two sections who shot last night there were only one or two who did not make the required fifty per cent. at 25 and 50 yards. Morris tubes are used in the rifles and smaller ammunition is, of course, used than when practicing range shooting. Those who do not make the required percentage at first trial will be given another chance after the first round of the regiment has been made.

Bad Accident to Bobcaygeon Man

Mr. Geo. Attbill left with Messrs Brock, and Robt. Reid, last Wednesday for Cobalt to seek their fortunes in the silver belt. Next day they set out to pitch their tent and as night was coming on, they of course, were hustling, and in doing so, George, while cutting a pole, allowed the axe to glance, and cut his foot. The axe split the foot from toe to instep, both upper and lower sides having to be stitched. A doctor was called and the wound dressed and he was put on the train and shipped home. It is very unfortunate for great expectations were entertained by his party. Geo. is home and the foot is doing well.—Bobcaygeon Independent.

BADLY BURNED.

George Harcombe, an employee of the Ontario Powder Works, Tweed, was dangerously hurt, while rolling a drum of acid into the storehouse at the works. The drum burst, and the acid went over his body, burning him badly. His recovery is doubtful.

TUG ALMOST READY.

The tug "Bob Hall" is almost ready to be put into commission. The cabins have been completed and the boiler has been tested and found satisfactory. The smoke jacket has been completed and is a fine piece of work. It is painted red, white and blue and is very natty. The tug is a trim craft in every respect.

LOCK GATES REPAIRED

A diver came to the Falls on Friday last and did some necessary "fixing" t othe submerged parts of the lower lock gates. The locks were forthwith opened for traffic, and already a large number of lockages have been made. The steamer "Kawartha" i snow running to Rosedale twice a week.—Rosedale Falls Gazette.

A GENEROUS GIFT.

The management of the Madoc Lacrosse Team wish to thank the citizens of our town for their liberal subscriptions towards helping them to get in shape for the season. The list totalled $50.00 and the citizens may look for the return of their money in full, in good lacrosse, to be served out by the team during the coming year.—Madoc Review.

NEW PLANT.

The Bell Telephone Company have decided to install an entirely new plant in Chatham. They have leased a new central office, which will be modernly equipped. It is also their intention to put in an underground system, thus doing away with the poles, which are an eyesore and a nuisance. Work on the improvements will be commenced at once.

A RESPECTED RESIDENT

On Thursday, May 9th, Mr. R. Q. Dench has a unique celebration. It was the anniversary of his arrival in Douro township, having resided there continuously for fifty years. Mr. Dench can boast of being the oldest English settler in the township. At the time of his arrival here Lakefield was a very small place. On the Smith side of the river there was only one log house, and two houses on the east side of Queen street.—Lakefield News.

SNOW, BEAUTIFUL SNOW.

That we are admirers of the beautiful snow was impressed upon us on Saturday morning last, when we opened our eyes to behold a bountiful white mantle covering the earth. The fall started through the night and before it let up, between eight and nine inches covered the ground on the level. This storm has been expected for some time, and ought to give us a warmer atmosphere. Cutters were plentiful around the street Saturday forenoon, and a great many had their first experience of sleighing in May. The storm was the heaviest of the year, and it is said to be the first of the kind since May, 1884.—Madoc Review.

Cheese Prices are Stationary

Canadian Grocer Says 30,000 Boxes Were Exported From Montreal

The Canadian Grocer says;

Cheese has not changed very much since last week. Prices have fluctuated more or less, but still hover around the figure which ruled a week ago. Navigation is now open, and for this reason there is a little more interest taken in this article. Quite a lot of cheese is being exported by this week's steamers from Montreal. In all there would be not far from 30,000 boxes. Most of this is held cheese, that is stock that was kept in store in Montreal during the winter awaiting instructions from the houses in England, which had earlier in the season purchased it. There would probably be no more than one-third of the lot to be shipped which could be called strictly new made.

Returned produce merchants say that there is no very great interest taken in Canadian cheese in the old country at present. Dealers across the water appear to feel that after the experience they had with the cheese purchased last fall they should watch their actions closely. A great many lost goodly sums of money and they are wary lest a like loss is in store for them this year.

Dealers report local trade about normal.

Quite a lot of interest is being taken in butter. Receipts, while a little larger each week, are not yet as good as dealers would wish. All lots arriving are sold in short order, so that produce merchants are kept busy securing sufficient stock to fill daily orders.

The reason for the short receipts is apparent. Various points throughout the country, such as Ottawa, Toronto, and all other cities and large towns, are calling for supplies and the creameries are shipping small lots to these centres, sending the remainder along to Montreal. The amount consumed locally is by no means small. As a result, stocks are not accumulating even in a small measure.

Prices are lower then they were last time of writing, having gradually dropped. Still lower figures are expected to rule in the near future.

Butter dealers are unanimous in the opinion that the quality of the creamery and dairy arriving this year is superior to that which was received last season.

Prospects for export business appear none too bright. As may be seen present figures are too high to tempt buyers in England. Again, the market on the other side is not one ready to receive the Canadian article at present.

Fishing Party At Burleigh Falls

There was great excitement at Burleigh Falls last Friday, when Mr. R. P. Davidson, manager of the Lakefield Traders' Bank, accompanied by Mr. W. H. Casement, arrived with Mr. R. C. Strickland after a visit of inspection to Mr. Strickland's quarry which promises to turn out a very good business proposition in the near future. After the party had taken lunch they took a stroll over to the Falls, and seeing the suckers were running, procured a landing net and within thirty minutes had landed nearly a hundred of the finny voyagers. Mr. Strickland caught one weighing ten pounds he said. Mr. Davidson vouches for the weight, as he saw Mr. Strickland weigh the sucker with the scales—on its back. The snow storm of Saturday, somewhat set the fish back, and they quit running until Tuesday, when they again started to run in greater numbers than ever. Mr. Roland Darcy, in one scoop of the net, landed 25 suckers of all sizes. Now is the time to have fun with the suckers.

It is reported that burglars broke into John Holme's cottage and stole his sealskin watch and chain. A posse is out after the villains, headed by Chief of Police Warren Darcy, accompanied by Val Trainor's thoroughbred bloodhound "Midget." We expect developments later.

Baptist Minister Denied Ordination

Ponoka Pastor's Views on the Atonement Considered Unsound

Ponoka, May 3.—A rather peculiar and somewhat unusual situation developed here this week, in connection with the proposed ordination of Mr. R. B. Guyatt, M. A., B. D., into the pastorate of the Ponoka Baptist Church. A council of the church in Alberta, authorized to bestow on Mr. Guyatt, the full powers and dignity of a Baptist minister, refused after an examination of the candidate, to carry out its prerogative. While all concerned are very reticent, it is understood that with the exception of one delegate on the council, all were dissatisfied with Mr. Guyatt's answers to questions, relative to the expiatory significance of the crucifixion. Mr. Guyatt was strictly orthodox in his views on God and other questions, but in the opinion of the majority he failed to measure up to the orthodox Baptist conception of the sacrifice on Calvary. Great regret is expressed at the action of the council, as Mr. Guyatt is a brilliant student, and possesses to an exceptional degree the qualities which go to make a successful pastor. The council passed a resolution "fellowshipping" Mr. Guyatt's Christian character and call to the ministry, but failed to give the call force by empowering him to discharge the functions of a pastor. In the opinion of many of Mr. Guyatt's friends the council was deemed weak in this respect, for if he is deemed a heretic, then he could not logically be fellowshipped! The outcome has caused much pain to Mr. Guyatt's friends, and while he is continuing the pastorate here at the request of the church his position is regarded as utterly untenable as he is now without power to administer the sacraments and rites of the church. It is thought that the action of the council will precipitate a discussion in church circles, which may result in radical changes. It is not at all likely that Mr. Guyatt has a monopoly of the views condemned by the council at Ponoka.

PROCLAMATION

TO INVESTORS

REGARDING

LARDER LAKE

and **BLUE BELL**

By investing now in Blue Bell at 10c per share an immediate profit of 400 per cent. will be made. Blue Bell advances to 50c per share next Wednesday, May 15.

Telegraph or Telephone orders or reservations at our expense, allowing remittances to follow. Telephone Main 2708.

The Last Day in which Blue Bell can be bought at 10c per share is Wednesday, May 15th. It advances to 50c per share on that date. It will sell at $2.00 before summer has passed.

All orders or reservations dated not later than May 15th will be filed and accepted providing remittances follow.

WE PROCLAIM TO THE PEOPLE OF ONTARIO AND CANADA

WE PROCLAIM TO THE PEOPLE OF ONTARIO AND CANADA that never in the history of mining has such an opportunity for making money been presented as is now offered in the Larder Lake gold district, and especially in the wonderful Blue Bell properties.

Put your money in The Blue Bell Gold Mines, Limited. One of the greatest opportunities that have ever been offered for investment in a gold-mining company. The Larder Lake District will be the wonder of the world and Blue Bell is in the heart of it.

Miners and prospectors from all parts of the world are flocking to Larder Lake. Mining men with millions at their command are sending their representatives and mining engineers into the field and are rapidly snapping up everything that can be purchased.

The time for investors to get in on the rock bottom is NOW—the **PRESENT TIME.**

The opportunity offered in Blue Bell will probably never occur again in this district. The investors of Ontario and Canada should accept this opportunity and buy in one of the greatest mining companies that will be known in this new Eldorado at the rock-bottom price of 10 cents per share.

We have gone to great expense and have used every method available to learn and know the exact situation in the Larder Lake district. We have sent a number of reliable mining men in different directions and to different locations. We have established our own assaying office on the ground at Larder Lake, putting in charge of it mining engineers of known ability and reputation. We have not taken over a single claim that has not shown actual merit; that is to say, with free, visible gold in quantities most remarkable. We are informed by our engineers that there never has been a gold district known that has shown the wonderful width of quartz veins containing free, visible gold as now actually exists in the Larder Lake district. We have quartz veins assaying gold from $200 to as high as $42,000 to the ton, that vary in width from 6 feet to 150 feet.

The Blue Bell properties consist of 1,120 acres, being 28 well-selected 40-acre claims, undoubtedly and unquestionably the choicest of the district at the present time. Originally the property consisted of but 27 claims, but one claim has been recently added, located near the Reddick property.

Now, we want to make this comparison: In the gold properties of Nevada, where the gold camps have gained renowned reputation—in camps as well known as Tonopah, Goldfield, Wonder, Searchlight—and other camps where millions upon millions have been made from claims varying in size from 10 to 20 acres. Just think of it! Ten or 20 acres running into values as high as from $40,000,000 to $50,000,000 each. Mining men we have in the Larder Lake district who are well acquainted with the Nevada camps claim that the Larder Lake district is so far ahead of the mining camps in Nevada that there is no comparison whatever. Even the Rand in Africa, it is believed, will not come up to the wonderful gold district of Larder Lake.

We have received in our office in the past week from 300 to 400 pounds of samples taken from every claim owned by the Blue Bell Company. Out of these samples we have had a great number of assays made by our own assayer on the ground. These assays run all the way around $200—the lowest—to $20,000—the highest. Our assayers on the ground, of course, cannot obtain as high assays as in the laboratories in Toronto, where we have obtained the highest assays, running from $27,000 to $42,000 to the ton. Therefore it is safe for us to estimate that the assays made by our own engineers on the ground are considerably under what we would actually receive were the stamp mills that the Company are about to install on the property in actual operation, together with the cyaniting process, by the use of which every particle of the gold produced will be saved.

Could every investor come to our office and see the wonderful quartz samples, with gold showing in every portion, they would need no further urging or any further argument to convince them what Larder Lake is and what it is bound to be.

Investors who to-day have $100 to $1,000, or more, and who do not take advantage of this wonderful opportunity, will, in a year from to-day, see and realize the great opportunities that they had to invest their money with great profit. We are in a position to judge and we feel that we are judging rightly when we say to these investors, "Put your money into Blue Bell now. Every hundred dollars that you invest at the present time will, in a year from to-day, bring you $2,000." This may seem to be a broad assertion, but consider well the great amount of territory and consider well the millions that are made from properties consisting of but 20 to 40 acres of territory that never showed as rich as Blue Bell properties do to-day. It will only take a few short months to place Blue Bell on a very big dividend-paying basis. Here is a legitimate opportunity for investors to make a real profit of 400% on your money by the 15th of May (this month). The Blue Bell shares will be selling in the open market at 50 cents on and after that date, and it will not be long before investors will look back and realize how really cheap Blue Bell stock was, even at 50 cents. Such a chance to realize enormous returns on your money could seldom be possible except through the medium of legitimate mining investments and through and by the discovery of such wonderful gold districts as Larder Lake. Remember, these opportunities will only present themselves once in a lifetime. This is the accepted time—this is the golden opportunity. The conditions surrounding the Blue Bell **GUARANTEE** to investors not only big profits, but also absolute safety. We have a property aggregating 1,120 acres in these Larder Lake gold fields—the new Eldorado—every acre of which is as rich in gold as the Rand or the famous gold districts of Nevada, where millions upon millions are being taken out. The Larder Lake gold district will be familiar to every schoolboy almost the world over within a year or two. The titles are clear—there are no encumbrances whatever—not a dollar of indebtedness. To us there is not one single element of uncertainty as to the outcome. Investors at the present price of shares—ten cents—will realize the most wonderful profits possibly that have ever been known in any mining district in the world.

We of course feel so positive regarding this as we have had every reason to make us believe so. Our own engineers, whom we know, and our own prospectors and miners, with years of experience, whom we have every confidence in, demonstrate to us these facts. We have no other method of demonstrating to the investing public than through our advertisements, which we endeavor to make honest and straightforward. We are investing our own money and are not advising the investing public to do anything that we are not doing ourselves.

We want to state further and impress upon our clients and the investing public that those of you who join us in this proposition should understand that we are also in this proposition with you. We are backing our faith with our money, and we are asking you to join us in this proposition, which we find after thorough and exhaustive investigation to be an absolutely secure and safe investment and one that will yield returns that will make unprecedented profits for all concerned. We have no fear whatever regarding our own investment, and we wish to make it clear to you that WE cannot take a dollar of profit out of this proposition as offered to you in the Blue Bell Syndicate unless you, yourselves, receive the same returns in proportion to your interests therein. We say to you we are offering you one of the fairest, squarest and most honorable propositions that could be presented.

We pride ourselves upon the enviable reputation and standing we have earned and established with the investing public throughout Canada and the United States as brokers and financial agents. We are endeavoring to further build up, instead of tearing down this reputation, which could only have been established by legitimate business methods. We would not make the strong assertions as to the Blue Bell properties and investment therein, in these advertisements, were we not satisfied beyond any question as to the ultimate outcome of the investment which we herein advise.

It hardly seems necessary at this time, but we are glad that we are able to refer any investor to any bank, financial institution or commercial agencies in the city of Toronto or throughout Canada and the United States as to our standing and reliability.

We wish to state further that every recommendation or assertion made in any of our advertisements or letters of advice **WILL BE STRICTLY CARRIED OUT** and that any investor may invest his money with the full assurance that his money will be placed for the purposes and in the manner indicated and that **LAW & COMPANY** will fulfill their pledges in every way.

We wish to express our appreciation to the many investors who have shown their confidence in our recommendations, and we desire again to pledge loyalty to their interests, having no fear whatever as to the future, knowing full well that it will demonstrate that their confidence in us has not been misplaced.

EXAMPLE

Showing Cost Of and Estimated Results From One Membership

Cost of One Membership consisting of 1,000 shares $100

All memberships will be pooled for six months, and will be held by the Trusts and Guarantee Company Limited, who will act as Trustees for the Underwriters' Syndicate, during which period 267 shares out of each membership will be permitted to be sold at 50 cents per share, which will amount to $138.50

Law & Company's commission of 25 per cent., amounting to $38.50, for selling the 267 shares at 50 cents per share, deducted from the $138.50, leaves to the owner of the membership the full amount of his investment or cost of his membership $100

Also, in addition to the return of $100 he will have 733 fully-paid and forever non-assessable shares of the Company, there having been sold 267 shares from his 1,000-share membership.

These 733 shares, which will be the result of each membership, will be worth at the advertised market price $366.50. We believe, however, that the dividends which will be paid upon the shares of the Blue Bell Gold Mines, Limited, within the coming summer will make the shares worth many times that amount.

Applications for membership will be received up to May 15th, 1907, unless the total number of memberships are sooner subscribed. Applications arriving too late to participate will be returned with the full amount of remittance.

Bankers, Manufacturers, Merchants and Business Men of all classes are subscribing liberally to these memberships.

The Trusts and Guarantee Company, Limited, of 14 King Street West, Toronto, will act as Trustees for the Underwriters' Syndicate. The distribution of all money and shares to the owners of memberships will be made at the time the membership pool is dissolved, which will be some time within six months from May 15th, 1907.

The Trusts and Guarantee Company, Limited, will issue receipts to all applicants or holders of memberships, showing or indicating their respective interests.

APPLICATION FOR MEMBERSHIP

Cut out, fill in and forward with remittance.

.... 1907

To the LARDER LAKE UNDERWRITERS' SYNDICATE,
Law & Co., 728-729-730-731-732 Traders Bank Building,
Toronto, Canada.

I hereby make application for .... memberships in the Larder Lake Underwriters' Syndicate, and enclose herewith Draft, Post Office or Express Order in favor of the Larder Lake Underwriters' Syndicate for .... Dollars in payment of same, on the understanding that this money shall be deposited with the Trusts and Guarantee Company, Limited, Toronto, and be held by it until such time as Messrs. Law & Company, Toronto, shall deliver or cause to be delivered to the said Trust Company scrip representing .... shares of the Blue Bell Gold Mines, Limited, issued in my name, fully paid up and non-assessable. Upon receipt of the shares of the said Blue Bell Gold Mines, Limited, by the Trusts and Guarantee Company, Limited, the said Trust Company shall forthwith pay over to Messrs. Law & Company the moneys so deposited, and shall hold said shares subject to the pooling conditions contained in the Official Prospectus of the said Larder Lake Underwriters' Syndicate. The copy of the said Official Prospectus of the said Syndicate filed with the Trusts and Guarantee Company, Limited, shall be deemed to be the prospectus defining the terms and conditions of the pool. And I hereby irrevocably constitute and appoint the said Trusts and Guarantee Company, Limited, my attorney to execute any and all transfers of the said shares that may be necessary in order to properly carry out the intention of the pooling arrangement, I hereby ratifying and confirming any and all actions of my said attorney in the premises.

Signed ....

The valuable painting by Reynolds and Gainsborough, stolen from Chas. Wertheimer, at London, with the exception of two oil paintings and two minitures, have been unearthed by the police. They were in the possession of a Swiss waiter living near Clapham.

APPENDIX TO GO

Surgeon Says It Will Soon Disappear Altogether

A New York despatch says.—The vermiform appendix may soon vanish altogether of its own accord from the interior of humanity, without the intervention of the knife, according to the discovery of Dr. Robert T. Morris, professor of surgery in the Post Graduate Medical School and Hospital. He has found that as man evolutes his appendix involutes.

Instead of opening, as it formerly did, to receive apple seeds, tacks and other incidentals on the quick lunch bill of fare, the appendix is showing a tendency to shut up tight and roll in on itself. By and by it will be inrolled so tight it will dry up and vanish. The involuting or inrolling appendix causes humans to think they have dyspepsia. Normal involutions of the appendix, Prof. Morris says, may begin in the early years of life, but most of the patients he has seen are more than 25 years old.

This shows, the scientists say, that the appendix is not afflicted with that foolish haste which characterizes us, but is calmly proceeding, with philosophic deliberation, to eliminate itself from a place where it is not wanted.

The National Association for the study and prevention of tuberculosis elected Dr. Frank Billings, of Chicago, President, at Washington.

BRING WELSH TO ONTARIO

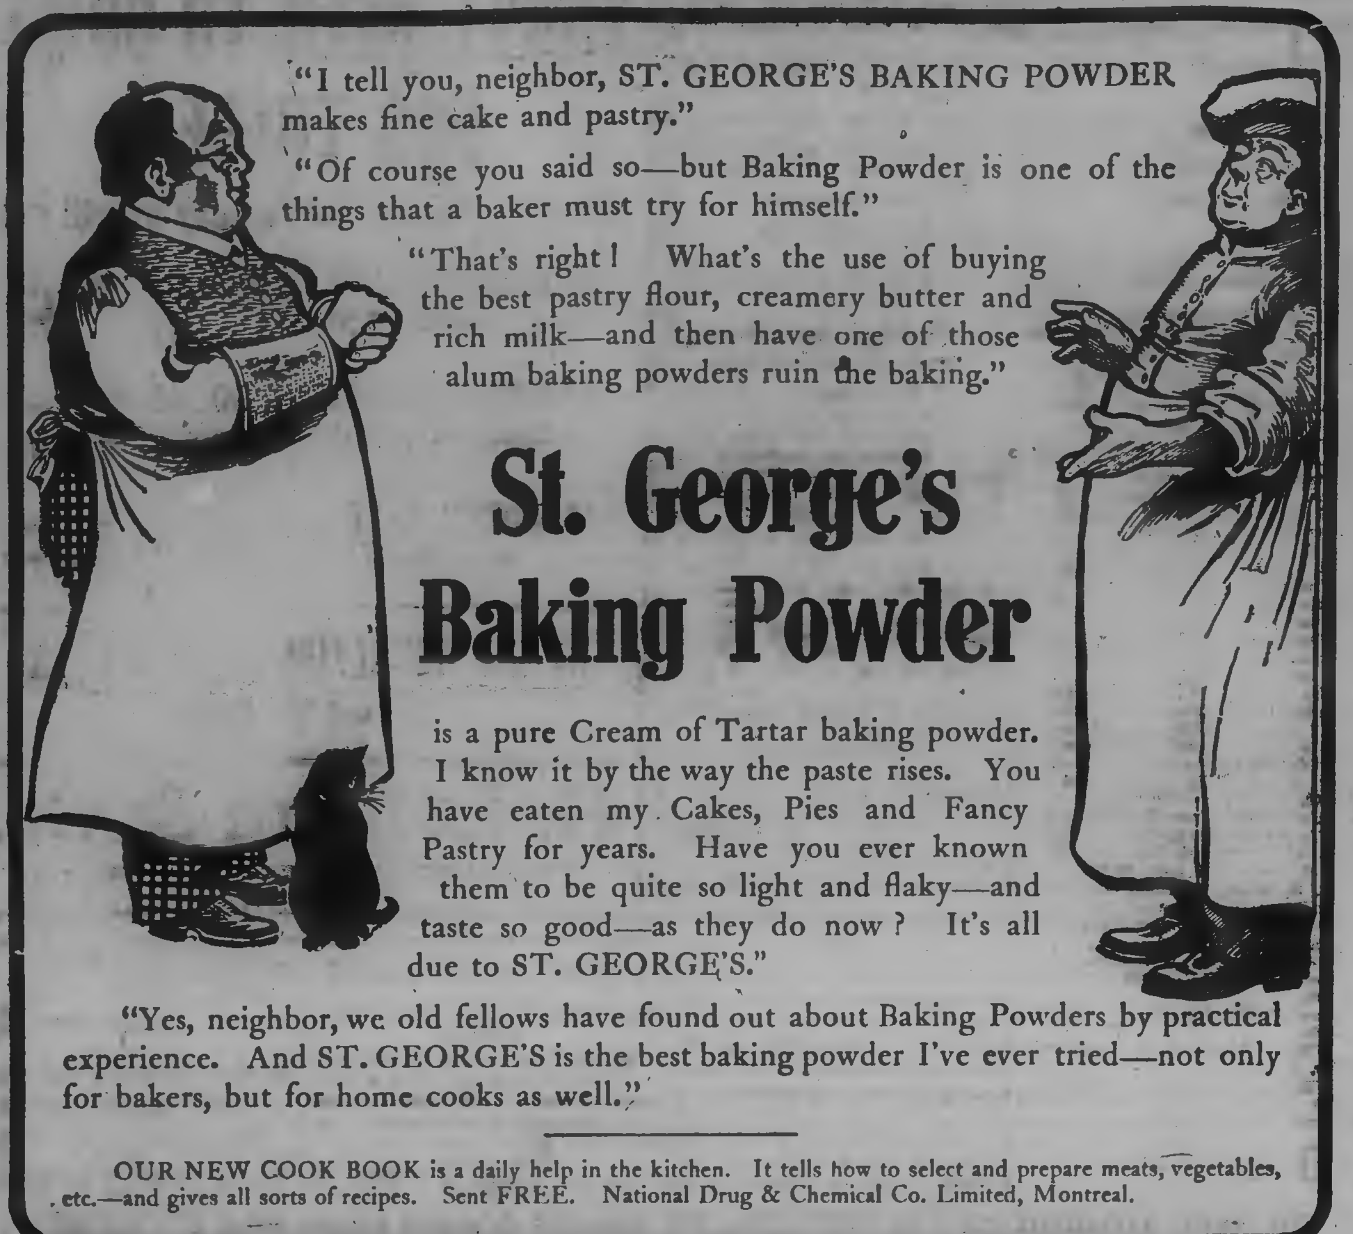
Suggestion That Government Circulate Literature in That Tongue

A suggestion that a more energetic campaign be carried on to induce emigrants from Wales to settle in Ontario is contained in a letter received by the Minister of Agriculture. The writer, who is a Welshman, states that many of his countrymen are entering the United States. From his own experience, he is inclined to believe that they would be happier in Canada. He, therefore, urges that literature in the Welsh tongue be placed in circulation in Wales, where many of the people — unable to speak English — are quite without information regarding Canada.

Mr. J. M. Clark, of Tillsonburg, one of the Ontario Government's agents in Great Britain, is now in Wales, where are many farmers, miners and quarrymen, a very desirable type of the colonist. Mr. Clark has not sent out many Welsh yet, although a large number of English people have come to Ontario under his auspices.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

W. H. Butland, a civil service employee, aged 56 years, committed suicide yesterday at Ottawa by hanging.



"I tell you, neighbor, ST. GEORGE'S BAKING POWDER makes fine cake and pastry."

"Of course you said so—but Baking Powder is one of the things that a baker must try for himself."

"That's right! What's the use of buying the best pastry flour, creamery butter and rich milk—and then have one of those alum baking powders ruin the baking."

St. George's Baking Powder

is a pure Cream of Tartar baking powder. I know it by the way the paste rises. You have eaten my Cakes, Pies and Fancy Pastry for years. Have you ever known them to be quite so light and flaky—and taste so good—as they do now? It's all due to ST. GEORGE'S."

"Yes, neighbor, we old fellows have found out about Baking Powders by practical experience. And ST. GEORGE'S is the best baking powder I've ever tried—not only for bakers, but for home cooks as well."

OUR NEW COOK BOOK is a daily help in the kitchen. It tells how to select and prepare meats, vegetables, etc.—and gives all sorts of recipes. Sent FREE. National Drug & Chemical Co. Limited, Montreal.

Victoria Museum Will be Kept Open Two Evenings in the Week

The Building Will be Opened for Season Monday Afternoon Next—Some of the Curios Which Have Been Gathered by the Peterborough Historical Society—Improvements Made to the Property—A Rare Centre of Education and Information.

The Victoria Museum in Inverlea Park will be opened for the season on Monday afternoon next, and will remain open to the public each day from two to five o'clock, p.m.

The re-organized Peterborough Historical Society is making an effort to have the building kept open two nights in the week, so that those who are employed during the day, may have an opportunity of visiting this interesting spot and inspecting the rare and antique collection of curios which have either been presented or loaned to the Society. This is a convenience that will be greatly appreciated and will create renewed interest in this centre of instruction and education, which for the past year or two, has been somewhat neglected.

With the re-organization of the Peterborough Historical Society, which was recently effected, the body has taken on new life and will endeavor to make the museum a source of popular interest. There are hundreds of Peterborough people, who have never visited the museum and they have indeed missed a decided treat.

Several improvements have been made to the property and a new classification of the exhibits, is being arranged by the officers of the Society. Every curio will be again labelled and on the door of each room will be a printed card telling exactly what each apartment contains. This is a convenience and advantage that will be appreciated by the public, and for which the Historical Society will receive thanks.

EARLY HISTORY.

The fine building occupied by the Society was in years gone by the residence of the late Robert Dennistoun, Esq., county judge of Peterborough. The property was acquired by the Nicholls Estate, and the surrounding land presented to the city as a public park. The building was leased at a nominal rental to the Peterborough Historical Society for 99 years, in 1897, at the time of its re-organization, and set apart for museum purposes. Mr. Richard Hall, executor of the estate, has kept the structure in excellent repair. This year cement flooring and steps have been placed at the front verandah. Everything is now in first-class order and much credit is due Mr. Hall for the painstaking manner in which he has looked after the building.

The edifice contains twenty-two rooms in all, with thirteen fire places. Part of the fine old house is occupied as a residence by the efficient curator of the museum, Mr. Robert Holland and his wife, who take a great interest in seeing that the exhibits are not disturbed, and are kept in good order.

THE COLLECTIONS.

Downstairs there is the main hall, two rooms on the left and one on the right that are used by the society, while upstairs there is a large hall and three rooms, all of which are filled with treasures and curiosities birds, animals, insects and ancient implements—a priceless and unique collection.

This morning a Review representative, accompanied by a director of the society, visited the museum and was courteously shown through the building.

In the main hall is a collection of water fowl in glass cases. These embrace ducks, loons, etc., all splendidly mounted. There is a genuine ox-yoke of many years ago, and an upper millstone brought from Ireland by Mr. Sullivan of Douro, and used several decades ago for grinding corn. Other objects of interest are a war drum from Nigeria, West Africa, and a set of Russian tea urns. A great attraction is a pine knot, 15 inches in diameter, grown on a portion of the limb of a cedar tree of six inches in diameter. This is a parasite production, rarely if ever seen. There are two old-fashioned high bicycles, and a Boer flag, secured at the surrender of Johannesburg, which is dyed with the blood of the Boers and presented to the Society by Col. Greenwood.

The original brass weights and measures of the county of Peterborough are to be seen as well as several shells picked up off a Cuban battle field during the late Spanish-American war. There are also several Boer shells as well as the headlight of "The Pioneer," the first steam railway engine used in Canada, which ran from Montreal to Lachine. The first canoe ever built in Peterborough in 1847 by the late John Dunsford, is also an object of interest, as well as a mounted Rocky Mountain badger and other curios as the auction sale bills read "too numerous to mention."

MINERAL ROOM.

To the right is the mineral room containing three cases of the minerals of Ontario, presented to the local society by the geological Society of Ontario. There is also a fine assortment of minerals gathered by Mr J. B. McWilliams and various specimens of limestone from the bottom of the Trent canal. The different kinds of wood to be found in the province are also shown in lateral and cross sections. There are Indian curios galore and moccasins used by the Indians on the north shore of the Mackenzie river, as well as on the east coast of Labrador—the two extreme points of the Dominion. There are two collections of clothing as worn by the Eskimo, as well as a totem pole from British Columbia with key, giving a complete history of an interesting family of Indians. There are ancient bathing dishes, shampoons, hooks, and also a rain coat of straw and a straw hat made by the Papuan natives in the East Indies. There is also a splendid bust of the late Sir John A. Macdonald.

OLD COINS AND ARMS.

As one enters the rooms to the left of the hall there is a big barometer, and inside in attractive glass cases, are a varied assortment of old coins and bank notes. There is a large medal presented to the grandfather of Johnston Paudash, of Hiawatha, in the year 1812, and other unique medals. There are pistols, old swords, sabres, etc., as well as the epaulets of chief Johnston Paudash, the valiant Indian warrior.

Two large high book cases contain some rare and historical volumes, many of them being out of print at the present day. The early history of the county and province can be traced in several volumes. There is also a pay roll of 1838, of the Fourth Regiment Fusiliers, under Captain Samuel Strickland, and an early cricket score. The silver trowel presented to Mrs. C. J. Nicholls at the time of the laying of the corner stone of St. Andrew's church, June 29, 1885, is seen. Col. H. C. Rogers, president of the Ontario Historical Society, and former president of the Peterborough society, has loaned a valued and varied collection of arms gathered from all parts of the world, including a genuine Australian boomerang, gurkie knives, war clubs, muskets, helmets, etc.

To the rear in the lecture room with pictures of many historic events, including a group portrait of the veterans of 1866 and a collection of relics taken from the field of Waterloo immediately after the battle, by the late Hon. T. A. Stewart. There are also maps and many other things of great local interest. A blunderbus, that will scatter thirty yards is an object of interest.

THE UPPER ROOMS.

In the main corridor upstairs there are in cases a complete collection of the birds of Ontario. There is also a fine assortment of birds nests, shell, etc., and a gathering of odd things in many shapes and sizes, supplied by the teachers of the city. The spurs and badges worn by the late T. G. Hazlitt, at the time of the visit of our present King to Peterborough in 1860 are also displayed. There is to the right the Florida room, fitted up by Mr. and Mrs. Nesbitt, of Florida, formerly of Peterborough. A portiere made of fibre and decorated with shells from the southern states excites much admiration. In glass cases are the fauna, reptilia, shells, sponge growths, etc., etc., of Florida. A hat made out of a cocoanut, birds, various products and medical preparations, etc., are also shown. There are numerous views of life and scenes in the tropical clime.

INDIAN CURIOSITIES.

In the upstairs front room to the right, are Indian implements, gouges, tomahawks, chisels, arrow heads, wampum beads, fragments of pottery, bird's eggs, etc. An accordeon played by Louis Reil, the leader of the Northwest Rebellion in 1885, is also shown.

In the main corridor, upstairs, previously mentioned are a mounted wild cat, a lynx, a timber wolf and other animals, as well as a twenty-eight pound maskinonge, captured by Mr. Robert Holland

In the room to the right are a black bear, a deer, a beaver, several birds of the hawk family, including a large eagle and a turkey buzzard, shot near Warsaw some years ago. There are a raccoon, the weasel in his three coats, the fisher, the skunk, the muskrat, the porcupine, and other animals, all forming a most interesting and profitable study.

A magnificent case of stuffed birds, loaned by Mrs. T. G. Hazlitt, attracts much attention. The ptarmigan, the grouse, the partridge and other specimens of this family of birds, may be seen. There are besides, squirrels as well as two splendid collections of moths and butterflies, by the late Rev. Mr. Clementi, and Mr. Norman Bell. A rare assortment of bird's eggs by Mr. Ozias dela Plante is also an object of great interest.

A unique sight is a nest dug out by a highholder, in the trunk of a balm of gilead tree, showing that the bird had dug down eighteen inches into the solid wood. Two specimens of the highholders' nests are shown.

There are many other objects of interest in the antique and rare collection at the Victoria Museum, about which columns might be written, but a personal visit is desirable to get a good idea of the objects of interest and historical association.

THE OFFICERS.

The Peterborough Historical Society was, as already stated, organized in 1897. Lt.-Col. H. C. Rogers was president from its inception until last month, when he resigned. Mr. T. A. S. Hay, who had been secretary for some years, was elected president at the recent re-organization meeting. The late Mrs. Catharine Parr Traill of Lakefield, the widely known authoress was the first honorary president. The Historical Society has a large list of members, and a good balance in the treasury.

The annual meeting of the Ontario Historical Society, of which Col. Rogers is president, will be held in Kingston in July. Part of the programme of entertainment by the Frontenac Historical Society, consists of a pilgrimage to Adolphustown to visit the landing place of the first United Empire Loyalists. This meeting at Kingston should be very interesting and instructive.

The present officers of the Peterborough Historical Society are,—

Hon. Pres., Col. H. C. Rogers

Pres., Mr. T. A. S. Hay

Vice Presidents, Richard Hall, Dr. Burnham and J. B. Hodgson.

Sec.-Treas., Mr. T. J. Wallace

Executive Committee, Messrs. J. H. Burnham, D. Spence, W. J. Kelly, J. Coyle Brown, F. J. Jameson, M. McDonald, and Rev. Canon Davidson.

Museum Committee, Messrs. E. Elcome, J. E. Hodgson and T. J. Wallace.

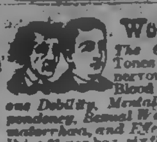
In view of the valuable services rendered to the society by Mrs. Birdsall, who for five years was vice-president, she was elected an honorary member at the annual meeting.

ENERGETIC OFFICIAL.

Mr. T. J. Wallace, the newly elected secretary of the Historical Society, is proving himself a most capable officer. He has taken a great interest in the work, and has undertaken to catalogue the exhibits. This is job of which no one has an idea. The amount of labor, and the amount of study and research required cannot be estimated. In the past, Mr. T. A. S. Hay, who was a very capable secretary and one greatly interested in the work, was unable, through his duties as city engineer to spare the time necessary to keep the register in proper shape. As a result Mr. Wallace will not only have to catalogue the exhibits, but also write a short history in connection with each. This work will take him the greater part of this summer, but it will be of great value to the society in the end.

NATURE STUDY.

It is expected that the museum will become better known to the people especially to the children, during the next year. The new curriculum in the schools, requires the teachers to be qualified in nature study, and to hold regular classes. This is a subject entirely foreign to most of the teachers and in order to overcome the difficulty, Mr. J. E. Hodgson of the Collegiate Institute staff, has decided to give a course of lectures to the teachers during the summer months. Permission was asked and secured from the Peterborough Historical Society to use the museum for that purpose. There is a lecture room in the building, just suitable for such a purpose and the collection of curios could not be better for the purpose. On the executive of the Historical Society, are three teachers, Messrs. Wallace, Hodgson and Kelly, and nature study should soon be very popular.



Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

Local Delegates Have Returned

From Attending the W. F. M. S. Gathering at Brantford

Mrs. W. M. Roger and Mrs. (Rev) J. G. Potter, who were the delegates from St. Paul's and St. Andrew's Auxiliaries respectively, to the recent W.F.M.S. convention in Brantford, have returned home.

At the closing meeting the following officers were elected; Mrs. Shortreed, president, with Mrs Jeffrey acting president; vice presidents, Mrs. McLaren, Mrs. Telfer, Mrs Jeffrey and Mrs. Hamilton; secretary treasurer of Ewart Missionary Society, Mrs. Robertson; recording secretary, Miss Craigie; corresponding secretary, Miss Clark; home secretary, Miss Reid; foreign secretary, Mrs. Bell; secretary of Indian and Chinese Missions in N. W.T. and B.C., Miss Craig; secretary of International Conference, Miss Thornton; secretary treasurer of Tidings and General Literature and Life Membership Certificates, Miss Parsons; treasurer, Miss George; editor Tidings, Miss MacGillivray.

Mrs. Taylor, of India, gave a lecture on the mission work in India. Petitions of regret were passed on occasion of the death of Dr. Agnes Turnbull, and also on account of Mrs Shortreed retiring from taking an active part in the presidency of the Society. The convention closed with the usual devotional exercises, to meet next year in Toronto.

The convention met in St. Paul's church, Peterborough, in 1905.

Prepared Lunch 250 Passengers

W. J. McCallum Got Out Big Order in Quick Time for C. P. R. This Morning

The C.P.R. train from the east, which is due here at 5.10 a.m., was three hours late this morning. The delay was caused at Smith's Falls, waiting for connections from Boston. It was nearly eight o'clock when the train passed through here, and Mr. W. J. McCallum was at the station with breakfast for the passengers. There were 250 on board. The order from the C.P.R. was given at half past five o'clock for coffee for 250 and 700 sandwiches. The train was expected at seven o'clock and it meant a lot of hustling to get the stuff ready. But Mr. McCallum was at the station with the food and dishes in plenty of time, and the train was not delayed a minute.

Council Meeting Monday Night

With Committee of the Whole Afterwards—Lot of Business to go Through

There will be a special meeting of the city council on Monday night at eight o'clock, for the purpose of cleaning up all the business on the slate. There are eight or nine bylaws to put through; every committee has a report to read, and there are several other matters to clear up. After the council meeting, if there is time, the committee of the whole will have a session. Three questions are before that body, viz. the isolation hospital, alterations to the civic buildings and the garbage bylaw. It is hoped to get everything settled so that it will not be necessary to have another meeting this month.

Bad Boys Create Much Trouble

Several complaints have been made to the police about a noisy gang of boys who congregate nightly at the corner of Smith and Water-sts. where there is a vacant store, throw stones, use foul language and raise a great racket. A policeman has gone to the spot two or three times, but so far, has been unable to capture any of the disturbers, who scatter quickly when they see the blue coat approaching. The violators of the peace of the community, if they do not desist, will have an interview with the magistrate one of these May mornings.

Calls Attention to Dangerous Spot

"Caution" Points Out Where Serious Fire Might Easily Start

To the Editor of the Review.

Sir.—I see by your paper of last evening that an insurance man is inspecting our yards and surroundings, with the view of determining the hazardness of fire insurance in our city. He could not have struck a worse time for us. In the rear of the buildings on the north-east corner of George and Hunter-sts., may be found enough material of the most inflammable kind to start a blaze big enough to wipe out the whole business part of the city. It is principally composed of shingles and tar felt thrown down from an adjoining roof, which has been repaired. As it covers the accumulation of the winter's filth in this congested district, and prevents the same from being thawed out and removed, it also serves to be a source of infection and a menace to the health of the city.

Yours, etc.
CAUTION.

NOW IN CHARGE

On Sunday at the Cambridge Methodist Church, Mr. Cecil Carl. Forsyth, the newly appointed organist and choirmaster officiated at both services. The following anthems were well rendered: Morning, "O be joyful in the Lord,' Schilling; evening "In Heavenly Love Abiding,' Brown; offertory chant, "Saviour again to Thy dear name we Breathe,' Custance. There was a full choir and the singing was very good.—Lindsay Watchman-Warder.

A Good Thing is Sure to be Appreciated

COWAN'S PERFECTION COCOA (Maple Leaf Label)

Is gaining in favor every day. Our output last year was double the preceding one. The most healthful and nutritious of beverages.

SALVATION ARMY BARRACKS.

Simcoe street, Adjutant and Mrs. Wiggins in charge. Sunday meetings, 7 a.m., prayer meeting; 11 a.m., holiness meeting; 3 p.m., free and easy. 7 p.m., Salvation meeting.

Half Holidays in the Summer Are Not Popular With Grocers

Those Who Handle Fruit Cannot Afford to Close Up—Fruit Spoils Too Quickly—Others Will Not Close—Dry Goods Men May Have Half Days.

In many other cities and towns the clerks in the retail stores have been talking of early closing and a half holiday during the summer months. This is a first class scheme where it can be worked out. In the majority of cases in Peterborough the proposition would meet with favor except for the fact that there are a few merchants who would intentionally violate any agreement entered into. In the past this has been done frequently.

As far as the dry goods men, clothiers, and hardware men are concerned, the half holiday could very easily be brought about. But among the grocers it would be turned down quickly. The stores all have had an arrangement whereby the doors are closed at six o'clock and half past six every night the year round, except Friday and Saturday nights, so that early closing does not effect them.

Speaking to a couple of grocers the Review was informed of two distinct reasons why they would not close for half a day. The first man said that the majority of the grocers in the city handle fruits and other perishable goods, and every hour the store is closed means that much direct loss to them. Fresh fruits cannot be kept in the summer time. The close atmosphere in the store starts decay in a very few hours and the odor from the over-ripe fruit fills the store and makes it very objectionable. Then if stores were to close for an afternoon the express companies would invariably deliver a large shipment of fruit that morning and by the next day half of it would be spoiled.

Another merchant said that he would not consent to close. If it came to a point where all the other stores were closing, I would let all the clerks go, but I would stay around all afternoon myself. In the past I have closed up and another grocer kept open and always kept open. As far as early closing is concerned, we have that now, and the clerks are making no kick. The dry goods men and other stores may close but we will not.

Ernest N. Macpherson of Cornwall, was drowned at Anaconda, Montanan, on Sunday.

Prof. Sexton has been appointed director of technical education in Nova Scotia.

INSURANCE COMPANIES LOOK ASKANCE

AT A MAN IF HE CANNOT ANSWER THE QUESTION, "HAVE YOU EVER HAD RHEUMATISM?" WITH A GOOD HONEST "NO!"

So you see how it bars happiness and comfort if you neglect the means to prevent and cure — the great

South American Rheumatic Cure

is the effective means, and while lack of provision for your "loved ones" from such a cause may be counted secondary to a life of suffering to oneself, it is one of the many sides in the study of health that we should take in dead earnest. Every disease has its symptoms — every ailment that flesh is heir to has its note of warning, and it's for us to heed or suffer the consequences; and who does not know the signs by experience or observation? — fever, chills, sweating, shooting pains, numbness, aching muscles, stiffened and swelled joints.

The great South American Rheumatic Cure gives ease from the first dose and it gently and effectually eradicates the trouble from the system. It gets at the root of the evil and it gets there quickly — most stubborn cases cured in one to three days. Influential physicians prescribe it as the best and surest cure they know of.

ALL DRUGGISTS AND MEDICINE DEALERS SELL IT. 8

SOUTH AMERICAN NERVINE makes blood that is poor and pale rich and red — and that means good health.

SATURDAY, MAY 11, 1907.

World Famed Tenor Mons. F. X. Mercies

Will Appear in Grand Opera House Here May 21st.

The world-famed tenor and artist who will appear at the Grand Opera House May 21st, in Grand Concert, is without exception, one of the most remarkable of tenors in the world today. Mons. Mercier left Toronto in 1898 for Paris, France, to study under the world renowned Bouhy, and who is known the world over as the old master, who has brought to the notice of the world the greatest artists of the day. Mons. Mercier was not destined to remain unnoticed, even in Paris, for after studying a few months with Mons. Bouhy, Mons. Mercier was chosen from 41 applicants, to fill the leading tenor role in all the grand opera in "L'Opera Comique," the home of grand opera. He was engaged for three years and was accorded an ovation at each appearance. He appeared afterwards in Covent Gardens, London, for one season and was so well received that he was engaged for a second season, where his success was marvellous. He then toured Europe, first in Grand Opera and afterwards in Grand Concert. Upon each appearance he was received in the same manner, nothing short of an ovation at each appearance.

The English press speaks of Mons Mercier as the greatest tenor and artist that ever appeared before an English audience. Mons. Mercier then toured all the provinces in France, in both Grand Opera and Grand Concert. All through the provinces he received an ovation at each appearance. This is all the more remarkable because it is well known all through Europe that any artist who can boast of a reception in the provinces of France, has certainly something to be proud of, when you bear in mind that very few of the leading artists in the world today have ever appeared in any city or town in the provinces, as the greatest critics are to be found there.

Therefore, it goes without saying that Mons. Mercier, in coming to our city, is certainly doing us a great honor, and we feel that he, in turn, will feel that the people of Peterborough can and will appreciate his appearance, by turning out en masse to hear him.

REMOVAL

On or about May 15th our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

Extensive Building Operations In Peterboro' During This Year

Complete List of Permits Issued Up to Date by the City Clerk and City Engineer Amount to $253,213—Several Permits for Buildings Already Started to be Issued Yet—Many Large Contracts Let Including New Armories and Collegiate Institute.

In the first two weeks, permits have been issued for new buildings, alterations and enlargements, in the city amounting to $253,213. This, however, does not represent the total building operations for the year, as there are still many new houses started for which permits have not been taken out, and it does not include the very large structures being erected at the Canadian General.

Although $253,000 is a very creditable showing for so early in the year and one of which the people might well feel proud, if all the buildings were totalled up, the amount would go over the $300,000 mark.

The building permit bylaw, which was advocated for years by Ald. Johnston, and this year by Ald. Stevenson, and finally put through by the Property Committee is proving to be all that could be desired. At first the people did not fully realize that they were expected to take out a permit, but since their attention has been drawn to the fact, they are visiting the city clerk's office regularly. The committee has given a ten days notice to those who have not taken out their permits, and after that the police will be instructed to take action against delinquents. Only three or four days are left, before the wheels of the law will be put in motion.

Below is given a full list of all permits issued for the year by the city engineer before the law came into force, and the city clerk, since then. Those issued by the city engineer are,—

A. W. Aresman, alteration and enlargement, of store, W. J. Johnston contractor, $5,000.

Aaron Cox estate, altering store on Hunter street, $600.

Dominion Bank, corner of Simcoe and George streets, $10,000.

A. Rountree, altering front of 418 Water street, $175.

R. H. Jackson, addition to the Crown Hotel, on Hunter street, $800.

Those issued by the City Clerk, up to Friday evening at six o'clock were

Duncan McNevan, enlarging No. 274 Sherbrooke, street, $225

Miss C. L. Smith, new house, McDonnell, street, estimated value $2,200. Contractor T. M. Caldwell.

Mrs. Hugh Davidson, enlarging No. 565 Aylmer street, estimated cost, $325. Contractors, McIntyre Bros.

Francis Maver, new house, corner Aylmer and McDonnel streets; estimated value, $3,000. Contractor, A. A. McIntyre.

Mrs. Robt. Nelson, new house, Dublin Street; estimated cost, $2,200. Contractors, McIntyre Bros.

R. H. Leary, verandah, 182 McDonnel street; estimated cost $100. Contractor, Noble Graham

John Rowe, rebuilding No. 87 Smith street; estimated cost $500.

Chamberlain Estate, altering Southern Hotel, estimated cost, $10,000. Contractors, McIntyre Bros.

Mrs. Thos. Morrow, repairing No. 170 Edinburgh street; estimated cost, $900. Contractor, W. J. Johnston.

Thos. Donaldson, new house, London street; estimated cost, $1,850. Contractor W. J. Johnston.

A. W. Turner, new house, Gilmour street; estimated cost, $2,600. Contractor W. J. Johnston.

Dominion Government, new Armories, estimated cost, $125,190. Architect D. Ewart; Contractor, Geo. A. Proctor.

Board of Education Collegiate Institute, estimated cost, $60,000. Contractors, Sheehy and Langford.

L. D. Letellier, new dwelling, Gilmour street, estimated cost $1,600.

Jas. Grady, new dwelling, Smith street; estimated cost, $1,300.

Frank Smith, new dwelling, Gilchrist street, estimated cost $1,900. Contractor, J. Haywood.

Jas. Payton, new dwelling, Maitland avenue, estimated cost, $2,000 Contractor, R. G. Hudson.

C. H. Huffman, new dwelling, Boswell avenue; estimated cost, $1,700.

Warren Hall, new dwelling, Hart avenue, estimated cost, $1,200. Contractor, R. G. Hudson.

Warren Hall, new dweling, Hart avenue; estimated cost, $1,200. Contractor, R. G. Hudson.

The George Matthews Company, Limited, are making an addition to their plant by adding another storey to the original building. This will be used for the drying of meats and the cost of the work is estimated at $2,000.

John Carlisle, new double house on Wolfe street. Estimated cost, $3,400

C. W. Fitzgerald, dwelling, Weller street; estimated cost, $1,800.

A. H. Webb, dwelling, 443 Sherbrooke street, estimated cost, $1,800

Sam Stewart, dwelling, Ross street, estimated cost, $1,100.

John Meharry, new dwelling, $1,700.

Louis Legrander, new dwelling, $1,000.

James B. Brown, new dwelling, $1,500.

William Langford, jr., new dwelling, $1,200.

William Langford, new dwelling, $850

Fined 100 Dollars For Tickling

Chicago, May 10.—Municipal Judge Walker imposed a fine of $100 and costs yesterday on William Strauss, proprietor of a meat market at 5614 State street, for tickling Regina Alt, 17 years old, until she became hysterical. Nicholas Gills, friend of Strauss, who was charged with having indulged in the same amusement, was fined $75 and costs.

Mrs Tennie Goldstein, 5642 State street, aunt of Regina Alt, said her niece went to the market to make a purchase, and the men tickled her under the arms until she fell to the floor fainting.

"The man knew I was ticklish," the girl testified, "and they thought it was great fun, but it was not so funny for me, because I was sick for a week after.

WM. GILGOUR FELL IN TRENCH

At North End of Water-st. and Sprained His Leg

Mr Wm. Gilgour, who resides at the north end of Water street, fell in the culvert and sprained his leg last night. He was returning home just after dark in the evening and, as was his custom, turned off the walk to go through his garden to the house. He forgot about the city having been digging a culvert at that point, and as it was not covered and no light was burning, he fell into the trench. His injuries are very painful.

Seeding Operations Delayed By Cold Spring and Wet Ground

Fall Wheat in Many Cases Has Been Killed - Clover Will be Poor Crop—The Harvest This Season in Peterboro' County Will be Very Late.

There is an old saying that "An early Easter means an early spring," but that does not seem to be the case this year and there was an early Easter.

In the opinion of a good many farmers this has been the most backward spring for years, and as a result, the crops this year will be very late.

A Review representative in conversation with a number of representative farmers to-day learned that very very little seeding had been done. The prospects are that the crops will be exceedingly late and not as good as previous years.

Mr. W. A. Pue, of Fraserville, was in the city to-day and stated that out around Fraserville the farmers had done very little seeding. The ground is so wet that it is impossible to do any. Speaking of the fall wheat Mr. Pue said that a good bit of it had been ploughed up and would be a total failure. The fine weather of March and then April being very cold played great havoc with it. Considerable clover was spoiled and this will make hay very expensive. The outlook for heavy crops is not encouraging.

Mr. John Smith, of Cavan, said that whilst some of the farmers were ploughing up the fall wheat and clover a large number were allowing them to go as they realized that to plough it up, they would have to seed over again. Farmers prefer to take the best of what is already planted. Seeding operations are going ahead better in Cavan than in other farming districts.

Mr. Latimer, of South Monaghan, stated that he would have only one field of fall wheat that would be any good all the others having to be ploughed up. The late spring and and cold weather apearedp to be the and cold weather appeared to be the chief topics of discussion among the farmers to-day, especially the failure of the fall wheat and clover. The majority of yoemen all have the same story to tell and do not take a very optimistic view regarding this year's harvest.

Nothing But Fodder Cheese Has Yet Been Manufactured

Pasturage in This Vicinity is Very Poor and Cattle Have Not Yet Been Turned Out Upon it—Dairy Season Promises Well.

When the Peterborough Cheese Board meets on Wednesday of next week it will be all fodder cheese that will be offered for sale. A prominent dairyman informed the Review yesterday that there was no grass worth speaking of in the country, and that farmers were keeping their milch cows in the stable and feeding them. There is as yet very little picking for live stock in the pastures owing to the backwardness of the season and even if the weather remains warm for several days it will be practically two weeks before there is good pasturage. Then too, the ground has been kept soft by the rain and snow storms and as a result the meadows would be badly cut up if the cattle were turned out upon them.

Fodder cheese, as the product of the milk when the cows are still in the stable is called, does not bring as high a price as the grass cheese, but dairymen consider that a fair price will be paid on Wednesday, as average quotations are ruling on the other Boards that have already opened for the season.

The present season promises to be an exceptionally active one in connection with the dairying industry in this district and if the prices paid for cheese are fair the farmers around Peterborough should make considerable money. The majority of them will have more dairy cattle than last year, the high prices ruling last season being an incentive to go into business on a more extensive scale this season. It is likely that a larger amount of cheese will change hands on the Peterborough Board in 1907 than ever before.

Run Over By Street Car And Seriously Injured

Clarence Miller, Fifteen Year Old Son of Mr. John Miller, Victim of Deplorable Accident.

While attempting to board an Auburn car at the corner of London and George streets, Clarence Miller, the 15-year-old son of Mr. John Miller, Harvey street, had the misfortune to have his right hand badly crushed by one of the wheels running over it. The accident occurred at one o'clock.

Mrs Martin Parnell was coming down George street at the time, and was an eye witness of the affair. She saw the boy standing at the corner. He put up his hand for the car to stop, but Motorman Rutherford, who was in charge of Auburn car No. 13, claims he did not see the boy wave his hand at all. Seeing that the car was not going to stop and being in a hurry to get to his work at the Colonial Weaving Mills, young Miller ran along with the car to jump on. The car was going at a pretty good rate and the boy was running at the west side of it. He attempted to grasp the front door, but missed it and fell. One of the wheels passed over the fingers of his right hand crushing them badly. His face was also badly bruised and his back was injured. Mrs. Parnell at once went to the boy's assistance, and did what she could to help him. Motorman Rutherford brought the car to a standstill as quickly as possible. Denoon's delivery wagon was procured, and the injured lad was placed in it and taken to Dr. Morgan's surgery, where his injuries were temporarily attended to. The Dan Spence ambulance was called and he was taken to Nicholls hospital.

At the hospital this afternoon it was learned that three fingers of the injured hand had to be amputated. The boy stood the operation well and no serious developments are expected. It is also learned that Miller had part of one of his heels cut off by the wheel of the car.

STRANGE ROCK FROM BELMONT

Mr. J. L. Aunger Makes Another Presentation to Court House

Mr J. L. Aunger, of Belmont township, presented a unique stone to the local court house. Mr. Aunger, as is generally known, is the donator of the interesting specimens of rock formation now arranged in conical form in front of the court house. They contain numerous minerals and are labelled "Minerals of Peterborough County."

A few days ago Mr. Aunger brought to the city a peculiarly shaped rock formation. It contains numerous minerals and is unique in many ways. Mr. Nesbitt is having it mounted and will have it placed in a conspicuous spot in front of the court house. Mr. Aunger found the stone in Belmont township a short time ago.

LAYING THE CORNER STONE

A Couple of Suggestions Worthy of Consideration Made by a Citizen

In speaking to the Review this morning the gentleman who first suggested a public ceremony at the laying of the corner stone on the new school buildings and the armories, said he was very pleased to see that a number of other citizens were taking an interest in it. A couple of other suggestions in connection with it were made by the same gentleman. First, he thought that the ceremony should be under the auspices of the Masonic Order. That body, he said, laid the corner stone for the new market building many years ago, and the ceremony was a very pretty one. If the Masons were interested in the affair, one thing would be assured, and that is that it would be carried through properly and very successfully. It was also suggested that Sir Frederick Borden, Minister of Militia, be urged to attend the corner stone laying of the armories, and that Hon. Mr. Whitney, Hon Mr Hanna, or Hon. Dr. Pyne be requested to lay the corner stone for the new Collegiate Institute and the new Normal School. The person referred to also thought it would be a grand thing if the corner stone for both schools could be laid on the same day, and the armories on another day.

NEW ARRIVAL HAD LEG BROKEN

Henry Cork Met With Mishap at Burketon Last Night

An immigrant train passed through Peterborough at an early hour this morning.

On board the train were Henry Cork, his wife and two children, of London, England. They intended to get off here, Mr. James Pope, of this city, being a brother-in-law of Mr. Cork. Instead they passed through Peterborough without knowing it and the train got as far as Burketon before they were aware of their mistake. They got off there and Mr. Cork was carrying a small trunk along the platform. He turned to see if his wife and child were following. In the darkness he stumbled and fell, breaking his leg. A doctor was called at Burketon. This morning Cork, his wife and family were placed on the C.P.R. east-bound express and came to Peterborough, arriving here at 11.38 o'clock. Dr. Gray, the C.P.R. physician, was notified and rendered the necessary attention to Cook, who is doing as well as can be expected.

YOU'LL NEED TO COME FOR THESE!

TREATING INSANE AS SICK

Son of Orillia Man Appointed to Illinois Institution

Orillia, May 10.—Dr. H. W. Miller, son of ex-Mayor Miller, of Orillia, formerly of Peterborough, has been appointed psycopathologist at the Cook County Institution, Illinois. Dr. Miller graduated from the University Faculty of Medicine in 1895. He has been ten years in this special work in connection with the hospitals for the insane in the State of Massachusetts.

The position is a new one, and was created as a result of the public awakening to the necessity of doing more scientific work in connection with the treatment, prevention and cure of insanity. Dr. Miller enters upon his duties on June 1.

Board of Trade Tuesday Night

Candian Banking and Foreign Investments Will be Discussed

The next meeting of the Board of Trade, and the first under the direction of the new president, Dr. Morrison, will be held in the city council chamber on Tuesday night next.

Ex-president D. Hughes Charles will read a paper on "Canadian Banking." The report of the Committee to strike the Standing Committees for the year will be presented, and Mr. A. P. Pousette's motion, re the foreign investments of Canadian Banks will be discussed.

WILL START ON OUTFALL SEWER

From Smith Street on Monday Morning

Work will start on the outfall sewer along the Grand Trunk right-of-way from Smith street to Aylmer street on Monday morning. The city engineer will lay out the sewer and the foreman will get his gang together and start digging at once. This sewer was granted by the people at the last municipal election, and will be charged up to the general taxes. It will cost about $1,500, and will furnish a sewer system for the residents in the neighborhood of Smithtown hill.

Flying Stick Broke two Ribs

Mr. Geo. Fitzgerald Met With a Painful Accident Yesterday

While working at a saw in the wagon works yesterday afternoon, Mr. Geo. Fitzgerald was struck on the side by a stick and two ribs were broken. Mr. Fitzgerald was stunned for a time, but he is able to work today, although suffering considerably.

Annual Meeting of Cheese Board

Will be Held on Wednesday Next —First Sale of Season

The first sale of cheese on the Peterborough Cheese Board will be held on Wednesday next, May 15th. The annual meeting of the Board will be held at ten o'clock for the election of officers and the first sale of cheese will take place immediately after. The meetings will be held in the Bank of Montreal—old Ontario Bank—chambers.

Mr. T. D. Young is president of the Board and Mr. John Riddell secretary. The number of factories on the board will be about the same as last year. Peterborough factory is not running this year, but Fraserville is, and the latter will take the place of the former on the Board.

SEASON OF 1907

The Great Speed Producing Sire

DIRECTUM

will stand in the vicinity of Peterboro' and Hastings for the season. SPORTY GIRLS WENT FISHING

Yesterday afternoon a party of ladies were under the influence of a brainstorm for a couple of hours and fancied that they would enjoy a fishing expedition. They induced their husbands to purchase them an entire outfit of poles, lines, hooks, flies, etc., etc., and about two o'clock the sporty ladies started for the banks of the river. Needless to say they were only out for a few minutes when the chilly atmosphere had a soothing effect upon their peculiar fever, and they began to realize the ridiculousness of their position. In the first place, they had no fish worms, and even if they had they were all so mortally afraid of the wiggling creatures that they would not touch them for the world. Next they did not know where to go and the locks bridge was too far away. They could not take a car because none of them had their purse. Then Fishery Inspector Watt was right behind them. He asked the girls where they were going and what they were going to catch. This put a damper on the whole thing, and the sporty girls decided to go home and get a couple of men to look after them.

Fined One Dollar for Stone Throwing

Three Boys in Police Court To-day for the Offence

Today was boys' day at the police court. Three boys were arraigned before His Worship on a charge of throwing stones at a London street lady's door. The boys were Ernie Marks, Chester Marks, and T. Walsh. They have made a practice of hurling rocks, and although this woman has repeatedly spoken to them they paid no attention to her. She finally decided to bring them up in police court. All pleaded guilty and were fined one dollar each, which was paid forthwith. His Worship warned the lads that if they ever appeared again, they would not get off so easily.

BICYCLE RIDING.

There was a charge against a young man for riding his bicycle on the sidewalk. The case was not proven, so he was allowed to go.

THE CITY AND VICINITY

EVENTS TO-NIGHT

Grand Opera House.—As Told in the Hills.

HIGH WATER.

The water in the river is very high today and is causing inconvenience to several persons.

FINISH HIS COTTAGE.

Mr Chris. Wood paddled down the river to Stewart's where he is building a new cottage. He expects to have it completed.

NORDHEIMER PIANO.

If you think of purchasing a piano, call at McDermid and Jury's drug store and get catalogue and booklet of the "Nordheimer Piano" of Toronto.

SPECIAL MEETINGS.

Mr Robt. McClintock and Mr. W P. Douglas, will conduct special meetings in the Orange Hall, Simcoe street, above Brown's feed store tomorrow at 3.30 and 7 p.m. All are welcome.

MR. BRACE TO SPEAK.

"A Crooked Man in a Tight Box" will be the subject of the address to be given by Rev. A. H. Brace at the Y.M.C.A. on Sunday at four o'clock. There will be special music. All men are invited.

TAKE IT TO "MY VALET."

If you have a spring suit you would like to have cleaned, ready to put on when the weather permits "My Valet" will clean it properly, press it and send it home. Both phones. Wesley Bros., 204 Charlotte-st. dtf

DR. TORRANCE'S HOUSE.

Mr John Clancy has purchased the handsome residence of Rev. Dr. Torrance on the corner of King and Rubidge streets. The price paid was $5,000.

BOUGHT HORSES.

Mr Arthur McClellan of the Ontario Coal Co., was out yesterday, and purchased a team of horses for the firm. He says general purpose horses are very high and he had to put up $450.

COOKED MEATS
SAVE KITCHEN BOTHER

—they're wholesome and economical. During house-cleaning time Cooked Meats fill the bill without a cross word. Try Kennedy's Roast Beef, Cooked Hams, Potted Veal, Jellied Hock, etc., nicely sliced and ready for the table.

Kennedy's Beef, of course, recommends itself; we cut only the best home-dressed cattle.

Let us supply your table with KENNEDY'S PURE BLENDS OF CEYLON TEAS AND COFFEES.

WILL LOCATE IN LINDSAY.

Mr Cecil Forsyth, organist and choir master of Cambridge-st. Methodist church, will, until permanently settled in Lindsay, accept music pupils on Saturdays and Mondays.—Lindsay Post.

BOILER ARRIVED.

The big new boiler for the Otonabee, the new twin-screw steamer for the Otonabee Navigation Co. arrived at the C.P.R. station today and will be unloaded and installed in the boat as soon as possible.

BIRTHDAY GIFT.

The Children's Aid Society desire to acknowledge the sum of $5.50. Birthday money, collected by the Primary classes of St. Paul's Church Sunday School.

NEW FITTINGS.

The Peterborough Show Case Company have just installed four silent salesmen for China Hall. The company has also placed a handsome, large mirror, 5 x 17 feet in Mr. Thos. Darcy's hotel, Lakefield.

EVANGELISTIC BAND.

There was a splendid meeting of the Evangelistic Band at the Y.M.C.A. last night, and excellent reports given of work being done by the members. The Band will have charge of the men's meeting on Sunday May 19.

BIBLE CLUB.

The conversation of Jesus in the Pharisee's house will be the topic at the Bible Club in the Y.M.C.A. tonight at 7.45. Rev. H. J. Keith will be present and present the claims of the foreign work. All members are urged to come.

A JILTED LOVER.

Today is the last day to see this laughable moving picture, also Smither's Academy Girls, the two for the price of one admission, 5cts. Scott's Coliseum, 432 George Street. Matinees, 2 to 5. Evening 7 to 10. Keep your eye on the date for the "Thaw Trial."

NICKEL MINE.

A report has been received from Kinmount that Mr. Hopkins of that place has recently discovered a very valuable nickel mine in Somerville township. Samples of ore have been taken and it is said that nickel exists in large quantities.

STAVE FACTORY.

A bylaw to grant a bonus to John Hayne & Co., will be voted on by the ratepayers of Marmora village on Monday, June 3rd. Hayne & Co intend building a head and stave factory and it is proposed to grant the firm ten years' lease of the land required and to exempt the property from taxation.

748 DOG TAGS

Up to Friday evening the city clerk has issued 748 dog tags. The past few days the applications for tags have been coming in rather slow, but after the police bring a few more owners before the Magistrate, others will get busy and take out their licenses.

GREAT CHECKER PLAYER.

Mr Van Buskirk, of Barrie, is in the city. He is an expert checker player, and has managed to defeat all the star men at the Young Conservative Club rooms. Some exciting contests have been fought out during the past few nights. Mr. Van Buskirk's most formidable opponent is Mr J. S. Waldron, the local leader in the game.

ATE POISONOUS LEAVES

A Kingston despatch says:—Vera, only daughter of William Close Moscow, aged seven years, with the teacher and the rest of the school children, went to the woods on Arbor Day. She was taken ill the same night and died this week. It is supposed that she ate some poisonous leaves, which caused her untimely death.

TIMBER RETURNS.

Representatives of the Peterborough Crown Timber office will receive timber returns for the past season's cut at the following places and times; Burnt River, May 13th, from 1.15 till 5 o'clock; Haliburton, 14th, all day; Lochlin, 15th, in the morning; Minden 16th, till the afternoon train; Fenelon Falls, 16th, in the evening; Bobcaygeon, 17th; Coboconk, 20th, afternoon and evening. Norwood 21st.

JUNK DEALERS AT LINDSAY.

Junk dealers are plentiful in our town at present. Many of them are of the migrating class and just come around for the busy season. Two Jews, the Zitto brothers, are in town at present. E. Lendow, another Hebrew from Peterborough, visited citizens in search of rags, rubber and scrap iron recently. Today George Doig, a blind man from Peterborough, had a load of scrap iron weighed on the market scales. —Lindsay Post.

MR. KNOWLES' CONDITION.

The Galt Reformer says; Dr. T W Vardon this morning informed us that Rev. R. E. Knowles, who, with his family, has been recuperating in the Southern States, as a result of the injuries which he received in the recent railway wreck near Guelph, will arrive home in Galt tomorrow. Mr. Knowles is much improved in health, but he finds that the Southern climate is becoming too warm and he does not wish to expose himself to a relapse. The news of Mr. Knowles home-coming will be welcomed by his host of friends and acquaintances.

New Steamer Will be Launched

In About Ten Days—Boiler Will Arrive To-day

The new steamer Otonabee is rapidly approaching completion. The launching will take place in the course of a week or ten days. There has been some delay in getting the new machinery fully equipped, otherwise the Otonabee would have been ready for commission by Victoria day. The boiler, which weighs 12 tons, is expected to arrive today and on arrival will at once be placed aboard. The new boat is supplied with triple expansion engines, of 125 horse power each. One of these is already in position and the other will be placed at once. These engines weigh three tons each.

COBOURG GETS THE LAKE FERRY

A Cobourg despatch says, —After negotiations extending over some months the town of Cobourg, and the G.T.R. officials have at last completed arrangements for the Grand Trunk Ferry. The lease has been signed by the Mayor and the corporate seal attached, and yesterday it was sent back to Montreal. A few of the provisions of general interest are: The yearly rental to be paid the town of Cobourg is $2,500, in equal payments of $1,250, on June 30 and Dec. 31. The first payment is to be made, Dec. 1907. The lease is between three parties—the town of Cobourg, the G.T.R., in conjunction with the Ferry Co. and Buffalo, Rochester and Pittsburg Railway Co., to operate a ferry for loaded and unloaded cars, passengers and other traffic across Lake Ontario. The lease is for a period of 25 years, with privilege of renewal for three consecutive terms of 25 years each. There is nothing in the lease to interfere with legal claims of citizens along the street where the track now runs, for damages, if any, by construction of additional track. In case of increased traffic, the crossings are to have protection as directed by the Railway Commission.

The final settlement is most satisfactory to the citizens, who are glad to know that the matter is so amicably concluded. The Town Council has the endorsation of the Board of Trade to the resolution passed, authorizing the final settlement and signing the lease.

NEW STRIKES AT LARDER LAKE.

Blue Bell Makes a Wonderful Showing.

New Liskeard, May 01.—Word has just been received from Larder Lake of two wonderful gold strikes made by the Blue Bell Company. One strike was made at the east end of the lake and one at the west end, where this company has large holdings. It is said that after the blast was fired some of the ore hung together by the pure wire gold and that the vein exposed showed gold in plain view.

This strike was made on the properties owned by the Blue Bell Company at the east end of the lake.

The other strike is on the property near the west end, where the Blue Bell Company has established another camp and where the company's engineers have installed an assaying office for their own special use.

This strike is said to have developed a quartz vein exceeding 100 feet in width, which shows free visible gold in astonishing quantities. It has been decided to instal the stamp mills which are on their way at this point and order another mill for immediate delivery for the property at the east end of the lake.

One Ingredient of
Zutoo

Is soda—just old-fashioned soda, that our grandmothers took to settle the stomach.

The principal ingredient—the one that stops the headache, is a vegetable ingredient, imported for us from Japan. It wont hurt you any more than will the soda.

The other ingredients of Zutoo are just as harmless.

If you knew what the drug cures contain, and their ultimate effect on the system, you would discard them at once and take Zutoo, which is harmless as

Soda.

PERSONAL

Mr. John Finlay, M. P., of Norwood, was in the city today.

Mr Maurice Welch, of Bobcaygeon, was in the city today.

Mr J. Irwin, of Lindsay, was in the city yesterday on business.

Rev Father McGuire, of Downeyville, was in the city yesterday.

Rev J. G. Lewis will preach in the Lakefield Methodist church tomorrow.

Mr E. H. Farrow, of Belleville, spent a day or two in the city this week

Messrs. T. L. Hayes, and W. G. Hayes, left yesterday for Edmonton, Alta.

Mr Wm. Rudkins, of the Inland Revenue, and Mr. J. W. Fitzgerald, P. L. S., of Peterborough, were guests of Rev. Father McGuire on Sunday last. — Downeyville correspondent to Lindsay Post.

Messrs. E. H. D. Hall, R. B. Rogers, and J. C. Shook will leave on Monday evening for a trip to California, and up the Pacific Coast to Vancouver, and back via the C.P.R. They will be gone a month or six weeks.

Rev R. V. Bingham, of Toronto, is in the city, the guest of Mr. H. W. Stock. Mr. Bingham is the superintendent of the United Soudan Mission. Africa, and will speak in Bethany Tabernacle tomorrow morning

Mr. A. A. Mulholland, Liberal candidate for East Northumberland was in town yesterday. He and Mr. Grant, of Peterborough, superintendent engineering department of Trent Canal, left for Ottawa. — Trenton Courier.

CONSOLIDATED SCHOOLS

Inspector Mills of Simcoe Calls Them a Failure.

After a personal inspection of the schools of Massachusetts, G. K. Mills, inspector for public schools for North Simcoe, has come to the conclusion that consolidated schools are not a success. The conditions in Massachusetts are much more favorable for consolidation than they can be in Ontario for many years to come; the population is dense, and there is far greater wealth within any given area, yet the system has failed.

Mr. Mills thinks that it would be better for Ontario to go along on its present lines, especially, he says, as the rural schools of this province are much better advanced in all branches than any of the consolidated schools he visited, either in Massachusetts or New York State.

BE BRIGHT—WELL—STRONG

BUILD UP WITH FERROZONE

Ferrozone Adds Vigor and Strength to the System, Purifies and Enriches the Blood, Vitalizes the Nerves and Assures Permanent Good Health.

Let your fight for health begin now, before you feel any warning of physical collapse.

Your whole system needs a thorough cleansing. Likewise, the blood should be purified, made rich and nutritious.

The one cure for that tired, drooping feeling is Ferrozone, the acknowledged king of all tonic medicines.

To restore your appetite you need Ferrozone, certainly you do.

You need it to restore your nerves and to enrich your depleted blood.

The strongest reason why you need Ferrozone is because it will build up your run-down system and make you well.

It's because we know Ferrozone is absolutely certain to cure that we urge everyone in poor health to use it. If depressed, tired, nervous, sleepless, Ferrozone will make you cheery, bright and happy, because it will make you well.

FERROZONE
A Good Appetizer.

MR. AUBREY E. TEMPLEMAN, of Mechias, writes: "I have found the greatest satisfaction in using Ferrozone, and consider it is the best tonic made. I was all run down a few months ago, and in a very miserable state of health. I took a few boxes of Ferrozone, and was surprised at the result. Ferrozone drove away that dull, heavy feeling, and put my system in splendid order. I am never nervous or sleepless, and have a hearty appetite. This is all due to Ferrozone, which I recommend in the strongest way possible."

FERROZONE
Gives Real Vigor.

MRS. NORMAN MACADAM, of Bridgeport, writes: "I am in good health to-day as the result of Ferrozone. Before using Ferrozone I was tired and miserable, lacked energy and ambition. But Ferrozone altered all that. It has built up my system, and given me more real vigor than I ever had before. Ferrozone is a good tonic."

Ferrozone Makes the Weak Strong—the Sick Well

Ferrozone is sold only in 50c boxes, containing 50 Ferrozone Tablets. Six boxes for $2.50. At all dealers or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Violation of Duty on Part of Directors of the Company

Chancellor Boyd's Decision on the Appeal From Order of Local Master—There Was Breach of Trust and Directors are Rendered Liable to Make Good as Damages all Sums Required re Winding up Order.

In the matter of the appeal by the Liquidator from order of Local Master at Peterborough, refusing to place the names of directors of the Peterborough Cold Storage Co. upon the list of contributories in respect of shares transferred to other persons before payment of first deposit on shares, heard at Osgoode Hall, Toronto.

R. E. Wood, Peterborough and W. E. Middleton for the liquidator.

D. O'Connell, Peterborough, for the directors.

Chancellor Boyd; The letters patent for this Company issued on 13th November, 1903, incorporating the original subscribers to the memorandum of agreement and such others as should become subscribers for stock therein. Subsequent stock was applied for and obtained by other shareholders upon the terms of paying a deposit of 25 per cent. of the par value of the stock, and an agreement to pay a further sum of 25 per cent. upon allotment. This was in effect a down payment of 25 per cent on stock at the time of subscription and it imports a like liability to be undertaken by the original shareholders at least when the charter was issued. But the original corporators avoided making such payment of 25 per cent. and took steps to get rid of the bulk of their stock by transferring it to persons of little or no substance not a great while before the Company's insolvency. Middleton, a director, one of the chief actors in the affairs of the company, puts it graphically thus; "The matter was growing worse and worse and we thought it better to get out of it. This transfer of stock by the directors en bloc is impeached upon this appeal.

POSITION WELL FOUNDED

I think the position taken by the appellant is well founded, viz., that the directors were incapacitated from making the transfers while yet the twenty-five per cent—representing the first payment on the shares—was an outstanding liability. The transaction is within the mischief guarded against by section 30 of the Act R.S.O. 1897 ch. 191. That enacts "that no share shall be transferable till all previous calls thereon have been fully paid." Technically there was no call made, but there was 25 per cent. exacted from the subsequent subscribers for shares by the directorate and they excused themselves from making a like contribution to the funds of the company. True it is that little money was paid by the subsequent subscribers, because few had it available, but their promissory notes were taken as an earnest of payment. Nothing, however, was given by the directors in respect of this first payment of 25 per cent. and they thereby discriminated against the subsequent shareholders and in favor of themselves in a manner contrary to the legitimate method of assessing unpaid stock. Such stock should be got in or called in or assessed so that an equal burden fall upon all the shareholders. The directors abused their position in calling upon the newcomers, and passing by themselves; Alexander v. Automatic Telephone Co.—1900— 2 Ch. 56. Upon the issue of the letters patent they became liable without more to pay for the stock subscribed for by them;' Re Haggart Bros. Manufacturing Co., 19 A.R. 582; the time when it should be called in was in their hands but they indicated that time when they expected the 25 per cent. upon the subscription by new shareholders. The shares of the directors were held in the same way and upon the same footing as those upon which 25 per cent. was got in, and I think the fair reading of the statute places these directors in the list of shareholders who were in default when they assumed to make the transfers and unload their own burden upon impecunious people. This ground would justify the success of the appeal.

IN A FIDUCIARY POSITION.

But again the directors, in consideration of applications for the transfer of shares under sec. 28, are in a fiduciary position, and are called upon to act with due regard to the interests of the company. They are given discretionary powers to guard against transfers being made of stock not paid in full to persons of insufficient means. Here the directors were all in the same boat, making transfers of their own stock for their own benefit, or rather for their own relief, in view of impending complications and, apart from the question of their being disqualified absolutely, it was incumbent upon them to exercise special care and precaution in procuring responsible transferees. Reading the evidence and regarding all the circumstances, and the absolute impossibility of making anything out of their transferees, I think the conclusion is most persuasive—nay, irresistible—that they acted to the manifest detriment of the company, and with the sole view to protect themselves as shareholders, contrary to their duty to guard against improper and illusory transfers.

GEORGE CARTON EMPLOYED.

The manner of acting was unique. The directors new their position that The directors knew their position, that, according to the statute, it was necessary for them to get rid of liability for the 25 per cent. before they could make valid transfers. They accordingly employed Mr. Geo. Carton, the promoter of the company, to procure persons who should take over their stock and clear the preliminary payment required. He had no difficulty in procuring five persons who were willing to take over all the directors' stock (except one share reserved for each director) on representations made to these persons, that if they gave promissory notes for enough to pay the 25 per cent., without interest, for 6 months, they should become directors paid as to four at least out of the five, that they would not be required to pay a cent, as Mr. Carton would provide for the disposal of their stock afterwards.

NOTES HANDED OVER.

These notes were made payable to the company by the five and were handed over apparently in breach of the understanding before the transfers of stock were made to them by the directors. This was apparently in pursuance of an agreement between Carton and the directors by which the notes were to be regarded as the payment by the directors of the 25 per cent. This was an ingenious device to get round the statute, but the lack of reality is shown in the fact that the notes were not made payable to the directors and indorsed by them to the company, that the directors evaded making themselves liable, that money could not be procured from the transferees and so by this kind of shuffle, the directors evaded any personal liability and put forward forward men to take their place who could not make the down payment. In other words the directors cleared themselves at the expense of the company. Had they given their own notes or taken notes from the transferees and indorsed them to the company their position would be essentially different. Carton seems to have taken pains to ascertain the financial standing of the men he dealt with. I should say he knew they were unsubstantial quoad the burden to be assumed, and abstained from inquiry.

Carton found the persons who were to be transferees; he did not divide the amount to be taken as originally contemplated by letter of August 23rd, 1904, but he says: "I gave $6,750 to Wilson because I looked on him as better able to carry it. Some of the other men were not in a position to take $1000, and I got Cochrane and Wilson to take the overplus."

The other names are Whiton, Hanna and Bell.

COCHRANE AND WILSON.

Two of the directors, (Mr. Carton brother of George) and Middleton, were appointed as a committee of directors to inquire as to Cochrane and Wilson. What they did was to go to Mr. Campbell, manager of the Bank at Peterborough, and get him to telegraph to the manager of the Bank at Port Hope, Mr. Lamprey. Mr. Lamprey recalls being asked about two names, which he cannot give, and he made inquiries of Mr. Chalk, carriage maker of Port Hope. Chalk says he was asked as to Wilson Cochrane and Ballagh, but that he did not know anything about them at all. Mr. Lamprey says he made no other inquiries from Chalk, and he was told the two men he asked about were in good standing, but nothing was said about how much they were good for. Mr. Campbell says inquiry was made by Carton and Middleton as to Wilson, Cochrane and Ballagh, and he ascertained from Lamprey that he knew Wilson and he would find out as to Ballagh and Cochrane. In the result he could find out nothing about Cochrane, but that Ballagh and Wilson were good men, but can't say if any amount was mentioned. It appears that the dealing with Whiton was not carried out: he gave a note but it was returned to him, and Ballagh was nominated to take his place. So that I leave out any consideration of Whiton's standing. The directors appear to have had no evidence or information as to the standing of Cochrane, but it in evidence that he had not cash to pay the note at the time, nor is he now able.

NO PROPERTY TO PAY.

As to Wilson he had in fact no property to pay for the stock transferred; he was then and is still in debt. He had a cheese factory mortgaged, in which he values his equity at $400; he rents a farm and gets an occasional credit for $1,000 in the bank on the credit of shipments of cattle, when he does a little business as drover. Such is the man who is made responsible for $6,750.

As to the others, Bell is a street car conductor, who has nothing, and had nothing at the time. His wife had some property five years ago, btu that was gone when his note was given.

Ballagh's reputation in the neighborhood was that he was not able to pay; he was examined and said he never could pay. His mother had a farm which he worked, and so was spoken of as a farmer.

Hanna's wife had a house on Charlotte Street, but he had no property when the note was given. The only means of payment, and this he made known to the directorate, was his claim to be paid some commission for selling stock of the company, which he estimated at about $400 or $500. This, however, was only to be paid when the cash was actually received on the 25 per cent. subscribed for by the shareholders subsequent to the patent, and it is altogether a remote and at present, a vanishing quantity.

PERFUNCTORY ENQUIRIES.

To my mind, the enquiries made, were of a highly perfunctory character. The directors were acting with the admonition of the statute, in view, but as Mr. Middleton says, broadly, while they made all enquiries that the statute required, it did not require that they should find out to a cent. If they were satisfied with what was the result of their information and enquiries, the satisfaction was, I think, prompted more by the exigency of their position than by their desire to protect the company. Their duty conflicted with their interest, and some more cogent evidence would be needed to enable one to see that the statute had been complied with, and not evaded.

The proper rule of the law is that a director is so far in a fiduciary position towards the company that he cannot exercise or refuse to exercise the powers vested in him as director, against the interests of the company, and that he must exercise his powers for the general interests of the company: per Cotton L.J., in re Cawley, 42 Ch.D. 233.

The intent of Section 28, may be expressed by adopting the language used by Turner L. J., in Bennett's case, 5 De G.M. & G. 299, viz., that the directors of the company should be placed in a position which would enable them upon each proposed transfer to secure to the company a solvent and responsible transferee.

KEPT IT TO THEMSELVES.

The directors kept from the knowledge of the shareholders the fact that the shares held by the directors, were treated, as far as the preliminary payment went, on a different footing from the shares subscribed after the patent; they kept from the knowledge of the shareholders, the fact that they had disposed of all their shares except one, which they retained for the purpose of carrying out the transfers and changing the directorate. They acted throughout with the knowledge, either direct, or through the agency of George Carton, that the transferees were not of sufficient substance to pay in cash, for the shares transferred, nor for the second payment of 25 per cent. which was to be made upon the allotment of stock—that being allotted on July 6th, 1904—although the payment was postponed until the directors accomplished the transfer of their stock.

I do not think that the transaction can be upheld. There was a violation of duty on the part of the directors—a breach of trust—which renders them liable to make good as damages any sums which in the winding up may be required, and which cannot be made good by the ostensible transferees, who are to be called upon in the first instance.

The appellant is to be paid by the respondents his costs of this appeal.

PILES CURED AT HOME BY NEW ABSORPTION METHOD

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box P, 62, Windsor, Ont.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BELLEVILLE'S BIG HOTEL

The contract for carpenter work for the new Hotel Quinte at Belleville, has been awarded to Wm. Atford of that city, the stone work and brick to Thos. Manley, and the iron work to the Hamilton Bridge Company. The hotel will cost $125,000. The city council has granted an assessment of $10,000 for fifteen years with city water at $100 per year. The Ontario Government passed a special bill giving the council power. Work has already commenced.

Able Lecture by Rev. Mr. Pedley

Delighted Large Gathering in St. Paul's Church

There was a large and appreciative gathering in the Sunday school room of St. Paul's church last evening to hear Rev. J. W. Pedley, pastor of the Western Congregational church, Toronto, deliver his celebrated lecture on "Mrs. Wiggs of the Cabbage Patch." Mr. Pedley appeared in Peterborough last year, and is therefore, no stranger here. His lecture last night was full of wit, humor and pathos, replete with common sense and choice bits of wisdom. He reviewed the interesting narrative of Alice Caldwell Hegan in a most entertaining style, and gave a graphic description of the different characters in the book.

At the close a hearty vote of thanks was tendered the speaker, on motion of Mr. John Carnegie and Sheriff Hall.

Rev. Dr. Torrance presided and, previous to the address of Mr Pedley, an enjoyable musical programme was presented. Misses Gladys Crane and Mattie Robertson gave a piano duett in admirable style, Miss Davies sang a solo most acceptably, and the quartette composed of Messrs. Crane, Nelson, Gillespie and Bennett favored with a vocal selection, Miss Davies taking the solo part.

The lecture last night was given under the auspices of the Faithful Workers Mission Band of St. Paul's church.

WILL ARRANGE FOR BANQUET

Executive of Retail Merchants Association to Meet Monday Night

A meeting of the executive committee of the Retail Merchants' Association, has been called for Monday night at eight o'clock in the Y.M.C.A. parlors. The object of the gathering is to arrange for the merchants' banquet, and while the entire executive has been authorized to handle the affair, it is probable that a small sub-committee will be appointed to carry it through.

Unique Effect in Window Dressing

Something Out of the Ordinary at Laidlaw & Ole's Store

Something unique in line of window dressing can be seen in the handsome premises of Laidlaw and Oles on Hunter street. The horizontal bars on an upright frame have been decorated with handkerchiefs and neckties in a manner that produces a beautiful and striking effect. The handkerchiefs, neatly folded, are first placed on the bars and then over each one is placed a necktie. The white handkerchiefs form a very pretty background, and the many hued ties on top of them, make an exceedingly pretty picture.

This is the first time that a window dressed in this manner has been seen in Peterborough. The idea originated with one of the leading window dressers in New York city and goes to show what a striking effect can sometimes be obtained by the proper arrangement of simple and ordinary material.

Twelve Silver Medals Offered

And a Silver Cup for City Baseball League by C. R. Banks

A first class offer is made by Mr. C. R. Banks, the sporting goods man, to the City League. Mr. Banks is city agent for the Garrett base ball and he has been authorized to offer twelve silver medals and a silver cup or a championship pennant for competition if the league uses the Garrett ball.

The letter to Mr. Banks read in part as follows,—"In reference to the Garrett ball for the season of 1907, if your city league will adopt the ball you may offer for competition twelve silver medals, a silver cup or a championship pennant."

In addition to this valuable offer, Mr. Banks will give a $2.50 finger glove to the first player in a city league game, making a home run.

As yet no city league has been formed, but the above offer should arouse the baseball fans, and create enough enthusiasm among the boys to get the game started. As soon as the league is organized, Mr. Banks will communicate his offer to the officers.

As far as the Garrett ball is concerned, it is well known to all ball players. It is used largely in the city now, and is looked upon by many as the best ball made. It is used entirely by the Toronto City League, and has a large sale throughout the province.

Mission Work in Far off China

Centenary Will be Observed Tomorrow at St. Andrew's

At St. Andrew's church tomorrow, the centenary of Robert Morrison's entrance upon mission work in China will be celebrated. At the evening service, the pastor, Rev. J. G. Potter will take as his subject, "Greater works than these shall ye do." The Praise service will be as follows,—Morning anthem, "From every stormy wind that blows,' Stowell; solo, "Sweet Spirit hear my Prayer,' Mrs. F. W. E. Davidson. Evening anthem, "The King of Love My Shepherd is,' Shelley. Duett, "My Faith Looks up to Thee,' Mr. and Mrs. Greenslade. Solo, "Come unto Me,' Lindsay, Mr. Fred C. Freeland.

In use since the Reign of George IV—and never equalled.

Lea & Perrins' Sauce

—makes even a poor Dinner taste Good.

Good Grocers will give you the Genuine! 127 J. M. DOUGLAS & CO., (Est. 1857.) Montreal, Canadian Agents.

St. Andrew's Choir Held Meeting

Officers Elected by the Members of This Musical Organization

At the regular weekly meeting of St. Andrew's choir on Thursday night at the conclusion of rehearsal, an organization meeting was held, when the following were elected officers,—

President, Mr. James Gerrard.

Secretary, Mr. Fred C. Freeland.

Mr. Freeland was the energetic and efficient secretary of the Centenary Methodist Church Choir in Hamilton for a number of years, during which time, his services were highly appreciated.

BIG CROWD AT ROLLER RINK

Mr. V. Fowler Won the Prize Last Evening

One of the largest crowds of the season was present at the roller rink last night, when the feature of the evening was the contest for gentlemen, skating alone. The judges were Messrs. C. E. Frost, Harry Morgan and J. H. Smith, and they had a difficult task to pick the winner out of the fifty or seventy-five skaters who entered. The judging lasted nearly half an hour, and resulted in Mr. Victor Fowler being awarded the prize, a handsome gold ring. The presentation was made by Mr. Fred Whitcroft, amid much applause.

The band furnished excellent music during the evening, and everyone present had a most enjoyable time.

Are Supporting Teamsters Demand

Trades and Labor Council Says Wages Asked are Not Exborbitant

The committee appointed from the Trades and Labor Council to deal with the teamsters' strike and obtain all information possible, pro and con, bearing on the trouble, did not bring its report last evening, owing to the unavoidable absence of one or two members. It is understood however, that the committee (which was empowered to act in the name of the Trades and Labor Council) is unanimous in supporting the teamsters in their demand for increased pay, and feel that such demand is far from being exorbitant. The committee commended Alderman McIntyre's stand on the question and criticized the attitude of certain aldermen, who are members of trades organizations, and who fail to see the justice of the teamsters' demands.

OTTAWA, ONT.
232 Cooper St., Jan. 8th, 1906.

You know what fearful trouble I have had all my life time from constipation. I have been a dreadful sufferer from chronic constipation for over thirty years and I have been treated by many physicians and I have taken many kinds of proprietary medicines without any benefit whatever. I took a pill for a long time which was prescribed by the late Dr. C. R. Church, of Ottawa. Also for many months I took a pill prescribed by Dr. A. F. Rogers, of Ottawa. Nothing seemed to do me any good. Finally I was advised by Dr. Rogers to try "Fruit-a-tives", and after taking them for a few months I feel I am completely well from this horrible complaint. I have had no trouble with this complaint now for a long time, and I can certainly state that "Fruit-a-tives" is the only medicine I ever took that did me any positive good for constipation. I can conscientiously recommend "Fruit-a-tives" to the public as, in my opinion, it is the finest medicine ever produced.

(Signed)

JOHN COSTIGAN.

IN THREE MONTHS "Fruit-a-tives" did what Doctors and drugs failed to do in THIRTY YEARS.

"Fruit-a-tives" cured the Hon. John Costigan of the worst case of chronic Constipation that the leading physicians of Ottawa ever saw. "Fruit-a-tives" gave this famous statesman what he had not had for 30 years—perfect health.

Mr. Costigan gives the credit where credit is due—to "FRUIT-A-TIVES"—the one remedy that can, and does, cure Constipation.

Fruit-a-tives
OR FRUIT LIVER TABLETS

are the only remedy in the world really made of fruit. Juices of fresh Apples, Oranges, Figs and Prunes are so combined that the well known medicinal action of the fruit is increased many times. Tonics are added, and the whole pressed into fruit liver tablets.

"Fruit-a-tives" owe their wonderful power, and their wonderful success, to the fact that they are made of fruit—that they ARE fruit, INTENSIFIED.

It is the medicinal principles of fruit that can restore the great eliminating organs—the Kidneys, Bowels and Skin—to their normal condition. That is why "Fruit-a-tives"—made of fruit—cure Constipation and cause the bowels to move naturally—correct all Stomach, Liver, Kidney and Skin Troubles—and build up the entire system.

If you are suffering as the Hon. John Costigan did—CURE YOURSELF as he did—with "Fruit-a-tives."

50c. a box—or 6 boxes for $2.50. Sent on receipt of price if your druggist does not handle them.

The Daily Review

SATURDAY, MAY 11, 1907.

CANADA'S WATERWAYS

(Toronto News).

Four admirable articles on the St. Lawrence route have been contributed by Prof. S. J. McLean, of Toronto University, to recent numbers of The Railway Age. They deal with the subject in great detail and together form an invaluable historical and statistical description of the waterways from the Soo to the Atlantic and their economic potentialities. Prof. McLean deals first with the Canadian canal system and its gradual growth from 1829, when the Welland Canal was opened with a depth of 7 1-2 feet, until 1900, when a fourteen foot depth was secured from Lake Erie to Montreal. The total expenditure of Canada on the canal system has been $111,600,000. Yet a statistical table shows that of the grain shipped from Port Arthur during 1906, only 21.5 per cent. was destined for points east of the Welland Canal. At the same time the shipments to Georgian Bay and Lake Huron ports for shipment to the seaboard by rail amounted to 59 per cent. The reasons given by Prof. McLean for the advantages which the railways enjoy are: the inability of the Welland Canal to handle vessels drawing more than 11 feet without lightering the cargo, and the movement north and west of the cereal belt making the rail routes more direct. Six times as much freight passes through the Canadian Canal at the Soo as passes through the Welland Canal.

Naturally the tendency to more direct routes brings under discussion the projected Montreal, Ottawa and Georgian Bay Canal, as an engineering proposition, is perfectly feasible, though its cost would be perhaps $100,000,000. This waterway would utilize French River, Lake Nipissing and the Ottawa River, and would reduce the distance by water from Port Arthur to Montreal by 414 miles. It is said that by this route wheat could be laid down in Montreal at 3 cents a bushel. It is generally admitted that ultimately this canal must be constructed by the Canadian Government, but with the Federal Cabinet facing the building of the Grand Trunk Pacific, it is quite certain that no $100,000,000 canal will be in operation in the near future. Furthermore, Prof. McLean points out that even if the money were available the Government would be forced to consider the effect such competition would have on the Welland and St. Lawrence Canals.

As to the Trent Valley Canal, the writer thinks it unlikely that it can ever be a serious competitor with the railways for through freight, for, aside from the fact that it can accommodate only vessels of 6-foot draft, it has a long and circuitous route, and a total lockage of 850 feet. Prof. McLean, before dealing in his third article with the facilities of Montreal harbor, devotes some attention to the rosy dream that some day it will be possible to ship direct in ocean steamers from Port Arthur to Liverpool. He contends that while the thing is physically possible, it could not be an economic success, for the size of the vessels would be limited by the length of the canal locks, and it is the larger steamer on the Atlantic which makes the profit. Moreover, a vessel fitted for ocean voyages would cost 30 per cent. more than a lake vessel of the same size. The through freight for Montreal by way of the Welland Canal was 584,246 tons in 1897. But the opening of the Parry Sound Railway route caused a marked decline in this, and in 1905 the tonnage was 448,704. Accordingly, there is a demand for the deepening of the Welland Canal. But it is said that unless all the St. Lawrence Canals were also deepened this would possibly result in increased shipments to Oswego and Ogdensburg. As it is, the corn receipts of Ogdensburg are equal to two-thirds of the corn receipts of Montreal.

So far the expenditure of the harbor of Montreal has been $9,500,000, and the revenue comes from wharfage rates. It has been urged that the Government should make the port free and assume its liabilities, but this policy has not been adopted. "The improvements which must still be made," says Prof. McLean, "if the harbor is to keep pace with the expanding demands of trade, will necessitate increased revenue. The only source of revenue is to be found in additional burdens on the traffic of the harbor. To pursue such a policy might deflect traffic to other ports." The jurisdiction of the Harbor Board covers about nine miles of water front. The wharfage is about 6.251 miles, of which one-third will accommodate vessels drawing from 27 to 30 feet. The rest ranges from 20 to 27 feet. Elevator facilities can accommodate 4,000,000 bushels of grain, and this should be increased. Prof. McLean considers the crux of the situation to be the St. Lawrence River below Montreal, and he discusses with great particularity the advantages and disadvantages of the land-locked journey to the sea.

PEN POINTS

Hon. A. B. Aylesworth is now acting minister of public works. Port Hope will please take notice and apply for anything desired.

Clean up your yards. One man busy with a rake is an inspiring sight and such is the force of example, and the influence exerted, that others are bound to follow.

Have you registered your dog? It is cheaper to take out a license than pay a fine in police court, in addition to the dollar tax.

Bell street Methodist church, Ottawa, will have free pews and free entertainments. This should draw the people to church both on Sundays and week days.

Another well known public man has joined the silent majority, in the person of Mr. G. F. Marter, former leader of the provincial Conservatives. Mr. Marter was a strong, consistent advocate of temperance, and at all times had the courage of his convictions.

Sir Wilfrid Laurier's chauffeur was fined for excessive speed limit in London, the rate of the automobile being nineteen miles an hour. Who would have thought that the premier would "go the pace" so soon. He might, at least, have waited until he had reached gay Paris.

Outside a Polish church in North Winnipeg a notice was recently seen announcing that a drama would be given on the next Sunday, to be followed by a dance, at which the admission fee would be 35 cents. It is understood that members of the Winnipeg Lord's Day Alliance have had their attention called to this and the peculiar circumstance of the new Sabbath Observance Act being enforced against a church congregation is a probability.

The appointment of Sir Sandford Fleming to the vacancy in the Ottawa Improvement Commission is plainly the result of a happy thought on the part of the Government and should be approved by Ottawans and others. Sir Sandford is a former resident of Peterborough and has many warm, personal friends in this city. It is to be remembered, however, says the Ottawa Journal, that the work already done by the commissioners has abundantly demonstrated the fact that the board has been in no great need of strengthening.

The Pennsylvania Legislature is considering a new child labor law. At present Pennsylvania's position is not one to be proud of. The provisions of the law of 1903 that were regarded as the most valuable safeguards against the working of factory children in mines and factories, having been declared to be unconstitutional, this state has a larger proportion of working children than any in the union, falling below even Alabama on the roll of dishonor. Among the northern states, Pennsylvania and Rhode Island alone fix the limit of compulsory school attendance at 13 years, a fact that may account for the continued decline of the former state in the matter of literacy. In 1890 it was the sixteenth in the list, but at the last census it had fallen to the twentieth place.

"Help us keep the city clean," is plainly lettered on the waste barrels on Boston's streets, and the Herald of that city observes:—"All good citizens should respond with hearty interest to the appeal. The words are fit to adorn our public buildings, both inside and out, as well as our streets. And however large the work they suggest, if everyone will help a little we shall have a city that will advertise itself favorably." If the public of Peterborough will co-operate in such a movement much will be done to increase the beauty of the city. What excuse has anyone for throwing a banana peeling, for example, on the street, a circular, a portion of a newspaper, or the torn piece of a letter? If every citizen will refrain from these things he will be greatly surprised at the wonderful improvement that will be thus brought about in the general appearance of the city.

The consuming public is so used to receiving the information that every kind of raw material has been advanced in price by those who control the supply that buyers of printing will not be greatly surprised to learn that nearly all kinds of paper have been advanced in price from eight to ten per cent. One week printers receive notice that good pulp boards have gone up; another week that all book papers have advanced; then comes notification that coated or enamelled papers have been raised in price; then cardboard stock is on the incline, and that print paper is to be elevated a notch. This demand for advanced prices in the cost of paper must necessarily fall upon the consumer at large, for the printer has already all the burdens he can possibly carry in the general advance of labor and supplies and the 8 hour day. Buyers of printing may, therefore, reasonably look for an increased cost in all kinds of printed matter; and the duplication of orders at former prices is scarcely to be expected to continue.—Montreal Gazette.

Many a man with splendid ability gets on the rocks because his ability is not well directed. The finest ship in the navy without a rudder and a mind to direct it is only a menace to human life. There are plenty of people, too, who work hard enough, but they never get out of the "dog trot" of life. A moderate amount of ability is all that is needed to get on in life. When to this is added a mind to work and a straight aim you get the combination that wins out every time. There are so many with ability and capacity for work who never "get there." They don't get far enough. They fall by the way. They never finish anything and make a clean job of it. There are a hundred of those who make a bluff at a job to one who carries it through to a satisfactory completion. That is why the proportion of success in life is as small as it is.—Canadian Baker.

Mr. Todd Replies to Criticism of the Ministerial Association

Says the Resolution Passed by That Body is "Unkind Unchristian and Uncalled For"—He is, However Not Going to Lose any Sleep Over the Matter.

To the Editor of the Review.

Sir,—I shall have to ask permission to reply to a resolution of the Ministerial Association, which appeared in your issue of Monday last, and to my sense is very unkind, unchristian and, I believe, uncalled for. After the brotherly, Christian spirit in which we met a month ago, and just when we were congratulating ourselves on a more Christly spirit amongst us as professing Christians, it is to be regretted that such a resolution should appear in the public press. After the kindly feeling expressed toward me one month ago, surely our dear brethren do not wish me to think that they have conspired together to blacken my character and rob me of my reputation, adopting a resolution to appear in the public press, insinuating that I falsified in my remarks when I was trying to uplift them before our people, and thereby create a more kindly feeling as co-workers in the Master's vineyard; and to do this without even mentioning the wrong to me, if they felt I had wronged them. What is our Master or Way-shower's injunction? "If thy brother trespass against thee, go to him alone and tell him his fault," etc.—Matthew 18: 15. When I learned from the press that they took objection to my remarks, I at once called on their President. He informed me the chief trouble was my voicing what was said, their rules are against giving to the public what is done there.

I would gladly have apologized to the brethren for this breach of etiquette, had I had an opportunity.

MATTER OF SURPRISE.

Circumstances now compel me to tell a little more of the secrets. I am very much surprised that the esteemed divine, Rev. Dr. Torrance, D.D., would come before the public as seconder of a resolution telling the public that there was not a word at the former meeting for me to base my remarks upon, when he himself was not there. I see by the report that two others must have voted on hearsay, in order for the vote to be unanimous, as they were not at the former meeting.

I was trained by a good old Scotch mother in childhood, never to make a statement that you cannot prove. That teaching is with me today, and I adhere to it; therefore, if you will allow me sufficient space in which to give the facts, I feel I can show that I had ample ground on which to base my remarks.

Any man or woman of ordinary intelligence who will read my remarks will see that I did not say the Peterborough Ministerial Association were favorable to Christian Science, any more than the press was favorable. I was showing the progress from a metaphysical basis, that is, the universal change of that toward Christian Science. As an illustration I referred to the Ministerial meeting. My remarks were to the effect that there was less opposition to the teaching of Mrs. Eddy, and that there would be less when it became better understood. I believe I would have been justified in saying that the Ministerial brethren were favorable, judging from what was said, if they did not favor what was given. I shall now attempt self-justification by giving, as far as my memory serves me, what took place at the meeting I attended, and let the public judge. If I do not quote correctly, I am satisfied to have the paper published verbatim.

AN ABLE PAPER.

I was invited in when Canon Davidson was about to read his paper on "Christian Science and Religion." To my sense the paper was an able and honest presentation of facts, which shows Canon Davidson to be a man capable and willing to lead his people into higher and broader conditions of thought. He proved by Scripture, four points in favor of Mrs. Eddy's teaching which the clergy used to denounce Mrs. Eddy for asserting. First, "That through the fall of man the body came into a state of suffering." (in the cause of suffering Mrs. Eddy.) Second, "In due time Christ came as a Saviour of the body as well as the soul." "It was undeniable that His mission and work was the healing of the body as well as saving the soul." Third, "It is undeniable that He gave this same work not only to the twelve apostles, but to the seventy." Fourth, "It is undeniable that He authorized those that believed on Him to do the same work." Fifth, "It is undeniable that it is the duty of the Christian Church today to heal as well as preach, to look after the body as well as the soul.

Here he referred to a religious body known as Christian Science (not so-called, as shown in the last report) who claim to do this healing work. "I find," he said, "a great deal of truth in it. I have been benefitted by studying the literature. I would recommend the study of the literature, take the truth out of it into our churches. The Church must arise and perform the duty she has been neglecting to do."

ASKED HIM QUESTIONS.

Then the criticism. The first called was Dr. Crothers, who started almost immediately to question me on how we treated, and what the treatment consisted of, etc. I stated that I did not expect any part in the discussion, and would not enter into any controversy, but would give them some points as I understood them; they could reject or accept them as they choose. Strange to say, there was not one opposing thought offered to any explanation I made, nor to one statement in the paper read, only concerning the exhortation, in James, the duty of the Church to pray for the sick and heal them. At this point I had to give Mrs. Eddy's spiritual interpretation of that passage. I gave her interpretation of several passages of Scripture, and not a voice raised against them.

It is true that Mr. Webb began to make light of Christian Science by reading from a book purporting to be authority on Christian Science, a lengthy formula of treatment, which showed at once that it was not Mrs. Eddy's teaching, which is the only true Christian Science. There is a by-law in the (?) Mother Church forbidding the use of formulas in any way. I explained that we discredited what those false, so-called Christian Scientists teach, as do the other churches. There was not one objection taken to any thought given out as being the teaching of Mrs. Eddy, what they objected to as being wrong, was the false thought.

AGAIN QUESTIONED.

Mr. Bright referred to three cases of healing that he had heard of through my effort, asking me to relate them. I did.

In responding to the vote of thanks, I was again questioned, and while on my feet I read from our text book "Science and Health," the Tenets of our church, etc., and again was free from opposition. The meeting closed in a most Christly spirit.

I have tried to give the truth of our meeting together, as nearly as I could, without taking too much of your valuable space. If the brethren do not favor what I gave, which was the teaching of Mrs. Eddy, their silence would lead me to think they were not very faithful watchmen on the walls of Zion.

Now, Mr. Editor, in conclusion, I would say that, as to whether they favor Mrs. Eddy's teaching or not, I shall try and not loose any sleep over it. Those of us who have put it to the test as Jesus commanded, by healing the sick and reforming the sinner, approve of it.

And while we court the friendship and brotherly love of our orthodox brethren, we must be about our Father's business, no matter what their attitude may be towards us, we must strive to love them, and do them good when the opportunity occurs to be in harmony with Mrs. Eddy's teaching, even to love our enemies, and follow the Golden Rule.

With thanks,

Sincerely yours,

R. J. TODD.

THE BANK BROKE

Not either of the banks that do business on Colborne street—no danger of that—but the south bank of the river, just opposite our humble residence, says the Fenelon Falls Gazette. On Wednesday morning a few hundred tons of overhanging rock, probably loosened by the frost of the past winter, broke loose, and, as an Irishman would say, landed in the water. It made a loud noise, and a big splash, but did no harm.

Roller Hockey Match Played

Last Night's Contest Resulted in a Draw

The roller hockey match, at the Charlotte Street Rink, after the skating last night, proved to be a big attraction and a large number remained to witness the contest. The game proved very exciting and that the two teams were evenly matched was shown by the fact that neither septette was able to score. They tried hard enough, however, and there was not a man on the floor, who did not play the game for all he was worth. They play, of course, was a little bit unfinished, but there is no doubt, that, with experienced teams playing it, roller hockey would be an excellent game. It possesses many of the features of ice hockey and when the local players have had a few practices they will be able to put up an interesting argument. Some of the players performed stunts that should enable them to secure jobs in Barnum & Bailey's circus, but no one was hurt, and for the first workout the match was highly satisfactory in every respect. The game was played in 15 minute halves, and Mr. Fred Whitcroft made a satisfactory referee. The teams lined up as follows,—

Staunton's		Clancy's
	Goal.	
C. Wilson		A. Thorp
	Point.	
Milburn		B. Duncan
	Cover	
F. Seymour		S. Gibbs
	Rover	
F. Miller		F. Clancy
	Centre	
Deforge		C. McDonald
	R. Wing	
W. Miller		A. Allan
	L. Wing	
H. Staunton		B. Allan

Further practices are being arranged and the game is likely to become very popular here.

Baseball for Telephone Men

Bell Company's Men Will Likely Have a Team for City League

Speaking of baseball and the city league, one of the Bell Telephone Company's linemen said last night that the chances were very good for the linemen putting a ball team in the City League if one is organized. The Bell Company has a large gang working here and it is very probable that they will be here all summer and part of the fall. Among the men are some good ball players and it is customary when the gang are in the city for the summer, to organize a baseball team. The linemen are a good lot of sports and they would undoubtedly be strong competitors in the race for the silver medals and the silver cup.

Harriers Cannot be Vanquished

One of the fastest and most closely contested basketball games of the season was played last night in the Y.M.C.A. gymnasium, the contestants being the fast Harriers, champions of the Y.M.C.A. fall league, and winners of the Creeman trophy, and a picked team. The Harriers kept up their reputation, winning by the close score of 41—38, after a hard struggle. Although the players on neither team have had any practice for weeks, the play was fast, and marked by good combination and brilliant shooting by both teams. The Harriers started out to run away from their opponents, but the picked team soon found the pace, and were always in the game. The first half ended 22—21 for Harriers. In the second half the picked team settled down to pull down the score, and shot basket after basket, and with about three minutes to play were four points to the good, but the Harriers finished strong, and won out by three. The Harriers have played all season without a defeat. The best of good feeling prevailed all through the game.

The teams were,—

Harriers		Picked Team.
	Defence.	
R. Best		Loomis
Campbell		Darling
	Centre.	
Dobbin		Dingman
	Forward.	
W. Richardson		E. Laing
E. Best		F. Richardson

Referee—Jack Laing.

BASEBALL

INTERMEDIATE LEAGUE FORMED

A meeting of those interested in the formation of an intermediate baseball league was held last night in the Y.M.C.A. A league will be formed. The players of the different teams will average about 18 years of age. Five teams compose the league. They are the Lakeviews, Y.M.C.A. team, Karnots, Lillies and West Ends. The schedule will be drawn up at a later meeting.

LACROSSE

Dolly Durkin, of the Tecumsehs, is ill with typhoid fever, which will lay him up for a considerable period.

Owing to Durkin's illness, the Tecumsehs will have to look for another home fielder.

Jimmy Kerwin, of St. Catharines was in Toronto yesterday having a confab with Jimmy Murphy, and the chances are Kerwin will turn out to practice with the Torontos this afternoon.

Rain on Saturday cancelled lacrosse practices in Montreal.

The Star Lacrosse Club of the Toronto Senior League would like to arrange a game with some outside intermediate C.L.A. team for May 24. Address, stating terms, to G. Forsey, Mimico.

Secretary Hall of the C.L.A. received certificates yesterday of the Buffalo Senior Club and Oshawa's junior team.

Those signed by Buffalo are: Frank Lloyd, J. O'Gorman, William Knight, Walter Wenbourne, George Downey, George McFadyean, Thomas Stahlbaum, Frank Dixon, Oorby Richard, John Bauman, Henry Tigle and Eugene Weber.

Dixon, signed by Buffalo, is the goal-keeper who played one game with Bradford last year against Newmarket, in Bradford.

Oshawa, the first junior club to register, have sent in the following: D J J Swanson, Arthur Brodie, F Kemp, Selby Guenett, Percy Cunningham, Walter S Carter, George McCulloch, Reg. Thomas, Ralph Robinson, Ed Caine, Donald S Hawkes, James Rouselle.

FOOTBALL

MATCH IN NORWOOD.

The Quakers Intermediate Football Club, is playing a match in Norwood today.

ROLLER HOCKEY

A meeting will be held at the roller rink on Monday night after the skating for the purpose of taking further steps towards the formation of a roller hockey team. Last night's match was highly satisfactory and the game is likely to become very popular

Ald. Farrar and Peebles, of Hamilton, have offered to mediate for a settlement of the plumbers' strike

F. Stephens of Winnipeg, a clerk in the Sun Life Insurance Offices, was arrested on charges of burglary.

Sub-Target Guns Set Up And Are Now Ready for Use

Wonderful Mechanism of the New Instruments for Practising Shooting, Which Have Been Supplied 57th Regiment.

It will be remembered that last summer mention was made that the militia department at Ottawa had provided the 57th regiment with two sub-target guns for the use of the members of the corps to practice shooting and although the guns arrived last summer they were never set up and used until yesterday. Both are now mounted, however, and were the centre of all attraction at the drill hall last night. The guns are wonderful machines and have to be seen and used to be appreciated. By means of the sub-target machines it is possible to practice marksmanship without using ammunition. The gun is used in connection with an ordinary rifle which can be used to shoot standing up, at the kneeling position or lying down. The rifle is aimed at a target set up a certain distance away and so arranged that it can be adjusted for shooting at the different ranges, 200 yards, 500 yards, etc. Each gun has an electric battery and when the rifle is placed in position an electric current is established between the rifle and a highly electrified steel needle which has its position on the gun a few inches to the side of the rifle. A miniature paper target is placed in position just in front of where the steel needle is located. The marksman takes hold of the rifle, aims at the target set up in the distance and when he thinks he has taken a good aim pulls the trigger. Every motion of the rifle causes the needle to vibrate correspondingly and when the trigger is pulled the paper target springs back and is pierced by the needle. The mechanism of the gun is so perfect and the construction so arranged that the needle pierces the target at exactly the same spot as the ball from the rifle would strike the target aimed at if ammunition was used. When he has pulled the trigger the man who is shooting can look at the miniature target beside him and see exactly where he would have struck the target he was aiming at if he was using ammunition. The many advantages of the sub-target gun are manifest. With them it is possible to secure practically as good practice with the rifle as if one were lying out and firing at targets on the ranges. Only one of the guns of the local regiment was in use last night, but it was kept busy all that time as those who were present were deeply interested in it and found the practice excellent. The other gun will be ready for use the first of the week.

The sub-target guns are worth about $300 each, but they were supplied the local regiment free of cost.

THOMAS MARKS,
Who opens a week's engagement at Grand Opera House Monday, May 13th, in "The Rose of Killarney." Plan now open.

Many Children do Not Go to Any Sunday School in City

They Will be Welcomed at Gospel Hall Where an Undenominational School is Conducted—Mr. Mulligan Makes Important Announcement.

To the Editor of the Review.

Sir,—By your kind permission I would set before the readers of the Review a few facts regarding Sunday school work in Peterborough. Through the kindness of Mr. Walker, Public School Inspector, and the various superintendents of [illegible] of Sunday schools, I have been enabled to make a comparison, and find that the number of children under sixteen years of age in the city who take any interest in Sunday school Bible study is far below the number who are in the public school and kindergarten. A very large percentage never go anywhere to school on the Lord's day. As the hope of the nation is in the young and the boy of today is the man of to-morrow, it is of the utmost importance that our children should be brought under Bible training as long and as often as possible while young. The foregoing facts should cause every father and mother to find out where their children spend the "Lord's day." Therefore as so many of our children do not go anywhere to school on Sunday there will be carried on in the Gospel Hall, corner of George and Brock streets, a non-denominational Sunday school. Our main object is to interest those who never go anywhere. We want it distinctly understood by workers that we have no desire to draw away any who attend or are interested in Sunday school work in any of the churches, but to seek out those who are outside.

Many poor children say they have no clothes. This will be no barrier at the hall. Rich or poor will be welcomed alike. There will be no collections. Each pupil will be supplied free with lessons papers and books, card and tickets for primary, and reward for attendance and verses at the close of the year. Mr. H. A. Fife will be in charge of the Ladies' Bible class, Mr. H. F. McKeown the girl's Bible class, Mr. H. Hewson, boy's, Miss H. Dies, junior girls', Mrs. G. W. Mulligan the primary, also the superintendents mixed Bible class. The school is already in a flourishing condition and we hope for co-operation from parents whose children do not go to other schools.

G. W. MULLIGAN,
Superintendent.

Chief Justice Fitzgerald and Chief Justice Taschereau are to be knighted on Victoria Day, it is said.

Prince Fuishim, of Japan, will cross Canada in a royal train similar to the one used by Prince Arthur of Connaught.

Specialist Will be at Peterborough May 15th to 30th

After a most successful visit in his capacity as teacher of opticians, the Specialist, J. W. BROWETT, will return from Toronto on Wednesday next to his home office at our store. Hundreds of persons took the opportunity of his visit to have their eyes examined for glasses, and now we bespeak a BUSY TWO WEEKS IN PETERBOROUGH. Mr. Browett's work is so thoroughly satisfactory and is getting to be known in this city where he has made his home and headquarters. We are booking appointments for May 15th to 30th.

McDERMID & JURY'S DRUG STORE, PETERBOROUGH.

THE NEW YORK STOCK MARKET

New York, May 11.— During the first hour of the short session in the market today some heavy selling of Reading, Smelting and Atchison, imparted a reactionary tone to the market. This was offset to some extent by the gilt-edged support which was extended to the Harriman and Hill stocks. The bank statement was much better than had been expected, and when it appeared shorts started to cover, and a good rally ensued which brought prices to the high for the day in most instances, where they closed.

Wheat was strong and active, advancing three cents and closing at the high for the day. The weather reports were a little more favorable but there were ten buyers to one seller and the enormous outside demand forced the price of wheat steadily upward. Foreign markets were sensationally strong, Buda Pesth alone being up 8 cents on the day. Corn and oats sympathized with wheat and closed strong. They are now talking dollar wheat.

CRUELTY TO FIVE YEAR OLD CHILD

Peterboro' Girl Was Kicked by Gore's Landing Resident

A Cobourg despatch says:—Harry Walden, of Gore's Landing, is accused of cruelty to a little girl, five years old, a daughter of Mrs. McWilliams, Peterborough, and a niece of Walden's wife. The charge was laid by Chief Ruse, of Cobourg, acting for Barrister Goodwill, solicitor of the Children's Aid Society, of Peterborough. Walden appeared before the Police Magistrate here in Cobourg. The child's body showed severe bruises, and it was alleged that Walden had kicked and struck her. His defence was that he struck at her with his smock, and that she was knocked against the table, bruising her head. Walden was committed for trial, bail being accepted.

MUSIC AT ST. JOHN'S

The festal season of Ascension tide will be marked at St. John's church by special hymns and anthems. At Matins "Know ye the Lord hath passed away," will be sung by men's voices and ladies' alternately. At Evensong the famous choral anthem, by Dr. Hopkins, "Lift up your heads," will be sung by the full chorus.

LIVELY CHASE FOR A RUNAWAY PIG

This afternoon shortly after dinner one of the many little pigs that were on the market got tired of its close confinement in a box and broke away. It gave its owner a lively chase up Water street and along Hunter to George. Then it went down the street as hard as it could go to Simcoe street, where it was caught by the breathless owner. The pig chase created great amusement for all who saw it.

THE STRAW HAT IS HERE AGAIN

The straw hat is with us again.

Let one and all salute the man, and the woman, too, who thus dared yesterday to flaunt the tardy summer in the face and appear garbed in summer headwear.

The gentleman who has the honor of being the first to resurrect the summer headgear was a tiller of the soil from the township of Harvey, and his progress down George street was watched by many an envious eye. His jaunty step bespoke the spring fever that was springing into being. The hat was nothing exceptional—just an everyday straw that had evidently served during many seasons, but nevertheless it was a sure indication that summer is come.

Some time ago the woman with the straw hat appeared also, having its identity hidden by a bunch of trimming, but a nice, little, dinky, round sailor, devoid of all ornamentation. Unlike the man, the member of the gentler sex seemed aware that she was taking a bold stand, in donning the sailor, but, nevertheless, to her is due much credit.

SOCIAL EVENING

The members of Peterborough Lodge of Elks held a special meeting last night. After the business of the evening a social time was enjoyed. There were progressiv games and an attractive musical programme. Refreshments were served and a very jolly time spent.

The Marathon Mystery

A Story of Manhattan

By BURTON E. STEVENSON
Author of "The Holladay Case"

Copyright, 1904, by Henry Holt and Company

"No doubt," nodded Godfrey, his face curiously intent. "We're not going to trouble you much now, Mr. Delroy. The only thing I should like you to do is to give us an account of all that happened that evening. I hope you will do that."

"Yes, I'll be glad to do that." And he proceeded to tell in detail the story the reader already knows.

"There's one thing," said Godfrey when it was ended. "Is it true that Miss Croydon seemed to believe Drysdale guilty?"

"Yes," answered Delroy, "for an instant she did, but she explained to me afterward that she thought it was Tremaine who had been killed."

Godfrey's eyes blazed with sudden interest.

"Tremaine! Then there's been ill feeling between them?"

"Yes, at least on Drysdale's part. He'd conceived some absurd suspicion of Tremaine, told me I'd done wrong in inviting him here, acted rather nastily about it, in fact."

"Thank you," said Godfrey quietly, though his eyes were still shining. "Now I should like your permission to look over the grounds and to examine the rooms which Drysdale and Tremaine occupied."

"Certainly." And Delroy touched the bell. "Thomas," he said to the servant who entered, "you will take these gentlemen wherever they wish to go and answer any questions they may ask you."

We went first to the boathouse and pier and looked over the scene of the tragedy. I was struck at once by the change in Godfrey's demeanor. He no longer seemed either perplexed or worried. His face was shining with triumph. Evidently he had discovered a way out of the labyrinth.

To the boathouse he gave a particularly careful scrutiny, searching in every corner, apparently for some minute object which he failed to find. Out on the pier again he stood, looking up and down with thoughtful face.

"Pshaw!" he said suddenly. "I might have known I was just wasting my time in there. Come this way, Lester."

He hurried back through the boathouse and down to the beach. Along the edge of it he walked, scrutinizing every inch of the sand. Suddenly he stooped, with a little cry of triumph, and caught up a small bottle. It was quite empty. He removed the cork, sniffed it and replaced it quickly.

"Do you mean to say, Godfrey," I demanded in astonishment, "that you have been looking for that bottle?"

"It's precisely what I've been looking for," he returned exultantly. "And I've learned one thing—never to mistrust a logical deduction. Now let's go back to the house. And, Thomas," he added to our guide, "take us back by the way that will bring us opposite the room occupied by Mr. Tremaine."

"All right, sir," said Thomas. "His room was right next to Mr. Drysdale's in th' east wing—there it is now, sir—th' third and fourth windows from th' end."

"And the fifth and sixth windows belong to Mr. Drysdale's room?"

"Yes, sir."

A sort of balcony ran along the entire wing just beneath the windows half covered with creeping vines which in summer no doubt completely draped it. Godfrey examined it with shining eyes. Then he walked straight to the end of the building.

"Now, Lester," he said, "I'm going to make a prediction. I predict that we'll find the wall at the corner freshly scratched in more than one place. Ah, now, see there!"

The marks were plain enough, and the cluster of heavy vines which ran up here against the house also showed signs of abrasion.

"What would you say those marks meant, Lester?" Godfrey asked.

"I should say," I answered, readily enough, "that some one had recently climbed up to the balcony or down from it."

"Both ways, Lester; both up and down. Oh, this is much simpler than I'd expected! Now take us up to the rooms, Thomas."

But in the vestibule he paused.

"Is that the rack where the coats hang, Thomas?" he asked.

"Yes, sir."

"And where Mr. Drysdale hung his coat that night?"

"Yes, sir."

"Did you happen to notice, Thomas, when he came in whether or not the top button of his raincoat was missing?"

"Yes, sir," answered Thomas slowly. "I thought about it afterward, and it's mighty funny, sir, but I'd swear he had his coat buttoned up tight around his throat. How could he 'a' done that if th' top button wasn't there?"

"How indeed?" mused Godfrey, gazing at the rack with eyes intent.

Then they softened, brightened; his face broke into a smile.

"Of course," he said, half to himself. "How dense of me not to have thought of it! Now, Thomas, we'll go upstairs."

CHAPTER XXVI.

THOMAS led the way through the hall and up the stair.

"Which room will you look at first, sir?" he asked.

"Let us see Mr. Tremaine's room first."

"Very well, sir," said Thomas, and opened a door and stood aside to let us pass.

There was nothing at all extraordinary about the room. It was large, well lighted, well ventilated, well furnished—just the sort of bedroom one would naturally expect to find in a luxurious country house.

Godfrey cast a glance about it; then he went to one of the windows, opened it and stepped out upon the balcony. He walked along the balcony to the end where the heavy creepers were, took a look at them and finally came back to the window.

"That's all," he said, as he stepped through into the room. "Of course I didn't expect to find anything here; our friend is much too clever to be caught napping that way. Thomas, I suppose this table is just where it was when Mr. Tremaine had the room?"

"Yes, sir."

Godfrey sat down at it, measuring the distance from it to the window.

"Lester," he said, "I wish you'd go out and come up the walk and see if you can see me sitting here."

CURE SICK HEADACHE.

I ran down the stairs and did as he directed, but could catch not a glimpse of him.

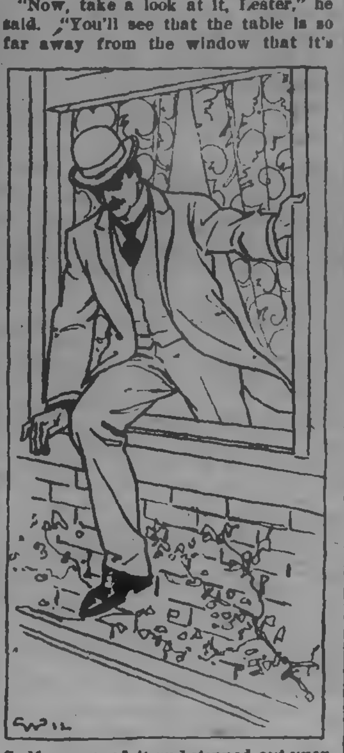
"Well?" he called down, coming to the open window.

"I can't see you at all," I said.

"I thought so. Come up again."

He was sitting again at the table when I opened the door.

"Now, take a look at it, Lester," he said. "You'll see that the table is so far away from the window that it's quite impossible for any one on the ground outside to see the person sitting at it. Yet Drysdale stated distinctly that he saw Tremaine sitting at the table writing when he came back from that mysterious walk. What would you argue from that?"



Godfrey opened it and stepped out upon the balcony.

"That Tremaine had moved the table nearer to the window."

"And why should he do that?"

"To get a better light, perhaps," I ventured.

"He might have done it in the daytime, to get a better light, but at night he would get a much worse one over there by the window than here. The lights, you'll observe, hang from the center of the ceiling."

"Then he did it," I said, "in order that he might be seen from outside."

"That's it. Not only that he might be seen, but that Drysdale might see him. I wonder if this is the kind of paper he wrote on?"

"We keep a supply of it in all th' guest rooms, sir," volunteered Thomas.

Godfrey took it up and looked at it. It was a plain white linen of good quality, with the word "Edgemere" embossed in blue at the top. There were also on the table pens, an inkstand and two or three blotters. He turned the blotters over, but only one of them showed any sign of having been used, and the marks on it were very faint, yet they seemed to interest Godfrey. He bent over them with puzzled face. Then he got out a little magnifying glass and studied them again.

"Lester," he said, at last, "I wish you'd take a look at this," and he pushed the blotter and glass toward me. "What do you make of it?"

I gazed through the glass at the marks, but for a moment could make nothing of them. Then they resolved themselves into a string of letters marching backward, fairly distinct at one end, but fading away to nothingness at the other.

"Somebody seems to have been scribbling a lot of disconnected letters on a piece of paper," I said, at last. "I can't make out any words. The letters seem to be mostly B's and G's—yes, and here's an I."

"Thomas," said Godfrey, "will you go down and ask Mr. Delroy if he has a sample of Mr. Tremaine's handwriting, and, if so, if he will let us see it for a moment?"

Thomas went out instantly and I looked at Godfrey in surprise.

"You think those marks have some value?" I asked.

Godfrey drummed absently on the table and stared out of the window.

"I don't know," he answered, "but in an investigation of this kind no point is too small to be important. We've got to examine everything, weigh everything, pile up every little atom of evidence, if we expect to tip the scale in our direction. It's very probable that Tremaine never made these marks at all; even if he did, they probably have no significance. But in any event it won't do any harm to make sure; and, besides, I'd like to see a sample of his handwriting, just for its own sake—the handwriting of a man like that ought to be interesting. Ah, here is Thomas."

"Here's a letter, sir," said Thomas.

Godfrey opened it and glanced at the contents.

"He's a good penman," he said; "see, Lester," and he handed me the sheet, "but it's quite a different hand from the one on the blotter—much broader and more masculine—just such a hand as one would naturally expect a man like Tremaine to write."

He explained it again for a moment, then folded it up and handed it back to Thomas.

"Perhaps Mr. Delroy will want it again," he said.

"Now, let us see Mr. Drysdale's room."

As he got up from the table I noticed that he still held the blotter in his hand, and I saw him place it carefully in an inner pocket. After all, then, he did attach some importance to it.

To be continued.

Guelph has a rumor that the G. T. R. is to give the city better station accommodation.

CARRY BACK THE CARGO.

Atlantic Liners Cannot Get Unloaded At New York.

New York, May 11.—The resident heads of the steamship companies included in the International Mercantile Marine at this port assumed the aggressive yesterday toward the striking longshoremen. After a conference they served notice upon the strikers that unless they returned to work within a week their places would be permanently fixed by other men. At the meeting the steamship men reaffirmed the determination not to yield to the demand for higher wages.

A portion of the incoming cargoes of some of the liners due to sail today is still in the holds of the vessels. With only the crews of the vessels and a few hundred inexperienced strikebreakers to move it, there was a prospect that the practice of sailing the steamers on their schedules carrying back some of the freight they had brought over would have to be continued. Piers along both sides of the Hudson River were piled high with freight.

Possibility of an extension of the strike to include the teamsters engaged in carting freight from the docks became evident yesterday when officers of the Longshoremen's Union declared that they would endeavor to bring about such a strike in sympathy with their own men. The officials also asserted that they will ask the coal trimmers to join in the strike.

WORST STORM IN YEARS.

Lake Ontario Swept By Fierce Gale—Shipping In Danger.

Rochester, N. Y., May 11.—Lake Ontario was swept on Thursday night by one of the worst storms in years, which drove back into the harbor such boats as ventured out on the lake, kept many others in port, and caused many narrow escapes from wreck. In fact, grave fears are felt for the safety of such vessels as were caught out on the lake and had to endure the full fury of the storm, which piled the surface of the lake into huge waves, which swept over the boats from bow to stern.

One of the worst experiences was that of the D. F. Van Allan, a steam barge. This boat left Charlotte loaded with 1,000 tons of coal for the Toronto Electric Light Company. The wind was blowing a gale when the boat left the harbor, and as soon as it got fairly out into the lake, the full fury of the storm struck it. After battling for three miles, the barge finally gave up the task as hopeless, turned about and came back into the harbor. The steam barge John Rugee of Ogdensburg came into the harbor at Charlotte at 8 o'clock yesterday morning after a trying experience. Fortunately, it was running light, a fact which probably saved it, but when the barge finally made the harbor yesterday morning it was encrusted with ice and snow. The crew were exhausted with the trying experience. The boat was manned by Captain Fitzgerald and a crew of ten.

ROSES INSTEAD OF BULLETS.

Strike-Breakers at 'Frisco Are Showered With Flowers.

San Francisco, May 11.—Roses and carnations, instead of brickbats and cobblestones, were features of the trips of two cars of the United Railroads, manned by twenty strike-breakers from the barns yesterday. The cars covered three or four miles through the business and residence streets of the western addition. The courage of the unarmed strike-breakers in operating the cars moved women to stand on doorsteps or lean from windows and wave handkerchiefs, clap their hands, cheer and throw kisses to them. On the return trip a young girl ran out of a florist's shop and tossed carnations upon the platform of one of the police-protected cars. The cars were halted while young women brought carnations and roses from the shop and offered them to the men.

THE KAMINSKY MURDER.

Mounted Police Make Arrests at Rosthern, Sask.

Rosthern, Sask., May 11.—The Mounted Police have unravelled the mystery surrounding the murder of Michael Kaminsky here last January. Kaminsky was killed in a fight near the elevators, and the body was left hanging over the fence some distance from the scene of the crime. Detectives have been at work ever since, and Thursday the police arrested three Galicians—Joseph Rogozinsky and his nephew, Jasky Rogozinsky and Maxim Stadnik, who are believed to be the guilty parties. The preliminary examination was held behind closed doors, but enough is known to indicate that the police are certain of their men. More arrests are expected.

Contractors Declare Open Shop.

Denver, May 11.—Seventy-five general contractors, angered at the action of their carpenters in quitting work, because of the millmen's strike, after they had been granted a 10 per cent. increase in wages on April 1, Thursday announced that they would begin employing non-union labor next Monday. This will result in Denver becoming an open town in the building trades, it is predicted.

Killed Babe and Self.

Pittsburg, May 11.—Despondent because of ill-health, Mrs. Carrie Sigsworth, 31 years old, killed her 18-months-old child and then shot and killed herself yesterday at her home in Allegheny. The bodies were found by her husband when he returnd from his night's work in a steel mill.

Regrets Germany's Course.

London, May 11.—Speaking at Manchester, Sir Henry Campbell-Bannerman, the Premier, expressed the keen disappointment of the Government at the refusal of Germany to discuss the question of the limitation of armaments at The Hague conference.

Oxford Honors Mark Twain.

Baltimore, May 11.—Samuel L. Clemens (Mark Twain) said yesterday he had been offered the degree of bachelor of letters by Oxford University, and would sail for England on June 8, to receive the honor.

William Creepin, sentenced at Napanee to six years for criminal assault, was taken to Kingston, yesterday.

THE CORRECT EVENING DRESS

The Low-Necked Gown the Only Correct Dress for Evening Wear, Says Mrs. Osborn.

It is now correct to dress for dinner in decollete or semi-decollete, whether we dine at home or out, later in the evening going on to the informal reception, the theatre, the opera, or the ball, says Mrs. Osborn, in the June Delineator. Thus at last do we cease to draw absurd distinctions between forms of dress for different evening entertainments. This sensible custom has extended amazingly during the past winter.

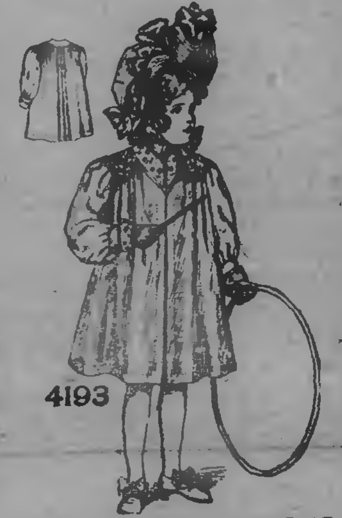
It would at least seem that this season of the year, our women would appreciate the value of the low-necked evening dress. The fashionables—Mrs Patrick Campbell and Miss Ethel Barrymore originally set the style—some time since began to wear collarless dresses even in the daytime. This custom is becoming more and more general, and the new programme will be collarless dresses for morning, semi-decollete for afternoon, semi-decollete for evening.

The hue and cry so often raised against an innovation—that the average woman can't afford it—need not be heard in this instance. There is nothing more attractive for summer wear than a low cut gown of inexpensive lawn or muslin.

The materials are the sheerest and coolest. The skirts are long all round, the sleeves are above the elbow, and the V-shaped bodice is among the styles of decolletage.

There is no economy in wearing last winter's elaborate gowns of heavy silk or satin. Thin frocks for summer evening wear are correct. It is the poor woman's golden opportunity to dress as well as does the rich woman.

LATEST DEAN PATTERNS

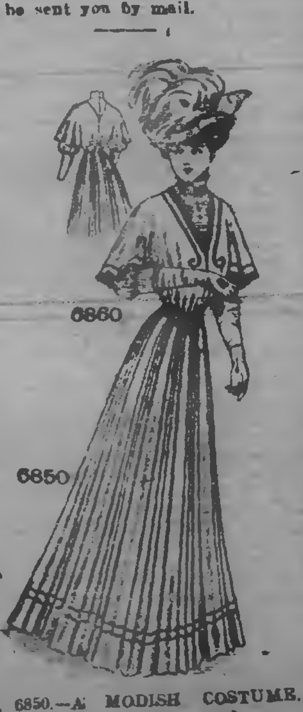


4193.—A PRETTY SHIRRED COAT.

For pongee and the summer weight cloths, here is a most attractive little coat which may be made at home without difficulty. The front and back are shirred at the shoulders and tacked to a stay underneath so as to assure a nice fit. Tucks at the center in back provide extra fullness for the skirt portion while the yoke gives a neat finish at the neck. The medium size calls for 3 yards of 27 inch material.

The price of this pattern is 10c.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.



6860, 6850.—A MODISH COSTUME.

Two very chic features of the newest waists are seen in the costume shown, namely the over-blouse effect and the drooping shoulder here realized by the kimono sleeves which end at the elbow. The waist is made on a lining and the outer portion has its sleeves cut in one with the front and back, the seam being on the shoulder and extending their entire length. The V yoke is quite a la mode and may be of any washable fancy or silken fabric. The sleeves may be of elbow or longer length and of the material of the waist, bar yoke. The style of the whole is peculiarly graceful and becoming. The skirt is a double box pleated one, built after the latest models. It consists of a straight piece of material shaped to the hips by the pleats. Any of the light-weight cloths or novelty goods or Rajah may serve for the dress, while taffetas or a similar silk is perhaps best suited to a smart development. The medium size calls for 7 1-2 yards 44 inches wide.

Two patterns.—6860—6 sizes, 32 to 42 inches bust measure. 6850—6 sizes, 20 to 30 inches waist.

The price of these patterns is 20c. but either will be sent upon receipt of 10c.

Leave your order and 10c at The REVIEW OFFICE and pattern will be sent you by mail.

Liners Propelled From Niagara.

London, May 11.—Sir Hugh Bell, presiding at the meeting Thursday of the Iron and Steel Institute, suggested that a century hence a ship with hardly any machinery or crew would speed across the Atlantic propelled by electric force, generated by the Falls of Niagara and transmitted to the vessel wirelessly. Such a forecast, the speaker declared, was no more incredible than the developments of the past century.

City Treasurer Accused.

Syracuse, May 11.—The city treasurer has discovered a shortage in the accounts of the office during the term of E. F. Allan as treasurer. It is impossible to tell, until experts report, how large the shortage is. In one case Mayor Alan C. Forbes is shown, upon the local contract books, to owe $1,900 since 1894. The mayor has Allan's receipt for the money.

Woodstock Carnegie Library.

Woodstock, Ont., May 11.—Woodstock is to have a fine Carnegie library building, the contracts for which were let yesterday. The style of architecture will be renaissance. The cost will be in the neighborhood of $19,000, and the committee found it necessary to remodel their plans owing to the great cost of labor and building material.

Capitalists In the West.

Winnipeg, May 11.—A party of about 25 American capitalists passed through the city Thursday en route to Calgary, where they will inspect irrigated lands of the C. P. R. Co., with a view to making large purchases of the lands if they are satisfactory.

Strike Situation Grows Acute.

San Antonio, May 11.—A special to The Express from Orizaba, Mex., says:

The strike situation here has grown more acute. The number of strikers has been augmented, and now reaches nearly 12,000, and the tendency to violence is more marked.

The federal forces and those of the rurals have also been increased. All hope of immediate arbitration has been abandoned, and much apprehension is felt.

Smallpox Outbreak.

London, May 11.—The report of a smallpox outbreak in Anderton Township is confirmed.

It is said there are upwards of sixty cases. Assistance from the provincial board of health has been requested.

It is thought the contagion spread from Sandwich West, where there was an outbreak recently.

New Jailer at Napanee.

Napanee, May 11.—Archibald W. Downey has been appointed jailer at Napanee, vice A. Z. Luven.

The appointment was made by Sheriff Hawley of Lennox and Addington, formerly representative of the constituency, who has the patronage of the county in his hands. It must, however, be approved by the Government.

Hulbert School Destroyed.

Cornwall, May 11.—The public school building at Hulbert, north of Brinstone's Corner, Dundas County, has been destroyed by fire. The roof caught from a spark from the chimney during school hours. The teacher, Charles Strader, with several neighbors, saved all the contents.

Killed While Fixing Lamp.

Utica, N. Y., May 11.—Fred Garrison, 30 years of age, manager of the municipal electric light plant at Tupper Lake, in the Adirondacks, was instantly killed while fixing a street lamp. The ground was very wet and Garrison touched a bare wire in the lamp.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

ACCIDENTS VS. FIRES

It is said that 20,000,000 accidents and illnesses occur each year, but only 80,000 fires.

A business man protects his property against the loss that rarely happens—fire. He can replace his property, but he can never replace his time or his damaged arm.

The most liberal accident and sickness policies are issued by

The General Accident Assurance Company of Canada

Our "Utopia" policy is the best and most unconditional Accident Policy on the market, and completely covers all loss of time from accident.

We issue a Sickness policy which covers every disease to which flesh is heir.

We are revolutionising the liability business by our "factory policy."

Embargo May be Removed; The Outlook is Hopeful

Notice of Bill in British House of Commons.

Sir Wilfrid Laurier to Propose Scheme For All-Empire Route—Press Says Canada's Attitude Has Been Perfectly Fair—Balfour and Preference—Deported Immigrants Cause Trouble.

London, May 11.—The Aberdeen *Free Press* says the attitude of Canada throughout the discussion of the question of preference at the conference, has been perfectly fair and reasonable.

The Dundee Advertiser says, in dealing with the United States and France, Newfoundland speaks as if it were the bellicose British empire, and not at all with the soft reasoning voice of a state in population equal to a second-rate British town.

May Remove Embargo.

The president of the Board of Agriculture visited Deptford Market, it is believed, for the purpose of judging whether the precautions taken and the facilities existing there were sufficient to preclude any possibility of the importation of diseased cattle. Great hopes are entertained that the visit is a prelude to a removal of the veto on Canadian cattle.

Mr. Thomas Cairns, M.P. for Newcastle-on-Tyne, gave notice in the House yesterday of a bill to remove the ban from the importation of Canadian cattle.

Laurier's Route.

The Canadian Press has reason to believe that Laurier will bring a scheme for an all-Empire route to Britain through Canada to Australasia and the Orient before the Imperial Conference next Tuesday. The scheme is now ready to be made public, and it seems probable the Home Government will give it a favorable consideration.

A deputation of M. P.'s and representatives of commercial interests in Ireland waited on Sir Wilfrid Laurier yesterday regarding the abandonment of Moville as a port of call for the Canadian steamers. The Marquis of Hamilton, M. P. for North Londonderry, spoke of the disadvantages to Scotland and the North of England through the substitution of Liverpool for Loch Foyle. Sir Wilfrid Laurier promised to lay the views of the deputation before Sir Richard Cartwright. Sir Wilfrid also pointed out that the shortening of the time occupied in the passage between Canada and the Mother Country is a great desideratum with the Canadian Government, and asked for information as to the alleged incapacity of Lough Foyle to accommodate the largest mail steamers.

Undesirables Cause Trouble.

Two hundred deported undesirables from Canada are causing feeling between the poor law authorities and the shipping companies at Liverpool.

Balfour's Hurry.

Premier Campbell-Bannerman, speaking at Manchester, said they should be thankful that Mr. Balfour at last had been brought into line on the question of a colonial preference, but he might have refrained from collapsing at the penitent form until the guests of the nation had returned home.

Great Rejoicing by the People; News Received With Acclaim

Son and Heir to the Throne, Born to King and Queen.

Queen-Mother Doing Well—Great Enthusiasm in Madrid—King Edward Received News With Much Satisfaction—Event Was Attended With All Pomp and Ceremony—Child Will Be Called Alfonso.

Madrid, May 11.—Queen Victoria gave birth yesterday to a son, who becomes heir to the throne of Spain.

The birth of the royal babe has been awaited with eager interest throughout Spain. This was intensified early this morning, when the first word came from the palace that the accouchement of the Queen was imminent. The news spread like wildfire, and crowds flocked to the great plazas fronting the royal palace.

At 8 o'clock the King canceled the meeting of the council of Ministers, which was to have considered current state affairs. By 10 o'clock the high functionaries of the state and capital, with many Ambassadors and Ministers, in their court costumes, had reached the palace. At noon this assemblage of the nobility and power of Spain was grouped in the royal apartments set aside for official ceremonies.

Prince of the Asturias.

The birth of the babe occurred at 12.45 p.m. The announcement was immediately conveyed to the waiting officials and crowds outside the palace, who received the glad tidings with mingled feelings of enthusiasm and emotion. That the Queen had been blessed with a son—a male heir to the throne—was no less welcome than the happy event itself.

The son born yesterday to King Alfonso and Queen Victoria will, according to a decree of the Spanish Government, bear the title of Prince of the Asturias, in professed imitation of the title of Prince of Wales, given to the eldest sons of English Kings.

The formal announcement of the sex of the royal infant was made by the Camarara mayor, or mistress of the robes, to Premier Maura, who communicated the fact to the company. The news was greeted with the greatest enthusiasm, which swelled into a spontaneous cheer, as King Alfonso himself entered accompanying the Camarara mayor carrying a huge silver tray, upon which was lying the newly-born royal babe, covered with delicate lace garments.

Premier Maura at once advanced and relieved the mistress of the robes of her burden. Then all present were afforded a glimpse of the child, which, [illegible], was handed back to the mistress of the robes, and by the latter was given to the royal nurse, who returned to the Queen.

Scene In the Streets.

The scenes in the streets outside were almost beyond description. Business had been suspended for hours. An immense multitude gathered about the palace, and when the royal standard of red and gold fluttered to the peak of the flagstaff on the Punta de Diamente, a great shout of joy went up. Immediately afterward a salute of twenty-one guns carried the news to the most remote confines of the city and to the inhabitants of the surrounding country.

Pope Pius, King Edward and Emperor William will act as sponsors at the baptism of the royal infant at Madrid.

The Queen insists that she will herself nurse the child, despite the opposition of the royal household to such a departure from custom, as she desires to ensure its good health.

The child is described as being a robust blonde, and as having his mother's complexion.

Almost immediately after the birth had been announced, a Te Deum was chanted in the chapel of the palace, where the Holy Sacrament had remained exposed throughout the accouchement of the Queen.

The Queen was the first to kiss the baby, and she was followed by the two grandmothers, Princess Beatrice of Battenberg and Maria Christina, the Dowager Queen of Spain.

Decrees were issued last night ordering a national holiday throughout Spain for Saturday, Sunday and Monday.

The Cabinet met yesterday, drew up and afterwards presented to King Alfonso for his signature decrees transferring the title of heir presumptive from Prince Charles of Bourbon to the new-born prince.

It has been decided that the baptism shall take place on Tuesday at noon. In court circles it is desired that the baby be named Carlos, but the matter of his appellation has not yet been definitely decided.

King Alfonso, in honor of the event, decreed the pardon of thousands of prisoners, including eight persons who were condemned to suffer the death penalty.

The press of Spain without reservation rejoices in the birth of the little prince.

The News In London.

London, May 11.—The birth of an heir to the Spanish throne was received with unfeigned satisfaction by King Edward and all the royal family here, who received the first news through a newspaper agency.

The general public, with whom Princess Ena, the name by which Queen Victoria was known previous to her conversion to Catholicism, was always a prime favorite, was equally pleased.

Roosevelt Congratulates.

Washington, May 11.—President Roosevelt sent King Alfonso the following message yesterday:

"I congratulate your Majesty and the Spanish nation on the birth of an heir to the throne of Spain."

Fire At Shannonville.

Belleville, May 11.—A destructive fire occurred Thursday night at the Village of Shannonville, nine miles from this city. The Commercial House, owned by William Ryan, and the Orange Hall, situated next door, were destroyed. Loss about $6,000.

SIR WILFRID TO TAKE REST.

Will Visit Hamlet of His Forefathers In France.

Ottawa, Ont., May 11.—It is said here that Sir Wilfrid Laurier and Lady Laurier, have planned a period of rest on the Continent of Europe and a visit to the original village from which the Premier's family came in France. First of all, they will remain in Paris with Hon. and Madame Brodeur.

The Minister of Marine awaits the completion of the Government steamer Stanley in Scotland and will proceed upon her to the Baltic Sea to compare the work of Canadian and Russian ice-breakers.

DEATH OF G. F. MARTER.

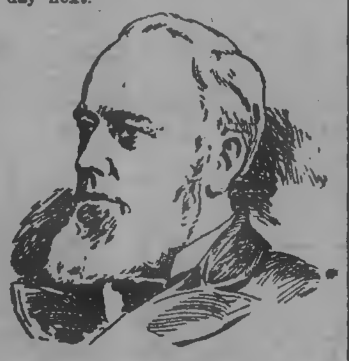
Former Conservative Leader Succumbs After Long Illness.

Toronto, May 10.—George F. Marter, ex-M. P. P., at one time leader of the Conservative Opposition in the Ontario Legislature, and well known as a temperance leader in the province, died early yesterday morning at his home, 12 Elm Grove avenue. Mr. Marter had been confined to his bed for some time with diabetes and his death was not unexpected.

All the members of his family were present at his bedside.

The late Mr. Marter was a member of the Methodist Church, and a public service will be held for him.

The funeral will take place on Monday next.



GEORGE F. MARTER, ex-M. P. P.

The late George Frederick Marter was born in 1840 and was educated in the Brantford Grammar School and early in life engaged in business as a merchant, and took an active part in municipal affairs, holding a seat in the Council of Waterford, and for some years the position of clerk for the Township of Wyndham.

He afterwards removed to Muskoka, which he represented as reeve until his ability sent him to the Ontario Legislature in 1866.

Elected Conservative Leader.

Here in the Ontario House he found a chance to expand, and on the elevation of Sir William R. Meredith to the bench in 1894, he was unanimously chosen to succeed him as leader of the Conservative Opposition. He had previously removed to Toronto and had been returned for North Toronto at the general election of 1894, defeating his opponent, Joseph Tait, by a majority of 805.

Although qualified to successfully fill the position of leader of the Ontario Conservative party, and possessing the confidence of all, Mr. Marter did not find the office particularly congenial, as he was not one to condemn measures because they emanated from the Treasury benches of the Liberals or to approve of others because fathered by his own party.

Post Was Irksome.

His broad-minded views and his high standard of principle allowed him to dispassionately view the faults as well as the virtues of both sides of the House, and his sense of fair play and desire for real legislation in the interests of all the people were not to him reconcilable with his office, so he resigned from the post on April 2, 1896.

For several years past Mr. Marter was president of the Canadian branch of the London and Lancashire Insurance Co., which position he occupied at his death.

He was prominent in the Masonic order and was a member of the Foresters.

Staunch on Temperance.

Mr. Marter has always been known as a staunch temperance man, and one who did not leave his temperance principles behind him when he entered Parliament.

Indeed, the first attempt to secure provincial prohibition through the Ontario Legislature was when Mr. Marter, then in opposition, introduced what was known as "The Marter Bill." This was an act which provided for abolition of the bar-room throughout the province.

Hummel Sentenced.

New York, May 11.—One year in state prison and a fine of $500 was the sentence imposed yesterday upon Abraham H. Hummel, the lawyer who was convicted of conspiracy in the famous Dodge-Morse divorce case.

Heavy Snow Fall.

Brantford, Ont., May 11.—A very heavy fall of snow set in at noon, and continued falling late in the afternoon yesterday. The weather is very cool.

Earthquake In Russia.

Irkutsk, Siberia, May 11.—A severe undulation earth shock was felt here at 5.20 o'clock yesterday morning.

Hamilton's civic holiday will be the first Monday in August.

CHILDREN ARE SLAIN

Guatemalan Soldiers Commit Unspeakable Outrages.

Government Allows Opponents to Be Ruthlessly Massacred — Man Tied to Stake and Devoured by Ants — Women Are Not Spared — Family Often Wiped Out—Americans Detained in Jail.

New Orleans, La., May 11.—Despatches from Puerto Cortez, Honduras, Thursday, say: Americans arriving here report that the Guatemalan Government is committing unspeakable outrages. Even women and children are not being spared. A family of ten was massacred by soldiers near Guatemala City by order of the Government, when Jon Olivera, a wealthy planter, incurred the enmity of the Government on account of his political activity. When the soldiers went to arrest him he showed fight and they shot him to death. Every member of his family was then slain. Acita Orecare, one of Cabrera's political opponents, near Livingstone, was tied to a stake in the middle of a hill of poisonous ants. His clothing was stripped from his body and the soldiers danced around his writhing form as the insects stung him to death.

The refugees report that two Americans, O. L. Lullen of Little Rock, Ark., and Marshal Stamms, of Cincinnati, are in jail in Guatemala City charged with alleged complicity in a conspiracy to assassinate President Cabrera.

Mexico and Guatemala.

Washington, May 11.—The Mexican ambassador, Mr. Creel, authorizes the statement that the trouble between Mexico and Guatemala, which has threatened to terminate the diplomatic relations between the two countries, has been definitely and satisfactorily adjusted. Mr. Creel received advices from his Home Government to this effect last night. The basis of the agreement the ambassador declined to discuss.

THE PRISONER SHOT.

Harry Cole Killed While Attempting to Escape.

Butte, Mont., May 11.—Patrolman Jackson last night shot and killed Harry Cole as the latter was attempting to escape. Cole was arrested on suspicion of being one of the Northern Pacific train robbers. A mob of 2,000 persons besieged the city jail, led by Cole's brother, in an effort to lynch Detective McGarvey, who it was thought shot Cole. McGarvey was put in the jail for protection. The mob had a rope and clamored to lynch McGarvey. Harry Cole was a brother of George Cole, now in the penitentiary for the robbery of a Burlington train two years ago.

ASSELIN ON TRIAL.

Accused Minister Prevost of Maladministration.

Quebec, May 11.—Oliver Asselin, publisher of Le Nationaliste, Montreal, was placed on trial in the criminal court yesterday, charged with defamatory libel against Hon. Jean Prevost, Provincial Minister of Colonization and Mines, who was accused with maladministration of the mining department in the interests of personal friends. L. A. Laflamme of Montreal defends Asselin, and the day was spent in efforts to empanel a jury, but only nine jurymen were secured.

Conspiracy Case Goes Over.

Toronto, May 11.—The London conspiracy case will not come on until the next sitting of the jury assizes. At Osgoode Hall yesterday Justice Anglin gave judgment granting the motion of E. F. B. Johnston, K.C., on behalf of O'Gorman, Reid, Wiley and others. The reasons advanced by the counsel for the defendants were that the evidence of T. H. Preston, who is now in Hong Kong, was very material to the defence, and, further, that if the case were brought on at the present time he (Mr. Johnston) would have to retire owing to pressure of other business.

Life Underwriters Meet.

Montreal, May 11.—The executive of the Life Underwriters' Association of Canada finished its business yesterday afternoon. A committee was appointed to report on the proposals for new insurance legislation which will be laid before Parliament next session. Mr. A. H. Vipond of Montreal presided and Mr. W. S. Milne of Toronto acted as secretary. It was reported that by the organization of Saskatchewan, which was completed last week, the establishment of branches of the association in all the provinces of Canada was completed.

Earl Grey Has Sailed.

Montreal, May 11.—The Governor-General was a passenger on the Allan liner Virginia, which sailed from Montreal yesterday morning. The Governor-General, who is accompanied only by his valet, occupied the suite of rooms which Prince Arthur of Connaught had on his return to England last year.

Bartell Case Adjourned.

Welland, May 11.—The hearing yesterday on the charge of perjury against Herman Bartell of Syracuse, N. Y., did not come off on account of defendant's counsel being unable to be present. The case was adjourned until May 22.

Another Earthquake Shock.

Loeben, Austria-Hungary, May 11.—Several earthquakes were felt here yesterday morning. The inhabitants were frightened and vacated their houses, but no damage was done.

Forget Elected President.

Montreal, May 11.—Mr. Rodolphe Forget, M. P., was elected, yesterday, president of the Montreal Stock Exchange.

Earl Grey and Lady Evelyn Grey left Ottawa last night for Quebec, to take the Virginian.

COL. STEELE, D. O. C. IN WEST.

Gets Appointment to Command of New Military Division.

Ottawa, May 11.—Col. A. D. Steele, who commanded Strathcona's Horse in South Africa, is to be appointed to the command of the new military district, No. 11, in the Canadian West, that is to comprise the provinces of Alberta and Saskatchewan. Col. Steele, who since the South African war has been in command of B division of the South African Constabulary, with headquarters at Pretoria, recently resigned from that body and is now in England on his way home to this country. His appointment as D. O. C. for Alberta and Saskatchewan will be most popular in the west, where the colonel spent most of his life.

FIRES IN MONTREAL.

Warehouse and Abattoir Destroyed—Damage Estimated $40,000.

Montreal, May 11.—A bad fire took place last night in the premises of Caverhill & Learmont, wholesale hardware, St. Peter street, and considerable damage was done by fire and water before it was got under control.

The slaughter house of the east end abattoir was also destroyed by fire late last night, and the loss is estimated at between $30,000 and $40,000.

KINGSTON IN THE SWIM TOO

Dog Poisoner Getting in His Deadly Work There

Kingston has its dog poisoner, too, and the canine owners of Peterborough, can sympathize with the Limestone burg in its trouble. The Kingston News says:

"Two more dogs, owned by residents near the General Hospital took their departure by the way of the poison route within the past few days. The owners of dogs are wondering if the police are kept because they are ornamental, or if they will ever get busy, and find out who is doing away with these faithful friends."

THE STORE THAT NEVER DISAPPOINTS

New Dress Skirts

EVERY WOMAN needs a few Odd Skirts to save her better costumes. How much easier you feel when you go down town to do your shopping not to have to dress up in garments that are more or less costly, and if soiled cause you worry and time to again put them in shape. You don a pretty Skirt and Shirt Waist and your mind is at rest. For an outing costume, too, there is nothing that can take theirplace and have as free and easy an appearance and general negligee air about them.

Our stock is complete with the latest styles: self trimmed, side, box and combination pleated, and panel effects, in Tweeds, Vicunas, Worsteds, Lustres and Sicilians. Colors, Gray, Green, Navy, Brown and Black, in prices from **$2.98** up

Tuesday's "Daily Rebuilding Specials"

Any $5.00 Silk Blouse in the store between 8.30 and 12.00 a.m. for **3.20** SEE WINDOW

Nottingham Curtain Net by the yard, from different patterns; good width; reg 12 1-2c and 15c, 8.30-12.00 a.m. **.9½**

Cressman's

On a Purchasing Trip to Montreal

Mr. H. LeBrun is Attending Great Midsummer Sales

Mr Harry LeBrun left on Saturday night for Montreal, where he will attend the great mid-summer sales of men's and boys' clothing, which are held annually.

Mr LeBrun is one of the most progressive and enterprising buyers and is sure to pick up some choice bargains. He has a signally successful record, and his reputation as a buyer, extending over a period of thirty-five years, places him in a splendid position to know the exact wants of the public and how to meet their needs promptly and satisfactorily.

Some interesting clothing announcements may be expected from H. LeBrun & Co.'s as soon as Mr. LeBrun returns from the Canadian metropolis.

HO! FOR TORONTO

On Saturday, May 18th, King's Plate Day. Return fare by G.T.R. only $2.05. Train leaves 7.20 a.m., reaching city at 10.10 o'clock, in ample time to get dinner and witness afternoon's attractions. Returning, train leaves Toronto at 7.05 p.m., reaching home at 10 o'clock. Tickets good until Monday. Secure your tickets at G.T.R. City Ticket Office, W. BUNTON, Agent.

BOARD OF TRADE TO-MORROW NIGHT

Most Important Matters Will be Discussed.

A special meeting of the Board of Trade will be held in the City Council Chamber tomorrow (Tuesday) at 8 p.m. sharp.

Railway switching rates and Canadian banks' foreign investments, etc., will be discussed. A full attendance is requested.

THE HALF HOLIDAY

Fruit Dealers Should be Able to Close Like Other Places

To the Editor of the Review.

Sir.—In your reference to the usual half holiday given by merchants during the summer, you quote a fruit vendor as saying that fruit would spoil if they closed up for half a day. What a miserable excuse, when we know that they close up for a whole day on Sunday without a whimper simply because they provide for it, as they could more easily do for half a day.

Yours, etc.
CLERK.

Killed His Wife and Children And Then Cut His Own Throat

Awful Tragedy Committed Near Gananoque by a Demented Farmer—Left Note Stating That He Was a Physical and Mental Wreck—Used Hammer to Slaughter Innocent Ones.

Special to the Review.

Gananoque, May 13. — William Waldie, aged 38, a farmer living two miles east of Gananoque, killed his wife and two children with a hammer this morning, knocking their brains out, while they lay asleep. The children were aged two and four.

Waldie then went down stairs and wrote a note which he left on the table, saying that upstairs would be found the work of a mental and physical wreck.

Waldie was the victim of a mania for the last two years, known to no one but himself.

"Would to God I had never been born," continued the note. "I have killed the dearest woman and unborn baby, and the two sweetest of children. I had intended to kill myself, but I could not at the last leave them to the scoff of the world."

Waldie then went upstairs and cut his own throat from ear to ear, his body and that of the murdered wife and children being found by the hired man on his return from the cheese factory.

TWO MORE BOATS WERE LAUNCHED

The launches Gypsy and Tootsie, which have been lying in dry dock all winter at Rye's boathouse were launched last Friday afternoon and they are now in good shape for the first trip down the river. Mr. Rye is now very busy building a wharf for the many gasoline and other small power boats which will make his place the headquarters for the summer. He has ten booked now, and several more are making application. He is also fitting up his big gasoline tank for the summer. Otherwise the well known boatman says there is nothing new on the Otonabee except that there is lots of wind and lots of water.

NO FALL ELECTION

Hon. William Paterson Laughs at the Idea of Campaign Next Fall.

Toronto, May 12.—Hon. William Paterson, Minister of Customs, in company with Mr. McDougall, controller of customs, spent the greater part of yesterday in the customs house and took up a number of matters with merchants' regulations.

Mr. Paterson intimated that when the commission appointed to enquire into the inside civil servants salaries reports back to the government, a general increase of salaries will result.

When asked about the possibilities of an election before another session of parliament is held, Mr. Paterson smiled and said, "I have never heard of such a suggestion."

Disastrous Fire in Corbyville; Distillery and Grist Mill Ruined

Corby's, Near Belleville, Destroyed Early Sunday Morning.

Engineer Sustains Severe Burns—Damage Placed At a Quarter Million Dollars—200,000 Bags of Grain and 9,000 Gallons Spirits Lost—Only Part Covered By Insurance—Warehouses Escaped.

Belleville, May 13.—Excitement aplenty reigned in this city yesterday owing to the fact that the big distillery at Corbyville, four miles from here, was found to be on fire at five o'clock in the morning, and in a few hours had been completely gutted.

Harry Hubbs, who had been firing in the engine room all night, discovered the fire, and came near losing his life before he escaped from the burning building.

His escape was almost cut off, and as it was he was badly burned and scalded before he gained the outside of the building. His skin hung in strips from his hands and arms, and, in addition, he fell down a flight of stone steps, injuring himself so severely that his recovery is said to be doubtful.

Started In Distillery.

The fire started in the distillery proper, and when those outside saw it the flames were bursting out of the roof. There was little fire fighting appliance in the village, and by time assistance arrived from the city the distillery and the grist mill situated next to it were beyond all hope of being saved.

The city firemen who took with them the Merryweather engine, did good work, in confining the fire to the two buildings, and that was all they could do. In a couple of hours all that was left of the distillery and mill was the walls. All the expensive machinery, comprising a new electric plant and thousands of dollars' worth of expensive copper work, lately put in, being destroyed. In the grist mill were 200,000 bags of grain, which were destroyed, and in the distillery was also lost 9,000 gallons of liquor in process.

E. H. Davis is resident manager at the distillery, and he estimated the loss at fully a quarter of a million, or possibly $300,000. He absolutely refuses to discuss the insurance, which, he said, was distributed among many companies. He did say, however, that the insurance would fall fully $100,000 short of the loss. Mr. Davis said the company would undoubtedly rebuild just as soon as possible, and the new plant would be thoroughly up-to-date in every way.

Warehouses Not Touched.

About 50 men were employed in the buildings burned. There is a full stock of liquors in the bonded warehouses, which was not in any way injured by the fire, neither were any of the other buildings.

Another Terrible Train Wreck; Awful Disaster and Loss of Life

Thirty-One Lives Lost and Many Injured—Most Shriners.

Ismalia Special, Meets Disaster—Engine Turns Somersault Into Sands By Side of the Ocean—Cars Pile On Top and Catch Fire—Defective Switch Was Cause—Scores Were Scalded.

Santa Barbara, May 13.—Thirty-one dead and a score injured last night comprised the casualties due to the wreck at Honda on Saturday of the Ismalia special train of New York and Pennsylvania Nobles of the Mystic Shrine, who were returning home from the annual meeting of the Imperial Council of the Nobles of the Mystic Shriners at Los Angeles.

The train, carrying 145 Shriners and friends from Ismalia Temple, Buffalo; Rajah Temple, Reading, Pa., and neighboring cities, was running north at 50 miles an hour on the Southern Pacific coast line when the locomotive struck a defective switch at the sand-swept siding at Honda, near the Pacific Ocean, along which the railroad runs for a hundred miles north of Santa Barbara. The locomotive turned a somersault into the sands. The cars landed on the wrecked locomotive, and the coaches were crushed and took fire. The flames were soon extinguished by uninjured persons from the two rear coaches. As Honda is isolated, it was not till late yesterday that definite information of the wreck could be obtained. The bodies of 25 victims are now at Santa Barbara, and four more at San Luis Obispo. The injured, many of whom are terribly hurt, and some of whom may die, are in two sanitariums at San Luis Obispo.

The wreck occurred at 2.35 o'clock, an hour and forty minutes after the conclave's visitors, forming a merry party, left Santa Barbara. They had spent all the morning there sightseeing. That the train was making terrific speed when it struck the defective track is borne out by the fact that it covered the 61 miles of crooked track from Santa Barbara to Honda in 100 minutes. The locomotive, in leaving the rails, tore up the track, badly twisting the steel rails. The baggage car half-buried laid itself in the sand beside the locomotive. It was smashed almost to kindling wood.

The dining car, on which were 32 persons eating luncheon, bounded into the air and fell directly on the demolished locomotive. Nearly every person in the dining car was instantly killed. Scores were scalded by steam escaping from disconnected pipes.

The rear coaches were hurled into the wreckage, killing or injuring those who might otherwise have escaped. Several persons pinioned in the debris were roasted alive.

Engineer Frank Champlain was pitched with the cab 25 feet beyond the engine. He got up and ran a mile, seeking help before he discovered that his arm was broken and that he was severely scalded.

Only two of the nine men, composing the dining car crew, are dead. The remainder, though cooped up in the narrow kitchen and pantry, suffered only cuts and bruises. The last call for luncheon had been called, but a few minutes before the disaster.

An instant after the disaster those who were not incapacitated jumped from the train to render aid, but they were unable to do much, beside extinguish the fire, and they had to wait long hours before relief arrived.

Frightened women peering through the windows of the undamaged sleeping cars, fainted when they saw the bodies of their friends strewn along the roadside, blood from the wounds staining the sand drifts all about. Men who toiled hard at the task of rescue collapsed.

At 4 o'clock a relief special left Santa Barbara and made the 61 miles to Honda in 90 minutes. Simultaneously another special left San Luis Obispo occupied with nurses and doctors. It arrived shortly before the one that left this city. But what the work of rescue was possible had been done by those who had escaped the disaster.

Twenty-five bodies lay on the sand beside the track. The injured, many of them unconscious and dying, were scattered about on piles of bedding and plush seats brought from the Pullmans.

It was determined at once to remove the injured to San Luis Obispo, and to take the dead to Santa Barbara. The work of placing them upon the two trains was quickly accomplished.

Twenty-Five Injured.

Monterey, Mexico, May 13.—Running 35 miles an hour, a southbound train on the Mexican Central Railway from El Paso to Mexico City, left the track six miles north of Bermejillo Saturday, injuring 25 persons.

Fireman Yates Killed.

Niagara Falls, Ont., May 13.—In a head-on collision between Wabash freight engine 191 and G. T. R. yard engine 634 on Saturday here, Fireman Thomas Yates of St. Thomas got caught between the engine cab and tender and was so badly crushed that he died at the hospital in the evening. Engineman Taylor of engine 191 and Engineer Goodes and fireman on yard engine 634 jumped and escaped injury.

House Totally Destroyed.

Brockville, May 13.—Fire broke out in a house occupied by Mrs. Louisa Rose, an aged widow of Denhigh. In trying to save the effects, her clothing caught fire and she would have been fatally burned had not a couple of neighbors arrived in time to smother the flames. As it was her arms and side were painfully injured. Her rescuers were also slightly scorched and the house was totally destroyed.

New Fish and Game Warden.

Kingston, Ont., May 13.—Captain Alfred Hunter, Harrowsmith, has been appointed warden of game and fisheries for Eastern Ontario. The salary is $1,000.

INCENDIARISM IN PARIS.

Thugs Cut Hose and Pillage Apartment Houses.

Paris, May 13.—The entire fire department of Paris was called out Saturday night to fight two great fires which started within two hours, and which are believed to have been the work of incendiaries.

The first fire was at Aubin's big cartridge factory, in the suburbs of Paris. It was accompanied by many violent explosions, but there was no loss of life.

The second was in the Monmartr district, at Hermann Lachapelle's metal works. Here the flames spread rapidly to some adjoining tenement houses the occupants of which were rescued with difficulty. The work of the firemen was impeded by a mob of thugs, called in Paris "Apaches," who cut the fire hose, pillaged the houses from which the occupants had been turned out by the firemen, and stabbed one policeman, who was trying to hold the people back.

The damage is estimated at $2,000,000. Many persons sustained injuries, and it is feared that two firemen lost their lives through the collapse of the factory roof. Fifty persons were rendered homeless and had to seek shelter for the night in the police stations.

FEELING OF ALARM SUBSIDES.

In Spite of Bad Weather Much Seeding Has Been Done.

Winnipeg, May 13.—The feeling of alarm over crop conditions in the West is very rapidly subsiding with the more favorable reports of seeding. In spite of really very bad weather, much seeding has been done though expensive and under conditions not calculated to improve the yield.

Alberta, according to reports on the Grain Exchange, is really better off than Manitoba.

Saskatchewan, too, is said to be in better condition, especially that fertile section on the Soo line. The buying for speculative interests has been very heavy in Winnipeg the past week, on information of positive failure to seed in many localities. The steady advance of prices has been very generally anticipated by speculators in different parts of the West.

Early in June next an exhibiton of French postage stamps is to be opened in Paris.

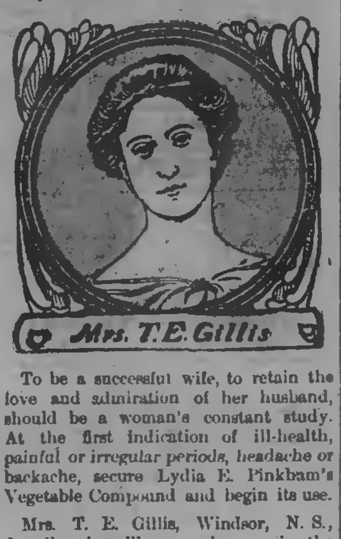
James Leitch, chairman of the Ontario railway board, is confined to his bed with inflammaton of the throat.

WOMEN WHO CHARM

HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love.

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.



To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular periods, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. T. E. Gillis, Windsor, N. S., describes her illness, and cures, in the following letter:

Dear Mrs. Pinkham:—

"When I commenced to take Lydia E Pinkham's Vegetable Compound I was suffering with weakness and womb trouble, headaches, backaches, and that worn-out, tired feeling. I have only taken the Vegetable Compound a few short weeks, and it has made me well, strong and robust. I believe that Lydia E. Pinkham's Vegetable Compound is without equal for female troubles."

Women who are troubled with painful or irregular periods, backache, bloating, (or flatulence), *inflammation* or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E Pinkham's Vegetable Compound.

HATCHING A REVOLUTION.

General Toledo to Lead Expedition Against Cabrera.

Mexico City, May 13.—It has been learned that Gen. Salvador Toledo, who assisted Gen. Barrillas in the last Guatemalan revolution, and who is designated as the leader of the coming revolution against the Cabrera Government of Guatemala, is now en route to New Orleans, and will come to Mexico within a week or ten days.

Every Guatemalan revolutionary junta in Central America and in the United States and Mexico is now actively at work on plans for the new revolution against President Cabrera, and it is believed that actual fighting in Guatemala will begin within thirty days.

Gen. Toledo is said to have completed arrangements for the invasion of Guatemala from the Honduran border before leaving Meshia, Nicaragua, where he has been stationed for some time past. Further arrangements will be made in New Orleans, and from that place he will proceed to Mexico to confer with the Guatemalan exiles in this city.

It is now almost certain that he will lead the new movement against Guatemala. It is also asserted that upon his arrival here the provisional Government, which has been contemplated for some time, will be organized, with Gen. Toledo as provisional President.

According to the refugees, a veritable reign of terror now exists in Guatemala. It is stated that more than 10,000 of the wealthy and business classes have left Guatemala since the alleged *attempts on President* Cabrera's life two weeks ago. Every vessel leaving San Jose for Mexican ports is crowded by the fleeing people.

The stories of the atrocities practiced in the overcrowded prisons are revolting in the extreme.

Cabrera, it was learned, has now 20,000 troops on the Mexican border and 11,000 more on the Honduran frontier.

The situation in this city is unchanged. Officialdom regards the Guatemala affair as a closed incident as far as Mexico is concerned.

POSTED AT LLOYDS AS LOST.

No Hope For Safety of Moncton Vessel, Island City.

Moncton, N. B., May 13.—W. H. Edgett, of this city, who some months ago feared the loss of his three-masted 400-ton vessel, Island City, has abandoned all hope of tidings of her or her crew, and has posted her at Lloyds as lost.

The Island City left Chatham, N. B., November 28th last, with a cargo of laths for New York. She was last reported passing through the Straits of Canso. Since then nothing has been heard of her or her crew of eight men, of which Howard Priddle of St. John was captain. The cargo was owned by Mr. Edgett and insured, but the vessel was not.

It is a strange coincidence that this is the second fatality in the Priddle family within two years. Captain Priddle's brother was master of the schooner Wanderian, when that vessel was wrecked off Cape Cod a year ago last February, with the loss of all hands, including the captain's wife and two children.

Wood's Phosphodine,
The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

GETS HEAVY SENTENCE

Joseph Thompson Gets Three Years For G. T. R. Wreck.

Violated Rules—Guilty of Manslaughter—Scathing Remarks of Judge—Public Must Be Protected—More Canadians Killed Through Negligence, Than In Boer War—Appeal to Minister of Justice for Reprieve.

Guelph, May 13.—Three years at Kingston was the sentence meted out by his Lordship Mr. Justice Riddell to Joseph H. Thompson, the G.T.R. freight conductor, who was found guilty by a jury at the assizes here of violation of the rules of the company. His Lordship dwelt upon the carnage caused by railroad accidents, said more young healthy Canadians were killed in railway accidents due to negligence of employes each year than were during the Boer war. "The public must be protected," he said, in passing sentence.

A large number of petitions were presented by Mr. Jeffray, counsel for defendant, for the clemency of the Court, including one from Mayor and aldermen of the city, and one from employes of the company, and the jury at the assizes had added to their verdict a recommendation to mercy. But after reading a lengthy charge, his Lordship sentenced the prisoner as above, saying that he might have sentenced him for five years.

London, May 13.—The news that Conductor Thompson at Guelph had been sentenced to three years in the Kingston penitentiary was received here with consternation among railway men. Thompson was one of the most popular men in the city on both railroads. He had of late, since the accident, which had resulted in his committal, been employed on the C.P.R.

The unfortunate man is the father of two bright little children, and with his wife has the sympathy of the whole railroad community.

The case will at once be taken to the attention of the Minister of Justice, who will be asked to grant a reprieve. The movement to secure a reduction of the sentence will be vigorously undertaken in this city, where railroad men regard the sentence as altogether too severe, under the circumstances.

Mr. Justice Riddell was asked Saturday night what action he intended to take in view of his statement at Guelph in passing sentence on Conductor Joseph Thompson. He replied that it was for the Attorney-General's Department to act.

FAST ATLANTIC SERVICE.

May Be One of Real Results of Colonial Conference.

London, May 13.—However fruitless the Colonial Conference may seem in some respects, there is now every reason to believe that it will result in the long-hoped-for establishment of a genuine fast Atlantic steamship service.

It may now be stated authoritatively that a definite plan has been made, details worked out, and it only waits ratification by the two Parliaments to consummate the greatest Imperial project of many years.

The plan involves the formation of an Atlantic steamship company; the commissioning of vessels which will represent the latest developments in naval architecture, with a speed of 25 knots, and able to maintain an average of 24; this service to be subsidized by the British and Canadian Governments, each to pay probably $1,000,000 per year for ten years. It also involves the Australian Commonwealth and New Zealand joining in the project by subsidizing the Pacific service, which would then be increased from 13 to 18 knots, and extended to take in New Zealand and Australia.

UNIFORM TEXT BOOKS.

Ministers of Education In Each Province to Consider Scheme.

Toronto, May 13.—The publication of a national series of textbooks for the schools of all the provinces of confederation is the proposal which the various Ministers of Education are considering. The object is to secure uniformity and co-operation, and to this end steps have been taken to call a conference some time this year.

The two new provinces—Alberta and Saskatchewan—have already moved to secure uniformity by uniting on a series of readers, the contract for publishing which has been awarded to a Toronto firm. Ontario is now advertising for tenders, and before long a new series of textbooks will be authorized by the department.

Hon. Dr. Pyne stated to the press that the education authorities of all the provinces have been communicated with on the subject of uniformity of textbooks. All are agreeable to the proposal, but beyond this favorable intimation nothing has been done.

Nominated For West York.

Toronto, May 13.—Dr. Forbes Godfrey of Mimico received the nomination for the riding of West York for the local Legislature, at a convention held Saturday at Weston.

Over 200 delegates were present and fully an equal number of other Conservatives attended the gathering.

The meeting was quite enthusiastic and gave strong indications of supporting the forward policy of the Whitney administration.

Hindus Still Restless.

Simla, British India, May 13.—Although no further disturbances have occurred, the marked unrest among the Hindus continues and the Government is determined to check its spread.

An extraordinary issue of the Official Gazette contains a proclamation of the viceroy, the Earl of Minto, prohibiting meetings for the discussion of public or political affairs without a week's notice.

Chief Justice Fitzpatrick and Chief Justice Taschereau are to be knighted on Victoria day, it is said.

Cheese—Quiet; unchanged; receipts, 1212.

Eggs—Weak; receipts, 21,004; western, regular packed, firsts, 17½c (official price same); seconds, 17c.

CATTLE MARKETS.

Cables Steady—Hogs Higher In American Markets.

LONDON, May 11.—Liverpool and London cables are steady at 11¼c to 12¼c per lb., dressed weight; refrigerator beef is quoted at 9c per lb.

East Buffalo Cattle Market.

EAST BUFFALO, May 11.—Cattle—Receipts, 100 head; demand light; market easier; prices unchanged.

Veals—Receipts, 800 head; active; 25c lower; $5 to $7.50.

Hogs—Receipts, 4300 head; 5c to 10c higher; heavy, $6.60 to $6.90; mixed, yorkers and pigs, $6.85 to $6.90, mostly $6.90; roughs, $6 to $6.15; stags, $4.50 to $5.

Sheep and lambs—Receipts, 4000 head; sheep, steady; lambs, 5c lower; lambs, $5.50 to $7.75; others unchanged.

New York Live Stock.

NEW YORK, May 11.—Beeves—Receipts, 1430; all consigned to slaughterers and exporters; nothing doing; feeling steady; exports, 923 cattle and 5000 quarters of beef.

Calves—Receipts, 148; feeling weak on expected heavy receipts Monday; medium veals sold at $6.50.

Sheep and lambs—Receipts, 4912; market about steady; sheep nominal; lambs, all clipped, $7.30 to $7.75; no spring lambs, offered.

Chicago Live Stock.

CHICAGO, May 11.—Cattle—Receipts, about 300 head; steady; beeves, $4.30 to $6.45; cows, $4.80 to $4.85; heifers, $2.60 to $5.30; calves, $4.25 to $6; good to prime steers, $5.40 to $6.45; poor to medium, $4.30 to $6.30; stockers and feeders, $2.90 to $5.10.

Hogs—Receipts, about 7000; 7c higher; light, $6.40 to $6.65; mixed, $6.35 to $6.62½; heavy, $6.15 to $6.57½; rough, $6.15 to $6.30; pigs, $6 to $6.45; good to choice heavy, $6.45 to $6.57½; bulk of sales, $6.55 to $6.60.

Sheep—Receipts, about 1500; steady; natives, $4.50 to $6.80; western, $4.50 to $6.80; yearlings, $6.75 to $7.65; lambs, $6.50 to $8.70; western, $6.50 to $8.75.

Youthful Murderer.

Brunswick, Me., May 13.—Cherishing a resentment over a boyish quarrel which took place over two weeks ago, Sydney Preble, 15 years old, shot and killed Morris W. Heath, aged 18 years, in Bowdoinham Saturday night. The crime was not discovered until Saturday, when M. S. Heath, father of the murdered boy, found the body buried under pine spills and leaves at the edge of a swamp.

Preble was arrested and immediately confessed.

Upper American Canal Clear.

Sault Ste. Marie, Ont., May 13.—For the first time this year the ice was all out of the upper American canal, and no trouble was experienced with it Saturday. The strong southwest wind drove it out.

Penitentiary Guard Suspended.

Kingston, Ont., May 13.—On Saturday a penitentiary guard was suspended for disobeying orders. He refused to do some duty assigned to him by the chief keeper.

The Marathon Mystery

A Story of Manhattan

By BURTON E. STEVENSON

Author of "The Holladay Case"

Copyright, 1904, by Henry Holt and Company

The room which had been occupied by Drysdale was the counterpart of Tremaine's, but it was in great disorder. An open trunk stood in the middle of the floor, with clothing strewn about it; the bed had not been made.

"We was ordered not t' do anything toward settin' this room to rights," explained Thomas apologetically, "till the coroner sent us word we might. He ain't sent no word yet."

It was evident that Drysdale had been packing very hastily when he was interrupted by the arrival of the officers. The clothing which was in the trunk had been crammed in carelessly—though, of course, that might have been done by the coroner after searching it.

"Drysdale evidently didn't spend much time in bed that night," observed Godfrey and indicated a pile of cigarette stubs heaped high on an ash tray on the table. "He must have had some knotty problem to wrestle with to need so many."

He walked slowly about the room, looking at everything keenly, but touching nothing. He stood gazing at the bed for a long time. Then he turned again to the table.

"Here's the diary," he said, picking up a little book which lay there. "So Heffelbower didn't get it. Well, I guess I'd better see he doesn't have another chance."

He weighed it in his hand, and I could see how it tempted him. Perhaps here lay the very key which he had been seeking in vain! But in a moment he slipped it unopened into his pocket.

"A man is a fool to make promises," he observed, with a wry smile, and sat down at the table. "Hello, what's this?" he added suddenly, and, stooping, he fished from the wastebasket beside him the fragments of a cane.

It was a cane certainly of at least ordinary strength, and yet it had been broken into half a dozen pieces and hurled into the basket.

Whistling softly to himself, Godfrey surveyed it a moment; then he bent over the basket and examined the remainder of its contents piece by piece. There were scraps of letters, a torn envelope, a crumpled sheet of paper—

He sprang to his feet with a cry of triumph and waved it in the air.

"I've found it!" he cried, his face beaming. "I've found it, Lester!"

"Found what?" I questioned, more and more astonished, for Godfrey was usually master of his emotions.

"Ah, Lester," he continued more calmly as he smoothed it out carefully on the table, "this takes a lot of conceit out of me. Had I been really clever I'd have deduced the existence of this message long before I entered the room. As it is, it's luck—pure luck! I'm glad to win on any terms, but I'd rather win by scientific deduction. C. Auguste Dupin would have come straight upstairs, walked straight to that basket and selected unerringly this sheet of paper; he would have known that it was there, while I—well, one can only do one's best, and this point was a little too fine for me. Take a look at it."

It was a sheet of the ordinary Edgemere note paper. Across it two lines were written:

> Be at the pergola at 8. If I am late wait for me. G.

"Well," I faltered; "well"—

"Oh, don't you see, Lester, it's the key to the whole problem? It's the light we've been looking for—with our eyes shut. And to think that instead of coming straight here for it I should have stumbled about in the dark for so long! It's the only possible explanation, and yet I didn't think of it. It was inevitable from the first, and yet I couldn't see it. It disgusts me with myself—it's what I get for being so cocked up over finding that bottle down there. Even after I saw that blotter I didn't guess it."

He had taken out a card, and as he spoke he wrote a rapid sentence on it.

"Here," he said to Thomas, "take this to Miss Croydon at once, please."

CHAPTER XXVII.

I WAS conscious, in a dim way, that the end was at hand, that we were about to penetrate the mystery. Indeed, I already had a vague inkling of the truth—too vague to be put into words, too obscure to be discerned clearly. I was trembling with eagerness. I endeavored to string upon a common thread the bits of evidence which had seemed to Godfrey so important—the bottle, the scratches on the wall, the coat rack, the broken cane, the note; but for the life of me I could see no connection between them. Yet I knew there must be or Godfrey would not now be walking up and down the room with a face so beaming, so triumphant.

"Miss Croydon will see you at once, sir," announced Thomas from the threshold, and we followed him to the farther end of the corridor, where he tapped at a door. A voice bade us enter.

She was standing by a window, looking out across the waters of the bay, and she did not turn for an instant—not, indeed, until Godfrey had closed the door carefully behind him. I have seen few women more regal, more magnificent, yet there was about her—in her face, in the droop of her figure—such an air of utter misery, of exquisite suffering, that, after the first moment, one forgot to admire her in the desire to be of service.

"You wished to see me?" she asked, in a low voice.

"Yes, Miss Croydon," replied Godfrey, more gently perhaps than he had intended to speak. "This is Mr. Lester," he added, "who has been engaged to defend Mr. Drysdale."

She acknowledged the introduction with the faintest of bows.

"I hope Mr. Lester will be successful," she said, in the coldest of tones. One would have thought her a mere chance acquaintance of my client.

I saw Godfrey looking at her with searching eyes, and his face hardened.

"We mean to be successful," he said curtly. "You may as well ask us to sit down, Miss Croydon, because our business here will take some time, and I am sure it will tire you to stand."

"Really," she began; then her eyes met his, burning with meaning. "Oh, very well," she said faintly and sank into the chair nearest her.

"Now, Miss Croydon," Godfrey continued in the same coldly imperative tone, "I intend to speak to you bluntly and directly. We have beaten about the bush too long already. I see that you are not inclined to deal frankly with us. You have not been frank with us from the first. You have sought to blind us, to throw us off the track. Therefore I shall tell you what we already know in order that you may realize how useless it is for you to try to hold us off. We're going to see that the guilty man is punished, not for this crime alone, but also for that other one at the Marathon, of which you were the only witness. You shall not be permitted to keep him from justice a day longer. In the first place, we know that this man Tremaine inveigled your sister into a schoolgirl elopement and marriage; she was rescued from him; she thought him dead; she married Delroy; came to New York; Tremaine followed her and attempted the extortion of blackmail; you met him at the Marathon; while you were talking Thompson interfered and Tremaine killed him, escaping before the officers arrived. You did not know Thompson, but you saw Simmonds and me take out his pocketbook. You heard me read a line or two from one of a packet of clippings we found there, and while we were in the bedroom you took those clippings from the body and hid them under the edge of the carpet"—

She breathed a long sigh and sat erect again.

"Ah," she said, with a little smile, "I was beginning to fear you, all that seemed so supernatural. But now I see where your information came from."

"It is correct, then?" asked Godfrey.

"Yes," she answered. "Yes."

Godfrey leaned back in his chair, with a long sigh of relief. He had won the battle.

"Miss Croydon," he said, "I'm going to reward you for your frankness by telling you something which I had intended to keep secret awhile longer, just to punish you. Your sister never was the wife of Tremaine and has nothing whatever to fear from him. He has no hold on her at all. She has never been anybody's wife but Mr. Delroy's."

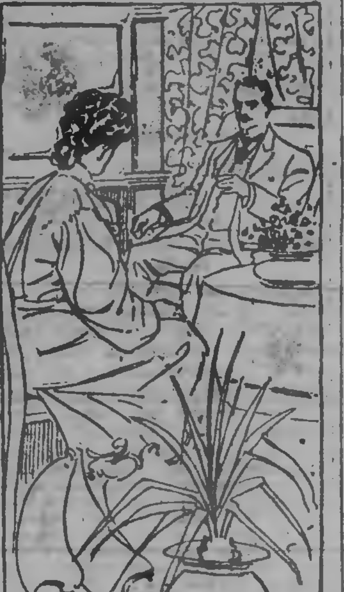
She was staring at him with widely opened eyes, her hands clasped above her heart.

"Oh, if it were really so!" she cried. "If it were really so!"

"It is so," repeated Godfrey, and took a little yellow envelope from his pocket. "Read this." And he unfolded a sheet of paper and held it toward her.

She took it with trembling hand and read the message written upon it, but seemingly without understanding it.

"It is a cable," he explained, "from the Record's correspondent at Dieppe. Your pardon, Lester," he added, with a fleeting smile; "I forgot to show it to you on the trip out. Please read it aloud, Miss Croydon."



"Your sister never was the wife of Tremaine."

"The widow of Victor Charente," she read in a low voice, "died here Feb. 21, 1901. Had never married again." She looked up, her brows still knitted. "Well?" she asked.

"Well," said Godfrey, "Victor Charente is the real name of Tremaine. He married that girl many years before he met your sister. She was his legal wife. Your sister never was. She was never the legal wife of any one except Richard Delroy."

She understood now, and the glad tears burst forth unrestrained. Indeed, she made no effort to restrain them, but only rocked back and forth, pressing the message against her heart.

"Thank God!" she sobbed. "Thank God!" And then she started up from her chair. "I must tell her," she said, "at once. If you knew how she has suffered! She must not be left in that cruel position an instant longer."

"Very well," agreed Godfrey. "We will wait for you here."

She disappeared through a door at the farther end of the room, but in a moment came softly back again.

"She is asleep," she said. "I will wait until she wakes. What a joyful awaking it will be!" And she sat down again. She wiped away the tears, but her eyes were still shining. Godfrey gazed at her with a face full of emotion.

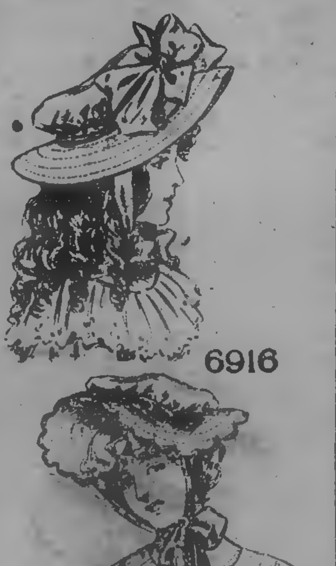
"Now, Miss Croydon," he began, "you've told me that my theory's correct, but there are three or four points I should like you to help me clear up, if you will."

"I shall be glad to if I can," she answered, and smiled at him, her eyes brimming again. "You've lifted such a load from me, Mr. Godfrey, that I'd do almost anything to show my gratitude."

Why, looking at her, did his face change—soften, harden? Why did his hands tremble so? It was over in an instant; yet I had caught a glimpse of his secret. I understood.

To be continued.

LATEST DEAN PATTERNS



6916

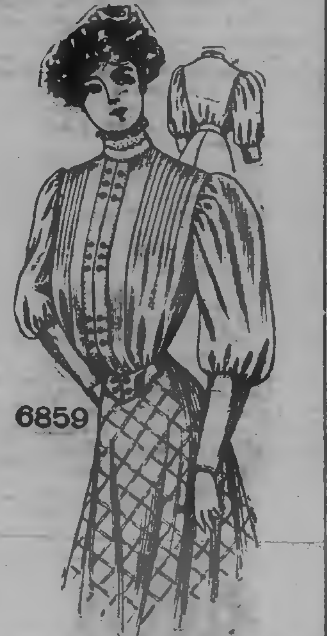
6916.—A PRETTY SUN HAT FOR SUMMER DAYS.

The washable sun hat is not only a most becoming accessory, but serviceable and practical in many ways. Such a hat as the one sketched may be made with little difficulty and tubbed as frequently as desired. The brim is stitched to increase its stiffness and the crown is a full round one. Mull or silk bows may trim it and tie it under the hair or chin. Linen, percale, Madras or pique may fashion the hat, 1 1-8 yards being needed for the ladies' size and 1 yard for the smaller sizes.

6916.—Sizes, ladies' misses', girls' and child's.

The price of this pattern is 10c.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.



6859

6895.—A WAIST OF NOVEL DESIGN.

The fashion of trimming cloth or silk with lace has been traversed and now it is lace which forms the body of the prettiest waists and the material adorns it. Here is a waist showing the style very prettily, the waist proper being of figured net and the bolero of silk. The waist is very unique in style and wonderfully fetching. Long and short sleeves are provided for, the latter being the more attractive because of the natty little cuff bands which finishes them. Such a waist is smart in white cloth or pongee and may be developed at home without difficulty. For the medium size 3 yards of 27 inch material are needed for the waist and 1 1-8 yards of 18 inch goods for the bolero.

6895.—Sizes 32 to 42 inches bust measure.

The price of this pattern is 10c.

Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail.

NOTHING SUCCEEDS LIKE SUCCESS

The Largest Order Ever Given in Canada

The wholesalers are the barometers of the drug trade. When the wholesale druggists stock any preparation extensively, this fact may be taken as a sure sign that it is in increasing demand. Probably the largest order ever placed in Canada for a Standard Remedy was recently given to Fruit-a-tives Limited by The National Drug and Chemical Company of Canada, Limited, calling for 100 gross (14,400 boxes) of "Fruit-a-tives" or "Fruit Liver Tablets."

Inside of two months the National Drug and Chemical Co. sold the entire quantity, and purchased an additional 100 gross.

These two orders of 200 gross, aggregating 28,800 boxes, show how large the sale of "Fruit-a-tives" has grown and proves, too, that people all over the Dominion are fully alive to the value of this excellent preparation.

This fruit remedy no doubt has real merit, yet were it not for the best kind of newspaper advertising, which has told the story of "Fruit-a-tives" to so many of our people, its virtues would be known only to the few.

Real merit and newspaper advertising mean success.

BOYS PUT OUT FIRE ON BRIDGE

In some manner or other a fire was started shortly after noon on Saturday on the bridge at the intersection of Aylmer and Brock streets. Several planks at the north-west corner of the bridge were scorched before the fire was put out by some boys who discovered it. It is thought that the blaze was started by a lighted cigar stub, thrown away by some passerby.

DUST NUISANCE AGAIN PROMINENT

The only man in the centre of the city, who was not kicking about the dust on the streets today was "My Valet." The more dust that blows on the men's clothes, the better for his business. But the merchants made a big howl. The roads are as dry as in the summer, and the wind was high. As a result the dust swept through the streets and stores in clouds. The dry goods men were very angry and so were all the merchants.

When enquiries were made as to why the watering carts were not out, it was learned that the big steel cart was out, and the team which should have been on the other wagon, had been taken off for the purpose of moving the fire brigade from the old hall to the new hall. This took them all morning, but the two wagons were put on again this afternoon and the dust was put down.

While the excuse offered was a fairly good one, it does not repay the merchants for the goods damaged and the time lost in cleaning up the dust.

REV. MR. BRACE GAVE ADDRESS

At the Men's Meeting in Y.M.C. A. on Sunday

One of the largest meetings that have been held at the Y.M.C.A. for several months was that addressed by Rev. A. H. Brace yesterday. The service was a deeply impressive one throughout, the address being listened to with a keen interest by the men present. Mr. Brace has the faculty of presenting a gospel truth in a plain and forcible way. He spoke on "A Man in a Tight Corner," referring to Zaccheus, and the steps in his conversion, namely, desire, difficulty and determination.

Mr. Stewart Long sang "The Lord is My Shephard," in excellent voice.

At the close of the meeting Messrs. Thornton and Callendar sang, by request, "Let Jesus come into thine heart."

This selection also added much to the impressiveness of the meeting.

Fellowship Club Held Meeting

Most Enjoyable Gathering on Saturday Night—New Members

The monthly meeting of the Strangers' Fellowship Club held at the Y. M.C.A. on Saturday evening, was pronounced to be one of the most interesting meetings of that club ever held.

There was a good attendance. Mr. R. E. Harding, President, occupied the chair. After tea a paper was read by Mr. B. A. Leslie, on "Friendship to Men." It was suggestive and helpful and provoked a live discussion. At the next meeting Mr. Wm. MacLaren will give a paper on "Social Service to Men."

Messrs. J. Leslie, R. Baker and A. Brace were elected members of the club, the two last named being introduced.

Hole in Aylmer Street Drain

At Crossing of London Street—Will Need New Culvert

Saturday afternoon a horse went through the big Aylmer street drain where it crosses London street on the west side of the road. This drain runs under the sidewalk from the foot of the hill down to McDonnel street, where it is diverted and carried along McDonnel to Bethune, and there emptied into the creek. At the point where the horse went through there is about a foot of stone road on top of the wooden culvert, and the hole reveals a decayed condition in the wood. It is likely that in order to make this crossing safe a large tile culvert will have to be put in, unless the Council has any intention of changing the course of this ditch. It was fortunate that no serious damage resulted, as a horse or man could very easily break a leg by stepping into the hole. All day yesterday a big piece of board stood upright in the drain to mark the danger spot.

PARK ST. BAPTIST CHURCH

Sunday at Park street Baptist church was a day of unusual power and interest. Two extra services have been added to the already full slate.

The following are the meetings for the week.:

The B.Y.P.U. will meet on Monday. Subject, Joseph, Ps. 105.

On Tuesday the Ladies' Mission Circle will meet; Miss M. Mann in the chair.

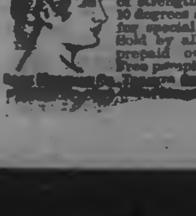
Public service Wednesday, pastor in charge.

The building committee will meet at 8 p.m. on Friday.

The Busy Workers will meet on Friday at 4.20.

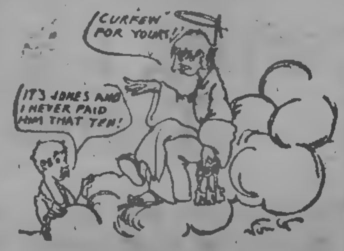
A telegram just received says that Gen. Sierra has been proclaimed president of Salvador, at Amapala.

Edward Lake Picton Osler, barrister adn brother of Dr. William Osler, of Toronto, died on Friday, aged fifty-four.



Cook's Cotton Root Compound.
The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co. Toronto Ont. (formerly Windsor) [illegible]

The Ruling Passion.



CURFEW FOR YOURS!
IT'S JONES AND I NEVER PAID HIM THAT TEN!

"Do you know what that fellow would say if he were invited to take St. Peter's place as gatekeeper?"

"No; what do you suppose he would say?"

"What's the salary, and is any commission allowed?"

Chance For Him.

"It is never too late to mend," said the sentimental one.

"Mend what?" asked the jester. "Socks?"

"No; your manners."

Good Kind.

"What is your idea of a good wife?"

"One who can make her last spring's wardrobe blossom as the rose and can make two hats grow where one was before."

May Be Superstitious.

"I wonder why so many of our soldiers desert."

"Perhaps they consider $13 a month an unlucky number of dollars."

Getting Even.

"How do you like my new suit?"

"Fine. Introduce me to your tailor."

"You bet I will. I have a grudge against him."

Matrimonial Disturbance.

"They have just quarreled."

"How do you know?"

"Because they are so polite to each other."

Up to Date Surgery.

"What makes you so contrary?"

"Just my disposition."

"Take an anaesthetic and have it out."

Made Him Over.

"He is a perfect stick. So she gave him his walking papers."

"Ah, a walking stick!"

ABSOLUTE SECURITY.

ACCIDENTS VS. FIRES
It is said that 20,000,000 accidents and illnesses occur each year, but only 80,000 fires.
A business man protects his property against the loss that rarely happens—fire. He can replace his property, but he can never replace his time or his damaged arm.
The most liberal accident and sickness policies are issued by
The General Accident Assurance Company of Canada
Our "Utopia" policy is the best and most unconditional Accident Policy on the market, and completely covers all loss of time from accident.
We issue a Sickness policy which covers every disease to which flesh is heir.
We are revolutionising the liability business by our "factory policy."

Weather is Cold in Saskatchewan

Dr. T. H. Bell Speaks of Conditions in the West

Dr. T. Herbert Bell, son of Mr. F. J. Bell Division Court Clerk, is home on a visit. Dr. Bell resided for the past three years in Rocanville, Sask., and has disposed of his drug store and medical practice in that town. On the way east he spent a few days in Winnipeg and also in Minneapolis. He left Rocanville two weeks ago and reports that the weather at the time was cold. The town is located 18 miles north of Moosomin and 250 miles west of Winnipeg. The season in the west is very backward owing to the severe weather and at the time Dr. Bell left no seeding had been done. He will remain in Peterborough for three or four weeks. It is two years since his last visit to Peterborough.

Mons. F. X. Mercier, the renowned tenor and artiste in grand concert here, May 21st

THE BLAZE STARTED FROM FIRE CRACKERS

Warehouse in Port Hope Destroyed on Saturday.

A Port Hope despatch says, — A frame warehouse in the rear of the Meredith block, occupied by Mr. A. B. Cheffins, was completely destroyed by fire, about five o'clock yesterday. The firemen had a hard fight in confining the blaze to the building in which it originated, which is situated in the corner of the business district. Boys playing with firecrackers in the back yard are supposed to have caused the fire.

The stock was only partly insured for $200 in the Montreal, Canada.

Nearly fourteen thousand immigrants have arrived at Quebec during the week.

REMOVAL

On or about May 15th our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

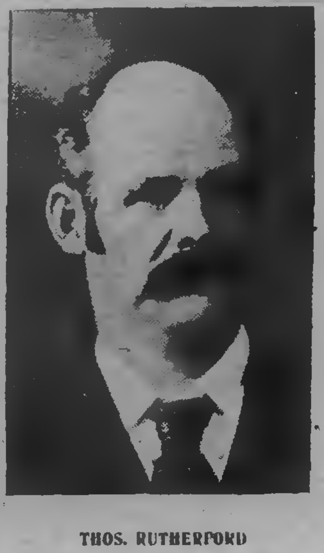
JOHN NUGENT

Moving Day for the Fire Brigade; Taking Possession of New Hall

Hall Completed and the Alarm System in Perfect Running Order—Firemen are Settled in Their New Rooms—A Fine Building Modernly Fitted Up—Old Hall Used for Forty Years—First Practice Tomorrow Night When the Engine Will be Used.

Today is moving day with the fire brigade. Early this morning the boys were up and started packing their goods. As soon as the horses had finished breakfast the hose wagon and dray were loaded with household goods and started for the new fire hall on Aylmer-st. The hose wagon was the first to arrive but it was quickly followed by the dray and in a short time the fire laddies were busy selecting their rooms unloading the wagons, and carrying the things upstairs. The hose wagon was swung around in position, and the horses put in the new stalls, and everything was ready for a fire. As soon as the hook and ladder truck arrived it was backed into position at the north end of the hall. All day today the firemen who will have sleeping quarters in the hall, have been arranging their rooms and getting settled down, ready to go to sleep this evening.

The new fire hall is completed so far as the contractor and architect are concerned. The fire alarm system is installed and is in working order, and the firemen, with their apparatus, are stationed there. The hall, from the outside, is a handsome building. It is two full storeys high, with a large garret. There are four double doors for the wagons and engine to come out, and a small door leading to the chief's office. The approach to the hall is of solid concrete and was only completed few days ago by Street Commissioner Evans. The concrete covers a space containing 2,448 square feet. It was carefully laid and is a most satisfactory job. shows eight windows, which furnish light to the firemen's bedrooms.



THOS. RUTHERFORD
Chief of Peterborough Fire Brigade.

The second floor of the building and in the garret there are six windows. The walls are of pressed red brick, lined with white brick. The big doors swing out and leave a clear passage for the teams, so that they can make a dash in either direction.

The basement of the new hall is very large, well lighted, and airy. It extends under the entire building and would make an ideal store room for the corporation's tools. It is divided into three sections by solid walls, connected only with an archway. The only part finished is the centre, where the battery for the alarm system is stored, and around the furnace and to the lavatory. The rest of it will be left for a year or two until the council decide what use to make of it.

The battery is composed of 125 cells, which are arranged on six shelves. 72 cells are connected with the general box circuit, 28 with the firemen's tap bells, 13 on the local circuit in the hall and ten on the big fire bell in the town clock. These will shortly be partitioned off from the rest of the basement and kept under lock and key. A sink will also be installed in the battery room, connected with the waterworks and sewer, for the purpose of washing out the cells every two weeks.

On the main floor of the hall is accommodation for a hook and ladder truck, a chemical engine, hose wagon and a fire engine. In the centre is the chief's office and back of that is the stairway going upstairs and down into the basement.

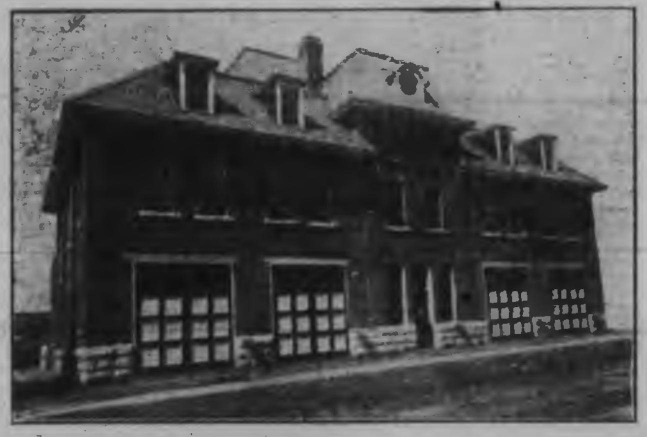
While it has not been definitely decided yet, it is likely the hose wagon will be on the north side, the new combination wagon next, the fire engine south of the chief's office and the new 54-foot ladder and truck on the south side of the hall.

The poles for the men to come down are situated just between the two rigs on each side of the hall and right at the rig, so that no time will be lost in climbing on.

When building the hall no provision was made in the plans for the 54 foot ladder, and now the partition between the hall and the stables will have to be cut out to allow the big truck to back in. This means there will be accommodation for only eight horses without a hospital stall. At present there is room for eight horses, but one stall is for use in cases of sickness.

The stalls are well laid out and are provided with single doors, which fly open when the gong sounds and allow the horses to get out. The floor is of cement and is connected with the sewer, so that there will be no excuse for a foul odor. In the centre of the hall is the hose tower, which will accommodate over a thousand feet of hose. The big gong is situated just over the stable doors on the north half of the hall, and can be heard all over the building.

The chief's office is a compact little place. It has not been furnished yet, except that the telephone is there, and the apparatus for testing the fire alarm, and for sounding the alarm when sent in by telephone. There is also a little button near the door, which is for the purpose of sounding an alarm in the hall for practice purposes only. This is to train the horses to harness, etc.



PETERBOROUGH'S CENTRAL FIRE STATION

On the second floor are the firemen's bedrooms. The north half has been divided into small rooms, and with two exceptions they will all have separate rooms. In the front facing Aylmer street are four bedrooms, and at the back is another room for the drivers, who will sleep together. Every room is furnished with a large clothes closet, and where two will occupy the room there are two closets, all under lock and key. One of the greatest features of this floor is the presence of the two marble wash basins, the lavatory and the bath room. The wash basins and the bath tub are both connected with hot and cold water. These rooms, while together, are separated by partitions and are as private and as convenient as those in a private house.

The south half of the floor is finished in one large room which will, for the time being, be utilized as an amusement room. In years to come this will have to be used for bedrooms for the paid brigade. Every room, and the hall, on both sides, is furnished with a hot water radiator, and in winter the men will be as comfortable as possible. The men who are sleeping in the hall are Chas. Buscher, A. Mitchell, A. Ranger and Wm. Tremain, firemen; W. Parnell and Dick Parnell, drivers, and Samuel Wainwright, engineer. Foreman Walter Pakenham will also have a room there.

As yet the garret has not been finished. It is a large, airy place, however, and the firemen have drawn a picture in their minds of the day when it will have been floored and turned into a gymnasium. It is an ideal place for this purpose, and no doubt the boys would greatly appreciate and be greatly benefitted if an apparatus was put in.

The new hall and the new fire alarm system will be in charge of Mr. Walter Pakenham. He will be held responsible for the condition of the hall and the discipline of the men. He will also have to see that the horses are properly looked after, and kept in good condition. He will be in charge of the fire alarm system and will have to keep it in repair. But Mr. Pakenham is a first-class electrician and he should be a valuable man in the position.

ALD. W. J. JOHNSTON
Chairman of Fire, Water and Light Committee.

BRIGADE ORGANIZED.

During the year 1861, the city suffered from three very severe fires, which destroyed some of the largest business blocks. "Notwithstanding the serious loss to the town by this and other fires," says Dr. Poole's history, "it was not until November, 1862, that a fire company was fully organized, and proper steps taken to insure the proper use of the engines, hose, etc."

The first fire fighting apparatus was stored in an old brick hotel which stood on the corner, now occupied by the market hall. At that time the fire engine was a small hand affair long since discarded. The first chief of the brigade was, so far as can be learned, the late William Swain; he was succeeded by Edward Poole, who was chief when the brigade moved into the quarters vacated today. That was about forty years ago. The next chief, was Mr. W. H. Wrighton who held the position for three or four years, and when he resigned Chief Rutherford was elected, and has held the office ever since.

CHAIRMAN JOHNSTON.

Ald. Johnston, Chairman of the Fire, Water and Light Committee this year and two years ago, is a happy man. He is wearing that smile so seldom seen on a busy man's face. But he has reason to be happy. It was Ald. Johnston, who so strongly advocated the fire hall. It was he who was largely responsible for the passing of the bylaw, a year ago last January. He organized his forces and placed the necessity for new fire hall, new engine, and new ladder waggon and more apparatus in such a strong light, that the people could not help but support it, although it had been turned down twice before. After getting the bylaw passed, it would naturally have been supposed that Ald Johnston would have been made chairman of the committee again last year to carry out the work he had started. But the council thought otherwise, and Ald. Johnston was given a rest for a year. Last January, he was once more made chairman, and he undertook to see that the work was completed and he now has the pleasure of seeing the new fire hall actually in use. It will stand for the next century, as a monument to his energy and zeal for the citys' advancement.

FIRST PRACTICE.

Tomorrow night, Tuesday, the fire alarm will be sounded and the new greay team of horses will be hooked to the new fire engine and hustled off to the corner of Brock and Aylmer streets, where it will be given a trial. This is the first time the grey horses have been hooked to the engine, and it is not known just what they will do. It is possible that at first they will look shy at the big machine and may not care about being attached to it.

The engine, will, however, be at the corner mentioned soon after seven o'clock, and the general public is requested to turn out and witness the trial. After the practice is over the engine will be taken to its new quarters in the fire hall, and the horses will be put in the stalls there. This will be the last of the old hall, and on Wednesday the Property Committee can start tearing down the tower and the stables.

OBITUARY

WILLIE G. MACDONALD.

The death occurred early this morning of Willie George MacDonald, son of Mr. Sween MacDonald, of 583 Downey street. The deceased was seven years fo age, and had been ill for some time, with a complication of diseases. The young fellow was a bright child, and the family have the sympathy of a large circle of friends in their sad bereavement. They came to the city last fall from the Old Country.

Besides the parents, one sister is left to mourn his loss.

The funeral, which will be conducted by the Salvation Army will take place tomorrow afternoon at two o'clock from the family residence to Little Lake Cemetery for interment.

EDWARD E MOORE.

After a lingering illness, Edward E. Moore, formerly of Peterborough passed away on Thursday morning, May 2nd, at the residence of his sister, Mrs. J. E. Halliday, 1057 Shaw street, Toronto. The deceased leaves to mourn his loss a wife and two children.; also his mother, Mrs Geo. Jas. Moore, of Peterborough, and two brothers and five sisters. The brothers are Mr. John Moore, of Winnipeg, and Mr. Richard Moore, of Tonawanda, N.Y. Mrs. M Wright, Mrs. B .Roberts and Mrs. J. E. Halliday of Toronto, and Mrs. Jennie Robertson and Mrs .M. Sucee, of this city, are the sisters.

The funeral took place on Saturday May 4, at 2.30 p.m., in Toronto

Still They Come From O'er the Sea

Judging from the number of immigrant trains passing through Peterborough these days, newcomers must be pouring into the country at a great rate. An immigrant train passed through on the C.P.R. Saturday night, and another went through yesterday morning. There were six or seven cars on each of them, and each train had about 400 persons on board.

Has Received Long Service Medal

Sergt. R. A. W. Hay, of the 24th Fiel Battery, on Saturday received his long service medal, which represents twenty years' active connection with the militia. Sergt. Hay is greatly pleased with his medal and will wear it with a feeling of pride.

EIGHT HOUR DAY FOR THE MINERS

Legislation to This Effect to be Introduced in Alberta.

An Edmonton despatch says;

Hon .H. W. Cushing's announcement to the miners at Fernie that the Alberta Government would introduce an eight-hour law for miners at the next session of the Legislature was not unexpected. The Government had committed itself to such a measure, but had delayed putting through the legislation until a commission it had authorized to be appointed at the last session of the Legislature to investigate conditions in the coal mines of the province, had reported. Mr. Cushing, when asked the question point blank at Fernie, did not hedge, but admitted that the eight-hour law would be placed on the statute books of the Province next session.

This declaration did much to pacify the miners, for it is well known that one of their greatest grievances has been the absence of this law in Alberta, while the men across the western boundary in British Columbia work under an eight-hour day granted to them by the Government of that Province.

Fair-minded people in this Province believe the miners should not be asked to work underground longer than eight hours a day. It is a humane measure and is also of such a character that it will be sure to make the thousands of men who toil in the depths of the earth better satisfied with conditions, and when the law comes into force we should hear less of these labor troubles.

PILES CURED IN 6 to 14 DAYS
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles, in 6 to 14 days, or money refunded. 50c.

Two Mauser Rifles Have Been Given to Regiment

Interesting Souvenirs of the Boer-British War Have Been Received From the Dominion Government

Two Mauser rifles, interesting relics of the Boer war, are now the property of the 57th regiment. They were sent to the local corps by the Militia Department of the Dominion in order that the regiment might have some reminder of the gallant work done by the Canadian troops in South Africa during the war against the Transvaal and Orange Free State.

In construction the Mauser rifle is much like the Lee-Enfield, which is used by the British troops. It is not finished with the same skill, however, and is a rougher looking weapon than the Lee-Enfield.

One of the rifles sent to Col. Miller has apparently been in service for many years. On one side of the butt the words, "G. E. Boren, Feb. 11, 1870," have been cut in with a jackknife, while on the other side is the name, "J. M. Hattinoh," also engraved with some sharp instrument. The other rifle has no special markings. It is interesting to surmise how often these old rifles may have spoken death, but it is not likely that they will ever be used in warfare again.

The two Mausers will be placed in the officers' mess at the drill hall.

CURIOUS PEOPLE AND ALARM BOXES

Foreman Pakenham, of the new fire hall and superintendent of the fire alarm system has made complain of smart alecks playing with the fire alarm boxes. On Saturday the box at the C.P.R. station was opened and also one on Park street. On Sunday the one at St. Luke's church was opened twice, once in the morning and once in the afternoon. This is the work of young men. Small boys do not do it, but men who are old enough to know better allow their curiosity to run away with their brains.

In the four cases mentioned the glass in the small box has been broken, the key taken out and the door unlocked. Of course, the key cannot be taken out of the door again until Mr. Pakenham arrives with his key to unlock the inside. When the door of the big box is unlocked, it leaves the lever inside exposed to any fool who may come along may pull down and send in a false alarm.

Arrangements have been made whereby the neighbors living around the alarm boxes will watch for the busy people, and the first one who is caught will be severely dealt with by the corporation. It is a very serious offence and the young men of a curious disposition will be wise if they leave the fire alarm boxes alone unless they have business with them.

Will Superintend Building of Normal

Mr. Will Whitham, of Clarence street leaves for Peterborough in a few days to superintend the building of one of the new Normal schools to be erected there this summer. Mr. Whitham is one of the successful I.C.S. students of this city and during the past year he has had charge of the construction of the Mechanics building at the O.A.C. Guelph.—Brantford Courier.

MERCHANTS ARE MAKING HOWL

Dust Nuisance is More Than They Will Stand

To the Editor of the Review.

Dear Sir,—It is seldom I speak a complaint about the Council and it hurts me very much to do so, but when a body of men or one man, or whoever is supposed to look after the street railway will deliberately neglect the merchants and business men of this city it is time to make complaint. It appears to me that some of the Council have determined to do all in their power to ruin the business men. First we had that fool business about signs, display of goods and boxes, now we are getting thrown down on the street watering. What next will the Council try to do!

I suppose a very plausible excuse will be offered for the negligence. But, Mr. Editor, the Council might as well realize now, that no excuse will be accepted. There should be none. The merchants are first, last and always so far as the street watering is concerned. We pay more than anyone else and we get less and we will stand for it no longer.

This morning the roads were in a condition that would have been a disgrace to a township. No pretence was made to lay the dust and it looked as if someone was thoroughly enjoying watching the dust blow into the stores and ruin merchandise. I would like, Mr. Editor, to know who is responsible for all the dirt the merchants have been getting lately?

Yours, truly,
A MERCHANT.

ROUGH SPORT IS CONDEMNED

In the course of his sermon at George street church last night Rev. Dr. Crothers took occasion to severely condemn the brutality that was creeping into many of sports indulged in by young men at the present day. Good, clean sport was alright, and should be encouraged, but there was something wrong in the rules governing a game that had resulted in the death of a young man at Cornwall a few weeks ago. It looked as if professionalism was resulting in brutalism being introduced into many games.

THE CITY AND VICINITY

EVENTS TO-NIGHT

City council chamber.—Meeting of council.

Windsor Hotel.—Important meeting of Peterborough Baseball Club.

ST. PETER'S T.A.S.

St. Peter's T.A.S. held a regular meeting yesterday afternoon. Several new members took the pledge.

READ PAGE THREE

A large amount of local news matter will be found on page three of today's Review.

MERCHANTS MEET.

The executive of the Retail Merchants' Association, will meet this evening in the Y.M.C.A. parlors for the purpose of arranging for the big banquet.

DANDELIONS OUT.

Yesterday the city people walking through the outskirts and suburbs saw dandelions for the first time this year in full bloom.

POWER OF PRAYER.

At the service in St. Luke's church yesterday morning, Rev. E. A. Langfeldt, the rector, prayed for a blessing upon the crops and for more seasonable weather.

COUNCIL MEETING.

The City Council will meet at eight o'clock to put through a lot of business. If it is still Monday night when they get through the Committee of the Whole will meet afterwards.

ARRIVED AT NOON

The Tom Marks Dramatic Company, which play a week's engagement at the Grand arrived in the city at noon. The tickets are selling rapidly for the opening this evening.

SPECIAL SERVICES.

Special services were conducted yesterday at the S. A. Barracks. A large number were present at each service. Mr. and Mrs. John Bigwind, who are stationed on the Indian reserve near Orillia, spoke at all meetings and sang in the Indian language.

MUSICAL NUMBERS.

At George Street church yesterday morning, Miss Reesor sang very acceptably "Heaven is My Home," at night Messrs. Mitchell and Doidge, rendered a duet in acceptable manner. The singing by the choir was also attractive and much appreciated.

NOTHING DOING.

There was nothing doing in police court this morning. Some of these days there is going to be a large number of dog owners summoned to appear before the Magistrate. Chief Rouzel is getting a complete list of those who have not procured tags for their canines. It will not be long before the owners will be called upon to pay a fine.

TOM MARKS CO.

Tom Marks Co. arrived in the city today from Midland. They will open here tonight at the Grand in the "Rose of Killarney," a beautiful Irish drama in five acts, written for Tom Marks, the Irish comedian, with high class vaudeville between acts. Tonight the "Rose of Killarney."

A GREAT CANOEIST.

Bruce Ridpath, the well-known Toronto paddler and hockey player, was in Peterborough yesterday where he procured four new canoes for his canoeing specialty—one four feet long, one eight, one twelve. Ridpath has been in New York for a month securing engagements for his great act, and is booked for two years at $200 a week. There is no doubt about it but the same Ridpath is a wonder afloat in a canoe. —Toronto Star.

POISONED IN WOODS.

Napanee Beaver: Vera, only daughter of Mr William Close, Moscow, aged seven years, was buried on Tuesday. There was a very large attendance at the funeral, and the service, a very affecting one, was conducted by Rev. E. Farnsworth. Little Vera, with the teacher, and the rest of the school children, went to the woods on Arbor Day, Friday. She was taken ill the same night and died on Monday morning. It is supposed she ate some poisonous leaves which caused her untimely death. Her schoolmates attended the funeral.

ADJUSTING CLAIMS.

Mr. William Aylesworth of Belleville, valuator of drowned lands in connection with the Trent Canal is in the city today, adjusting some claims that have been put in.

BATTERY DRILL TONIGHT.

The 14th Field Battery will hold a drill at Central Park tonight at 7.30 o'clock. All those interested are requested to govern themselves accordingly.

THE PROFESSOR'S PROBLEM.

Don't fail to see this great moving picture; also the Magic Flute, at Scott's Colloseum, 432 George-st. the first half of this week. Matinees 2 to 5. Evening 7 to 10. The Thaw-White trial starts May 16th. Keep your eye on the date.

NEW FURNITURE FACTORY

The work on the new furniture factory in East City is going ahead rapidly. The walls which are of sandstone, are almost completed. The building, when finished, will be a decided improvement to Hunter street east.

S. A. FUNERAL.

The bandsmen of the Salvation Army are requested to meet at the home of Mr. MacDonald, 583 Downie street in time for the funeral service at two o'clock tomorrow afternoon. The Sunday school children are also asked to attend the service.

TEAMSTERS' STRIKE.

At the council meeting this evening there is every indication that there will be a lively time, as it is fully expected that the teamsters strike will be taken up. Several attempts have been made to settle the trouble, but as yet nothing definite has resulted.

CHEAP TRIP.

The G.T.R. is offering cheap rates to Toronto on King's plate day—Saturday next, May 18. The fare is only $2.05 and tickets are good until Monday. A large number intend going to the Queen City on Saturday next. For full particulars as to train time see advertisement in another column.

REPORTS EXAGGERATED.

Officials of the Provincial Board of Health have no knowledge of such an outbreak of smallpox as that reported from Anderdown township, in Essex county, where it was said there were sixty cases. One case has been reported from the locality, but the local health authorities have, according to letters received by the Board, taken every precaution.

SPECIAL MUSIC.

In Charlotte street church yesterday the choir rendered two excellent anthems. In the morning they sang "The Day of Rest," by Claribel, and at night, "At Even ere the Sun was Set." In the morning Miss C. Belleghem contributed, in good voice a solo "Jesus is Coming," and at the evening service, Miss Manning sang, "Entreat me not to Leave Thee." The solo was rendered with splendid taste and expression.

CEMENT TOMBSTONES.

An energetic resident who lives near the water works pump house has undertaken to manufacture tombstones out of concrete or cement. The man has two stones on exhibition in front of his house, and will no doubt find sale. One is rather large, and on the top is an Irish cross. On the other one are the words, "In remembrance of," and immediately below, "These are for sale and made to order." Many citizens passing yesterday, stopped to read, and at once saw the joke.

KICKED IN STOMACH.

Mr. N. E. Harper, a teamster, who was working in the city gravel pit on the Hilliard farm, met with a very serious accident this morning. He had his team there and for some reason one horse began to kick. In his efforts to control the animals, Mr. Harper was kicked in the stomach. A cab was called from McCollum Bros. barns and the injured man was removed to A Dr. Brown's office, where he was attended to, and afterwards taken to his home on Sherbrooke street, where he will have to remain for several days.

A TALENTED VOCALIST.

Mr. Fred C. Freeland, who has been appointed bass soloist in St. Andrew's church choir, will add considerable strength to that excellent musical organization. Mr. Freeland is a welcome addition to the vocal talent of the city. He was formerly prominently connected with the choir of Centenary and other churches in Hamilton, and since coming to Peterborough has sung in several churches. His services have been freely given and his vocalism is greatly appreciated.

The Canadian Northern railway will have its line completed as far as Sudbury by September.

H. Corby, ex-M. P., of Belleville, is to make an automobile tour of England.

PERSONAL

Mr R. R. Hall left today for Detroit.

Mr J. B. Oke of Toronto, is in the city today.

Mr. A. H. Kerr of Belleville, is registered at the Snowden House.

Mr. and Mrs. Roland Johnston of Lakefield, were in the city yesterday.

Miss Mamie Rogers, who has been visiting in Toronto, has returned home.

Messrs. Adam Hall and E. B Fowler left today for Chicago on a business trip.

Mr. Bert Boomer has returned to Ottawa after spending a few days with friends here.

Miss Stewart, of Orilia, is visiting at St. Luke's rectory, the guest of Rev. and Mrs. Langfeldt.

Mr Tom. Minicolo has gone to Montreal on a business trip. He will be absent several days.

Mr. Robert Henderson, of Belfast, Ireland, is visiting at the home of Mr. A. W. Cressman, Brock street.

Mr. H. Henderson, of Norwich, Ont., is spending the week at the home of his daughter, Mrs. A. W. Cressman.

Mr. and Mrs. R. A. Norman have returned home after a week's trip to Peterborough and Brussels.—Kingston Whig.

Mr. G. H. Popham, wife and family, of New York, have arrived in the city, and have taken up their residence at Chemong Park for the summer.

Mr Chas. Banks left Sunday morning to spend ten days in Galt, where he has a branch sporting goods store.

Mr. and Mrs. Corrin, of Peterborough, have been spending a few days with Mr. and Mrs. T. Henderson.—Omemee Mirror.

Mr. and Mrs. A. L. Davis of Toronto, were in the city over Sunday, the guests of Mrs. Pierce, Walton Street.

Rev. J. G. Potter and Mr. William Fowler leave to-morrow for Toronto to attend the annual meetings of the city of Toronto and Kingston.

Mr. Chalmers, of Peterborough, Government bush ranger, was in Bancroft for several days during the past week.—Bancroft Times.

Miss Daisy Dobbin returned today to Dansville, N.Y., where she will resume her duties as nurse-in-training at the Jackson Health Resort.

Mr. J. A. Lawless, proprietor of the National Hotel, who recently purchased the Canada House at New Liskeard, was in the city over Sunday. He left this morning for New Ontario.

Mrs. R. G. McCuigh, late of Peterborough, has arrived from Fort William to join her husband, who has become identified with the Business Brokers, and has taken up her residence at 33 Hargrave street.—Winnipeg Free Press.

A number of ambitious girls, some of whom have connections and friends in the East, have started a "Tea-kettle Inn," in Winnipeg, and are meeting with great success. They have taken a large old-fashioned house in the down-town part of the city, formerly the residence of Mr. Hugh John Macdonald, and have furnished it cosily. Those interested in the venture are, Miss Milligan, and Miss Browne of Toronto; Miss Mary Powell of Norwood; Miss Ida Miller of Hamburg, and Miss Muriel Lloyd Jones, Mrs. Anderson of Oakville, will join the inn-keepers shortly.

Foresters Will Attend Worship

Annual Church Parade to St. Luke's on Sunday June 2.

The annual church parade of Courts Peterborough, Langton, and Littlejohn, Canadian Order of Foresters', will be held to St. Lukes church on Sunday, June 2nd, in the evening. The rector, Rev. E. A. Langfeldt will deliver a special sermon to the visitors.

Struck a Rock In the Otonabee

Mr. G. P. Preen had rather an exciting time yesterday. He went down to the locks with the intention of trying his new gasoline launch. But soon after he started he struck a rock just below the locks and disabled his boat. One paddle was knocked off the wheel and one of the planks in the boat was sprung, allowing the water to get in. Mr. Preen immediately turned his boat and put back for the shore. He got within a few yards of land when the boat stuck and he had to jump into the river and pull the boat in. The water was above his knees and before he was through with the job, the owner of the launch was well soaked. The boat is now lying in dry dock at Rye's boathouse, where it will be repaired.

The United States crop bulletin, issued Friday, shows that the average condition of wheat crop on May 1st was 82.9.

Dr. T. N. Greer Made Associate Coroner for Peterborough

Appointment Was Gazetted on Friday—Will be Very Popular Here—He Has Been a Prominent Physician in This City for Fifteen Years.

Dr. T. Newton Greer has been gazetted by the Ontario Government as Associate Coroner for Peterborough. The first announcement of the appointment was made on Saturday night in the Toronto papers, although the doctor has been aware of it for some time. It was a year ago that he was approached by his friends and asked if he would accept the position. At that time he refused, but afterwards he was urged again and consented to accept. Nothing more was heard of the matter until a few weeks ago when he received his papers.

A second coroner for this county has long been needed, and one should have been chosen long ago. By the selection of Dr. Greer a more popular appointment could not have been made, and a more capable man could not have been secured. Dr. Greer is one of the leading physicians in this district. He has been in the city for the past fifteen years, and during that time he has through professional knowledge and surgical skill, worked up a very large ractice. He is in great demand as a consulting physician, and as a surgeon he has few peers, and he is looked up to and respected by all the members of the Medical Association.

Not only is Dr. Greer well thought of as a doctor, but he is very widely known throughout the city and county and is very popular. He has many warm friends among all classes, who will be pleased to hear of his appointment.

The new associate coroner for Peterborough has been in active practice for about twenty-seven years. After graduating he settled in Coldsprings, Northumberland county, near Cobourg. For twelve years he labored there and made an enviable reputation. When he decided to move to the city to a larger field he was followed by the good wishes of evryone, and his career here has proved him worthy of their esteem

C.G.E. Anglers Consider Sites For Their Summer Cottage

Visited the Lower Otonabee Regions on Saturday and Looked Over the Ground—Two Locations Met With Favor.

The committee appointed by the C.G.E. Angling Club to take the necessary steps for the building of a cottage down the river, took a jaunt down the Otonabee on Saturday for the purpose of selecting a site for the new club house. The trip was made in Rear Admiral Roy's boat, the "Bob Roy" and there were about a dozen in the party. After visiting several locations, which it was thought might be suitable, and investigating their merits and demerits, the committee came to the conclusion that only two of the sites visited were suitable, and these will be further considered. One of these is on the west shore of the river near Thompson's and the other is further down, on the east side of the river, just opposite the forks. The site at Thompson's is about three quarters of a mile from the lake, and the one opposite the forks about a quarter of a mile from the lake. Both are considered good locations, but the majority of the committee prefer the location on the east bank of the river and it is likely that it will be chosen, if arrangements can be made with the owners of the property.

The members of the committee had some strange tales told them by owners of property to whom they spoke regarding sites for the cottage. One of them wanted $40 per year rental for a piece of ground large enough to build the cottage upon. When he was informed that this was exorbitant he became wrathy and informed the anglers that campers came down the river and committed all kinds of depredations. He was told, however, that the anglers were not that kind, and that they were alwayys considerate of other people's property when on their outings. The committee will now take further steps towards coming to terms with the owner of one of the sites selected.

The "Bob Roy" made the run to the lake and back in good time. The downward trip was made in 2 1-4 hours and the return in about 3 hours. A new brass wheel has been fitted on Mr. Roy's boat and she is now travelling better than ever.

Backward Season in Manitoba

The Weather is Cold and Seeding Delayed

Mr. R. N. Scott, reeve of Smith township, has received a letter from his son Ernest Scott, who resides at Souris, Manitoba, stating that the season there is very backward. Mr. Scott wrote under date of May 7th and he stated that it was blowing and snowing in the prairie province nearly every day. The weather, at the time of writing, was very cold, and no seeding had been done, whereas last year he began seeding on April 14th. The season this year will be fully a month later than in 1906.

RHEUMATISM

I will refund your money if it fails.

Price 25c.

Munyon's Rheumatism Cure seldom fails to relieve pains in legs, arms, back, stiff or swollen joints in a few hours. Positively cures in a few days. It does not put the disease to sleep, but drives it from the system. —MUNYON.

FOR OVER 60 YEARS

Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

Artistic Booklet of C.G.E. Company

Industrial Canada says; An artistic booklet has come to the editor from the Canadian General Electric Company, giving an interesting account of the works of that company and the Canada Foundry Company, by Augustus Bridle. It consists of a reprint of articles which appeared in the Globe, Toronto, on March 2nd. The booklet contains many illustrations of the various departments of these great industries, and, together with Mr. Bridle's descriptions, provides a most entertaining account of the work carried on.

The conference of British municipalities has taken a decided stand against the shipping companies dumping deported Canadian immigrants on Liverpool parish.

Major Keefer Speaks on India

British Have Country Well in Hand—Missionaries Not in Danger

With such a good deal of theorizing going on regarding conditions in India, the man who knows is the man to talk to, says the Toronto Star. Major W. N. Keefer, of St. George Street, Toronto, who is well-known in Peterborough, having lectured here before the Fortnightly Club, is such a man, and when called on, in his home this morning, the brown, weather-beaten face of the veteran broke in smiles.

"So you want to know all I can tell about India. Well, I shall have t okeep you here all day. But, take a seat,' and the major threw himself into an easy chair, and prepared to recall his bygone Indian days.

IN THE IMPERIAL ARMY.

Major Keefer has had over fifteen years' experience in India, in the service of the imperial army. There are two branches of the medical service, a civil and military, the major's work having been with the latter. From end to end of Bengal he has travelled, spending two years in Delhi and three in Peshawur, the very centre of the present storm. For two years he was under canvas, having been with Lord Robert's expedition into Afghanistan. His reminiscences of that memorable dash of the British troops were most entertaining, as he described the scheming and counter-scheming against the Russians.

THE CONDITIONS DIFFERENT TODAY.

"How about all this talk of there being another Indian mutiny?"

"The conditions are entirely different," said the major. "That first terrible mutiny was one entirely among the soldiers. The common people were nearly all friendly. It was the trained soldiers who were worked upon, and when the cry went forth to destroy the Europeans, the people stood passively by, and only watched. The present trouble, however, is purely a political one. There is a class of men in India called the baboo. These fellows are a queer mixture of ignorance and cunning. Educated in some of the native colleges, they seem only capable of learning phrases, much as a monkey would. With wonderful memories and an extraordinary aptness at figures, they make excellent clerks, railway officers, and bookkeepers, but have very little idea of what some of the phrases mean, which they make use of. I remember one coming to me one day to apply for a position as servant. 'Master' said he, 'besides many other excellent acquirements, I may say that I have been plucked twice by the University of Cawnpore.' Another writing to be excused for non-attendance at his post, said, 'Please, master, excuse me for not being present, but with your kind permission, and that of all the other officers, I have had three boils, as per margin,' drawing a rude picture of three boils on the edge of the sheet.

"These baboos take a quarter of the wages of European servants and hold nearly all the offices of a clerical nature.

NATIVE GOVERNMENT IMPOSSIBLE.

"And it is among this class that the present trouble has taken its rise. They have heard of the successes of the Japanese, and are demanding that the time has come for the native population to have a representative Government. Of course, Europeans know that such a thing is impossible, but the disturbance is very serious, nevertheless.

"The native idea of justice, for example, is a very loose one. Money can buy anything in the nature of swearing. If a man is found perjuring himself too openly, a shrug of the soldiers is the only response, accompanied by this remark, "I only a poor man, I need the money. You English know everything; I know nothing.' With such a conception of truth as this, what shadow of room is there for representative government?' and the Major burst into a hearty laugh.

THE BRITISH FORCES.

"What forces have the British available to repress a revolt should one take place?"

"There are 70,000 to 80,000 European troops in India, at the present moment, with excellent facilities for moving them from place to place on a moment's notice. Besides this, there is a native army of 150,000 soldiers, officered by Europeans.'

Asked if this native army was in any way affected, the Major expressed the opinion that this was not the case.

"You see the British learned a lesson by the great mutiny. Previous to that whole regiments were made up of natives of a similar caste and religion, so that conditions were just right for plotting. Now, however, a regiment will be composed of say, two companies of Sikhs, two of Mahommedans, two of some other class and so on. These men march and fight together, but mess separately. The Hindu is death on a Mohammedan and vice versa, so that any trouble among one class is quickly scented by the other and in this way, the officers keep in touch with conditions among both. So there is very little danger of such an uprising as that, which nearly lost India to Britain.'

MISSIONARIES NOT IN DANGER.

"Are the missionaries in any danger, Major?" was next asked.

"Well, no, to tell the truth the missionaries do not make much impression either way. Opinions may differ. But I am strongly convinced that the work of a missionary is sometimes overestimated. No one will employ a native Christian, if he can get a Mohammedan or Hindu. The idea of Christianity which is held by these natives isn't very high. As one of them said, "Me very good Christian, Master, me drink brandy like all other Christians.' And, remember a Mohammedan will never touch brandy or wine, even if it is to save his life. I have over and over again seen a man die when a little liquor would save his life. No, there is not much fear for the missionaries any more than for all classes of Europeans.'

Meeting of Sunday School Association

Annual Gathering in Y.M.C.A. on Monday May 27.

The annual meeting of the city of Peterborough Sunday School Association for the election of officers and other business will be held in the Y.M.C.A. Hall on Monday, May 27th, at 8 o'clock.

On the afternoon of Sunday, the 26th, a mass meeting of all the Sunday schools in the city will be held in St. Paul's church at 4.15. At both meetings addresses will be delivered by Rev. B. W. Merrill, M. A., General Sunday School Superintendent, of the Baptist Convention of Ontario and Quebec.

ST. JOHN'S CHURCH

The Girls' Auxiliary meets tonight at eight o'clock.

The regular monthly business meeting of the Woman's Auxiliary will be held tomorrow afternoon at 3.30.

The Girls' Guild meets tomorrow night at eight o'clock.

The Brotherhood of St. Andrew will meet on Wednesday evening at 8 o'clock.

The J. W. A. will hold an entertainment in the school room on Friday evening at eight o'clock.

MURRAY STREET CHURCH

The Young People's meeting will be held to-night at 8 o'clock.

The weekly prayer meeting will be held on Wednesday evening at 8 o'clock.

ST. LUKE'S CHURCH

The following meetings will be held at St. Luke's:

To-night the closing meeting of the Girls Auxiliary, to which the members of the senior W.A. are invited. Refreshments will be served at the close of the meeting.

The Brotherhood of St. Andrew meets to-morrow Tuesday night, at 8 o'clock.

The monthly meeting of the Mother's Guild will be held on Wednesday at 3 o'clock.

The W.A. meet on Thursday at 2.30 and the Mission Band on Friday at 4.15.

ALL SAINT'S CHURCH

The Girl's Guild meet to-night at 7.30. The Women's Guild and the Brotherhood of St. Andrew meet to-night at 8 o'clock.

The Woman's Auxiliary meet tomorrow afternoon at 2.30.

A prayer meeting will be held at the residence of Mrs. Harris, Lock-st., at 8 o'clock.

The Junior Auxiliary meets on Thursday at 4.15. The usual week night service will be held Thursday evening at 7.45, and choir practice at 8.30.

The Woman's Guild will hold an entertainment on Friday evening at 8 o'clock.

KNOX CHURCH

The young men's meeting will be held to-night at 8 o'clock.

Prayer meeting will be held on Wednesday evening at 8 o'clock.

CHARLOTTE ST. CHURCH

The young people will hold a consecration meeting this evening. The pastor, Rev. H. M. Manning, will give an Address.

On Wednesday evening, the annual temperance meeting will be held. Addresses will be given by the pastor, Mr. S. A. Armstrong and Mr. A. B. Cunningham. It is expected that there will be a large attendance.

On Thursday night, the Sunday School Board of Charlotte street church will hold a regular meeting.

ST. ANDREW'S CHURCH

The young people will hold their regular weekly meeting this evening.

The regular prayer meeting will be held on Wednesday evening.

The music yesterday was much appreciated. Mrs. Davidson ably sang a solo, "Sweet Spirit Hear My Prayer' in the morning. Mr. and Mrs. W. A. Greenslade also contributed a duet, "My Faith Looks up to Thee,' in good style. In the evening, Mr Fred C. Freeland rendered in fine voice, Lindsay's "Come unto Me."

ST. PAUL'S CHURCH

The Board of Managers will meet in the Dominion Bank chambers tomorrow, Tuesday, night.

The Fraser Mission Band will hold its regular monthly meeting in the guild room tomorrow, Tuesday, evening.

The regular prayer meeting will be held on Wednesday evening.

The anniversary services of St. Paul's church will be held at an early date. An announcement to this effect was made from the pulpit yesterday morning.

GEORGE STREET CHURCH

The Epworth League will hold a consecration service this evening.

The Woman's Missionary Society will hold their regular monthly meeting tomorrow afternoon at 3.30 o'clock.

The Quarterly Official Board will hold its last regular meeting for the year, tomorrow evening.

The regular weekly prayer meeting will be held on Wednesday night, when the election of the seven society representatives will take place.

The Class Leaders' Association of the city will meet on Thursday evening at eight o'clock.

Charles Evans Hughes, for president of the United States, is the burden of the song in Albany, N.Y.

Sunday School Meetings Arranged

Will be Held at Various Points in the County

A series of conventions under the auspices of the County of Peterborough Sunday School Association will be held in the different districts of the county as follows. Mr. H. C. Heard is president of the Association and Mr. Richard Lees secretary:

Otonabee, Presbyterian church, Keene, Tuesday, May 28th.

Dummer, Baptist church, Warsaw, Wednesday, May 29th.

Asphodel, South Dummer church, Thursday, May 30th.

Belmont, Methodist church, Havelock, Friday, May 31st.

North Smith and Harvey, Buckhorn, Monday, June 3rd.

Smith, Baptist church, Selwyn, Tuesday, June 4th.

Two sessions will be held; in the afternoon at 2.30, and in the evening at 7.30 o'clock.

At Keene, Warsaw, South Dummer and Havelock; Rev. W. D. Harrison, Keene, will deliver an address in the afternoon on "The Teacher's Qualification and Preparation, and in the evening on "Why we have the Sunday School."

Mr. Richard Lees, M.A., will speak at all the meetings. Afternoon, "The Child from one to twenty-one," evening, "The Sunday school and the Home."

At Selwyn and Buckhorn Mr. Harrison's place will be taken by Rev. S. S. Burns, B.A., of Lakefield.

Local committees are requested to make arrangements for the musical and devotional parts of the programs, for other addresses, discussions or conferences, if desired, and for necessary business.

The pastors of all the churches are respectfully requested by the Association to devote at least one service, on the Sunday preceding these meetings, to the consideration of the work of the Sunday school, or at least some phase of the religious training of the young. In a number of the churches an exchange of pulpits is being arranged to emphasize this. It is earnestly hoped that all ministers, superintendents, and Sunday school workers, will give their hearty assistance and prayerful co-operation to make these meetings a success, and so stimulate an interest in this most important branch of the churches' work.

For the purpose of defraying expenses a collection will be taken at each session.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & Co., Toledo, O.
Sold by druggists, 75c.
Take Hall's Family Pills for constipation.

TWO SERMONS ON EDUCATION

At Mark St. Church Yesterday by Rev. Mr. Bedford of Lakefield

Large congregations were present at both services at Mark Street Methodist church yesterday. Special sermons on the educational claims of the church, were preached by Rev. J. Bedford of Lakefield. In the morning he preached an earnest and helpful sermon from the words found in the 32nd verse of the 15th chapter of Proverbs, "He that refuseth instruction, despiseth his own soul." The reverend gentleman in opening said that instruction is as essential for the soul, as for the mind. There are many people who think they can do without instruction. People are in a state of spiritual darkness. This is not accidental or possessed only by a few but it is universal, and natural for people to be spiritually in darkness. Hence it is necessary for instruction and God has made provision for it. In the works of creation and in the beauties of nature God has provided instruction. The Scriptures are intended to give us divine teaching. The speaker referred to ministers, who were being sent into all parts for the purpose of enlightening all those who are in darkness in spiritual matters. Continuing his remarks, the reverend gentleman said, "We must consider God's Works. We must accept His truths or suffer the consequences.' There are many who refuse instruction. They do not read the Bible as they ought, and how many? asked the speaker, are there in this boasted Christendom, who never enter a church. There are thousands who are ignorant of the truths of the Bible. If we are obedient to God's word, we must be doers as well as hearers. "He that refuseth instruction despiseth his own soul,' are the words of the text. An uninstructed soul is in a state of degradation and it is inevitably lost. What would a man profit, if he gain the whole world and lose his own soul? Our souls are our own personal property, and to neglect them is nothing less than self-murder, remarked the speaker. In conclusion Rev. Mr. Bedford urged the congregation for their own personal happiness, not to neglect their souls but by obedience to God's word, keep them pure.

During the offertory, an anthem was rendered by the choir, with a solo by Mr. J. Miller.

A subscription list for the educational purposes of the Methodist church was opened.

BANK OF NOVA SCOTIA

(INCORPORATED 1832.)

CAPITAL, - - $3,000,000
RESERVE FUND, $5,250,000

Unexcelled facilities for the transaction of all kinds of banking Business,

Peterboro' Branch. J. H. Ferguson, Manager

Endowment Fund of Queen's College

Rev. J. G. Potter Will Assist in Raising the Required Amount

Queen's University, Kingston, is making arrangements to send about twenty of its graduates to different fields to present the claims of this well known institution of learning. It is desirable that the quarter-million dollars endowment fund should be raised before the meeting of the General Assembly of the Presbyterian church in June next. Rev. J. G. Potter, pastor of St. Andrew's church is one of the clergymen, who have been requested to assist for a month in this good work, and he will leave this week for the Presbytery of Owen Sound, where he will speak and work at various points.

Mr. Potter goes to Toronto this evening to attend the annual meeting of the Synod of Toronto and Kingston, after which he starts out on his special assignment, which will occupy a month.

The pulpit of St. Andrew's church will be filled next Sunday by Rev. Mr. Mathieson, a brother of Rev. Prof. Mathieson of Knox College, Toronto. Rev. Dr. Sinclair, formerly pastor of the First Presbyterian Church, Port Hope, who has been pursuing a post graduate course in Germany for the past few years will occupy the pulpit of St. Andrew during the two following Sundays, while Rev. Dr. Ross will preach on the fourth Sunday.

It will thus be seen that an excellent supply has been arranged, during the absence of Rev. Mr. Potter.

MARK STREET CHURCH

The regular meeting of the Epworth League will be held tonight at eight o'clock. Miss Spear will have charge of the meeting and Mr M. W. Mitchell will take the topic.

The quarterly meeting will be held on Wednesday evening at eight o'clock.

A cottage prayer meeting will be held at the residence of Mr. A. Walker, 494 Concession street, on Friday night at eight o'clock.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

PIONEER FARM IN The CLAY BELT

A change has been made in respect to the location of the pioneer farm in the great clay belt of Northern Ontario. A site in the township of Newmarket, District of Nipissing, was decided upon some time ago, the understanding being that the Temiskaming & Northern Ontario Railway would run through the township, near the farm. Owing to engineering difficulties, however, a deviation of the line has been decided upon, and it will not now touch Newmarket township. The selection of a new site for the farm will be made by Hon. Mr. Monteith, Minister of Agriculture, and Hon. Dr. Reaume, Minister of Public Works. The former is at present confined to his home suffering from grippe, and the journey to the north, will not be made until he is fully recovered.

H. H. Dewart, K.C., was nominated by the Liberals of South Toronto as their candidate for the House of Commons at the next general elections.

The Daily Review

MONDAY, MAY 13, 1907.

MR. BORDEN'S TOUR

Mr. R. L. Borden leader of the federal opposition, with some of his colleagues, is to make a tour of the country, devoting special attention to the western province. In this tour Mr. Borden will discuss with the people the issues of the day and the incidents that marked the session of the Dominion parliament that has but recently closed. In this the Dominion leader has shown remarkably good judgment and has contributed towards the preservation of a principle that should obtain. Members of parliament should regard it as their duty to go in amongst their constituents at the close of every session, and review the political situation. Thus would there be a clearer understanding between the representatives and the electors, and an evidence of a truer spirit on the part of the former.

Considerable criticism has been passed upon the opposition in the Dominion house and Liberal organs are free to regard it as a powerless factor. The Conservative ranks may be somewhat disorganized throughout the federal jurisdiction but that does not discount the fact that there are many good men in the ranks—men who have been tried and experienced, and whose presence in federal politics has an influence for the good. Mr. Borden is such a man as this. Bold and fearless in the discharge of his duty, his every act accomplished in a manner honest and above board, and endowed as he is with powerful faculties and wise and mature judgment, he makes a splendid leader, and his excellent argumentative powers make him a telling force in debate.

Behind Mr. Borden are many good men, and if the opposition accomplished nothing else during the past session it did a good service to the country in exposing the many scandals that it did. The people's money has been squandered in a scandalous fashion; valuable tracts of land have passed into the hands of government friends, and the public has been swindled in many other ways by the present regime at Ottawa. There the interest of the corporations supersedes the interests of the people, and graft abounds in a wholesale fashion. This state of affairs has obtained for some time back and has been and is still growing to more serious proportions. The opposition members have succeeded in bringing many of these cases to the public eye, and they have proved beyond all doubt that the Laurier government has violated the trust that was reposed in them by the people. In exposing these conditions Leader Borden and his colleagues have accomplished a great good.

The opposition sustained a great loss in the death of the late Dr. Stockton and other members have also passed into a higher service, but there still are left on the opposition benches men who must ever command a high position in public life.

If some of the Liberal organs say that the opposition was no factor in the last session, why was it, asks the Woodstock Express, that a member of that opposition was permitted to throw out serious charges against government members, and none of the latter had the courage to demand an explanation! Why was it that members of the government dared not challenge Mr. Fowler to make good the charges that he flung across the floor of the house? It rested for a government opponent, Henri Bourassa, to institute proceedings for an investigation, but this was blocked by a servile government majority—by the men who were too cowardly to defend themselves on the floor of the house. It is a standing disgrace to Canadian public life that a member of parliament should be allowed to make statements of such a serious character on the floor of the house without being required to make an explanation, and it will ever redound to the discredit of the Laurier administration that this explanation was not demanded.

Leader Borden will be well received by the electors throughout the country, and the honest and open manner in which he is dealing with the people will assuredly win greater respect for him. There is a persistent rumor that a general election is to take place next fall, and, though there is nothing definite on which to work, it must be admitted that Mr. Borden's tour is well timed and will serve a good and useful purpose. The greatest enthusiasm prevails in the Conservative ranks throughout the Dominion and with a more perfect organization there is every possibility of a sweeping victory for the party at the next poll.

PEN POINTS

The Newcastle Independent says; "There were ten births and fourteen deaths registered for the town of Port Hope last month, and the query is when, at this rate of increase, will the population of that town reach 10,000.

It is quoted in Montreal on the authority of Mr. Robt. Bickerdike, that a plan is on foot to make Lord Strathcona Governor-General of Canada to succeed Earl Grey. Sir Wilfrid Laurier is to be made Canadian High Commissioner and Hon. A. B Aylesworth is to become Prime Minister He says that he has the best authority for making this statement

---

Washington officials ridiculed the alleged discovery of a chemical mixture which will make fuel of ashes. One of the Washington men, however, says that the discussion has had at least one good result—that a firm in St. Louis conducting tests found that most cinders contained from ten to twenty per cent. of good coal. Apparently the thing to do is not so much to find a way to burn ashes as to make sure that ashes really are ashes.

JEALOUSY PROMPTS CRIME.

Woman Shoots Her Little Son and Then Suicides.

Pittsburg, Pa., May 13.—Because she knew that her husband was paying attention to another woman, who lived but a few squares from their home, Mrs. Carrie Sigsworth shot and killed her 18-months-old son and then shot and killed herself, at their home, 807 Jackson street, Allegheny.

At first it was supposed that the deed had been committed on account of Mrs. Sigsworth's ill-health, but Sigsworth admitted to Superintendent of Police Glenn that jealousy had been the cause of the awful crime.

In a letter which she left to her husband Mrs. Sigsworth did not upbraid him, but asked him for appearance sake not to bring "that other woman into the house until I am cold," and not to give her her furs and diamonds. The Sigsworths are said to come from prominent families in London and the parents of both have been telegraphed for.

LAURIER A BENCHER.

Pays High Tribute to Laws of the Mother Country.

London, May 13.—(C. A. P.)—Laurier and Deakin were admitted to the honorary benchers at Gray's Inn on Saturday. The former paid a high tribute to the laws of the Mother Country, which had always secured for its sovereigns and subjects all their rights, liberties and privileges. Laurier, speaking at the Gaelic Society's concert, said the Dominion was covered with Scotsmen, among whom he numbered his closest political and personal friends.

JUDGE ON TRIAL.

Prosecuting Attorney Makes Sensational Charges Against Him.

Lexington, Ky., May 13.—Attorney Beverley Jouett, in his opening statement before the jury here on Saturday, in the case of Judge James Hargis, charged with the murder of James Cockrill, at Jackson, Mich., made the sensational statement that he would not kill Cockrill himself, but that he would help defend the man who would kill him.

Jouett denied that feud feeling had resulted in the Cockrill killing, and said that Hargis had Cockrill killed because Cockrill stood in the way of Hargis' ambitions.

Jouett's statements caused a sensation, as this is the first time these direct charges have been made.

The British Government declines to enact legislation prohibiting the marriage of unfit persons.

NATIVES PREPARE TO LEAVE.

Eruptions of Stromboli and Etna Continually Increasing.

Messina, May 13.—The eruptions of Etna and Stromboli volcanoes increased as the night came on. An enormous volume of smoke and quantities of red-hot projectiles are being thrown out from Etna in all directions. There are also continued loud explosions and earth shocks. These latter are especially severe at the Etna Observatory, which is at an elevation of 9,000 feet, and only 1,700 feet away from the crater. The observatory lies above the forest district in a zone where scarcely any animal life exists. In winter this is covered with snow and in summer with dry lava.

The latest reports from that island declare the situation to be more terrifying. A few weeks ago Stromboli was covered with rich vegetation; now the island is stricken and desolate, everything having been buried under ashes. Every boat at the island has been pressed into service by the inhabitants to aid in their escape from the danger.

Resembles Vesuvius Eruptions.

Frank A. Pereett of New York, assistant director of the Royal Observatory on Mount Vesuvius, and the companion of Prof. Matteucci, the director of the observatory during the eruption of Mount Vesuvius in April, 1906, returned here yesterday, after having visited Mount Etna and Stromboli. He made most important observations and took interesting photographs. He said:

"The disturbances much resemble those which preceded the eruption of Mount Vesuvius last year. The smoke is now more dense and the dynamic force in the main craters has increased. The roaring of the volcanoes and the violent discharges gives the impression that stronger eruptions are imminent."

Grey Ashes Fall.

Naples, May 13.—Enormous clouds of grey ashes appeared Saturday from the sea, darkened the sky and fell on the town. Considerable apprehension was felt when it was realized that the clouds were ashes and cinders from Mount Etna and Stromboli. A similar phenomenon was noticed along the southern coast and caused panics in several places.

PERKINS' BODY EXHUMED.

Kidneys Had Not Been Removed—Crown Evidence at Fault.

Cayuga, May 13.—The exhumation of the body of Henry Perkins has resulted in the discovery that the kidneys had not been removed for medical examination, although Dr. Bauer of Hamilton, in testifying for the crown at the recent trial of Mrs. Mattie Perkins on the murder charge, declared that, to the best of his understanding, the organs had been taken to Toronto for analysis by Dr. Ellis, and had not been returned.

It is understood that the remains were brought to light at the request of the widow, who wished to have it established that the crown had erred in its evidence as to one or more particulars of the autopsy. She regards the discovery as of considerable importance, and has communicated with Gideon Grant of Toronto, associate counsel for the defence during the late proceedings.

The exhumation was carried out in the presence of Dr. Snider, J. C. Coulter (solicitor), Rev. Mr. Howard of the Presbyterian Church, Ralph Curry, a brother of Mrs. Perkins; Mr. Heaslip, a brother-in-law, and Mr. Grant, a local timber merchant.

So successfully had the emblaming process been performed that the body showed little trace of decomposition, although several months have passed since the burial. Surrounded by the little group in the cemetery, Dr. Snider went through with the operation of removing the kidneys. One was found practically untouched, while the other was partially gone. They were placed in a jar and sealed, and will be sent to Toronto.

Before the trial of Mrs. Perkins opened, the defence applied to the Attorney-General for power to have the remains exhumed, but the department showed hesitancy, and the matter was dropped.

Mr. Grant, for the defence, has served The Toronto Star with notice that a suit will be brought for alleged libel in certain published matter relating to the proceedings of the defence.

NINETY LIVES LOST.

Terrible Disaster In Mexico Copper Mine—Fire Still Raging.

Mexico City, May 13.—Ninety men are supposed to have lost their lives in a fire which started in the Tenares copper mine at Velardena, in the State of Durargo, last Friday night. The fire is still raging and is said to be beyond control.

Thirty-five bodies have been recovered. Seventeen miners are known to have escaped. This information has been conveyed in a despatch to the Associated Press office in Mexico City. The burning mine belongs to the Guggenheims.

Entertains Prince of Wales.

London, May 13.—Ambassador Whitelaw Reid and Mrs. Reid entertained the Prince and Princess of Wales and other distinguished persons at dinner at Dorchester House on Saturday evening. At the request of the Princess, whose first visit it was to the Park lane residence of the American Ambassador, the dinner was quite an informal affair.

Eleven Years For Manslaughter.

Binghamton, N. Y., May 13.—Aurey Decker, found guilty in the supreme court last week of manslaughter in the second degree, in causing the death of his father by injuries inflicted during a quarrel, was sentenced by Justice Lyon on Saturday to 11 years at Auburn state prison.

Bartender Commits Suiside.

Ottawa, May 13.—Early yesterday morning Oliver Deslauriers, a bartender, only three months married, shot himself, his death being instantaneous. There is no explanation for his rash act.

The Susan B. Anthony memorial fund of $60,000 to promote the cause of equa suffrage has been completed.

First Boat to Come Down Canal

Ajax Arrives With two Scow Loads of Wood

The tug Ajax, owned by Mr. J. E. A. Fitzgerald, came down the canal on Saturday as far as the Warsaw road. The Ajax had two scow loads of wood in tow—200 cords in all—which she brought down from Gilchrist Bay. Part of the wood was for Curtis Bros and part for Mr Fitzgerald.

The Ajax was the first boat to come down the canal this year.

WARM WEATHER WANTED IN WEST

Smaller Area Will be Devoted to Wheat This Year.

Winnipeg, May 10.—The very backward spring, which has greatly hampered agricultural operations throughout western Canada, has been causing considerable anxiety in business circles, which are so vitally interested in the crop. With a view to ascertaining the exact condition the Free Press today received despatches from all the leading points in the wheat areas of the three provinces and these, while not sanguine are certainly even more encouraging than was anticipated. Summarized the reports received indicate that in Manitoba 15 per cent. of the wheat has been seeded and in Saskatchewan about 10 per cent No growth is reported from any point, with one single exception but everywhere the ground is in splendid condition to receive the seed, and there will be plenty of moisture to carry it well into the second week of June. The area sown to wheat will be considerably less than that of last year, instead of fifteen per cent. greater, as it would have been, had there been time for the usual spring ploughing. There will be a largely increased acreage sown to barley and oats, and the amount of flax will probably be larger than for some years. Given fine, warm weather from now on, there is nothing to prevent the west reaping a splendid crop. But in the words of one farmer, "there is not an hour to lose." At the present, on bright days, the west is enjoying about fourteen hours of sunshine out of twenty-four, and if the wind would but move to the south and stay there all would yet be well In the meantime there is no cause for misgiving.

CUTTER ONE DAY STRAW HAT NEXT

The Bobcaygeon Independent says; Saturday morning was a terrible weather jolt. Six inches of snow and D Hetherington out again with his cutter It was nearly all away by evening but it was an awful douch to drop into the lap of spring. Monday morning was beautifully fine again, and John Van rushing in where angels almost feared to tread, appeared with the first straw hat. Sleigh bells on Saturday. Straw hat on Monday. Looks as if we were turning hand-springs through the seasons, and getting the weather too muddled to know where it is at.

Agriculture in High Schools

Progress Being Made Towards Inauguration of Classes

The Government has decided that the teachers who will have charge of the agricultural classes in the six county high schools where the experiment is to be inaugurated, shall have offices in the towns in which the schools are located. Here, after school hours, the teachers, who will be graduates of the Ontario Agricultural College, will act for the Department of Agriculture in the distribution of the bulletins issued by that branch of the Government, the announcement of pure-bred stock sales, and other like matters. They will also assist the farmers' institute lecturers whenever possible.

Up to the present, the six schools in which the classes are to be first located have not been selected. A choice will be made before June 1, as it is intended that the teachers will start then to organize the classes and prepare the grounds for the practical outdoor work in connection with them. An effort will be made to induce farmers sons who have passed the entrance examinations, and have then left school to attend the classes and short winter courses will be arranged for them. They will not be expected to pass the examinations which the regular pupils of the classes will have to pass. For those of the regular pupils who desire to go on to the Agricultural College, it will be found that the two years' course in the classes will be equal to the first year at the College, and the pupils will then be able to enter the sophomore class at the latter institution.

Very Little Sowing Has Been Done

Reeve Scott Speaks of Conditions in Smith—Affairs at House of Refuge

In conversation with Reeve Robert N. Scott, of Smith, he stated on Saturday that this had been the coldest spring he had ever known in Smith township and he had been farming for forty-five years. Fall wheat owing to the extremely severe weather is generally killed and in many instances will be ploughed up. Clover will be a failure. It has been killed and the outlook for the hay crop is not encouraging.

Mr. Scott added that some farmers on the Chemong road have not as yet done any sowing, while he himself had done very little.

Referring to the prospects of the grain crop he humorously remarked that unless the weather soon moderated they would all have to fall back on corn, turnips and buckwheat this year.

HOUSE OF REFUGE.

Mr. Scott, who is chairman of the House of Refuge Committee, reports that there are now fifteen inmates at the institution and everything is running smoothly. Mr. Beavis, the superintendent, is giving all the details in connection with the farm and buildings careful attention and is looking after spring preparations in a thoroughly satisfactory manner.

Mrs. Beavis, the matron, of the institution, is proving to be an admirable and most obliging person. Good, clean meals are served under her direction and the interior arrangements are all that could be desired. Everything is kept neat and tidy and the chairman has nothing but words of praise for the efficiency and industry of Mr. and Mrs. Beavis. The farm is now well stocked and fully supplied with implements and will be cultivated this year and made as productive as possible.

AMUSEMENTS

AS TOLD IN THE HILLS.

Typical western life was charmingly illustrated in the play, "As told in the Hills," at the Grand Opera House on Saturday evening. The audience in attendance, while not as large as the performance merited entered enthusiastically into every detail of the exciting adventures in the lives of the characters portrayed.

The story of the play was a very romantic and adventurous one, and the acting was choice. The charm of the wild life on the prairie was depicted with striking reality; and the scenery was natural. The leading part, that of Pamnena, the Kiawa maiden, the adopted daughter of John Howard, a prominent rancher, was portrayed with great ability by Miss Katherine M. Challoner. The part of her lover, Little Fox, whom she afterwards married, was taken by Gus Neville and he pictured the red man true to life. Jim Dexter, the outlaw, wiht a large sum of money offered for his recapture, was another strong feature of the play, Mr. E. Hilliard doing full justice to the character. Lib Dexter, his sister, delineated her part in splendid style and was a prime favorite with the audience. Texas Howard, daughter of John Howard, was also worthy of mention Billy Baker, as Nap Johnston, a darky, catered to the wants of the gallery gods, and his humor was bright and refreshing; as a buck and wing dancer he would be hard to equal. As a tramp, philosopher and wit, J. McIntosh Todd, enacted by N. S. Stone, tickled the entire audience. The sparkling sallies between him and "Nigger Johnston," were the cause of much merriment. To the musically inclined the singing of Miss Josephine Clairmont, appealed very strongly indeed. She has a sweet voice and of great volume

Solar Plexus Blow to Ash Burning

Prof. Gill Says New Formila Does Not Possess Any Merit

Dr. A. H. Gill, professor of chemistry at the Massachusetts Institute of Technology, Boston, writes as follows:—

"A remarkable ashes-burning formula enabling big mills to cut fuel expenses one-half by its use:

"Common salt, one pound; oxalic acid, two ounces; water, one gallon."

When such statements as these are published in reputable papers of our large cities it would seem to be high time that we had a scientific press censor to prevent the people from being fooled. Statements like that quoted above may perhaps be described as "pipe dreams," fairy stories, etc., but it seems to me that the short word "rot"—and I use it advizedly—is the proper characterization to be employed.

I have seen a number of recipes similar to this, having, in addition, an ingredient like Chili-saltpeter, which, when heated hot enough will give off a little oxygen. None of these are of any value and all have been shown to be useless in a number of tests. This formula does not even have the advantage as it contains nothing, nor can it make anything, that in any way will aid combustion. Possibly the water used may be of advantage with certain coals, as it is in railroad use, but that is all the merit I can see in it.

The explanation given of its behavior is utterly wrong and misleading, for soda lye cannot be produced by bringing common salt solution upon quick lime, even, much less upon coal ashes. It is difficult to see how by any possibility acetylene could be formed, using this formula, and if it could, the quantity produced from two ounces of oxalic acid, supposing all the carbon contained in it to be changed to acetylene (which it cannot), would be about two-fifths of an ounce, equal in heating value to a piece of coal the size of a hazel nut.

When this mixture comes into the furnace the fire appears brighter from the volatilization of the salt, which colors all the flames intensely yellow; this salt condenses on the cooler parts of the boiler and economizer and corrodes them. The oxalic acid is broken up by the heat of the fire into steam, carbonic acid and carbonic oxide—all products of combustion, and with the exception of the latter, valueless as fuel. The quantity of carbonic oxide produced is about two-fifths of an ounce, equivalent in heating value to a piece of coal the size of a pea. The effect of this can easily be imagined. Prof. Fischer, the eminent German chemical engineer, said of all such formulas: "Such nonsense should not be palatable."

BASEBALL TEAM HAD WORKOUT

"Yebbie" Flaherty Turned Out With the Locals Saturday

It looked like old times at Riverside Park on Saturday afternoon, when the Peterborough Baseball team had a splendid workout. About a dozen men were out and handled themselves in a manner that pleased the onlookers. "Yebbie" Flaherty of last year's Galt team was in the box and shot the rubber over the plate in a way that stamped him as a top-notcher in the pitching line. Harry Burridge did the receiving and held onto the fast ones that came from Flaherty's territory in great style. Burridge looks like the goods, and in addition to receiving well, handles the willow with force. Some good batting was done, although Flaherty's delivery was puzzling, and the men at bat could not make connections with the curving pellet. Good form was shown by all the men, and the prospects of having a strong nine are very bright.

The team will practice at Riverside Park every evening this week, in order to get into shape for the games with the Arctics on May 24.

The Harriers Will Hold Weekly Run

The Y.M.C.A. Harrier club will hold their regular weekly run on Wednesday night, leaving the Association building at eight o'clock. The first paper chase of the season will be arranged soon, and all the members are requested to be out for the practice runs.

The list is now open for entries for the Y.M.C.A. meet on the 24th of May. Any men wishing to compete are requested to send in their names as soon as possible to the Y.M.C.A.

ROLLER HOCKEY MEETING TO-NIGHT

Game is Making Big Hit at Ottawa—2000 Present at Match

All those interested in roller hockey are requested to be present at the meeting to be held at the Charlotte street rink tonight after the skating. Steps will be taken toward the organization of a club, or several clubs, as may be decided upon. Mr. Sheridan has returned from Ottawa and will have much valuable information as to how the game is conducted in Ottawa. Roller hockey has made a big hit there, and over 2,000 people attended a game at Dey's rink on Friday night between the Victorias and Arenas. Describing the match, the Free Press of Saturday, says;

"Roller hockey was given a most auspicious inauguration last evening when, before a crowd of over 1,100 people, the Victoria hockey team, met and defeated the Arena roller poloists by the score of 11 to 3. The teams were cheered to the echo for their brilliant playing and the large crowd enjoyed the game immensely.

"Neither of the teams had had any practice until the Arena rink opened three weeks ago, but since then they have apparently been very busy, for the skating ability displayed by some of the players was first class. The stick handling might have been improved upon, but some allowances must be made for the players who had never attempted roller hockey before.

"The teams were composed of men of well known hockey fame, the Victorias having their full 1906 team on the floor, while the Arena team was composed mainly of players who had figured in one of the Ottawa city league teams. The crowd anticipated a burlesque instead of a good, scientific game of hockey, but the latter was the brand of hockey handed out by both teams. Among the spectators were a large number of ladies who wildly cheered their favorite team and the shouts of the fair ones greatly enlivened the game. The small boy was there as usual, but this time some of the youths had supplied themselves with a pocketful of torpedoes, which they threw down upon the floor and scattered the contents among the bunches of players. This practice was, however, put a stop to, by the rink management who, after warning the offender, summarily ejected a few of the ring-leaders. This had the effect of quieting the rest.

"The noise caused by the skates of the players was greatly increased by the jumping of the athletes, who cavorted around the rink like a bunch of kittens. Both teams seemed lost when they first stepped on the floor, and a number of falls were the result. This, however, did not mar the play, as it kept the spectators in good spirits throughout the match. The ball is about the size of an ordinary lacrosse ball but is considerably harder.

QUAKERS AND NORWOOD TIED

Neither Team Scored in Saturday's Match

A team representing the Peterborough Quakers went to Norwood on Saturday and played a tie game with the eleven of that place. Neither team scored and the article of ball played was not up to the mark, largely on account of the high wind which prevailed, and to the fact that the players on both teams had not played together to any extent. There were few shots on either goal, and the goal tenders had practically nothing to do. Charlie Sisson, of Peterborough, made a satisfactory referee, and the game was witnessed by a large number of spectators. The teams lined up as follows:—

Norwood		Quakers
	Goal	
Ritchie		McFadden
	Full Back	
English		Sorimsgaw
Rattan		Deforg
	Half Back	
J. Doherty		Sullivan
F. Cummings		Crough
B. Hycke		Hamilton
	Forward	
A. Scott		C. Fitzgerald
N. Rodgers		Thomas
F. Doherty		Huston
Graham		Baker

BASEBALL

MEETING TONIGHT.

An important meeting of the Peterborough Baseball Club will be held this evening at the Windsor Hotel. A full attendance of all the players is requested, as matters of much concern to the club will be considered.

INTERMEDIATE CITY LEAGUE.

A meeting of the representatives of the teams for the Intermediate City League will be held on Wednesday night at the Y.M.C.A. when the schedule of games for the season will be drawn up. Mr. J. T. C. Lang is president of the League and Mr. Fred Craig, secretary. On Wednesday night it will be decided where the games will be played and each representative of teams entering must hand in the names of those who will be on the line-up of the respective clubs. Six umpires have been selected—F. D. Craig, Jos. Picard, L. Derocher, Byron Greene, H. Campbell and W. J Stacey.

INTERMEDIATE PRACTICE.

A full turnout of the Peterborough Lacrosse Team will be held at Riverside Park tonight. This will be the first real practice this season, and every man is asked to be on hand.

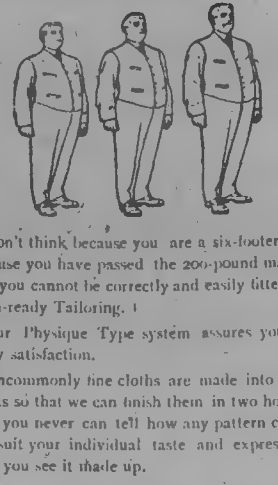
FOOTBALL

NORWOOD TO PLAY HERE

The Norwood football team will play a return game with the Peterborough Quakers on Wednesday evening from seven to eight o'clock at the exhibition grounds. It will no doubt be an interesting game, as the match in Norwood on Saturday resulted in a tie.

WHAT IS YOUR PHYSIQUE TYPE?



Don't think because you are a six-footer, or because you have passed the 200-pound mark, that you cannot be correctly and easily fitted in Semi-ready Tailoring.

Our Physique Type system assures you of every satisfaction.

Uncommonly fine cloths are made into garments so that we can finish them in two hours. And you never can tell how any pattern cloth will suit your individual taste and expression until you see it made up.

$15 to $25 and between

Semi ready
"The Signet of Surety"

At Cressman's Only

Trophy Will be On Exhibition

The handsome silver cup, which will be competed for by the Peterborough baseball team and the Arctics of Toronto, on May 24th and 25th will be on exhibition in one of the windows of the Review office tomorrow. The valuable trophy has been donated by Mrs. E. Milburn, of Peterborough, formerly of Toronto, and arrived from Toronto on Saturday. It is a beautiful piece of work and is valued at $50.

The possession of the cup will be decided by a series of three games, the trophy to go to the team that wins two of them. One match will be played on the morning of May 24th at Riverside Park, and the other two will be played Saturday afternoon, also at Riverside Park.

The Arctics and the local nine should put up a great article of ball, as the Toronto team is bringing down a strong aggregation, and hope to win out. Some idea of the strength of the Arctics will be gained from the fact that on Saturday they trimmed the Baracoas, prospective senior Interassociation champions of Toronto, by 14 runs to nil. Clewlo, who played hockey with the Argos here last winter, holds down the second cushion for the Arctics.

The Peterborough team will practice steadily between now and the 24th and should be in great shape when they go up against the team with the polar name.

CITY LEAGUE NOW ASSURED

A meeting for the purpose of organizing a City Baseball League will be held at the Oriental Hotel on Wednesday evening. The league is now a certainty as three teams have given definite assurance that they will enter, the Strathconas, Shamrocks and Rapid Tool Company. Officers will be elected Wednesday night and other arrangements made for getting the league started right away.

CRICKET

The cricket team had its first practice at Nicholls Oval Saturday afternoon. There was a good turnout for the initial practice and several of the players showed that they knew considerable about the game. A prominent local cricketer stated today that there is material in Peterborough for a first class team. Practices will now be held regularly.

All those interested in cricket are requested to meet at Nicholls Oval tonight as soon after six o'clock as possible for practice. The practice will be continued every evening during the week, weather permitting.

GAMES ARRANGED.

The Peterborough Cricket Club will go to Warkworth on Victoria Day, May 24th, where they will play the opening game of the season. It is expected that the team will play T.C.S boys in Port Hope on June 8th, and that Lindsay will send an eleven here on Saturday, May 25th. Secretary Wood is in correspondence with a number of other teams and other matches will soon be arranged.

OVER 10,000 SETTLERS

Immigrant Returns for Last Few Days Show Large Influx.

Montreal, May 12.—The immigrant returns for the past two days show that upwards of 10,000 settlers have reached Canadian ports within that interval bound for Western Canada. Such a large influx the two days has put a severe tax on colonist car accommodation, but up to the present no very great difficulty has been experienced by the railway authorities in handling the newcomers.

The vessels that reached Montreal and Quebec, with their complements of third-class passengers, are as follows:—Empress of Ireland, 1,500; Lake Manitoba, 1,800; Lake Michigan, 2,100; Pretorian, 600; Tunisian, 1,500; Kensington, 1,200; Parisian, 736, Total, 9,836.

RUNAWAY WAS PICTURESQUE

Mann's Team With a Load of Cheese Boxes Crashed into Electric Light Pole

One of the most exciting and picturesque runaways seen in the city this spring occurred this morning about 8 o'clock. The team belonging to the Mann cheese box and Lumber Co. started on a run from the factory down Dublin street towards Aylmer. At this spot the team made an attempt to turn the corner, but it was too short, and they struck the Light & Power Co's pole, which is on the corner lawn. The force was so great that the pole was splintered for about twelve feet up, and was shoved over about a foot. The driver was thrown several feet in the air and struck the ground near the house. He received a small cut on the head and a good shaking up generally. The cheese boxes on the back of the wagon were jarred so that they flew into the air, over the rest of the load and came down on the lawn like a rain storm. One of the horses was knocked down, but was not seriously injured, and the wagon escaped with practically no damage. The mad pace of the horses, the crash when the wagon struck, the cracking of the pole, and the shower of [illegible] and cheese boxes was a scene rarely seen, although something heard of in a wild west show, or in dime novels.

CHEESE OUTPUT IS DECREASED

Reports received in the dairying branch of the Agricultural Department are that the late spring has already seriously affected the output of cheese, which is fully one-third less than in the corresponding period of former years. The pasture growth has been greatly retarded by the cold, dry weather, and feed for the cattle is scarce, and is advancing in price. In Carleton, Russell, Prescott Glengarry, and Stormont counties conditions are particularly unfavorable, and the make of cheese in those counties will be considerably less than in other sections of the province.

The prospects are, however, that the quality of the cheese made will be excellent. Messrs. G. G. Publow, of Kingston, and F. Hearns, of London, the chief sanitary and dairy inspectors for the province, report that the factories were never in such good condition as now. The owners have spent a lot of money fixing the factories and putting them in such shape as to make the task of keeping them clean a much easier one than formerly.

AID THE GOOD CAUSE

Local Ladies Should Receive Support in Most Worthy Object

To the Editor of the Review.

Sir,—Will you be good enough to call attention of the public to the fact of assistance from Peterborough for the purpose of aiding consumptives who are unable to pay their way during treatment at the Muskoka Sanitarium.

It is, as you know, an absolute necessity that those who are suffering from this dread disease, should receive relief both for their own benefit and for that of the rest of the community, who are in constant danger of infection.

The movement here is one recently started in response to an urgent appeal of an alarmed public.

All that is asked for by the local society is contributions in junk—rubbers, old boots, etc—in fact, any old thing that is worth taking away. This will be turned into cash and used for the good cause. I understand that Mrs. D. Hughes Charles and Mrs. James Kendry, along with others are much interested in this organization, and will be pleased to receive contributions to-morrow and on Wednesday in the store formerly occupied by Richard Hall & Son, Simcoe street. I hope there will be a generous response.

P.B.P.

Peterborough, May 13th, 1907.

NOTES OF THE DAY

Neepawa, Man., sustained its local option bylaw yesterday.

The C.N.R. is to rebuild the Prince Albert branch this summer.

St. Andrew's church, Guelph, is to be enlarged at a cost of $5,000.

Contracts for the new Home for Incurables, Hamilton, were let yesterday.

A stranger called at Wm. Irwin's in Medonte for a night's lodging and died in bed. His name is Cote.

Specialist Will be at Peterborough May 15th to 30th

After a most successful visit in his capacity as teacher of opticians, the Specialist, **J. W. BROWETT**, will return from Toronto on Wednesday next to his home office at our store. Hundreds of persons took the opportunity of his visit to have their eyes examined for glasses, and now we bespeak a BUSY TWO WEEKS IN PETERBOROUGH. Mr. Browett's work is so thoroughly satisfactory and is getting to be known in this city where he has made his home and headquarters. We are booking appointments for May 15th to 30th.

McDERMID & JURY'S DRUG STORE, PETERBOROUGH.

THE NEW YORK STOCK MARKET

New York, May 13.—Stocks were quiet but very firm all day today and scored some nice advances. London sent over higher prices this morning and bought on balance in this market. Dullness was the prominent feature until 2.15 p.m. when a buying movement in Union Pacific started things upward and brought the whole market up to the high of the day, where it closed.

There was a sensational market in wheat in Chicago, where the December option sold at $1.03 and Sept $1.00 1-2. The biggest trade in years took place in the wheat pit, where brokers were swamped with orders and the utmost confusion reigned. The closing prices were under the best of the day but showed a big advance over Saturday.

DELIGHTFUL RECITAL AT CONSERVATORY

The pupils in the Primary Department of the Peterborough Conservatory of Music gave a delightful recital on Saturday afternoon, under the direction of their able teacher, Miss Sisson. They were admirably assisted in the excellent and thoroughly enjoyable programme by Miss Smith, violinist, and Misses Choate and Morrow, vocalists, who acquitted themselves in a most creditable manner.

In the musical numbers many comments were made respecting the pretty touch and position of the pupils, who were mostly kindergarten graduates. The programme was as follows:—

Duet—Picnic in the Woods—Lila Waterman, Hazel Gillespie.
Barcarolle, Lacour—Kathleen Bryce
Just for To-Day, Abbott—Miss Morrow
Raindrops, Ducell—Douglas Johnston
Cradle Song, Reber—Miss Smith.
Indian Dance, Lacome—Lila Waterman
Brownies Story—Hazel Gillespie.
Orvetta Waltz, Spencer—Lillie Crowe
Elfin Dance—Maud Stevens.
Stars May Forget, Groom—Miss Choate
Duet, Friendship's March—Lillie Crowe, Maud Stevens.
Waltz Op 83, Durand—Maud Stewart.

BICYCLING IS ONCE MORE POPULAR

The recent general revival of wheeling in Peterborough, is simply another proof of the old adage that you can't keep a good thing down. When the fickle public turned its back on the wheel as a pure fad, the bicycle makers trimmed their sails to meet the changed conditions, and for half a dozen years were content to put out their product for utilitarian purposes. It seemed that no sooner was the bottom touched in the wheel business, than the re-action began. It was very slow at first very gradual, but the bicycling has so many good points, that its growth has continued year by year, until at the present time, the manufacturers are facing conditions, akin to those of ten years ago, just preceding the immense sales of the middle '90s.

And in these ten years, those who have never given up the wheel have had plenty of reason for self-congratulation. The steady rider has seen his companions give up this even, regular exercise, grow fat, loggy and short of breath, while he himself has kept in good health as a rule, has enjoyed better digestion, and has muscles that are in better trim and can stand more fatigue than the average man of his years.

And if this condition is of importance in the case of men riders, it is still more vital so far as women riders are concerned. Nothing before or since the advent of the wheel has done more for women kind, who are virtually barred from the countless forms of athletic sport by which young men prepare themselves for the hard exhaustive money-making years.

TWO HEADED CALF IS GREAT CURIOSITY

A Pickering despatch says:—Mr. R. Parker, the caretaker at Pickering College, has a great curiosity that is attracting scores of people from the village to his place. It is a well developed white calf, two days old, with two perfectly formed heads on one neck. The back part of the heads are joined together. It has only two ears, but has two pairs of eyes, which look in opposite directions. It has two sets of jaws with nose and mouth complete. It has several teeth on each side, and can bawl from either mouth. It is very weak and cannot live long.

Club Rooms Have Changed Hands

Knights of Columbus Buy Out the Quarters of the Elks

The local council of the Knights of Columbus have taken over the lease and furnishings of the club rooms of the Peterborough Lodge of Elks, in the old opera house block.

There are five rooms altogether, consisting of reading room, card and game room, parlor and two smaller rooms. The Knights of Columbus took possession yesterday and are to be congratulated on the fine and well furnished quarters which they have secured. The Elks will select because there is no need of it, says of the lodge now having this matter in hand.

PROTECT THE SONGSTERS

Reports are continually coming in that the "small boy" and the larger ones, for that matter, are against their spring killing of birds. There is plenty of evidence at hand in the dead birds robins and other songsters, to be seen lying on many of the lanes. Parents watch your boys. If he goes off with an air gun or catapult, caution him. Remember that a boy with a gun is apt to shoot. Chief Rouzel is on the lookout and any boy may shortly appear before the Magistrate to make necessary explanations.

LAST DAY FOR DISCOUNTS

The Peterborough Light and Power Company wishes to remind its customers, that Wednesday, May 15th is the last day discount will be allowed on April accounts. The office will be open during the evening of the 14th, and 15th from 8 p. m. until 11 p. m.

THE TONIC OF HEALTH

Must be more than a stimulant—must be a food as well.

The "Best" Tonic is FERROZONE, which is both a food and a tonic; it aids digestion, promotes assimilation and converts food into blood, muscle, bone and nerves. No wonder it builds up the weak, makes them strong and vigorous!

FERROZONE

THE GREAT FOOD TONIC

FERROZONE contains exactly what your run-down system lacks. It supplies oxygen to purify the blood, phosphorus to develop the brain, iron to harden the muscles.

No combination of strength-giving, life-sustaining elements can surpass FERROZONE. Instant in effect, lasting in results, no medicine can benefit as much. You'll eat, sleep, think and feel better by using FERROZONE, which is a true tonic. Try it—now.

Ferrozone is sold everywhere in 50c boxes or six for $2.50. By mail to any address from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

FIRE BUGS SUSPECTED

New Million Dollar Steamer Burned to Water's Edge.

"City of Cleveland" Almost a Total Loss—Was Still in Hands of Her Builders — Damage Amounts to $700,000 — Fire an Early Morning Mystery—Hull and Machinery May Be Utilized.

Detroit, May 14.—The magnificent new passenger steamer City of Cleveland, under construction for the Detroit and Cleveland Navigation Company, and destined to run between Detroit and Cleveland, was swept by fire early yesterday and is a total loss except her hull and machinery. How much they have been damaged can not be determined until the hull is pumped out. The loss, which falls upon the Detroit Shipbuilding Company, is about $700,000, and is fairly well covered by insurance.

The fire broke out mysteriously just berfore daylight. Incendiarism is suspected. There were two watchmen on the steamer and another at the gate to the shipyard. The City of Cleveland was launched at Wyandotte, Jan. 5, and was to have been turned over to the navigation company about June 30. She was 444 feet long and designed to carry 4,500 passengers, with sleeping accommodation for 1,500.

The two watchmen on the steamer got ashore safely and no one was injured.

The shipbuilding company will rebuild the boat, it is announced, but it will be impossible to get her ready for service before next season.

CIGARETTE AGAIN BLAMED.

Supposed to Have Set Fire Which Caused Many Deaths.

Mexico City, May 14.—The fire in the Teruere Mines, which caused the death of upwards to a hundred men is supposed to have been started by a cigarette thrown away by one of the miners.

The part of the mine in which the fire originated, it is said, was extraordinarily dry, and it is believed that the man in throwing away his half-burned cigarette allowed it to drop in a bunch of waste. A blaze was the immediate result, and this quickly conveyed itself to the adjoining timbering.

The fire had gained great headway before it was discovered. The miners found that all avenues of escape had been cut off. Seventeen, however, who were in good position made a dash and reached the outer air. Rescuing parties have been working heroically, but only charred and unrecognizable bodies have thus far rewarded their efforts.

SECRET DOUMA IN LONDON.

Has An Important Bearing On the Future of Russia.

London, May 14.—The Chronicle interviewed one of the delegates to the Russian secret Congress being held here, who said:—"The present session of the secret Douma is the most important ever held in its bearing on the future of Russia. The result will determine whether prosecution of the cause of social democracy will proceed on the old Terrorist lines, or become a system of passive resistance and public remonstrance.

Maxim Gorky was present at the meeting of the secret Douma yesterday. He arrived here unexpectedly Sunday, and will remain for the sittings of the Congress, which will probably lest for ten days.

Steamer Byron Whittaker Sunk.

Detroit, May 14.—The steamer Byron Whittaker of Detroit, was sunk in the lower Detroit River Sunday night off Amherstburg, in a collision with the steamer John C. Gault. The Gault proceeded on her journey up the river. The Whittaker was going down the river with a load of corn. She was built at Mount Clemens in 1890. Her crew were rescued by the crew of the tug General.

The Grand Trunk railway have leased the G.T.R. ferry from the town of Cobourg for twenty-five years, and will pay a yearly rental of $2,000.

SHOULD FAVOR COLONIES.

Austin Chamberlain Leads Attack On Government Policy.

London, May 14.—In the House of Commons, on the second reading of the Finance Bill, Austin Chamberlain moved an official tariff reform amendment. He dealt with the general question of taxation and satarized the attitude of the Government towards the colonial demand for preference. The demands of the colonies he thought had been refused almost brutally. The Opposition were anxious not to repel the first united advance for closer union with the colonies. No juggling with the income tax would meet the case. He laid it against the British fiscal system that it acted as a handicap to trade and commerce, wages and employment, and suggested the imposition of duties on imported manufactured goods.

Lyttleton also condemned the action of the Government regarding the colonial conference, while Jesse Collings ridiculed the statement by Asquith that the question had been finally settled by the last election.

McKenna and Buxton replied on behalf of the Government, the latter arguing that the financial system of Britain was now sounder than for years. If Britain adopted preference, retaliation or protection, it would lead her into a hopeless chaos.

The debate was adjourned.

In the House of Commons Sir Stachey stated that the president of the board of agriculture had read Laurier's speech in reference to the importation of cattle and would of course give most respectful attention to the representations made by him.

WANT VOTE OF CONFIDENCE.

French Government's Policy Toward Labor.

Paris, May 14.—When the Chamber of Deputies reassembled yesterday, Education Minister Briand replied to further interpellations of the Government, on the latter's policy towards labor. He declared that the Ministers had acted in the true interests of both the public and the working people in suppressing the violence and the tyranny of the revolutionary general confederation of labor, and expressed his determination, with the fullest approval of his colleagues, not to permit any attempt at insubordination on the part of the school teachers or other state officials.

Continuing, M. Briand said the Government categorically refused to authorize the school teachers and other state officials to form the unions which the general federation of labor desired in order to provoke confusion and disorder through the officials appearing to the country to be over the heads of the Cabinet Ministers. The Government desired to overcome anarchy by means of order and discipline, thus avoiding certain reaction. If the chamber did not support the Government's disciplinary measures the Ministers would not retain their portfolios. The debate was adjourned until to-day, when the Government will ask for a vote of confidence.

REVOLUTIONARIES AWED.

Sudden Show of Military Force at Lahore Makes the City Quiet.

Lahore, India, May 14.—The sudden and swift display of military force by the British authorities has dumbfounded the revolutionaries, and the arrest and deportation of Lala Rajpat Rai, the chief anti-British agitator, has paralyzed the organization of the seditionary movement, which is now without a leader. The troops were out all Friday night. But the city, hitherto the scene of nightly excitement, inflammatory oratory and processions, slept in unbroken stillness. The streets were utterly deserted.

The Pioneer welcomes the action of the Government of the Punjab, but doubts the necessity or advisability of a frequent repetition of strong measures. It says the present situation is not critical or serious if it is firmly treated in the ordinary way.

Unionist Gets a Seat.

London, May 14.—The bye-election for a member of Parliament from the Stepney division of Tower Hamlets, to fill the seat made vacant by the retirement of Sir W. Evans Gordon, Unionist, who resigned on account of ill-health, resulted in a victory for the Unionist candidate, F. Leverton Harris.

The election was hotly contested along the lines of the great political issues. Mr. Harris polled 2,299 votes, against 1,350 cast for Ben Cooper, the Liberal-Labor candidate. The Unionist majority obtained by Sir W. Evans Gordon was reduced by 312 votes.

Reported Victory for Sultan.

Melilla, Morocco, May 14.—It is rumored here that the army of the Sultan has won a victory over the forces of the Pretender near Marchica. The casualties on both sides are reported to be heavy, and the Government troops are said to have captured 200 prisoners.

The late Elizabeth Bertha Weber, of Markham left property worth $3,1000.

SPARK CAUSES BLAZE

Clinton Visited by Most Disastrous Fire in Its History.

Flames Started In Thresher Co.'s Works—Twenty-Five Buildings on Fire at Once—Methodist Church Narrowly Escaped Burning—Hotel and Stables Completely Gutted—Fierce Wind Aided Fire.

Clinton, May 14.—The most disastrous fire in the history of Clinton was started yesterday afternoon about two o'clock, in the works of the Clinton Thresher Co. A terrific wind was blowing, and it is thought the fire originated by a spark from the Thresher Co.'s smokestack falling on the roof of the frame factory. For a time it looked as though the whole town would be destroyed, as fully 25 buildings were on fire at once, and, with the wind blowing so hard, the firemen were at the mercy of the flames. Assistance was asked for from Stratford and Blyth, and it is to their efforts much of the credit is due in stopping the fire's progress.

Methodist Church Catches.

The flames leaped from the Threshing Co. to their office, then across the street to some small buildings at the rear of Wesley Methodist Church, and for a time this splendid structure was in great danger, but although fire caught in a few places it was eventually put out. Cinders and sparks were carried over to Elliott's Livery stables, but the fire brigade prevented them doing serious damage, although the contents of the livery and residences were removed.

The Rattenbury Hotel was now seen to have caught fire in the third storey, and, the building being entirely a frame one, fell a prey to the flames, as did also the adjoining sample rooms. It seemed for a time that the old postoffice building, adjoining the Rattenbury Hotel, also the large stable at the rear, and Flynn's blacksmith shop, would also burn, but the brigades from Blyth and Stratford arrived and prevented further destruction, although the rear part of the old postoffice was burned and McLean's restaurant was partly damaged by water.

Stables Destroyed.

Dr. Evans' house and stables were completely destroyed, and it was with difficulty that Davis' Livery, Dr. Gunn's office and residence, and also the residences of C. C. Rance, Jos. Copp, Mrs. Smith, Mrs. Pratt, B. Hill and others were saved, although the contents of most of these were damaged by smoke.

The Thresher Co.'s plant loses $30,000 in the buildings, which were erected at a cost of $30,000, also the contents, worth $30,000, are almost a total loss; insured for $20,000.

The Rattenbury Hotel, owned by J. Rattenbury, was valued at $8,000, and was a total loss; insured for $2,000.

CALLED OLD GLORY A DISH-RAG.

Angry Mob Resent Insult to Star Spangled Banner.

Detroit, Mich., May 14.—A Sunbury, Pa., despatch says:—George J. Pegg, a Canadian employed at a local mill, alleged to have called the United States flag nothing more than a dish rag, was compelled by an angry crowd Sunday night to salute the emblem and carry it on a pole several miles, during which the paraders frequently threatened to throw him in the Susquehanna river.

He was led to the centre of a bridge crossing the stream, a man on one side of him carrying a rifle, and another with a noose. He was threatened by the mob with drowning. The enraged crowd surrounded him as he said: "I made the remark in ignorance of American respect for the flag of your country. I am very sorry." He was released amid hisses and groans.

$60,000 Fire at Finch.

Ottawa, May 14.—A threatening fire broke out at the Village of Finch, the junction of the C. P. R. and New York and Ottawa line, an important dairy centre, yesterday.

At two o'clock a small rubbish pile, burning, set fire to some coal oil casks and then to the general store of A. F. Day in the McNaughton block. This whole building was burned. With it went the branch of the Merchants' Bank, who saved the books and bills alone; the armory and full equipment of a new issue of rifles and uniforms of No. 4 Company of the 59th Regiment; the paraphernalia of the Orange Lodge, and a branch of the Independent Order of Oddfellows, and the public library and 800 books.

A blacksmith's shop of A. F. Dingwall also was burned, as well as the old Presbyterian Church and the Methodist Church. Out of the latter the organ had been saved. Then the work of the bucket and pump brigade began to tell and at five o'clock the chief danger was over.

At night a big wind sprang up and sparks were flying over the village again, but the whole neighborhood has turned out. The loss will exceed $60,000.

Brutal Murder.

New York, May 14.—The identification yesterday of the body of an Italian who was murdered in Columbia street, Brooklyn, Sunday night, as that of Thomas Boepoly, a longshoreman, formerly employed by the Ward Line, led the police to believe that his death was connected with the longshoremen's strike.

Boepoly's body was found in the cellar of an apartment house, with his throat cut and several knife wounds in the breast.

West York Bye-Election June 1.

Toronto, May 14.—The Ontario Government has passed an order in council fixing the date of the bye-election in West York, to fill the vacancy caused by the death of the late Speaker St. John, for Saturday, June 1. Nominations one week earlier.

John J. Kefler, editor of The Weston Times, will be the returning officer.

Oliver Deslauries, an Ottawa bartender, committed suicide by shooting himself in the head. He had been married only a week.

TARRED AND FEATHERED.

Disgraceful Affair Occurred Recently at Port Elgin.

Kincardine, May 14.—The quiet village of Port Elgin on Friday had its good name disgraced by an unprecedented affair.

For some weeks past there has been a growing feeling against a man named Joseph Elymer, an employe of the shovel works. Eylmer came here some time ago and went to board at the residence of a barber named Venner. People after a while began to gossip, and all the more so when Venner, about a month ago, left town, leaving his wife and family. Elymer has since lived at the house.

On Thursday night last a crowd of men broke into the house in search of Elymer, but he met them with a club and they made a hasty retreat.

On Friday morning one of their number, a supposed friend of Elymer, went down to the Venner residence and got the victim to come up town. They went to the Queen's Hotel, and at the noon hour, a few leading spirits had collected. When Elymer emerged from the hotel he was grabbed and rushed to the barn, where, in a box stall, he was stripped of his clothing and given a thorough coating of tar, hayseeds being afterwards sprinkled over him. In this condition he was left and ordered to leave the town.

J. Izzard, proprietor of the hotel, on learning what was going on, summoned Chief Heney, but the band of purity had flown. Several names were taken, and two of the men, Hamilton and McKenzie, butchers, were taken before a magistrate and fined $1 and costs.

RATS DO TRICK.

Break Up Woman Suffragists' Meeting in England.

London, May 14.—Out at Wimbledon Hon. Bertrand Russell, woman suffrage candidate for Parliament, decided to open his campaign with a public meeting. The hall was crowded, chiefly with women. When the meeting opened it was seen that an organized attempt was made to break it up. The chairman pleaded that there might be order in the meeting.

"Will you please sit down?" demanded a man with a megaphone, and then came a great uproar, which lasted 5 minutes. Everything went on all right until Candidate Russell rose to speak. He had scarcely said a word when the man with the megaphone shouted: "Let 'em loose!"

An instant later forty big, whooping rats were scampering over the floor, terrorizing the audience, and especially the women. Needless to say, the meeting adjourned immediately in great disorder.

NEW PARLIAMENT OPENED.

Alfonso Refers to the Excellent Relations Now Existing.

Madrid, May 14.—King Alfonso, who was accompanied by Queen-Mother Marie Christina, opened the new Parliament yesterday. The King read a message from the throne, promising reforms in the state administration, including decentralization, and urged the immediate reconstruction of the navy. He referred to the meeting with King Edward at Cartagena, "by which the ties uniting Spain and Great Britain were strengthened," while the excellent relations between Spain and all other nations were maintained.

DO NOT NEED SAILORS.

Colonies Should Assist Navy In Some Other Way.

London, May 14.—(C. A. P.)—The Chronicle's naval correspondent says the admiralty is perturbed at the erroneous impression prevailing in Canada and Australia that by merely contributing a trained reserve of seamen they assist in solving the problem of imperial defence. If war broke out tomorrow there are 30,000 British seamen for whom there are no ships. Therefore the colonies should assist in some other way.

Crashed Into Ship's Bottom.

Montreal, May 14.—While the Reford liner the Concordia was unloading some heavy pieces of machinery consigned to the Dominion Bridge Co. the derrick cable broke. A huge piece of machinery, which had been hauled up and swung clear of the hatchway, plunged down the hatchway. Passing to the bottom without touching anything, it tore a huge hole in the ship's bottom and stuck with the upper part imbedded in the ship.

The Corcordia, being in great danger of sinking in the deep water where she lay, was taken to shallow water, where the risk of sinking was less, and divers effected repairs.

Dominion Vs. the Province.

Ottawa, May 14.—In the supreme court yesterday, judgment was given in the appeal of the Province of Ontario v. the Dominion of Canada, dismissing both the main appeal and the cross appeal. No costs were allowed to either party. This is a case involving the rate of interest payable by the Dominion to Ontario on account of certain provincial credits; it also turned on the question, whether the Dominion was a trustee or merely a holder of these funds.

Oliver Must Show Records.

Calgary, May 14.—Hon. Frank Oliver and his deputy have been served with notice to appear with all records of the Department of Interior at the examination bearing on the case of Montalbetti, who is now at MacLeod jail on the charge of perjury in the Blairmore Townsite case. The registrar of the exchequer court has also been subpoenaed, together with the court records. Startling developments are expected.

The Georgian Bay Canal.

Ottawa, May 14.—The Georgian Bay Canal, it is anticipated, will cost $105,000,000. The work of the commission is nearing completion, and the proposal is to build a 21-foot waterway from Georgian Bay to Montreal. The report will be presented to Parliament at its next session.

The physician in attendance on President John Mitchell, of the United Mine Workers, says that the patient is gaining strength every day.

SLAYS WIFE AND BABES

Farmer Near Gananoque Commits Murder, Then Suicides.

Kills Family With Hammer — Then Cuts His Own Throat—Left Pathetic Note Excusing His Crime—Suffering From Ill-Health and Betrayed by Friends—Feared Scoff of the World for Them.

Gananoque, May 14.—William Waldie, aged 38, a farmer, living a few miles east of Gananoque, killed his wife and two children with a hammer yesterday morning, knocking their brains out while they were asleep. The children were aged 2 and 4. He then went downstairs and wrote a note, which he left on the table, then went upstairs and cut his own throat from ear to ear. He told the hired man, Shipman, who went to the factory with milk, if he did not see him when he came back to go upstairs and he would find him. Not finding him, he went as requested.

The Bodies Found.

In the room where the deed was done were one bed and a cot. In the bed was lying the man who committed the murder. Beside him lay his wife with a dent in her head. In the cot were the two children with holes in their heads and dead. The floor of the bedroom was a muss of blood. In front of the looking-glass is where Waldie apparently had stood while cutting his throat, then lay on the bed alongside his wife.

He tried on Saturday last to sell his farm to a neighbor. He was highly respected by all residents.

Mrs. Waldie is a daughter of Noah Peck, deputy reeve of Leeds and Lansdowne. Waldie was always very fond of his wife and children.

Left Signed Note.

This is a copy of his note: "Upstairs will be found the work of a mental and physical wreck, a maniac for the last two years, unknown to anyone but myself; I suspect. Would to God I had never been born. I have killed the dearest woman and unborn baby and the two sweetest of children. I had intended to kill only myself, but I could not at the last leave them to the scoff of the world. I have been hoodwinked by those who should have been my friends, and can see no future, as I am utterly unable to manage myself or to accomplish my work. —William Waldie."

LAWYER ADVISED TO STEAL.

Confession of Former Loan Clerk Made Public.

New York, May 14.—Details of a confession made by Wm. C. Douglas, former loan clerk of the Trust Co. of America, made public yesterday, are to the effect that acting on the advice of a lawyer, he planned to steal $1,000,000 of securities in order to compel the Trust Co. to conceal his minor theft.

Douglas has already pleaded guilty to larceny, and is awaiting sentence. According to his confession he first took small quantities of bonds and, borrowing money on them, lost it in speculation. When it was evident that he could not retrieve his losses, a lawyer was consulted, who advised that the only way out of the dilemma was to steal $1,000,000 worth of securities, and turn them over to the lawyer, who might negotiate with the officials of the trust company, for their return. Douglas' understanding was that the lawyer expected to get $200,000 from the trust company for the restoration of the securities, which would have been sufficient to cover the amount Douglas had already borrowed and lost.

GRAND JURY FIND TRUE BILL.

Jackson to Stand Trial for Causing Sister-in-Law's Death.

Orangeville, May 14.—The grand jury, after three hours' deliberation, returned a "true bill" in the case of the King v. Walter Jackson.

Jackson is charged with being implicated in the death of his sister-in-law, Lizzie Wells, last summer, by causing her to be drugged.

The Chief Justice addressed the grand jury at some length on the only criminal case to come before them, King v. Jackson, explaining very fully the law relating to such matters. About a dozen witnesses were examined. The court then adjourned until to-day.

Frank E. Hodgins is crown attorney and J. W. Curry, K. C., acts for the defence.

In a collision in the Grand Trunk yards at Niagara Falls, Saturday, Fireman Yates of St. Thomas, was jammed into his cab and killed.

The Marathon Mystery

A Story of Manhattan

By BURTON E. STEVENSON
Author of "The Holladay Case"

Copyright, 1904, by Henry Holt and Company

"It was nothing," he said. "I was glad to do it. I was deeply pleased when that message came this morning."

"You've been kinder to me than I deserved," she said; and I more than half agreed with her. How, with his eyes before her, could she fail to understand? Perhaps she did understand. I was never sure.

"In the first place, then, Miss Croydon," he went on, in a different tone, "how did your father succeed in getting your sister away from Tremaine?"

"They had gone to Paris," she answered, "and in two or three days Edith had awakened from her dream. She saw something in the man which terrified her, and she wrote a pitiful letter to father, who went over to Paris at once and finally succeeded in buying the man off. Father paid him 80,000 francs, I believe. Perhaps it was the fact that he knew he was not really Edith's husband, that he himself had committed a crime, which made him take it. He agreed to leave the country, and in the following December he wrote father that he was about to sail for Martinique in a ship called the Centaur. He said he intended to buy a plantation at Martinique and make that his home. In February we learned that the Centaur had been lost, with all on board. After eight years it seemed certain that he was dead, and Edith felt free to marry again."

"Was Mr. Delroy informed of this early indiscretion?"

"Certainly, and forgave it, as any good man would."

"Pardon me for asking the question, Miss Croydon; but it was necessary. When was it you first learned that Tremaine was still alive?"

"One night nearly two months ago Edith brought his letter to me. She was wild, distracted, ready to kill herself—that is what I have feared every day since. She loves Mr. Delroy, Mr. Godfrey, and yet she believed herself the wife of another man. He demanded that she meet him in that apartment house. I knew she could not bear such a meeting, and yet he must be seen. I offered to go in her stead. I had some wild idea of appealing to his better nature, of persuading him"—

She stopped, silenced by her own emotion.

"That, of course, would not have altered the fact that your sister was his wife," observed Godfrey.

"No. That was the terrible part of it; nothing could alter that. There must, of course, be a separation, but we thought we would solve that problem after we had settled the other. So I went. He opened the door for me. I had never seen him, and I confess his appearance and manner were not at all what I expected. He did not look in the least like a scoundrel, or did he act like one. He listened to me with attention and seeming respect. He even appeared moved. Oh, I know now what a hypocrite he was. I know that he was laughing at me; that he was planning something deeper, more villainous. I had brought $1,200 with me—all that we could gather together at that moment—and I pressed it upon him, urging him to take it and go away and we would send him more. He pretended to refuse the money, to protest that that was not in the least what he wanted, but I compelled him to take it. And just as I was hoping that I had prevailed with him the door of the bedroom opened and a horrible drunken man staggered out.

"'Well, Vic,' he cried, 'so this is th' gal, is it? She's a likely piece. I wouldn't give her up, Vic, no, not fer ten thousand'—

"'Go back to bed, you drunken brute!' cried Tremaine, and took him roughly by the arm.

"But the other shook him off.

"'Don't lay your hands on me, Vic!' he cried. 'Don't dare lay your hands on me!'

"I saw a very devil spring into Tremaine's face. He looked about him for some weapon and picked up a piece of pipe that lay beside the radiator. Thompson saw the action and lurched heavily toward him.

"'Goin' t' use that on me, Vic?' he asked. 'You'd better try it.' And he made a pass at Tremaine and tried to snatch the pipe away. 'You try it on, an' I'll blow your game like I did once before down at Sydney.'

"He struck at Tremaine again, but the latter sprang away and in an instant had brought the pipe down upon his head. Thompson fell like a log; then that fiendish look flashed into Tremaine's face for a second time; he snatched out a revolver; I dimly understood what was coming—indeed, I had my own revolver in my hand, and I fired at him, but my shot went wild, while his"—

She stopped and buried her face in her hands, overcome for the moment by the terrible spectacle her words had evoked.

She controlled herself by an effort, took down her hands—

"He put his pistol away and stepped over very close to me.

"'Miss Croydon,' he said rapidly, 'it will be well for you to say you did not know me. I have committed no crime; he was the aggressor; what I did was done in self defense. One thing more—your sister has nothing to fear from me; I shall never bother her again; I promise you that.'

"He was gone in an instant, and then the janitor came and you and the detectives."

Godfrey nodded thoughtfully.

"That supplies the motive, Lester," he said. "I have felt that my explanation of the crime was not quite adequate. But it was not only desire for revenge that urged Tremaine on; it was also the knowledge that Thompson knew of his first marriage and threatened with a word to wreck his plans a second time."

"Yes," I agreed and sat silent, pondering the story.

"Why did you take the clippings, Miss Croydon?" asked Godfrey after a moment.

"From what you read of them I suspected how vitally they concerned my sister. That was a secret, I felt, which must be kept at any hazard. It was done without consideration, on the spur of the moment, or I should never have had the courage to do it at all."

"And why did you hide them under the carpet?"

She laughed outright. The load was lifted. She was fast becoming her usual self.

"I had a wild idea that you were going to search me. I saw that loose place in the carpet the instant I arose with the clippings in my hand. Once I had put them there I had no chance at all to get them again."

Godfrey nodded.

"You tried to get them the day after the inquest, didn't you?"

"Yes; but the janitor was so afraid of me that he wouldn't even let me go upstairs."

"And there weren't any papers?"

"No; that was a lie. I saw I must invent one—that I must offer some explanation of my presence there."

"Did Tremaine keep his promise?"

"Not to bother my sister? Yes; he mentioned it again only to assure me that the past was dead—that he would never revive it."

"But how could you admit his presence here?"

"How could we prevent it? It was Mr. Delroy who brought him. We weren't strong enough to tell him the whole story."

"You mean you told him part of it?"

"There has been a virtual separation ever since Mr. Tremaine appeared."

Godfrey paused reflectively.

"Why were you so agitated," he continued finally, "when you were asked to identify Jimmy the Dude at the inquest?"

"Because I did identify him."

"You did?"

"Yes—as the man I had seen talking to the janitor in the lower hall. Let me explain, Mr. Godfrey. When I was asked suddenly for a description of the murderer, I was taken aback; I endeavored to think, to collect myself—and I remembered the man I had passed in the hall. Without stopping to consider—wishing only to disarm suspicion—I described him roughly as I remembered him. When I was confronted with him at the inquest next day, I instantly realised what I had done—I had implicated an innocent man—and it turned me a little faint for a moment."

"Had you ever met him?"

"Met him?" she repeated in surprise. "Why, no."

"But he seemed to know you."

"Oh"—and she laughed again—"I had a letter from him next day, a letter filled with gratitude, touching even. It seems that my sister and I had helped his family—a mother and sister—without knowing it while he was away"—

"At Sing Sing. He's the most expert burglar in New York, but he's got his good points too. Witness his taking Thompson home that night."

"Yes; he wanted to do anything he could to help me. I intend to look up Jimmy."

"Do. If you can reform him the New York police force will be mighty grateful."

"I'm going to try," she said. And I rather envied Jimmy.

Godfrey leaned back in his chair, with a sigh of satisfaction.

"I think that clears up that affair pretty well," he said, "and that brings us to the second and more serious one. And first, Miss Croydon, I want to ask you if you think it was just the right thing to let them march Jack Drysdale off to prison when a single word from you might have saved him?"

CHAPTER XXVIII.

"FROM me?" repeated Miss Croydon blankly. "A single word from me? I do not understand you, Mr. Godfrey."

"Do you mean to say," demanded Godfrey with emphasis, "that you do not know where Mr. Drysdale was Monday night; that you were not yourself the cause of his leaving the house?"

She was staring at him with distended eyes.

"I the cause!" she repeated hoarsely after a moment. "Mr. Godfrey, I will tell you something of which I had determined never to speak. When he left the house that evening he deliberately broke an appointment he had made with me—an appointment he had prayed for. He had happened to hear Mr. Tremaine make certain proposals to me. In short"—she hesitated and then proceeded steadily with raised head—"I may as well tell the whole truth. Since the evening of that first tragedy Mr. Tremaine has been persecuting me with his attentions. At the time I thought them merely insulting; I see now that he may have been in earnest."

"I don't in the least doubt that he was in earnest," agreed Godfrey. "Mr. Drysdale, then, overheard him ask you to be his wife?"

"Yes; just that."

"But he also heard you refuse, no doubt?"

"Oh, yes," she said, smiling and coloring a little, "he heard me refuse in the most positive way, but my refusal provoked Mr. Tremaine to an intemperance of language which Mr. Drysdale resented and which he thought I should have resented too. He demanded that I explain to him Mr. Tremaine's position, and I promised to do so on the very evening he—he stayed away from the house. His staying away offended me deeply."

Godfrey had listened with intent eyes and a quick nod from time to time.

"There is only one point lacking," he said. "Did Tremaine know of your intention to tell Drysdale the story?"

"Yes; he even charged me with that intention."

"Ah, he had listened at a keyhole probably."

"He said that Mr. Drysdale himself had told him. I might add, Mr. Godfrey, that I met Mr. Drysdale and the officers in the hall that morning as they were going away, and I implored him to tell them where he had been. He answered me with such insult and contempt that I thought he must be mad."

"And no wonder! You were playing at cross purposes. I presume, then, that it was not you who wrote Mr. Drysdale this note?" and he handed her the crumpled sheet of paper he had fished from Drysdale's wastebasket.

She took it with trembling hand; already beginning to suspect, perhaps, what it contained.

"'Be at the pergola at 9,'" she read. "'If I am late, wait for me. G.' I certainly never wrote any such note as that, Mr. Godfrey. Where did it come from?"

"Is it in your handwriting?"

"Why, yes," she answered, looking at it more closely. "That is, it is something like. Oh! I begin to see!" she cried, and I saw her seized with a sudden convulsive shuddering.

King is Afflicted With Wife's Family

Prince Got $10.000 Auto and Charged it to Italy's Sovereign

Rome, May 13.—Now that public attention has been directed towards the private affairs of various members of the House of Savoy, various rumors are pouring down on their devoted heads. The facts known to the general public with regard to the King and Queen, are that the mother, brother and sisters of Queen Helena, who had been visiting the Quirinal, because of the serious illness of the *Princess of Montenegro*, one day suddenly took to flight. It was a retreat in disorder so that they had to wait three days at Bari before being able to cross to Montenegro. Prince Danilo spent his last night in Rome at the Quirinal Hotel, and no one was at the station to see the party off.

The truth, I am assured on the best authority, is that the King has been rather long suffering in regard to his wife's family, and that an explosion had long been imminent. In the present case his patience almost found its limit one day when a bill for very fine and costly firearms was brought to him to be verified. As none of his household remembered the articles in question, the King replied that there must be a mistake, as he knew nothing of the firearms. But an investigation proved that they had been purchased by Prince Danilo in the King's name. The King kept his temper and decided it was not worth making a fuss about.

Next day the same court functionary appeared, with another doubtful account, this day for jewels to a considerable amount, it was found, for Princess Vera. After that the bills came thick and fast.

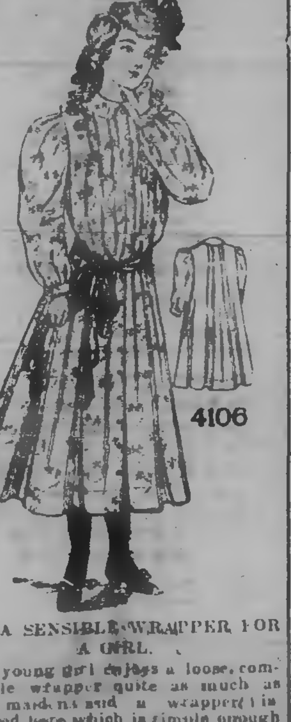
Thus the time passed, the King's gorge rising day by day until an account for $10,000 came for an automobile. Then, happening to meet his brother-in-law in a corridor, the King told him plainly what he thought of the whole affair.

"I have now," he said, "paid out exactly $50,000 for you and your sisters, which you have chosen to spent in my name, without saying 'by your leave.' The bank closes to-day, not a cent more."

Next day the only trace left of the visit of the Montenegrin family was a coolness between the King and Queen, which led, it is said, to her having a fit of sulks and refusing to meet the Queen of England.

RAISE LICENSE FEE ON ALL DOGS

In speaking of the proposed by-law which is to do away with dogs running at large, a prominent citizen said that one of the best ways to get rid of the dog nuisance was to raise the license fee to $2.00 for dogs and $5.00 for bitches. The number of people who would pay $5 for the latter are very few and they would be very careful not to let the animal out. This would at once prevent many disgraceful spectacles which are seen on the streets every day.



4106.—A SENSIBLE WRAPPER FOR A GIRL.

The young girl enjoys a loose, comfortable wrapper quite as much as older maidens and a wrapper is sketched here which is simple enough for the girl to fashion herself. Tucks simulating double box pleats at each side of the front and in back provide fulness for the skirt and they may be made quite attractive with feather stitching. The sleeves are long and loose, while the flat collar relieves the neck from all restraint. Lawn, percale and challis are suggested, but any seasonable fabric may be used, of which 3 3-4 yards 44 inches wide are needed.

4106.—Sizes, 4 to 14 years.

The price of this pattern is 10c.

Leave your order and 10c at the REVIEW OFFICE and pattern will be sent you by mail.

New I.O.O.F. Lodge at Burk's Falls

The Burk's Falls Arrow says: Mr. J. A. Tully, of Peterborough, representing the Grand Lodge of Ontario of the Independent Order of Oddfellows, was in town last week, and as a result of his work a new lodge of the I.O.O.F. will be instituted in Burk's Falls on the evening of Wednesday, May 29th, with thirty charter members. Col Johnston, Grand Master of the I.O.O.F., Toronto, and other Grand Lodge Officers together with visiting brethren from Huntsville and North Bay will be present. The Oddfellows is one of the best fraternal orders in existence and has done a noble work in comforting the sorrowing, visiting the sick, and relieving the wants of those in distress.

THE MARKETS.

CATTLE MARKETS.

Cables Unchanged—Heavy Receipts of Cattle at American Points.

LONDON, May 13.—Liverpool and London cables are steady at 11½c to 12½c per lb., dressed weight; refrigerator beef, is quoted at 9c per lb.

Montreal Live Stock.

MONTREAL, May 13.—(Special.)—At the Montreal Stock Yards' west end yards, receipts of live stock for the week ending May 11 were 1346 cattle, 88 sheep and lambs, 3217 hogs and 1854 calves. Supplies to-day for local consumption consisted of 1200 cattle, 30 sheep and lambs, 1800 hogs and 600 calves. A feature of the trade was the strong undertone to the market for cattle, an advance of ¼c per lb. paid in some instances by butchers for an extra choice steer, but for the average quality of cattle prices were firm but unchanged from a week ago. The feeling, however, is strong, and the general impression is that cattle will sell at higher figures between now and the end of June. Cables from Liverpool on Saturday were firm for cattle. The price showed no important change from a week ago, and on account of the high prices demanded here for choice stock, exporters showed little disposition to operate, and trade in this respect this morning was quiet. There was a large attendance of local buyers, and also a few from Quebec, consequently the demand was good, and, as the supply was not in excess of the requirements, an active trade was done. A few extra choice beeves sold at $5.85 to $6 per 100 lbs. Choice stock brought 5½c to 5¾c; good at 5c to 5¼c; fair at 4½c to 4¾c; lower grades at 3¼c to 4¼c per lb.

There was a firmer undertone to the live hog situation this morning in sympathy with the recent advance in prices, ranging from 2 to 5 per cent. for Canadian bacon in the Liverpool, London and Bristol markets. But, owing to the fact that supplies of hogs were fairly liberal, no advance in prices was established, but the tendency is no doubt towards a higher level. The demand from packers and dealers was good, and an active trade was done, with sales of selected lots at $7 to $7.25 per cwt., weighed off cars.

Supplies of sheep and lambs were small, for which the demand for local consumption continues keen, and prices were firm. Sales of sheep were made at 5¼c to 6c, and lambs at 6½c to 7c per lb., while spring lambs sold at $4 to $7 each. Calves continue to come forward freely, but the bulk of them are of very poor quality and not fit for human food. But, notwithstanding this fact, there is a demand for them at $1 to $2 each, while fairly good stock bring $4 to $6.

East Buffalo Cattle Market.

EAST BUFFALO, May 13.—Cattle—Receipts, 3800 head; heavy, slow and steady; others active and 15c higher; prime steers, $5.70 to $6; shipping, $5.25 to $5.65; butchers, $4.75 to $5.50; heifers, $4 to $5.35; cows, $3.50 to $4.75; bulls, $3.50 to $5; stockers and feeders, $3.75 to $4.75; stock heifers, $3 to $3.75; fresh cows and springers strong to $2 higher, $20 to $58.

Hogs—Receipts, 20,500 head; active; pigs steady; others a shade lower; heavy, $6.60 to $6.85; mixed and yorkers, $6.85; pigs, $6.85 to $6.90; roughs, $6 to $6.15; stags, $4.50 to $5.

Sheep and Lambs—Receipts, 14,500 head; active and higher; lambs, $5.50 to $8; a few, $8.10; yearlings, $7 to $7.25; wethers, $6 to $6.35; ewes, $5.25 to $5.75; sheep, mixed, $3 to $6.

New York Live Stock.

NEW YORK, May 13.—Beeves—Receipts, 3743; steers steady to a shade higher; slow for top grades; bulls steady; cows slow to 10c lower; steers, $4.50 to $5.90; stags, $4.40 to $5.15; bulls, $3.75 to $4.75; tops, $4.95 to $5.05; cows, $2.30 to $4.25. Shipments to-morrow, 310 cattle.

Calves—Receipts, 8805; market active, but 25c to 50c lower; veals, $5 to $7.50; tops, $7.60; culls, $4 to $4.50; mixed calves, $4.50.

Sheep and Lambs—Receipts, 8426; sheep steady; lambs 10c to 15c higher; spring lambs quiet; clipped sheep, $4 to $6; culls, $3 to $3.50; clipped lambs, $6.75 to $8; spring lambs, $3.50 to $5 per head; no prime stock here.

Hogs—Receipts, 14,381; market steady at $7 to $7.10.

Chicago Live Stock.

CHICAGO, May 13.—Cattle—Receipts, 29,000; market steady; common to prime steers, $4 to $6.60; cows, $3.25 to $5; heifers, $3 to $5.50; bulls, $3.50 to $4.60; calves, $2.75 to $6; stockers and feeders, $3 to $5.25.

Hogs—Receipts, 45,000; steady to 5c lower; choice to prime, heavy, $6.50 to $6.52½; medium to good, heavy, $6.45 to $6.47½; butchers' weights, $6.52½ to $6.57½; good to prime, mixed, $6.47½ to $6.50; packing, $6.10 to $6.45; pigs, $5.50 to $6.50; bulk of sales, $6.45 to $6.85.

Sheep and Lambs—Receipts, 20,000; steady; sheep, $4.25 to $6.10; yearlings, $5.75 to $6.75; lambs, $5.50 to $8.75.

James Leitch, chairman of the Ontario railway board, is confined to his bed with inflammation of the throat.

REFORM COLONIAL OFFICE.

Deakin Would Provide For Periodic Interchange of Officials.

London, May 14.—(C. A. P.)—The Canadian Associated Press learns that Premier Deakin at to-day's sitting of the conference will propose there should be a reconstruction of the Colonial Office so as to provide for a periodic interchange of officials between Downing street and the various parts of the empire.

The Canadian Associated Press understands it has been decided to publish in extenso the proceedings of the Colonial Conference; the publication will be at an early date but the speeches will require some revision before publication.

Mr. Winston Churchill, replying to a question said the Colonial Premiers made clear to the Government that as their policy was to protect their position from British and foreign competition they could not in any way reciprocate to the free unrestricted import afforded them in this country, on the other hand, His Majesty's Government were not prepared to place a tax on foreign imports for the purpose of conferring further advantages on the self-governing colonies.

Refuse to Become Citizens.

Ottawa, May 14.—Rev. Dr. John McDougall, commissioner to the Doukhobors, is in Ottawa to report to the Government. He says that owing to the decree that the Doukhobors must become citizens of Canada or live in reserves. Quite large tracts of land now held by them under favored conditions will be thrown open to settlement. After their eight years in Canada only about one-ninth of the Doukhobors decided to become Canadian citizens. The tenet they held to was, "God is our king; we cannot become subject to any earthly sovereign." Thus they refuse to become owners of the land they have tilled.

Train Derailed.

Columbus, Ohio, May 14.—Dashing through an open switch at Truro station, 12 miles southeast of Columbus yesterday, the West Virginia express on the Ohio Central Railroad, was derailed. One man, who was walking along the side of the track, was killed, Michael Martin, the engineer, who was pinned under his engine, will die, as will also Daniel Martin, the fireman, and an unknown woman.

Twenty Years for Burglary.

Winnipeg, May 14.—One of the largest penalties for burglary ever known to have been given here, was meted out to Fred Hawkins, alias Stevens, yesterday, when he was sentenced to 20 years in the penitentiary. Hawkins pleaded guilty to a number of daring burglaries.

SPORTING NOTES

Ottawa already has about a hundred roller hockey players. The game is becoming popular.

The American league has nineteen batsmen past the .300 mark; the National league has twelve.

At the annual meeting of the Bay of Quinte Yacht Club, H. S. Miller was re-elected commodore for the third year, and E. W. Sheriff, secretary.

Thomas Longboat, the Indian runner, has been made an honorary chief, of the Onondaga tribe of Indians, and has been given the name of 'Dayohonah, meaning "Dawn of Day.'

ACCIDENTS VS. FIRES
It is said that 20,000,000 accidents and illnesses occur each year, but only 80,000 fires.
A business man protects his property against the loss that rarely happens—fire. He can replace his property, but he can never replace his time or his damaged arm.
The most liberal accident and sickness policies are issued by
The General Accident Assurance Company of Canada
Our "Utopia" policy is the best and most unconditional Accident Policy on the market, and completely covers all loss of time from accident.
We issue a Sickness policy which covers every disease to which flesh is heir.
We are revolutionising the liability business by our "factory policy."

Trent Water Power Not for Kingston

It is Prophesied That City Will Not Receive it

It is prophesied that water power from the Trent or any other waterway will not be brought to Kingston a new place of meeting, the trustees the Kingston Whig. The locomotive works will always supply its own power. So will the hosiery and cotton mills. All these can use the surplus steam for heating purposes, and thus make the cost less than that for mere supply of power from water falls. When heating is an element in connection with an industry, it seems that the power and heat combined can be supplied quite cheaply.

In Kingston various places using power, require it only for short periods. They can turn it on, and shut it off when they desire, and pay for what they use. Power from the Hydro-Electric Commission is based on a twenty-four hour a day usage. According to Mr. Beck, if a store wanted one horse power, a certain sum would have to be paid. It would have to pay for the one horse power whether used two or twenty-four hours a day. A local merchant says he pays $75 to the city plant for power. On the Hydro-Electric commission plan he would have to pay $160.

However, it seems that it will be some years before any water power line enters Kingston. The rates of the local plant have been materially decreased, and as the business expands the rate for house lighting should in two or three years be reduced to eight cents a kilo-watt hour. No doubt the other rates could be reduced somewhat also. Kingston would then have no ground for kicking.

A number of merchants are waiting for the special rate promised by Alderman Toyce for outside electric lighting. If a low rate is given they will erect electric signs over and in front of their stores. No doubt the civic light committee will shortly consider this matter.

To get the best light from electricity the bulbs or chandliers should be renewed every six months. If the same old bulbs are allowed to continue in use year after year, dim light will result. Electric lamps have to be renewed just the same as coal oil lamp burners, and wicks.

The cheapest power is that obtained by means of a producer gas engine, and a suction gas producer. It is cheaper than steam, gasoline or any other power from fuel. This is the method that Mr. Bermingham advocated for power production on a small scale. Suction gas producers are made for as low as fifteen brake horse power. Their operation is very simple and they require little attention. Their use does away with the firing and attention needed by the steam boilers.

The pathetic side of the Thaw-White Case will be shown in magnificent moving pictures, at Scott's Colloseum, 432 George St. All parents should make an effort to be present to see these pictures and learn the moral necessity devolving on them, to enlighten their children as to what they may have to encounter in life, so that they can be prepared to resist the temptations that may beset them. Special effort has been put forward to get the moral effect of this great case and in doing so, great expense has been incurred, but admission price will be the usual five cents. Thursday, Friday and Saturday only, so come early.

Performances, 2 to 5 and 7 to 10 p. m.

BRICK WALL BLOWN DOWN

At G. W. Green's New Machine Shop—Damage Amounts to Several Hundred Dollars

The high winds yesterday afternoon caused considerable damage to Mr. G. Walter Greene's new machine shop on McDonnel street. The solid 12-inch brick walls were completed on Saturday, and the carpenters were busy making the frame work for the roof. The wind was blowing a great gale and between half past three and four o'clock a gust caught the rear wall and dropped it over into the lane in a heap. The brick wall is at the north end and ran up to a point, where the top of the roof was to meet it. There was also a big chimney in the centre of it, and everything down as far as the top of the main wall was blown over. The bricks, many of which were broken, are scattered all over the back lane. Several hundred fell with a crash on an old waggon and destroyed it beyond recognition. The whole rear end is in a bad shape. Two big cracks are visible and it will all have to come down. The expense will amount to several hundred dollars to say nothing of the loss of time. Fortunately no one was working near the wall at the time, or there would have been more serious damage.

HO! FOR TORONTO

On Saturday, May 18th, King's Plate Day. Return fare by G.T.R. only $2.05. Train leaves 7.20 a.m., reaching city at 10.10 o'clock, in ample time to get dinner and witness afternoon's attractions. Returning, train leaves Toronto at 7.05 p.m., reaching home at 10 o'clock. Tickets good until Monday. Secure your tickets at G.T.R. City Ticket Office, W. BUNTON, Agent.

REMOVAL

On or about May 22nd our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

Woman Says Ghosts Dwell In George Street House

Spirits Swiped a Hunk of Roast Beef From the Table While Family Were at Dinner—Also Caused a Butcher Knife to Travel and Are Playing High Jinks Generally.

GHOSTS! SPIRITS!

With the above two magic words haunting his brain a member of the Review staff went forth this morning to investigate a ghost story that came to the ears of that newspaper-round of duties to-day. The news man as he went about his usual came from a reliable source and did not end in a wild goose chase like so many tales of spirits have done in the past.

Having obtained the location of the house where the supernatural was said to be holding sway and doing all kinds of stunts from the purloining of a hunk of roast beef to the giving of life to a butcher knife the reporter hied himself thereto and had a chat with the lady of the house. And it was a strange tale that she told. The house is situated on George street in the central part of the city, and were it not for the fact that the Winnipeg Free Press got the worst of the deal a short time ago in a libel suit brought on by the publication of a ghost story, the Review would be glad to publish the number of the dwelling and the name of the woman who has been frightened by the spirits—not the kind that are handed forth over polished counters. Libel suits are unpleasant things and it is better to keep clear of them.

The reporter knocked at the door of the gray plastered building where the ghosts were alleged to be playing high jinks and on a middle aged woman coming to the door, explained his mission.

"Is this house haunted?" the feminine broke in. "well I should say it is and I'm going to get out of it just as quickly as I can get another place to lay my head. I'm not afraid of ghosts myself and wouldn't mind them being around if they didn't take to stealing. Why just yesterday I had the table all laid out for dinner for myself and my children and among the victuals on the table was a piece of roast beef. Now what do you think happened! We all happened to look away from the table at the same time and when we cast our eyes back on the table again that piece of meat was gone swallowed up by the table as it were. That's just as true as I'm telling you, that roast beef disappeared without sound or without us seeing it go."

The woman also told about the case of the travelling butcher knife. She said the butcher knife was in a drawer along with some other cutlery when she went to bed at night, and when she awoke in the morning it was under her pillow. Sounds are also heard in the night and the woman is firm in her conviction that the house is haunted.

The house is occupied by two women and a number of small children and they are not in a very comfortable frame of mind as some of their neighbors have been telling them that a woman was once murdered in the house. Of course this statement is without foundation, but it is adding to the woman's terror and making stronger their determination to secure new quarters.

Grandfather and Grandchild; They Can Celebrate Together

The birth of a daughter is not in the ordinary course of events, a matter that attracts much attention, outside the family circle concerned, but the coming into the world of the little six days' old girl of Mr. and Mrs. Harry Trollope, 862 George street, was attended by a feature that makes it of more than passing note. The child was born last Wednesday, and its mother, Mrs. Trollope, is a daughter, of Mr. Chas. Noyes, the well-known G. T. R. gateman at Charlotte street. Last Wednesday, curiously enough, was Mr. Noyes' birthday, he having been born in England, sixty years ago on May 8th, [illegible]. It is not often that a grandfather and a grandchild can celebrate their birthday together, but this is what Mr. Noyes and the wee Miss Trollope can do, although there is a difference of sixty years in their ages.

Despite his advanced years, Mr. Noyes is hale and hearty and should live to see his granddaughter grow up to womanhood. Although a native of England, he has been a resident of Canada for many years, and considers the "Land of the Maple" as good as the best of them.

Bulldog in a Savage Fight Lacerates Horse and Rider

Montreal, May 13.— A desperate fight between a man and a bulldog occurred at the Upper Lachine Road this morning and, as a result, Dr. D. A. Shirres, a prominent Montreal physician, is now confined to his home in this city with two badly lacerated feet, while his horse is in the stable with both hind legs bitten in many places. The horse was cantering along the road a little west of the toll-gate, when the dog ran from a residence and immediately sprang and fastened on the horse's hind quarters. The horse did his best to kick the beast off, and the doctor was on the point of dismounting in order to save the horse. The next instant the horse had kicked himself free and the dog then jumped for the doctor's left foot. The leather was bitten through and in less than half a minute the animal terribly lacerated the foot. The little toe was half bitten off and the next one will have to be amputated.

Infuriated by the fight the doctor put up, animal left him and made a fresh attack upon the horse and the same bitter fight followed. When the dog found himself kicked away he again sprang upon the doctor this time reaching the right foot and biting through to the bone.

Suddenly the horse bolted and went west at a terrific speed, the rider hanging on, despite the terrible pain he was in. Half a mile up up the road a farmer was passing and he called to Dr. Sherres, in reply to a query that a dog was following him. On went horse and rider for another mile, and by this time they had left the beast well behind

The doctors in attendance on Dr. Shirres, hope to prevent any serious complications.

Battery Had Its First Meeting

The 24th Field Battery had a good turnout at the first drill of the season at Central Park last night. Recruiting and the issuing of uniforms was about all that was done the work being in charge of Sergt.-Major Fee, assisted by the other officers.

The next drill will be held on Thursday evening at 7.30 o'clock when a full turnout is requested.

Mons. F. X. Mercier, the renowned tenor and artiste in grand concert here, May 21st

Mr. E. S. Lorimer Leaving Town

Peterborough people generally will regret to learn that Mr. E. S. Lorimer, who has been so prominently connected with the Canadian Machine Telephone Company here for several years, is leaving the city. Mr. Lorimer is packing his household goods and in a few days will go to Toronto, where he will make his headquarters. The factory where all the apparatus is manufactured is located in Toronto, and Mr. Lorimer will be able to work out his ideas for improvement there to better advantage. He will also be able to superintend the construction of all the apparatus turned out.

So great is the demand for the Machine Telephone that the Company is compelled to enlarge and double their capacity, and it is necessary for the inventor to be in Toronto. The exchange here is now in good running order, and it will be left in capable hands. The work of installing 'phones continues, and it will not be long before the required 300 are installed.

Mr. Lorimer has made many friends in this city. He is very highly respected by the business people and they will regret to see him leave the city.

LAST DAY FOR DISCOUNTS

The Peterborough Light and Power Company wishes to remind its customers, that Wednesday, May 15th is the last day discount will be allowed on April accounts. The office will be open during the evening of the 14th, and 15th, from 8 p. m. until 11 p. m.

Will Decide the Question To-night

A meeting of the officers of the 57th Regiment will be held this evening after the drill to definitely decide the objective point of the annual trip. This matter will be for once and all determined tonight as it has been hanging fire long enough. Brockville and St. Catharines each has sent pressing invitations and which point is selected will be no longer in doubt after tonight.

Major Hayes, who has just returned from a trip to St. Catharines states that Lt.-Col. Campbell, commanding the 19th Regiment, extended, through him, a very warm welcome to the Peterborough Rangers to visit St. Kitts on Dominion Day

Live Wire Close to Office Window

A professional man called at the Review office today and said; "Although I have repeatedly called the attention of the city officials to the matter, I cannot get any satisfaction About six inches outside of my office window on Hunter street there is a live wire and, now that the warm weather is here, I leave the window open. Any stranger sitting at the window, or a child playing there, if a hand happened to be put out, would touch the highly charged wire and receive a fatal shock I have given warning to the city authorities and others, until I am tired, and they cannot say that they have not been notified."

R. Parker, caretaker of Pickering College, has a white calf, two days old, with two well formed heads on one neck, two sets of eyes and two sets of jaws. It can bawl from either side.

Summer Attire; The Problem Solved

Semi-Ready Garments Afford a Wide Choice and Satisfy all Demands

Clothes do not make the man, but they certainly go a long way in that direction. To be well groomed is the privilege of everyone. It is not the number of garments, that a man buys, but the character and class of his habilimentary outfit, that gives evidence of good taste, judgment and care. In giving Peterborough gentlemen, the good name that they generally enjoy for being neat, smart dressers, no establishment has done more in catering to their wants, satisfying all the little niceties of style and providing clothes to fit all shapes of physique, than has Semi-ready wardrobe.

About three years ago, Mr. A. W. Cressman began handling this high-class grade of clothing, and the stock now carried by him is one of the most replete and representative to be found in the Dominion. His large premises, which in dimensions, are 23 by 100 feet, are the delight of all gentlemen who know what are the vital constituent parts of correct, stylish garments, and how to appreciate the many exclusive points and effects possessed by the ever popular Semi-ready suits and overcoats. When the alterations and extensions of Mr. Cressman's big departmental store are completed the Semi-ready quarters will be moved into the premises now occupied by Mr. John Nugent, druggist, which will be extended and specially fitted up for their reception.

Mr. Alfred Temple, an energetic and experienced clothing man is in charge of the department and is ably assisted by Mr. Fred Cressman.

Semi-ready garments have enjoyed a large sale in Peterborough and are increasingly popular. They have solved the art of making men feel and look at home in their clothes—giving them an ease and grace, in whatever they wear. The showing made this spring is exceptionally attractive, and all tastes can be easily and speedily gratified. Semi-ready clothing possesses so many superior points of excellence that it is impossible to enumerate all of them. Their strongest points probably, are their neat fitting and shape retaining qualities.

Every portion of each garment is fashioned by a specialist—an artist in his line, and owing to the perfect charts and type systems adopted, every physique can be becomingly and natilly fitted in a most satisfactory manner. The showings this season are elaborate and to visit the Peterborough wardrobe is an infinite delight — The unrivalled display in serges, worsteds and homespuns at once convinces the visitor that he has at hand an immense variety to select from.

The suits are shown in three and two pieces for summer wear. The choice in worsteds—grey, dark, medium or light—is fascinating indeed. The two piece suits—so popular and cool for summer wear—are all half-lined and show the same expression and distinctiveness about the back, front, collar and shoulders, as are evidenced in the coats which are lined throughout. The fronts are interlined with a special hair cloth, sewn over the shrunken linen canvas, which impart to them ideal shape retaining qualities. Everything is carefully hand moulded to give permanency and lasting appearance. Semi-ready garments are made to last There are endless choices in style as well as in fabric and pattern, in this season's selections.

Semi-ready garments have won an unsurpassed position and their prestige and exclusiveness, their uniformly satisfying qualities, their many little points of superiority over all other kinds of clothing are being daily added to.

A neat little brochure, entitled "Dress and address," may be had at the local wardrobe, for the asking. It is filled with pointers and good sound advice, and will materially assist in helping the average man in the problem how to be well and stylishly dressed at a very moderate outlay

HYDRO-ELECTRIC COMMISSION

Committee From City Council Will go to Toronto on Friday

The Hydro-Electric Committee of the City Council, will meet Hon. Adam Beck, and his Hydro-Electric Commission, representing the Ontarion Government on Friday. Mr. T. E. Bradburn, M. P. P., who has been in charge of the negotiations, received a telegram this morning from Hon. Mr. Beck, arranging the date for the meeting in Toronto. The local committee is composed of the mayor, Ald. Bradburn and Ald Stevenson, and the question they will take up with the Provincial Commission will be in reference to the purchase of the Peterborough Light & Power Company's plant.

Council Has Held Twelve Meetings

And Committee of Whole Eleven—Only 18 Monday Nights This Year

The aldermen this year have been "going some" as the boys would say. On the 16th of January, they met at 11 o'clock, and took their oath of office and adjourned until the evening. Since then there have been eighteen Monday nights, and there have been meetings of either the council or committee of the whole fifteen of those nights. The council has met twelve times, and the committee of the whole, eleven times. Very often of course, both council and committee met the same night.

There was only once this year that there was not at least eleven aldermen present out of a total of twelve, and it was seldom that all were not present. The Mayor has not missed a meeting.

This excellent record of attendance is due to the fact that at the beginning of the year, the mayor said he would not call a meeting of either the council or the committee of the whole except on a Monday night, unless there was something very special. This rule has been adhered to and the result is the majority of the council kept that night free.

NOTICE OF APPLICATION FOR LETTERS OF GUARDIANSHIP

Submit Matter to Arbitration

To the Editor of the Review.

Sir,—I observe that there is apparently no hope of an early settlement of the teamster's strike, which has now been programing for more than a week.

The continuance of the present state of affairs can bring no good to either the city or the strikers.

I would submit that the fairest and most speedy method of reaching a settlement is to submit the matter to arbitration. Let the teamsters select one man in whom they have perfect confidence, the city another, and the two men thus chosen agree upon a third. I do not think there would be any costs in connection with arbitration proceedings as there are prominent and worthy citizens who would be willing to give their services gratuitously, in the interests of peace.

Hoping that my suggestion will be adopted, I remain, yours, etc.,

PROGRESS.

Prices 10c, 20c and 30c

QUESTIONABLE METHODS

To the Editor of the Review.

Sir,—The subjoined letter I have had the honor to receive, shows the methods used by the Examiner.

I am, sir,

Yours obediently,

W A BAILEY

Mayor's Office,

Peterborough, Ont.

April 27, 1907

W A Bailey, Esq.,

City.

Dear Sir,

I duly received your card of the 23rd inst., with regard to an item which appeared in the Examiner, purporting to be a letter received by Chief Rozzel. I have spoken to the chief about the letter and he informs me that the Examiner reporter overheard him reading the letter in the station and promised him that he would make no use of it and that this promise was broken by the Examiner. Both the chief and I regret very much that publicity should be given to such letters. I am much obliged to you for having drawn my attention to it.

Yours truly,

(Signed) R. F. McWilliams,

THE CITY AND VICINITY

EVENTS TO-NIGHT

City Council chamber. — Board of Trade

57th Regiment — regular weekly drill.

Grand Opera House.—Marks Bros in "A Wife's Devotion."

George street church. —Meeting of Quarterly Official Board.

Testing of fire engine at corner of Brock and Aylmer streets at seven o'clock.

BOARD OF WORKS.

The Board of Works will meet tomorrow night as usual.

HOTEL CHANGES.

Mr. Fred Dettman, proprietor of the Dunbar house, Kinmount, for many years, has retired in favor of his son George, who is now in possession. Mr. D. McKenzie, of the Northern hotel in the same village, has purchased the property from the former proprietor, M. Jas. Scott, of Peterborough, paying $7,500.

TAKE IT TO "MY VALET."

If you have a spring suit you would like to have cleaned, ready to put on when the weather permits "My Valet" will clean it properly, press it and send it home. Both phones. Wesley Bros., 204 Charlotte-st. dtf

MERCHANTS MET.

There was a good attendance at the meeting of the executive of the Retail Merchants' Association last night. The question discussed was the proposed banquet and arrangements are on foot to make it a big success. Particulars will be given later.

SINGLE FARE.

Bills have been issued by the railway companies advertising special rates for the 24th of May. This year a person may leave on Thursday or Friday, and return as late as Monday the 27th, for single fare. This is a five days' visit with your friends, and there will undoubtedly be very heavy traffic on all trains.

DIRECTORS MEET.

A meeting of the directors of the Peterborough Agricultural Society will meet in the president's office, Friday evening at eight o'clock, sharp.

BOARD OF TRADE

There should be a large attendance at the Board of Trade this evening. Important matters will be discussed. Dr. Morrison, the new president, will preside.

BROTHERHOOD OF ST. ANDREW.

A meeting of the combined chapters will be held in St. John's school on Wednesday evening next at 8.30. Special business, "The Winnipeg Convention."

HEAVY HEIFER.

A heifer weighing 1320 lbs., passed the market scales today. It was raised in Otonabee and was bought by Mr. Kemp, who will have some choice beef for sale.

CITY PARKS OPEN.

The City Parks were opened yesterday for the season. The sod is good and firm now, and the grass is coming along nicely. Driving can now be indulged in through Jackson Park.

SWITCHING RATES

Railway switching rates will be discussed at the meeting of the Board of Trade this evening. The public is cordially invited to attend. The meeting will be called at eight o'clock at the City Council Chamber.

COLD UP NORTH.

Mr J. G. Hardill, traveller for T. Kinnear & Co., has returned from an extended trip to Haliburton, Bancroft and other points. He reports that on Saturday last the ground was covered with snow and that the farmers have done little or no seeding as yet.

CIRCUS COMING.

Forepaugh & Sells Bros. great united shows will be in Peterborough on Tuesday, June 25th. Mr. Fred A Morgan, of Chicago, the advance agent, was in the city yesterday making all the arrangements for the visit of the big circus.

NEW DIRECTORY.

The Canadian Machine Telephone Co. have just issued a new directory. The number of subscribers is rapidly increasing. There are now about 250 and each time a new directory is issued it shows a large number of new names.

SILENT SALESMAN.

The Peterborough Show Case Co., Mr H. Dunlop, manager, has just installed a handsome, silent salesman, in the office of the Oriental Hotel. The improvement is decidedly attractive and is one that will be appreciated.

A NUISANCE.

The town will be indicted for maintaining a nuisance if a drain is not put in and the waterlet off from a fever-breeding pond in the town park, in which a bullfrog band give nightly concerts. A half day's work of one man would get rid of the trouble.—Lindsay Post.

IMPORTANT TOPICS

At the Board of Trade this evening, which will be held in the City Council Chamber, Mr. D. Hughes Charles will give an address on "Banking," while Mr. A. P. Pousette's motion regulating the foreign investments of banks will be discussed. All members should be on hand

MERRY GO ROUND.

A farmer, who was driving into the city this morning in a gig, had a funny experience at the corner of Queen and Hunter Streets. One of the reins broke and the farmer kept pulling on the other one, keeping the vehicle going around in a circle. It would have been going yet, had not someone stopped the horse.

COOKED MEATS

SAVE KITCHEN BOTHER

—they're wholesome and economical. During house-cleaning time Cooked Meats fill the bill without a cross word. Try Kennedy's Roast Beef, Cooked Hams, Potted Veal, Jellied Hock, etc., nicely sliced and ready for the table.

Kennedy's Beef, of course, recommends itself; we cut only the best home-dressed cattle.

Let us supply your table with KENNEDY'S PURE BLENDS OF CEYLON TEAS AND COFFEES.

PERSONAL

Mr. M. P. Kinsella, of Ottawa, is in the city.

Mr. J. H. Southeran, of Lindsay, is in the city.

Mr. Herbert Harris left yesterday for Rochester, N.Y.

Mr. McGill Mowat, of Trenton, is in the city on business.

Mr. L. Graham left last night via the C.P.R. for Calgary, Alta.

Mrs A. A. Nash, of Portland, Oregon, is visiting Mrs. R. A. Dutton.

Mr. L. M. Hayes has returned from spending a few days in St. Catharines.

Messrs. J. B. Dow and R. J. G. Dow, of Whitby, are in the city on business.

Mr. Jacob Brown has gone to St. Paul, Neb., where he has secured a position.

Mr. Eustace Bird, of Toronto, architect for the Dominion Bank, was in the city yesterday.

Mr Charles Ackerman and Mr. George Lundy spent Sunday with friends in Campbellford.

Mr R. J. Begley, of the Star Clothing House, is able to be around again, after suffering with a scalded foot. —Lindsay Post.

Mrs (Dr.) H. A. Wood, corner of Charlotte and Stewart streets, will receive on Wednesday afternoon of this week, and not again this season.

Capt. H. E. Corey, of Petrolia, and Mrs. Peter Campbell, of Peterborough, were visitors at the Canadian High Commissioner's office, London, previous to May 3rd.

Mr. Byron Greene, of the Bank of Montreal, left to-day for Lindsay where he will spend a few days relieving one of the clerks in the bank of that town.

Mr. Charles Rochereau de la Sablière and Mr. J. H. Tennant, of Toronto, were in the city yesterday, looking over the plant of the Canadian Machine Telephone Co.

Rev J. E. Trotter, formerly of Peterborough, was called away today to Woodstock, where a younger brother is very low and not expected to rally.—Port Hope Guide.

Stuart Lazier, one of this year's graduates from Queen's School of Mining, has been appointed to a position on the Trent canal, Peterborough, and left for that city yesterday.—Kingston Whig.

Mr Adam Dawson rested comparatively well last evening, and his condition was reported about the same today. Mr. Dawson is not making as rapid advancement towards recovery as his many friends would like to see.

Mr Forsyth, the recently engaged organist of the Cambridge street Methodist church, will reside in the dwelling formerly occupied by Mr H. Dingle, on Sussex street, north.—Lindsay Post.

Messrs. E. H. D. Hall, J C Shook and G. M. Roger left yesterday for Chicago, Denver and Southern California. They will return via the Pacific Coast, Vancouver, Winnipeg, and other cities. The party expect to be absent about six weeks.

Mr. and Mrs. R. F. Howson, of Calgary, Alberta, formerly of Teeswater, Ont., announce the engagement of their daughter, Miss C. Louise Howson, to Rev. Harry H. Cragg, B.A., son of Rev. Edward Cragg, of Brighton, Ont. The marriage will take place in June.—Montreal Star.

A very pretty wedding occurred last Wednesday, at the home of Mrs. B. Guthrie, Peterborough, when her daughter, Miss Annie, was united in marriage to Mr. Arthur J. Gibson, of Regina. The ceremony was performed by Rev. J. G. Potter, in the presence of a large number of guests. Mr. and Mrs. Gibson left immediately after the ceremony and arrived here the first of the week.—Regina correspondent of Winnipeg Free Press.

Excursion Via

Canadian Pacific Ry.

Hidden Skin Troubles

Have you on some part of your body a sore, or eruption, or ulcer, or eczemous patch which, hidden from the gaze of others, yet causes you hours and hours of pain and inconvenience? Have you tried this, and that, and the other remedy in vain, and are you feeling disheartened and discouraged? If so read the following instances of Zam-Buk's healing power, and apply it to your case:

"I had an ulcerated leg for several years. The ulcers spread all round the limb, which was swollen to nearly twice its normal size. Several doctors treated me. One suggested amputation. None did me any good. Zam-Buk healed the sores!" So says Mrs. Gilmour, of Princess St., Kingston. Or, read this:—

"My mother tried many things for abscesses and eruptions, but in vain. In Zam-Buk she found a complete cure." So says Miss A. Coggill, of Wapella (Sask.).

Sufferers from these "Hidden Skin Troubles" of any nature should profit by such experiences as this. Zam-Buk is seen at its best when applied to cases which have defied ordinary treatment. Write for trial box, and test it at our expense

Free Box

Send this coupon and 1c stamp to Zam-Buk Co., Toronto, with name of this paper, and free trial box will be mailed you. 6 Z 1

ZAM-BUK

THE GREAT SKIN-CURE.

ZAM-BUK AND A MIRACLE OF HEALING

Over and over again Zam-Buk has performed a miracle of healing when applied to sores and skin injuries which have refused to heal under any other form of treatment. Why not let it heal your trouble? Immediately Zam-Buk is applied to a sore or wound or diseased portion or flesh it commences its work in two directions. It anoints the exterior, and its antiseptic properties prevent any germs and bacilli from creating trouble. Then the herbal essences and juices so finely purified and concentrated, penetrate the subjacent layers and stimulate the weakened or diseased cells to active, healthy operation. These cells then put forth their "Building" products and replace the diseased outer layer with fresh and healthy tissue. By degrees the whole diseased surface is thus replaced by new healthy skin.

In this way Zam-Buk cures cuts, burns, bruises, ulcers, abscesses, itch, eczema, eruptions, pustules, scurvy, salt rheum, blood poison, and other forms of skin trouble. Zam-Buk also cures piles, varicose ulcers, etc. All druggists and stores sell at 50c per box, or from Zam-Buk Co., Toronto, for price. 6 boxes $2.50.

City Council Passed Many By-laws And Discussed Committee Reports

Lot of Time Spent on the Board of Works Report—Communications Received—Two Applications for Reduction of License Fees for Merry-go-round and Ocean Wave--Ald. Bradburn Appointed to Fire, Water and Light Committee.

For over three hours last night the city council did routine business. There was quite an accumulation and the aldermen all seemed to see how much they could pick out of the committee reports to gain fuller information on. This took up a lot of time and by the time the end of the bylaws was reached it was time to go home. It was decided, however, to extend the time, and another half hour was spent in general discussion of a couple of little matters. The committee of the whole did not meet and there will be no meeting until two weeks hence The aldermen will have a holiday next Saturday, Sunday and Monday, probably Friday also.

The members present were Mayor McWilliams in the chair. Ald. Phelan, Morrow, McIntyre, Duncan, Morgan, Bradburn, B Stevenson, Leary, Elliott, Tovey, Johnston and Wilson

The minutes of the last meeting were read and confirmed.

COMMUNICATIONS.

The following communications were received and dealt with;

A letter was received from the city market clerk, Mr. W. McIlmoyle, asking the council to allow him to sell the right to a merry-go-round on the market square, without any additional cost of the license at $20 for the first week and $10 a week thereafter. The market clerk said he received an offer from a local citizen and he closed a bargain with him, but the license for such things would prevent the bargain being executed. —No action taken.

Mr. Wm. Hefferman wrote the council asking that he be allowed to run an "Ocean Wave" at Jackson Park this summer. He did not mind paying a license, but he could not afford to put up $20 the first week and $10 a week thereafter. He referred to the street railway company getting the toboggan slide for the winter at $10 and that, he claimed, was a better proposition than the Ocean Wave. Besides he had to pay wages to two men as well as his own.—Finance Committee.

From the police commissioners, asking the council to pay Geo. Meharry at the rate of $500 per annum so long as he is on the police force.—Will be paid.

From the Board of Health asking the council to furnish the sanitary inspector with street car tickets. —Finance Committee.

From the Board of Education, asking that the taxes on part of lot 2, plan 33, Cedar street, be remitted, as that property belongs to the Board.—Finance Committee.

From the Salvation Army Band asking the city to grant the band $200, for the purpose of purchasing new instruments, music, etc. —Finance Committee.

From O'Connell and Gordon; "Wm O'Connor Brown, of Toronto Junction, was injured while in Peterborough on the evening of May 7th, opposite No. 338 Aylmer street. Mr. Brown was very seriously injured and we propose to bring an action for damages against the corporation, for the neglect of the corporation their servants and agents, for leaving the street and sidewalk in such a condition that a person would sustain personal injury. The solicitors then offered to settle for $350.—Legal Committee.

The usual petitions for sewers and walks were received and referred to the Board of Works.

COMMITTEES REPORT

The chairmen of the respective committees read the reports from the fire, water and light committee, the property committee, Board of works and finance committee.

FINANCE

The finance committee reported as follows;

That the debentures to pay for sewers constructed in 1905 and 1906 be transferred to the City Trust Commissioners for disposal.

That a bylaw be passed to issue debentures for $12,000 to pay for the Ward No. 5 outfall sewer and the expenses connected therewith, the debentures to be for 30 years and to bear 4 1-2 per cent. interest, and that the committee be authorized to sell them.

That the following accounts be paid;

BOARD OF WORKS.

Upon recommendation the Council decided to do the following street work,—

Dickson Street—Street to be brought to grade. Sidewalk on west side to be higher than on east side.

Auburn Street—Crossing at Mrs. Curtin's.

Murray Street—A drain across the street at the Court House.

Water Street—Culvert at Mill Street.

Mill Street.—To be repaired.

Water Street—To be widened at Colonial Weaving Co.'s factory, with the consent of the City Trust Commissioners.

Water Street north—To be repaired. A crossing at Argyle street.

George Street—To be repaired where needed north of Smith Street.

Stewart Street—To be graded and rolled north of Hunter street.

Homewood avenue—To be graded and rolled.

Weller street—To be graded and rolled.

Gilmour street—To be repaired.

Park Street—To be repaired south of Townsend street. A plank sidewalk from Grand Trunk Railway to Romaine street.

Romaine Street—To be graded west of Park Street.

Rink Street—Sidewalk east of Aylmer Street, to be raised.

Hall Street—To be gravelled.

Clause 17 of the Board of Works report caused a great deal of discussion and many motions and amendments, which finally wound up with the clause going back to the committee. The clause was as follows,—

"That the sidewalk on Mark street, south of Hunter street, on the west side be built inside the trees, and on the east side, outside the trees, and north of Hunter street, inside the trees."

What all the trouble was about was the fact that the residents on Mark Street, south of Hunter street, had built their houses too close to the street line, and they wanted the walk outside the trees, so as to give them a little lawn in front. The residents north of Hunter street, all wanted the walk inside the trees.

Moved by Ald. Morgan, that the crossing at the corner of Mark street west side, be changed to outside the tree line.

Moved by Ald. Morrow and Ald. McIntyre that the people on Douro street, be asked to decide whether they want the walk inside or outside the tree line.

It was moved in amendment to the amendment, that Hunter street be the dividing line, and the walk be built north and south according to their wishes.

In amendment to the amendment the clause was referred back to the Board of Works Ald. Stevenson and Ald Johnston moved it and it carried.

No other motion was put.

On motion the chairman of the Fire, Water and Light Committee was instructed to see that Mr. Wainwright has an engineer's certificate qualifying him to run the fire engine before his increase in salary takes effect.

Moved by Ald. Phelan and Ald Morgan that a report from the City Engineer be asked on the condition of the hose used on Romaine street sewer. Carried.

MANY WANTS.

Mr. Porter of King street, appeared before the council and asked for a sidewalk in front of his property. He also mentioned that he wanted a sewer and wanted his neighbors closets moved away, and as there were four within ten to twenty feet of his very doors.

Mr. Porter was recommended to put in a proper petition for himself and the Council would give him a walk. He was also advised to get after the Water Commissioners and the Board of Health, and he would receive all he desired.

COMMITTEES CHANGED.

Owing to the resignation of Ald. Leary it was necessary to appoint another man in his place. It was therefore decided to arrange a transfer of committee men. Ald. Bradburn consented to change from the Manufacturer's Committee, and as Ald. Leary was satisfied, the following motion was passed,—

Moved by Ald. Morrow, seconded by Ald. Johnston that Ald. Bradburn's name be placed on the Fire Water and Light Committee, and Ald. Leary be placed on the Manufacturer's Committee.

BY-LAWS.

The following bylaws were passed.

Bylaw, No. 1307, was a bylaw authorizing the increase in the salaries of the drivers and engineer of the Fire Department.

Bylaw No. 1308, was a bylaw to provide for fire escapes on certain buildings.

Bylaw No. 1309, was a bylaw prohibiting spitting in public places.

It was moved by Ald Stevenson and Ald. Phelan that the bylaw be referred to the Committee of the Whole. When a vote was taken it was a tie and the mayor voted for the bylaw.

Bylaw No. 1310, was a bylaw to amend the bylaw, No. 395, passed in 1879, regarding the obstruction of streets and sidewalks.

Bylaw No. 1311, was a bylaw to amend bylaw, No. 1285, regarding the displaying of goods on the streets.

Bylaw No. 1312, was a bylaw to authorize debentures for $12,000 to pay the cost of the Ashburnham outfall sewer.

Bylaw, No. 1313 was a bylaw authorizing the execution of a lease for a carter's shelter.

Bylaw, No. 1314, was a bylaw to aid the Rapid Tool Company.

Moved by Ald. Johnston, seconded by Ald. Duncan, that the sanitary inspector be instructed to visit between Antrim Street and Edinburgh street, and on Gilchrist street, and have them cleaned up. Also the pond back of Kinnear's.—Carried.

PUBLIC LAVATORY.

Ald. Wilson suggested that while the council was tearing down and rebuilding the old fire hall, a public lavatory be furnished. He moved that the property committee include this in their plans in altering the old fire hall.

Moved by Ald. Elliott and Ald. Morgan that the teamsters be paid $3.75 when drawing from the pit, and $3.50, when drawing street scrapings.

Moved in amendment that the Council adjourn.—Carried.

The Canada Gazette publishes the regulations governing the operations of the Cold Storage Act, and giving the forms under which application must be made for the subsidy.

Wood's Phosphodine,

The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. Popular Young Man Leaving the City

Mr. Harry Huffman, who has been connected with the local branch of the Bank of Nova Scotia, since it was first opened in this city, has been transferred to the Toronto branch and leaves this evening to assume his new duties. For the past year or more Mr. Huffman has filled the positions of teller and accountant in the local branch. He has performed his duties in such a creditable manner that he is receiving promotion to Toronto. Mr. Huffman is widely and popularly known in this city, where he has a large number of friends, who, while they are glad to learn of his rapid promotion, will regret very much his departure. No one has as yet been appointed to fill Mr. Huffman's position here.

HONORED THEIR VETERAN EDITOR

Mr. F. R. Yokome's Silver Anniversary Commemorated

Twenty-five years, a quarter of a century is a long time for a man to be employed with one firm, especially in journalism, where there are many ups and downs, but this was the record completed yesterday by Mr. F. R. Yokome, editor of the Examiner. Mr. Yokome's silver anniversary of his connection with that paper was fittingly celebrated last evening, when the members of the editorial and business office staff gathered at Hooper's Palm Gardens and enjoyed a repast together. The affair, which was an informal little banquet, was presided over by Mr. R. M. Glover, business manager of the Examiner, who, by the way, has been connected with that paper for the past sixteen years, and the feature of the gathering was the presentation of a handsome silver tobacco bowl to Mr. Yokome, and of a bouquet of roses to Mrs. Yokome. The presentations were made by Mr. M. J. Hutchinson. Short speeches congratulating the veteran editor on his good health and mental vigor were made by all those present, and the wish was expressed that he might hold down the editorial chair for many more years.

Mr. Yokome made a suitable response

Fruit Cleaners Now Made in the City

Mr. R. B. McGill is Interested in a Splendid Invention

Mr. R. B. McGill left today for London, Stratford, Brantford and other places where he will install Excelsior Fruit Cleaners in wholesale grocery establishments. The invention is for cleaning dried fruits of all kinds, and in connection with it is also a dipping plant, which Mr. McGill is the representative of, and has placed in a number of premises. The Excelsior Fruit Cleaner was formerly manufactured in Peroria, Ill., and later at Mount Pleasant, Ont., but it will now be manufactured in Peterborough.

The woodwork will be turned out by one of the canoe companies of the city, while the patterns will be furnished by one of the moulding shops. Mr. McGill reports a large sale for the fruit cleaners, and is meeting with great success in placing them on the market.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness, caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Mrs. Richards Again in Police Court

Charge Against Her and Her Husband Dismissed

At the police court this morning Peter Esthuxan was charged with being drunk in a public place last night. Peter could speak very little. As far as one could make out he is working for a farmer in Otonabee and came to the city yesterday and got drunk. He said that he wasn't intoxicated; he was only sleeping. His Worship allowed him the benefit of the doubt and dismissed him

Mrs Richards and her husband were again in court this morning. The charge against them was being disorderly, judgment of which was reserved on previous occasions. His Worship discharged the couple this morning and told them not to appear again. It is alleged that they had another big row at their house last night. Mrs. Richards was somewhat the worse of liquor this morning and was very talkative. She also was charged with not having a tag for her dog. She was ordered to get one at once. It seems that she has everything to say in looking after the family affairs, as her husband stood by and never let a murmur out of him. They walked out of the court together and wended their way along Simcoe street. They created much amusement for those who had the pleasure of hearing them. Mrs. Richards soon got rid of her husband and then came back to George street. Her husband got into a rig and drove off. That was the last seen of them.

C.P.R. Brakeman In an Accident

Hand Caught in the Coupling and one Finger Was Split

In the C.P.R. yards yesterday afternoon, Mr. P. T. German, of Toronto Junction, a brakeman on a freight train had his hand caught in the coupling. The train was from the east, bound for the Junction and stopped here to drop off a couple of cars. During the switching German was looking after the couplings and he had not finished when the engine started to move. His right hand was caught and one of the fingers was split so badly that it is doubtful if it can be saved. He was taken to Dr. Gray's office, where the wound was dressed, after which he was taken on the train to his home at Toronto Junction

Improvements at the Hospital

St. Joseph's Will Have New Operating Room—Elevator to be Installed

Extensive improvements will shortly be made at St. Joseph's Hospital, which will add materially to the efficiency and convenience of that institution.

A new elevator of the most up-to-date character will be installed, while the operating room, now located on the ground floor, will be removed to the top flat, where it will be specially fitted up. There will be plenty of sunlight for the new operating room, which will be provided with a glass roof.

Mr. C. Rutherford will have charge of making the necessary changes to the interior for the elevator shaft and will begin work in a few days.

The alterations will involve a considerable outlay, but will be appreciated by the friends and patrons of the hospital.

Annual Meeting of Cheese Board

Will be Held To-morrow — Also First Sale of Cheese

The first sale of cheese on the Peterborough Cheese Board will be held tomorrow. The annual meeting of the Board will be held at ten o'clock for the election of officers, and the first sale of cheese will take place immediately after. The meetings will be held in the Bank of Montreal—old Ontario Bank—chambers.

Extension to Lake St. Church

Rutherford Bros. Have Begun Work on $7,000 Addition

The work of enlarging the Lake St. Separate school has begun.

Excavation has been going ahead for some days. Rutherford Bros. have the contract and expect to complete the job in ample time so that the two extra rooms afforded by the extension may be used after the mid-summer holidays. The addition is 31 x 80 feet, two storeys high and will be of white brick. It is located immediately south of the present building.

The extension will contain two class rooms, 27 x 57 feet, stairways, lavatory and cellar. New floors will be placed in the school throughout and a new system of heating installed. The building will be heated by the Pease hot water system. The improvements, when completed, will make the structure thoroughly modern and up to date in every respect, and relieve the congestion of several rooms caused by the rapid increase of the number of pupils in that part of the city. Rev. Father McColl, Superintendent of Separate Schools, is supervising the improvements

Will Test Fire Engine To-night

At the Corner of Brock and Aylmer Streets at Seven O'clock

This evening at seven o'clock, the fire alarm will be sounded and the new grey team of horses will be hooked to the new fire engine and hustled off to the corner of Brock and Aylmer Streets, where it will be given a trial. This is the first time the grey horses have been hooked to the engine, and it is not known just what they will do.

The engine will, however, be at the corner of Brock and Aylmer streets, and the general public is requested to turn out and witness the trial. After the practice is over the steamer will be taken to its new quarters in the fire hall, and the horses will be put in the stalls there.

AMUSEMENTS

ROSE OF KILLARNEY.

It was a crowded house that greeted the opening of the Tom Marks Dramatic Co.'s weeks engagement at the Grand Opera House last evening. The Irish drama "The Rose of Killarney," was presented as the opening attraction and won merited applause from the large audience. It is presented in five acts, and one is kept in fits of laughter from the rise to the fall of the curtain. Mr. Tom Marks, in the leading role, as "Teddy O'Mally proved himself to be a comedian of no mean ability. His true portrayal of this funny, old, Irish servant, kept his audience in fits of laughter, whenever he appeared. Mr. Jack Marvin as Capt. Fitzwilliams, a villain, and Chris. C. Allen, as Daniel Carey, an innocent man who is charged with murder, played their different roles, exceedingly well.

Miss Millie Desmonda and Miss Carrie Garlow as Mrs. Mulligan and Mrs. O'Mally brought down the house in the fourth act by laughable imitation of an Irish wake. The other players all took their parts in a capable manner.

The specialties were of an exceptionally high order. Mr. Chris. C. Young's fine baritone voice, was heard to good advantage in illustrated songs.

The musical act was probably the best feature of the evening. Another good specialty is the lady who sings in four different voices.

Miss May Rowe and Mr. Harry Codare provided great amusement by their funny songs and stories. The moving pictures were also good.

Tonight the company will present 'A Wife's Devotion' with entirely new specialties.

An Absolute Cure for Rheumatism

If the skin or bowels are unhealthy, they won't throw off enough urea. This urea is changed into uric acid—carried by the blood to the nerves—and causes Rheumatism.

Fruit-a-tives surely cure Rheumatism and Sciatica

because they act directly on bowels, kidneys and skin—and so strengthen and invigorate these organs that there is no urea and uric acid retained in the system to irritate the nerves and bring Rheumatism, Sciatica and Neuralgia.

"Fruit-a-tives" are intensified fruit juices with tonics and intestinal antiseptics added.

50c. box—6 for $2.50.

CROP PROSPECTS

Adverse reports are published regarding the crop prospects in Europe and this continent. In both hemispheres a shortage, especially in wheat, is prophesied. The causes assigned are unfavorable conditions the past winter, bad weather and insect depredations since spring opened.

We know that this estimate will hold good for Ontario. The winter wheat has suffered seriously since the snow left in March. The cold weather which has generally prevailed has proved too much for the tender growth and a considerable portion of it has died. In the Northwest the weather has been anything but favorable thus far. Winter has simply been continued up to near the present in Manitoba, Saskatchewan and the eastern and northern parts of Alberta. Of course, it is possible for Ontario and our western provinces to have good crops this season. There is ample time yet to sow spring wheat. Late sowing for this cereal has resulted in an abundant yield. In the west there is certainly the danger to late sowing from early frosts. But this danger has been less, as the country has been more fully opened up. For oats, barley and root crops there is yet amply time to put the seed in.

The fact that there is much of last season's crop on hand should keep down prices, and cause an easy feeling in regard to the future supply. The price may, no doubt, will advance, but this will bring more gain to the farmers, and in part compensate them for any deficiency there may be in this output this year.

A CONDUCTOR'S SENTENCE

The sentence of the three years' imprisonment in penitentiary imposed by Judge Riddell upon Joseph Thompson, who was conductor of the fruit special in collision with a freight train at Gournock last September, in which three lives were lost, is an unusual one, and from its severity, establishes a precedent in the placing of responsibility in railroad accidents. The evidence, deduced, says the St. Thomas Times, went to show, not only that Conductor Thompson was physically exhausted by long hours, but that he was wilfully negligent in allowing his train to run on the time of a train coming in the opposite direction. Knowing this, Conductor Thompson, after directing his engineer to proceed, retires to his van and forthwith falls asleep, to be awakened only when the crash of the collision aroused him. So far, Thompson would seem to have been criminally negligent, but there are other features of the case which may be called extenuating. Under the rules he was entitled to a rest of eight hours every sixteen hours. If Thompson was physically exhausted, why did he not take advantage of this rule to secure his needed rest? Was it because of the additional remuneration to be derived by continuing on his run, or was it because he was in danger of losing his position, or of suspension, if he refused to work the extra hours without rest and sleep? If there is an unwritten law that an employee who insists upon having his necessary rest when the company desires him to continue work, is liable to incur the displeasure of the company, manifested by suspension or dismissal, then it would appear that the company alone is responsible, for whatever disastrous results may follow. No man should be put in the position of choosing between suspension or dismissal and the risk of accident and personal penalty. The law that imposes a severe penalty on an employee for negligence should also hold the employers to account for contributing negligence, and remove any possible excuse an employee might have for assuming responsibility for which he is physically unfit. The sentence imposed upon Conductor Thompson is a severe one, but perhaps not too severe if it accomplishes the abolition of conditions which, to a large extent, make possible the almost daily tragedies that have for so long shocked and horrified the world. There is a strong flavor of justice in Judge Riddell's remarks in his address, where he says:—

"To my mind the persons who ever permitted you to work nineteen to twenty-four hours per day, day after day, five days in the week, were guilty of a gross wrong; the persons who made rules and regulations under which this was possible, are themselves almost or quite as guilty morally, perhaps legally, as yourself of the death of these three poor victims. And I shall cause to be sent down to crown authorities a copy of the proceedings of this trial, with a recommendation that all proper investigations be made and that the persons responsible, no matter what their position may be, be proceeded against, so far as the criminal law permits. It were wrong to punish an employee and allow the employer to go scot free where both are at fault."

CRISIS IN INDIA

Mr. Saint. N. Sing, a journalist from the Punjab, who has been for some months on this continent, studying the political systems of Canada and the United States, sends an interesting account to a Toronto paper regarding the present situation in India. He states that the people do not desire separation from the British Empire, but self-government, and in this regard he says:—

"India only insists that India must have autonomous government—that India shall be for the Indians. The crisis has come. India stands at the parting of the ways. India has developed love of liberty, learned to riot in the luxury of self-sacrifice, mustered intensity of will, strength of desire and depth of feeling, taught herself the uselessness of revelling in her glorious past, resolved to have a brilliant future for herself. Such an India not the dreamy, Nirvanic India of days gone by, demands vehemently, persistently and insistently that India shall be for the Indians. Her people declare coolly that the Government alone can survive in her borders that will study the Indian's interests first and foremost. That India's demands are reasonable and just all fair minded people will admit. Justified or unjustified, such are India's insistent demands, anyway.

These demands must be fulfilled. There will be a revolution in India. The present Government of India is bound to be swept away like the flimsy cobwebs, ruthlessly thrust aside by frenzied gales. The autocracy, the despotism and the bureaucracy, of the Indian Government is hopelessly doomed. The death knell has been irrevocably sounded.

Slowly but steadily has India forged the power to snap her bonds, silently and unostentatiously has she worked to inspire patriotism and love in the minds of her people. To-day India stands metamorphosed. To-day not only the Punjab but the entire country is in the throes of the revolution.

The revolution will be bloodless. England will meet the demands without obliging her people to press them at the point of fixed bayonets. England gave autonomy to Australia, Cape Colony, Transvaal and Canada, without bloody demonstrations. England will deal with India justly."

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

THE TEAMSTERS STRIKE GOES ON

Council Refuses to Relent—Ald. Leary and Ald. Duncan Scrap

The teamsters' strike is still on and will continue until the teamsters agree to take what the city is offering, viz., $3.50 per day. Ald. Leary, who has championed the strikers from the first, endeavored to open the question last night at the council meeting. He asked the aldermen to reconsider their decision and to grant the teamsters the sum they are asking.

The result of the efforts of Ald. Leary was that he was severely called down by Ald. Duncan, chairman of the Board of Works. Ald. Duncan stated that Ald. Leary's only reason for supporting the teamsters was because he was sore about the street commissioner refusing to hire any of his teams, as he was a member of the council.

Ald. Leary denied that he had been turned down. He said that at the first of the season he applied to the commissioner, who pointed out to him that he could not draw a cheque while he was in the council. This ended it and the alderman made no further attempt to get his teams on the corporation.

Ald. Duncan also informed the council that Ald. Leary had a team on the corporation work, and put on a boy to drive instead of a man.

"I paid that boy $1.50 per day, every day rain or shine," replied Ald. Leary.

The two aldermen threw a few more complimentary remarks at each other and the incident closed by a motion to adjourn.

Smallpox Broke Out in Some Thirty Different Centres

Dr. R. W. Bell in the City Speaks of the Good Effect of Vaccination—Most of the Cases Were in Western Ontario—Only One Death From Scourge—Very Few Cases East of Toronto.

Dr. R. W. Bell, of Toronto, formerly of Peterborough, provincial inspector of the Ontario Board of Health, is in the city.

Dr. Bell has just returned from Leeds and Grenville counties where he has been looking after several cases of a mild type of smallpox which are now properly isolated and will be stamped out. The disease is not of a malignant nature.

During the past few months the doctor has been a very busy man and has visited some thirty different centres of the province where smallpox broke out. He reports that there have been some 400 or 500 cases in all but the disease has generally been of a mild character, and only one death has resulted. In many municipalities the outbreak has been first diagnosed as chicken-pox and for that reason had gained more ground. In Lambton, Wellington, Huron, Essex, Middlesex, Bruce and other counties the disease had made its appearance, but generally, after its character became known, the steps to isolate and eradicate it had been prompt and effective.

Dr. Bell saw 88 cases fifteen days Huron county. Three weeks ago there were fifty-four cases in that district. There have been only a few cases north of Toronto and practically none in the east up to the present time.

"I am pleased to say," continued Dr. Bell, "the lumber camps and shanties have been free of the disease this year, and the various lumber companies deserve great credit for the sanitary condition of their surroundings. The men have been well housed and well cared for."

Speaking of vaccination as a prophylactic measure, Dr. Bell has great faith in this means of warding off the scourge, and instanced many cases in different centres where those who had been vaccinated, had escaped the disease. In one family of eleven members in Huron county four persons had smallpox and the seven others of the household, who had been vaccinated, escaped. It was the same story in numerous other families.

Dr. Bell stated that although the disease throughout the western part of the province had been of a mild type, this did not relieve the local Boards of Health of taking the most prompt and vigorous measures as to isolation and quarantine, and while a few councils had been backward, he had generally seen that they adopted all the usual precautions.

According to the inspector the general health of the province is good at the present time.

Anti-Spitting By-law Passed; Offenders Will be Fined $50

Starting with today any person caught expectorating upon the sidewalks or in any building frequented by the public, they will be liable to a fine of $50 or six months in gaol. This is the text of the bylaw passed by the city council last night.

Some time ago Ald. Leary brought up the question of spitting on the walks. He referred to the loafers around street corners, the post office and in door-ways, who expectorate tobacco juice all over the walk or any other place where it happened to strike. He said it was a most disgusting habit and should be prevented. In many other cities and towns bylaws have been passed and the nuisance has been abated to a great extent. There was no reason, he claimed, why it should not have the same effect here.

The majority of the council were at that time in favor of the bylaw and the city solicitor was accordingly instructed to prepare it for last night's meeting. When it was introduced by Ald. Leary, Ald. Morrow pointed out that it could not be enforced, and in a few weeks there would be a deputation asking that it be repealed, the same as the box bylaw.

But the bylaw was read and was carried and will now be enforced. Hereafter if you spit on the walk you are liable to be fined. Walk over to the edge of the street and spit in the gully.

The bylaw is as follows;

The corporation of the city of Peterborough enacts as follows;

"It shall be unlawful for anyone to spit on the sidewalks, or pavements of any of the streets of the city of Peterborough, or in the passageways, stairways, or entrances to buildings used by the public in the said city, or in any rooms, halls buildings or places to which the public resort in the said city, or in any street cars or public conveyances in the said city.

Any person guilty of a violation of this bylaw shall, on conviction thereof, be liable to a fine not exceeding fifty dollars and costs and in default of payment thereof, the said fine and costs, six months in the county gaol.

Street Railway Co. May Extend Their Line to the Kincaid Farm

Rumor States That Mr. McNamara Has Offered to Give 12 Acres of Land Free for Park Purposes—An Ideal Spot for a Park—Would be a Popular Resort

There is a very bright prospect of the Radial Railway Company opening a second park for summer attractions. It is rumored that Mr. M. A. McNamara is prepared to give to the street railway company free, 12 acres of land for park purposes. The land referred to is part of the Kincaid farm, and includes that very pretty little grove on the river bank, about a mile below Crawford's Grove.

This is an ideal spot and the street railway company should not hesitate a minute in accepting it. They will never get a better opportunity and it will be a money maker from the start.

All Mr. McNamara asks is that the company extend its tracks to the park and provide some attractions and amusements for the people. For this purpose, a better site could not be secured. It is just the right distance from the city. Everyone will have to take the cars, or go down in the small boats, and they are limited, and hundreds of citizens would go down every night merely for the sake of the ride in the open air. The land is in splendid condition and would require very little fixing up, and it has the additional attraction of being by the river.

The great trouble with Jackson Park is that it is too close to the city and about half the people who go out to see the moving pictures, walk. If the park was down the river, this would not be.

It is also rumored that the street railway company intended to conduct the two parks and provide special features in both. If this is carried out the young people of the city will be furnished with splendid accommodation for the summer.

Several Cottages Were In Danger at Clear Lake

Fire Raged in Dickson Company's Woods Near Sandy Point—Flames Circled Around Mr. Williamson's Cottage and Y.M.C.A. Cook House But They Were Not Damaged--Fire is Still Burning.

Fire, which broke out in the woods of the Dickson Lumber Company, in the vicinity of Sandy Point, Clear Lake, on Sunday afternoon, yesterday threatened to destroy the cottages of several Peterborough people who spend the summer there. The buildings that were in danger, were the cottages of Messrs. G. H. Williamson, R. B. Rogers, C. N. Brown, and E. A. Peck, and the Y.M.C.A. cookhouse. The fire raged around Mr. Williamson's cottage, and the Y.M.C.A. cookhouse and it was exceedingly lucky that they were not destroyed. For a time it looked as if the cottages of Messrs. Rogers and Peck, were doomed, but the flames veered in another direction, and latest advices from the scene of the fire indicate that none of the buildings will be destroyed. The fire will not result in a great deal of damage, as the woods in which the flames raged are composed to a large extent of second growth stuff, and underbrush.

CAUSE OF THE FIRE.

The fact that there was fire in the woods was first noticed on Sunday afternoon, by Mr. Frank Ayott, a farmer who resides in the vicinity. Mr. Ayott saw two men walking by his house and a short time afterwards noticed smoke rising in the bush some distance back from the shore of the lake. In a little while the flames were shooting up and it became evident that the fire was going to be serious. The two men who were seen in the vicinity, must have been smoking and thrown a lighted match or the stub of a cigar away. The ground was covered with leaves and a spark would be sufficient to set the fire going.

THE LOCATION.

The Dickson Company's property stretches back from the lots along the west shore of the lake, and embraces a large area. The heavy timber on the land was taken off several years ago, and only second growth and underbrush now remains. The woods are very thin towards the shore of the lake, and it was fortunate that such was the case, or the cottages would certainly have been destroyed. At first it was thought that the fire was not going to approach towards the shore of the lake but yesterday, about noon, it was noticed that the flames were creeping down towards the cottages and word was sent to their owners in Peterborough. Mr. Wm. Dickson, of the Dickson Lumber Company, and Mr. Dingman of the Y.M.C.A. left for the scene of the fire, and spent several hours in the vicinity of Sandy Point, returning late last night. It looked at one time yesterday afternoon, as if the Y. M. C. A. cookhouse and Mr. Williamson's cottage could not escape, as the fire was burning all around them, and several times was only a few yards away, but the wind was blowing off the lake and the grass and underbrush in the vicinity of the buildings were rather green, and the fire gradually died out in that immediate locality.

UNDERBRUSH WAS GREEN.

On account of the green underbrush and clearing, the flames did not reach any of the other cottages, and as far as could be learned this afternoon, they are not in any further danger. The fire is still burning in the woods, a considerable distance back from the shore of the lake, and as there is no way of putting it out, it will have to be let run its course. It is not causing much loss, however, as it is principally underbrush that is being destroyed and it is of course of no value. There is an occasional large tree, but they are not numerous.

MR. MACFARLANE IN CHARGE.

Mr. MacFarlane, a farmer who resides in the vicinity, and who looks after that portion of the Dickson Company's property is looking after the fire to see that it does not spread to any of the cottages.

Mr. C. N. Brown left for the scene of the fire this morning, but had not arrived home at the time of going to press this afternoon. Mr. Brown's cottage is situated on the lake shore some distance north of Mr. R. B. Rogers, which is located about a quarter of a mile, north of Sandy Point, where Mr. Williamson's cottage, and the Y.M.C.A. cookhouse are situated. Mr. E. A. Peck's cottage is northeast of Mr. Brown's and Mr. John Carlisle's summer home, is some distance from Mr. Peck's.

A GREAT SIGHT.

Those who were in the vicinity of the fire last night describe it as a great sight. The flames shot up into the heavens and at times, resembled a display of sky rockets. The sky was illuminated for many miles around, and the sight was one of rare beauty.

BAND CONCERT ON JUNE 7th

57th Band Will Appear in Victoria Park

The 57th Regiment Band will give the first band concert of the season in Victoria Park on Friday evening, June 7th. This will be the first of the regular series of concerts to be given during the summer and commencing on the above date the band will play in the park every Friday night, weather permitting.

The Bandsmen have been rehearsing a large number of new selections, which will be played during the summer. The public can expect something good when Mr. Gliddon and his musicians get busy again.

Made a Canadian Salute Old Glory

Man Who Called Stars and Stripes a Dishrag Was Threatened With Bath.

Detroit, Mich, May 13. — A Sunburry, Pa., despatch says;

George J. Pogg, a Canadian, employee at a local mill, alleged to have called the United States flag nothing more than a dish-rag was compelled by an angry crowd last night to salute the emblem and carry it on a pole several miles during which the paraders frequently threatened to throw him in the Susquehanna River.

He was led to the centre of a bridge crossing the stream, a man on one side of him carrying a rifle, and another with a noose. He was threatened by the mob with drowning. The enraged crowd surrounded him as he said; "I made the remark in ignorance of American respect for the flag of your country. I am very sorry."

He was released amid hisses and groans.

EXAMS TIME TABLE

The time-table for the Departmental examinations of 1907 has been issued by the Education Department.

The examinations for Junior and Senior Matriculation, Junior and Senior Teachers, Commercial Specialists, and Art Specialists, will begin on July 2nd.

Cigarette Cost Ninety Lives;

Mexico City, May 14.—A fire supposed to have been started by a cigarette thrown by a miner into an abandoned drift, caused the loss of ninety lives, according to a special received from Torreon, Coahuila, by the Associated Press. The fire started in the Cornethas shaft of the Tornero mines in Velardena, State of Durango, on Friday night. There were 107 men working in another part of the mine and only 17 of them are believed to have escaped. Thirty-five bodies have been recovered, according to the latest reports, but as the fire is still raging it is feared that few others, imprisoned, will be found alive. The part of the mine in which the fire originated, it is said, was extraordinarily dry, and it is believed that the man in throwing away his half burned cigarette, allowed it to drop in a bunch of waste.

A blaze was the immediate result and this quickly conveyed itself to the adjoining timbering.

The fire had gained great headway before it was discovered. The miners found that all avenues of escape had been cut off. Seventeen, however, made a dash and reached the outer air. Rescuing parties have been working heroically, but only charred and unrecognizable bodies have thus far rewarded their efforts.

The shaft, in which the fire is still raging, is one of a mine which is a group of the largest copper producers in Northern Mexico. The Guggenheimer's interests are said to own the property. Owing to the remoteness of the region, it has been difficult to get details.

FOR THIS WEEK

We will offer you the greatest value ever offered in Peterborough, in 5c and 10c Wall Papers with 16 yards Border to match, at the same price.

Roller Hockey Club Organized

Officers Elected at Meeting Last Night—Prospects are Bright

Peterborough Roller Hockey club is the latest addition to the sporting organizations of the city. It was brought into existence at the Charlotte street rink last night when the following officers were elected:—

President.—S. J. Sheridan.

Vice-President.—J. Seymour.

Sec.-Treas.—S. Gibbs.

Manager.—Walter Miller.

Committee.—F. Clancy, Geo. MacDonald and H. Staunton.

The players have entered into an agreement with the management of the rink whereby they can buy skates at a reasonable price and they will have the use of the rink free of charge for practices. It is proposed to practice two or three nights a week.

Much enthusiasm prevails among the players and there is no doubt but that they will become quite skilful at the game and in a few weeks be able to take on some of the Toronto, Ottawa or Montreal teams.

Mr. Sheridan, who spent several days in Ottawa last week, informed the meeting that a game could be arranged with one of the Ottawa teams at any time.

The local club has a set of able officers and should meet with every success.

THE TURF

The Ontario Jockey Club have determined says a Toronto paper, to accept the terms of the option given them on the Woodbine track, and will pay Mrs. J. J. Dixon, $150,000 for the property, which includes nearly sixty acres of land, and thirty of water lots, and which is assessed at $1,500 per acre. With the closing of this transaction, the Club will become the absolute owners of the property in connection with which they have during the last twenty-five years, expended something like $150,000 in improvements. It is estimated that in reclaiming about six acres from Ashbridge's Bay, the land being that on which the back stretch of the two tracks, made by the club now is, $75,000 was expended. The marshy infield has also been made firm. The total assessable value of the property is $114,865, of which $25,000 is for buildings.

The property was purchased in 1870, by Mr. Jos. Duggan for $5,250, and transferred to Mr. J. J. Dixon as trustee for Mrs. Susan Duggan, and subsequently to Mrs. Annie N. Dixon, the consideration in each case being $1.

PETERBOROUGH RAG AND METAL COMPANY

MILLER'S TEAM CANNOT COME

Owing to the fact that Mr. John Miller's team for Australia, cannot visit Peterborough to play the locals on May 24th, the Peterborough Club is endeavoring to arrange a game with some good intermediate team. Arrangements are now being made with this object in view.

Junior Schedule is Drawn Up

Special to the Review.

Lindsay, May 14.—The schedule for the district of the Junior C.L.A. in which the Peterborough Shamrocks are grouped, was drawn up at a meeting here today. Only two teams will be represented in the district, Peterborough and Oshawa. Lindsay and Port Hope will not have teams this season. Mr. W. Metheral represented the Peterborough Club, and a double schedule was drawn up as follows;

June 15, Shamrocks at Oshawa.
June 22, Oshawa at Peterborough
July 6, Oshawa at Peterborough.
July 13, Peterborough at Oshawa.

BASEBALL

The Peterborough Baseball Club will have a practice at Riverside Park this evening. A large number of the players were out last night and had a fine workout.

MR. EMMERSON'S PLANS

St. John, N.B., May 13.—Hon. H. R. Emmerson passed through here this afternoon en route to Fredericton from his home in Dorchester. There is a story that he intends entering action for criminal instead of civil libel, against Mr. Crockett, editor of the Fredericton Gleaner and Mr. Emmerson was asked about this. He said he had nothing for publication, but added: "I resigned my position to vindicate myself, and that I can do. After I have done so I expect to resume the work which I was doing, and I believe there is in this Province a general desire that I should do so."

Premier Pugsley returned home today from Montreal and Ottawa. Asked with reference to surveys to be made by Mackenzie & Mann for the proposed St. John Valley Railway, the Premier said he was informed that survey parties would commence work in about a week.

As the result of satisfactory interviews with Vice-President D. B. Hanna of the C.N.R., at Winnipeg, track employees have been given an increase, amounting to an average of 30 cents a day for all ranks.

Appeal for New Trial Dismissed

Interesting Suit Over the Possession of Some Oak Lumber

Osgoode Hall reports today contain the following of local interest;—

Still vs. Hastings.—E. F. B. Johnston, K.C., appealed from order of a Divisional Court (13 O.L.R. 322) setting aside non-suit and directing a new trial in an action for malicious prosecution. Plaintiff is the owner of a saw mill, carrying on business at Burk's Falls, defendant is a lumber dealer. Plaintiff was prosecuted by defendant for the theft of some oak lumber and was acquitted. Evidence was given to the effect that the plaintiff took defendant's lumber from the latter's yard by his permission, in the carrying out of a bargain for an exchange. The trial judge ruled that there were no facts in dispute requiring determination by a jury, and that upon the undisputed facts plaintiff had failed to establish a want of reasonable and probable cause. The Divisional Court held that, plaintiff having admitted taking the lumber, but sworn that he had done so with defendant's consent in exchange for lumber of his own, it must be assumed that the exchange was actually made, and belief of defendant when laying the information in the guilt of plaintiff, necessarily implied his having forgotten that he had made such an exchange, and, such forgetfulness not being admitted, was a question of fact for the jury, and, so, the existence in the mind of defendant of an honest belief in plaintiff's guilt. Defendant contended that the ruling of the trial judge that upon the undisputed facts plaintiff had failed to establish a want of reasonable and probable cause was right, and the non-suit should be restored. D. O'Connell, Peterborough, for plaintiff, contra. Appeal dismissed with costs

DRUG CLERKS' HALF HOLIDAY

The drug clerks of the city are demanding a weekly half holiday. It is understood that they will make an official request at a meeting of the druggists of the city to be held tomorrow when several matters of interest to the trade are to be considered. The clerks will likely demand Thursday afternoon off. They feel that they are entitled to a half holiday as they have long hours and are closely confined during the time they are on duty. The dispensers of pills and other drug store decoctions did not have a half holiday last year, but they are hopeful that their request will be granted.

ENTERTAINED AT WHIST

The Bridge club met yesterday afternoon tea at Mrs. Pepler's and many exciting games were played. There is still another meeting before the winners are decided upon. The players are: Mrs. Max Dennistoun, Mrs. J. Brydges, Mrs. Pepler, Mrs. MacDuffie, Mrs. C. M. Taylor, Mrs. G. M. Black, Mrs. Kohl, Mrs. P. A. MacDonald, Miss Smith, Mrs. Farrell, Mrs. W. Bain, Mrs. Botterell, Mrs. A. Bain, Mrs. Howell and Mrs. Whitehead.—Winnipeg Free Press.

LAST DAY FOR DISCOUNTS

The Peterborough Light and Power Company wishes to remind its customers, that Wednesday, May 15th is the last day discount will be allowed on April accounts. The office will be open during the evening of the 14th, and 15th, from 8 p m. until 11 p. m.

LOCAL NEWS ITEMS

DAN SPENCE COUNCIL.

A meeting of Dan Spence Council R.T. of T., will be held in their hall George street, tonight. A full attendance of the members is requested and prospective members are also invited to be present.

BYE-ELECTION.

The Provincial Cabinet yesterday decided upon the date for the bye election in West York, to fill the vacancy caused by the death of the late Hon. J. W. St. John. The nominations will take place on Saturday, May 25, and polling on the following Saturday, June 1st. The returning officer will be Mr. John J. Koefler, editor of the Weston Times.

A BAD FALL.

Helen, the two year old daughter of Mr. Wm. McIlroy, Aylmer Street, while playing in the yard yesterday morning in stepping off a walk, about five inches high, fell and dislocated her right arm at the wrist and elbow. The child is getting on nicely although suffering considerable pain.

LAID TO REST.

The funeral of the late, Willie G. MacDonald, the seven year old son of Mr. S. MacDonald, took place this afternoon at 2.30 o'clock from the family residence, Downey street to Little Lake cemetery. The funeral was largely attended, all the Sunday school teachers and scholars of the Salvation Army turning out to pay their last token of respect to the deceased. The S. A. Band was also in attendance. There were a large number of floral offerings.

WILL AVOID THIRTEEN.

Mabelle Gilmon and W. F. Corey, will be married in the Hotel Gotham, New York, just after midnight of May 13; that is to say, at 12.15 o'clock on the morning of May 14. Thus will the hoodoo of 13 be avoided, a point which has been worrying the superstitious friends of the bride and groom. After the ceremony supper will be served and then Mr. and Mrs. Corey will take an automobile to the steamer Kaiser Wilhelm. They will spend their honeymoon in Corey's Paris chateau.

THE NEW YORK STOCK MARKET

New York, May 14.—A vicious bear drive at C.P.R. livened things up in the stock market this morning. The opening price was 173 a loss of 1 7-8 over last night, and under continued hammering the price was forced to 169 5-8, when some recovery set in. The break was said to be caused by bear pressure from London, where short sellers of the stock do not need to borrow it until the next make-up day, May 28th. The reason assigned was the lateness of the winter wheat crop in Western Canada.

The general market showed good resistance as a whole and declined but fractionally. B.R.T. was in good demand and advanced sharply. There was no news of importance bearing on values. Wheat, after opening a couple of cents higher, declined 3 or 4, and later rose again on bad weather reports from the Northwest. Foreign grain markets were lower, excepting Antwerp, which closed higher. The closing prices for wheat were but little changed from yesterday.

Stock reports were quiet in the afternoon, but held their ground. The closing was dull and firm.

Young Men's Guild Was Organized

An enthusiastic meeting of the young men of Knox church was held last night. A Young Men's Guild was organized and starts out with the brightest prospects. A large number of the young men were present. Rev. H. J. Keith occupied the chair. The election of officers for the new Guild resulted as follows.—

President—Rev. H. J. Keith.

Vice-President—Mr. Herb McCannan

Secretary—Mr. Campbell Stewart.

Treasurer—Mr. Ruben Lang.

Religious Committee—Messrs. W. Burns (convenor); S. Brownlee, Dave Porter, Roy Lang and Carruthers.

Athletic Committee—Messrs. W. C. Galley (convenor); McGill, Rodman, Smith, White, Hamilton Burns, Killingbeck and McKenzie.

Social Committee—Messrs. D. Campbell, (convenor); Lang, Burns, Carruthers, McKenzie and Brownlee. Three associate members of this committee are Misses Anderson, Hamilton and Clifford.

It is the intention of the Guild to entertain the congregation at a social gathering in a few weeks. The Guild will also have a baseball team, and, if a third league is formed, they intend entering. The first practice of the team will be held on Thursday evening, in their field on Charlotte street, which has been kindly given to them by Mr. J. W. Bennett for the purpose of playing ball.

The newly organized Guild have already commenced to fix the lot adjoining the church, where the rink was situated, into a suitable tennis court. The club intend to play tennis as well as baseball, and the young ladies will also have an opportunity to participate in the game.

Rev. Mr. Keith is both an enthusiastic ball and tennis player, and is doing a great deal to interest the physical as well as the spiritual interests of his congregation.

The grounds will soon be ready for the tennis players.

REV. R. E. KNOWLES RETURNS

Galt, May 13.—Rev. R. E. Knowles, the well known author and minister, who was injured in the Guelph railway wreck last February, returned on Saturday from a two months' sojourn in the South for his health. Mr. Knowles occupied the manse pew at the morning service in Knox yesterday, the service being taken by Rev. E. Cockburn. The floral decorations in welcome to the returning minister, were elaborate. Mr. Knowles is still disabled, and it is quite uncertain when he will be able to resume his duties. Rev. E. Cockburn, of Toronto, will continue in charge.

Specialist Will be at Peterborough May 15th to 30th

After a most successful visit in his capacity as teacher of opticians, the Specialist, J. W. BROWETT, will return from Toronto on Wednesday next to his home office at our store. Hundreds of persons took the opportunity of his visit to have their eyes examined for glasses, and now we bespeak a BUSY TWO WEEKS IN PETERBOROUGH. Mr. Browett's work is so thoroughly satisfactory and is getting to be known in this city where he has made his home and headquarters. We are booking appointments for May 15th to 30th.

McDERMID & JURY'S DRUG STORE, PETERBOROUGH.

CHEESE BROUGHT HIGHER PRICES

Brockville, Ont., May 13.—At the meeting of the Brockville Cheese Board held here Saturday, Messrs. Hibbert and Jones, of Montreal, and M. K. Everetts, of Smith's Falls, discussed at length the question of the shipping of green cheese from Canada.

Mr. Hibbert expressed the opinion that the date of the manufacture of every cheese should be branded on the article itself. Mr. Everetts thought the buyers were very much at fault, as they should know what they were buying. He maintained that as long as there was a demand for this class of cheese a supply would be found. Mr. Jones endorsed the branding idea.

A committee was appointed for the purpose of securing reduced transportation rates for salesmen.

The offerings were only 2,180, about equally divided, a somewhat small showing for the Brockville section in the second week of May. This is due to the prevailing backward season.

The sales at Saturday's board were slow though prices were high, only 700 boxes, or less than half the offering, were sold. The first bid and call of 12c. made by Bissell, effected no sales. Subsequent bids of 12 1-8c., 12 1-4c., 12 3-8c., and 12 1-2c. were equally unsuccessful, until Webster took 50 boxes colored at the latter price, and Patton took 200 white and 125 colored at the same price. After that four bids of 12 1-2c were refused, when Bissell offered 12 9-16c taking 250 white and 75 colored, which constituted the total sales on the board for the day.

On the curb trading was active on a basis of 12 9-16c. and 12 5-8c. with the latter ruling. A few factories brought as high as 12 11-16c. The total sales are figured at 4,300 boxes, as compared with 5,015 for the corresponding week last year. The ruling price then was 11 1-8c.

Belleville, May 13. — Offering of cheese on Saturday were 1,485 boxes white and 30 boxes colored. Sales were 325 boxes at 12 1-2c and 1,085 boxes at 12 7-16c.

Picton, Ont., May 13. — At the cheese board Saturday 17 factories boarded 770 boxes, all colored. All sold at 12 3-4c.

Russell, Ont., May 13.—The Russell cheese board held their first meeting Saturday night; make very small, 200 cheese boarded; 12 1-2c. offered; none sold on board; usual buyers present.

Winchester, Ont., May 13.—At the regular meeting of the cheese board held there Saturday night, 230 boxes colored, and 455 boxes white were registered; 120 boxes white sold at 12 5-8c. Five buyers present.

Vankleek Hill, Ont., May 13. — There were 312 boxes of cheese boarded and sold on the Vankleek Hill cheese board Saturday. All sold at 12 5-8c.; four buyers present.

Cornwall, May 13.—At the Cornwall cheese board Saturday, 492 boxes were boarded, 352 white and 140 colored. All sold at 12 1-4c. The light factory inspection vs Montreal inspection, was won by the salesmen, and all the bids were for factory inspection. It was decided to ship the cheese along sold at 12 1-4c. The fight, factory instead of by rail, as in the past.

Crysler, May 13. —At the cheese board 478 boxes white and 70 colored were boarded. White all sold at 12 1-2c. but seller of colored would not accept 12 3-8c. for his lot. Motions and amendments for sale and payment of cheese at car and by factory inspection only, were defeated, and it was resolved to continue sales of cheese as heretofore on cheese board.

London, Ont., May 13.—At the regular weekly meeting of the cheese board held here Saturday, 848 boxes were offered; 805 colored, balance white. No sales. Bidding 11 to 11 7-16c.

Cowansville, Que., May 13.—The butter market showed a decided downward tendency Saturday, while cheese advanced. There were boarded 840 boxes of butter and 246 boxes of cheese. Sales of butter, 693 boxes at 21 3-8c., 133 boxes at 12 boxes at 21 3-8c., 133 boxes at 21 1-4c., and 85 boxes at 21 1-8c. Remainder unsold. Sales of cheese, 17 boxes at 12 9-8c, 83 boxes at 12 5-16c 104 boxes at 12 1-4c. and 42 small cheese at 11 1-2c. Cheese all sold.

St. Hyacinthe, May 13. —At the butter and cheese board Saturday 236 boxes of cheese sold at 12 13-16c and 736 boxes of butter sold at 21 1-4 to 21 3-8c.

NOTICE TO CREDITORS AND NEXT OF KIN

In the Matter of the Estate of the Late Anne Jane Telford.

NOTICE is hereby given pursuant to Chapter 129 of the Revised Statutes of Ontario (1897) that all Creditors and others having claims against the Estate of the said Ann Jane Telford, who died on or about the first Day of December, 1906, are required, on or before the 1st Day of June, 1907, to send by post prepaid, or deliver to the undersigned Solicitor for the Administrator of the said Estate, their Christian and surnames, addresses and descriptions, the full particulars of their claims and statements of their accounts, and the nature of the securities if any, held by them.

And further that the persons claiming to be next of kin according to the Statutes for the Distribution of Intestates' Estates of the said late Ann Jane Telford, formerly Ann Jane Lytle, at the time of her death of the Township of Smith, in the County of Peterborough, Province of Ontario, but previously of the City of Peterborough, in the said Province, living at the time of her death or claiming to be the legal representatives of such of said next of kin as have since died, are to send their claims with the proof thereof to the said solicitor on or before the said first day of June next.

And notice is hereby further given that after such last mentioned date, the said administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and that the said Administrator will not be liable for the said assets or any part thereof, to any person or persons of whose claims notice shall not have been received by him, at the time of such distribution.

Dated the 30th day of April, 1907.

Spring Meeting of Cemetery Directors

A meeting of the directors of Little Lake Cemetery Company, was held yesterday afternoon. President, Mr. W. H. Moore, was in the chair. Mr. W. G. Morrow was elected a director in place of Mr. R. M. Dennistoun, resigned.

It was decided to hold the annual spring meeting at the grounds, tomorrow, Thursday, afternoon, when the improvements to be carried out this season will be decided upon.

Go to Toronto on Saturday by Special Canadian Pacific Train, leaving at 10 a.m., returning at 11.30 p.m., or any regular train on Saturday, Sunday or Monday. Special fare is only $2.05. See the King's Plate and Jersey City and Toronto Baseball teams play.

Prosperous Year for George Street

Encouraging Reports Were Presented Last Evening

The last meeting of the Quarterly Official Board of George street church was held last evening. The pastor, Rev. Dr. Crothers, presided. The reports of the Sunday School and the Epworth League were presented and were most encouraging. The latter report showed that the League had raised $135 for mission work, and the Chintu College, in China. The sum of $21 was also contributed for the Chinese famine fund.

The report of the membership showed that there had during the year been a net increase of 23, the number of members now on the roll now being 669.

Messrs. A. W. Cressman and Wm. Yelland were appointed delegates to the district meeting to be held in Mark street church on May 22nd.

The local preachers appointed were Messrs Wm. Might, Wm. Eyres, G. H. Williamson, H.P. Lindsay, J. L. Richmond and George Doupe.

The class leaders of the church were duly examined and re-appointed for the coming year.

The following stewards were elected;—A. W. Cressman, T. W. Robinson, S. R. Armstrong, B. F. Ackerman, D. W. Dumble, B. Shortly, H. C. Stabler. Mr. A. W. Cressman is recording steward. It was decided that the pulpit of the church should be occupied by local preachers during the absence of Rev. Dr. Crothers at Conference.

It was also decided to try and secure the services of a deaconess to work in conjunction with the pastor and assist in visiting the sick and the afflicted.

George street church during the past year has made great progress, and all the reports presented were of a most gratifying character.

SERVICES APPRECIATED

The following is the resolution of appreciation passed to Rev Dr Crothers. It was moved by Mr. B Shortly and seconded by Mr. A W. Cressman,

That at this last quarterly meeting in the pastorate of Rev. Dr. Crothers, this board desires to give expression to its appreciation of the faithful manner in which he has, during his three years' pastorate administered the duties of his office. Dr. Crothers has faithfully visited the aged and sick of his people, the young people's societies and the Sunday school have been greatly helped by his constant attendance, and encouraging and sympathetic assistance; the prayer meetings have been well attended and faithfully led and his intercourse with his officials and people, have been such as have secured harmony and prosperity in all departments of the church work. We part with Dr Crothers with the sincere desire that he and his family may have many years of successful and happy life.

The Teamsters Go Back to Work

Back Bone of the Strike Broken —Three Teamsters Drawing Stone.

The teamsters' strike is practically over. It has been waged for over a week, and the teamsters are going to give in. Yesterday one man went to work on the new fire hall yard and this morning three more teams put in an appearance at the gravel pit. These three are drawing crushed stone from the crusher to Water street north, where the road is being rebuilt. The wages paid are $3.60, what the city offered a few days ago.

While the willingness of these three or four men to work practically breaks the back of the strike, such a small force will not make much impression on the city's work. A large force of teams and teamsters are needed, and they will be taken on as fast as they will come.

When seen this morning the city officials stated that there was every prospect of several more teams going to work tomorrow.

WEDDING BELLS

CROUGH—FITZPATRICK.

The wedding occurred in Norwood on Tuesday of Mr. William Crough, Jr., of Ennismore, to Mrs. Fitzpatrick. The ceremony was performed by Rev. Father Fitzpatrick, pastor of St. Matthews church, Douro. After the ceremony a wedding breakfast was enjoyed at the home of the bride's parents.

Tired, Nervous Mothers

Make Unhappy Homes—Their Condition Irritates Both Husband and Children—How Thousands of Mothers Have Been Saved From Nervous Prostration and Made Strong and Well.

Mrs Albert Mann
Mrs Chester Curry

A nervous, irritable mother, often on the verge of hysterics, is unfit to care for children; it ruins a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother has some female weakness, and she is entirely unfit to bear the strain upon her nerves that governing children involves; it is impossible for her to do anything calmly.

The ills of women act like a firebrand upon the nerves, consequently nine-tenths of the nervous prostration, nervous despondency, "the blues" sleeplessness, and nervous irritability of women arise from some derangement of the female organism.

Do you experience fits of depression with restlessness, alternating with extreme irritability? Are your spirits easily affected, so that one minute you laugh, and the next minute you feel like crying?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the abdominal region, and between the shoulders; bearing-down pains; nervous dyspepsia, and almost continually cross and snappy?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous prostration than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women can testify to this fact.

Mrs. Chester Curry, Leader of the Ladies' Symphony Orchestra, 42 Saratoga St., East Boston, Mass., writes:

Dear Mrs. Pinkham:—

"For eight years I was troubled with extreme nervousness and hysteria brought on by irregularities. I could neither enjoy life nor sleep nights. I was very irritable, nervous and despondent.

"Lydia E. Pinkham's Vegetable Compound was recommended and proved to be the only remedy that helped me. I have daily improved in health until I am now strong and well, and all nervousness has disappeared."

The following letter is from Mrs. Albert Mann, 154 Gore Vale Ave., Toronto, Ont.:

Dear Mrs. Pinkham:—

"I suffered a long time with serious female trouble having intense pains in the back and abdomen and very sick headaches every month. I was tired and nervous all the time and life looked very dreary to me and I had no desire to live until I began to take Lydia E. Pinkham's Vegetable Compound and to get some relief. My recovery was slow but it was sure and I have never regretted the money spent for the Compound as it brought back my good health."

Women should remember that Lydia E. Pinkham's Vegetable Compound is the medicine that holds the record for the greatest number of actual cures of female ills, and take no substitute.

Free Advice to Women.

Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, Lynn, Mass., invites all sick women to write to her for advice. Mrs. Pinkham's vast experience with female troubles enables her to advise you wisely, and she will charge you nothing for her advice.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

Fast Mail Service Proposed By Sir Wilfred is Approved

Colonial Conference Endorses New Fast Mail Line.

Sir Wilfrid's Motion Adopted—New Service of Subsidized Steamers—To Canada In Four Days—Question of Cost Goes to Committee—Will Give Indirect Form of Preference to Colonies.

London, May 15.—The Imperial Conference at its closing session yesterday adopted the motion of Sir Wilfrid Laurier in favor of an all-British subsidized steamship route from the United Kingdom to Australasia by way of Canada. The committee is to be appointed to enquire into the cost of such a route and draw up definite propositions on the subject. The motion of Sir Wilfrid is designed to bring about a reduction in freight charges, thus giving an indirect form of preference to the British colonies, reducing the time from England to Australasia to twenty instead of thirty days, and in the end diverting some of the traffic now going by way of New York.

Not a Freight Service.

Mr. Deakin expressed satisfaction at the proposal, which he said, Australia would welcome. He pointed out that owing to the two transhipments the line would be one for mails and passengers only. It could not become a cargo line. Australia was now encouraging swifter means of communication through the Suez Canal and via the Cape, but they were interested in both the eastern and western routes. If such a project as Laurier's could be placed on a sound financial basis, the interest of Australia in it for postal purposes might become almost as great as that of New Zealand.

New Zealand Wants Fast Ships.

Sir Joseph Ward was disappointed at the suggested speed. New Zealand provided £40,000 for the present service, but they would sooner give as much as £100,000 towards a swift mail service that would bring New Zealand within twenty days of England. New Zealand would not be satisfied with an eighteen-knot service. They were willing to give their proportion for a fast service from England to Canada. The Pacific steamers must touch at New Zealand before going to Sydney, otherwise New Zealand would not contribute. This was a great opportunity to get an all-British route. He argued in favor of a twenty-one-knot service, and was quite prepared to face a large subsidy of £300,000 or £400,000 from the four countries concerned. New Zealand's principle would be an all-British route and a fortnightly service. He urged that tenders be asked for, with a view to ascertaining the cost.

Lord Strathcona's Gift.

London, May 15.—(C. A. P.)—Lord Strathcona has given £1,000 to provide shields for schools in the Dominion in order to foster the idea of helping the British and Foreign Sailors' Society. The shields are made of copper from Nelson's flagship Victory.

Asked whether he would bring before the Imperial Conference the objectionableness of the payment of percentages to emigration agents in Ireland, Campbell-Bannerman replied that time did not permit a return to the question of emigration, which had already been fully discussed. He also stated he did not intend to ask the views of the Premiers on the question of Home Rule for Ireland.

SITUATION IN INDIA GRAVE.

John Morley Asks For Union On Subject In Parliament.

London, May 15.—Questions in Parliament yesterday drew from John Morley, Secretary for India, a statement that "the disorder in India had assumed a very serious aspect, and created a feeling of unrest both in the Province of Eastern Bengal and in Calcutta. It is not desirable that they (meaning the Indian rioters) should have it in their mouths to say that this House is divided."

Goose Prophet Dead.

Philadelphia, May 15.—Elias Hartz, who enjoyed a national reputation as a "goose-bone" weather prophet, and was for years one of the unique characters of Reading, is dead, in the Friends' Asylum here, at the age of 92 years.

When a young man he learned the science of reading the markings on the breastbone of a goose and foretelling the weather for the winter months. It was his custom to take a healthy, well-fed goose of the spring hatching, and have it served for his Thanksgiving Day dinner. The breastbone was then carefully cleaned to show all the markings and fine lines. From his readings of these Hartz foretold the weather from that day until Easter, and, strange as it may appear, about 90 per cent. of his "guesses" were good. Owing to ill-health he made no predictions during the last two years of his life.

Triumph for Mexico.

City of Mexico, May 15.—Guatemala has receded from the stand taken relative to the Lima extradition question, and President Cabrera expressed his willingness to have Gen. Lima, charged with complicity in the assassination of Gen. Barrillas, tried in Guatemala.

Mexico has replied to these overtures coldly. The incident is generally regarded here as a final diplomatic triumph for Mexico.

It is thought Cabrera's change of front was actuated by formidable preparations for a revolution against him.

Boy Drowned.

Clarksburg, May 15.—While the seven-year old son of M. Stoutenburg, along with two school mates, was playing around the river trying to secure a fishing line, which they had found.

In reaching for it Willie fell into the water.

Mr. Steel caught the body while it was going down the river, and Drs. Moore and Hurlburt worked for two hours to revive him, but with success.

Coal Sheds Destroyed.

Preston, May 15.—The large barns and sheds of George Winterhall, coal merchant, near the Grand Trunk Railway, caught fire yesterday afternoon about three o'clock. Nothing was saved, there being a total loss of $1,500, with some insurance.

DOCK FIGHTS AT MONTREAL.

Strikers Attack Workers—The Police Charge Stone-Throwing Crowd.

Montreal, May 15.—Striking longshoremen attacked the men who were still at work yesterday afternoon, throwing stones and other missiles. The police charged the rioters and in the row Lieut. Beauregard was badly hurt. He was struck by one of the flying stones. The police reserves were called out, but made no arrests.

There are 1,800 longshoremen out. The carters and freight handlers remained at work. Two hundred men were engaged by steamship companies in longshoremen's places yesterday morning.

The men enlisted public sympathy against them by going out on a few hours' notice. They sent a demand for five cents an hour increase, about 10 a. m. Monday and at 6 p. m. went out on strike. They receive 25 cents an hour and 30 cents for night. They ask for 30 and 35 cents.

Have Violated the Act.

Ottawa, May 15.—Enquiry at the Department of Labor in regard to the Longshoremen's strike at Montreal elicits the opinion that this matter will come under the operation of the Industrial Disputes Investigation Act of last session, and that the men therefore are not at liberty to strike without first submitting the matters at issue to a board of investigation. The law of last session provides that it was to apply to mining properties, agency of transportation, or communication, or public service utility, including railways, steamships, telegraph and telephone lines, gas, electric light, water, and power works.

The final determination as to the application of this law to the case of the Longshoremen's strike rests with the Minister of Labor, and Hon. Mr. Lemieux is now in Quebec, but the matter will no doubt be brought to the attention of that gentleman without delay. Any employe who goes on strike contrary to the provisions of this Act leaves himself open to a fine of not less than ten nor more than $50 for each day or part of day that he remains on strike. The procedure prescribed under the law requires that when any dispute has arisen that the parties are unable to adjust themselves, they may apply to the Minister of Labor for the appointment of a board of investigation and conciliation to which the issue shall be referred.

BURGLARS' DARING ESCAPE.

Sensational Chase After Leader of Notorious Gang.

Rochester, N. Y., May 15.—Louis Peters, William S. Harmon and Harry Levine have been in jail here several days, charged with being suspicious persons. Yesterday they were arraigned in the Police Court, charged with car burglary and grand larceny, in breaking into New York Central Railroad cars and stealing clothing. The police allege they have evidence to this effect, gathered since the arrests. While in the detention pen at police headquarters, Harmon and Peters sawed the bars of their cells yesterday morning, broke a window, jumped 20 feet to the top of a shed, and then jumped to Exchange street in a dash for freedom.

Twenty policemen saw the men jump, and a sensational chase began, in which the bystanders joined. Harmon was caught after a hot chase. Peters was recaptured later hiding in a house on Washington street.

The police say that Peters is leader of the "Rock Cut" gang of car burglars, and has served a term in prison for car burglary. Harmon is alleged by them to have served a sentence in the penitentiary for carrying concealed weapons. Levine is not known to the police.

JAPS' BREACH OF FAITH.

China Dissatisfied Over Appropriated Property.

Mukden, May 15.—The repeated promises made by the Japanese the past three years to return to China the property appropriated through the exigencies of war, are still unfulfilled. In consequence of this China is experiencing much indignation at what is considered a gross breach of faith.

As yet the recovery of a large amount of Government and private property in numerous places throughout Manchuria, which was appropriated by Japan without compensation, on the sole pretext that China had failed to observe neutrality in allowing Russia to occupy these properties, is considered doubtful. This excuse is not considered honest, since Japan is fully aware of China's helplessness to enforce neutrality, while Japan, in regard to the abuse of the neutrality, is considered equally guilty. Russia holds much appropriated property, which has been given to Japanese traders without any compensation to China.

Bricklayers Make Trouble.

Brandon, Man., May 15.—Some trouble has arisen between the contractors of Brandon and bricklayers and masons in the union. The contractors claim that members of the union are accepting contracts, and they ask the men to either declare themselves in the contracting business and leave the unions or to remain members of the union and not accept contracts.

The contractors have written to the union notifying them that if this business of union men tendering for work does not cease, they will refuse to recognize the union.

Engulfed by Earthquake.

Vienna, May 15.—It is reported here from Sarayevo, Bosnia, that the Turkish village of Mustajbasie, consisting of thirty houses and situated on a hill, was suddenly engulfed last Sunday night, presumably as a result of volcanic eruptions. A large number of the inhabitants perished, the remainder escaping by flight.

Mayor Overridden.

Winnipeg, May 15.—The council have adopted the power scheme in spite of the opposition of the mayor, after an animated session.

Joseph Kneeshaw drove the first spike on the Hamilton and Brantford Railway yesterday.

PRIESTS DENOUNCE BILL

Birrell's Irish Measure Opposed by the Catholic Church.

Bishop of Limerick Describes It As a "Grotesque Measure"—Growing Belief That Nationalist Convention Will Reject Its Proposals—Mr. Healy Stimulates Revolt Against the Bill.

London, May 15.—The opinion in the lobbies of the House of Parliament on the prospects of the Irish Council bill, which is designated to meet the demands for Irish home rule, has taken a very pessimistic turn because of the growing belief that the Nationalist convention, which is to be held in Dublin May 21 and 22, will not accept the bill.

During the last few days Irish Catholic prelates have come out strongly in denunciation of the project. The Bishop of Limerick describes it as "a grotesque measure," while Archbishop Walsh says: "The bill seems so bad all around that I will find difficulty in saying anything to induce the convention to approve it." They are supported by Cardinal Vogue, primate of all Ireland, and the lead given by these prelates is particularly fateful, as practically every parish priest in Ireland will be a delegate to the convention. The Nationalist revolt is being assiduously stimulated by Timothy W. Healy, William O'Brien and other politicians.

It is believed Mr. Birrell is willing to amend in the direction of modifying the Lord-Lieutenant's power of veto, and increasing the Government allowance from $3,250,000 to $5,000,000.

FIRE AT LONDON ASYLUM.

Flames Checked Before Lives of Patients Were Endangered.

London, May 15.—Damage to the extent of $5,000 was done by fire at the London Asylum for the Insane yesterday. The fire broke out between six and seven o'clock in the drying room of the laundry, and before it was extinguished the roof and the upper floor were completely destroyed. Good work by the fire department of the institution prevented the flames spreading to the adjoining buildings in which were over 1,000 inmates. No trouble whatever was experienced. The fire originated among the wooden drying racks.

INDIAN OUTBREAK GROWS.

Trouble In Madras—Queen's Statue In Delhi Broken.

London, May 15.—A special despatch from Lucknow, published here yesterday afternoon, say that the seditious movement among the Hindus is spreading in Madras province. Troops are patrolling the streets of Madras city and serious racial rioting has occurred at Delhi in the Punjab, where a mob of Hindus and Mohammedan malecontents knocked the crown off the statue of Queen Victoria.

Slipped Off Fender.

Toronto, May 15.—While crossing East Queen street, near Knox avenue, six-year-old Irene Reardon, daughter of Edward Reardon, 1366 East Queen street, was instantly killed by westbound King street car No. 922 at 1.45 o'clock yesterday afternoon.

The car was in charge of Motorman William Lindsay, and Conductor D. Warnock, both of whom live at 139 Sumach street.

The child was going an errand for her mother. She was carried a car-length on the fender before she slipped off and passed beneath the wheels. The body was terribly mangled.

Coroner R. B. Orr will hold an inquest at F. Rosar's undertaking establishment this afternoon.

Royal Society of Canada.

Ottawa, May 15.—The annual meeting of the Royal Society of Canada opened yesterday morning in the Normal School here, with an attendance of about sixty members. The sessions will continue until Thursday. The principal item on yesterday's meeting was the annual report of the council.

To-day a historical landmarks' association will be organized by members of the society.

A FEMALE TERRORIST.

Madame Fromkina, Tries to Murder Prison Inspector.

Moscow, May 15.—Madame Fromkina, who was arrested in the lobby of the Opera House here March 14, having in her possession an automatic revolver charged with poisoned bullets, and who was believed to be waiting for General Rheinbot, the Prefect of Police, with the intention of making an attempt to assassinate him, was later recognized as an escaped terrorist, who had been exiled to Siberia for making an attempt on the life of General Novitsky, chief of the gendarmerie of Kiev. The woman yesterday made an attempt to murder the inspector of the political prison here. While she was being examined by the inspector, Madame Fromkina fired at and wounded him with a revolver which had been mysteriously smuggled into her cell.

RURAL GUARDS DISARMED.

Overpowered by Peasants in Bernsk, District of Russia.

Simbirsk, Russia, May 15.—A strong revolutionary and agrarian movement is now in progress in the province. It originated in a rural strike in the Bernsk district. Rural guards were sent there to restore order, fired on a mob of peasants, but were overpowered and disarmed, the vice-chief of the district and several guards being severely wounded. In spite of the despatch of Cossacks to the scene, the movement rapidly spread throughout the province and a minor state of martial law was proclaimed. A secret congress of the peasant leaders is now in session here.

The contracts for Government dredging in Nova Scotia, Quebec, and Ontario were let today.

Home Savings Banks for small savings supplied on application.

PETERBOROUGH BRANCH. VINCENT EASTWOOD, Manager

JACKSON GETS OFF.

Pleads Guilty to Charge—Let Go On Suspended Sentence.

Orangeville, May 15.—Walter Jackson changed his plea yesterday of not guilty to one of guilty of administering drugs for an improper purpose, and was remanded for sentence, a bond of $1,000 being exacted to bind him to appear whenever called upon.

During the course of his remarks on the case Chief Justice Falconbridge spoke at some length on the prevalence of crimes of this character and said that in some respects it was similar to the abominable and detestable practice in the United States, by which women avoided the responsibility of motherhood or limited their familes to one or two children. Of course in this instance there was a desire, observed his Lordship, on the part of the prisoner to shield the unfortunate girl from the disgrace which the occurrence would bring. The prisoner had already suffered much in mind and business in consequence of the affair and his Lordship was disposed to take into consideration in this case circumstances which greatly minimized the seriousness of the charge.

MAY TRADE ON SUNDAY.

Conviction For Selling Candies, Oranges and Ice Cream Quashed.

Toronto, May 15.—Judge Morson yesterday handed out judgment in the appeal of John Devins, a restaurant-keeper at Sunnyside Crossing, from a conviction made by Magistrate Kingsford under the Lord's Day act, when he was fined $20 and costs for selling candies on Sunday and allowing them to be taken off the premises. Judge Morson quashed the conviction without costs. The main point in the judgment is that it is legal for a restaurant-keeper to sell candies, oranges or ice cream on Sunday and allow them to be eaten on or off the premises. Devins, who was fined on April 7 last, appealed from the conviction on the ground that the selling of the candies was a part of his ordinary calling, that of a restaurant-keeper, therefore, was no offence under the act. It is understood that there is no appeal from Judge Morson's decision.

STRYCHNINE IN SUGAR.

Attempt to Poison Family at Poplar Park, Man.

West Selkirk, Man., May 15.—Meagre details were received yesterday of a shocking tragedy at Poplar Park, a little settlement northwest of here, near Lake Winnipeg, where a Galician, whose name cannot be learned, attempted to poison his entire family, out of a spirit of revenge, cherished against his father-in-law. Five lives were in jeopardy, namely, the father-in-law, the mother-in-law, and the three children, and one child, aged three and one-half years, has since died. The others will probably recover. Neighbors, upon learning the circumstances, took the murderer into custody and conveyed him to this town, where he was handed over to the police. Owing to the fact that the prisoner is a Galician, unable to speak English, his version of the tragedy cannot be obtained.

SNEAK THIEF GETS 24 YEASR.

Magistrate Daly Showing No Mercy to Winnipeg Thieves.

Winnipeg, May 14.—Magistrate Daly yesterday imposed the heaviest sentence of imprisonment ever given in Manitoba when he sent J. G. Sterling, sneak thief, pickpocket and highwayman, to penitentiary for 24 years. This, following in the wake of the 20-year sentence imposed on Fred. Hawkins for burglary, is expected to have a deterring effect on this class of criminals in Winnipeg.

Only Firecrackers Went Off.

Rome, May 15.—It is officially denied that an attempt was made to explode a bomb while the royal train stood in the station at Pentelagoscuro, Sunday. It is explained that some firecrackers were accidentally exploded before the train arrived and that the accident was of no significance.

The denial followed a report that a bomb, supposed to be used in an attempt to kill the King, had prematurely exploded, injuring three children.

"Black Hand" at Windsor.

Windsor, May 15.—Dominic Provenzano, the Italian, who stabbed and shot Antonio Cariti two weeks ago will stand trial on the charge of shooting with intent to kill. The police think that Cariti was a "black hand" victim.

Chief Justice Fitzpatrick will act as administrator during Earl Grey's absence in England.

Building Operations Amount To Over $370,000 Up to Date

Many Permits Being Issued by the City Clerk—Normal School, North Ward School and Music Hall Have Permits—Numerous New Dwellings.

Up to ten o'clock this morning the city clerk had issued building permits amounting in all to $370,960. The larger contracts include in the list since the publication on Saturday, are the Normal School, the North Ward school, and the Music Hall in connection with the Conservatory of Music.

The permits are as follows;

William H. Middleton, dwelling, Edinburgh street, cost $2,000, contractor, Wm. Paget.

R Gliddon, Music Hall, at corner of Hunter street, west of George, Cost $3,200 Jas. Montgomery, contractor.

Samuel Pearson, dwelling on Smith street, cost $1,800. F. R. Pearson, contractor.

Canadian Bank of Commerce, erect and alter building on the old Dennistoun property, for a dwelling and stable, cost $650. Contractor Page.

Jas Stubbs, dwelling on Water-st, estimated cost $2,350.

Thos. J. Moore, dwelling on George street, cost $2,500.

J E A Fitzgerald, coal shed, Bethune street, cost $450.

Percy D. Fitzgerald, dwelling at 660 George street, cost $2,000.

George H. Duncan, two houses on Gladstone ave Cost of each, $1,200. Contractor, W. Laidley.

Jos. J. Duffus, dwelling on Reid street, cost $2,200. Contractors, Douglas & Gardner.

H R Gardiner, dwelling, Gilmour street, cost $1,700. Contractor, Douglas & Gardner.

F W Stockdale, dwelling, Homewood avenue, estimated cost, $2,850.

W. C. Switzer, alterations, No. 10 Weller street, estimated cost, $800, contractor, Noble Graham.

J A. Storey, alterations, No. 16 Weller street, estimated cost $800, contractor, Noble Graham.

Fred Pearson, dwelling, Gilmour street, estimated cost $1,900.

B Paquette, four dwellings, Downie street, estimated cost of each $1,000

R Morrison, dwelling, Sherbrooke street, estimated cost $1,800.

Mrs M Thornton, enlarging dwelling King street, estimated cost, $300, contractor, W. Fallis.

F. Harding, altering dwelling Auburn, estimated cost, $120.

John Harding, altering dwelling, Auburn, estimated cost, $120.

Arthur Harding, altering dwelling, Auburn, estimated cost, $120.

Ontario Government, Normal school estimated cost, $54,000, contractor S F Whitham.

G. L. Stevens, enlarging No. 631 George street, estimated cost $700, contractor, T. J. Wilson.

H. J. McCannan, dwelling Reid street, estimated cost $1,900.

F. R. J. Mitchell, stable, Donegal street, estimated cost $500, contractor, J. C. Haggart.

W. Drake, dwelling, Lansdowne street, estimated cost $1500, contractors L. D. Letellier and W Bennett.

William Cole, double house, Charlotte street, estimated cost $2,500.

Joseph Spenceley, dwelling, Edinburgh street, estimated cost $1,400.

J. H. Cameron, altering house on Elm-st, estimated cost $1,100, contractor, N. Lancaster.

Daniel Coughlin, dwelling, Cedar street, estimated cost $800.

Board of Education, enlarging Barnardo avenue school, estimated cost, $22,000. Contractors, Baptie Bros

Restaurant Keepers May Sell Candy and Ice Cream on Sunday

Judge Morson Holds That Toronto Man Did Not Violate the Lord's Day Act.

"The conviction will therefore be quashed, but this being a test case, without costs."

This is the final sentence in Judge Morson's judgment delivered, says the Toronto News, on the appeal of John Slevins against a conviction under the Lord's Day Act for selling ice cream and candies on Sunday.

His reasons for coming to this conclusion, the judge explains as follows;

"It is to be noticed that the appellant in his evidence said he did sell candies and oranges as part of his ordinary business and was not contradicted. The only question then for my decision is, whether the sale of the candies and oranges by the appellant was in the exercise of his ordinary calling of a restaurant keeper—and in deciding this, I am deciding the point I was asked to decide as a test case applicable to all restaurants and eating houses.

MORE THAN A CANDY SHOP

"It is quite clear if the appellant kept a candy shop and not a restaurant, the selling of the candies on the Lord's Day would clearly be an offence under the Act, candy shop not being like a restaurant, a work of necessity, and therefore not exempt.

"It appears from the uncontradicted evidence that the appellant was a bona fide restaurant keeper, and think my conclusion will in any way interfere with it. I agree with what the late Lord Kenyon, C.J., said in sold, amongst other things, candies and oranges. It has not been proved that the appellant in this case kept a candy shop as contended by the respondent, and I must therefore treat him as a restaurant keeper only, who keeps for sale to his customers, amongst other things, candies and oranges, with which to supply the various wants, and it must be the customer and not the appellant who decides what those wants are."

A decision by the late Judge McDougall in the Albert case, and one by Judge Morgan in the Meyers case, were cited as proofs that ice cream and candies were foods, and that the selling of them on the Lord's Day by a restaurant keeper was not an offence.

NO MATTER WHERE EATEN

In reply to the contention of Mr. Johnson that because the candies and oranges were not eaten on the premises, their sale on the Lord's Day was an offence, Judge Morson says that such a definition of a "restaurant" would be too narrow. "It is the restaurant keeper who offends in selling contrary to the Act, and not the customer in eating."

"I can therefore come to no other conclusion," says the judge, in closing, "than that candies and oranges may be sold on the Lord's Day by a bona fide restaurant keeper as part of his ordinary business or calling, without any penalty, under either the old or new Lord's Day Act, and that the appellant in this case did not commit any offence. In so concluding, I have not lost sight, I trust, of the necessity for the due and proper observance of the Lord's Day, and I do not Rex vs. Younger, 'I am for the observation of the Sabbath, but not for Pharisaical observation of it,'"

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. FORTY SAILORS LOST

Two St. Pierre Fishing Boats Are Long Missing.

Believed to Have Gone to the Bottom—Frightful Storms Have Damaged French Fleet—Four Vessels Sail, Only Two Return—Badly Damaged—Probably One Hundred Children Left Fatherless.

Halifax, May 15.—News comes from St. Pierre Miquelon of what is believed to be one of the greatest tragedies in the history of the unfortunate French colony at the entrance of the Gulf of St. Lawrence. Two fishing vessels, carrying crews totalling forty men, are believed to have gone to the bottom in the storms of April. On April 3 last four schooners fully manned, left St. Pierre for the fishing banks. Among the number were La Blanche, Captain Girandin, and Ste. Marie, Captain Laflamme. Since then nothing has been heard of these vessels or their crews. The other two craft returned shortly after their departure, having encountered severe storms, in which all their gear was lost. After effecting repairs both vessels again started for the banks, but were a second time overcome by the storms and compelled to return to St. Pierre in greatly damaged condition. It is feared that both La Blanche and Ste. Marie foundered in one of these storms with all hands. If these fears are well-founded forty men, all of whom were married, have perished. It is said that one hundred children will be left fatherless. Scarcely a season passes without disaster overtaking the French fishing fleet operating from St. Pierre. Many of the fishermen come annually from France to prosecute the industry, bringing their families with them.

A ONE-DAY STRIKE.

Factories Idle On Russian May Day—Employes Donated Wages.

St. Petersburg, May 15.—The workmen of St. Petersburg generally celebrated the Russian May Day Monday with a one day's strike. The authorities had announced that a cessation of work there would be punished by a general lockout, but the workmen voted to give their day's earnings to the fund for idle workmen.

Street car service was suspended on several of the lines, and most of the newspapers announced the suspension of their afternoon or Wednesday morning editions, owing to the strike of their compositors. No disorders had been reported up to noon. The few districts in regard to which the authorities were apprehensive were patrolled by detachments of infantry and cavalry, and forces of troopers were held in readiness for emergencies elsewhere.

Nearly Killed.

Brockville, May 15.—A young Italian named Andemicoo was struck by the buffer beam of a passing freight train on the main line between Lyn and Mallorytown, where he was engaged with a gang ballasting. He was thrown into the ditch, and his escape from death was miraculous.

Clergyman Suicides.

Penn Yan, N. Y., May 15.—Rev. B. B. Stanton, aged 75, a former Baptist clergyman who had retired to his farm in Keuka, committed suicide yesterday by hanging himself in his barn. His body was found by his daughter. No cause for the act is known.

Ships Caught In the Ice.

Port Arthur, May 15.—Navigation is closed here again. Ice commenced to move Saturday, and as a consequence the channel has been closed. The steamers Manitoba, Huronic and others have been outside since Monday.

It looks as though it would be some days before the boats get in unless the wind changes.

Liquor Seller Convicted.

Haileybury, May 15.—The adjourned trial of Walter Wilkins, charged with the illegal sale of liquor, was held here Monday before Magistrates Brown and Cobbold and resulted in the conviction of the accused, who was sentenced to four months imprisonment in the common jail.

Neil Edwards, of Bothwell who forged a cheque and eight promissory notes on the Merchant's Bank at Chatham, was sentenced on Saturday to 18 months in the Central prison.

CONSTRUCTING FIREPROOF OUTBUILDINGS.

Serious efforts have recently been made, to reduce the frightful loss from lightning and fire on Canadian farms. And they have been wholly successful, not only in securing a thoroughly lightning and fireproof construction, but also in bringing the price down to, and even below, that of the old-time board and shingle barn.

The new plan is to use corrugated galvanized sheets for roofing and siding barns and all outbuildings. These sheets are very rigid, and make a perfectly strong construction when used over very light framework. No sheeting boards are used at all—only light purlin strips being necessary.

Such buildings are now becoming very common, and users everywhere affirm that "Acorn Quality" Corrugated Galvanized Sheets, manufactured by the Metal Shingle & Siding Co., Limited, of Preston, Ont., is the most satisfactory material known for the purpose. They are so heavily galvanized that they easily outlast a generation and never need repairs. The firm above mentioned will gladly send to inquirers their interesting literature about "Acorn Quality" Corrugated Galvanized Sheets, and give names of users in all parts of Canada. 46

THE MARKETS.

Liverpool Wheat Futures Close Lower, Chicago Unchanged — Live Stock—Latest Quotations.

Tuesday Evening, May 14.

Liverpool wheat futures closed 1⅝d to 1½ lower to-day than yesterday, and corn futures ⅛d lower.

At Chicago May wheat closed unchanged from yesterday; May corn unchanged, and May oats ½c lower.

Winnipeg Options.

Following were the closing quotations today on Winnipeg futures: Wheat—May 90⅛c bid, July 93⅝c bid, Oct. 93⅝c bid. Oats—May 39½c bid, July 39½c asked.

Cheese, American, finest American white and colored, nominal; Canadian finest white, new, 60s; do., old, quiet, 66s; Canadian finest colored, new, quiet, 62s; old, quiet, 68s. Tallow, prime city, firm, 31s 6d. Turpentine spirits, 51s. Flour, St. Louis, fancy winter, strong, 26s. Linseed oil, 23s 9d. Peas, Canadian, 6s 8d.

New York Dairy Market.

NEW YORK, May 14.—Butter, weak; receipts, 10,734; street price, extra creamery, 24c to 24½c; official prices, creamery common to extra, 18c to 24c, held 19c to 22c; state dairy, common to fancy, 18c to 24c; renovated, common to extra, 16c to 23½c; western factory, common to firsts 18c to 22c; western imitation creamery, firsts, 21c to 22c. Cheese, steady; unchanged; receipts, 4612. Eggs, weak; receipts, 44,718; state, Pennsylvania and nearby fancy selected white, 20c; choice, 18½c to 19c; mixed extra, 18½c to 19c; firsts to extra firsts, 17½c to 18c; western firsts, 16c to 16½c (official price the same); seconds, 15½c to 16c.

CATTLE MARKETS.

Cables Steady — No Mentionable Change in U. S. Markets.

LONDON, May 14.—Liverpool and London cables are steady at 11½c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9c per lb.

Toronto Live Stock.

TORONTO, May 14.—Receipts of live stock at the city market, as given by the railways, were 89 car loads, consisting of 1613 cattle, 906 hogs, 173 sheep and 350 calves.

Exporters.

There were a few export cattle sold at $5 to $5.30, and one lot of four brought $5.50 per cwt., but they were of extra quality. Export bulls sold at $3.75 to $4.40 per cwt.

Butchers.

Best butchers' sold at from $5 to $5.25 per cwt. for loads, a few small lots selected from good loads bringing a little more money. Loads of good, $4.85 to $5.10; medium, mixed, at $4.50 to $4.75; common and light, $4.25 to $4.50; cows, $3.50 to $4.75; canners, $2.50 to $3 per cwt.

Milch Cows.

About 30 milkers and springers sold at $30 to $60 each.

Veal Calves.

The market for veal calves was fairly strong at $3 to $6 for the bulk of offerings. An extra well fed milk calf would bring more money.

Sheep and Lambs.

Receipts of sheep and lambs were light, which caused the market to be stronger than ever. Export ewes sold at $6 to $6.50 per cwt., and some choice butcher sheep, unshorn, sold at $7.75 per cwt. Yearlings are worth $8 per cwt. Spring lambs are worth from $5 to $8 each, and some extra heavy lambs reached $9 each.

Hogs.

Mr. Harris reports prices 12½c per cwt. higher, selects, $6.62½ and lights $6.37½ per cwt.

East Buffalo Cattle Market.

EAST BUFFALO, May 14.—Cattle, receipts, 100 head; steady; prices unchanged. Veals, 250 head; active and 25c higher; $5 to $7.75. Hogs, receipts, 3100 head; fairly active; pigs, steady; others a shade lower; mixed and yorkers, $6.90 to $6.95; roughs, $6 to $6.10. Sheep and lambs, receipts, 600 head; active and steady; unchanged.

New York Live Stock.

NEW YORK, May 14.—Beeves, receipts, 1211; no trading; feeling, steady; dressed beef in fair demand at 8c to 9½c per pound for native sides; exports to-day, 310 cattle; to-morrow, 3000 quarters of beef.

Calves—Receipts none and no trading; feeling nominally steady; city dressed veals in fair demand at 8c to 12c; country dressed, 6c to 10c.

Sheep and lambs, receipts, 175 head; Virginia spring lambs for the market; feeling quiet and unchanged. The offerings were all sold at $5.75.

Hogs, receipts, 1436; feeling nominally steady.

Chicago Live Stock.

CHICAGO, May 14.—Cattle—Receipts, about 2500; market steady; common to prime steers, $4 to $6.50; cows, $3.25 to $5; heifers, $3 to $5.50; bulls, $3.60 to $4.60; calves, $2.75 to $6; stockers and feeders, $3 to $5.25.

Arctics Will be Here on May 24th

Will Play two Games on Victoria Day and One on May 25.

Arrangements have been made by the Peterborough Baseball Club for two games here on Victoria Day, May 24th, and one on the afternoon of Saturday, May 25th. The opponents of the Peterboroughs will be the Arctics, a strong aggregation from Toronto, who finished second last year in the Inter-Association in the Queen City. The visitors will play at ten o'clock on Victoria Day forenoon on Riverside Park, and at three o'clock the same afternoon.

On Saturday afternoon, May 25th, at 3.30 o'clock, another game will be played. The Arctics will, therefore, be here for three games, and the locals will have some exciting contests, which should attract large attendances.

UNIFORMS ARRIVE.

Mr. A. T. Johnston, manager of the Peterboroughs, today received the new uniforms of the club from Toronto. They are white and blue and are decidedly attractive. The sweaters are white with blue trimmings, and the word 'Peterborough' in blue lettering across the front. The knickers are also white relieved by blue. The boys will certainly look spick and span in their handsome new outfits.

LAWN BOWLING

Great enthusiasm prevails among the lawn bowlers and it will not be long before they will be into the game. They expect to start about May 24th. The following prizes have already been donated for competition, and it is expected a number of others will be given;

Messrs. A. H. Stratton and D. H. Moore have each presented a pair of bowls for competition in the singles.

Mr W. G. Ferguson and Vice President Mr. J. E. A. Fitzgerald, have each donated a pair of bowls for the winners of the Scotch doubles.

The Frost trophy, which was won by Mr W. A. McIntyre's rink last year will again be up for competition in the inter-rink games this season.

CRICKET

The Lakefield cricketers went to Port Hope today to play Trinity College School. They were accompanied by several players from Peterborough.

BASEBALL

INTERMEDIATE LEAGUE MEET TO-NIGHT.

A meeting of the executive of the Intermediate Baseball League will be held tonight at eight o'clock at Y.M.C.A. hall tonight. Representatives from each team intending to enter are asked to attend. Important business will come up for discussion, and it is urgent that there be a good attendance.

Over in little old New York, Bozeman Bulger, after much persistence and several highballs, was able to induce Bill Keeler, the most scientific batsman of the decade, to come out of his shell of habitual taciturnity and give the following advice to youngsters who, some day, hope to become great batsmen. Keeler sets forth these rules to govern the lessons of the future 300 hitters of America:—

NEVER

Draw back your foot and step away from the ball.

Bend the back foot or shift its position as the ball approaches.

Lunge at the ball as if trying to make a home run.

Strike at every ball that is thrown

Rubber at the other fellows.

Rubber at the other players.

Lose your nerve after two strikes

Wait for instructions if you see a chance to win the game.

ALWAYS.

Chop the ball so it will not pop up in the air.

Step into the ball and meet it with your whole wait on your front foot. This puts your whole weight into the blow.

Watch the ball from the time it leaves the pitcher's hands.

Hit at the good balls only. Don't be too anxious. Wait and you can rap out the good ones.

Get into your position quickly when your side is out. Show life.

F. L. Benedict & Co., Montreal, P.Q.

SPORTING NOTES

Umpire "Silk O'Loughlin has written a letter to President Johnston, calling attention to the dilatory tactics during a game, that has crept into the American League, and suggesting a heroic way to correct this fault.

"Coaching the batter with no one on the bases has grown to be such an intolerable nuisance in the American League that Ban Johnson is on the trail of the offenders, and has instructed the umpires, who are in the west to prevent all of it.

Some of the Pittsburg critics pick the New York Giants to win the National Baseball League pennant this year. They believe that the New York team has fully recovered from the weakness of last year, which was occasioned by the injuries to the players, and while they predict a close race between New York and Chicago, they are for the Giants in the final.

THIRTY FIREMEN OVERCOME.

Carried Out One After Another to Hospitals.

New York, May 15.—Thirty firemen were overcome by smoke as the result of a stubborn fire yesterday in the sub-cellar and basement of a five-storey building at 325 Broadway, occupied in part by the salesroom and offices of the Remington Typewriter Co.

The blaze was confined at first to a quantity of material stored in the cellar, the burning of which filled the storerooms with smoke. With no window to allow the escape of the smoke, the firemen were overcome. One after another, they were brought out unconscious by staggering comrades.

Nine ambulances carried the most seriously affected of the firemen to nearby hospitals. Although the fire made slow progress, the firemen had great difficulty in extinguishing it.

Odd Runaway Accident.

Alvinston, May 15.—A runaway accident occured yesterday.

A team driven by Hugh McDonald, having a load of door frames and lumber, ran away and overtook Mr. and Mrs. Sifton of Caradoc riding in a covered buggy.

Each horse attempted to pass on opposite sides of the buggy, and Mr. Sifton's horse, becoming frightened, also ran, and finally running into the ditch all stopped, the three horses being side by side with the demolished buggy under the wagon.

Mr. and Mrs. Sifton, an aged couple, were thrown out, and quite badly shaken up.

Hugh McKellar, an Alvinston carpenter, who was riding on the load of lumber, and McDonald, the driver of the team, were both hurt, but not seriously.

PILES CURED IN 6 to 14 DAYS

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles, in 6 to 14 days, or money refunded. 50c.

ACCIDENTS VS. FIRES

It is said that 20,000,000 accidents and illnesses occur each year, but only 80,000 fires.

A business man protects his property against the loss that rarely happens---fire. He can replace his property, but he can never replace his time or his damaged arm.

The most liberal accident and sickness policies are issued by

The General Accident Assurance Company of Canada

Our "Utopia" policy is the best and most unconditional Accident Policy on the market, and completely covers all loss of time from accident.

We issue a Sickness policy which covers every disease to which flesh is heir.

We are revolutionising the liability business by our "factory policy."

DR. CHAS. NEILL PASSED AWAY

Former Peterboro' Dentist Expired While on Way From Texas to Chicago

The sad intelligence was received in the city last evening by Mr. Robt Neill, of the death of his brother, Dr. Chas. Neill who, for a number of years practiced dentistry in this city and was widely known here.

The late Dr. Neill was on his way from El Paso, Texas, to Chicago, when he died. The deceased was a graduate of Ontario Dental College Toronto and took a post graduate course in the Chicago College of Dentistry. He practiced in this city until a few years ago, when he was forced to give up on account of ill-health. His brother, Mr. N. D. Neill, of Brantford, was with him at the time of his death. The deceased was the son of the late Robt. Neill. His mother, who resides in Brantford, and five brothers and three sisters are left to mourn his loss. The brothers are Messrs. Robt. Neill, of this city; John of Whitby; Samuel, Guelph; N.D., of Brantford, and the sisters are Mrs. B. Reesor and Mrs. J. A. Phin, of Toronto, and Mrs. A. E. Gregory, of Lindsay.

No arrangements have as yet been made for the funeral. Mr. Robt. Neill left for Toronto today at noon.

FOOTBALL

MATCH TONIGHT

A football match will be played at the exhibition grounds tonight between the Norwood team and the Peterborough Quakers. The game is called for 6.45 o'clock and promises to be a fast contest.

REMOVAL

On or about May 22nd our Drug and Optical business (the latter in charge of Mr. A. A. Fowler) will be removed to the store No. 386 George St., opposite our present stand, for many years occupied by Mr. Jas. Long, confectioner.

In the new premises we expect to have enlarged facilities for handling all departments.

JOHN NUGENT

NEW AGENT AT KEENE STATION

Mr. M. Weir Succeeds Mr. J. L. Dodds'—Early Closing in Effect

Keene, May 15.—Early closing began in Keene stores on Wednesday May 15th, and will continue until September 15th.

The services of Rev. Dr. Marsh have been secured for a lecture on astronomy in the town hall on the evening of the 24th.

Mrs Miller, Peterborough, is the guest of Mrs. (Dr.) V. A. McWilliams

Mr Thomas Eason, Westwood, was in the village Monday.

Mr. Thomas Boreland visited in Villiers on Saturday.

Mr J. King, of Detroit, is visiting Dr McWilliams.

Mr J. Leslie Dodds, who has held the position of station agent here, for the past two years, left Tuesday for Brechin, where he is taking a similar position. Mr. Marshall Weir has succeeded Mr. Dodds.

Rev Mr. Thompson, of Hastings will conduct services in the Presbyterian church on Sunday.

Mr William Stillman left last week for Westwood, where he will make cheese this summer.

PUPILS' STANDING

Quaker Oats Mills Started Running Night and Day Shifts

Grain From Western Elevators Coming in at Rate of 40 Cars per Day—First Shipment Arrived This Week—Men, Who Will Work, Can Get a Job.

The Quaker Oats Mills are now running full force. Each department is working night and day and as fast as the grain is received it is manufactured into cereals, and shipped out again. The first shipment of western oats, from the Fort William elevators which has come down this spring by the water and rail route, arrived this week, and consisted of thirty-one cars of oats. These were immediately lifted into the big elevator and started through the different machines.

The Quakers Oats Company has a standing order at the western elevators for forty cars of grain a day, and the transportation companies will soon have the boats and trains running to fill the order.

The flour mill has been running on the double shift for a week, and last night, all the other mills were started on the 24 hour run and will continue running until the storms of next winter, or something unforeseen shuts off the supply of grain.

The greatest difficulty the company has is to get men. There are lots of men looking for a job, but there are few men of that class who are willing to work. The Quaker Oats people are paying good wages, and all they ask in return from the men is an honest day, or an honest night's work. They want forty or fifty men at once and anyone who wants a job all summer and fall can get it there.

Test of New Fire Engine Was Highly Satisfactory

Sufficient Steam to Throw Three Streams High in the Air Was Raised in 7½ Minutes—New Team Worked Well.

Between eight hundred and a thousand people gathered last evening at the corner of Brock and Aylmer streets to witness the initial test for the season, of the new fire engine. Those present seemed to take a great interest in the appliances for fire protection. The ladies were very largely represented.

As was announced at seven o'clock sharp, at the sound of the alarm the hose waggons and fire engine started for the corner of Brock Street. The hose waggons were the first to arrive. They were just one minute after the first sound of the bell, in arriving at their destination. This is pretty quick work, and reflects great credit on the drivers. The engine which was driven by Mr. Matchett came up George Street, from the old fire hall and along Hunter to Aylmer street. The new grey team was attached to it and for the first time out they did fine. They did not go very fast, until on Hunter street when the gong was sounded and the team started on the tear to the scene of action. The engine was three minutes in making the trip. As soon as they reached their destination the firemen commenced to get steam up. Sixty pounds of steam, the amount required to start the streams was raised in seven and one half minutes from the time the first alarm was sounded. Eighty pounds was raised in nine minutes, and one hundred and twenty pounds in thirteen minutes. Four streams, two from each side were put on. Three streams with one hundred and twenty pounds of steam on threw a height of water from one hundred to one hundred and twenty feet. When four streams were put on with the same pressure of steam there was no appreciable difference in the volume of water thrown.

The four streams of water, shooting into the air, presented a very pretty picture and attracted considerable attention. The grass in the vicinity of the creek, should be a luxuriant growth, as it received plenty of water last night. The test of the new engine lasted about an hour. It was just five minutes past eight, when the team was rehitched and started on the way to its new quarters at the fire hall. On the return trip the greys went a lot faster than when they first came out.

A large crowd followed them to the hall, where they saw the engine placed in position. A number also availed themselves of the opportunity to see the new building.

Chief Rutherford of the Fire Brigade, referred to the test as being highly satisfactory. Ald. Johnston and Mr. Walter Pakenham were also much pleased with the result of the test.

Peterborough is now fitted with all the fire fighting appliances necessary to prevent conflagrations.

Headache
can be cured without the use of drugs. The Japanese cure does not contain a single drug. One ingredient is just plain, ordinary soda. The others are just as harmless. Yet no drug remedy can cure headache more quickly than it can be
Cured by Zutoo

Cheese Board Had Annual Meeting and First Sale

Officers Were Elected To-day—809 Boxes of Cheese Were Offered for Sale and all Changed Hands at 11½c—Other Business Transacted.

The annual meeting and first sale of cheese of the Peterbrough Cheese Board for the season of 1907, took place this morning and was well attended by the members of the Board and salesmen. The Board will again meet this season in the Bank of Montreal Chambers, and today's meeting was held there. Election of officers took place, the prospects for the season were discussed, and about eight hundred boxes of cheese sold at 11 1-2 cents per pound. The total registration of cheese was 809 boxes, and all sold except Fraserville factory, which only opened a short time ago, and only had ten boxes for sale. Mr. Wrighton, Mr. Cook, Mr. Gillespie and Mr. Whitten were the buyers who made purchases. Mr. Morton was also present, but did not do any buying.

The propects for an excellent season for the Board are very bright, and today's meeting augurs well for the future.

ANNUAL MEETING.

Mr T. D. Young, the president of the Board, was unable to be present, owing to illness and Mr. R Tidhope vice-president of the Board, occupied the chair. The election of a new president, was first proceeded with, and resulted in Mr. John Riddell, last year's secretary, being elected unanimously. It was decided to combine the offices of secretary and treasurer, and Mr. Edward Hawthorne was elected to the joint positions. Mr. Hawthorne was treasurer last year.

Mr. Riddell, on taking the chair, thanked the members of the Board, for the confidence they had placed in him, in electing him to the presidency.

The complete list of officers for the year is as follows,—

President, John Riddell.

Vice-President — R. Tidhope (re-elected).

Secretary-Treasurer—Edward Hawthorne.

Arbitrators—Robert Ward and Jas. Ryan with power to select a third man if necessary.

Auditors—Robert Bullock, and W. Anderson.

A hitch occurred when the election of an arbitrator came up. At the suggestion of one of the buyers, Mr. Robert Ward, government inspector, was proposed and seconded but some of the salesmen wanted to have Mr. Ryan, last year's arbitrator, and a motion that he be appointed was made. On a vote being taken Mr. Ryan's supporters numbered eleven, and Mr. Ward's seven. The buyers were all in favor of Mr. Ward but according to the rules of the Board they did not have a vote. They declared that they would not accept Mr. Ryan's rulings if he was called upon to act, as he was a cheesemaker and might have a tendency to favor the factory men. They wanted a disinterested person like Mr. Ward, who was the Government Inspector, and as he was in no way connected with either the buyers of the salesmen, would be the best man for the position. Mr. Whitten strongly voiced the advisability of appointing Mr. Ward and the other buyers spoke along the same lines. Finally it was decided to appoint both Mr. Ward and Mr. Ryan and to give them the power to select a third person if it was found necessary. The third person will only be necessary in the event of both Mr. Ward and Mr. Ryan failing to agree.

Mr Anderson read the report of the auditors for the past year, in which they found the treasurer's books correct and commented favorably upon them.

RESOLUTIONS OF CONDOLENCE.

On motion, it was decided to send resolutions of condolence to the families of Mr. Nicholls, formerly salesman for the Selwyn Factory, and Mr. Garret Galvin of Lakefield. Both these gentlemen have passed away, since the Board last met, and their decease is much regretted by the dairymen of this district, as they were actively connected with the cheese board and were honest, upright men.

The matter of collecting the fees of several factories who did not pay last year was left with the executive.

PRESIDENT'S ADDRESS.

In opening the sale of cheese, Mr. Riddell referred to the fact, that the Peterborough cheese board was the premier board in Canada. At least that was what was said of it, and if it was not true it was the duty of those connected with the Board to make it the leading organization of its kind in the Dominion. He hoped that buyers, salesmen, producers, and everyone who had an interest in the Board would work together unitedly and harmoniously to keep up the record of the Peterborough district, as a cheese producing centre. Cheese was what is known as perishable goods, and in order that it might reach the consumer in good condition, it was necessary that the best of care should be given the cheese from the time it left the factory, until it reached the consumer in the Old Country. Nor was it sufficient that good cheese would be had if the care only commenced when the cheese left the factory. In the first place it was necessary that the milk should be right, that it should be delivered at the factory in good condition, that the factory should be in a clean sanitary condition, and that the cheese maker should be a first-class man.

The president also alluded to the evil effect of shipping green cheese. Much injury was being done the trade in this manner, and he hoped the salesmen of the Peterborough district would break away from this practice. He did not believe that the Peterborough district was as bad in this respect as some other localities

SALE OF CHEESE

On motion it was decided that for the first meeting the rule which requires a buyer to take at least 500 boxes when he calls the board be suspended and that the limit be 200 boxes.

The bidding was somewhat slow and it took considerable time to clear the board. The buyers would not go above 11 1-2c and at first the salesmen were somewhat relluctant about selling. But eventually the board was cleared.

Mr Whitten opened the bidding at 11c and Mr. Wrighton raised to 11 1-4c Mr. Whitten came back with 11 3-8c and Mr. Wrighton outbid him with 11 1-2c. No one offered to go any higher.

At 11 1-2c Mr. Wrighton secured first choice and took the following, —Keene, Warminster, Shearer, Warsaw, Treewern, Indian River, Lang, Pine Grove and Bensfort.

Central Smith, Westwood, Bensfort and Selwyn were called, but did not sell.

Mr. Cook got the next call at 11 1-2c and secured the following — Ormonde, Brickley, Myrtle, Oakdale, Cavanville, Young's Point and Maple Leaf.

Central Smith, Villiers and Selwyn were called, but refused to sell.

Mr. Gillespie bid 11 1-2c for the remainder of board and cleared it, as follows; Central Smith, Selwyn, Villiers, Westwood and Buckhorn.

Killarney sold to Mr. Whitten at 11 1-2c.

The boarding in detail was as follows;

Keene	40
Warminster	50
Shearer	20
Central Smith	60
Selwyn	40
Villiers	20
Warsaw	25
Westwood	50
Oakdale	30
Pine Grove	55
Maple Leaf	20
Myrtle	30
Ormonde	65
Young's Point	25
Lang	35
Fraserville	10
Indian River	20
Treewern	45
Bensfort	35
Cavanville	30
Buckhorn	34
Brickley	30
Killarney	40
	809

The board adjourned for three weeks and the next meeting will, therefore, be on June 5th.

A COMPARISON

It is interesting to note that the first meeting of the Board last year was held on May 23rd, when the offerings were 1,371 boxes. All sold at 11 5-8c and 11 3-8c, so that the prices last year were practically the same as the figures that prevailed today.

OBITUARY

DANIEL COW.

The funeral of Daniel Cow, jr., of Hiawatha, took place this morning at ten o'clock, from the home of his parents to the Hiawatha cemetery. The deceased was twenty years of age, and was a son of Daniel Cow, driver of the Hiawatha stage. His brother, James Cow, resides in the city on Victoria avenue.

WILLIAM O'BRIAN.

Mr. Wm. O'Brian, a well known citizen of Millbrook, passed away yesterday. The deceased lived for many years on a farm in Cavan, and removed to the village a few years ago. He was prominently identified with the agricultural society and leaves a wife and family of three children. The daughters are Mrs. Charles Leach of Dauphin, Man. and Miss May, residing at home. The son is William, who also resides at home.

Generous Response to the Appeal

Ladies Received About 800 lbs. of Rubber Yesterday

The ladies who made an appeal to the citizens for old rubbers, etc. in aid of the Muskoka Free Hospital, are well pleased with the response. The store on Simcoe street, next door to W. H. Hamilton's grocery, which was kept open yesterday afternoon was visited by many citizens and about 800 pounds of old rubber goods were left. The sale of these will net a neat sum towards assisting the free consumptive hospital.

The store was kept open again this afternoon and several more old rubbers shoes, etc., were received.

One of the ladies in charge of the movement said today; "We are well pleased with the response, considering that we were late in making the appeal. Most of the junk men had been around and gathered up the old rubbers and other goods before we outlined our plans. You can say that we will hold a couple of "reception days" next fall and will expect to receive another generous rubber instalment. We received two liberal cash donations yesterday for the Gravenhurst institution, which we desire to acknowledge with thanks.

The rubber received yesterday, will, it is understood, be sold for 10 cents per lb.

hotel changes

Mr James Simpson, of this city, has purchased from Mr. Jas. Scott, of Peterborough, the Northern hotel property in Kinmount. The deal was effected through Messrs. A. Brown & Co., real estate dealers. Mr Simpsonn will shortly take possession of the hotel.

Dan Spence Council Had Fine Meeting

Dan Spence Council, R. T. of T. had a splendid meeting last night. Select Councillor J. W. Carey presided and there was a large attendance of members. Two new members were received and there are several prospects in view, and it is expected that they will join shortly. The Council is in flourishing condition in every respect.

Bob Cook, who broke jail at Grand Valley, is in jail in Regina, and will be sent east.

The Banking System of Canada; Paper Read by D. Hughes Charles

There Are 36 Banks in Canada With Paid Up Capital of $95,933,726 and Reserve Fund of $69,716,655—Total Call Loans Outside of Canada $55,948,496—Total Deposits $61,201,448.

One of the features of the Board of Trade meeting last night was ex-President D. Hughes Charles' paper on the banking system of Canada. It was a splendid paper and was full of information which will be valuable for all business men to have.

At the last meeting of the Board, the president said, Mr. Pousette gave notice of a motion which he would move at this meeting, but he had not turned up, and so far as he knew, had not entrusted anyone with the motion. The president stated that he had, however, requested Mr. D. Hughes Charles to prepare a paper on the banking system of Canada.

Mr. Charles was present and was requested to read it, for the instruction of the members of the Board.

The paper was as follows:—

In reference to the motion of Mr. Pousette regarding the proposed amendment to the Canadian Banking Act, I have been asked by your President to read a short paper upon the Canadian Banking System. As time is limited, I shall only be able to touch upon the most important features of the system, but hope, even if I have to be brief, I may be able to throw some light upon the subject.

First of all, I may say that we have the branch system of banking in Canada, that is, head offices or the parent banks in the larger money centres, with branch offices all over the country. This is following the Scotch system, and is much better adapted for the needs and development of the country than the American system, where they have no branch offices, thus making every bank purely local.

There are thirty-six banks in Canada with paid up capital of $95,933,726, and Reserve Funds of $69,716,656, and about 1,700 branches. A branch of any of these banks is much stronger than any local bank could possibly be, as it has the capital of its head office behind it, and by the branch system, accumulated savings can be transferred from places where there is not sufficient business enterprise or the need to use them, to places which have business enterprise beyond local savings.

Another point in favor of the branch system is that the training of employees is upon much broader lines than any local bank could give. Young men are transferred from branch to branch the whole length and breadth of our vast country, and this gives them a better knowledge of the capabilities and possibilities of our country and of the various kinds of business carried on.

As additional security to note holders and depositors, shareholders in banks are liable for double the amount of stock subscribed for.

Banks can issue notes to an amount not to exceed their unimpaired paid up capital and no note shall be for a sum less than five dollars, or for any sum which is not a multiple of five dollars, and arrangements must be made by the banks for the redemption of their notes at any place in Canada.

As security to noteholders the Bank Act provides that five per cent of each bank's issue must be deposited with the Government. This fund is called the Bank Circulation Redemption Fund, and is to be used to pay the notes of any bank which suspends payment. The notes of a suspended bank are to bear five per cent interest from time of suspension to time of payment, the latter to be named by the liquidator, assignee or minister, and after that date interest shall cease. Notes are first charged upon the assets of a bank.

Under their charters banks can deal in gold and silver coin and bullion, discount and lend money and make advances upon the security of and take as collateral security for any loan made by it, bills of exchange, promissory notes and other negotiable securities, or the stocks, bonds, debentures or obligations of municipal and other corporations, whether secured by mortgage or otherwise, or Dominion, Provincial, British and other public securities. They can lend money to any wholesale purchaser or shipper of or dealer in products of agriculture, the forest, quarry or mine, or the sea, lakes or rivers, or to any wholesale purchaser or shipper of or dealer in live stock, or dead stock, or the product thereof, upon the security of such products or of such live stock or dead stock or the products thereof. They can lend money to any person engaged in business as a wholesale manufacturer of any goods, wares and merchandise upon the security of the goods, wares and merchandise manufactured by him, or purchased for such manufacture. The bank may lend money upon the security of standing timber and the rights and licenses, if held by persons to cut or remove such timber.

They can take money upon deposit, sells drafts, bills of exchange, and carry on such business generally as appertains to the business of banking.

A bank is prohibited from the buying or selling, or bartering of goods wares or merchandise, or engage or be engaged in any trade or business whatsoever. A bank cannot purchase or deal in, or lend money, or make advances upon the security and pledge of any share of its own capital stock, or of the capital stock of any bank. A bank cannot lend money or make advances upon the security, mortgage or hypothecation of any lands or tenements, or immovable property, or of any ship or other vessel.

The capital stock of any bank hereafter incorporated shall not be less than $500,000, and so soon as this is bona-fide subscribed, and a sum not less than $250,000 thereof has been paid to the Minister and the Directors, not less than five, elected by the subscribers at a meeting called for that purpose, must apply for a certificate to the Treasury Board, and the bank must not issue notes or commence the business of banking until such certificate is obtained. Upon the issue of the certificate, the Minister shall forthwith pay to the bank, without interest, the money which had been deposited with him, after deducting $5,000.00 required to be deposited for the securing of the notes issued.

The bank shall not pledge, assign or hypothecate its notes, and no advances or loan made on the security of the notes of a bank shall be recoverable from the bank or its [illegible]

The bank shall hold not less than 40 per cent of its cash reserves in Dominion notes.

The foregoing is a brief synopsis of our Bank Act and system, and now I want to say something about the practical working of it. The Act has been well and wisely considered and is about as good as it can be made for a country like ours, where so much has to be and has been done in the development of its immense resources, and where private capital has been and is still limited for the work to be done. If banks come to grief it is not the fault of the Act, but owing to bad management.

They are not allowed to lend upon real estate, but they can take a mortgage on collateral security to a doubtful account, and the reason why a bank should not be allowed to lend upon real estate or fixed assets is obvious to anyone conversant with the business of banking. A loan involving a real estate transaction, especially where the payment depends upon the sale of the real estate is bad banking, and to take up an account where the safety of it has to rest upon the fixed as well as the liquid assets, is bound to lead to trouble, as a bank should not lend money where there is likely to be a lock-up of capital. Its customers are in many different lines of business requiring assistance at different times of the year and, therefore, convertibility should be the dominant idea in making advances.

Then again, and of more importance in this matter of locking up capital, a bank's obligations to its depositors and note holders must never be lost sight of by a prudent banker. Deposits are of two kinds—those payable on demand, such as current accounts, and those payable after notice, or interest bearing. Both, however, are really payable on demand, as in these days no bank could afford to ask for notice of withdrawal. Depositors often think, I am sure that banks pay very small interest, but when they stop to consider that for every dollar deposited, only about sixty cents of it can be loaned out, as cash reserves have to be kept up to meet daily withdrawals, they must admit that the rate paid is high enough.

Depositors can make a choice of the bank in which they place their money but note holders have no such choice, as a rule, regarding the bank notes they take, and that is why bank notes rank as a first charge against a bank's assets; and this is only fair—and gives a stability to our currency which is the admiration of American bankers. Another thing they admire about our currency, is its elasticity—that is, that the circulation of the bank's notes can go up and down without affecting the money markets. When the crops are being moved, circulation goes up, and when realization begins its comes down.

As it is the desire of each bank to get its own notes out and every other bank's notes in, there is a constant redemption going on between them, which is a good way to keep them alive to their obligations.

If banks cannot lend upon real estate or fixed assets, the Act gives them great scope in lending against liquid or movable assets, and this is where the wisdom of our legislatures stands out most prominently, for, had the banks not been allowed to take goods, wares, merchandise, etc., as collateral security from wholesale dealers and manufacturers, then the development of the country would have been greatly retarded.

The bank's cash reserves consist of gold, silver, Dominion notes or legal tenders, 40 per cent. of which have to be held in compliance with the Act, notes and cheques of other banks and call loans. I think the latter seem to be the cause of Mr. Pousette's motion, for to save Canadian customers, banks keep a considerable portion of their call loans in New York, where a call loan is strictly on call; whereas in Canada such has not been found the case, and it is surely a better policy to keep funds which may be required any minute, invested in a foreign country, where the calling of it in will not affect our own people.

If everything were known, and it is impossible to find out on short notice, I do not think if we could put stocks and deposits held out of Canada against the loans, that there would be much to find fault with and the figures published by the Government include the business of banks which have branches in Newfoundland, the West Indies, and the United States, making proof strong against Mr. Pousette's contention. Another thing which should be taken into consideration is the balance of trade against this country, amounting to the immense sum of $526,888,510, for the years 1898 to 1906, both inclusive, an average of over one million per week which has to be provided for. I have got the figures for our own bank of the foreign stockholders in 1906, and since then the United States shareholders have largely increased their holdings. There were 1052 shareholders owning stock par value $3,921,050, market value over $5,000,000, and using these figures, the deposits and stock of our bank, owned abroad, exceeded the loans at the end of February, 1907, by over $4,000,000, and it is reasonable to suppose that some of the other banks would make the same showing.

The following figures taken from the Government returns of February, 1907, will show the deposits and loans outside of Canada, of the various banks.

Bank of Montreal.—Deposits elsewhere than in Canada, $30,810,442; call and short loans elsewhere than in Canada $29,727,374; current loans elsewhere than in Canada $13,402,500.

Bank of New Brunswick. — Call and short loans elsewhere than in Canada $700,000; current loans elsewhere than in Canada $96,404.

Bank of Nova Scotia. — Deposits elsewhere than in Canada $4,892,635; call and short loans elsewhere than in Canada $3,228,224; current loans elsewhere than in Canada $3,826,969

Bank of B. N. A.—Deposits elsewhere than in Canada $3,170,130; call and short loans elsewhere than in Canada $5,752,402; current loans elsewhere than in Canada $4,307,379.

Bank of Toronto.—Call and short loans elsewhere than in Canada $550,000; current loans elsewhere than in Canada $2,100,000.

Union Bank of Halifax.—Deposits elsewhere than in Canada $501,616; current loans elsewhere than in Canada. $1,442,257.

Merchants' Bank of Canada. —Deposits elsewhere than in Canada $139,152; call and short loans elsewhere than in Canada $4,103,313; current loans elsewhere than in Canada $2,058,818.

People's Bank of N.B.— Current loans elsewhere than in Canada $35,000.

Canadian Bank of Commerce.—Deposits elsewhere than in Canada $11,105,308; call and short loans elsewhere than in Canada $7,932,388; current loans elsewhere than in Canada $1,990,272.

Royal Bank of Canada. —Deposits elsewhere than in Canada $10,501,749; call and short loans elsewhere than in Canada $2,054,795; current loans elsewhere than in Canada $3,641,981.

Bank of Hamilton.—Current loans elsewhere than in Canada $166,766.

Imperial Bank of Canada.—Call and short loans elsewhere than in Canada $1,400,000; current loans elsewhere than in Canada $102,000.

Western Bank. — Current loans elsewhere than in Canada $2,800.

Sovereign Bank of Canada. — Deposits elsewhere than in Canada $89,326; current loans elsewhere than in Canada $1,441,987.

Home Bank of Canada.—Call and short loans elsewhere than in Canada $500,000.

Total deposits elsewhere than in Canada, $61,201,448.

Total call and short loans elsewhere than in Canada $55,948,496.

Total current loans elsewhere than in Canada $34,615,133.

Total, $90,563,629.

Total deposits elsewhere than in Canada, without Bank of Montreal, $30,391,006.

Total call and short loans elsewhere than in Canada, without Bank of Montreal, $26,221,122.

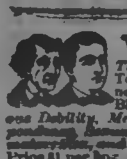
Total current loans elsewhere than in Canada, without Bank of Montreal, $21,212,633.

You will observe that the total deposits held out of Canada are $61,201,448, of which the Bank of Montreal had $30,810,442 or about 50 per cent, while the total call and time loans were $90,563,629, of which the Bank of Montreal held $43,129,874 or about 50 per cent.

It is not the amount of Canadian money used outside of Canada by banks, and it is a mere bagatelle compared with the loans and discounts in Canada, which makes money or credit scarce, as complained of by Mr. Pousette, but it is the enormous inflation, which has been going on for some years past, which causes the trouble. Manufacturers of all kinds have been enlarging their premises and plants,—often going into debt to do so. Business men have been taking out their hard-earned profits to buy lands in the Northwest. Millions have been lost in stock speculations, and the Cobalt mining boom has caught many fools and many who are not thought to be fools. The fact is banks have been too liberal, if anything, in spite of anything to the contrary. Loans and discounts, according to the Government statement of March last were $579,057,554 against $475,032,412, the previous March, or an increase of 104 millions, while the deposits, for the second time in ten years are less than the loans.

This shows the trend of affairs and is enough to make men pause and consider well before going into any schemes outside of their own legitimate business.

The president voiced the opinions of all present, when he expressed his appreciation of Mr. Charles' splendid paper.



Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* The Wood Medicine Co. *(formerly Windsor)* Toronto, Ont.

A Man Who Shaves himself, needs no talcum — no witchhazel—no "cream"—if he uses

"Royal Crown" Witch-Hazel Toilet Soap

The witchhazel in the soap allays all irritation — takes away the smarting and burning—heals the cuts—leaves the skin soft and smooth.

Not a shaving soap — but cooling and delightful after shaving.

3 cakes for 25c.

At Druggists and Dealers.

FOR OVER 60 YEARS

An old and well tried remedy. — Mrs Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

Bandmaster for the Bugle Band

New Appointment Will Have to be Made

A new bandmaster will have to be appointed for the bugle band of the 57th Regiment. Mr. Chas. E. Cookson, who has filled the position very acceptably for some time, has left the city, and, of course, has given up the position of bandmaster. The new appointment will be made in made in the near future. There are several in the band who are well qualified for the position.

BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 82, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child, the chances are, it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Natural gas has been found at Melfort, Sask.

Peterboro' Boy From North Bay

Mr. Frank DuRieu Visiting in the City—Is in Business in New Ontario

Mr. Frank Du Rieu, of North Bay is spending a couple of days in the city. He is an old Peterborough boy and was formerly employed as a plumber and steam fitter by Mr. Adam Hall. He went to North Bay some time ago and started in business for himself. When he started there was a splendid opening in his line and, as a result he has met with great success. At the present time there is a big building boom in North Bay. Many houses and business places are going up, and as the people are adopting modern ideas, there is lots of work for the plumbers and steam fitters. Mr. Du Rieu also takes contracts along the line of the Temiskaming and New Ontario R. R., and is kept on the jump all the time.

Speaking of conditions generally, Mr. Du Rieu said that owing to the very backward season there were hundreds of men lying around the towns idle. There is still a couple of feet of snow in the woods and in the mining districts, and work cannot be started. The weather is also very cold for this time of the year.

There are several Peterborough people in North Bay, including Mr. and Mrs. Stortz and family, and Mr Fred Sullivan, son of Mr. J. O. Sullivan, of Ashburnham. They are all doing well and are contented.

Mr Du Rieu will leave tomorrow again for New Ontario, stopping at Port Hope and Toronto for a day or two to do a little business.

Clinton Church Had Close Call

Rev. Mr. Jolliffe's Edifice Nearly Prey to the Flames

In the disastrous fire which visited Clinton, Ont., on Monday last, destroying the Clinton Thresher Works, and the Rattenburg hotel, and other buildings, the church of which Rev. W. J. Jolliffe, formerly of Peterborough, is pastor, had a close call. A despatch says:—The flames leaped from the Threshing Co. to their office, then across the street to some small buildings at the rear of Wesley Methodist church, and for a time this splendid structure was in great danger, but although fire caught in a few places, it was eventually put out. Rev. H. M. Manning, pastor of Charlotte street church, is a former pastor of Wesley church, Clinton.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & Co., Toledo, O.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

THEATORIUM FOR PETERBOROUGH

Mr. A. Edwards of Brantford Looking for a Location

Peterborough is to have a modern theatorium in the very near future, if premises in the central part of the city can be secured. Mr A. Edwards, of Brantford, who is registered at the National Hotel, is endeavoring to secure a good site, and if he is successful he will start his new amusement house at once. Peterborough, he says, is an ideal place for such a business as he contemplates starting. This is the first time he has visited this city, and he received a great impression, and would like very much to get located here. He has recently sold out his theatorium in Berlin, where he did a big business. He has now one running in St. Catharines and in Belleville.

AMUSEMENTS

A WIFE'S DEVOTION.

The Tom Marks Dramatic Co., who are playing a week's engagement at the Grand Opera Opera House, presented "A Wife's Devotion" to a fairly good house. This thrilling story of a wife's loyalty to her husband under trying circumstances, was well put on by this excellent company. The play last night won merited applause.

The specialties were of an exceptionally high order and are about the best part of the evening's programme.

Tonight the company will present "That Irish Boarder," with entirely new specialties.

TO FIGHT TUBERCULOSIS

Hon. Dr. Pyne, Minister of Education, has under consideration extensive plans for official fighting of the inroads of tubercular diseases in the schools. These will probably take the form of the issuing general directions to teachers calling for a more thorough medical examination of the schools, and the regular medical inspection of teachers and pupils. It is also probable that the subject matter of the new text book will contain material dealing with the the methods of combating the great white plague.

WHERE ARE BIG FAMILIES?

Two Woodstock citizens were discussing race suicide the other as it applied to that city. "Do you know," one remarked, "The other day I was standing on Vansittart ave. talking to a friend, when we were discussing this same thing. We remarked that on that whole street from Dundas to the cemetery, there was hardly a child. Some of the residents, of course, have grown up families, and at present there are practically no children. I don't suppose that street is a sample of conditions in the remainder of the city, but it shows one extreme." "When we were young," came from the other, "families of six or eight were common, and they would probably average five. Now families with two or three members are far more common, and I don't believe they will average more than two."

PEN POINTS

If you do not want to pay a fine of $50, spit in the gutter.

Do not expectorate on the sidewalk Observe the new bylaw.

Do not spend Victoria Day away from the city. There will be a large number of attractions at home.

The building permits in Peterborough so far this season, total over $370,000 This is a good record and the season has scarcely begun.

If the reports are true that the visiting premiers in Great Britain are being dined to death it is certainly apparent that they are going down to a willing death.

Toronto Star; The Corby distillery was burned. Regarding the matter there is a difference of opinion between the fire underwriters and the Dominion Alliance—the one treating it as a loss, the other not.

If that new fast service across the Atlantic is established and the boats will make the passage in a little over four days there is little hope for those who become sea-sick. They will not have sufficient time to recover

The unrest in India is due to jealousy The people do not dislike British rule or dislike Britons. But they are jealous of the close friendship of Britain for Japan, which the Hindoos hold to be an inferior race. Pat somebody else's dog on the head and your own terrier takes umbrage.

We have frequently criticised the colored supplement abomination which some of the Canadian newspaper publishers import from the United States, as being devoid of art, wit or refinement, without a solitary redeeming feature. We have also drawn attention to the fact that the educated intelligence of the United States has become disgusted with the hopeless vulgarity of the colored supplement, and awakened to a realization of its injurious effects upon children from the educational point of view. —Brockville Times.

All the provinces have declared their sympathy with the project of securing a system of national text books for the Canadian schools. In an interview Hon. Dr. Pyne, Minister of Education, stated that he had been in communication with the Education Departments of the various provinces of the Dominion and that all had expressed approval of the project. The Minister said it was probable that the matter would be fully dealt with at a proposed inter-Provincial educational conference which will likely take place in the early autumn. The time and place for this conference has not yet been considered.

Mr. Aylesworth is now revelling in his revenge on Durham for rejecting him at the last election, and that, too, at the expense of the country. The last estimates voted in Parliament contained an item of $65,000 to be expended on the Cobourg harbor for the benefit of the Grand Trunk Railway, which is about establishing a ferry between that town and Rochester, in the United States, and the Grand Trunk company, in consideration of this gift, is to divert the southern terminus of the Port Hope and Peterborough railway from Port Hope to Cobourg. When it is known that Port Hope is equally available and by all odds the best and safest harbor, and that it would not require the expenditure at that port of a quarter of the amount necessary to make a safe harbor at Cobourg, the iniquity of the Aylesworth petty spleen will be fully understood. The town of Port Hope deserved better treatment from the rejected of Durham, for the reason that it gave Aylesworth a large majority, on the cry "Elect Aylesworth and the southern outlet of the Trent Valley Canal will be at Port Hope, and the Grand Trunk Ferry northern terminus at Port Hope." Port Hope Liberals have learned, if they did not know it before, that no faith can be put in Grit politicians' promises.

OBITUARY

FRANK WALDON.

A former old resident of Orono, Mr. Frank Waldon, passed away on Saturday last at the General Hospital, Toronto, aged 83 years. Frank was a weaver by trade, and many blankets and rag carpets are yet in service, woven by him on the hand loom when he had his residence on Cob Hill. He was credited as the author of local rhyme, which made something of a hit from time to time. Frank moved to Newcastle, about twenty-five years or more ago, and has since resided there, of late years, living a retired life. Paralysis was the cause of his death.—Orono News.

MRS. CHAS. STEWART.

The death occurred yesterday afternoon at 4.30 o'clock in east city, after an illness of only two weeks' duration from pneumonia, of Mrs. Chas. Stewart. The deceased was born in Douro twenty-eight years ago Her maiden name was Annie McGarrity. She was a daughter of the late John McGarrity of Douro. She was married a little over a year ago, to her now sorrowing husband. She leaves an infant child three months old.

Five brothers and four sisters are left to mourn her loss. The late Mrs. Stewart was widely known and highly respected, and the news of her death will come as a great shock to a large number of people.

The funeral will take place tomorrow morning at 8.30 o'clock from the family residence, 569 Concession street to St. Peter's cathedral and thence to St. Joseph's cemetery, Douro, for interment.

Great Improvement Was Noticeable

Regiment Had Best Drill of the Season Last Night

The 57th Regiment had the best drill of the season last night. Central Park re-echoed the orders of the commanding officers until long after nine o'clock, and a great improvement was noticeable in the work of the men. The evening was spent in company drill, and everything passed off most successfully. The total strength of the regiment was 233, which, while hardly as large as last Tuesday night, was quite satisfactory. It is noticeable this season that there is a better class of men in the regiment than ever before, and no doubt a splendid impression will be made when the corps takes its annual trip on July 1st. Hundreds of citizens watched the soldiers at work last night, and were well pleased with the way they went about their work. A few more drills like the one last night will put the regiment in fine shape

ORDERS READ.

The following orders were read;—

Headquarters,
Peterborough,
May 14th, 1907.

Orders by Lieut.-Col. J. W. Miller, commanding the 57th Regiment, Peterborough Rangers;

No.1—Detail of duty for week ending May 21st, 1907; Captain for the week, Captain MacLean; next for duty, Captain Watt; subaltern for the week Lieut. Gemmell; next for duty, Lieut. Comstock.

No. 2—The following have been taken on the strength of the regiment;—

D Co., April 16th, 1907—Ptes. R. G. Northcott, A. R. Robertson, N. H. Tamblin and A. J. Throop; May 7th, 1907, Pte. J. Goody.

No 3—According to general order No. 49 issued April, 1907 all claimants for efficiency pay, in addition to the general conditions with regard to drill efficiency, must make an average of outers at the two shorter ranges prescribed for the musketry practice of the corps.

No. 4—In the case of infantry units without range accommodation, the qualification for efficiency pay shall in all cases, except for those hereafter mentioned as exempted, be ability to make a 50 per cent score with gallery ammunition at 25 and 50 yds.

No. 5—The following non-commissioned officers and men are exempted from the prescribed target practice;—Sergeant-Major, Bandmaster, Quartermaster Sergeant, Sergeant Drummer, Orderly Room Sergeant, Paymaster Sergeant, Pioneer Sergeant, bandsmen, grooms and cooks.

No. 6—In order to give all an opportunity to qualify for efficiency pay, as required by the foregoing orders, the companies will parade for target practice at eight p.m. at the drill hall as follows;—

Monday—Cos. F. and H.
Wednesday—Cos. D. and E.
Fridays—B. and G.
Saturdays—A. and C

No 7—The commanding officer has been pleased to make the following promotion;—F. Co., to be Corporal, provisionally, Pte. B. C. Kingscote.

By order,
D. WALKER (Capt.)
Adjutant

WON WITH AN EGG

Lexington, Ky., May 13.—Thomas Tally, of Mayslick wrote the words "Wife Wanted" on an egg and signed his name and address beneath. Now he is engaged to Miss Edith Fleming of Readville, Mass. The eggs were sold to a Boston produce man. The wholesaler sold to a Readville retailer and Miss Fleming drew the prize. She wrote to Tally and to the correspondence, a June wedding will follow.

Peterborough's Manufacturers Kick on Inter-Switch Rates

Charged by the Railways—In Some Cases it Prohibits the Firms Shipping to Outside Points—Claim That $2.00 Per Car is Sufficient.

A special meeting of the Board of Trade was held last night in the Council Chamber, when there was an average attendance, although it was nearly half past eight, before they all arrived. President Dr. Morrison was in the chair, and after the communications were read, the first matter taken up was the exorbitant rates charged by railways for interswitching. It is a matter the Toronto Board of Trade is taking up and the Peterborough Board was asked to assist. Several manufacturers in the city were communicated with and those affected were unanimous in stating that the charges were far too much, and in some cases it prohibited them shipping to outside places.

Secretary T. Q. Quartermaine was ill and unable to be present. This is the first meeting he has missed for a long time. Mr. F. D. Kerr was elected secretary pro tem.

Letters were received from Mr. K. Eardley-Wilmot of Perth, and E. B. Edwards, K. C., of Edmonton, thanking the Board for the resolutions passed at the last annual meeting, expressive of appreciation of their services to the Board in the past.

A letter was received from the secretary of the Toronto Board of Trade informing the local Board that they were taking up the question of interswitching rates charged by the railways. The latter asked that if the city had any objections to the rates charged to send them to him and he would see that they were brought before the commission.

The president, Dr. M. A. Morrison said that he had instructed the secretary to write many of the leading manufacturing industries in the city and secure their opinions.

Replies were received from the following,—

The Peterborough Sandstone Brick Co., who said it cost them this year $6.00 to $7.00 per car for interswitching from the C.P.R. to the G.T.R. where last year it cost only $2.00 per car. This shut them out of a good deal of outside trade.

The Peterborough Lumber Co. stated that they considered that $2.00 per car was sufficient for the short haul and short time required.

The George Matthews Co., who pay $2,000 per year, interswitching charges, consider the rate exorbitant, as the G.T.R. only has to tranship from its own siding to the company's siding, a distance of less than half a mile. They thought a fair charge would be $2.00 per car, for a haul of half a mile or less, for a haul of more than half and less than a mile, $2.50; where the distance is one or two miles, $3.00 per car.

Some of the manufacturers written to, were not affected by the interswitching charges, as some of them had their own switches in, and in other cases the railways paid the switching charges, and therefore the companies were not affected.

The companies, which replied to the secretary's letter who were affected by the inter-switching charges were unanimously opposed to the rates and stated that they were exorbitant. The rate they thought would be satisfactory, would be $2.00 per car as it formerly was.

Mr. Dodds, C. P. R. agent was asked to give some light on the subject, but he said that owing to his humble position as representing the C. P. R. and owing to the absence of any representative of the G.T.R. present, he would not like to go into the question. He did state that so far as the Railway Commission was concerned, they had as yet, absolutely nothing to do with the rate charged. All he could say was that he had not yet collected any interswitching charges. (What the Grand Trunk did he could not say.

Moved by Mr. Hughes-Charles and seconded by Mr. E. F. Clarry, that the matter be referred to the Railway Committee to deal with, and with power to act. Carried.

The Railway Committee will meet in a short time and get the matter settled as soon as possible.

Regiment Goes to St. Kitts. For the Annual Outing

The Annual trip of the 57th Regiment will be held to St. Catharines this year. This was decided on a meeting of the officers last night, when a report was presented by the trip committee who have been considering the matter for some time The question had narrowed down to the consideration of two places, St. Catharines and Brockville, and the majority of the officers preferred the former place. Then, too, the St. Kitts trip is cheaper, than the one to Brockville. The railway fare is 25 cents per man less, and while this does not appear to be very large, it amounts to a considerable sum, when the number of men taken along, about 350 is reckoned.

The regiment will leave Peterborough, on Saturday night, June 29, and will arrive home, early Tuesday morning. The trip will likely be made by G.T.R. and St. Catharines will be reached early Sunday morning. The details of the trip have not yet been arranged for. It is understood that the entertainment of the regiment at St. Catharines will consist of a trip to Niagara Falls on the electric cars and a grand military tatoo, on Monday evening July 1st.

The trip to St. Kitts should be a splendid outing, as that city is the centre of the famous "Garden of Ontario" and possesses many natural attractions. Electric cars run to Niagara Falls, and the Peterborough boys will have an opportunity of seeing the famous cataract.

While in St. Catharines, the 57th will be the guests of the 19th regiment of that city. The 19th is a four company regiment, and the commanding officer is Lt.-Col. J. B. Campbell.

President M. A. Morrison Read An Address to Board of Trade

Speaks of the Early Completion of the Trent Canal—Importance of Cheap Power—Working Men's Houses—Municipal Ownership—Labor Troubles.

President Dr. Morrison, said that as yet he had not announced any policy for the Board of Trade for this year. There was really no fixed policy, as the Board had to take up individual questions as they cropped up. He, however, had prepared, and read the following address last night.

The object of the Board of Trade is to be an advisory board to the City Council, also to further the mercantile, manufacturing and business interests of the city; to render services when called upon, in cases of labor difficulties and to generally assist in the advancement and upbuilding of the community.

It is with pleasure we note the early prospect of a promised completion of the Trent waterway, the Government having placed $700,000.00 in the appropriations for commencement of the work on the Trenton end, indicates its belief in the canal as a national undertaking. With the completion of the canal in sight, the transportation question will, so far as Peterborough is concerned, soon be solved. It will result in a large saving to the manufacturers and heavy shippers, and should save thousands of dollars annually to the citizens of this city, in fuel alone.

The wisdom of this expenditure is not doubted, especially by those conversant with the conditions. It will place Peterborough on one of the main thoroughfares, which leads from the wheat fields of the West, to the consumer in the East, and let me here diverge, to say that with the Hudson's Bay route, the Georgian Bay Canal, the Welland Canal, and the Trent Canal, and three transcontinental railways yet, the transportation facilities will be inadequate to move the tremendous amount of grain that the three prairie provinces will grow, and carry back to them the products of the East. Last year the Western provinces raised two hundred million bushels of grain on seven and a half million acres. They have two hundred million acres of grain producing lands.

Mr. Geo. Johnson, Dominion Statistician, puts it in this way,—If we divide the wheat growing lands of the West in squares, each of which would feed the British Empire, taking the average crop in Manitoba, for the last eighteen years, there would be 67 squares. Another said, that if one-sixth of the wheat growing lands of the West had half a crop, there would be grain enough to run a train of forty cars, one thousand bushels to the car, every twenty minutes the year round. Then gentlemen with such facts as these before us, the spouts cannot become too numerous and we would urge upon the Government to make great haste to complete this Trent route.

Another question of great interest to Peterborough, and one that should be grappled with at once, is the power question. A few years ago, we held out as inducements for manufacturers to locate here, cheap power, and we were looked upon as holding a position of 'splendid isolation,' so far as cheap power was concerned, but things have changed. Since the Hydro-Power Commissioners have announced that they can get power at Niagara for $10 a h.p. per annum and that Toronto can be supplied for little more than $15.00, per h.p. this puts us in a position where we must bestir ourselves to be able to compete with municipalities of Western Ontario The City should get control of the best water power within reach and hold it for future purposes. We are not building for this generation alone, but for generations to come. Then let us lay well and strong the foundations, that the superstructure may stand forth in its beauty, a home for thousands of happy citizens.

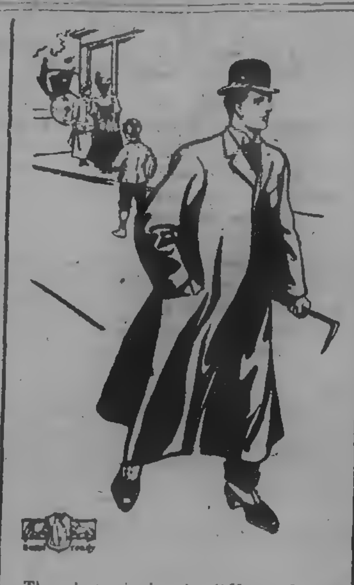
Next to the power question is that of workingmen's houses. At the present high price of the commodities of life, the man who is entirely dependent on his day's wages, cannot afford to pay a rental of $15, $18 or $20 per month. In order to live comfortably, give his family an education, and save a little for a rainy day, he must get a home for from $8.00 to $12.00 a month, and as there is a great dearth of this class of house, it will be good policy for those contemplating building, to consider whether they could not build two houses where they intended building one, especially in the districts adjacent to manufacturing industries, and where land is at a reasonable price.

We will be face to face with the question of municipal ownership in a very short time, when the Council will ask the people whether or not they want to go into municipal lighting and heating.... Thus far our experience with municipal ownership has been profitable, thanks no doubt to the able management, but let us go slowly, and be sure of solid ground before we take the next leap.

I regret to have to refer to the labor trouble now existing between the artisans of one factory and their employers, and also between the teamsters and the Board of Works. We all know that these disputes are neither pleasant or profitable to the workmen or their employers, and I would suggest that these parties might well request our Arbitration Committee of which Mr. R. E. Wood is Chairman, to take the matter in hand and deal with it.

In conclusion gentlemen, I would request your most hearty and loyal support in making this Board a progressive and powerful organization in this community. As your president, I am only a unit and cannot do much myself, but with the united support of the membership we can become a potent factor in the upbuilding and beautifying of this rising city.

I think I am voicing the sentiments of the members of the Board, when I say that I am pleased with the interest, His Worship, Mayor McWilliams is taking in the operations of the Board. I can assure His Worship that he will find a solid phalanx behind him in the members of this organization, in any undertakings that the Council may initiate for the advancement of Peterborough.



There has arrived at the "House of Satisfaction" a splendid showing of the famous "Imperva" Rain Coat—a coat which is waterproof and windproof—and has the fine texture which makes it equally acceptable as a general Spring Overcoat.

CLOSING OF BIBLE CLUB

The Social Bible Club of the Y.M.C.A., held a closing banquet in the building last evening, which was a fitting wind up of the season's work. Short speeches followed the repast, and a strong expression of appreciation of the services of Dr. J. B. Middleton, as leader, was given. The boys spoke of the helpfulness of the studies in the club, during the fall and winter of 1906-07.

85

THE CITY AND VICINITY

EVENTS TO-NIGHT

Grand Opera House—"That Irish Boarder."

Oriental Hotel—City Baseball League meeting.

Y.M.C.A.—Intermediate City League baseball meeting.

Exhibition Grounds — Football match.

Mark street church—Quarterly Official Board.

Charlotte street church — Annual temperance meeting.

St. John's church—Union meeting of Brotherhood of St. Andrew.

City hall—Board of Works.

NOTHING DOING

There was nothing doing in police court this morning. All was quiet.

NEW HOUSES

Mr M A McNamara is erecting two new brick houses on Townsend street, and also two on Stewart street.

NEW COTTAGE.

Work was started yesterday on the handsome new cottage which Dr. B. R. Poole will erect at Chemong Park.

COTTAGE MEETING.

Rev. E. A. Langfeldt will hold his weekly Cottage Meeting on Wednesday, May 22nd, at the residence of Mr. George Curtis, brickyard, at 8.30 p.m.

BOARD OF WORKS

The Board of Works Committee will meet this evening at Mark street at half-past seven to decide where to build the new walks. Afterwards a meeting will be held at the city hall.

IN GOOD SHAPE.

The Cobourg Electric Light and Waterworks Co. have expended over six thousand dollars in improvements during the past winter. The plant in now in good shape.—Cobourg Post.

CLOSING CONCERT.

The Gymnasium Closing Concert of the Y.W.C.A. will be repeated in the Y.M.C.A. hall on Thursday evening, May 16th, at eight o'clock. In addition to former programme there will be an exhibition of fencing, given by Miss Mary Hamilton, physical directress of the Y.W.C.A. Kingston, and Miss I Coventry. Admission 25c and 15c.

THEY BELIEVE IN IT.

Every year the firm of Grafton & Co., secure Y.M.C.A. memberships for their employees in all their branches besides liberally supporting the association in their own town. The treasurer of the local Y.M.C.A. received a cheque a few days ago, for the Peterborough store.

CHEMONG BRIDGE.

Mr. John Belcher reports that the Chemong bridge was given a serious test, and stood it like a stone wall. The wind was blowing up the lake at a regular gale, and the waves were going right over the top of it. Mr. Belcher was driving over, and he had to keep the horse on the jump all the way over to prevent it being washed into the lake. The bridge rocked from side to side like a cradle on top of a tree. But he got over safe and sound, and the bridge is none the worse.

DANGEROUS PRACTICE.

Saturday's two accidents to Mr. J. A. Brown's property, the burning of the barn and the breaking of the plate glass window, certainly demands the attention of the police. The causes of both was due, no doubt, to the carelessness of boys and it is really too bad that our property owners have to suffer in this manner. Mr. Brown recently purchased this block and it is his intention to beautify it, but here at the outset he is confronted with a loss of $700 or $800. It is high time that the young element of this town were made to conduct themselves in a different manner.—Port Hope Guide.

ADVISORY BOARD.

The Advisory Board of St. Luke's Church, which was to have met this evening, will not meet until next week.

EXHIBITION BOARD.

The Peterborough Industrial Exhibition Executive will meet on Friday night in the office of President Leary. Arrangements will be made to publish the prize lists.

THE UNIVERSE.

Rev. Dr. Marsh of Springville, will lecture in the Y.M.C.A. hall on Friday evening next on "How Big is the Universe."

SEE PAGE THREE

For general and local sporting notes, building operations in Peterborough, and other local news, see page three.

TAKE IT TO "MY VALET."

If you have a spring suit you would like to have cleaned, ready to put on when the weather permits "My Valet" will clean it properly, press it and send it home. Both phones. Wesley Bros., 204 Charlotte-st. dtf

QUICK WORK.

Messrs. A. Brown & Co., real estate agents, on Thursday morning last, received instructions to sell five city lots in Vancouver, B. C., and before six o'clock, the same evening, had sold them at a good figure.

BROKE COLLAR BONE.

Willie Harris, the four-year-old son of Mr. and Mrs. Albert Harris of John street, had the misfortune a few days ago, to break his collar bone. The little fellow was playing at the top of the stairs and not noticing what he was doing, missed his footing and fell headlong down the steps, inflicting the above mentioned injury.

BAD ANKLE CUT.

A youth by the name of George Mercier, working for the Peterborough Lumber Co. met with an accident in the sawmill this morning. He sustained a nasty gash on the outside of his left leg, at the ankle by his foot coming in contact with a saw. He was removed to his home at the corner of Sophia and Burnham streets.

EYES EXAMINED.

Our specialist, J. W Browett, Dr. of Optics, of Philadelphia, who is teaching opticians throughout Ontario, and has recently made Peterborough his home, has just returned from a most successful teaching tour to Meaford, Collingwood and Toronto. At these places hundreds of persons took the opportunity of his visit to have their eyes examined for glasses, and some to have artificial eyes fitted. Mr. Browett will now spend two busy weeks at his home office.

Elected Moderator of Toronto Synod

Rev Peter Duncan, of Colborne, Ont., in Presbytery of Peterborough, has been elected unanimously Moderator of the Synod of Toronto and Kingston.

The Synod honored itself in placing Mr. Duncan in the chair, after 50 years continuous service in his present charge.

NOTES OF THE DAY

Cobourg's tax rate is 17.40 mills.

General O. B. Wilcox, U. S. A. died at Cobourg, yesterday.

Cobourg's Collegiate and Public school rate is 7.60 mills.

President W. J. Tucker of Dartmouth College, has resigned.

Flour at Winnipeg, jumped another ten cents per sack, yesterday.

The Traveller's Club of London, is planning to erect a club house.

The G.T.R. cash drawer in Guelph station was forced by a thief and $4.60 taken.

HORSEMEN ARE GETTING BUSY

Observations From the Rail at Driving Park

The horsemen in the city are having a lot of fun getting their horses into shape for the meeting on the 24th of May. Nearly every day some of the fast ones are down at the track working out, and most of the steeds are in good trim. The free for all race promises to be a warm one. There will be Lady Gothard, Harry Direct and Hazel Bell, and probably several more. The owners of these three horses are all confident of winning, and they will do some fast driving. The other races will also be well filled, and the hundreds of spectators who will be at the track will see a lot of sport.

Mr Bert McCollum and Mr. Wm. Whittom are working out their horses. Whittom's Silver Queen can step a good mile, and she may be entered in one of the races.

Nellie Keswick, owned by Mr. Patrick Hickson, of Ennismore, is at Dr. Johnston's stable, and will be entered in the named race. She was given a work out yesterday and showed great speed.

Queen's Baron, the trotting stallion, owned by Dr. Johnston, was out yesterday and gave the boys an exhibition. It has a mark of 2.18, and, for the first time out, stepped very fast. The track is not in very good condition yet, and the horse hurt one of its front legs.

Wm Leith, of Millbrook, will arrive in the city this week with a string of three fast horses. He will take up his quarters at the track and will train here all summer. Besides the horses he brings with him he expects to get several more to handle.

As yet the track at the Driving Park is not in very good shape, but the Turf Club is working at it, and in a few days it will be very fast.

Lady Gothard and Harry Direct have been working all spring and are in good condition. These two well known horses will go faster this year than ever. Watch them step on the 24th.

The pathetic side of the Thaw-White Case will be shown in magnificent moving pictures, at Scott's Colloseum, 432 George St. All parents should make an effort to be present to see these pictures and learn the moral necessity devolving on them, to enlighten their children as to what they may resist the temptations that many may beset them. Special effort has been put forward to get the moral effect of this great case and in doing so, great expense has been incurred, but admission price will be the usual five cents. Thursday, Friday and Saturday only, so come early.

Performances, 2 to 5 and 7 to 10 p.m.

ANOTHER DOG MEETS DEATH

Mr. Wm. Madill's Fox Terrier Victim of the Dog Poisoner

Mr Wm. Madill's fox terrier, "Sport," fell a victim to the lure of the dog poisoner this morning, and as a result has gone the way which all dogs go sooner or later—the sooner the better, according to the philosophy of the dog poisoner. "Sport" made his exit about ten o'clock this morning, death taking him in its cold embrace as he trotted peacefully along Aylmer street.

Mr Madill valued his fox terrier very much and would like to get hold of the man who put out the poison.

PERSONAL

Mr. A. T. Hicks of Trenton, is in the city.

Mr. Geo. H. Grills of Belleville is in the city.

Mr. W. J. Bragg of Bowmanville, is in the city.

Mrs. K Eardley-Wilmot, of Perth, is in the city visiting friends.

Mr. B. C. Scott, of Victoria, B.C is registered at the National.

Mr. R. J. Oliver, of Smith's Falls was in the city yesterday on business.

Mr. John Jenkins, a well-known insurance man of Montreal, is in the city.

Mr. George Schneider, jr., is confined to his home, with an attack of la grippe.

Messrs. A. W. Cliffe and Colin E. Williams of London, Eng., are registered at the Oriental.

Mrs. Will Johns, of Cleveland, Ohio, is the guest of her mother, Mrs. Aaron Cox, Scott street.

Mr. J. T. C. Lang went to Millbrook today to attend the funeral of his uncle, the late Wm. O'Brian.

The many friends of Capt. W. C. Ackerman of B. F. Ackerman, Son & Co., and Miss Edith Mabel Hewitt daughter of the late Mr. and Mrs. Alex. Hewitt, of Stirling, will be pleased to learn that they were united in the holy bonds of matrimony at 12.30 o'clock today. The ceremony, which was a quiet one, was performed in Christ's Church Cathedral, Montreal, by Rev. Dr. Symonds.

Miss Ida Alma Williams of Hamilton, died last night.

THE NEW YORK STOCK MARKET

New York, May 15.—Influenced by lower London prices and offerings from abroad, and by the bearish sentiment springing from the Del. and Hudson meeting yesterday, the market opened quite soft, although trading was very dull and there did not seem to be much pressure of long stock. Professional sentiment was very pessimistic, but traders were not inclined to push the advantage too far, being in fear of the Harriman party's bullish activities.

American stocks in London were inclined to sell off, losing 1-8 to 1-2 all around. Consols continued to sag, declining 3-16 and the copper stocks were lower. Foreign houses sold moderately on balance.

About noon a rumor that the Interstate Commerce Commission's report on the Harriman roads would be made public shortly, and that it would be very unfavorable to Harriman caused a quick break in the Harriman stocks, and the market generally responded, selling considerably lower. Union Pacific lost over 4 points. Ther was good support at the decline, however, and the market later, under the lead of Nat. Lead had a good rally. The close was firm.

Wheat was weaker on selling by pit traders and lost ground on the day, although weather reports are as bad as ever. Corn was very strong and was up a cent at one time, later selling off with wheat. Oats were weak all day.

ROLLER HOCKEY

A roller hockey practice was held after the skating was over at the Charlotte street rink last night. Two teams lined up and worked out for about an hour. A big improvement was noticeable in the way the men handled themselves and some nice stick handling and combination were in evidences. Practices will now be held regularly and Peterborough should have a fast team in a short time. It is not unlikely that a match will be played with a septette picked from the Peterborough lacrosse team at an early date. Arrangements are now under way.

LACROSSE

JUNIOR PRACTICE

A full practice of the Junior Shamrocks will be held at Riverside Park tonight at eight o'clock. Every man is asked to turn out as it is necessary to get into shape for the game in Millbrook on May 24.

BASEBALL

INTERMEDIATE LEAGUE

A meeting of the representatives of the different teams in the intermediate city ball league, will be held at the Y.M.C.A. hall tonight at eight o'clock to draw up a schedule of games for the season.

D S. Curry, comptroller for Winnipeg for 23 years, has resigned.

Bishop Ingram of London, will be in Ottawa from the 9th to 11th of June.

Specialist Will be at Peterborough May 15th to 30th

After a most successful visit in his capacity as teacher of opticians, the Specialist, J. W. BROWETT, will return from Toronto on Wednesday next to his home office at our store. Hundreds of persons took the opportunity of his visit to have their eyes examined for glasses, and now we bespeak a BUSY TWO WEEKS IN PETERBOROUGH. Mr. Browett's work is so thoroughly satisfactory and is getting to be known in this city where he has made his home and headquarters. We are booking appointments for May 15th to 30th.

McDERMID & JURY'S DRUG STORE, PETERBOROUGH.

Ladies' Aid of Park St. Church

Held Meeting Last Night—Officers Were Elected

A meeting of the Park street Baptist church Ladies' Circle was held last night. The president, Miss M. Mann, was in the chair. The minutes of last meeting were read and confirmed.

Arrangements were made for the annual meeting, which will be held on Tuesday, May 21st. An address will be given by Rev. J. R. Webb, pastor of Murray street church, and an interesting programme will be given. Refreshments will be served by the ladies and a liberal silver collection will be asked for. The proceeds will be divided between home and foreign missions.

ELECTION OF OFFICERS

The result of the election of officers, is as follows:

Hon Pres. Mrs. (Rev) A H Brace.
Pres., Miss M. Mann.
Vice Pres., Mrs. M. Mowry.
Sec., Mrs. Jos. Johnston.
Treas., Mrs. R. Wright.

The delegates appointed to the Port Hope Association in June were Mrs. A. H. Brace and Mrs. Wright. Two new members were voted in during the quarter.

The Cottages are Out of Danger

A Good Shower of Rain Would Extinguish the Fire

Mr. Chas. Brown returned from his cottage at Kawartha Park, Clear Lake, last evening, and says that the fire on the Dickson Co.'s limits which started on Sunday, is still raging, but the cottages are out of danger. The flames are working towards the Burleigh road and Mr. Ayotte's house, which is situated close to the road, is now in more danger than the summer houses, on account of the fire changing its course. A good shower of rain is what is needed to put the fire out.

JUNE SESSION

The June Session of the Peterborough County Council will be begun on Tuesday, June 18. Considerable important business will come up for consideration.

Mrs. Jane Gordon, aged 79, of Hamilton, is dead.

BUILDING PERMITS

PASSED AWAY IN NEWMARKET

Mother of Mr. A. A. Hollingshead of This City Died Last Night

The many friends of Mr. A. A. Hollingshead, local manager of the Bank of Ottawa, will sympathize with him in the loss of his mother, who passed away at the family residence in Newmarket, Ont., last night.

It was only in January last that Mr. Hollingshead's father died, and he is thus called upon to bear a double bereavement. Mrs. Hollingshead, who had attained an advanced age, had been ailing for some time past. Mr. Hollingshead was at her bedside, when the final summons came.

HO! FOR TORONTO

On Saturday, May 18th, King's Plate Day. Return fare by G.T.R. only $2.05. Train leaves 7.20 a.m., reaching city at 10.10 o'clock, in ample time to get dinner and witness afternoon's attractions. Returning, train leaves Toronto at 7.05 p.m., reaching home at 10 o'clock. Tickets good until Monday. Secure your tickets at G.T.R. City Ticket Office, W BUNTON, Agent.

BROTHERHOOD MEN

Interesting Union Meeting Held in St. John's School Last Night.

A splendid meeting of the Peterborough combined Chapters of the Brotherhood of St. Andrew was held last night in St. John's school house. Mr. R. J. Devey, director of St. John's Chapter, presided, supported by Canon Davidson, Mr. A. Kingscote, director of St. Luke's Chapter; Mr. Bennett, Mr. F. Linton, Mr. J. R. Bell and a good muster of Brotherhood men. The meeting opened with devotional exercises, and at once proceeded to discuss the ways and means of sending a delegate to the Dominion convention at Winnipeg, on May 25th. After Messrs. Bell and Bennett had presented their reports, a long discussion ended in the members present pledging themselves to procure the necessary $50 by Saturday at noon. Mr. Jos Bell Mr. Bennett and Mr. McCollum were nominated, and a ballot resulted in the election of Mr. A. McCollum, whose election was then made unanimous. Although St. John's Chapter in voting strength was about 8 to 1, a most pleasing feature was the election of a member of St. Luke's Chapter for the honor of representing Peterborough at this important convention. The funds are being provided by the three city Chapters.

The St. John's Chapter hold a fellowship tea in the Sunday school at 5 p.m. on Sunday next, at which a large number of new comers to the city are to be entertained and given a cordial welcome.

Go to Toronto on Saturday by Special Canadian Pacific Train, leaving at 10 a.m., returning at 11.30 p.m., or any regular train on Saturday, Sunday or Monday. Special fare is only $2.05. See the King's Plate and Jersey City and Toronto Baseball teams play.

THE STORE THAT NEVER DISAPPOINTS.

New Armouries Will Make Changes in Militia Circles

Regiment Will Then Likely do Most of its Training in Winter Months Which Will be Big Improvement

When the new armories are completed it is likely that there will be an important change made in the drill system of the local regiment. At the present time practically all the drilling is done during the spring and summer, and this is not as satisfactory as it might be. The weather is often too hot for active work and there are so many other things going on that it is sometimes difficult to get the men out to drill. When the armories are completed, it is the intention to have nearly all the drilling done in the winter. The spacious floor of the new hall will make winter drill quite feasible and it is thought that the men will turn out much better in the winter than in the summer. The evenings are long, and there is not a man in the regiment who will not be willing to turn out at least one night per week during the winter. The armories will be well heated and will be comfortable and well suited for winter drilling in every respect. When the drilling is done in the winter the regiment will only have to indulge in light work during the late spring and summer months in order to keep in shape for inspection.

The 57th Regiment, 24th Field Battery, Dragoons, and all other local military establishments will all have their quarters at the new drill hall when it is completed, and the military men are looking forward with pleasant anticipation to the day when their new quarters will be ready.

Railway's New Rates Make No Change at Peterborough

The order issued a couple of months ago by the Dominion Railway Commission, directing the railway companies to put into effect tariffs giving a three-cent rate on all lines, went into effect yesterday. It means that reductions have been made for travel in some instances, and increases in others, though the reductions considerably outweigh the advances as a whole.

Ontario is not greatly affected by the new tariffs, which were sent out yesterday by the companies. On the C.P.R. the rates to such points as Montreal, London, Woodstock, Ingersoll, Detroit, Chatham, Milton, Owen Sound, and other places in western Ontario, apparently remains as they were. To Peterborough, Havelock and other eastern points in Ontario, there are no changes. The fare from Toronto to Ottawa is reduced 15 cents. It is now $7.70 and was formerly $7.85.

On the Grand Trunk the only changes of which the officials were advised here are between Toronto, and Hamilton and Toronto and Guelph. The Canadian Pacific is equally effected to these points. Now the rate from Toronto to Hamilton will be $1.15 and to Guelph $1,45. The rates before, respectively, were $1.20 and $1.50. The greatest change in Ontario will be between Toronto and points east toward Montreal, but not to the latter city itself, as the rate on both roads has been $10 which is only three cents a mile. But what these changes to intermediate stations are, will be learned as quickly as the G.T.R. tariff arrives

Under the present order a flat rate for the year round is quoted. This ignores the system formerly followed by the railways of giving summer and winter rates. For this reason there are some increases.

From Montreal to Quebec, for instance, the rate heretofore has been $4.50 in the winter and $4 in the summer. The agreed distance is 163 miles The two roads agree to this mileage, although it is somewhat longer by one than the other. Now, the flat rate is $4.90. Similarly between Montreal and Three Rivers, the old rates were quoted on the C.P.R. as $2 for the summer and $2.55 for the winter. It is now $2.50 flat rate.

In all cases where advised from the head offices, the new tariffs were put into effect by passenger agents yesterday, but the G. T. R. complete tariff has not reached here yet.

A WONDERFUL CURE OF
RHEUMATISM

THE CAUSE An excess of uric acid and ureates are deposited in the tissues of the body and joints, causing aches and pains which are called rheumatic.

All the various causes of rheumatism, such as the acute, articular, muscular and gout, have the same common cause—**Uric Acid.**

To effect a satisfactory cure the uric acid must be removed. This can only be done by introducing into the circulation a remedy which will dissolve the uric acid and stimulate the action of the excretory organs.

No Case That Ferrozone Can't Cure

The remarkable success of Ferrozone is due to the fact that it attacks the disease in the blood. It goes right to the root and cause of the trouble.

Ferrozone is a perfect solvent for uric acid and quickly destroys its evil effect. It stimulates and quickens the sluggish circulation and drives every trace of rheumatic poison out of the system.

Rheumatism Can't Last If FERROZONE Is Used.

We have conclusive proof of this. The strongest possible endorsements from people who have been cured after all else failed. If you suffer from rheumatism yourself, or in case you have a friend or relative subject to this disease, read the following—they tell their own tale.

LIFE-LONG CRIPPLE CURED

Mr. Louis Noll, 15 Fulton street, New York, N. Y., writes: "Ever since boyhood I have been a sufferer from rheumatism. My joints were twisted and swollen, and the pain at times was really intense. I used gallons of liniments, vapor baths, and other treatments, but was first noticeably relieved by Ferrozone. It cured me perfectly after taking twelve boxes."

Mr. Henry Heer, Pharmacist, 23 Eldridge Ave., New York, vouches for Mr. Noll's absolute cure. He says: "Mr. Noll has been freed from chronic rheumatism by Ferrozone. For years he has not been so well, and today shows no signs of rheumatic trouble. It is a pleasure to recommend Ferrozone."

The BEST remedy for rheumatism that science has produced is Ferrozone—it is unquestionably the only sure and lasting cure. Sold everywhere by druggists. Price 50c per box or six boxes for $2.50—by mail to any address if price is forwarded to N. C. POLSON & CO., Kingston, Ont., and Hartford, Conn., U.S.A.

FERROZONE, THE ONE SURE CURE.

Strike Growing More Serious; Latest Phase of Situation

Montreal Teamsters Now Join the Longshoremen.

Say They Have Grievance of Their Own—Not in Sympathy With Others—Shipping Federation Calls For Immediate Government Action—Police Are on the Alert—Complete Tie-Up of Freight Likely.

Montreal, May 16.—The longshoremen's strike in the port of Montreal is gradually approaching a crisis. While yesterday there had not been any further outbreak among the men the strikers are becoming very restive and trouble is feared before long. Neither side have so far given the slightest indication of yielding, and claim to be confident of victory. Some 1,800 men reported at union headquarters yesterday. Hon. R. Lemieux, Minister of Labor, was communicated with at Fraserville, Que., yesterday by the shipping federation, asking for the enforcement of the Conciliation Act dealing with strikes, but he wired for them to take up the matter with Deputy Minister at Ottawa. It was not thought Mr. Lemieux will take a hand in the matter unless more serious trouble develops.

Vessels Get Help.

Owing to the strikers not attacking the non-union men the steamship companies are steadily getting more men to work and yesterday morning the C. P. R. steamer Lake Manitoba cleared at the usual hour. Nearly all the cargo had been placed on board. Steamers leaving at the end of the week will clear with light cargoes in order to make their sailing dates.

Freight is accumulating very fast on the wharves, and every hour means that it has become more difficult to unravel the tie-up.

The exact situation was that each side was marking-time to see what action the other would take.

Papers Condemn Men.

Nearly all the local papers claim editorially that the men had no right to go out on such short notice, and the steamship companies are making the most of the support from this quarter.

No disorders have yet taken place, apart from the attack on some men working on vessels Tuesday, and this was soon suppressed.

It was proposed to arrest the leaders of the strike, under the clauses of the new act, but it was apparently decided yesterday that such an act might do more harm than good, especially as the act has not yet been tested in the courts, and there would necessarily be great delay in obtaining a conviction under it.

Teamsters Go Out.

The longshoremen on strike were joined by the teamsters of the Shedden Forwarding Co. yesterday. In the afternoon 155 teamsters employed by Cunningham & Wells went on strike for higher wages. There are now over 400 teamsters out, and it is said that by noon to-day Montreal may be in the grip of a general teamsters' strike. The move of the Shedden Co.'s men is understood to be merely the signal for the entire local body of city teamsters to come into the field for more wages. The chief transfer companies of Montreal expected that their employes would be on strike this morning. This statement is founded on the expressed opinions of several of the largest local employers of teamsters. Those who will be most seriously affected are:

Cunningham & Wells, employers of nearly 250 men.

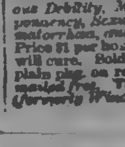
Meldrum Bros., 250 men.

Canadian Transport Co. (C. P. R.), over 400 men.

Terminal Warehouse & Cartage Co., about 200 men.

Canadian Transfer Co. (Great Northern), between 125 and 150 men.

Daniel Donnelly, about 200 men.



Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet mailed free.* **The Wood Medicine Co.** *(formerly Windsor)* **Toronto, Ont.**

FREIGHT PILING UP.

Ottawa Teamsters Still Hang Out For More Pay.

Ottawa, May 16.—The Dominion Transport Company, whose staff of 23 teamsters went on strike Thursday for an advance of $4 per month, have not been able to procure men and the freight which should be delivered in the city, is accumulating. Over 100 cars are standing on the C. P. R. tracks at the Union Depot, and there are no men to relieve the situation. A report that one of the C. P. R. freight handlers was discharged because he persuaded new hands employed by the transport company not to work, is denied by C.P.R. officials, who say the railway company is not directly concerned in the strike. City merchants are beginning to send special carters to the station for their freight.

May Municipalize Cars.

San Francisco, May 16.—The United Railroads operated over 100 cars Tuesday, and everything passed off quietly outside of the district south of Market street. Here hoodlums kept up a riotous demonstration, and beat and abused many passengers and carmen. Fifty thousand persons rode Tuesday.

The carmen are now directing their energies towards formulating a plan for the municipal ownership of the street railroads, and L. D. Mahon, president of the Association of Street Railway Employes of America, expresses the belief that this will follow the present car strike.

Draw Color Line.

Seattle, Wash., May 16.—The entertainment committee of Christian Endeavor Societies of Seattle, having in charge preparations for the National Christian Endeavor Convention, to be held here in July, Tuesday night, after considerable debate, voted that colored delegates should not be housed in the same hotels with whites.

Next Sunday is Whit Sunday.

OTHERS EQUALLY GUILTY.

May Be Further Enquiry Into Case of G. T. R. Conductor.

Toronto, May 16.—A communication from Justice Riddell was received by the Attorney-General's Department yesterday, recommending that further enquiries be made in the case of G. T. R. Conductor Thompson, who was sentenced to three years in penitentiary for neglecting his duty and thereby causing an accident on the line.

The judge does not suggest that there should be any amelioration of Thompson's sentence, but without mentioning any names, he intimates that there were officials who should have seen to it that Thompson should not work a longer period in the day than the legal number of hours, and the inference to be drawn from his letter is that these parties are as deserving of punishment as Thompson.

The communication had not reached Premier Whitney, who during Mr. Foy's absence is acting Attorney-General, so that nothing has been decided as yet as to the course the department will adopt in the matter.

CARUSO DROPS APPEAL.

Has Paid $10 Fine Imposed For Pinching Woman.

New York, May 16.—Endico Caruso, leading tenor in the Metropolitan Opera House, who was convicted of having annoyed Mrs. Hannah Graham in the monkey-house in Central Park, and fined $10, will take no further steps to fight his conviction. His lawyers have withdrawn their notice of appeal to the Appellate Division of the Supreme Court, and Tuesday paid the fine Caruso was tried before Magistrate Baker, and although Mrs. Graham did not appear as a witness, the magistrate held that he was guilty. An appeal was taken to the General Sessions Court, which upheld the magistrate.

Married Man of Fifty.

Windsor, Ont., May 16.—Mrs. Hattie Tilden, formerly of Guelph, was here yesterday looking for two of her children, aged 4 and 6, who, she claims, were taken from her by a stepson living in Detroit. Her story was that she married her husband, a furniture manufacturer, in Guelph, when she was 16 and he was 50, going with him to live in Seattle. They were separated a couple of months ago through trouble for which she blames her stepson, and she came back to Guelph, with her children, to live. The husband returned to his former home in Hamilton, where he died in the hospital a few weeks ago, and when she went there, she claims that the stepson took her children to his home in Detroit.

Montibetti In Jail.

Macleod, Alta., May 16.—Felix Montibetti, the man charged with perjury in connection with the petition of rights action over the Blairmore townsite is confined in the R. N. W. M. P. barracks here. The preliminary was to have been heard on the 11th inst. at Frank, but owing to the non-arrival of material evidence, the case was postponed until next week. It is not at all probable that the preliminary will be concluded for over a considerable time, as there is a very voluminous amount of evidence contained in written documents and sworn statements. Bail for Montibetti was placed by the magistrates for $10,000 bonds, for which have not been forthcoming.

Looking For Train-Wreckers.

Windsor, Ont., May 16.—Detective Mahoney is looking for some parties who are believed to have made an attempt at train wrecking on the W. E. and L. S. Railway, by removing fishplates and spikes from one joint of the track. The removal of the plate was not noticed until the construction train passed over it, with Manager Warburton and a number of workmen on board. Had the train been going at any rate of speed it would have been derailed.

Will Investigate.

Ottawa, May 16.—F. F. O'Halloran left yesterday morning for Toronto to hold an enquiry into the action of Dominion Veterinary Inspector Stark of Brampton, who in March, 1906, quarantined and had slaughtered 170 lambs belonging to Edwin A. Lloyd of York County, declaring them to be diseased with sheep scab. Dr. Rutherford, chief veterinary inspector of the Dominion, whose department is affected, will be present at the enquiry.

Minister of Education In London.

London, May 16.—Hon. Dr. Pyne, Minister of Education, arrived in the city yesterday, and was met at the station by Hon. Adam Beck and others representing the board of education. Dr. Pyne visited the Collegiate Institute, the Normal School and one or two of the principal public schools.

He was entertained at the home of Hon. Mr. Beck, who also entertained the members of the board of education at luncheon.

Money For Improvements.

Ottawa, May 16.—The Ottawa improvement commission has only $55,000 to spend this season, an amount much less than the city board of works. For new works there will be $25,000 and for maintenance $20,000. This is on account of no new grant being voted by Parliament.

Conductor Gets Government Position.

Ottawa, May 16.—Mr. James Clarke, who has been for twenty years a conductor with the Canada Atlantic Railway, now the Grand Trunk Railway, has been appointed inspector of accidents and rolling stock by the board of railway commissioners.

Hull to Have Postal Delivery.

Ottawa, May 16.—The City of Hull is to have a postal delivery system, provided the revenue from the Hull postoffice can be increased to $20,000, the amount fixed by the Postmaster-General.

Brakeman Killed.

Redding, Cal., May 16.—A northbound Portland passenger train on the Southern Pacific was run into by two light engines at Copely. A brakeman was instantly killed.

Ingersoll Conservatives elected Dr. Coleridge as their president last night.

FINCH AGAIN FIRESWEPT

Second Conflagration Completes the Devastation.

Greater Portion of Village Now In Ruins—Business Section All Gone—St. Luke's Presbyterian Church In Ashes—Cause of the Fire Unknown — Loss $65,000, With But Little Insurance.

Cornwall, May 16.—The Village of Finch, which was visited by a bad fire on Monday, losing about a dozen buildings and contents, valued at over $30,000, was the scene of another conflagration Tuesday night, when the remainder of the business section of the town was wiped out. The losses are:

J. W. Low's general store and building, $23,000; R. M. Fibuthnot's drug store, loss on building only $2,000; T. J. Hamilton's general store, $15,000, (J. Campbell owned this building); D. Nephew's grocery, $10,000; J. R. Simpson, township clerk's office; A. F. Day's stock, removed through first fire, $500, (D. M. Munroe owned this block), loss $8,000; Mrs. G. Barrige's dwelling, $200; Mr. Munroe's dwelling, $200; G. J. McDonald's tailoring shop, $4,000; Presbyterian Church, $3,500; J. M. Quay's blacksmith shop, $8,000; J. M. Campbell, barns, $1,000; Miss Masterson, milliner, $1,000; D. McKinnon, two barns, $1,800.

J. D. McDonald, aged 60 years, who owned three of the large buildings burned, was affected by the shock and had a paralytic stroke yesterday morning. Miss Grace Cameron, living three miles from here, was hurt. Frightened at the fire, her horse ran away, and she, jumping out, hurt herself.

The insurance is about $21,000.

Farmers Suffer.

Napanee, May 16.—During a heavy gale fire started in the chimney of Jacob Roblin's house, two miles from Adolphustown Village, 20 miles from Napanee, and destroyed Roblin's barn, J. M. Joyce's barn and drivehouse, J. M. Outwater's barn and drivehouse and O. R. Hawley's barn, in all about nine buildings.

TRANSFORMER STARTS FIRES.

Became Overcharged and Considerable Damage Is Done.

Sault Ste. Marie, May 16.—Owing, it is said, to a leak in one of the transformers of the Tagena Water & Light Co., a portion of the system became overcharged at four o'clock yesterday morning, resulting in a series of fires.

The bookstore owned by Cliffe, on Queen street, was completely gutted and the large stock will be a total loss. The stock was insured for $2,000 in the Anglo-American, which will not nearly cover the loss.

The offices of the Singer Sewing Machine Co. adjoining was saved, although a number of machines were destroyed.

Mrs. Sims, who occupied rooms above the bookstore, was robbed of $460 and a gold watch. The thief was arrested.

The fire also visited the C. P. R. ticket offices and freight sheds and Anderson's music store, but no serious damage resulted.

A number of other fires resulting from the same cause were reported during the day.

Try Efficiency of the Act.

Vancouver, B. C., May 16.—The efficiency of the Industrial Disputes Investigation Act from the employers standpoint is to be tested here immediately, according to the announced decision yesterday of the manager of the Marble Bay Mine.

Mackenzie King, Deputy Minister of Labor, has declined to interfere in the strike, which has tied up Texada. Yesterday the mine owners issued summons against fifty miners to appear in court to explain why they should not each pay a fine of five hundred and ten dollars. This is the first time this feature of the act has been invoked.

Lord's Day Act In the West.

Winnipeg, May 16.—Restauranteurs may sell fruits, nuts, ice cream and cigars on Sunday the same as on other days, to be consumed either on the premises or wherever it may please the customer to do so, in spite of the interpretation of the Lord's Day Act, as handed down by the police commission.

This was the substance of the decision given by Premier Roblin to a delegation of more than 100 wholesale fruit and tobacco dealers and restauranteurs at the Government Building yesterday.

Criminal Libel Charge.

Fredericton, N. B., May 16.—In addition to the civil action instituted against The Gleaner Publishing Co., Limited, for $25,000, it was learned last night that Hon. Mr. Emmerson has advised his counsel to proceed against Managing Director Sockett on a charge of criminal libel.

A warrant will be issued in a few days, if it has not been already.

Hon. A. S. White is now associated with Dr. Pugsley and Mr. Barry as counsel.

Tidal Wave on Lake Superior.

Sault Ste. Marie, May 16.—The water at this end of Lake Superior and St. Mary's River dropped two feet Tuesday night, remained two hours then rose again. Marine men are unable to account for the action, unless it was a tidal wave. No damage is reported.

Fireman Fatally Injured.

Orangeville, May 16.—Fireman Paul K. Baker of Toronto Junction had his skull fractured, and suffered other injuries, which may prove fatal, in a railway accident near here yesterday. The accident was caused by the driving shaft on the engine breaking.

Badly Beaten, Quits.

Vienna, May 16.—Herr Von Marchert, the Minister of Public Instruction, has resigned in consequence of his defeat in the elections Tuesday.

Reports from Europe indicate a low yield of wheat in all countries, except France.

CHURCHILL DENIES STORY.

Says Statements Attributed to Bond Are Fabrications.

London, May 16.—Winston Churchill, the Under-Colonial Secretary, in the House of Commons yesterday, referring to The Daily Mail's report of the closing session of the Imperial Conference Tuesday branded statements attributed to Sir Robert Bond, Premier of Newfoundland, who was quoted as denouncing the Colonial Secretary, the Earl of Elgin, for deliberately neglecting the Newfoundlanders for the sake of American interests, as an impudent falsification.

Aiming his remarks at Lord Northcliffe, he said: "I am surprised that a person recently created a peer of the realm should be willing to let a newspaper under his control employ for political objects, methods of such transparent mendacity."

He said that as he had learned that the statement had been cabled fully to the colonies, it became necessary for him to state that from the beginning to the end it was a baseless and impudent fabrication. There was nothing in The Mail statement that bore the slightest resemblance or form to what took place at the Conference

Premier Bond denies that anything "sensational" occurred at Tuesday's conference, but regretted that the Imperial Government had not met his reasonable demands. He is still hopeful that they will use their best efforts to undo the mischief caused by the modus vivendi. He is deeply disappointed at the result of his attempt to obtain justice.

DEAKIN THE MAN WHO DID.

But For Him Colonial Premiers Would Have Fared Badly.

London, May 16.—(C. A. P.)—Dr. Jameson, addressing the members of the Baltic Exchange yesterday afternoon, said it was to Premier Deakin they owed what had been got at the Conference. Referring to the Colonial Secretary, Jameson ventured to prophesy that the present arrangement would be such a failure that at the next Conference they would get what they wanted.

Lord Weardale Cromer, M. P., representing the British group, received from the Canadian Speaker an invitation to hold its next interparliamentary conference in Ottawa. Premier Laurier expresses his cordial approval.

Thomas Bent, Premier of Victoria, says wherever he went in England he heard nothing but the cry "Canada." The newspapers scarcely spoke of Australia, which glorious country is more loyal to the King than even the people at home.

The colonial statutes bill has been read a first time. Its object is to facilitate proof of colonial statutes by providing that copies of colonial laws be received as evidence in British courts, if purporting to be printed by the Government printer.

The G. T. R. has completed the purchase of additional ground for the erection of offices in Trafalgar square.

Fast Service Discovered.

London, May 16.—(C. A. P.)—The problem of the establishment of an Empire-linking mail and passenger service has caused great interest among the commercial men of the principal ports. The president of the Southampton Chamber of Commerce, though disappointed that Liverpool is named as the home port, welcomed the proposal and said that the day might come when it would be feasible to run a second line of subsidized steamers from Southampton to Canada.

Bristol, which Sir Wilfrid Laurier visited yesterday, advocates its claims as a terminal port, while Liverpool hopes if subsidies are given for a line between Liverpool and Canada, one of the existing mail lines will be favored, and that no new line will be brought into existence, as competition is already keen enough.

Three Railroad Men Killed.

Ashtabula, Ohio, May 16.—Three men Tuesday night were killed near here by Lake Shore No. 10, which struck a handcar, on which were riding four members of a railroad bridge gang. One man jumped and was uninjured. The dead included George Wall of New York.

Costly Forest Fire.

Oil City, Pa., May 16.—Extensive forest fires, which have been raging in Venango County, covering an area of ten square miles, since Sunday, were under control yesterday.

The timber loss is estimated at $75,000.

Government Sustained.

Paris, May 16.—The prolonged and heated debate in the Chamber of Deputies regarding the labor policy ended as was anticipated in a vote of confidence in the Government.

The Marathon Mystery

A Story of Manhattan

By BURTON E. STEVENSON
Author of "The Holladay Case"

Copyright, 1904, by Henry Holt and Company

"Yes," said Godfrey, "it was a pretty plot. This note lured him from the house and kept him away until the storm came up and he was forced to abandon the hope of meeting you. He concluded that you were playing with him. When he returned to the house he found that you had spent the evening with Tremaine. Afterward, in his room, he did a number of violent and foolish things. Finally he determined to go away. He started to pack his belongings—and then, in the hall, you, as he thought, added insult to injury by asking him to tell"—

She stopped him with a wild gesture.

"Oh, I must see him!" she cried. "Something must be done"—

"Something shall be done," Godfrey assured her, rising. "The real culprit shall be in custody tonight."

"The real culprit?" The words arrested her attention.

"Who but Tremaine?"

"Tremaine? But he was in the house. As you know, I talked with him for a long time."

"That is all, I think," said Godfrey.

"One thing more, Mr. Godfrey," she said. "Do you think we'd better tell Mr. Delroy the story?"

"Yes," answered Godfrey decidedly. "Tell him the whole story. That's always the best way and the safest. Remember, your lack of frankness has already cost one human life. Your sister has incurred no guilt. She has committed no fault. Her husband will have nothing to forgive."

"And the public?"

"The public? What has the public to do with it?"

"But I thought—you see—you"—

"Oh, you thought I would write it up in the Record? I have no such intention, Miss Croydon. I shall let that first tragedy rest. This second one will be enough—and, after all, Tremaine has only one life for the law to take."

"Pardon me," she said quickly, holding out her hand. "I see I have offended you. You must forgive me."

"Oh, I do," he said, taking her hand and smiling into her eyes—allowing himself a moment's reward. "Even a yellow journalist, Miss Croydon, has his reticences. That's hard to believe, isn't it?"

"Not when one knows them," she answered, and opened the door for us.

Thomas was waiting in the hall.

"Anything else, sir?" he asked.

"No," said Godfrey. "We've finished here. Now let us have our trap."

We stopped a moment in the library to say goodby to Delroy. He came forward eagerly to meet us.

"Well?" he asked. "Can you clear Jack?"

"Yes," said Godfrey, "we can. What's more, we will."

"Thank God!" and Delroy passed his hand across his forehead. "This whole thing has been a sort of terrible nightmare to me, Mr. Godfrey. I'm hoping that I may even yet wake up and find that it was all only a dream."

Godfrey smiled a little bitterly.

"I'm afraid you won't do that, Mr. Delroy," he said, "but, at least, I believe you'll find that in the end it will sweep a great unhappiness out of your life. And I'm sure that, with Mr. Lester's help, I can clear Drysdale."

Thomas came to tell us that our trap was waiting, and Delroy went down the steps with us.

"I hope to have you here some time under more favorable circumstances," he said, and shook us both warmly by the hand.

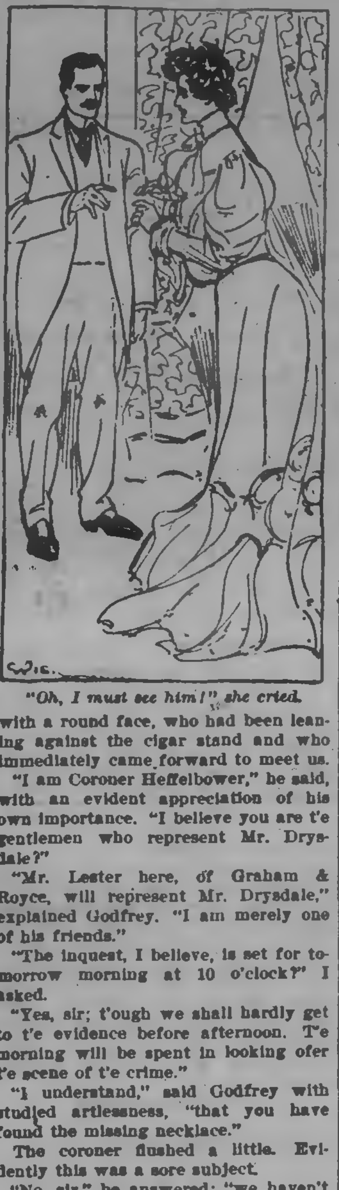
Evening had come, and the darkness deepened rapidly as we drove back along the road to Babylon.

"We can't get a train till 8:42," said Godfrey, "so we'll have dinner at the hotel and then go around for a talk with our client. I think we have some news that will cheer him up."

"It seemed to me," I observed, "that it was not at all about his arrest that he was worrying."

"It wasn't," agreed Godfrey. "That's what I meant."

The lights of Babylon gleamed out ahead, and a few minutes later we drew up before the hotel. As we entered the office I saw the proprietor cast a quick glance at a little fat man, with a round face, who had been leaning against the cigar stand and who immediately came forward to meet us.



"Oh, I must see him!" she cried.

"I am Coroner Heffelbower," he said, with an evident appreciation of his own importance. "I believe you are t'e gentlemen who represent Mr. Drysdale?"

"Mr. Lester here, of Graham & Royce, will represent Mr. Drysdale," explained Godfrey. "I am merely one of his friends."

"The inquest, I believe, is set for tomorrow morning at 10 o'clock?" I asked.

"Yes, sir; t'ough we shall hardly get to t'e evidence before afternoon. T'e morning will be spent in looking ofer t'e scene of t'e crime."

"I understand," said Godfrey with studied artlessness, "that you have found the missing necklace."

The coroner flushed a little. Evidently this was a sore subject.

"No, sir," he answered; "we haven't found it. I haf about come to t'e conclusion t'at Drysdale t'rew it into t'e pay."

"But," I objected, "he'd hardly have committed a murder in order to gain possession of it only to throw it away."

"He would if my t'eory iss right, sir," returned the coroner, with some spirit.

"What is your theory?" I asked.

"No matter, no matter." And he was fairly bloated with self importance. "You will see tomorrow."

Godfrey was looking at him, his eyes alight with mirth.

"I see," he broke in. "Accept my compliments, Mr. Heffelbower. It is the only theory which fits the case. Don't you understand, Lester? Here's a young man of wealth, who deliberately goes out and kills a man, steals a necklace and throws it into the ocean. He attempts to establish no alibi; he refuses to answer questions; after the murder he rages around in his room and breaks things; he insults the girl he's engaged to; quarrels with his best friend. Why, it's as plain as day! A man who would behave like that must be"—

"Crazy!" cried the coroner, beaming with satisfaction. "I could not haf put t'e case petter myself, sir!"

And Godfrey gravely bowed his thanks at the compliment.

To be continued.

When washing greasy dishes or pots and pans, Lever's Dry Soap (a powder) will remove the grease with the greatest ease.

An Attractive Coat With Cape Sleeves

The fashions in coats are distinctly novel in many ways and one which proves most graceful and becoming is sketched. The deep tuck over the shoulder is excellent style this year, while the cape sleeves sewed along the underside of these tucks are new and pleasing. The coat may be developed in cloth, worsted or linen, while silk is a favorite for these small wraps when they are to be worn with separate skirts. For the medium size 2 5-8 yards of 27 inch material are needed.

6906.—Five sizes, 32 to 40 inches bust measure.

The price of this pattern is 10 cents.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

FIRE PROTECTION FOR HASTINGS

Ratepayers of Village Will Hold a Mass Meeting

A meeting of the ratepayers has been called for Friday evening next to discuss what kind of fire apparatus will be purchased for the town, says the Hastings Star.

Three different systems have been considered by the council, but the only one that seemed within the present means of the village was a steam fire engine. Waterworks seemed like too heavy a proposition, and for a pump, mains would have to be laid below the frost line, and hydrants placed in all parts of the town, making the expense almost as much as for waterworks, with none of its conveniences.

As stated last week the council have had the offer of a steam fire engine at $2,000, which the makers guarantee for five years, and at present this seems the most economical and efficient protection we are in a position to purchase, as the hose and other apparatus will bring the cost up to about $3,000.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

A woman, a political convict from Siberia, arrested in Moscow, carrying an automatic revolver with poisoned bullets, managed to shoot and wound the prison inspector, while she was being examined.

Representatives to Quarterly Board

Elected by George Street Congregation Last Night

Messrs. W. Switzer, John Carlisle, Geo. Robertson, James Edgcumbe, A. R. Kidd, W. E. McCann, T. M. McFadden, were last night elected representatives from the congregation to the Quarterly Official Board of George Street Church for the coming year. There was a large attendance of the members at the regular weekly service held last evening. Rev. Dr. Crothers gave an address on the polity of the Methodist church and constitution of the Quarterly Official and Trustee Boards.

MR. R. HARRISON WAS ELECTED

To Church Life and Work Committee—J. C. Brown on Young People's Society

At the meeting of the Synod of the Presbyterian Church in Toronto, yesterday, reports were received on mission work, and the standing committees were selected for the year. Among those appointed on the standing committees are,—Mr. Robt. Harrison, Peterborough, on Church Life and Work Committee; Mr. J. F. Clarke of Port Hope, on Evangelistic Services Committee; Mr. J. Coyle Brown, Peterborough, on Young People's Societies Committees.

Building Permits Reach $384,810

A Dozen More Issued Yesterday—Mostly for Houses

Twelve more building permits were issued yesterday by the city clerk amounting in all to $13,850. This brings the total up to $384,810 for building operations so far this year. Those taking out permits were;

G. Walter Green, machine shop on McDonnel street, cost $1,200.
H. C. Stabler, two dwellings on Pearl ave., cost $2,100 each.
H. C. Stabler, dwelling on Pearl ave., cost $1,950.
Wm. Stock, new bakery on Sherbrooke street, cost $2,500.
Jno. P. Ego, dwelling on Gladstone ave., cost $2,000.
John J. Devlin, dwelling on Cricket Place, cost $1,000.
C. G. Drain, dwelling on Reid-st. cost $1,700

Commissioners Give City $2,600

As its Half of the Liquor License Fees for the Half Year

The city treasurer has received the first distribution of the liquor license fees from the license inspector. The cheque this half year amounts to $2,594.25 which represents the half of the net receipts. This is a little less than last May when the cheque amounted to $2,620.85. In November last year, the second payment after all expenses had been deducted was $2,903.38. There are several reasons for this decline. One is that there are only 18 hotel licenses this year, instead of 19, as was the case last year. Then there is only one extension for 3 months this year, while there were two extensions for five months and one for three months last year.

Under the circumstances, the liquor license fees did very well and every two or three thousand dollars received in this way, helps to keep down the poor man's taxes. Thanks to the Whitney Government for this neat egg and several others which the municipalities never heard of while Ross and his clique were in power.

Many Citizens Attended Funeral

Of Late Charles Neill, Which Took Place This Afternoon

The remains of the late Dr. Charles Neill, whose death occurred on Tuesday on a journey from El Paso, Mexico, to Chicago, arrived in the city last evening and were taken to his brother's (Mr. Robert Neill) home on Hunter street. The late Dr. Neill has been in poor health for some time. About four years ago he contracted consumption from some patients. He practiced dentistry in this city for eight years, and only gave up his office here, that he might, if possible retain his health. After leaving Peterborough he went to Muskoka. He also spent a winter at Lake Ketchecum in the hope that he might regain his former vigor. He then went to Calgary and spent over a year in Denver, and at the Colorado Springs and at Los Crucius, about fifty miles from El Paso, Texas. Since the first of January he had been rapidly failing. Mr. N. D. Neill of Brantford left a few weeks ago, to bring his brother home. They left El Paso last Sunday, and a doctor at El Paso, said that if Dr. Neill lived until he passed a place two hundred miles distant, which is 7,000 feet above sea level, he probably would survive until he reached his home. A trained nurse accompanied them to Chicago. It was on Tuesday about noon, at the Rock Island station near Chicago, that the late Dr. Neill expired. The remains were brought to Toronto yesterday, and arrived in Peterborough on the local last night.

The late Chas. Neill was born in Barrie, 39 years ago. He had many warm friends in this city who will learn with deep regret of his death. The floral offerings were many and beautiful. Among them was the "Gates Ajar," from several friends in Peterborough.

The funeral took place this afternoon at two o'clock to Little Lake Cemetery, and was largely attended. Rev. E. A. Langfeldt, who was an intimate friend of the deceased, officiated. The pall-bearers were Messrs. Robert Neill, city, John Neill of Whitby, Sam Neill of Guelph, N. D. Neill of Brantford, brothers of the deceased, and Messrs. B. F. Reesor, Lindsay, and J. A. Phim, of Toronto, brothers-in-law.

The family will have the sympathy of a large circle of friends in their bereavement.
